

1. Questions

Study the following information carefully and answer the given questions.

Eight persons viz., P, Q, R, S, T, U, V and W are living in the four storeyed building, where the lowermost floor is numbered one and the floor immediately above that is numbered two and so on till the topmost floor is numbered four.

Note-I: Each floor has two types of flats viz., Flat A and Flat B, where Flat A is to the west of flat B.

Note-II: Flat B of floor 2 is immediately above Flat B of floor 1 and immediately below Flat B of floor 3 and so on. Similarly, Flat A of floor 2 is immediately above Flat A of floor 1 and immediately below Flat A of floor 3 and so on.

Note-III: Area of each flat on each floor is equal.

Note-IV: Only two persons live on each floor and only one person lives in each flat.

Only two floors are there between R and S, but both live in different flats. Q lives to the west of S. V lives two floors above U in the same flat. Neither W nor T lives in the same flat as V. As many floors above W as below P. T does not live on an odd-numbered floor.

On which of the following floor does U live?

- a. First
- b. Second
- c. Third
- d. Fourth
- e. Cannot be determined

@RankZen Banker

2. Questions

Who among the following persons lives on the top floor in Flat-B?

- a. P
- b. V
- c. U
- d. S
- e. Q

3. Questions

Which of the following pairs live on the same floor?

- a. R and U
- b. T and P
- c. W and V

- d. Q and S
- e. All of the above

4. Questions

Who among the following persons lives to the immediate west of V?

- a. Q
- b. W
- c. T
- d. R
- e. P

5. Questions

Which of the following statement(s) is/are TRUE with respect to the final arrangement?

- a. W lives to the west of U
- b. P lives in Flat-A
- c. W does not live on an even-numbered floor
- d. S lives below T
- e. V lives on the top floor

@RankZen Banker

6. Questions

Read the following information carefully and answer the given questions.

Eight persons - A, B, C, D, E, F, G and H were born on two different dates either 17th or 28th of four different months viz., April, May, June and July of the same year. Only one person was born on each date and only two persons were born in each month.

D was born on an odd-numbered date in the month having 31 days. Only two persons were born between D and G. The number of persons born before G is **one more than** the number of persons born after A. Neither H nor F was born on an odd-numbered date. E was born two persons before B. H and B were born in the same month.

Who among the following persons was born on 28th May?

- a. B
- b. A
- c. D
- d. G
- e. H

7. Questions

How many persons were born between D and B?

- a. None
- b. One
- c. Two
- d. Three
- e. More than three

8. Questions

Which of the following pairs were born in the same month?

- a. A and D
- b. E and G
- c. Both a and b
- d. C and G
- e. F and D

9. Questions

@RankZen Banker

Who among the following persons was born immediately before A?

- a. D
- b. F
- c. E
- d. G
- e. C

10. Questions

Four of the following five are alike in a certain way based on the given arrangement and thus form a group. Which one does not belong to the group?

- a. C
- b. D
- c. E
- d. B
- e. A

11. Questions

Study the following information carefully and answer the given questions.

Eight persons - M, N, O, P, Q, R, S and T are sitting around a circular table facing the centre with equal distance between adjacent persons.

S sits to the immediate right of P. Only two persons sit between P and Q. R sits opposite to the one who is an immediate neighbor of Q. Neither O nor M is an immediate neighbor of Q. As many persons sit between O and N as between T and M, when counted from the right of N and M. Only three persons sit between T and P. M is not an immediate neighbour of T.

Who among the following persons sits to the immediate left of P?

- a. R
- b. T
- c. O
- d. M
- e. Either c or d

12. Questions

How many persons sit between Q and R, when counted clockwise from Q?

- a. None
- b. One
- c. Two
- d. Three
- e. More than three

@RankZen Banker

13. Questions

Which of the following pair of persons sit adjacent to T?

- a. Q and O
- b. O and R
- c. N and Q
- d. P and M
- e. R and S

14. Questions

Which of the following statement(s) is/are TRUE with respect to the final arrangement?

- a. N sits opposite O
- b. M sits immediate right of R

- c. Q sits exactly between T and N
- d. S sits opposite to T
- e. O sits second to the left of S

15. Questions

What is the position of R with respect to M?

- a. Third to the left
- b. Third to the right
- c. Opposite
- d. Second to the right
- e. Fourth to the right

16. Questions

Read the following information carefully and answer the given questions

Eight persons - A, B, C, D, E, F, G and H are sitting in a linear row and facing the north.

B sits second from one of the extreme ends. Only two persons sit between B and H. F sits to the immediate right of H. The number of persons sitting to the left of F is **two less than** the number of persons sitting to the right of D. Neither A nor E sits at any end. C sits to the immediate right of A and to the left of G.

Who among the following persons sits to the immediate left of H?

- a. A
- b. C
- c. F
- d. E
- e. B

17. Questions

How many persons sit between D and H as per the final arrangement?

- a. None
- b. One
- c. Two
- d. Three
- e. More than three

18. Questions

Who sits at the extreme right end of the row as per the final arrangement?

- a. G
- b. H
- c. E
- d. F
- e. C

19. Questions

What is the position of E from the right end of the given arrangement?

- a. Third
- b. Fourth
- c. Second
- d. Fifth
- e. First

20. Questions

If all the persons are arranged in an alphabetical order from left to right, then who among the following persons remain unchanged in their position?

- a. A
- b. D
- c. B
- d. F
- e. Both c and d

21. Questions

Read the following information carefully and answer the given questions.

O V E F T D Y M R H D U J F S I K Y K V I G S G R K A E M

How many letters are immediately preceded by a consonant and immediately followed by a vowel?

- a. One
- b. More than three
- c. Three
- d. None
- e. Two

22. Questions

Which of the following elements is seventh to the left of the fifteenth letter from the left end?

- a. M
- b. R
- c. Y
- d. H
- e. D

23. Questions

How many vowels are immediately preceded as well as immediately followed by a consonant?

- a. One
- b. Two
- c. Three
- d. Four
- e. Five

24. Questions

@RankZen Banker

Which of the following letters is tenth from the right end of the series?

- a. K
- b. I
- c. G
- d. V
- e. S

25. Questions

If all vowels are changed to the next succeeding letter and all consonants changed to the previous preceding letter as in alphabetical series, how many vowels are there in the new series?

- a. One
- b. Two
- c. Three
- d. Four
- e. None of these

26. Questions

Read the following information carefully and answer the given questions.

D is the father-in-law of K. S is the only daughter of K. Q is the grandmother of S, who is the only sibling of P. Q, who has only one child, is married to T. M is the son-in-law of T and has only one sister. G is the daughter of L. L is the grand parent of P.

How is S related to L?

- a. Daughter
- b. Daughter-in-law
- c. Grand daughter
- d. Sister
- e. Sister-in-law

27. Questions

How many female members are there in the family?

- a. One
- b. Two
- c. Three
- d. Four
- e. Five

@RankZen Banker

28. Questions

If X is married to S, then how is X related to K?

- a. Son-in-law
- b. Son
- c. Brother
- d. Brother-in-law
- e. Cannot be determined

29. Questions

Read the following information carefully and answer the given questions.

J and K are the only children of P. Q is the daughter-in-law of L, who is married to P. J is the father of N but not married to Q. P is the grandfather of S, who is the only son of M. R is the cousin brother of S. M does not have any siblings.

How is J related to Q?

- a. Brother

- b. Brother-in-law
- c. Cousin brother
- d. Sister
- e. Sister-in-law

30. Questions

If Y is married to N, then how is M related to Y?

- a. Mother-in-law
- b. Mother
- c. Sister
- d. Sister-in-law
- e. Cannot be determined

31. Questions

In the given questions, the relationship between different elements is shown in the statements followed by some conclusions. Find the conclusion which is definitely true.

Statements:

$$A \geq B = C \geq D; F > D \geq E = G$$

@RankZen Banker

Conclusions:

I). $C > G$

II). $B = E$

- a. Both conclusions I and II are true
- b. Either Conclusion I or II is true
- c. Only conclusion I is true
- d. Only conclusion II is true
- e. Neither Conclusion I nor II is true

32. Questions

Statements:

$$P \geq Q \geq R = S; V \leq U < S = T$$

Conclusions:

I). $Q > V$

II). $T < P$

- a. Both conclusions I and II are true
- b. Either Conclusion I or II is true
- c. Only conclusion I is true
- d. Only conclusion II is true
- e. Neither Conclusion I nor II is true

33. Questions

Statements:

$$C \geq A > D = B; F < H = D \leq G$$

Conclusions:

I). $G \geq A$

II). $C > F$

- a. Neither Conclusion I nor II is true
- b. Only conclusion I is true
- c. Both conclusions I and II are true
- d. Either Conclusion I or II is true
- e. Only conclusion II is true

@RankZen Banker

34. Questions

Statements:

$$R = P \geq T \geq S; V < U = T \leq W$$

Conclusions:

I). $R > U$

II). $W \geq P$

- a. Neither Conclusion I nor II is true
- b. Either Conclusion I or II is true
- c. Only conclusion I is true
- d. Only conclusion II is true
- e. Both conclusions I and II are true

35. Questions

Statements:

$$Y \geq X > A = Z; C > B = A \leq D$$

Conclusions:I). $B < Y$ II). $D \geq Z$

- a. Neither Conclusion I nor II is true
- b. Only conclusion I is true
- c. Either Conclusion I or II is true
- d. Both conclusions I and II are true
- e. Only conclusion II is true

36. Questions

Study the following information carefully and answer the given questions.

Seven employees - P, Q, R, S, T, U and V are working in a company and receive different bonuses.

Q received less than S but more than T. Only two persons received more than Q. T received less than P but more than R. As many persons scored less than P as more than U. V received 5k but less than R. S did not receive the highest bonus. The one who received second highest received 25k.

Which of the following can be the possible bonus received by P?

- a. 20k
- b. 30k
- c. 15k
- d. 2k
- e. 10k

@RankZen Banker

37. Questions

If the bonuses received by Q and S is 45k and the sum of the bonuses received by V and U is 7k, then what is the difference between the bonuses received by Q and U?

- a. 15k
- b. 10k
- c. 16k
- d. 17k
- e. 18k

38. Questions

How many employees received more than V but less than Q?

- a. None

- b. One
- c. Two
- d. Three
- e. Four

39. Questions

Study the following information carefully and answer the given questions.

Seven kids - A, B, C, D, E, F and G participated in a game and scored different scores .

A scored more than only two persons. B scored less than D but more than F. D did not score the highest. F scored more than C. Only two persons scored between C and E, who scored 95. The one who scored the lowest score was 40.

Who scored more than E but less than G?

- a. D
- b. B
- c. Both option a and b
- d. F
- e. A

@RankZen Banker

40. Questions

If the scores scored by G and E is 245 and the sum of the scores scored by A and C is 115, then what is the difference between the scores scored by G and A?

- a. 75
- b. 80
- c. 90
- d. 60
- e. 50

Explanations:

1. Questions

Final arrangement:

Floors	Flat A	Flat B
4	Q	S
3	W	V
2	T	P
1	R	U

We have,

- Only two floors are there between R and S, and both live in different flats.
- Q lives to the west of S.

From the above conditions, there are two possibilities

Floors	Case-1		Case-2	
	Flat A	Flat B	Flat A	Flat B
4	R		Q	S
3				
2				
1	Q	S	R	

@RankZen Banker

Again we have,

- V lives two floors above U in the same flat.
- Neither W nor T lives in the same flat as V.

Floors	Case-1		Case-2	
	Flat A	Flat B	Flat A	Flat B
4	R	V	Q	S
3	W/T		W/T	V
2	W/T	U	W/T	
1	Q	S	R	U

Again we have,

- As many floors above W as below P.
- T does not live on an odd-numbered floor.

From the above conditions, case-1 gets eliminated because T does not live on an odd-numbered floor, which is not satisfied.

Hence, Case-2 shows the final arrangement.

Floors	Case-1		Case-2	
	Flat A	Flat B	Flat A	Flat B
4	R	V	Q	S
3	T	P	W	V
2	W	U	T	P
1	Q	S	R	U

Answer: A

2. Questions

@RankZen Banker

Final arrangement:

Floors	Flat A	Flat B
4	Q	S
3	W	V
2	T	P
1	R	U

We have,

- Only two floors are there between R and S, and both live in different flats.
- Q lives to the west of S.

From the above conditions, there are two possibilities

Floors	Case-1		Case-2	
	Flat A	Flat B	Flat A	Flat B
4	R		Q	S
3				
2				
1	Q	S	R	

Again we have,

- V lives two floors above U in the same flat.
- Neither W nor T lives in the same flat as V.

Floors	Case-1		Case-2	
	Flat A	Flat B	Flat A	Flat B
4	R	V	Q	S
3	W/T		W/T	V
2	W/T	U	W/T	
1	Q	S	R	U

Again we have,

- As many floors above W as below P.
- T does not live on an odd-numbered floor.

From the above conditions, case-1 gets eliminated because T does not live on an odd-numbered floor, which is not satisfied.

Hence, Case-2 shows the final arrangement.

@RankZen Banker

Floors	Case-1		Case-2	
	Flat A	Flat B	Flat A	Flat B
4	R	V	Q	S
3	T	P	W	V
2	W	U	T	P
1	Q	S	R	U

Answer: D

3. Questions

Final arrangement:

Floors	Flat A	Flat B
4	Q	S
3	W	V
2	T	P
1	R	U

@RankZen Banker

We have,

- Only two floors are there between R and S, and both live in different flats.
- Q lives to the west of S.

From the above conditions, there are two possibilities

Floors	Case-1		Case-2	
	Flat A	Flat B	Flat A	Flat B
4	R		Q	S
3				
2				
1	Q	S	R	

Again we have,

- V lives two floors above U in the same flat.
- Neither W nor T lives in the same flat as V.

Floors	Case-1		Case-2	
	Flat A	Flat B	Flat A	Flat B
4	R	V	Q	S
3	W/T		W/T	V
2	W/T	U	W/T	
1	Q	S	R	U

Again we have,

- As many floors above W as below P.
- T does not live on an odd-numbered floor.

From the above conditions, case-1 gets eliminated because T does not live on an odd-numbered floor, which is not satisfied.

Hence, Case-2 shows the final arrangement.

@RankZen Banker

Floors	Case-1		Case-2	
	Flat A	Flat B	Flat A	Flat B
4	R	V	Q	S
3	T	P	W	V
2	W	U	T	P
1	Q	S	R	U

Answer: E

4. Questions

Final arrangement:

Floors	Flat A	Flat B
4	Q	S
3	W	V
2	T	P
1	R	U

We have,

- Only two floors are there between R and S, and both live in different flats.
- Q lives to the west of S.

From the above conditions, there are two possibilities

Floors	Case-1		Case-2	
	Flat A	Flat B	Flat A	Flat B
4	R		Q	S
3				
2				
1	Q	S	R	

@RankZen Banker

Again we have,

- V lives two floors above U in the same flat.
- Neither W nor T lives in the same flat as V.

Floors	Case-1		Case-2	
	Flat A	Flat B	Flat A	Flat B
4	R	V	Q	S
3	W/T		W/T	V
2	W/T	U	W/T	
1	Q	S	R	U

Again we have,

- As many floors above W as below P.
- T does not live on an odd-numbered floor.

From the above conditions, case-1 gets eliminated because T does not live on an odd-numbered floor, which is not satisfied.

Hence, Case-2 shows the final arrangement.

Floors	Case-1		Case-2	
	Flat A	Flat B	Flat A	Flat B
4	R	V	Q	S
3	T	P	W	V
2	W	U	T	P
1	Q	S	R	U

Answer: B

5. Questions

@RankZen Banker

Final arrangement:

Floors	Flat A	Flat B
4	Q	S
3	W	V
2	T	P
1	R	U

We have,

- Only two floors are there between R and S, and both live in different flats.
- Q lives to the west of S.

From the above conditions, there are two possibilities

Floors	Case-1		Case-2	
	Flat A	Flat B	Flat A	Flat B
4	R		Q	S
3				
2				
1	Q	S	R	

Again we have,

- V lives two floors above U in the same flat.
- Neither W nor T lives in the same flat as V.

Floors	Case-1		Case-2	
	Flat A	Flat B	Flat A	Flat B
4	R	V	Q	S
3	W/T		W/T	V
2	W/T	U	W/T	
1	Q	S	R	U

@RankZen Banker

Again we have,

- As many floors above W as below P.
- T does not live on an odd-numbered floor.

From the above conditions, case-1 gets eliminated because T does not live on an odd-numbered floor, which is not satisfied.

Hence, Case-2 shows the final arrangement.

Floors	Case-1		Case-2	
	Flat A	Flat B	Flat A	Flat B
4	R	V	Q	S
3	T	P	W	V
2	W	U	T	P
1	Q	S	R	U

Answer: C

6. Questions

Final Arrangement:

Months	Dates	Persons
April	17	C
	28	F
May	17	D
	28	A
June	17	E
	28	G
July	17	B
	28	H

@RankZen Banker

We have,

- D was born on an odd-numbered date in the month having 31 days.
- Only two persons were born between D and G.

From the above conditions, there are two possibilities.

Months	Dates	Case-1	Case-2
		Persons	Persons
April	17		
	28		
May	17	D	
	28		G
June	17		
	28	G	
July	17		D
	28		

Again, we have,

- The number of persons born before G is **one more than** the number of persons born after A.
- Neither H nor F was born on an odd-numbered date.

@RankZen Banker

Months	Dates	Case-1	Case-2
		Persons	Persons
April	17		
	28	H/F	H/F
May	17	D	
	28	A	G
June	17		
	28	G	A
July	17		D
	28	H/F	H/F

Again, we have,

- E was born two persons before B.
- H and B were born in the same month.

From the above conditions, case-2 gets eliminated because E was born two persons before B, which is not satisfied.

Hence, case-1 shows the final arrangement.

Months	Dates	Case-1	Case-2
		Persons	Persons
April	17	C	B
	28	F	H

	28	A	G
June	17		
	28	G	A
July	17		D
	28	H/F	H/F

Again, we have,

- E was born two persons before B.
- H and B were born in the same month.

@RankZen Banker

From the above conditions, case-2 gets eliminated because E was born two persons before B, which is not satisfied.

Hence, case-1 shows the final arrangement.

Months	Dates	Case-1	Case-2
		Persons	Persons
April	17	C	B
	28	F	H
May	17	D	
	28	A	G
June	17	E	
	28	G	A
July	17	B	D
	28	H	F

Answer: A

10. Questions

@RankZen Banker

Final Arrangement:

Months	Dates	Persons
April	17	C
	28	F
May	17	D
	28	A
June	17	E
	28	G
July	17	B
	28	H

We have,

- D was born on an odd-numbered date in the month having 31 days.

- Only two persons were born between D and G.

From the above conditions, there are two possibilities.

Months	Dates	Case-1	Case-2
		Persons	Persons
April	17		
	28		
May	17	D	
	28		G
June	17		
	28	G	
July	17		D
	28		

@RankZen Banker

Again, we have,

- The number of persons born before G is **one more than** the number of persons born after A.
- Neither H nor F was born on an odd-numbered date.

Months	Dates	Case-1	Case-2
		Persons	Persons
April	17		
	28	H/F	H/F
May	17	D	
	28	A	G
June	17		
	28	G	A
July	17		D
	28	H/F	H/F

Again, we have,

- E was born two persons before B.
- H and B were born in the same month.

@RankZen Banker

From the above conditions, case-2 gets eliminated because E was born two persons before B, which is not satisfied.

Hence, case-1 shows the final arrangement.

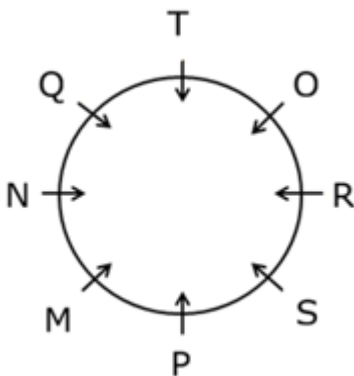

Months	Dates	Case-1	Case-2
		Persons	Persons
April	17	C	B
	28	F	H
May	17	D	
	28	A	G
June	17	E	
	28	G	A
July	17	B	D
	28	H	F

Answer: E (All persons were born on odd numbered date, except in option e)

11. Questions

@RankZen Banker

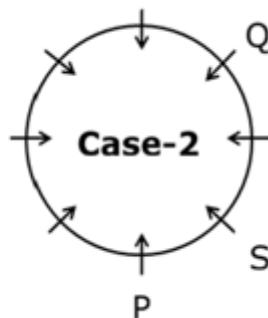

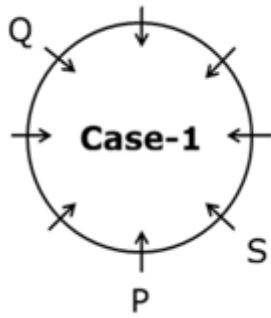

Final arrangement:

We have,

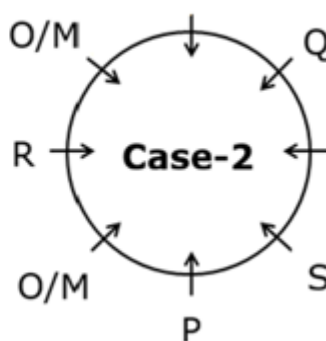

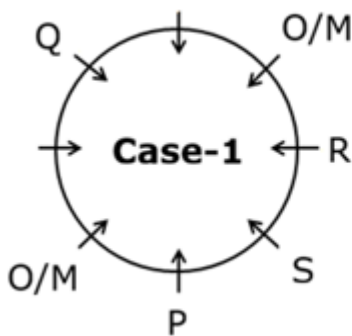

- S sits to the immediate right of P.
- Only two persons sit between P and Q.

From the above conditions, there are two possibilities.

Again, we have,

- R sits opposite to the one who is an immediate neighbor of Q.
- Neither O nor M is an immediate neighbor of Q.

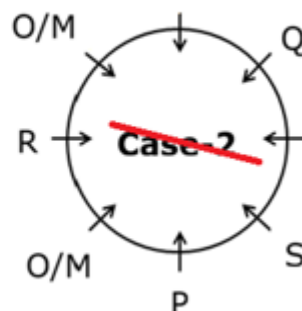

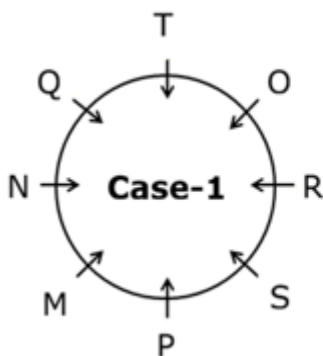

Again, we have,

@RankZen Banker

- As many persons sit between O and N as between T and M, when counted to the right of N and M.
- Only three persons sit between T and P.
- M is not an immediate neighbour of T.

From the above conditions, case-2 gets eliminated because As many persons sit between O and N as between T and M, when counted from the right of N and M, which is not satisfied.

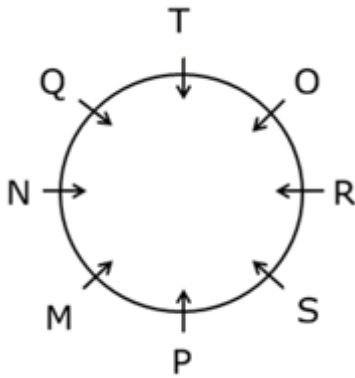

Hence, case-1 shows the final arrangement.

Answer: D

12. Questions

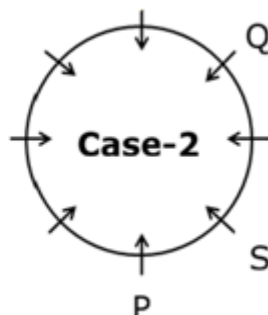

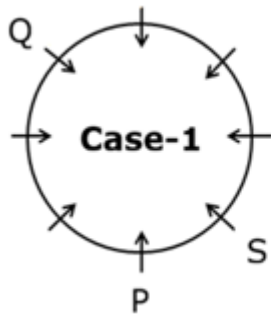

Final arrangement:

We have,

- S sits to the immediate right of P.
- Only two persons sit between P and Q.

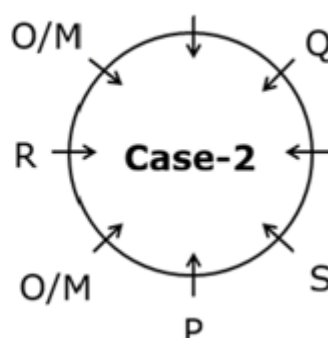

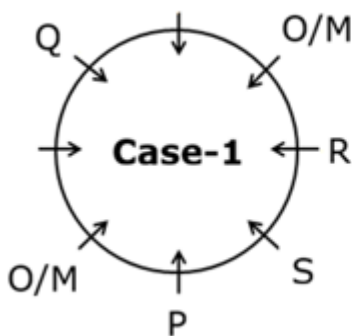

From the above conditions, there are two possibilities.

@RankZen Banker

Again, we have,

- R sits opposite to the one who is an immediate neighbor of Q.
- Neither O nor M is an immediate neighbor of Q.

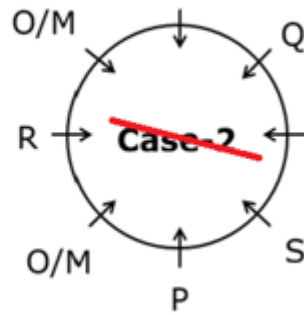

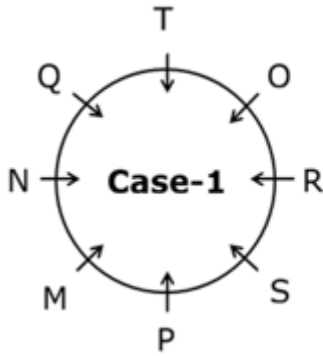

Again, we have,

- As many persons sit between O and N as between T and M, when counted to the right of N and M.
- Only three persons sit between T and P.
- M is not an immediate neighbour of T.

From the above conditions, case-2 gets eliminated because As many persons sit between O and N as between T and M, when counted from the right of N and M, which is not satisfied.

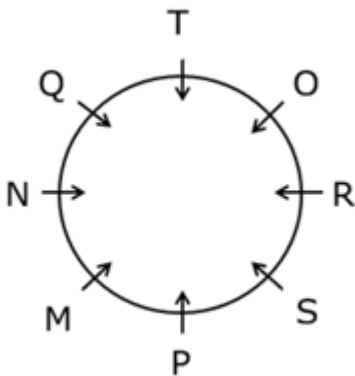

Hence, case-1 shows the final arrangement.

Answer: C

13. Questions

Final arrangement:

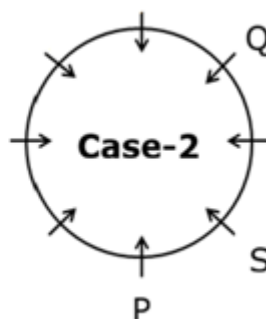

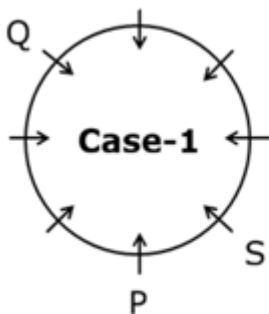

@RankZen Banker

We have,

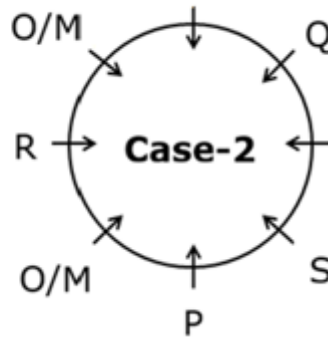

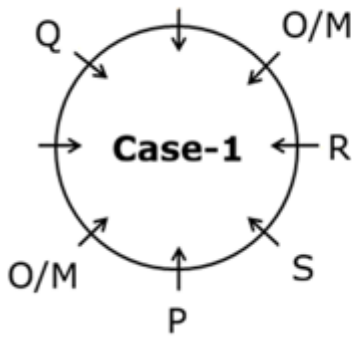

- S sits to the immediate right of P.
- Only two persons sit between P and Q.

From the above conditions, there are two possibilities.

Again, we have,

- R sits opposite to the one who is an immediate neighbor of Q.
- Neither O nor M is an immediate neighbor of Q.

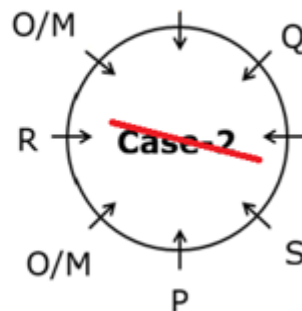

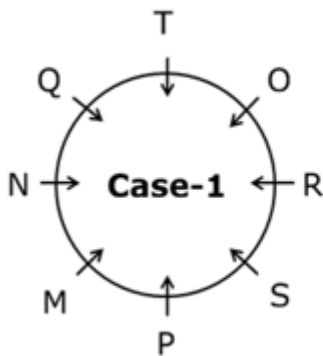

Again, we have,

- As many persons sit between O and N as between T and M, when counted to the right of N and M.
- Only three persons sit between T and P.
- M is not an immediate neighbour of T.

From the above conditions, case-2 gets eliminated because As many persons sit between O and N as between T and M, when counted from the right of N and M, which is not satisfied.

Hence, case-1 shows the final arrangement.

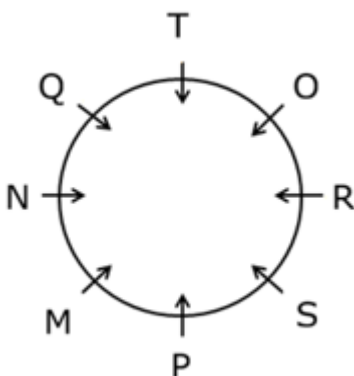

@RankZen Banker

Answer: A

14. Questions

Final arrangement:

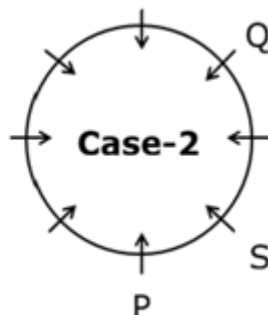

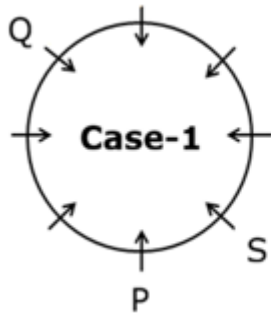

We have,

- S sits to the immediate right of P.

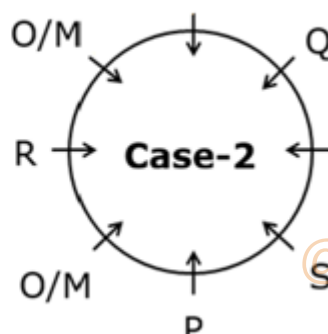

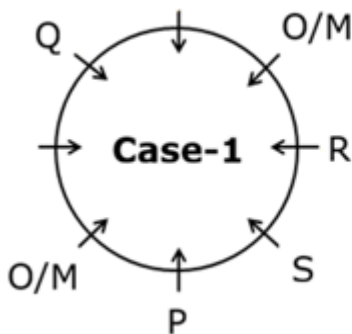

- Only two persons sit between P and Q.

From the above conditions, there are two possibilities.

Again, we have,

- R sits opposite to the one who is an immediate neighbor of Q.
- Neither O nor M is an immediate neighbor of Q.

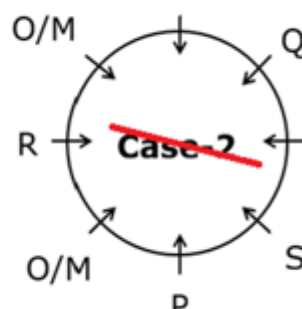

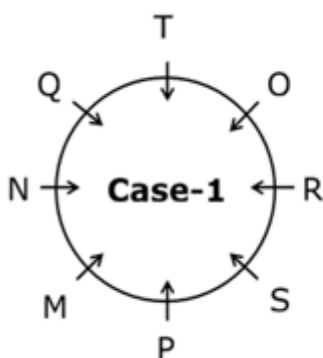

@RankZen Banker

Again, we have,

- As many persons sit between O and N as between T and M, when counted to the right of N and M.
- Only three persons sit between T and P.
- M is not an immediate neighbour of T.

From the above conditions, case-2 gets eliminated because As many persons sit between O and N as between T and M, when counted from the right of N and M, which is not satisfied.

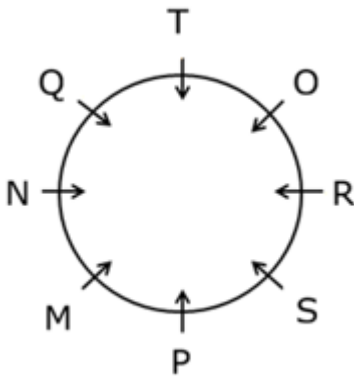

Hence, case-1 shows the final arrangement.

Answer: C

15. Questions

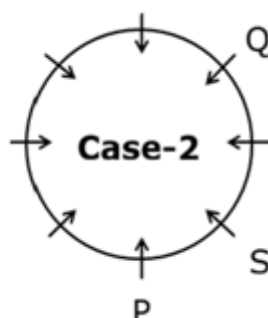

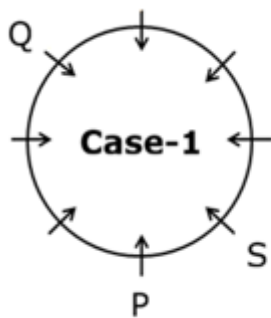

Final arrangement:

We have,

- S sits to the immediate right of P.
- Only two persons sit between P and Q.

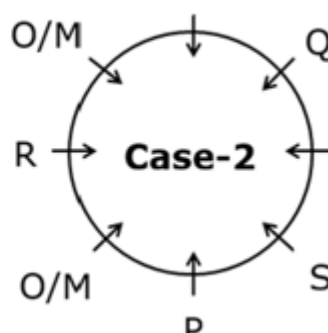

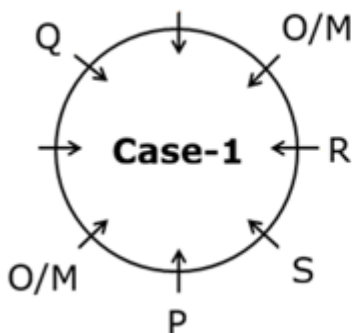

From the above conditions, there are two possibilities.

@RankZen Banker

Again, we have,

- R sits opposite to the one who is an immediate neighbor of Q.
- Neither O nor M is an immediate neighbor of Q.

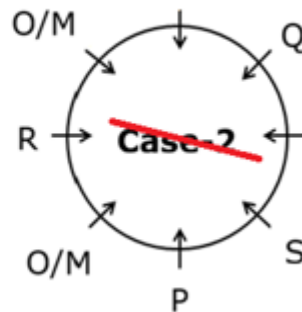

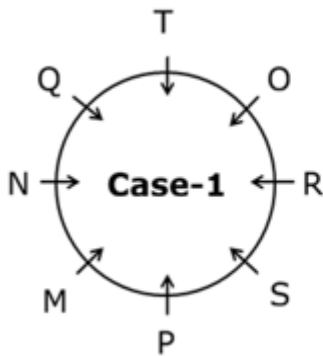

Again, we have,

- As many persons sit between O and N as between T and M, when counted to the right of N and M.
- Only three persons sit between T and P.
- M is not an immediate neighbour of T.

From the above conditions, case-2 gets eliminated because As many persons sit between O and N as between T and M, when counted from the right of N and M, which is not satisfied.

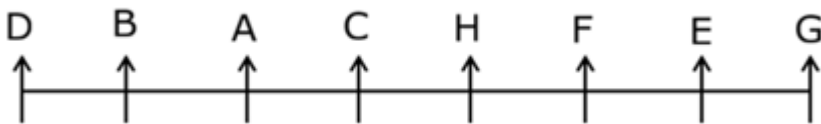

Hence, case-1 shows the final arrangement.

Answer: B

16. Questions

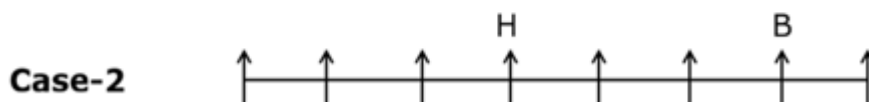

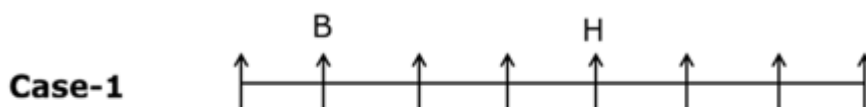

Final Arrangement:

We have,

- B sits second from one of the extreme ends.
- Only two persons sit between B and H.

From the above conditions, there are two possibilities.

Again, we have,

- F sit immediate to the right of H.
- The number of persons sitting to the left of F is **two less than** the number of persons sitting to the right of D.

@RankZen Banker

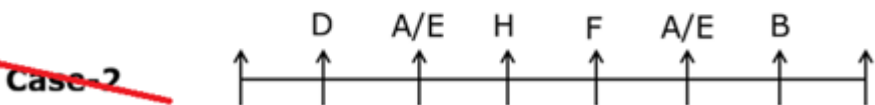

Again, we have,

- Neither A nor E sits at any end.
- C sits to the immediate right of A and to the left of G.

From the above conditions, case-2 gets eliminated because C sits to the right of A and to the left of G, which is not satisfied.

Hence, case-1 shows the final arrangement.

@RankZen Banker

Answer: B

17. Questions

Final Arrangement:

We have,

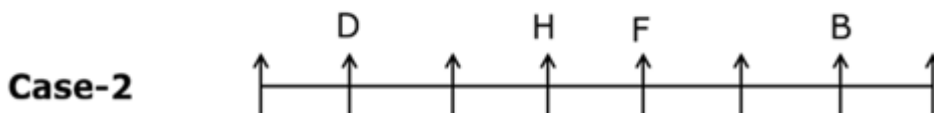

- B sits second from one of the extreme ends.
- Only two persons sit between B and H.

From the above conditions, there are two possibilities.

Again, we have,

- F sit immediate to the right of H.
- The number of persons sitting to the left of F is **two less than** the number of persons sitting to the right of D.

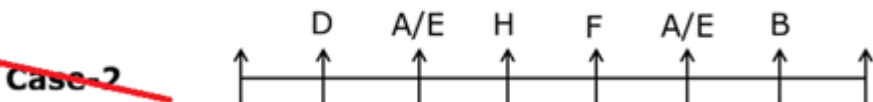

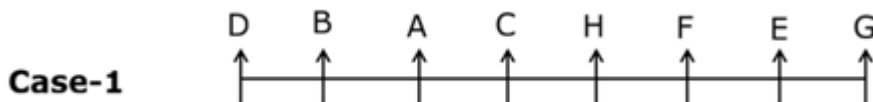

Again, we have,

- Neither A nor E sits at any end.
- C sits to the immediate right of A and to the left of G.

@RankZen Banker

From the above conditions, case-2 gets eliminated because C sits to the right of A and to the left of G, which is not satisfied.

Hence, case-1 shows the final arrangement.

Answer: D

18. Questions

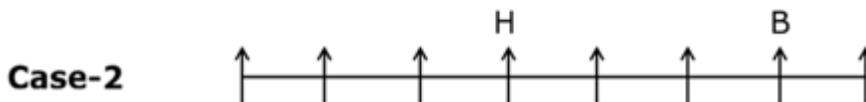

Final Arrangement:

We have,

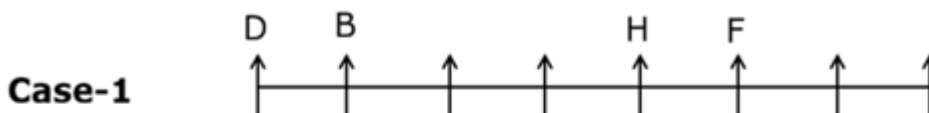

- B sits second from one of the extreme ends.
- Only two persons sit between B and H.

From the above conditions, there are two possibilities.

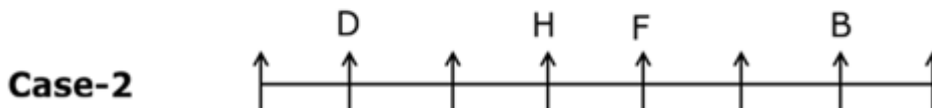

Again, we have,

- F sit immediate to the right of H.
- The number of persons sitting to the left of F is **two less than** the number of persons sitting to the right of D.

@RankZen Banker

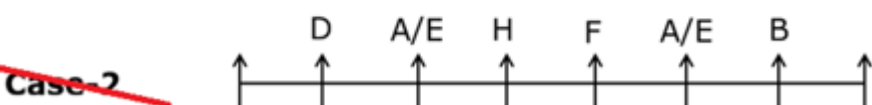

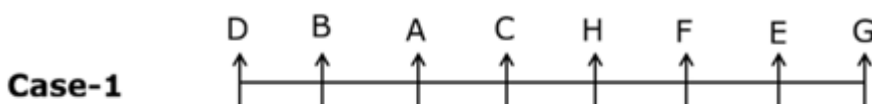

Again, we have,

- Neither A nor E sits at any end.
- C sits to the immediate right of A and to the left of G.

From the above conditions, case-2 gets eliminated because C sits to the right of A and to the left of G, which is not satisfied.

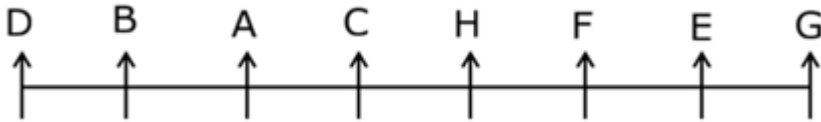

Hence, case-1 shows the final arrangement.

Answer: A

19. Questions

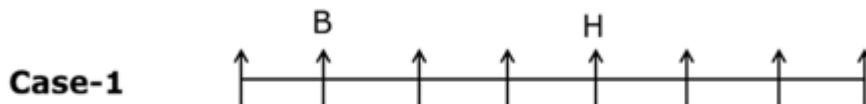

Final Arrangement:

We have,

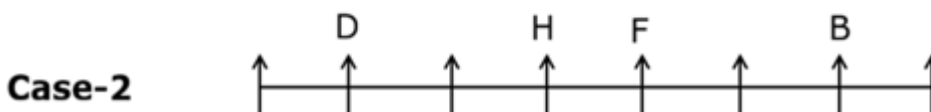

- B sits second from one of the extreme ends.
- Only two persons sit between B and H.

From the above conditions, there are two possibilities.

Again, we have,

- F sit immediate to the right of H.
- The number of persons sitting to the left of F is **two less than** the number of persons sitting to the right of D.

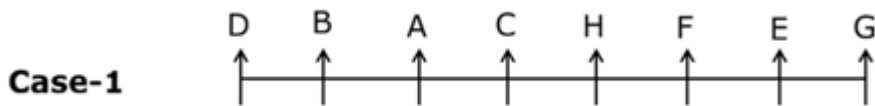

Again, we have,

- Neither A nor E sits at any end.
- C sits to the immediate right of A and to the left of G.

From the above conditions, case-2 gets eliminated because C sits to the right of A and to the left of G, which is not satisfied.

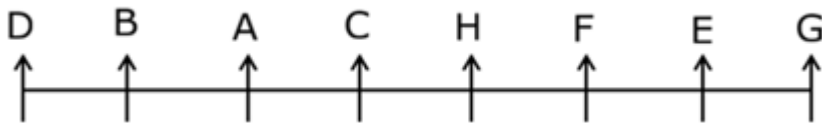

Hence, case-1 shows the final arrangement.

Answer: C

20. Questions

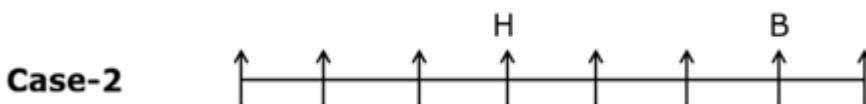

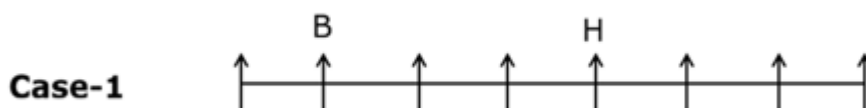

Final Arrangement:

We have,

- B sits second from one of the extreme ends.
- Only two persons sit between B and H.

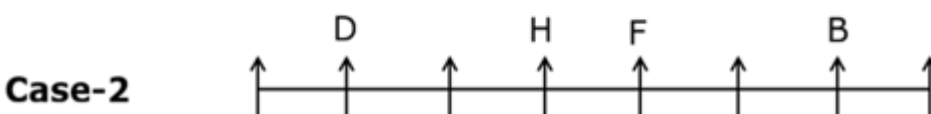

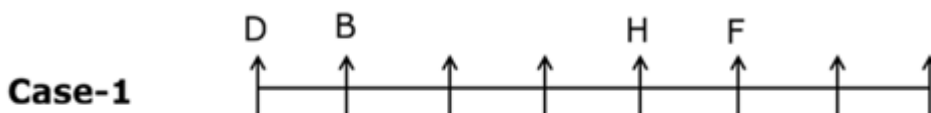

From the above conditions, there are two possibilities.

@RankZen Banker

Again, we have,

- F sit immediate to the right of H.
- The number of persons sitting to the left of F is **two less than** the number of persons sitting to the right of D.

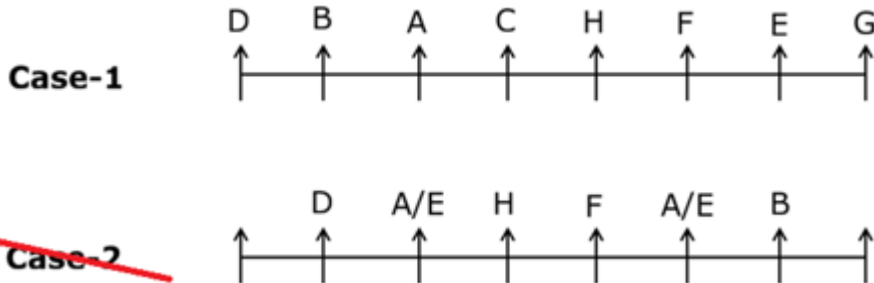

Again, we have,

- Neither A nor E sits at any end.
- C sits to the immediate right of A and to the left of G.

From the above conditions, case-2 gets eliminated because C sits to the right of A and to the left of G, which is not satisfied.

Hence, case-1 shows the final arrangement.

Answer: E (B and F remain unchanged in their position)

21. Questions

Answer: B

O V E F T D Y M R **H D U J F S I K Y K V I G S G R K A E M**

More than three letters (FIVE) are immediately preceded by a consonant and immediately followed by a vowel.

22. Questions

Answer: A

O V E F T D Y M R **H D U J F S I K Y K V I G S G R K A E M**

M is seventh to the left of the fifteenth letter from the left end.

23. Questions

Answer: D

O V E F T D Y M R **H D U J F S I K Y K V I G S G R K A E M**

Four vowels are immediately preceded as well as immediately followed by a consonant.

24. Questions

Answer: D

O V E F T D Y M R **H D U J F S I K Y K V I G S G R K A E M**

25. Questions

Answer: E

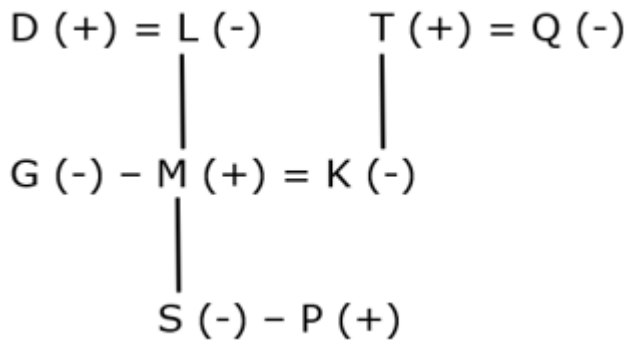

O V E F T D Y M R **H D U J F S I K Y K V I G S G R K A E M**

After rearranging, we get

P U F **E** S C X L Q G C V I **E** R J J X J U J F R F Q J B F L

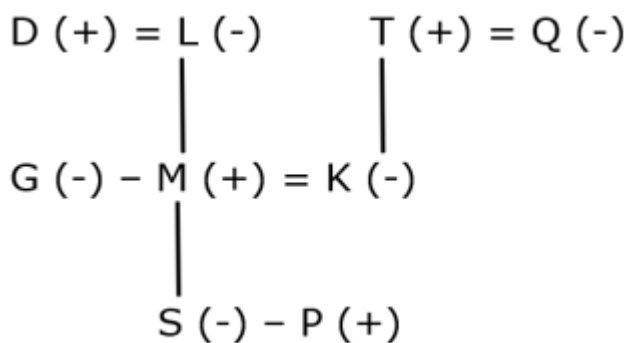

Five vowels are there in the new series.

26. Questions

Answer: C

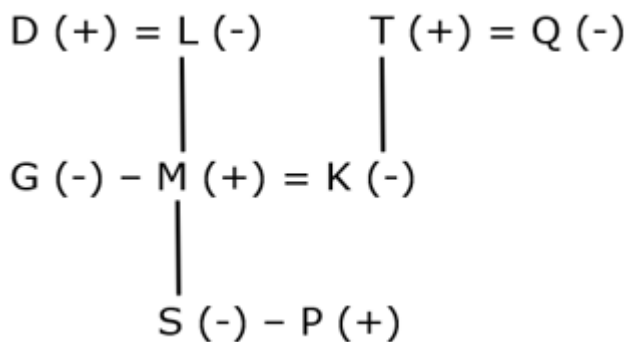

27. Questions

@RankZen Banker

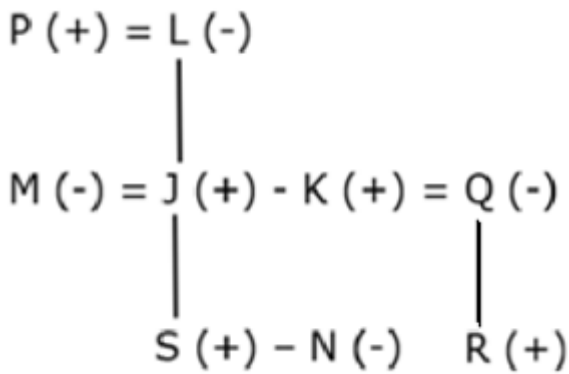

Answer: E

28. Questions

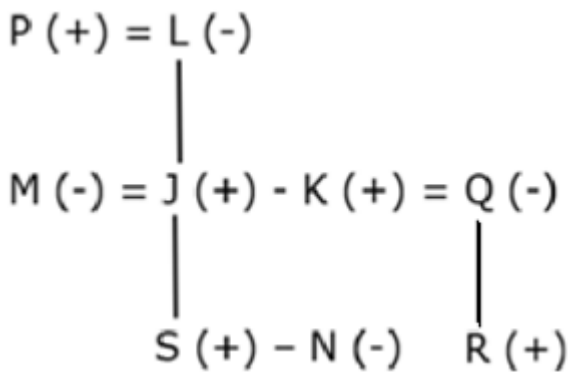

Answer: A

29. Questions

Answer: B

30. Questions

Answer: A

31. Questions

Answer: B

$A \geq B = C \geq D; F > D \geq E = G$

Conclusions:

I). $C > G$ ($C \geq D \geq E = G$) ? Not definitely false

II). $B = E$ ($B = C \geq D \geq E$) ? Not definitely false

From I and II, we can say either I or II is true

32. Questions

Answer: C

$P \geq Q \geq R = S; V \leq U < S = T$

Conclusions:

I). $Q > V$ ($Q \geq R = S > U \geq V$) ? True

II). $T < P$ ($T = S = R \leq Q \leq P$) ? False

33. Questions

Answer: E

@RankZen Banker

$C \geq A > D = B; F < H = D \leq G$

Conclusions:

I). $G \geq A$ ($G \geq D < A$) ❌ False

II). $C > F$ ($C \geq A > D = H > F$) ✅ True

34. Questions

Answer: A

$R = P \geq T \geq S; V < U = T \leq W$

Conclusions:

I). $R > U$ ($R = P \geq T = U$) ❌ False

II). $W \geq P$ ($W \geq T \leq P$) ❌ False

35. Questions

Answer: D

$Y \geq X > A = Z; C > B = A \leq D$

Conclusions:

I). $B < Y$ ($B = A < X \leq Y$) ✅ True

II). $D \geq Z$ ($D \geq A = Z$) ✅ True

36. Questions

Final arrangement:

$P > S$ (25k) $> Q > T > R > V$ (5k) $> U$

- Q received less than S but more than T.

$S > Q > T$

- Only two persons received more than Q.

$_ > _ > Q > _ > _ > _ > _$

- T scored less than P but more than R.
- As many persons scored less than P as more than U.
- V received 5k but less than R.
- S did not receive the highest bonus.
- The one who received second highest received 25k.

$P > S$ (25k) $> Q > T > R > V$ (5k) $> U$

Answer: B

37. Questions

Final arrangement:

$P > S$ (25k) $> Q > T > R > V$ (5k) $> U$

@RankZen Banker

- Q received less than S but more than T.

$$S > Q > T$$

- Only two persons received more than Q.

$$_ > _ > Q > _ > _ > _ > _$$

- T scored less than P but more than R.
- As many persons scored less than P as more than U.
- V received 5k but less than R.
- S did not receive the highest bonus.
- The one who received second highest received 25k.

$$P > S (25k) > Q > T > R > V (5k) > U$$

Answer: E

$$Q + S = 45k$$

$$Q + 25 = 45k$$

$$Q = 20k$$

$$V + U = 7k$$

$$5 + U = 7k$$

$$U = 2k$$

$$Q - U = 18k$$

38. Questions

Final arrangement:

$$P > S (25k) > Q > T > R > V (5k) > U$$

- Q received less than S but more than T.

$$S > Q > T$$

- Only two persons received more than Q.

$$_ > _ > Q > _ > _ > _ > _$$

- T scored less than P but more than R.
- As many persons scored less than P as more than U.
- V received 5k but less than R.
- S did not receive the highest bonus.
- The one who received second highest received 25k.

$$P > S (25k) > Q > T > R > V (5k) > U$$

Answer: C

39. Questions

Final arrangement:

@RankZen Banker

$G > D > B > E (95) > A > F > C (40)$

- A scored more than only two persons.

$_ > _ > _ > _ > A > _ > _$

- B scored less than D but more than F.

$D > B > F$

- D did not score the highest.
- F scored more than C.
- Only two persons scored between C and E, who scored 95.
- The one who scored the lowest score was

$E > _ > F > C$ (or) $E > F > _ > C$

$G > D > B > E (95) > A > F > C (40)$

Answer: C

40. Questions

Final arrangement:

$G > D > B > E (95) > A > F > C (40)$

- A scored more than only two persons.

$_ > _ > _ > _ > A > _ > _$

- B scored less than D but more than F.

$D > B > F$

- D did not score the highest.
- F scored more than C.
- Only two persons scored between C and E, who scored 95.
- The one who scored the lowest score was

$E > _ > F > C$ (or) $E > F > _ > C$

$G > D > B > E (95) > A > F > C (40)$

Answer: A

$$G + E = 245$$

$$G + 95 = 245$$

$$G = 150$$

$$A + C = 115$$

$$A + 40 = 115$$

$$A = 75$$

$$G - A = 75$$

@RankZen Banker
