

1. Questions

Study the following information carefully and answer the given questions.

A certain number of people are sitting in a linear row and facing North.

A sits fourth to the right of B. Only seven people sit between B and D. The number of people who sit between F and X is the same as the number of people who sit between D and E, who sits third to the left of B. F sits to the immediate right of A. As many people sit to the left of F as to the right of E. Not more than fifteen people sit in a row.

How many people are there in the row as per the final arrangement?

- a. 13
- b. 12
- c. 14
- d. 11
- e. 15

2. Questions

Who among the following person sits seventh to the right of E?

- a. D
- b. X
- c. A
- d. F
- e. None of these

3. Questions

Which of the following statement(s) is/are TRUE in as per the final arrangement?

- a. Six people sit between D and A
- b. Only two people sit between E and B
- c. A sits fifth to the right of F
- d. Not more than two people sit between B and X
- e. None of these

@RankZen Banker

4. Questions

Who among the following persons sits at the ends?

- a. D

- b. F
- c. E
- d. B
- e. A

5. Questions

If L sits second to the left of A, then who among the following person sits sixth to the left of L?

- a. F
- b. The one who sits to the immediate left of E
- c. X
- d. Both b and e
- e. The one who sits fourth to the left of B

6. Questions

Study the following information carefully and answer the given questions.

Six people - P, Q, R, S, T and U attended the seminar on two different dates either 15th or 18th, of three different months viz., January, April and June of the same year. Only one person attended the seminar on each date and only two people attended the seminar in each month.

P attended the seminar on an odd-numbered date in the month having an even-number of days. Only two people attended between P and Q. R attended immediately before Q. As many people attended after R as before S. U attended after T, but not immediately after T.

If all the people are arranged in alphabetical order from January 15th, then how many people remain unchanged in their position?

- a. Two
- b. Four
- c. Three
- d. One
- e. None

@RankZen Banker

7. Questions

Who among the following person attend the seminar on an even-numbered date as per the final arrangement?

- a. S
- b. R

- c. Both a and e
- d. P
- e. U

8. Questions

Four of the following five are alike in a certain way based on the given arrangement and thus form the group. Which one does not belong to the group?

- a. T
- b. R
- c. Q
- d. P
- e. U

9. Questions

How many people attended the seminar before U?

- a. Two
- b. One
- c. None
- d. Three
- e. More than three

10. Questions

Which of the following combinations is true with respect to the final arrangement?

- a. April 15th- S
- b. January 15th-T
- c. April 18th-P
- d. June 15th- Q
- e. None of the above

@RankZen Banker

11. Questions

Study the following information carefully and answer the given questions.

Seven Persons- J, K, L, M, N, O, and P watch different movies viz., Horror, Action, and Adventure. At least two but not more than three persons watch the same movie.

J does not watch horror movies. K watches an action movie. A prime number of persons watch action

movies. P watches neither horror movies nor adventure movies. M watches a movie only with N. L and O do not watch the different movies. An even number of persons watch a movie with O.

Four of the following five are alike in a certain way based on the given arrangement and thus form the group. Which one does not belong to the group?

- a. MN
- b. KP
- c. JO
- d. LO
- e. PN

12. Questions

Who among the following persons watches horror movies as per the final arrangement?

- a. both b and e
- b. M
- c. J
- d. K
- e. N

13. Questions

What is the sum of the number of persons who watch action and adventure movies as per the final arrangement?

- a. Four
- b. Three
- c. Five
- d. One
- e. Two

@RankZen Banker

14. Questions

Which of the following statements is true with respect to the final arrangement?

- a. An even number of persons watch a movie with J
- b. A prime number of persons watch adventure movies
- c. N watches a movie with K
- d. both b and a
- e. An odd number of persons watch a movie with L

15. Questions

Who among the following person watches an adventure movie as per the final arrangement?

- a. K
- b. J
- c. P
- d. M
- e. N

16. Questions

Study the following information carefully and answer the given questions.

Eight persons, A, B, C, D, E, F, G and H are sitting around a square table in such a way that four of them are sitting at the corners and facing the centre while four of them are sitting in the middle of the sides and facing outside (**opposite to the centre**).

A sits second to the right of B. Two persons sit between B and C, who does not sit adjacent to A. D sits to the immediate left of E. F sits fourth to the right of E. The number of persons who sit between F and G is **one less than** the number of persons who sit between G and H, when counted from the left of F and the right of G respectively. H doesn't face outside.

Who among the following persons sits to the immediate right of G as per the final arrangement?

- a. B
- b. A
- c. F
- d. D
- e. C

17. Questions

If all the persons are arranged in alphabetical order from A in the clockwise direction, then how many persons remain unchanged in their positions (excluding A)?

- a. Two
- b. None
- c. One
- d. Three
- e. Four

18. Questions

What is the position of E with respect to A as per the final arrangement?

- a. Second to the left
- b. Third to the left
- c. Second to the right
- d. Immediate left
- e. Immediate right

19. Questions

Which of the following statements is true with respect to the final arrangement?

- a. D sits second to the right of G
- b. F sits third to the left of A
- c. Only two persons sit between G and A
- d. F sits to the immediate left of H
- e. Both b and d

20. Questions

Four of the following five are alike in a certain way based on the given arrangement and thus form the group. Which one does not belong to the group?

- a. E
- b. C
- c. G
- d. D
- e. F

21. Questions

Study the following information carefully and answer the given questions.

P is the son-in-law of Q, who is the maternal grandmother of S. V is the daughter-in-law of W and sister-in-law of R. P is brother-in-law of T, who has only one sibling. P and V have no siblings. R is the mother of S. U is the granddaughter of W, who is the grandfather of S, who is a male member. V has no child.

How is P related to T?

- a. Brother-in-law
- b. Brother
- c. Sister
- d. Father
- e. Son

22. Questions

How many female members are there in the family?

- a. Two
- b. Three
- c. Four
- d. One
- e. Five

23. Questions

If X is married to U, then how is X related to P?

- a. Daughter
- b. Daughter-in-law
- c. Son
- d. Brother-in-law
- e. Son-in-law

24. Questions

Study the following information carefully and answer the given questions.

N is the paternal grandmother of O. M has only two daughters and no son. P is the wife of M and sister of Q. Q is the uncle of R and has only one sibling. M is the only child of N.

How many Male members are in the family?

- a. Three
- b. Two
- c. Four
- d. Five
- e. One

@RankZen Banker

25. Questions

How is O related to M?

- a. Daughter
- b. Son-In-Law
- c. Brother-In-Law
- d. Sister

e. Son

26. Questions

Study the following information carefully and answer the given questions.

In a certain code language,

“creative drawing cheerful smile” is coded as ”ce dg cl se”

“inspired positive thought creative” is coded as ”id pe tt ce”

“smile success more positive” is coded as ”se ss me pe”

“drawing learning creative thought” is coded as ”dg lg ce tt”

(Note: All the codes are two letters code only)

What is the code for the word "success" in the given coded language?

- a. ss
- b. pe
- c. cl
- d. me
- e. Either a or d

27. Questions

Which among the following is coded as ‘dg lg’ in the given code language?

- a. drawing positive
- b. learning creative
- c. drawing learning
- d. more thought
- e. drawing smile

28. Questions

Which among the following is coded as 'tt' in the given code language?

- a. thought
- b. success
- c. more
- d. cheerful
- e. creative

@RankZen Banker

29. Questions

If “smile today” means “se td”, then “positive sometimes” means “pe sm”, then what may be “today sometimes more” represent in the given code language?

- a. ty ss ce
- b. se me cl
- c. ss ce tt
- d. td sm me
- e. ty se dg

30. Questions

What is the code for the phrase "positive inspired" in the given code language?

- a. pe ce
- b. pe id
- c. id ss
- d. id me
- e. pe tt

31. Questions

Study the following information carefully and answer the given questions.

Statements:

$A > B < L < K$; $W > V > L < E$; $O > Y > Z > E$

Conclusions:

I). $Z > A$

II). $V > B$

- a. Only conclusion II is true
- b. Only conclusion I is true
- c. Either conclusion I or II is true
- d. Both conclusions I and II are true
- e. Neither conclusion I nor II is true

@RankZen Banker

32. Questions

Statements:

$L < K = U > H$; $J > I > A < T$; $U < Y > Z$;

Conclusions:

I). $Y > L$

II). $J > T$

- a. Only conclusion II is true
- b. Only conclusion I is true
- c. Either conclusion I or II is true
- d. Both conclusions I and II are true
- e. Neither conclusion I nor II is true

33. Questions

Statements:

$U \leq Y < B \leq L$; $Z > W \leq S = B$; $Q = Y > G > T$

Conclusions:

I). $L \geq W$

II). $Q \geq U$

- a. Only conclusion II is true
- b. Only conclusion I is true
- c. Either conclusion I or II is true
- d. Both conclusions I and II are true
- e. Neither conclusion I nor II is true

34. Questions

Statements:

$O \geq C \geq K \geq A$; $A \geq N$; $B > O < L$

Conclusions:

I). $O > N$

II). $O = N$

- a. Only conclusion II is true
- b. Only conclusion I is true
- c. Either conclusion I or II is true
- d. Both conclusions I and II are true
- e. Neither conclusion I nor II is true

@RankZen Banker

35. Questions

Statements:

$G > H < J < L$; $I > L < E < T$; $W < R > K$

Conclusions:

I). $H > L$

II). $T > G$

- a. Only conclusion II is true
- b. Only conclusion I is true
- c. Either conclusion I or II is true
- d. Both conclusions I and II are true
- e. Neither conclusion I nor II is true

36. Questions

Study the following information carefully and answer the given questions.

A D G % W V B \$ C * J Z ^ K * H N ^ B @ U B E H + Q ! I G T A ^ E

How many consonants are immediately followed by a symbol in the given series?

- a. Six
- b. Five
- c. Seven
- d. Eight
- e. More than eight

37. Questions

If all the vowels are eliminated from the given series, then which of the following element is sixth to the right of the third symbol from the left end?

- a. H
- b. K
- c. @
- d. !
- e. N

@RankZen Banker

38. Questions

Which of the following elements is exactly between the ninth element from the right end and the

ninth element from the left end?

- a. @
- b. B
- c. N
- d. H
- e. U

39. Questions

How many vowels are immediately preceded by a consonant and immediately followed by a symbol?

- a. More than three
- b. None
- c. Three
- d. One
- e. Two

40. Questions

If all the symbols are dropped from the series, then which of the following elements is tenth from the left end?

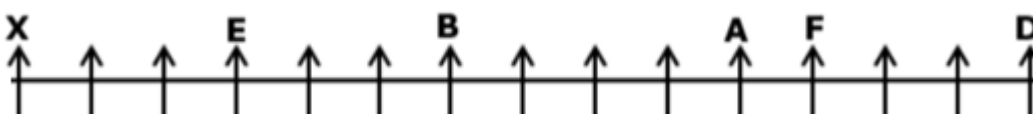

- a. J
- b. K
- c. D
- d. H
- e. N

Explanations:

@RankZen Banker

1. Questions

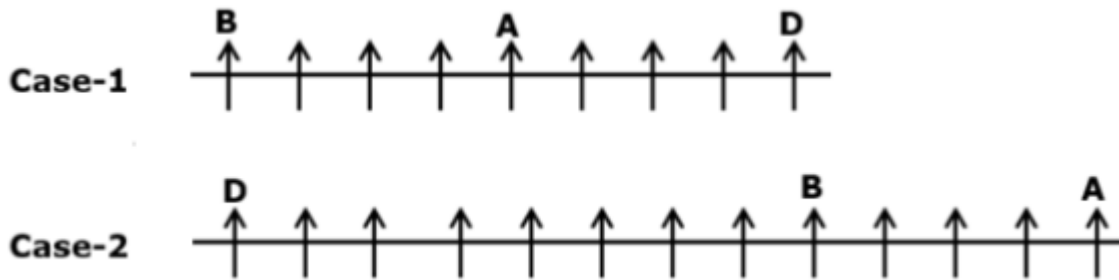

Final arrangement:

We have,

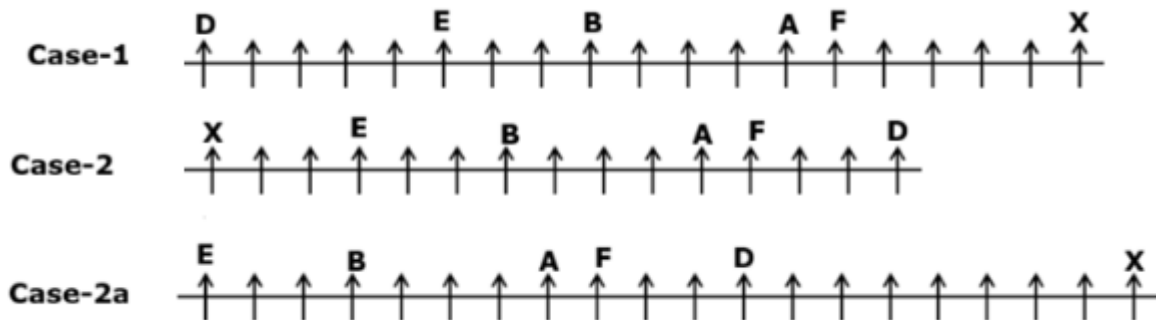

- A sits fourth to the right of B.
- Only seven people sit between B and D.

From the above conditions, we have only two possibilities.

Again, we have,

- The number of people who sit between F and X is the same as the number of people who sit between D and E, who sits third to the left of B.
- F sits to the immediate right of A.

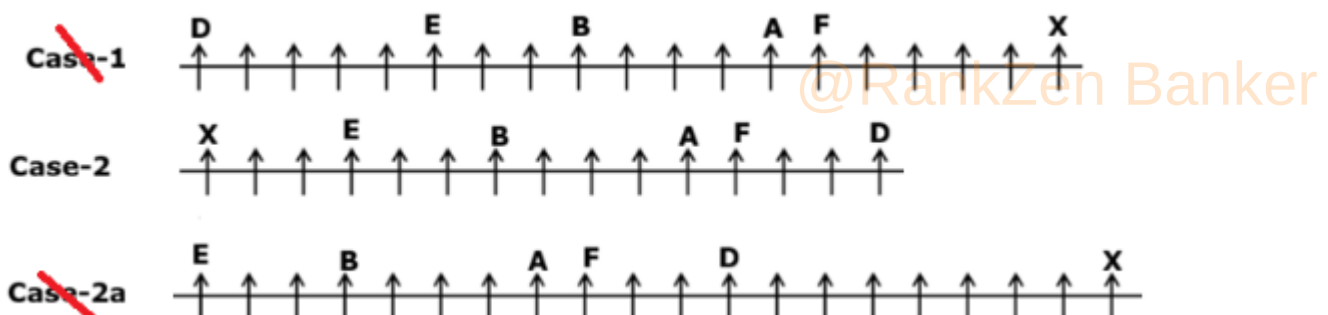

Again, we have

- As many people sit to the left of F as to the right of E. Not more than fifteen people sit in a row.

From the above conditions, Case-1 and Case-2a get eliminated because the condition as many people sit to the left of F as to the right of E is not satisfied.

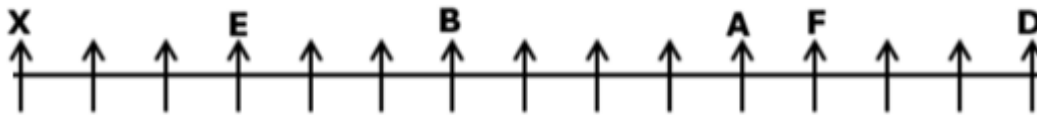

Hence, Case-2 shows the Final arrangement.

Answer: E

2. Questions

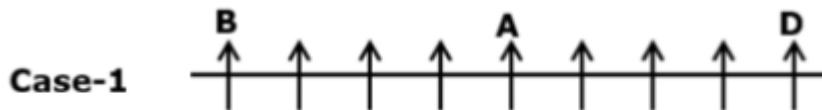

Final arrangement:

We have,

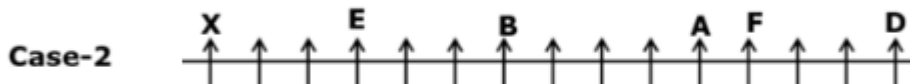

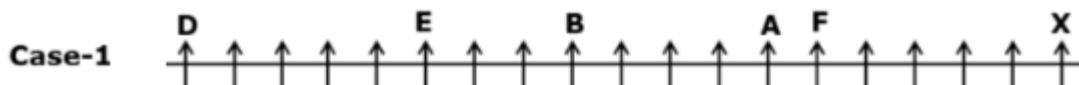

- A sits fourth to the right of B.
- Only seven people sit between B and D.

From the above conditions, we have only two possibilities.

Again, we have,

- The number of people who sit between F and X is the same as the number of people who sit between D and E, who sits third to the left of B.
- F sits to the immediate right of A.

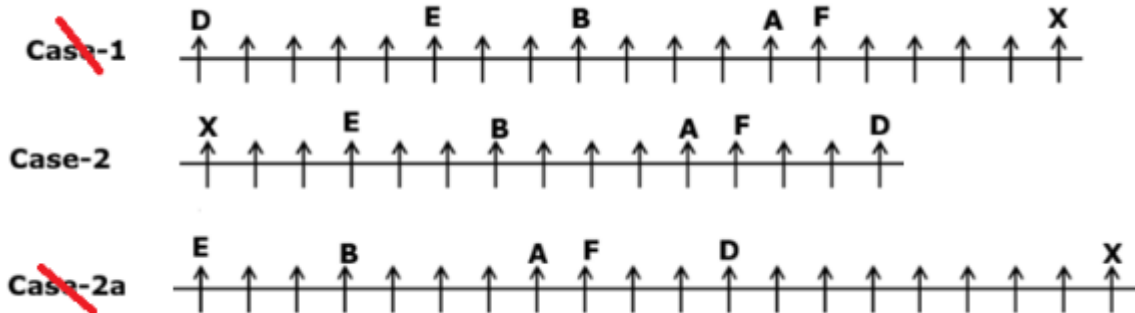

Again, we have

- As many people sit to the left of F as to the right of E. Not more than fifteen people sit in a row.

From the above conditions, Case-1 and Case-2a get eliminated because the condition as many people sit to the left of F as to the right of E is not satisfied.

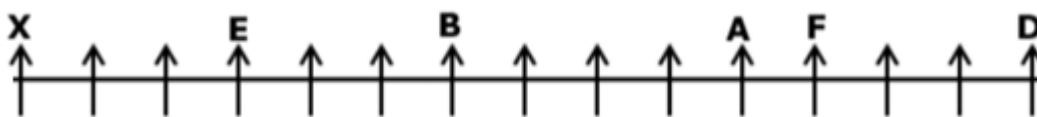

Hence, Case-2 shows the Final arrangement.

Answer: C

3. Questions

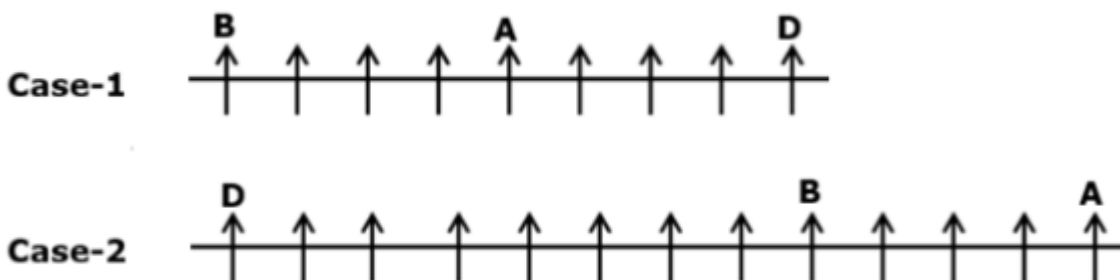

Final arrangement:

We have,

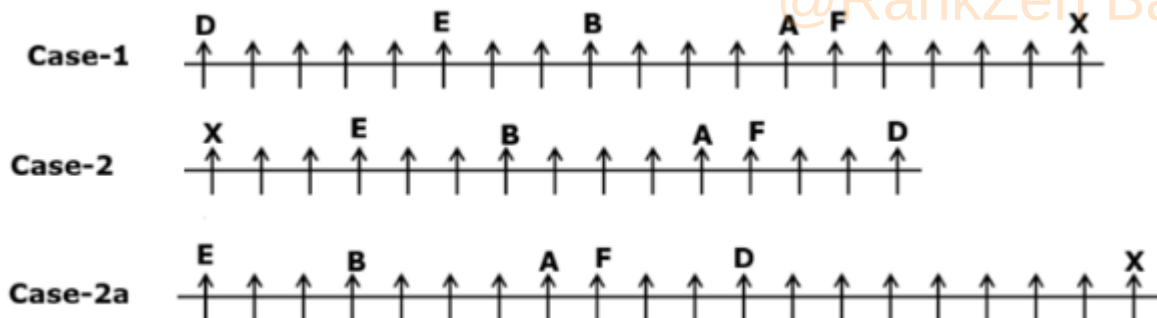

- A sits fourth to the right of B.
- Only seven people sit between B and D.

From the above conditions, we have only two possibilities.

Again, we have,

- The number of people who sit between F and X is the same as the number of people who sit between D and E, who sits third to the left of B.
- F sits to the immediate right of A.

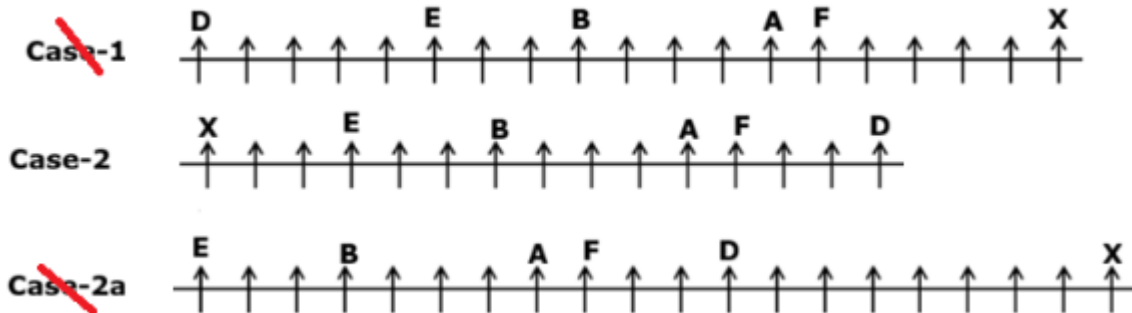

Again, we have

- As many people sit to the left of F as to the right of E. Not more than fifteen people sit in a row.

From the above conditions, Case-1 and Case-2a get eliminated because the condition as many people sit to the left of F as to the right of E is not satisfied.

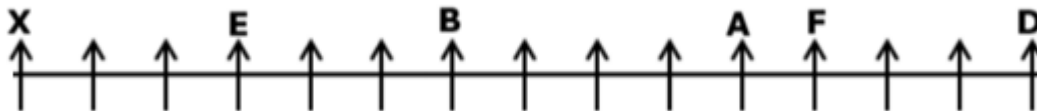

Hence, Case-2 shows the Final arrangement.

Answer: B

4. Questions

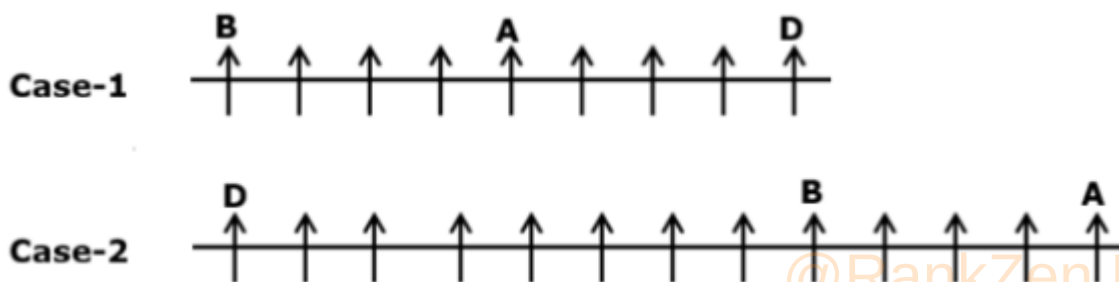

Final arrangement:

We have,

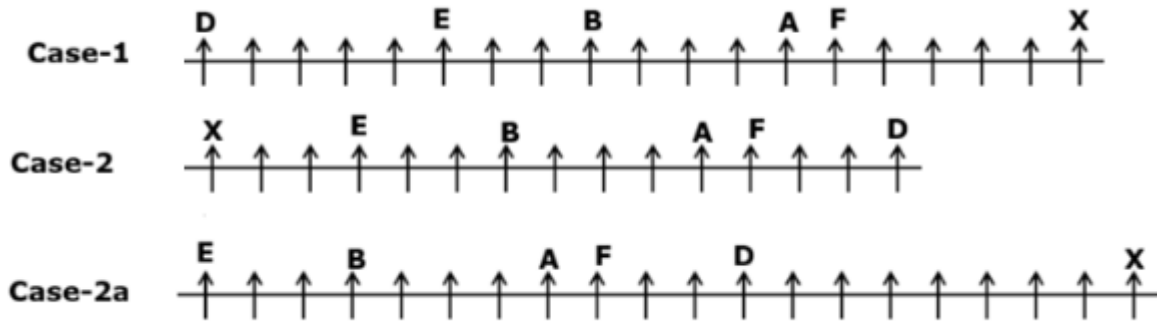

- A sits fourth to the right of B.
- Only seven people sit between B and D.

From the above conditions, we have only two possibilities.

Again, we have,

- The number of people who sit between F and X is the same as the number of people who sit between D and E, who sits third to the left of B.
- F sits to the immediate right of A.

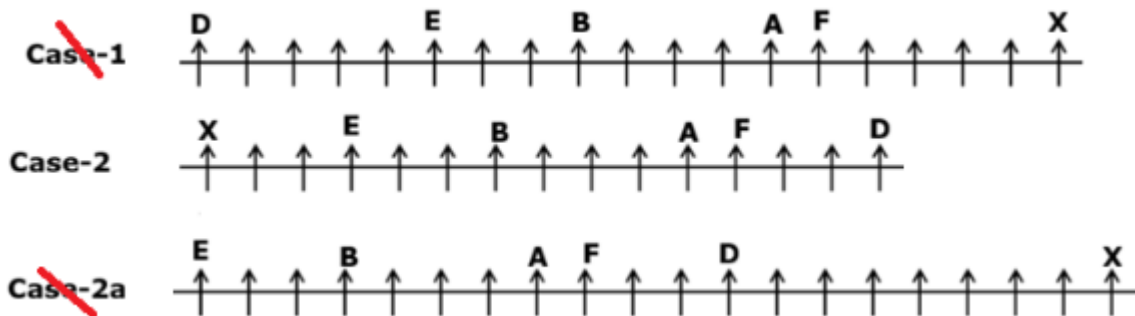

Again, we have

- As many people sit to the left of F as to the right of E. Not more than fifteen people sit in a row.

From the above conditions, Case-1 and Case-2a get eliminated because the condition as many people sit to the left of F as to the right of E is not satisfied.

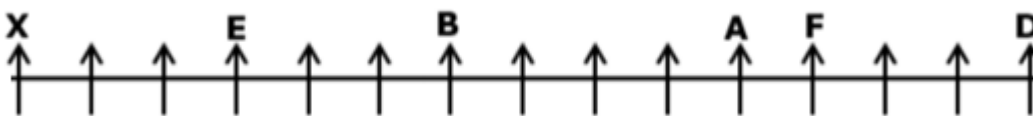

Hence, Case-2 shows the Final arrangement.

Answer: A (All the people are sitting at the middle of the row, except in option a)

5. Questions

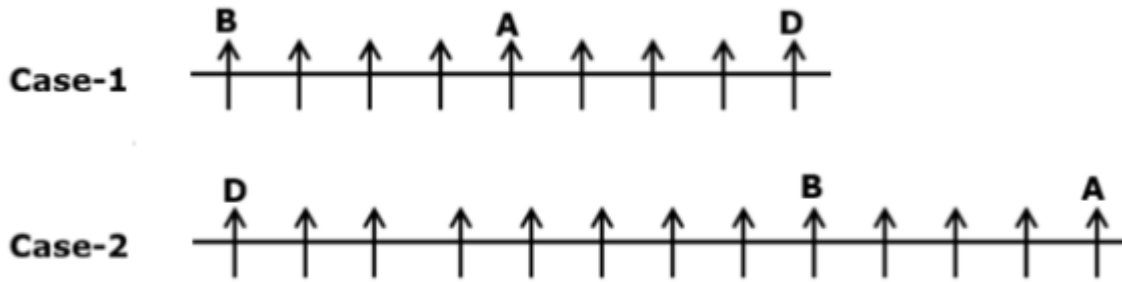

Final arrangement:

We have,

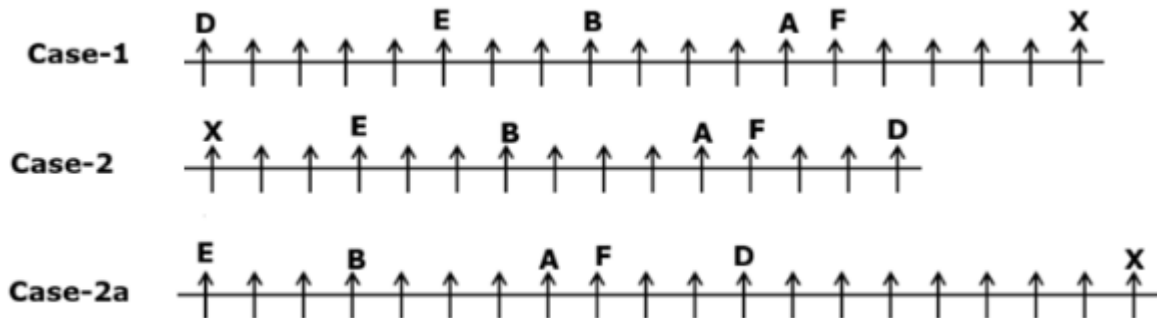

- A sits fourth to the right of B.
- Only seven people sit between B and D.

From the above conditions, we have only two possibilities.

Again, we have,

- The number of people who sit between F and X is the same as the number of people who sit between D and E, who sits third to the left of B.
- F sits to the immediate right of A.

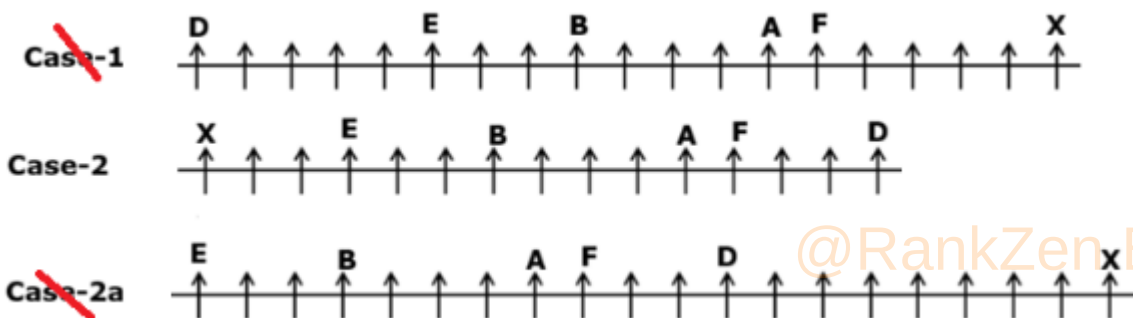

Again, we have

- As many people sit to the left of F as to the right of E. Not more than fifteen people sit in a row.

From the above conditions, Case-1 and Case-2a get eliminated because the condition as many people sit to the left of F as to the right of E is not satisfied.

Hence, Case-2 shows the Final arrangement.

Answer: D

6. Questions

Final arrangement:

Months	Dates	People
January	15	T
	18	S
April	15	P
	18	U
June	15	R
	18	Q

We have,

- P attended the seminar on an odd-numbered date in the month having an even-numbered day.
- Only two people attended between P and Q.

From the above conditions, we have only two possibilities.

Months	Dates	Case-1	Case-2
		People	People
January	15		
	18	Q	
April	15		P
	18		
June	15	P	
	18		Q

@RankZen Banker

Again, we have,

- R attended immediately before Q.
- As many people attended after R as before S.

Months	Dates	Case-1	Case-2
		People	People
January	15	R	
	18	Q	S
April	15		P
	18		
June	15	P	R
	18	S	Q

Again, we have,

- U attended after T, but not immediately after T.

From the above conditions, Case-1 gets eliminated because the condition U attended after T, but not immediately after T is not satisfied.

Hence, Case-2 shows the Final arrangement.

Months	Dates	Case-1	Case-2
		People	People
January	15	R	T
	18	Q	S
April	15		P
	18		U
June	15	P	R
	18	S	Q

Answer: E (After rearranging all the people in alphabetical order from January 15th, no one remains unchained.)

11. Questions

Final arrangement:

Movies	Person
Horror	M, N
Action	K, P
Adventure	J, L, O

We have,

- J does not watch horror movies.
- K watches an action movie.

From the above conditions, we have only three possibilities.

Movies	Case-1	Case-2
	Person	Person
Horror		
Action	J, K	K
Adventure		J

Again, we have

- A prime number of persons watch action movies.
- P watches neither horror movie nor adventure movie

Movies	Case-1	Case-2
	Person	Person
Horror		
Action	J, K, P	K, P
Adventure		J

Again, we have,

- M watches a movie only with N.
- L and O do not watch the different movies.
- An even number of persons watch a movie with O.

From the above conditions, Case-1 and Case-1a get eliminated because an even number of persons watch a

@RankZen Banker

movie with O, which is not satisfied

Hence, Case-2 shows the Final arrangement.

Movies	Case-1	Case-2	Case-1a
	Person	Person	Person
Horror	L, O	M, N	M, N
Action	J, K, P	K, P	J, K, P
Adventure	M, N	J, L, O	L, O

Answer: E (In all other options, the first and second person watch the same movie, except option e)

12. Questions

Final arrangement:

Movies	Person
Horror	M, N
Action	K, P
Adventure	J, L, O

We have,

- J does not watch horror movies.
- K watches an action movie.

From the above conditions, we have only three possibilities.

Movies	Case-1	Case-2
	Person	Person
Horror		
Action	J, K	K
Adventure		J

Again, we have

- A prime number of persons watch action movies.
- P watches neither horror movie nor adventure movie

@RankZen Banker

Movies	Case-1	Case-2
	Person	Person
Horror		
Action	J, K, P	K, P
Adventure		J

Again, we have,

- M watches a movie only with N.
- L and O do not watch the different movies.
- An even number of persons watch a movie with O.

From the above conditions, Case-1 and Case-1a get eliminated because an even number of persons watch a movie with O, which is not satisfied

Hence, Case-2 shows the Final arrangement.

Movies	Case-1	Case-2	Case-1a
	Person	Person	Person
Horror	L, O	M, N	M, N
Action	J, K, P	K, P	J, K, P
Adventure	M, N	J, L, O	L, O

Answer: A

13. Questions

Final arrangement:

Movies	Person
Horror	M, N
Action	K, P
Adventure	J, L, O

@RankZen Banker

We have,

- J does not watch horror movies.
- K watches an action movie.

From the above conditions, we have only three possibilities.

Movies	Case-1	Case-2
	Person	Person
Horror		
Action	J, K	K
Adventure		J

Again, we have

- A prime number of persons watch action movies.
- P watches neither horror movie nor adventure movie

Movies	Case-1	Case-2
	Person	Person
Horror		
Action	J, K, P	K, P
Adventure		J

Again, we have,

- M watches a movie only with N.
- L and O do not watch the different movies.
- An even number of persons watch a movie with O.

From the above conditions, Case-1 and Case-1a get eliminated because an even number of persons watch a movie with O, which is not satisfied

Hence, Case-2 shows the Final arrangement.

Movies	Case-1	Case-2	Case-1a
	Person	Person	Person
Horror	L, O	M, N	M, N
Action	J, K, P	K, P	J, K, P
Adventure	M, N	J, L, O	L, O

Answer: C

14. Questions

Final arrangement:

Movies	Person
Horror	M, N
Action	K, P
Adventure	J, L, O

We have,

- J does not watch horror movies.
- K watches an action movie.

From the above conditions, we have only three possibilities.

Movies	Case-1	Case-2
	Person	Person
Horror		
Action	J, K	K
Adventure		J

Again, we have

- A prime number of persons watch action movies.
- P watches neither horror movie nor adventure movie

Movies	Case-1	Case-2
	Person	Person
Horror		
Action	J, K, P	K, P
Adventure		J

Again, we have,

- M watches a movie only with N.
- L and O do not watch the different movies.
- An even number of persons watch a movie with O.

From the above conditions, Case-1 and Case-1a get eliminated because an even number of persons watch a

@RankZen Banker

movie with O, which is not satisfied

Hence, Case-2 shows the Final arrangement.

Movies	Case-1	Case-2	Case-1a
	Person	Person	Person
Horror	L, O	M, N	M, N
Action	J, K, P	K, P	J, K, P
Adventure	M, N	J, L, O	L, O

Answer: D

15. Questions

Final arrangement:

Movies	Person
Horror	M, N
Action	K, P
Adventure	J, L, O

We have,

- J does not watch horror movies.
- K watches an action movie.

From the above conditions, we have only three possibilities.

Movies	Case-1	Case-2
	Person	Person
Horror		
Action	J, K	K
Adventure		J

Again, we have

- A prime number of persons watch action movies.
- P watches neither horror movie nor adventure movie

@RankZen Banker

Movies	Case-1	Case-2
	Person	Person
Horror		
Action	J, K, P	K, P
Adventure		J

Again, we have,

- M watches a movie only with N.
- L and O do not watch the different movies.
- An even number of persons watch a movie with O.

From the above conditions, Case-1 and Case-1a get eliminated because an even number of persons watch a movie with O, which is not satisfied

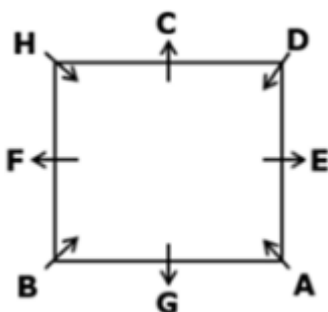

Hence, Case-2 shows the Final arrangement.

Movies	Case-1	Case-2	Case-1a
	Person	Person	Person
Horror	L, O	M, N	M, N
Action	J, K, P	K, P	J, K, P
Adventure	M, N	J, L, O	L, O

Answer: B

16. Questions

Final arrangement:

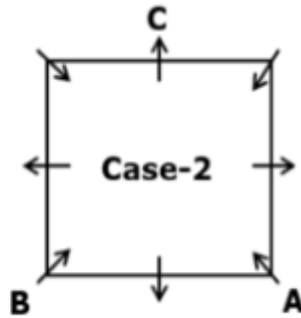

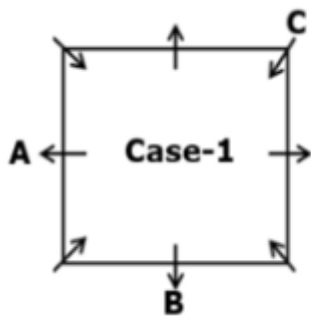

@RankZen Banker

We have

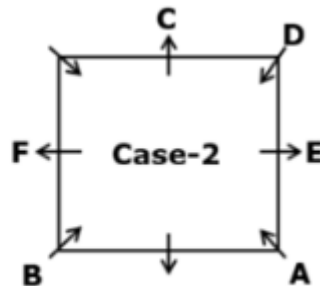

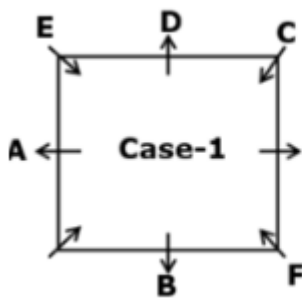

- A sits second to the right of B.
- Two persons sit between B and C, who does not sit adjacent to A.

From the above conditions, we have only two possibilities.

Again, we have,

- D sits to the immediate left of E.
- F sits fourth to the right of E.

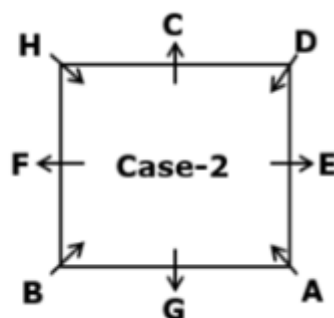

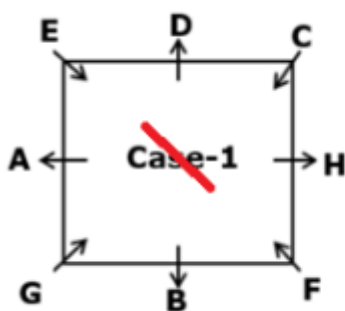

Again, we have,

- The number of persons who sit between F and G is **one less than** the number of persons who sit between G and H, when counted from the left of F and the right of G.
- H doesn't face outside.

From the above conditions, Case-1 gets eliminated because H doesn't face outside, which is not satisfied.

Hence, Case-2 shows the Final arrangement.

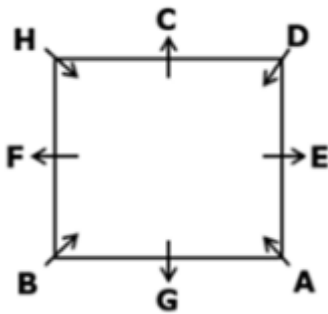

@RankZen Banker

Answer: A

17. Questions

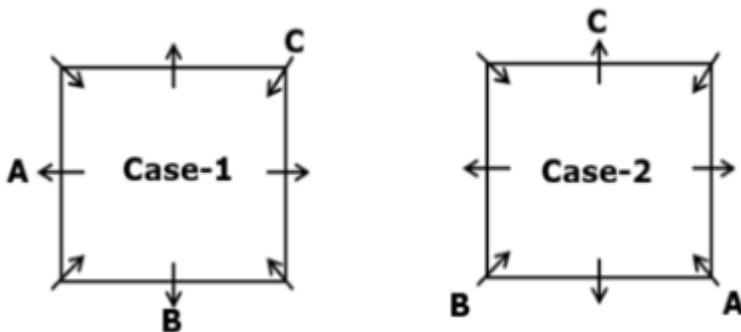

Final arrangement:

We have

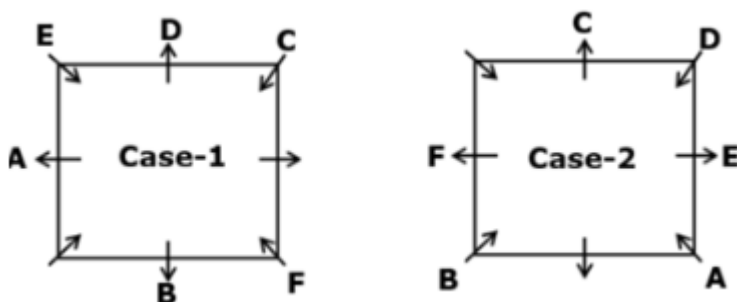

- A sits second to the right of B.
- Two persons sit between B and C, who does not sit adjacent to A.

From the above conditions, we have only two possibilities.

Again, we have,

- D sits to the immediate left of E.
- F sits fourth to the right of E.

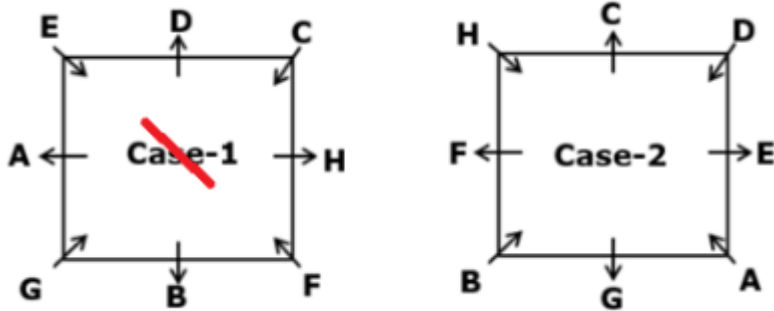

Again, we have,

- The number of persons who sit between F and G is **one less than** the number of persons who sit between G and H, when counted from the left of F and the right of G.
- H doesn't face outside.

From the above conditions, Case-1 gets eliminated because H doesn't face outside, which is not satisfied.

Hence, Case-2 shows the Final arrangement.

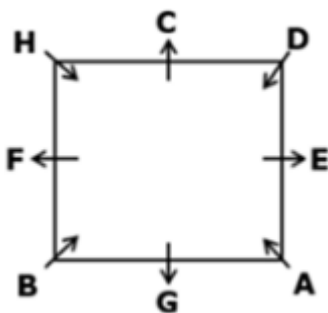

@RankZen Banker

Answer: B (After rearranging persons in alphabetical order in a clockwise direction, no one remains unchanged in its position)

18. Questions

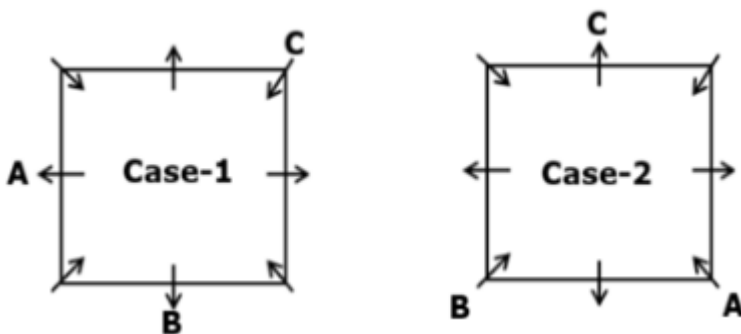

Final arrangement:

We have

- A sits second to the right of B.
- Two persons sit between B and C, who does not sit adjacent to A.

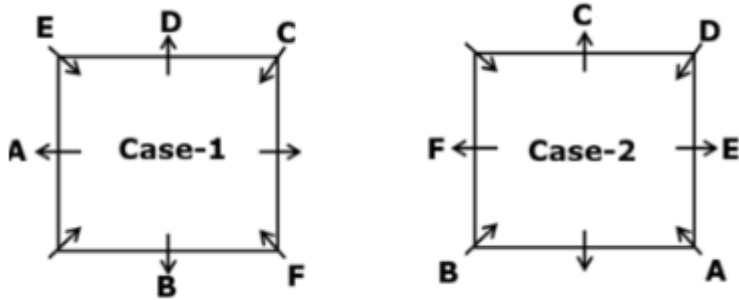

From the above conditions, we have only two possibilities.

@RankZen Banker

Again, we have,

- D sits to the immediate left of E.
- F sits fourth to the right of E.

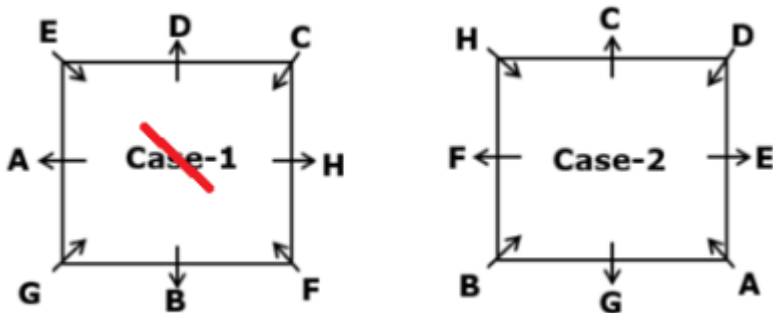

Again, we have,

- The number of persons who sit between F and G is **one less than** the number of persons who sit between G and H, when counted from the left of F and the right of G.
- H doesn't face outside.

From the above conditions, Case-1 gets eliminated because H doesn't face outside, which is not satisfied.

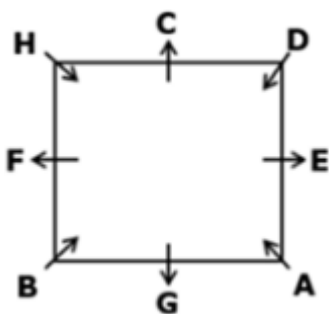

Hence, Case-2 shows the Final arrangement.

Answer: E

19. Questions

Final arrangement:

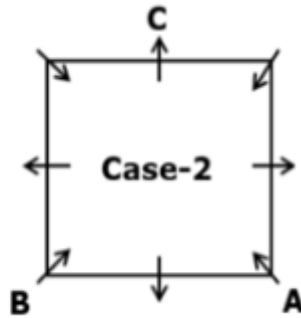

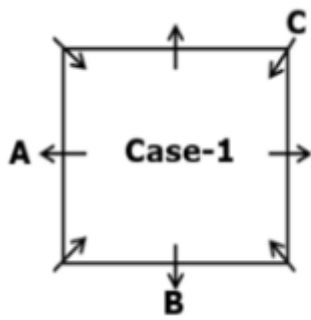

@RankZen Banker

We have

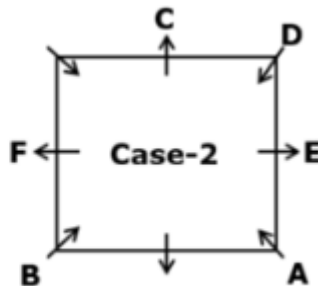

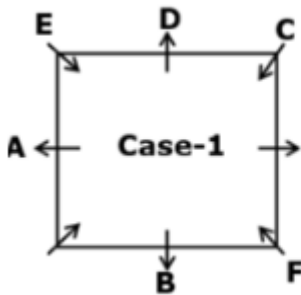

- A sits second to the right of B.
- Two persons sit between B and C, who does not sit adjacent to A.

From the above conditions, we have only two possibilities.

Again, we have,

- D sits to the immediate left of E.
- F sits fourth to the right of E.

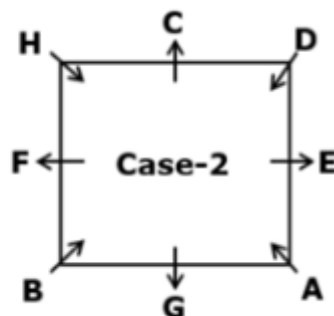

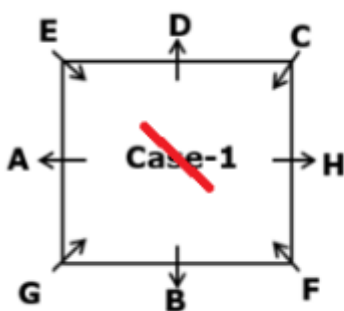

Again, we have,

- The number of persons who sit between F and G is **one less than** the number of persons who sit between G and H, when counted from the left of F and the right of G.
- H doesn't face outside.

From the above conditions, Case-1 gets eliminated because H doesn't face outside, which is not satisfied.

Hence, Case-2 shows the Final arrangement.

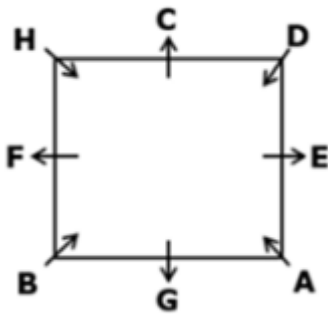

@RankZen Banker

Answer: B

20. Questions

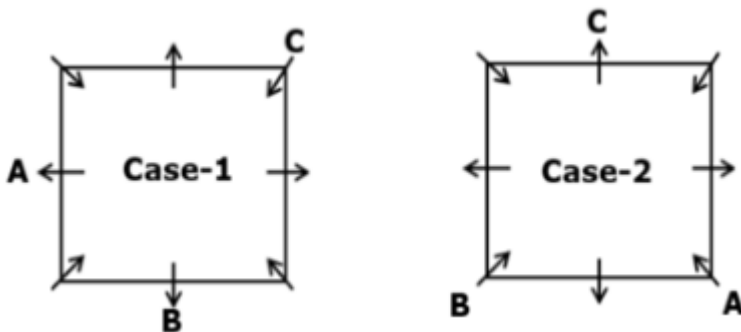

Final arrangement:

We have

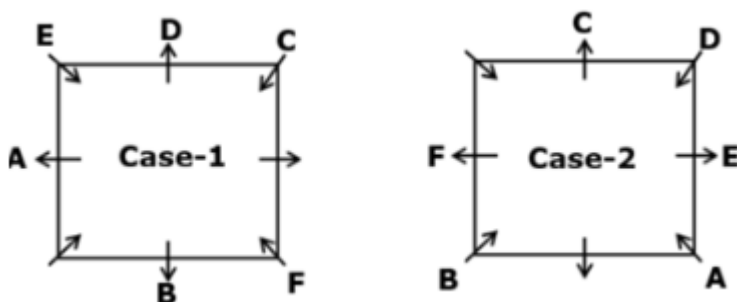

- A sits second to the right of B.
- Two persons sit between B and C, who does not sit adjacent to A.

From the above conditions, we have only two possibilities.

Again, we have,

- D sits to the immediate left of E.
- F sits fourth to the right of E.

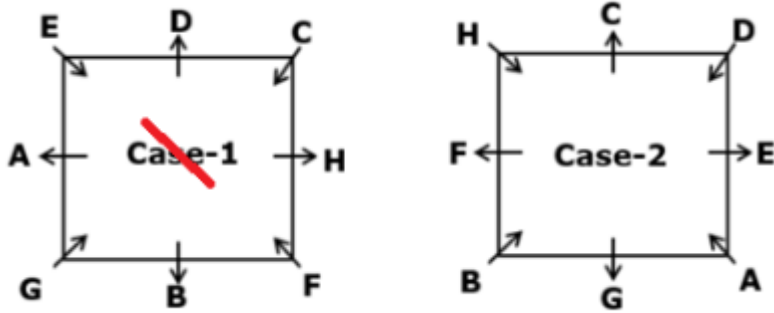

Again, we have,

@RankZen Banker

- The number of persons who sit between F and G is **one less than** the number of persons who sit between G and H, when counted from the left of F and the right of G.
- H doesn't face outside.

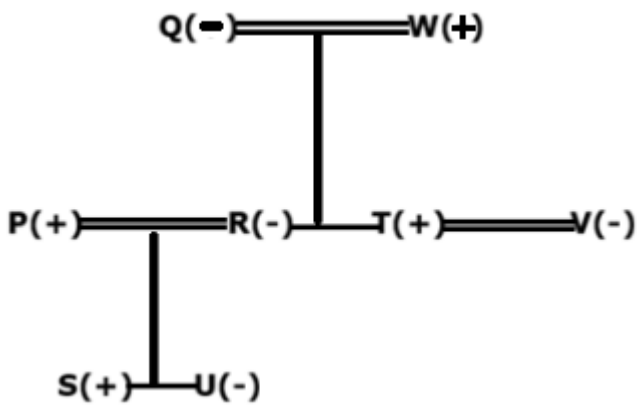

From the above conditions, Case-1 gets eliminated because H doesn't face outside, which is not satisfied.

Hence, Case-2 shows the Final arrangement.

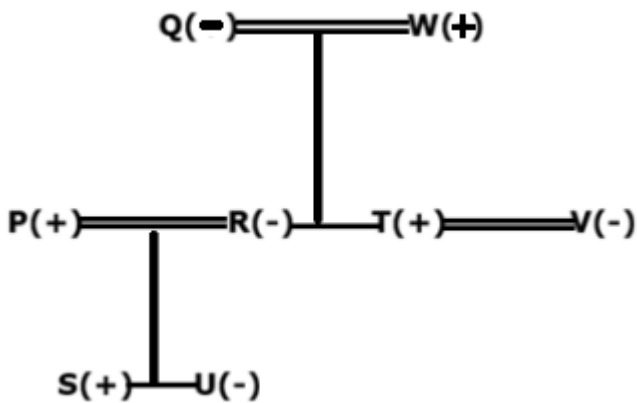

Answer: D (In all other options, all the person sit at the middle of the side of the table, except option d)

21. Questions

Answer: A

@RankZen Banker

Answer: B

31. Questions**Answer: A** $A > B < L < K; W > V > L < E; O > Y > Z > E$ **I:** $Z > A \rightarrow \text{False} (Z > E > L > B < A)$ **II:** $V > B \rightarrow \text{True} (V > L > B)$

Hence, option a is true.

32. Questions**Answer: B** $L < K = U > H; J > I > A < T; U < Y > Z;$ **I:** $Y > L \rightarrow \text{True} (Y > U = K > L)$ **II:** $J > T \rightarrow \text{False} (J > I > A < T)$

Hence, option b is true.

33. Questions**Answer: D** $U \leq Y < B \leq L; Z > W \leq S = B; Q = Y > G > T$ **I:** $L \geq W \rightarrow \text{True} (W \leq S = B \leq L)$ **II:** $Q \geq U \rightarrow \text{True} (U \leq Y = Q)$

Hence, option d is true.

34. Questions**Answer: C** $O \geq C \geq K \geq A; A \geq N; B > O < L$ **I:** $O > N \rightarrow (O \geq C \geq K \geq A \geq N)$ **II:** $O = N \rightarrow (O \geq C \geq K \geq A \geq N)$

By combining both conclusions, we have either conclusions I or II true.

Hence, option c is true.

Hence, true.**35. Questions****Answer: E** $G > H < J < L; I > L < E < T; W < R > K$ **I:** $H > L \rightarrow \text{False} (H < J < L)$ **II:** $T > G \rightarrow \text{False} (G > H < J < L < E < T)$

Hence, option e is true.

36. Questions

Answer: E

Given series:

A D G % W V B \$ C * J Z ^ K * H N ^ B @ U B E H + Q ! I G T A ^ E

Nine consonants are immediately followed by a symbol in the series

37. Questions

Answer: A

Given series:

A D G % W V B \$ C * J Z ^ K * H N ^ B @ U B E H + Q ! I G T A ^ E

Required series: D G % W V B \$ C * J Z ^ K * H N ^ B @ B H + Q ! G T ^

Third symbol from the left end is * and sixth element to the right of * is H

38. Questions

Answer: C

Given series:

A D G % W V B \$ C * J Z ^ K * H N ^ B @ U B E H + Q ! I G T A ^ E

'N' is exactly between the ninth element from the right end and the ninth element from the left end.

39. Questions

Answer: D

Given series:

A D G % W V B \$ C * J Z ^ K * H N ^ B @ U B E H + Q ! I G T A ^ E

Only one pair of vowels is there, which is immediately preceded by a consonant and immediately followed by a symbol.

40. Questions

Answer: B

Given series:

A D G % W V B \$ C * J Z ^ K * H N ^ B @ U B E H + Q ! I G T A ^ E

A D G W V B D J Z K H N B U B E H Q I G T A E

If all the symbols are dropped from the series, then 'K' is tenth from the left end.
