

1. Questions

Study the following information carefully and answer the given questions.

Eight persons – A, B, C, D, E, F, G and H - joined a gym in eight different months, viz., January, February, March, April, May, June, July and August in 2025. Only one person joined the gym each month.

E joined in a month which has the minimum number of days. D joined the gym in a month adjacent to E. As many persons joined before D as after C. A joined the gym two months before C. Only two persons joined between A and B. B doesn't join after C. F joined before G but not before H. H doesn't join the class in a month which has an even number of days.

G joined the gym in which of the following months?

- a. August
- b. January
- c. April
- d. July
- e. March

2. Questions

How many persons joined the gym after A as per the final arrangement?

- a. None
- b. One
- c. Two
- d. Three
- e. More than three

3. Questions

As many persons joined before H as after ____.

- a. F
- b. G
- c. A
- d. E
- e. B

@RankZen Banker

4. Questions

Which of the following statement(s) is/are TRUE with respect to the final arrangement?

- a. No one joined the gym between G and B
- b. B is the first one to join the gym
- c. Two persons joined the gym between H and D
- d. F joined the gym in a month which has even number of days
- e. A joined the gym in one of the months after G

5. Questions

Four of the following five are alike in a certain way based on the final arrangement and thus form a group. Who among the following persons does not belong to the group?

- a. B
- b. D
- c. G
- d. A
- e. F

6. Questions

Study the following information carefully and answer the given questions.

Eight persons, P, Q, R, S, T, U, V and W are studying in three streams, viz., Commerce, Science and Journalism. At least two but not more than three persons are studying in each stream.

R studies with T but not in commerce. V does not study science or journalism. Q studies only with S. W studies with an even number of persons but not with T. U studies neither with W nor journalism.

Who among the following person is not studying in the commerce and journalism stream as per the final arrangement?

- a. S
- b. R
- c. Q
- d. W
- e. V

@RankZen Banker

7. Questions

In which of the following streams does U study and with whom?

- a. Science, V
- b. Commerce, P
- c. Commerce, V

- d. Science, R
- e. Science, P

8. Questions

Four of the following five are alike in a certain way based on the final arrangement and thus form a group. Which one of the following persons does not belong to the group?

- a. Science- U
- b. Commerce- V
- c. Science - T
- d. Science- S
- e. Commerce- P

9. Questions

Which of the following statement(s) is/are TRUE with respect to the final arrangement?

- I). P studies with W in Commerce
 - II). Both T and V study in the same stream
 - III). Only two persons study in Commerce
- a. Only I
 - b. Only I and II
 - c. Only II and III
 - d. Only I and III
 - e. Only II

10. Questions

Which among the following pairs of persons studies with W based on the final arrangement?

- a. P and T
- b. R and P
- c. S and R
- d. R and V
- e. P and V

@RankZen Banker

11. Questions

Study the following information carefully and answer the given questions.

Eight boxes, viz., L, M, N, O, P, Q, R and S are kept one above another in a stack. It is assumed that no

other boxes are kept in the stack other than the given boxes.

Three boxes are kept between box L and box O. Box M is kept two boxes above box L. As many boxes are kept above box M as below box R, which is kept below O. Box R is neither kept above box M nor kept adjacent to box M. Box N is kept immediately above box P. At most one box is kept between box N and box Q. Box Q is kept above box S.

Which of the following boxes is kept third from the topmost position?

- a. Box M
- b. Box N
- c. Box L
- d. Box Q
- e. Box O

12. Questions

If the positions of all boxes are arranged in the English alphabetical order from bottom to top, then how many boxes will remain unchanged in their positions?

- a. One
- b. Two
- c. Three
- d. More than three
- e. None

13. Questions

How many boxes are kept between box L and box R?

- a. One
- b. Two
- c. Three
- d. More than three
- e. None

@RankZen Banker

14. Questions

The number of boxes kept above box Q is one less than the number of boxes kept below box ____.

- a. Box R
- b. Box S
- c. Box L

- d. Box M
- e. Box P

15. Questions

Which of the following boxes is kept four boxes above box R?

- a. Box L
- b. Box M
- c. Box Q
- d. Box P
- e. Box N

16. Questions

Study the following information carefully and answer the given questions.

Eight persons viz., J, K, L, M, N, O, P and Q are sitting around a square table in such a way that four of them are sitting in the middle of the sides and facing away from the centre while four of them are sitting at the corners and facing inside.

N sits second to the left of L. P sits opposite to N. Only two persons sit between P and J. J sits to the immediate right of Q. As many persons sit between J and N as between Q and M, when counted from the left of both J and Q. K neither sits opposite to M nor sits in the middle of the table.

How many persons are sitting between M and L, when counted from the left of M?

- a. One
- b. Two
- c. Three
- d. More than three
- e. No one

17. Questions

If all the persons are arranged in alphabetical order from J in clockwise direction, then who among the following person remains unchanged?

- a. P
- b. Q
- c. L
- d. M
- e. O

@RankZen Banker

18. Questions

Four of the following five are alike in a certain way based on the final arrangement and thus form a group. Which one of the following persons does not belong to the group?

- a. KJ
- b. LQ
- c. PO
- d. OM
- e. NP

19. Questions

What is the position of K with respect to N?

- a. Third to the right
- b. Third to the left
- c. Second to the right
- d. Immediate left
- e. Second to the left

20. Questions

Which of the following statements is TRUE based on the final arrangement?

- a. Only one person sits between P and O, when counted from the right of P.
- b. L sits opposite to M
- c. O sits third to the left of N
- d. K and Q sits immediate right of each other
- e. J sits second to the left of M.

21. Questions

In the given questions, the relationship between different elements is shown in the statements followed by two conclusions. Find the conclusion which is definitely true.

Statements:

$$S > D = U < K \leq A > M = Y < R \geq H > F$$

Conclusions:

I). $A > U$

II). $S > R$

@RankZen Banker

- a. Only conclusion I is true
- b. Either conclusion I or II is true
- c. Both conclusions I and II are true
- d. Only conclusion II is true
- e. Neither conclusion I nor II is true

22. Questions

Statements:

$C < V \geq T = J > E \leq P < W = N < X > B$

Conclusions:

I). $V > E$

II). $X > P$

- a. Only conclusion I is true
- b. Either conclusion I or II is true
- c. Both conclusions I and II are true
- d. Only conclusion II is true
- e. Neither conclusion I nor II is true

23. Questions

Statements:

$L \leq Z > F = K < A \geq M > R = H < Y \leq Q$

Conclusions:

I). $A > Y$

II). $Z > A$

- a. Only conclusion I is true
- b. Either conclusion I or II is true
- c. Both conclusions I and II are true
- d. Only conclusion II is true
- e. Neither conclusion I nor II is true

@RankZen Banker

24. Questions

Statements:

$D > U \geq G < X = B < N \leq P > W = C > T$

Conclusions:

I). $U > C$

II). $P > X$

- a. Only conclusion I is true
- b. Either conclusion I or II is true
- c. Both conclusions I and II are true
- d. Only conclusion II is true
- e. Neither conclusion I nor II is true

25. Questions

Statements:

$M < K = R > T \geq A < J = P \leq V \leq S > H$

Conclusions:

I). $S > J$

II). $S = J$

- a. Only conclusion I is true
- b. Either conclusion I or II is true
- c. Both conclusions I and II are true
- d. Only conclusion II is true
- e. Neither conclusion I nor II is true

26. Questions

Study the following information carefully and answer the given questions.

$\$ H ! J @ K \# L \% M \wedge N \& O * P U A + R = S T$

Which of the following element is seventh to the left of the ninth element from the right end in the given series?

@RankZen Banker

- a. #
- b. K
- c. L
- d. @
- e. M

27. Questions

How many vowels are there in the given series, each of which is immediately preceded by a letter and immediately followed by a symbol?

- a. Two
- b. Three
- c. Four
- d. Five
- e. One

28. Questions

If the first eighteen elements from the left end of the given series are reversed, then which of the following elements is fifth to the left of the ninth element from the right end?

- a. %
- b. M
- c. N
- d. ^
- e. K

29. Questions

How many letters are there in the given series which are immediately followed and immediately preceded by a symbol?

- a. Two
- b. Three
- c. Four
- d. Five
- e. More than six

30. Questions

@RankZen Banker

If all the symbols are dropped from the given series, then which of the following letters is twelfth from the left end in the new series thus formed?

- a. R
- b. S
- c. A
- d. U
- e. P

31. Questions

Study the following information carefully and answer the given questions.

X is the niece of T, who is the daughter of W. Q is the son of X's grandmother. T and Q are siblings. Y is the grandson of W, who is the father-in-law of C. C doesn't have any siblings. T is an unmarried female and has only one sibling.

If T is married to G, then how is G related to C's mother-in-law according to the final arrangement?

- a. Son-in-law
- b. Son
- c. Brother-in-law
- d. Father-in-law
- e. Brother

32. Questions

Which of the following statement(s) is/are TRUE with respect to Y?

- a. Y is the son of T
- b. Q's daughter is married to Y
- c. X and Y are the grandchildren of W
- d. Q is the husband of Y
- e. X is the granddaughter of Y

33. Questions

Study the following information carefully and answer the given questions.

D is the father of two children. Q is the grandson of D. Y is the maternal uncle of Q. D's son-in-law is the father of Q. C is the sister-in-law of Z. Both C and Z's husband doesn't have any siblings. Y is the father of P. Z is the aunt of P and has only one sibling.

How is Q related to P?

- a. Father
- b. Cousin
- c. Brother
- d. Brother-in-law
- e. Father-in-law

@RankZen Banker

34. Questions

If N is the father of Q, then how is Y related to N?

- a. Brother-in-law
- b. Father
- c. Uncle
- d. Brother
- e. Son-in-law

35. Questions

How many females are there in the family?

- a. Two
- b. Three
- c. Four
- d. More than Four
- e. Cannot be determined

36. Questions

Study the following information carefully and answer the given questions.

In a certain code language,

"Knowledge gives true confidence" is coded as **"pq lm rt ab"**

"Practice builds confidence daily" is coded as **"cd xy ab mn"**

"True effort needs practice" is coded as **"rt gh uv cd"**

"Knowledge and effort wins" is coded as **"pq jk gh ef"**

(Note: All the given codes are two-letters code only)

Which of the following is the code for the word "Daily" in the given coded language?

- a. xy
- b. mn
- c. ab
- d. cd
- e. Can't be determined

@RankZen Banker

37. Questions

What will be the code for the phrase "Practice gives knowledge" in the given coded language?

- a. lm gh uv

- b. cd ab rt
- c. cd lm pq
- d. xy mn pq
- e. pq lm gh

38. Questions

What may be the phrase for the code “mn uv” in the given coded language?

- a. True effort
- b. Daily needs
- c. Confidence effort
- d. True needs
- e. Give needs

39. Questions

Which of the following words is coded as “ef” in the given coded language?

- a. And
- b. Wins
- c. Knowledge
- d. Either And or wins
- e. Either Knowledge or And

40. Questions

If the phrase “Builds true wins” is coded as “xy rt jk”, then what is the code for the phrase “Daily and efforts” in the given coded language?

- a. xy rt cd
- b. pq lm gh
- c. jk ef xy
- d. mn ef gh
- e. rt jk ab

@RankZen Banker

Explanations:

1. Questions

Final arrangement:

Months	Persons
January	B
February	E
March	D
April	A
May	H
June	C
JULy	F
August	G

We have,

- E joined in a month which has the minimum number of days.
- D joined the gym in a month adjacent to E.

From the above conditions, there are two possibilities.

Months	Case 1	Case 2
	Persons	Persons
January	D	
February	E	E
March		D
April		
May		
June		
JULy		
August		

@RankZen Banker

Again, we have,

- As many persons joined before D as after C.
- A joined the gym two months before C.

Months	Case 1	Case 2
	Persons	Persons
January	D	
February	E	E
March		D
April		A
May		
June	A	C
July		
August	C	

Again, we have,

- Only two persons joined between A and B.
- B doesn't join after C.
- F joined before G but not before H.
- H doesn't join the class in a month which has an even number of days.

From the above conditions Case 1 gets eliminated because H doesn't join the class in a month which has an even number of days, which is not satisfied. Hence, Case 2 is the final arrangement.

@RankZen Banker

Months	Case 1	Case 2
	Persons	Persons
January	D	B
February	E	E
March	B	D
April	H	A
May	F	H
June	A	C
July	G	F
August	C	G

Answer: A

2. Questions

Final arrangement:

Months	Persons
January	B
February	E
March	D
April	A
May	H
June	C
July	F
August	G

@RankZen Banker

We have,

- E joined in a month which has the minimum number of days.

- D joined the gym in a month adjacent to E.

From the above conditions, there are two possibilities.

Months	Case 1	Case 2
	Persons	Persons
January	D	
February	E	E
March		D
April		
May		
June		
July		
August		

Again, we have,

- As many persons joined before D as after C.
- A joined the gym two months before C.

@RankZen Banker

Months	Case 1	Case 2
	Persons	Persons
January	D	
February	E	E
March		D
April		A
May		
June	A	C
July		
August	C	

Again, we have,

- Only two persons joined between A and B.
- B doesn't join after C.
- F joined before G but not before H.
- H doesn't join the class in a month which has an even number of days.

From the above conditions Case 1 gets eliminated because H doesn't join the class in a month which has an even number of days, which is not satisfied. Hence, Case 2 is the final arrangement.

@RankZen Banker

Months	Case 1	Case 2
	Persons	Persons
January	D	B
February	E	E
March	B	D
April	H	A
May	F	H
June	A	C
July	G	F
August	C	G

Answer: E

3. Questions

Final arrangement:

Months	Persons
January	B
February	E

January	D	B
February	E	E
March	B	D
April	H	A
May	F	H
June	A	C
July	G	F
August	C	G

Answer: D (In all the other options, the persons joined the class in a month which has an odd number of days, except the person in option d)

6. Questions

Final arrangement:

Streams	Persons
Commerce	V, W, P
Science	R, T, U
Journalism	Q, S

We have,

- R studies with T but not in commerce.

From the above condition, there are two possibilities.

@RankZen Banker

Streams	Case 1	Case 2
	Persons	Persons
Commerce		
Science	R, T	
Journalism		R, T

Again, we have ,

- V does not study science or journalism.
- Q studies only with S.

Streams	Case 1	Case 2
	Persons	Persons
Commerce	V	V
Science	R, T	Q, S
Journalism	Q, S	R, T

Again, we have ,

- W studies with an even number of persons but not with T.
- U studies neither with W nor journalism.

From the above conditions Case 2 gets eliminated because U studies neither with W nor Journalism, which is not satisfied. Hence, Case 1 is the final arrangement.

Streams	Case 1	Case 2
	Persons	Persons
Commerce	V, W, P	V, W
Science	R, T, U	Q, S
Journalism	Q, S	R, T

Answer: B

7. Questions

Final arrangement:

@RankZen Banker

Commerce	V, W, P	V, W
Science	R, T, U	Q, S
Journalism	Q, S	R, T

Answer: E

11. Questions

Final arrangement:

Boxes
M
Q
L
N
P
S
O
R

We have,

- Three boxes are kept between box L and box O.
- Box M is kept two boxes above box L.

@RankZen Banker

From the above conditions, there are two possibilities.

Case 1	Case 2
Boxes	Boxes
M	O
L	M
	L
O	

Again, we have,

- As many boxes are kept above box M as below box R which is kept below O.
- Box R is neither kept above box M nor kept adjacent to box M.

Case 1	Case 2
Boxes	Boxes
M	O
L	M
	L
	R
O	
R	

Again, we have,

- Box N is kept immediately above box P.

@RankZen Banker

- At most one box is kept between box N and box Q.
- Box Q is kept above box S.

From the above conditions, Case 2 gets eliminated because at most one box is kept between box N and box Q, which is not satisfied. Hence, Case 1 is the final arrangement.

Case 1	Case 2
Boxes	Boxes
M	O
Q	
L	M
N	
P	L
S	R
O	N
R	P

Answer: C

12. Questions

Final arrangement:

@RankZen Banker

Boxes
M
Q
L
N
P
S
O
R

We have,

- Three boxes are kept between box L and box O.
- Box M is kept two boxes above box L.

From the above conditions, there are two possibilities.

Case 1	Case 2
Boxes	Boxes
M	O
L	M
	L
O	

Again, we have,

- As many boxes are kept above box M as below box R which is kept below O.
- Box R is neither kept above box M nor kept adjacent to box M.

@RankZen Banker

Case 1	Case 2
Boxes	Boxes
M	O
L	M
	L
	R
O	
R	

Again, we have,

- Box N is kept immediately above box P.
- At most one box is kept between box N and box Q.
- Box Q is kept above box S.

From the above conditions, Case 2 gets eliminated because at most one box is kept between box N and box Q, which is not satisfied. Hence, Case 1 is the final arrangement.

Answer: E

13. Questions

Final arrangement:

Boxes
M
Q
L
N
P
S
O
R

@RankZen Banker

We have,

- Three boxes are kept between box L and box O.

- Box M is kept two boxes above box L.

From the above conditions, there are two possibilities.

Case 1	Case 2
Boxes	Boxes
M	O
L	M
	L
O	

Again, we have,

- As many boxes are kept above box M as below box R which is kept below O.
- Box R is neither kept above box M nor kept adjacent to box M.

Case 1	Case 2
Boxes	Boxes
M	O
L	M
	L
	R
O	
R	

@RankZen Banker

Again, we have,

- Box N is kept immediately above box P.
- At most one box is kept between box N and box Q.
- Box Q is kept above box S.

From the above conditions, Case 2 gets eliminated because at most one box is kept between box N and box Q, which is not satisfied. Hence, Case 1 is the final arrangement.

Case 1	Case 2
Boxes	Boxes
M	O
Q	
L	M
N

Answer: D

14. Questions

Final arrangement:

@RankZen Banker

Boxes
M
Q
L
N
P
S
O
R

We have,

- Three boxes are kept between box L and box O.
- Box M is kept two boxes above box L.

From the above conditions, there are two possibilities.

Case 1	Case 2
Boxes	Boxes
M	O
L	M
	L
O	

Again, we have,

- As many boxes are kept above box M as below box R which is kept below O.
- Box R is neither kept above box M nor kept adjacent to box M.

@RankZen Banker

Case 1	Case 2
Boxes	Boxes
M	O
L	M
	L
	R
O	
R	

Again, we have,

- Box N is kept immediately above box P.
- At most one box is kept between box N and box Q.
- Box Q is kept above box S.

From the above conditions, Case 2 gets eliminated because at most one box is kept between box N and box Q, which is not satisfied. Hence, Case 1 is the final arrangement.

@RankZen Banker

Case 1	Case 2

Answer: B

15. Questions

Final arrangement:

Boxes
M
Q
L
N
P
S
O
R

@RankZen Banker

We have,

- Three boxes are kept between box L and box O.

- Box M is kept two boxes above box L.

From the above conditions, there are two possibilities.

Case 1	Case 2
Boxes	Boxes
M	O
L	M
	L
O	

Again, we have,

- As many boxes are kept above box M as below box R which is kept below O.
- Box R is neither kept above box M nor kept adjacent to box M.

Case 1	Case 2
Boxes	Boxes
M	O
L	M
	L
	R
O	
R	

@RankZen Banker

Again, we have,

- Box N is kept immediately above box P.
- At most one box is kept between box N and box Q.
- Box Q is kept above box S.

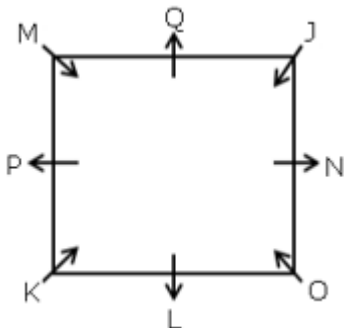

From the above conditions, Case 2 gets eliminated because at most one box is kept between box N and box Q, which is not satisfied. Hence, Case 1 is the final arrangement.

Case 1	Case 2
Boxes	Boxes
M	O
Q	
L	M
N	
P	L
S	R
O	N
R	P

Answer: E

16. Questions

Final arrangement:

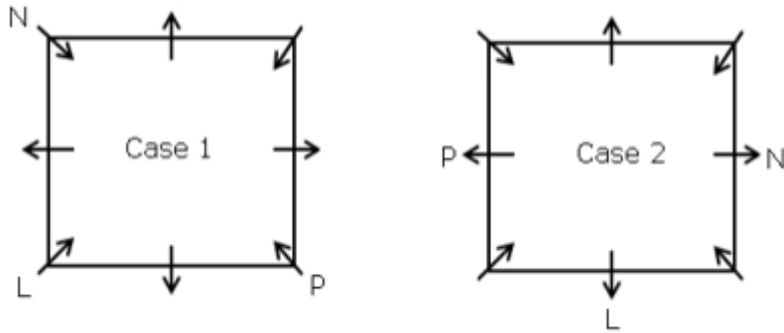

@RankZen Banker

We have,

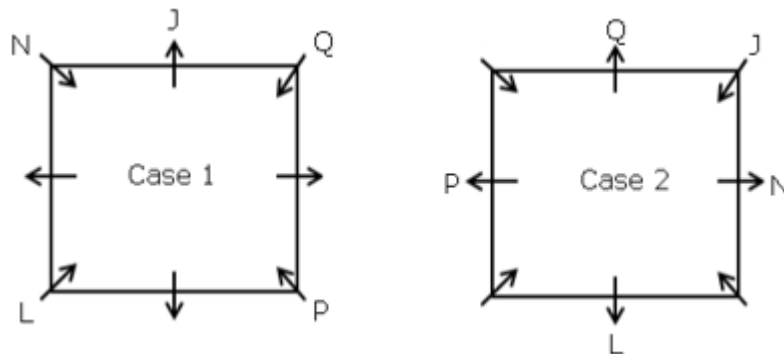

- N sits second to the left of L
- P sits opposite to N.

From the above conditions there are two possibilities

Again, we have,

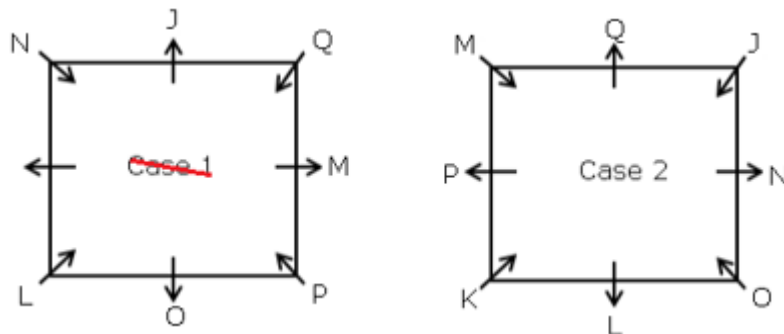

- Only two persons sit between P and J.
- J sits immediate right of Q.

Again, we have,

- As many persons sit between J and N as between Q and M, when counted from the left of both J and Q.
- K neither sits opposite to M nor sits at the middle of the table.

From the above conditions case-1 gets eliminated because K neither sits opposite to M nor sits at the middle of the table, which is not satisfied. Hence, case-2 shows the final arrangement.

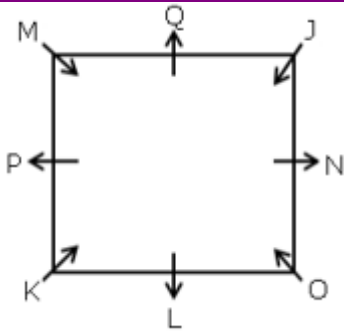

@RankZen Banker

Answer: D

17. Questions

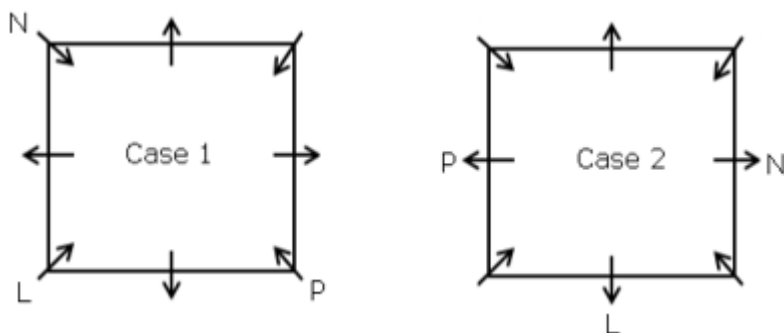

Final arrangement:

We have,

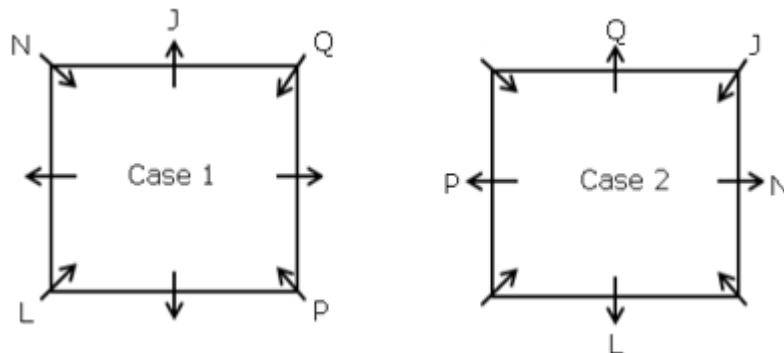

- N sits second to the left of L
- P sits opposite to N.

From the above conditions there are two possibilities

Again, we have,

- Only two persons sit between P and J.
- J sits immediate right of Q.

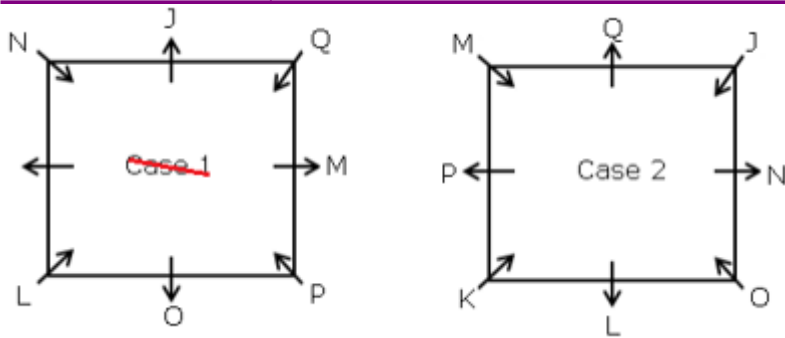

Again, we have,

@RankZen Banker

- As many persons sit between J and N as between Q and M, when counted from the left of both J and Q.
- K neither sits opposite to M nor sits at the middle of the table.

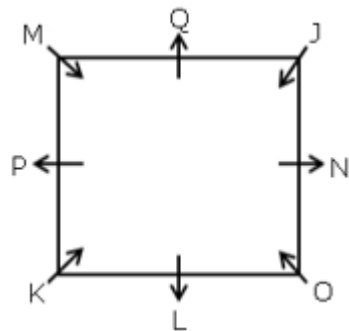

From the above conditions case-1 gets eliminated because K neither sits opposite to M nor sits at the middle of the table, which is not satisfied. Hence, case-2 shows the final arrangement.

Answer: B (Only Q remains same in their position)

18. Questions

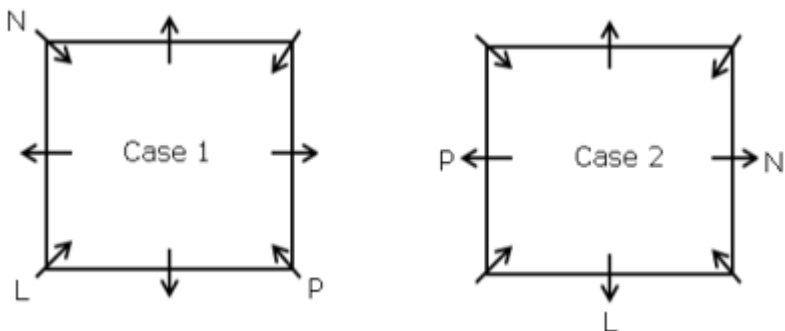

Final arrangement:

We have,

- N sits second to the left of L
- P sits opposite to N.

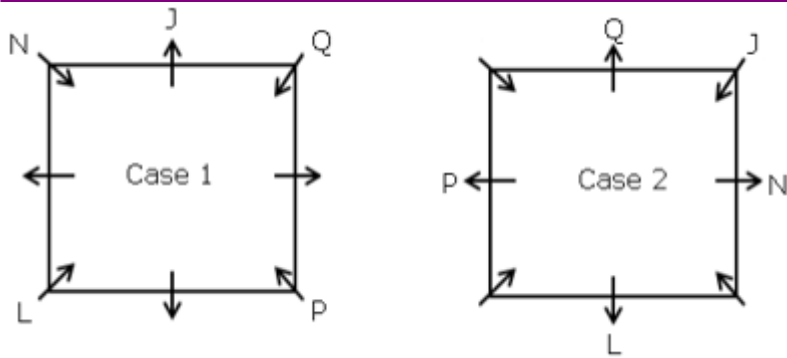

From the above conditions there are two possibilities

Again, we have,

- Only two persons sit between P and J.
- J sits immediate right of Q.

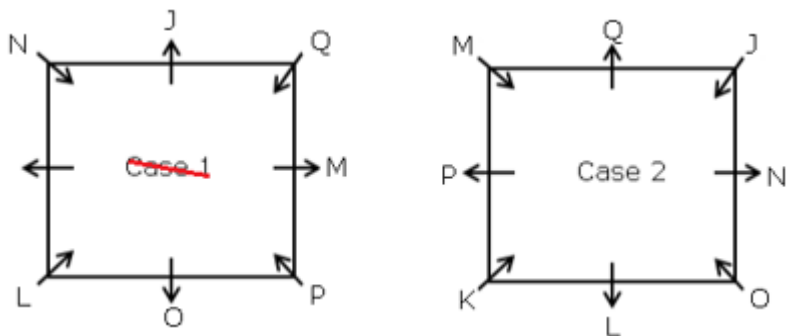

@RankZen Banker

Again, we have,

- As many persons sit between J and N as between Q and M, when counted from the left of both J and Q.
- K neither sits opposite to M nor sits at the middle of the table.

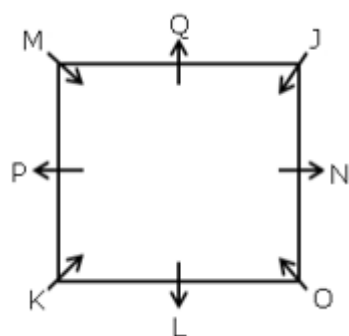

From the above conditions case-1 gets eliminated because K neither sits opposite to M nor sits at the middle of the table, which is not satisfied. Hence, case-2 shows the final arrangement.

Answer: C (In all other options, first person sits opposite to second person ,except option C)

19. Questions

Final arrangement:

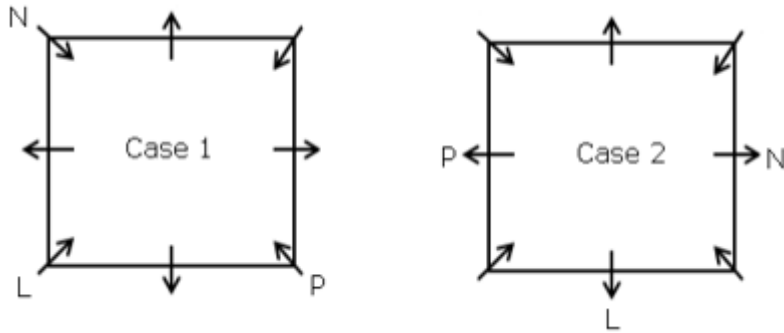

@RankZen Banker

We have,

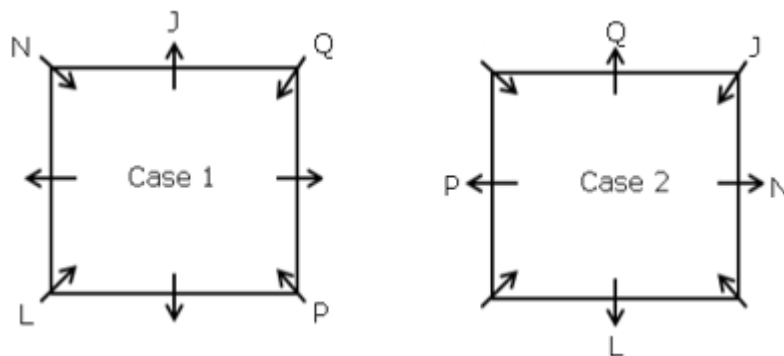

- N sits second to the left of L
- P sits opposite to N.

From the above conditions there are two possibilities

Again, we have,

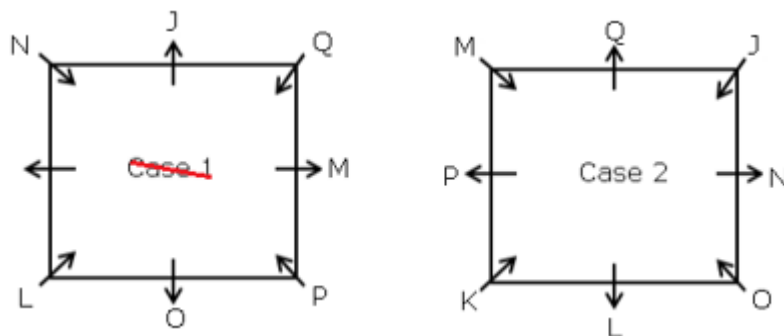

- Only two persons sit between P and J.
- J sits immediate right of Q.

Again, we have,

- As many persons sit between J and N as between Q and M, when counted from the left of both J and Q.
- K neither sits opposite to M nor sits at the middle of the table.

From the above conditions case-1 gets eliminated because K neither sits opposite to M nor sits at the middle of the table, which is not satisfied. Hence, case-2 shows the final arrangement.

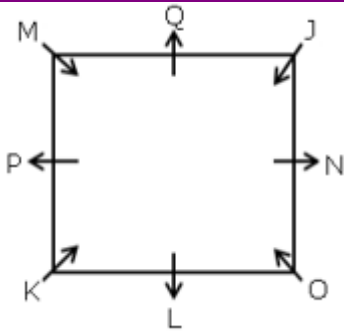

@RankZen Banker

Answer: A

20. Questions

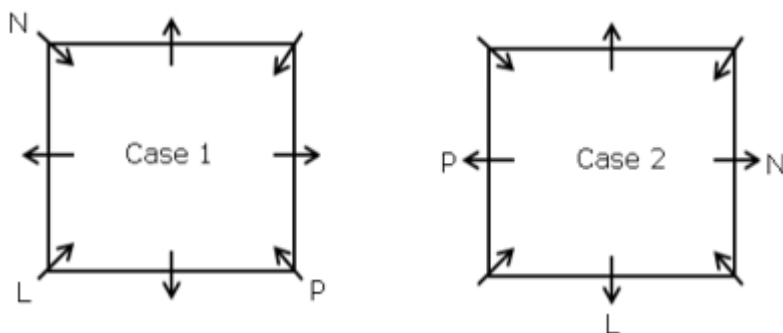

Final arrangement:

We have,

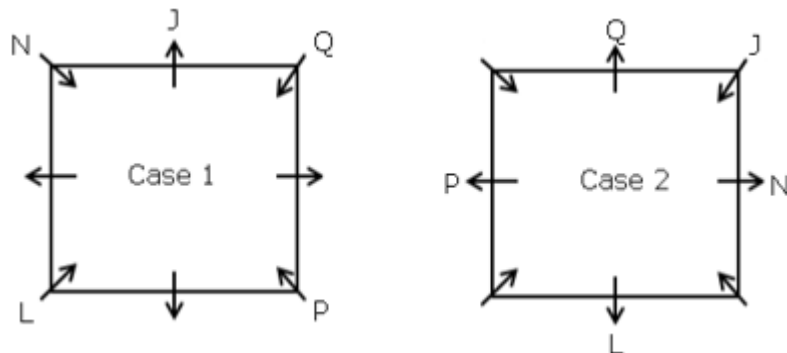

- N sits second to the left of L
- P sits opposite to N.

From the above conditions there are two possibilities

Again, we have,

- Only two persons sit between P and J.
- J sits immediate right of Q.

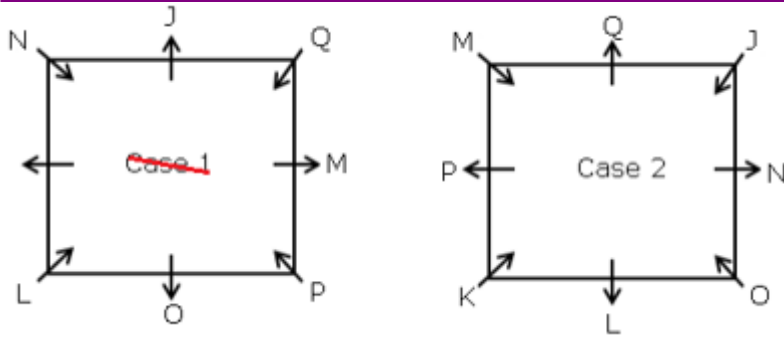

Again, we have,

- As many persons sit between J and N as between Q and M, when counted from the left of both J and Q.
- K neither sits opposite to M nor sits at the middle of the table.

From the above conditions case-1 gets eliminated because K neither sits opposite to M nor sits at the middle of the table, which is not satisfied. Hence, case-2 shows the final arrangement.

@RankZen Banker

Answer: E

21. Questions

Answer: A

Given: $S > D = U < K \leq A > M = Y < R \geq H > F$

Conclusions:

I). $A > U (A \geq K > U) \rightarrow \text{True}$

II). $S > R (S > D = U < K \leq A > M = Y < R) \rightarrow \text{False}$

22. Questions

Answer: C

Given: $C < V \geq T = J > E \leq P < W = N < X > B$

Conclusions:

I). $V > E (V \geq T = J > E) \rightarrow \text{True}$

II). $X > P (X > N = W > P) \rightarrow \text{True}$

23. Questions

Answer: E

Given: $L \leq Z > F = K < A \geq M > R = H < Y \leq Q$

Conclusions:

I). $A > Y (A \geq M > R = H < Y) \rightarrow \text{False}$

II). $Z > A (Z > F = K < A) \rightarrow \text{False}$

24. Questions

Answer: D

Given: $D > U \geq G < X = B < N \leq P > W = C > T$

Conclusions:

I). $U > C (U \geq G < X = B < N \leq P > W = C) \rightarrow \text{False}$

II). $P > X (P \geq N > B = X) \rightarrow \text{True}$

25. Questions

@RankZen Banker

Answer: B

Given: $M < K = R > T \geq A < J = P \leq V \leq S > H$

Conclusions:

I). $S > J$ ($S \geq V \geq P = J$) $\rightarrow$ False

II). $S = J$ ($S \geq V \geq P = J$) $\rightarrow$ False

By combining both conclusions, we get that either conclusion I or II is true.

26. Questions

Answer: C

Given series: \$ H ! J @ K # L % M ^ N & O * P U A + R = S T

L is the element which is seventh to the left of the ninth element from the right end of the series.

27. Questions

Answer: E

Given series: \$ H ! J @ K # L % M ^ N & O * P U A + R = S T

There is one vowel in the given series each of which is immediately preceded by a letter and immediately followed by a symbol.

28. Questions

Answer: A

Given series: \$ H ! J @ K # L % M ^ N & O * P U A + R = S T

If the first eighteen elements from the left end of the given series are reversed, then,

Required series: A U P * O & N ^ M % L # K @ J ! H \$ + R = S T

% is the element which is fifth to the left of the ninth element from the right end.

29. Questions

Answer: E

Given series: \$ H ! J @ K # L % M ^ N & O * P U A + R = S T

There are eight elements which are immediately followed and immediately preceded by symbols.

30. Questions

Answer: B

Given series: \$ H ! J @ K # L % M ^ N & O * P U A + R = S T

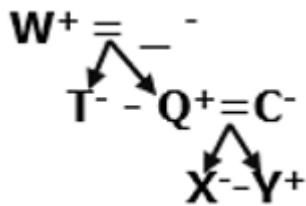

If all the symbols are dropped from the given series then,

Required series: H J K L M N O P U A R S T

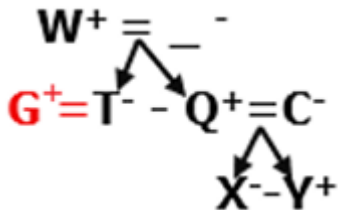

S is the letter which is twelfth from the left end in the new series thus formed.
