

1. Questions

Study the following information carefully and answer the given questions.

Eight persons – A, B, C, D, E, F, G and H are sitting around a circular table facing the centre with equal distance between adjacent persons.

G is an immediate neighbour of E. One person sits between E and D, who does not sit adjacent to G. A sits fourth to the right of D. As many persons sit between A and E as between H and A, when counted from the left of E and right of H. B sits second to the right of C. Neither B nor C is an immediate neighbour of A. F doesn't sit opposite to B.

Who among the following persons sits fifth to the left of the one who sits second to the right of E?

- a. F
- b. B
- c. D
- d. G
- e. A

2. Questions

If we arrange all the persons in alphabetical order from A in a clockwise direction, then how many persons will remain unchanged in their position(excluding A)?

- a. None
- b. One
- c. Two
- d. Three
- e. More than three

3. Questions

Four of the following five are alike in a certain way based on the final arrangement and thus form a group. Which one of the following does not belong to the group?

- a. DE
- b. CG
- c. BG
- d. AH
- e. FB

4. Questions

What is the position of F with respect to C as per the final arrangement?

- a. Fourth to the right
- b. Second to the left
- c. Fourth to the left
- d. Third to the right
- e. Both a and c

5. Questions

How many persons sit between G and D, when counted from the left of G?

- a. One
- b. Two
- c. Three
- d. More than three
- e. No one

6. Questions

Study the following information carefully and answer the given questions.

Eight persons – P, Q, R, S, T, U, V and W bought a thing one after another on different occasions. It is assumed that no other persons bought a thing other than the given persons.

Note: Zero is not an even number.

An even number of persons bought before P.-S bought two persons after P. As many persons bought after S as before V. Three persons bought between V and U. R bought immediately before T but he is not the first one to buy things. Q bought before W, who is not the last person to buy a thing.

Who among the following persons bought a thing between P and Q?

- a. V
- b. The one who bought immediately before T
- c. The one who bought immediately after U
- d. The one who bought two persons before V
- e. S

@RankZen Banker

7. Questions

The number of persons who bought the thing between V and U is two more than the number of persons who bought the thing between ___ and ___.

- a. V and T
- b. S and U

- c. P and Q
- d. Q and U
- e. S and W

8. Questions

If all the persons who bought things are arranged in alphabetical order from last to first, then how many persons will remain unchanged in their positions?

- a. One
- b. None
- c. Three
- d. Two
- e. More than three

9. Questions

If U and V interchanged their positions and S and R interchanged their positions, then who among the following persons bought the thing two persons before V?

- a. Q
- b. S
- c. R
- d. W
- e. T

10. Questions

Four of the following five are alike in a certain way based on the final arrangement and thus form a group. Which one of the following does not belong to the group?

- a. TU
- b. PQ
- c. UR
- d. SP
- e. VW

@RankZen Banker

11. Questions

Study the following information carefully and answer the given questions.

Eight persons – A, B, C, D, E, F, G and H are working in the Indian army at different designations such as General, Brigadier, Colonel, Lt. Colonel, Major, Captain, Subedar and Havaldar. The hierarchy of the

designations is given in decreasing order, such that General is the seniormost designation and Havaldar is the juniormost designation.

G is designated as either major or captain. Three persons are designated between G and D. As many persons are senior to D as junior to C. H is two persons senior to C. E is designated adjacent to H. The number of persons designated between E and C is **one less than** the persons designated between B and A. B is senior to A.

Who among the following person is designated as Lt. Colonel based on the final arrangement?

- a. A
- b. D
- c. C
- d. G
- e. H

12. Questions

Four of the following five are alike in a certain way based on the final arrangement and thus form a group. Which one of the following does not belong to the group?

- a. DB
- b. AG
- c. HC
- d. BF
- e. EC

13. Questions

If all the persons are arranged in alphabetical order from junior-most to senior-most designations, then the designation of how many persons will remain unchanged?

- a. One
- b. Two
- c. Three
- d. More than three
- e. None

@RankZen Banker

14. Questions

Which of the following statement(s) is/are FALSE with respect to the final arrangement?

- a. One person is designated between D and F
- b. Three persons are junior to G

- c. Two persons are senior to A
- d. E is designated as Subedar
- e. G is designated as immediately senior to H

15. Questions

Who among the following person is designated as immediately junior to B as per the final arrangement?

- a. A
- b. F
- c. C
- d. D
- e. H

16. Questions

Study the following information carefully and answer the given questions.

Eight persons – A, B, C, D, E, F, G and H are sitting around a rectangular table in a way that three persons sit on each longer side and face away from the centre, while one person sits on each shorter side of the table and face towards the centre.

D sits second to the left of B, where neither of them sits on the shorter side. A sits to the immediate left of D. Two persons sit between A and C. As many persons sit between C and B as between H and F, when counted from the left of C and to the left of F. H sits adjacent to E.

What is the position of G with respect to H based on the final arrangement?

- a. Third to the right
- b. Sixth to the left
- c. Fourth to the right
- d. Fifth to the left
- e. Fifth to the right

@RankZen Banker

17. Questions

Four of the following are alike in a certain way based on the final arrangement and thus form a group. Which one of the following does not belong to the group?

- a. G
- b. H
- c. C
- d. A

e. E

18. Questions

Who among the following person sits second to the left of F based on the final arrangement?

- a. H
- b. A
- c. G
- d. D
- e. C

19. Questions

How many persons sit between F and E, when counted from the right of E as per the final arrangement?

- a. None
- b. One
- c. Two
- d. Three
- e. More than three

20. Questions

Which of the following statement(s) is/are TRUE with respect to the final arrangement?

- a. Three persons sit between F and G, when counted from the left of F
- b. C sits second to the left of E
- c. G sits to the immediate right of B
- d. H is an immediate neighbour of both F and D
- e. B sits opposite to A

@RankZen Banker

21. Questions

In the given questions, the relationship between different elements is shown in the statements followed by two conclusions. Find the conclusion which is definitely true.

Statements:

$C < G \leq P > L \geq S > K \leq M < B$

Conclusions:

I). $P > C$

II). $S > B$

- a. Only conclusion I is true
- b. Either conclusion I or II is true
- c. Both conclusions I and II are true
- d. Only conclusion II is true
- e. Neither conclusion I nor II is true

22. Questions

Statements:

$R > M = K < Y \leq A > H \geq C$

Conclusions:

I). $R > A$

II). $R > H$

- a. Only conclusion I is true
- b. Either conclusion I or II is true
- c. Both conclusions I and II are true
- d. Only conclusion II is true
- e. Neither conclusion I nor II is true

23. Questions

Statements:

$R < A = T > N \geq W < D = K < Y \leq M > Q$

Conclusions:

I). $M > D$

II). $A > W$

- a. Only conclusion I is true
- b. Either conclusion I or II is true
- c. Both conclusions I and II are true
- d. Only conclusion II is true
- e. Neither conclusion I nor II is true

@RankZen Banker

24. Questions

Statements:

$J \geq U > B = F > P \geq X > C = L > S > V$

Conclusions:

I). $X > J$

II). $U > V$

- a. Only conclusion I is true
- b. Either conclusion I or II is true
- c. Both conclusions I and II are true
- d. Only conclusion II is true
- e. Neither conclusion I nor II is true

25. Questions

Statements:

$G < T \leq Z = H > K \geq R < M = A < P > D$

Conclusions:

I). $H > M$

II). $P > K$

- a. Only conclusion I is true
- b. Either conclusion I or II is true
- c. Both conclusions I and II are true
- d. Only conclusion II is true
- e. Neither conclusion I nor II is true

26. Questions

Study the following information carefully and answer the given questions.

7 2 9 4 1 8 3 6 5 2 7 4 9 1 3 8 5 6 2 4 7 8 9 3 1 5 8 2 6 4

How many even numbers are there in the given series, which is immediately preceded by an even number and immediately followed by an odd number?

- a. None
- b. One
- c. Two
- d. Three
- e. More than three

27. Questions

If all the prime numbers are dropped from the given series, then which of the following number is ninth from the right end?

- a. 4
- b. 9
- c. 8
- d. 6
- e. 1

28. Questions

Which of the following number is the thirteenth to the right of the eleventh number from the left end in the given series?

- a. 3
- b. 8
- c. 4
- d. 6
- e. 2

29. Questions

If the numbers less than 5 (excluding 5) are arranged in ascending order from the left end, which is followed by the remaining elements in the same order, then which of the following number is the eleventh number from the left end in the series thus formed?

- a. 4
- b. 3
- c. 8
- d. 9
- e. 7

@RankZen Banker

30. Questions

How many odd numbers are there between the tenth number from the left end and the ninth number from the right end in the given series?

- a. One
- b. Two
- c. Three

- d. Four
- e. More than four

31. Questions

Study the following information carefully and answer the given questions.

If in the word "INDUSTRIAL", all the vowels are changed to the next vowel and all the consonants are changed to the previous alphabets as per the English alphabetical series, and then all the letters are arranged in English alphabetical order from right to left, then which of the following letters is fourth to the left of the fifth letter from the right end?

NOTE: Consider the next vowel of U as A.

- a. Q
- b. O
- c. M
- d. R
- e. S

32. Questions

How many such pairs of letters are there in the word "INSIGHTFUL", each of which has many letters between them in the English alphabetical series (both forward and backward directions)?

- a. One
- b. Two
- c. Three
- d. Four
- e. More than four

33. Questions

If in the given number "58712394568", all the even digits are increased by one and all the odd digits are decreased by one. After that, arrange all the digits in ascending order from right to left. Then what will be the sum of the digits which are third from the right end and fifth from the left end of the number thus formed after the rearrangement?

- a. 14
- b. 11
- c. 9
- d. 10
- e. 12

34. Questions

Study the following information carefully and answer the given question.

If in the given number “1384697523148967” the first half of the digits are written in descending order from left to right, followed by the second half of the digits written in ascending order from left to right, then what is the result when the second digit from the left end is divisible by the fourth digit from the right end?

- a. 1
- b. 1.5
- c. 2
- d. 1.3
- e. 2.5

35. Questions

Study the following information carefully and answer the given questions.

If it is possible to make a four-letter meaningful word by using the second, fourth, seventh and ninth letters from the left end of the word “WONDERLAND”, then what is the fourth letter from the right end of that newly formed word? If no such word is formed, mark the answer as “Y”. If more than one word can be formed, then mark the answer as “X”.

- a. D
- b. L
- c. N
- d. Y
- e. X

36. Questions

Study the following information carefully and answer the given questions.

@ R T % D X + M Q A F # & H N Y ^ C L \$ P W G B ! U V * E J

If all the symbols from the given series are dropped, then which of the following elements is sixth to the left of the eleventh element from the right end?

- a. D
- b. X
- c. M
- d. H
- e. N

37. Questions

How many such symbols are there which are immediately followed by a vowel and immediately preceded by a consonant in the given series?

- a. One
- b. Two
- c. Three
- d. More than three
- e. None

38. Questions

Which among the following will be the fifth symbol to the left of the sixth consonant letter from the right end in the given series?

- a. %
- b. #
- c. @
- d. +
- e. \$

39. Questions

If all the symbols are arranged first from the left end in the same order as given in the series and the alphabets are arranged just after the symbols in the same order as in the series from the left end. Then which of the following elements is twelfth to the right of the seventh element from the left end?

- a. N
- b. Y
- c. C
- d. L
- e. P

@RankZen Banker

40. Questions

How many vowels are there between the eighth element from the left end and the thirteenth element from the right end in the given series?

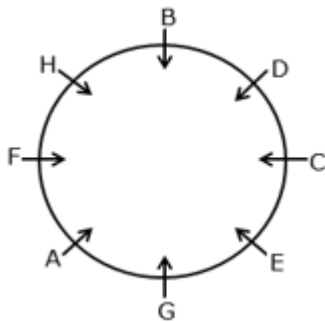

- a. One
- b. Two
- c. Three

- d. More than three
- e. None

Explanations:

1. Questions

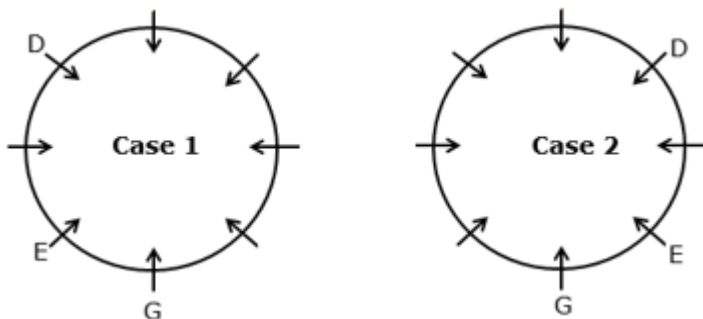

Final arrangement:

We have,

- G is an immediate neighbour of E.
- One person sits between E and D who does not sit adjacent to G.

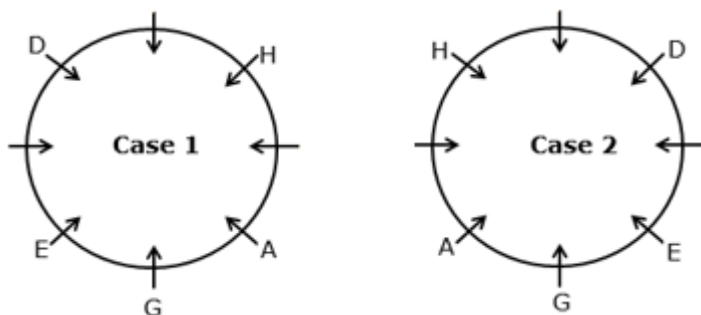

From the above conditions, there are two possibilities.

Again, we have,

- A sits fourth to the right of D.
- As many persons sit between A and E as between H and A, when counted from the left of E and from the right of H.

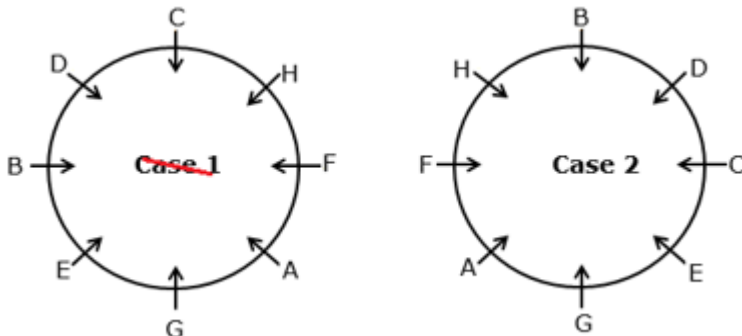

@RankZen Banker

Again, we have,

- B sits second to the right of C.
- Neither B nor C is an immediate neighbour of A.
- F doesn't sit opposite to B.

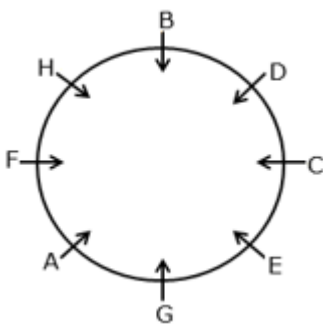

From the above conditions Case 1 gets eliminated because 'F doesn't sit opposite to B' is not satisfied. Hence, Case 2 is the final arrangement.

Answer: A

2. Questions

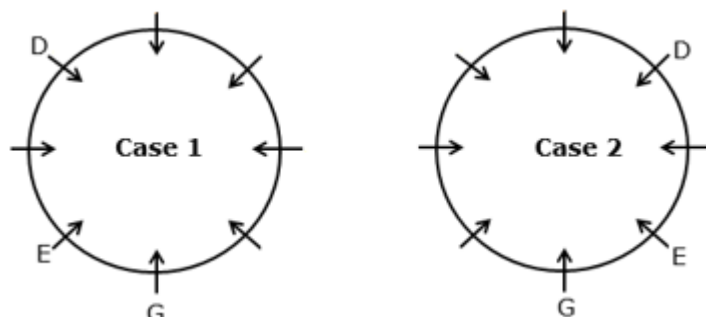

Final arrangement:

We have,

- G is an immediate neighbour of E.
- One person sits between E and D who does not sit adjacent to G.

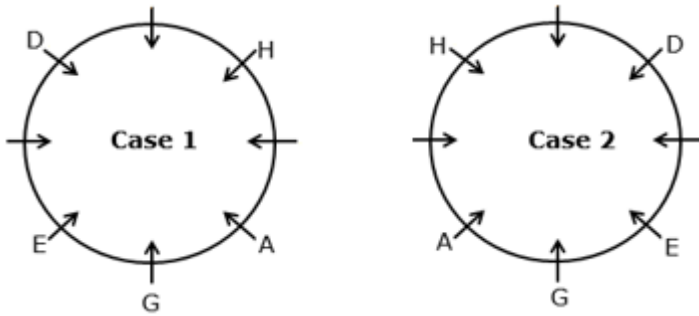

From the above conditions, there are two possibilities.

@RankZen Banker

Again, we have,

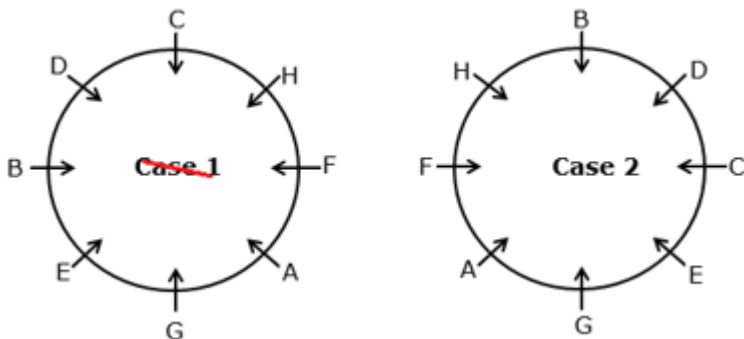

- A sits fourth to the right of D.
- As many persons sit between A and E as between H and A, when counted from the left of E and from the right of H.

Again, we have,

- B sits second to the right of C.
- Neither B nor C is an immediate neighbour of A.
- F doesn't sit opposite to B.

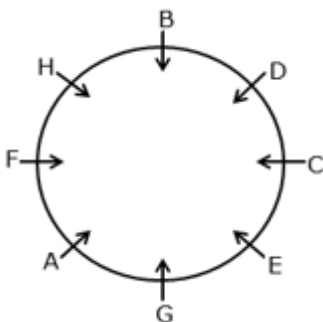

From the above conditions Case 1 gets eliminated because 'F doesn't sit opposite to B' is not satisfied. Hence, Case 2 is the final arrangement.

Answer: A (No one will remain unchanged)

3. Questions

Final arrangement:

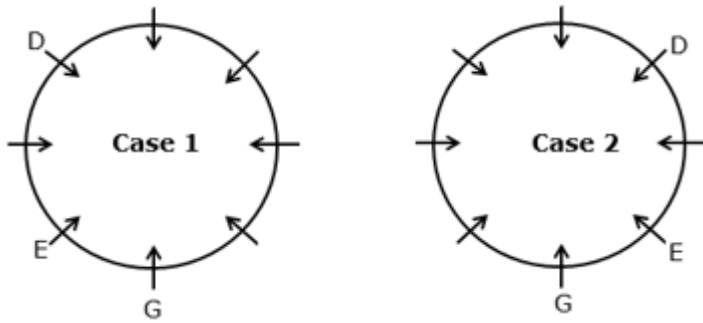

We have,

- G is an immediate neighbour of E.
- One person sits between E and D who does not sit adjacent to G.

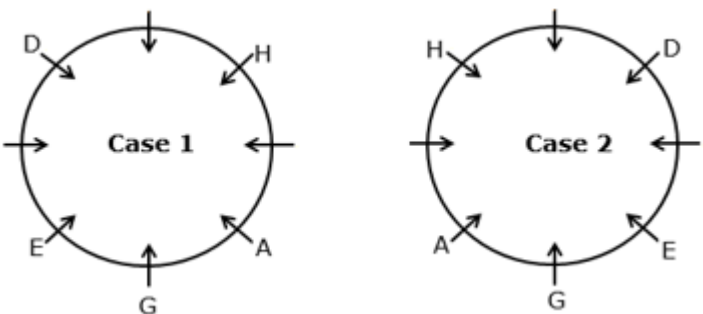

From the above conditions, there are two possibilities.

@RankZen Banker

Again, we have,

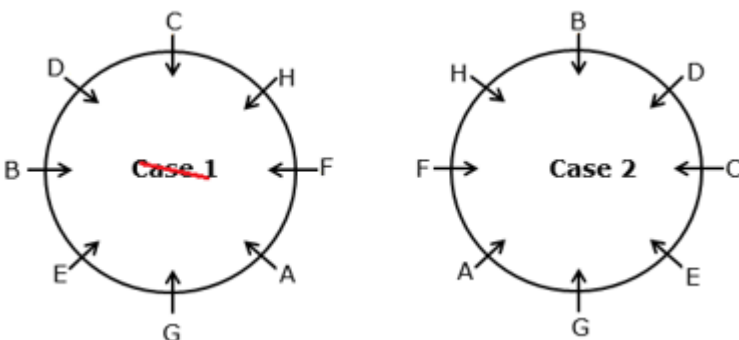

- A sits fourth to the right of D.
- As many persons sit between A and E as between H and A, when counted from the left of E and from the right of H.

Again, we have,

- B sits second to the right of C.
- Neither B nor C is an immediate neighbour of A.
- F doesn't sit opposite to B.

From the above conditions Case 1 gets eliminated because 'F doesn't sit opposite to B' is not satisfied. Hence, Case 2 is the final arrangement.

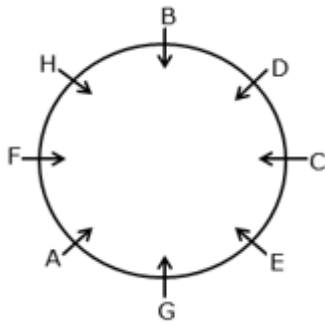

@RankZen Banker

Answer: C (In all the other options the first person sits second to the right of the second person, except in option c)

4. Questions

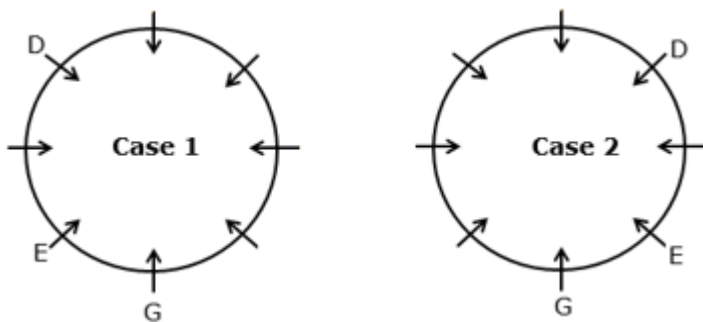

Final arrangement:

We have,

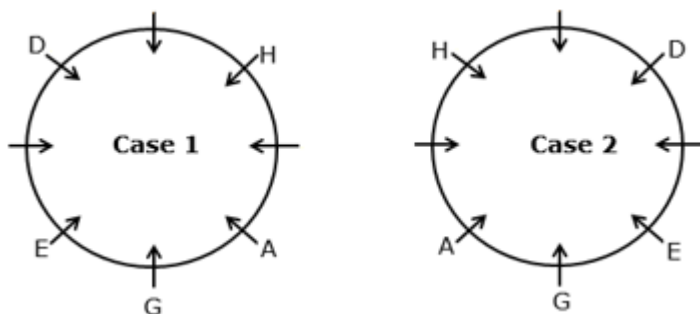

- G is an immediate neighbour of E.
- One person sits between E and D who does not sit adjacent to G.

From the above conditions, there are two possibilities.

Again, we have,

- A sits fourth to the right of D.
- As many persons sit between A and E as between H and A, when counted from the left of E and from the right of H.

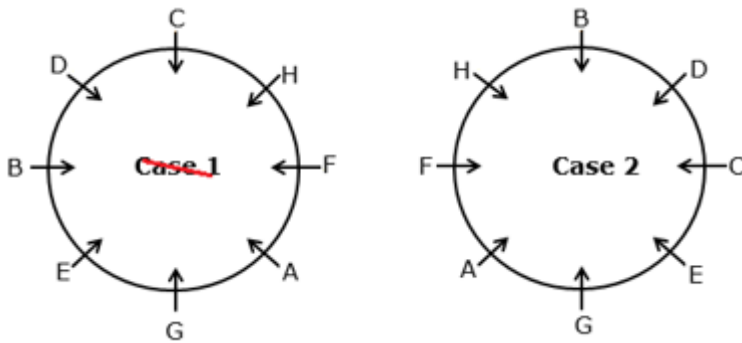

Again, we have,

- B sits second to the right of C.
- Neither B nor C is an immediate neighbour of A.
- F doesn't sit opposite to B.

@RankZen Banker

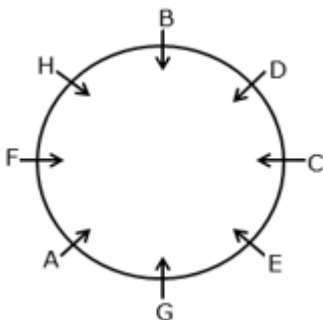

From the above conditions Case 1 gets eliminated because 'F doesn't sit opposite to B' is not satisfied. Hence, Case 2 is the final arrangement.

Answer: E

5. Questions

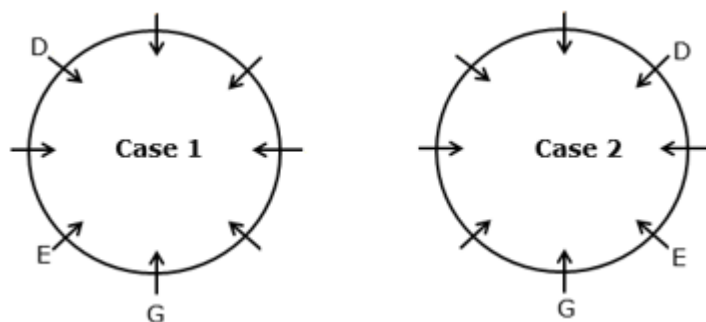

Final arrangement:

We have,

- G is an immediate neighbour of E.
- One person sits between E and D who does not sit adjacent to G.

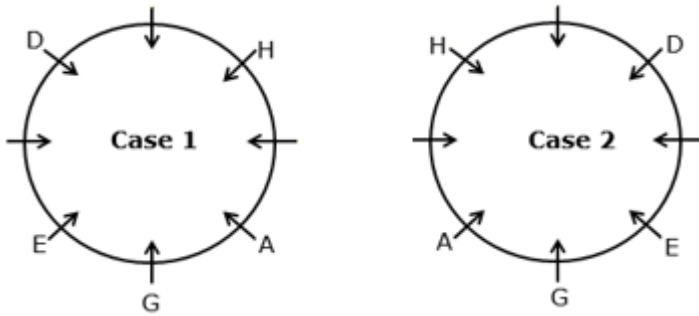

From the above conditions, there are two possibilities.

Again, we have,

- A sits fourth to the right of D.
- As many persons sit between A and E as between H and A, when counted from the left of E and from the right of H.

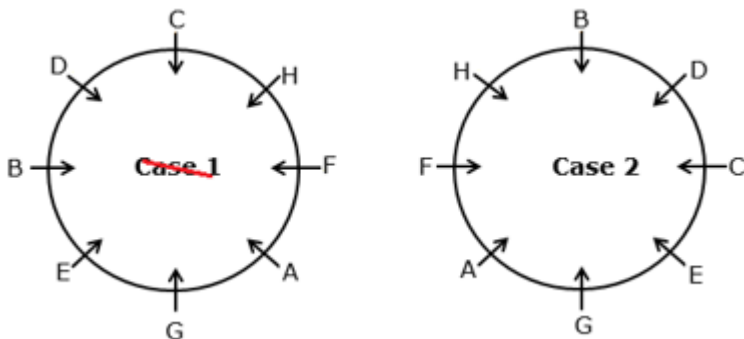

@RankZen Banker

Again, we have,

- B sits second to the right of C.
- Neither B nor C is an immediate neighbour of A.
- F doesn't sit opposite to B.

From the above conditions Case 1 gets eliminated because 'F doesn't sit opposite to B' is not satisfied. Hence, Case 2 is the final arrangement.

Answer: D

6. Questions

Final arrangement:

Persons
Q
W
P
V
S
R
T
U

@RankZen Banker

We have,

- An even number of persons bought before P.
- S bought two persons after P.

From the above conditions, there are two possibilities:

Case 1	Case 2
Persons	Persons
P	
S	P
	S

Again, we have,

- As many persons bought after S as before V.
- Three persons bought between V and U.

@RankZen Banker

Case 1	Case 2
Persons	Persons
	V
P	
V	
S	P
	U
	S
U	

Again, we have,

- R bought immediately before T but he is not the first one to buy things.
- Q bought before W, who is not the last person to buy a thing.

From the above conditions Case 2 gets eliminated because Q bought before W, who is not the last person to buy a thing, which is not satisfied. Hence, Case 1 is the final arrangement.

@RankZen Banker

Case 1	Case 2
Persons	Persons
Q	
W	V
P	R
V	T
S	P
R	U
T	S
U	

Answer: D

7. Questions

Final arrangement:

Persons
Q
W
P
V
S
R
T
U

@RankZen Banker

We have,

- An even number of persons bought before P.

- S bought two persons after P.

From the above conditions, there are two possibilities:

Case 1	Case 2
Persons	Persons
P	
S	P
	S

Again, we have,

- As many persons bought after S as before V.
- Three persons bought between V and U.

@RankZen Banker

Case 1	Case 2
Persons	Persons
	V
P	
V	
S	P
	U
	S
U	

Again, we have,

- R bought immediately before T but he is not the first one to buy things.
- Q bought before W, who is not the last person to buy a thing.

From the above conditions Case 2 gets eliminated because Q bought before W, who is not the last person to buy a thing, which is not satisfied. Hence, Case 1 is the final arrangement.

@RankZen Banker

Case 1	Case 2
Persons	Persons
Q	
W	V
P	R
V	T
S	P
R	U
T	S
U	

Answer: C

8. Questions

Final arrangement:

Persons
Q
W
P
V
S
R
T
U

@RankZen Banker

We have,

- An even number of persons bought before P.

- S bought two persons after P.

From the above conditions, there are two possibilities:

Case 1	Case 2
Persons	Persons
P	
S	P
	S

Again, we have,

- As many persons bought after S as before V.
- Three persons bought between V and U.

@RankZen Banker

Case 1	Case 2
Persons	Persons
	V
P	
V	
S	P
	U
	S
U	

Again, we have,

- R bought immediately before T but he is not the first one to buy things.
- Q bought before W, who is not the last person to buy a thing.

From the above conditions Case 2 gets eliminated because Q bought before W, who is not the last person to buy a thing, which is not satisfied. Hence, Case 1 is the final arrangement.

@RankZen Banker

Case 1	Case 2
Persons	Persons
Q	
W	V
P	R
V	T
S	P
R	U
T	S
U	

Answer: D (R and S remain unchanged in their position)

9. Questions

Final arrangement:

Persons
Q
W
P
V
S
R
T
U

@RankZen Banker

We have,

- An even number of persons bought before P.

- S bought two persons after P.

From the above conditions, there are two possibilities:

Case 1	Case 2
Persons	Persons
P	
S	P
	S

Again, we have,

- As many persons bought after S as before V.
- Three persons bought between V and U.

@RankZen Banker

Case 1	Case 2
Persons	Persons
	V
P	
V	
S	P
	U
	S
U	

Again, we have,

- R bought immediately before T but he is not the first one to buy things.
- Q bought before W, who is not the last person to buy a thing.

From the above conditions Case 2 gets eliminated because Q bought before W, who is not the last person to buy a thing, which is not satisfied. Hence, Case 1 is the final arrangement.

@RankZen Banker

Case 1	Case 2
Persons	Persons
Q	
W	V
P	R
V	T
S	P
R	U
T	S
U	

Answer: B

10. Questions

Final arrangement:

Persons
Q
W
P
V
S
R
T
U

@RankZen Banker

We have,

- An even number of persons bought before P.

- S bought two persons after P.

From the above conditions, there are two possibilities:

Case 1	Case 2
Persons	Persons
P	
S	P
	S

Again, we have,

- As many persons bought after S as before V.
- Three persons bought between V and U.

@RankZen Banker

Case 1	Case 2
Persons	Persons
	V
P	
V	
S	P
	U
	S
U	

Again, we have,

- R bought immediately before T but he is not the first one to buy things.
- Q bought before W, who is not the last person to buy a thing.

From the above conditions Case 2 gets eliminated because Q bought before W, who is not the last person to buy a thing, which is not satisfied. Hence, Case 1 is the final arrangement.

@RankZen Banker

Case 1	Case 2
Persons	Persons
Q	
W	V
P	R
V	T
S	P
R	U
T	S
U	

Answer: A (In all the other options, one person bought the product between first person and second person, except option a)

11. Questions

Final arrangement:

Designations	Persons
General	D
Brigadier	B
Colonel	F
Lt. Colonel	A
Major	G
Captain	H
Subedar	E
Havaldar	C

@RankZen Banker

We have,

- G is designated as either major or captain.

From the above conditions, there are two possibilities.

Designation	Case 1	Case 2
	Persons	Persons
General		
Brigadier		
Colonel		
Lt. Colonel		
Major	G	
Captain		G
Subedar		
Havaldar		

Again, we have,

- Three persons are designated between G and D.
- As many persons are senior to D as junior to C.
- H is two persons senior to C.

@RankZen Banker

Designation	Case 1	Case 2
	Persons	Persons
General	D	
Brigadier		D
Colonel		
Lt. Colonel		
Major	G	H
Captain	H	G
Subedar		C
Havaldar	C	

Again, we have,

- E is designated adjacent to H.
- The number of persons designated between E and C is **one less than** the persons designated between B and A.
- B is senior to A.

From the above conditions, Case 2 and eliminated because the number of persons designated between E and C is **one less than** the persons designated between B and A, which is not satisfied. Hence, Case 1 is the final arrangement.

@RankZen Banker

Designation	Case 1	Case 2
	Persons	Persons
General	D	
Brigadier	B	D
Colonel	F	
Lt. Colonel	A	E
Major	G	H
Captain	H	G
Subedar	E	C
Havaldar	C	

Answer: A

12. Questions

Final arrangement:

Designations	Persons
General	D
Brigadier	B
Colonel	F
Lt. Colonel	A
Major	G
Captain	H
Subedar	E
Havaldar	C

@RankZen Banker

We have,

- G is designated as either major or captain.

From the above conditions, there are two possibilities.

Designation	Case 1	Case 2
	Persons	Persons
General		
Brigadier		
Colonel		
Lt. Colonel		
Major	G	
Captain		G
Subedar		
Havaldar		

Again, we have,

- Three persons are designated between G and D.
- As many persons are senior to D as junior to C.
- H is two persons senior to C.

@RankZen Banker

Designation	Case 1	Case 2
	Persons	Persons
General	D	
Brigadier		D
Colonel		
Lt. Colonel		
Major	G	H
Captain	H	G
Subedar		C
Havaldar	C	

Again, we have,

- E is designated adjacent to H.
- The number of persons designated between E and C is **one less than** the persons designated between B and A.
- B is senior to A.

From the above conditions, Case 2 and eliminated because the number of persons designated between E and C is **one less than** the persons designated between B and A, which is not satisfied. Hence, Case 1 is the final arrangement.

@RankZen Banker

Designation	Case 1	Case 2
	Persons	Persons
General	D	
Brigadier	B	D
Colonel	F	
Lt. Colonel	A	E
Major	G	H
Captain	H	G
Subedar	E	C
Havaldar	C	

Answer: C (In all the options, the first person is immediately senior to second person, except option c)

13. Questions

Final arrangement:

Designations	Persons
General	D
Brigadier	B
Colonel	F
Lt. Colonel	A
Major	G
Captain	H
Subedar	E
Havaldar	C

@RankZen Banker

We have,

- G is designated as either major or captain.

From the above conditions, there are two possibilities.

Designation	Case 1	Case 2
	Persons	Persons
General		
Brigadier		
Colonel		
Lt. Colonel		
Major	G	
Captain		G
Subedar		
Havaldar		

Again, we have,

- Three persons are designated between G and D.
- As many persons are senior to D as junior to C.
- H is two persons senior to C.

@RankZen Banker

Designation	Case 1	Case 2
	Persons	Persons
General	D	
Brigadier		D
Colonel		
Lt. Colonel		
Major	G	H
Captain	H	G
Subedar		C
Havaldar	C	

Again, we have,

- E is designated adjacent to H.
- The number of persons designated between E and C is **one less than** the persons designated between B and A.
- B is senior to A.

From the above conditions, Case 2 and eliminated because the number of persons designated between E and C is **one less than** the persons designated between B and A, which is not satisfied. Hence, Case 1 is the final arrangement.

@RankZen Banker

Designation	Case 1	Case 2
	Persons	Persons
General	D	
Brigadier	B	D
Colonel	F	
Lt. Colonel	A	E
Major	G	H
Captain	H	G
Subedar	E	C
Havaldar	C	

Answer: A (F will remain unchanged)

14. Questions

Final arrangement:

Designations	Persons
General	D
Brigadier	B
Colonel	F
Lt. Colonel	A
Major	G
Captain	H
Subedar	E
Havaldar	C

@RankZen Banker

We have,

- G is designated as either major or captain.

From the above conditions, there are two possibilities.

Designation	Case 1	Case 2
	Persons	Persons
General		
Brigadier		
Colonel		
Lt. Colonel		
Major	G	
Captain		G
Subedar		
Havaldar		

Again, we have,

- Three persons are designated between G and D.
- As many persons are senior to D as junior to C.
- H is two persons senior to C.

@RankZen Banker

Designation	Case 1	Case 2
	Persons	Persons
General	D	
Brigadier		D
Colonel		
Lt. Colonel		
Major	G	H
Captain	H	G
Subedar		C
Havaldar	C	

Again, we have,

- E is designated adjacent to H.
- The number of persons designated between E and C is **one less than** the persons designated between B and A.
- B is senior to A.

From the above conditions, Case 2 and eliminated because the number of persons designated between E and C is **one less than** the persons designated between B and A, which is not satisfied. Hence, Case 1 is the final arrangement.

@RankZen Banker

Designation	Case 1	Case 2
	Persons	Persons
General	D	
Brigadier	B	D
Colonel	F	
Lt. Colonel	A	E
Major	G	H
Captain	H	G
Subedar	E	C
Havaldar	C	

Answer: C

15. Questions

Final arrangement:

Designations	Persons
General	D
Brigadier	B
Colonel	F
Lt. Colonel	A
Major	G
Captain	H
Subedar	E
Havaldar	C

@RankZen Banker

We have,

- G is designated as either major or captain.

From the above conditions, there are two possibilities.

Designation	Case 1	Case 2
	Persons	Persons
General		
Brigadier		
Colonel		
Lt. Colonel		
Major	G	
Captain		G
Subedar		
Havaldar		

Again, we have,

- Three persons are designated between G and D.
- As many persons are senior to D as junior to C.
- H is two persons senior to C.

@RankZen Banker

Designation	Case 1	Case 2
	Persons	Persons
General	D	
Brigadier		D
Colonel		
Lt. Colonel		
Major	G	H
Captain	H	G
Subedar		C
Havaldar	C	

Again, we have,

- E is designated adjacent to H.
- The number of persons designated between E and C is **one less than** the persons designated between B and A.
- B is senior to A.

From the above conditions, Case 2 and eliminated because the number of persons designated between E and C is **one less than** the persons designated between B and A, which is not satisfied. Hence, Case 1 is the final arrangement.

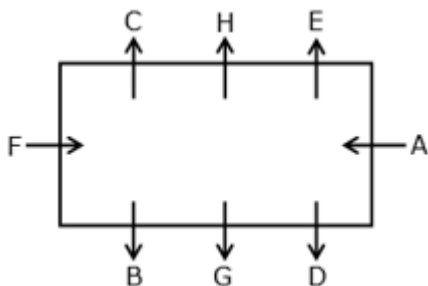

@RankZen Banker

Designation	Case 1	Case 2
	Persons	Persons
General	D	
Brigadier	B	D
Colonel	F	
Lt. Colonel	A	E
Major	G	H
Captain	H	G
Subedar	E	C
Havaldar	C	

Answer: B

16. Questions

Final arrangement:

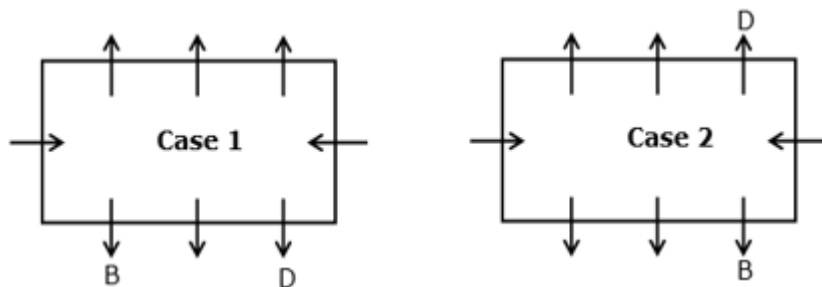

We have,

- D sits second to the left of B, where neither of them sits on the shorter side.

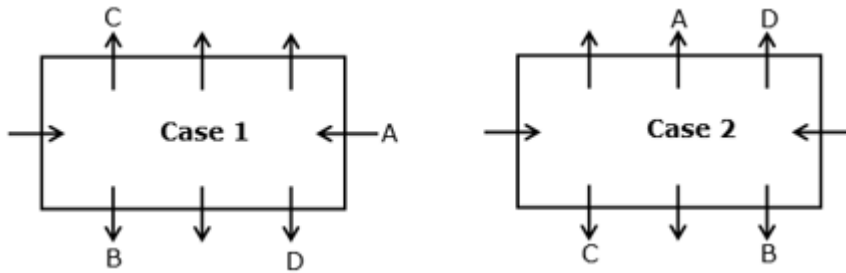

From the above conditions, there are two possibilities.

@RankZen Banker

Again, we have,

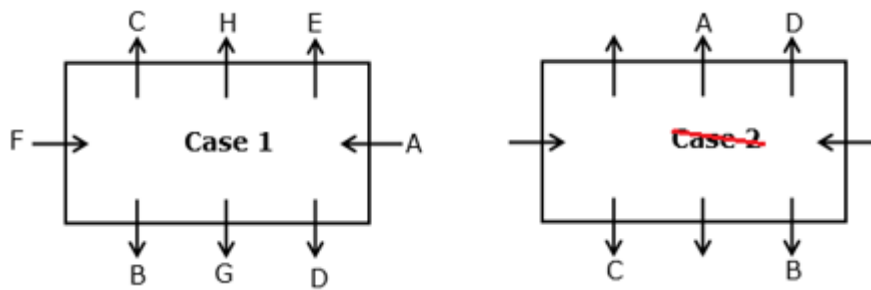

- A sits to the immediate left of D.
- Two persons sit between A and C.

Again, we have,

- As many persons sit between C and B as sit between H and F, when counted from the left of C and to the left of F.
- H sits adjacent to E.

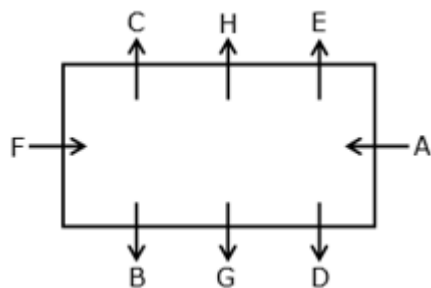

From the above conditions, Case 2 gets eliminated because H sits adjacent to E, which is not satisfied. Hence, Case 1 is the final arrangement.

Answer: C

17. Questions

Final arrangement:

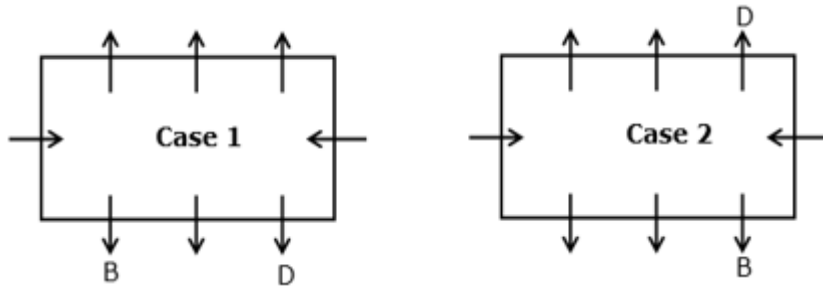

We have,

- D sits second to the left of B, where neither of them sits on the shorter side.

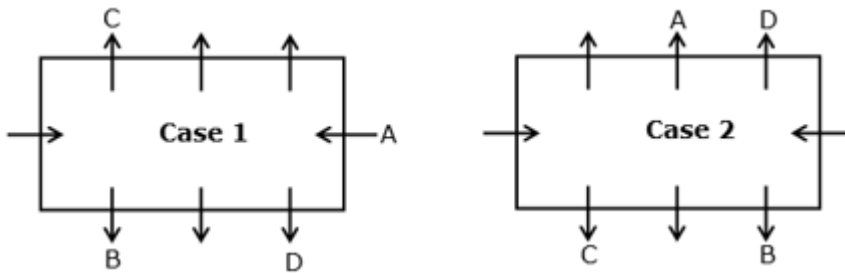

From the above conditions, there are two possibilities.

@RankZen Banker

Again, we have,

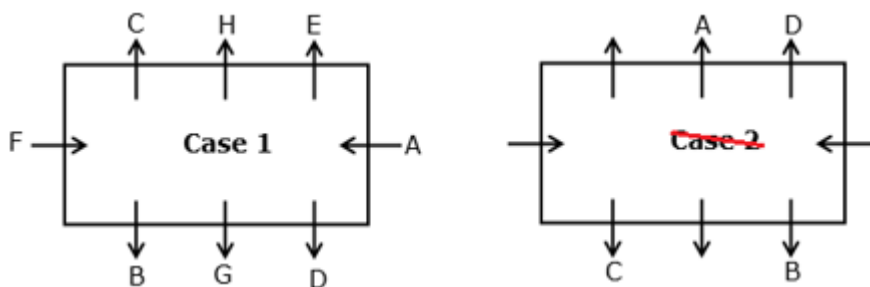

- A sits to the immediate left of D.
- Two persons sit between A and C.

Again, we have,

- As many persons sit between C and B as sit between H and F, when counted from the left of C and to the left of F.
- H sits adjacent to E.

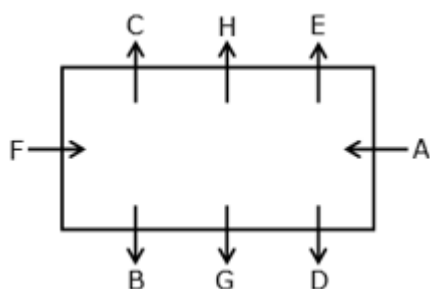

From the above conditions, Case 2 gets eliminated because H sits adjacent to E, which is not satisfied. Hence, Case 1 is the final arrangement.

Answer: D (In all the options, the persons sits on the longer side, except in option d)

18. Questions

Final arrangement:

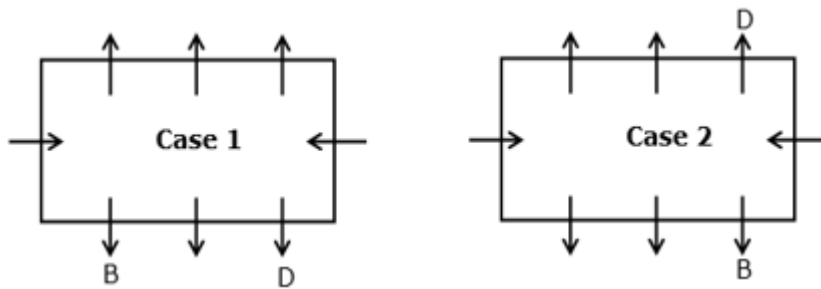

We have,

@RankZen Banker

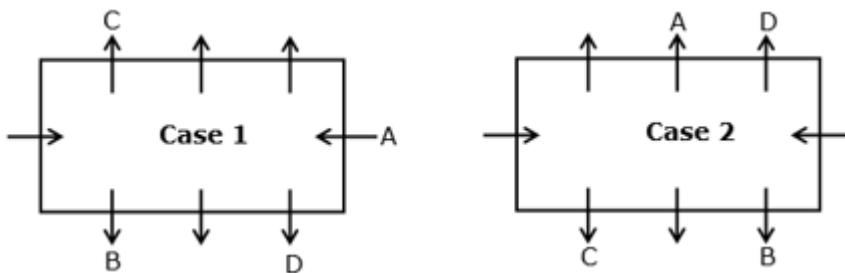

- D sits second to the left of B, where neither of them sits on the shorter side.

From the above conditions, there are two possibilities.

Again, we have,

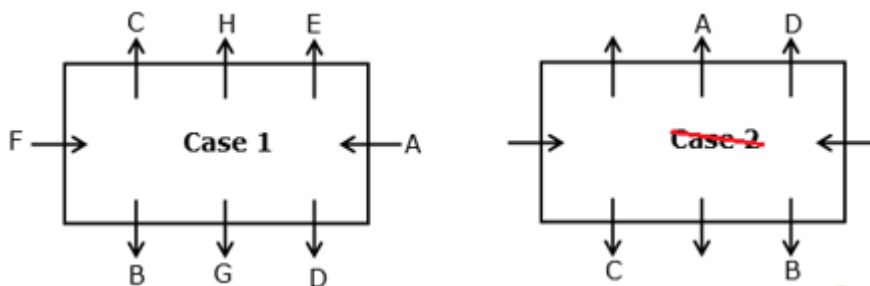

- A sits to the immediate left of D.
- Two persons sit between A and C.

Again, we have,

- As many persons sit between C and B as sit between H and F, when counted from the left of C and to the left of F.
- H sits adjacent to E.

From the above conditions, Case 2 gets eliminated because H sits adjacent to E, which is not satisfied. Hence, Case 1 is the final arrangement.

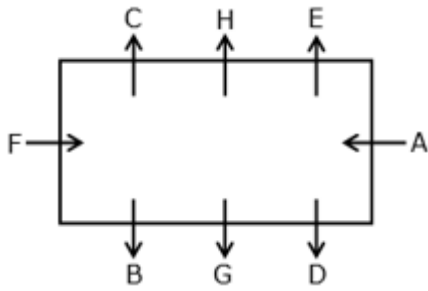

Answer: A

19. Questions

Final arrangement:

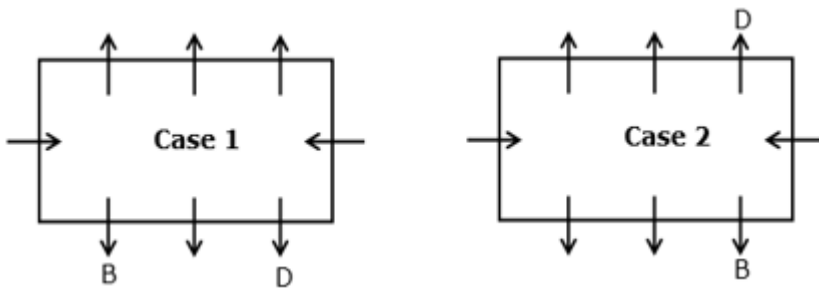

@RankZen Banker

We have,

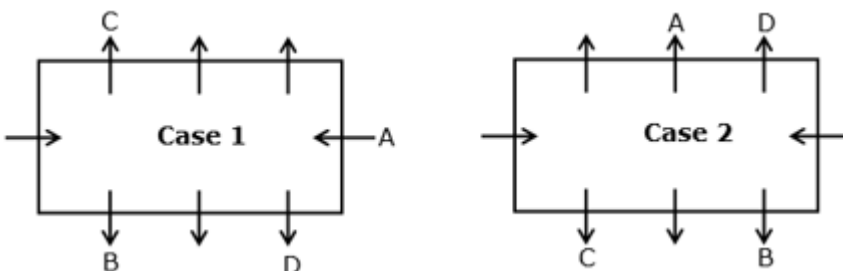

- D sits second to the left of B, where neither of them sits on the shorter side.

From the above conditions, there are two possibilities.

Again, we have,

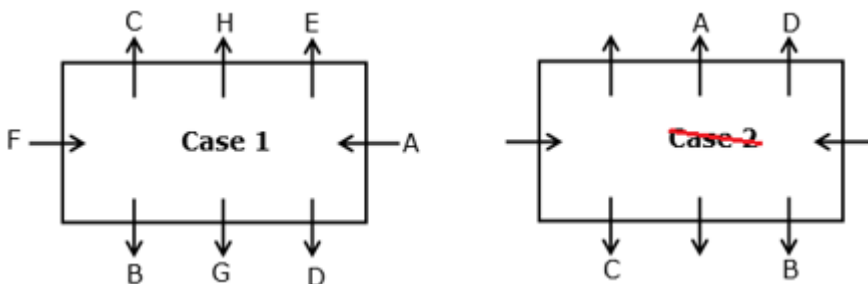

- A sits to the immediate left of D.
- Two persons sit between A and C.

Again, we have,

- As many persons sit between C and B as sit between H and F, when counted from the left of C and to the left of F.
- H sits adjacent to E.

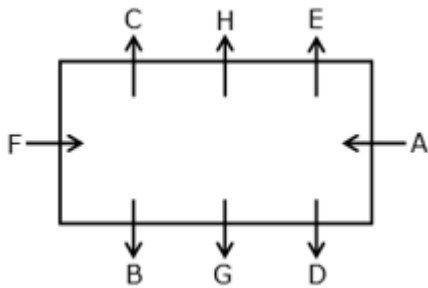

From the above conditions, Case 2 gets eliminated because H sits adjacent to E, which is not satisfied. Hence, Case 1 is the final arrangement.

Answer: E

20. Questions

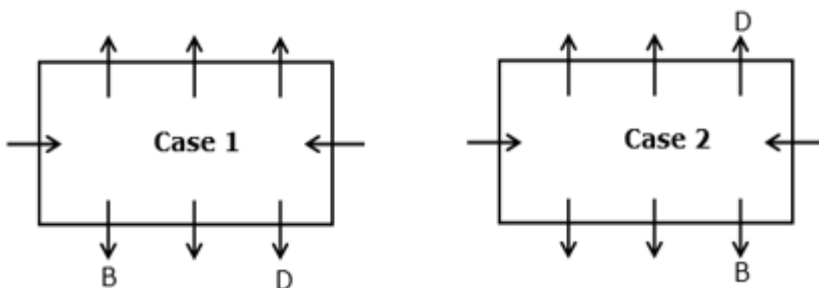

Final arrangement:

We have,

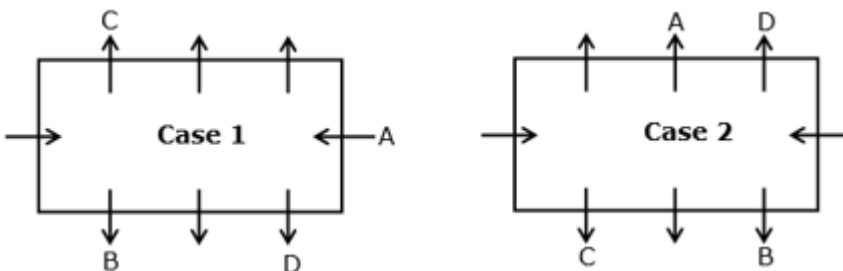

- D sits second to the left of B, where neither of them sits on the shorter side.

From the above conditions, there are two possibilities.

Again, we have,

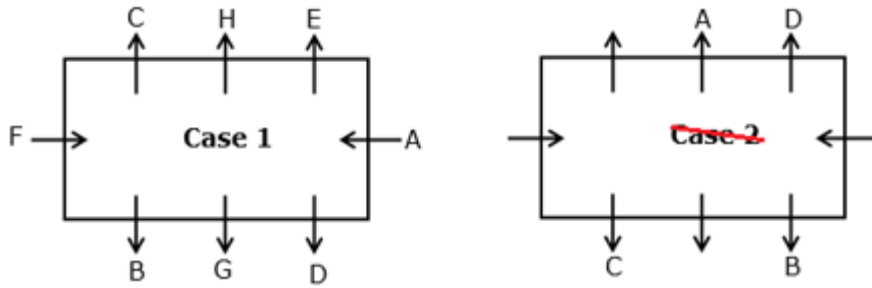

- A sits to the immediate left of D.
- Two persons sit between A and C.

Again, we have,

- As many persons sit between C and B as sit between H and F, when counted from the left of C and to the left of F.
- H sits adjacent to E.

From the above conditions, Case 2 gets eliminated because H sits adjacent to E, which is not satisfied. Hence, Case 1 is the final arrangement.

Answer: B

21. Questions

Answer: A

Given: $C < G \leq P > L \geq S > K \leq M < B$

Conclusions:

- I). $P > C$ ($P \geq G > C$) --> True
- II). $S > B$ ($S > K \leq M < B$) --> False

22. Questions

Answer: E

Given: $R > M = K < Y \leq A > H \geq C$

Conclusions:

- I). $R > A$ ($R > M = K < Y \leq A$) --> False
- II). $R > H$ ($R > M = K < Y \leq A > H$) --> False

23. Questions

Answer: C

Given: $R < A = T > N \geq W < D = K < Y \leq M > Q$

Conclusions:

- I). $M > D$ ($M \geq Y > K = D$) --> True
- II). $A > W$ ($A = T > N \geq W$) --> True

24. Questions

Answer: D

Given: $J \geq U > B = F > P \geq X > C = L > S > V$

Conclusions:

- I). $X > J$ ($X \leq P < F = B < U \leq J$) --> False
- II). $U > V$ ($U > B = F > P \geq X > C = L > S > V$) --> True

25. Questions

@RankZen Banker

Answer: E

Given: $G < T \leq Z = H > K \geq R < M = A < P > D$

Conclusions:

I). $H > M$ ($H > K \geq R < M$)--> False

II). $P > K$ ($P > A = M > R \leq K$)--> False

26. Questions

Answer: B

Given: 7 2 9 4 1 8 3 6 5 2 7 4 9 1 3 8 5 6 **2 4 7** 8 9 3 1 5 8 2 6 4

There is one even number in the given series, which is immediately preceded by an even number and immediately followed by an odd number.

27. Questions

Answer: C

Given: 7 2 9 4 1 8 3 6 5 2 7 4 9 1 3 8 5 6 2 4 7 8 9 3 1 5 8 2 6 4

If all the prime numbers are dropped from the given series, then

Required series: 9 4 1 8 6 4 9 1 8 6 4 8 9 1 8 6 4

8 is the ninth number from the right end.

28. Questions

Answer: A

Given: 7 2 9 4 1 8 3 6 5 2 7 4 9 1 3 8 5 6 2 4 7 8 9 **3** 1 5 8 2 6 4

3 is the number which is thirteenth to the right of the eleventh element from the left end.

29. Questions

Answer: A

Given: 7 2 9 4 1 8 3 6 5 2 7 4 9 1 3 8 5 6 2 4 7 8 9 3 1 5 8 2 6 4

If the numbers less than 5 (excluding 5) are arranged in ascending order from the left end, which is followed by the remaining elements in the same order, then

Required series: 1 1 1 2 2 2 2 3 3 3 **4** 4 4 4 7 9 8 6 5 7 9 8 5 6 7 8 9 5 8 6

4 is the eleventh number from the left end.

30. Questions

Answer: E

Given: 7 2 9 4 1 8 3 6 5 2 7 4 **9 1 3 8 5** 6 2 4 7 8 9 3 1 5 8 2 6 4

There are 6 odd numbers between the tenth number from the left end, i.e., 2 and the ninth number from the right end, i.e., 8 in the given series.

31. Questions

Answer: D

In the word "INDUSTRIAL", all the vowels are changed to the next vowel, and all the consonants are changed to the previous alphabets as per the English alphabetical series. Then,

I N D U S T R I A L

O M C A R S Q O E K

Then all the letters are arranged in English alphabetical order from right to left ,

O M C A R S Q O E K

S R Q O O M K E C A

R is the letter which is fourth to the left of the fifth element from the right end.

32. Questions

Answer: E

33. Questions

Answer: C

All the even digits are increased by one and all the odd digits are decreased by one then,

5 8 7 1 2 3 9 4 5 6 8

4 9 6 0 3 2 8 5 4 7 9

Arrange all the digits in ascending order from right to left then,

4 9 6 0 3 2 8 5 4 7 9

9 9 8 7 6 5 4 4 3 2 0

The sum of the digits which is third from the right end is 3 and fifth from the left end is $6 = 3 + 6 = 9$

34. Questions

Answer: D

If in the number the first half of the digits are written in descending order, followed by the second half of the digits written in ascending order,

1 3 8 4 6 9 7 5 2 3 1 4 8 9 6 7

@RankZen Banker

9 8 7 6 5 4 3 1 1 2 3 4 6 7 8 9

Then 1.3 is the resultant when the second digit from the left end is divisible by the fourth digit from the right end.

$$8/6 = 1.3$$

35. Questions

Answer: D

No meaningful words can be formed by using the second, fourth, seventh and ninth letters from the left end of the word "WONDERLAND" i.e O, D, L and N.

36. Questions

Answer: C

Given series: @ R T % D X + M Q A F # & H N Y ^ C L \$ P W G B ! U V * E J

If all the symbols from the above arrangement are dropped, then,

Required series: R T D X M Q A F H N Y C L P W G B U V E J

M is the element which is sixth to the left or eleventh element from the right end.

37. Questions

Answer: B

Given series: @ R T % D X + M Q A F # & H N Y ^ C L \$ P W G B ! U V * E J

There are two symbols which are immediately followed by vowels and immediately preceded by consonants.

38. Questions

Answer: D

Given series: @ R T % D X + M Q A F # & H N Y ^ C L \$ P W G B ! U V * E J

The sixth consonant from the right end is P and the fifth symbol to the left of P is +.

39. Questions

Answer: A

Given series: @ R T % D X + M Q A F # & H N Y ^ C L \$ P W G B ! U V * E J

If all the symbols are arranged first from the left end in the same order as given in the series and the alphabets are arranged just after the symbols in the same order as in the series from the left end then,

@ % + # & ^ \$! * R T D X M Q A F H N Y C L P W G B U V E J

N is twelfth to the right of the seventh element from the left end.

40. Questions

Answer: A

@RankZen Banker

Given series: @ R T % D X + M Q A F # & H N Y ^ C L \$ P W G B ! U V * E J

There is one vowel i.e A between the eighth element from the left end i.e M and the thirteenth element from the right end i.e C.

@RankZen Banker
