

1. Questions

Study the following information carefully and answer the given questions.

Eight persons – O, P, Q, R, S, T, U and V are sitting around a square table in such a way that four of them are sitting at the corners and facing the centre, while four of them are sitting in the middle of the sides and facing outside (**opposite to the centre**).

V sits second to the left of P, who sits in the middle of the sides. Only two persons sit between V and T. As many persons sit between T and P as between V and U, when counted from the left of both P and V. O sits opposite to U. Only one person sits between Q and R. S sits third to the left of Q.

Who among the following person sits opposite to V?

- a. U
- b. The one who sits immediate left of U
- c. R
- d. The one who sits second to the left of O
- e. P

2. Questions

If all the persons are arranged in alphabetical order from O in a clockwise direction, then how many persons remain unchanged in their position (Excluding O)?

- a. Three
- b. Five
- c. None
- d. Six
- e. One

3. Questions

Who among the following person is facing the same direction as U?

- a. Q
- b. V
- c. The one who sits third to the right of P
- d. P
- e. The one who sits immediate left of T

@RankZen Banker

4. Questions

In which of the following, the first person sits exactly between the second and the third person as

per the final arrangement?

I). VOS

II). TPR

III). QUV

- a. Only I
- b. Only II and III
- c. Only III
- d. Only I and II
- e. All I, II and III

5. Questions

Four of the following five are alike in a certain way and thus form a group as per the given arrangement. Which of the following does not belong to that group?

- a. TR
- b. OV
- c. SP
- d. QV
- e. UQ

6. Questions

Study the following information carefully and answer the questions given below.

Eight persons – A, B, C, D, E, F, G and H are working in a College in different designations. The designations are Chairman, Vice Chairman, Principal, Vice Principal, HOD, Professor, Assistant professor and Lecturer, where Chairman is the senior-most designation and Lecturer is the junior-most designation.

A prime number of persons are senior to E, who is not designated at the juniormost designation. Only three persons are designated between E and D. The number of persons junior to D is **one less than** the number of persons senior to F. H is four people junior to A. B is an immediate senior of H. G is junior to C but senior to D.

How many persons are designated between C and A based on the final arrangement?

- a. One
- b. Three
- c. Two
- d. None
- e. More than three

7. Questions

H works at which of the following designations?

- a. Vice principal
- b. Lecturer
- c. HOD
- d. Assistant professor
- e. Professor

8. Questions

If C is related to D and F is related to H in a certain way, then who among the following person is related to E?

- a. H
- b. G
- c. A
- d. B
- e. C

9. Questions

Who among the following persons is designated as Vice chairman?

- a. E
- b. A
- c. C
- d. D
- e. F

10. Questions

Who among the following persons is designated two persons junior to B?

- a. D
- b. F
- c. H
- d. C
- e. G

11. Questions

Study the following information carefully and answer the given questions.

Nine people P, Q, R, S, T, U, V, W and X live on nine different floors of an eight -storey building where the lower most Floor is numbered one, the one above that is numbered two and so on till the topmost Floor is numbered nine. No two people live on the same floor.

An even number of persons lives below the U, who does not live on the topmost floor. P lives three floors below U. Only four persons live between P and X. As many persons live above X as below R. Q lives immediately above W. Only one person lives between W and S. V lives below T but above R.

Who among the following person lives on the fourth Floor?

- a. V
- b. The one who lives between W and S
- c. R
- d. X
- e. The one who lives immediately below T

12. Questions

If all the persons live in alphabetical order from floor 1 to 9, then who among the following person remains unchanged in their position?

- a. T
- b. R
- c. P
- d. X
- e. U

13. Questions

The number of persons living between T and Q is ____ than the number of floors below P

- a. Two less
- b. Two more
- c. Three less
- d. One less
- e. One more

@RankZen Banker

14. Questions

How many floors are there between R and W?

- a. Five

- b. Seven
- c. Two
- d. One
- e. Three

15. Questions

Which of the following statements is/are true based on the final arrangement?

- a. W lives three floors above U
- b. T lives on the topmost floor
- c. S lives on an odd numbered floor
- d. Three persons live between Q and R
- e. P lives immediately below V

16. Questions

Study the following information carefully and answer the below questions.

Nine persons N, O, P, Q, R, S, T, U and V are sitting in a linear row and facing the north.

U sits fourth to the left of O, neither of them sits at the extreme end of the row. U does not sit third from the left end. Only two persons sit between O and T. The number of persons sitting to the right of T is **two less than** the number of persons sitting to the left of N. N sits second to the left of V. P sits to the immediate right of S. Only three persons sit between P and R. R doesn't sit adjacent to T.

Who among the following persons sits second to the right of the one who sits to the immediate left of V?

- a. Q
- b. The one who sits third to the right of N
- c. U
- d. V
- e. The one who sits second to the left of O

@RankZen Banker

17. Questions

In which of the following statement, the first person sits exactly between the third and the second person in the following arrangement?

- I). UNQ
- II). RUO
- III). PTS

- a. Only II
- b. Only III
- c. Only I and III
- d. All I, II and III
- e. Only II and III

18. Questions

If all the persons are arranged in alphabetical order from right to left, then how many persons remain unchanged in their position?

- a. None
- b. One
- c. Three
- d. Two
- e. More than three

19. Questions

Which of the following statement(s) is/are TRUE with respect to R?

- I). O sits second to the right of R
 - II). More than four persons sit to the right of U
 - III). N sits exactly between U and R
- a. Only III
 - b. Only I and II
 - c. Only II and III
 - d. Only I
 - e. All I, II and III

20. Questions

The number of persons sitting between Q and V is ____ than the number of persons sitting to the right of S.

- a. Two more
- b. One less
- c. Two less
- d. One more

@RankZen Banker

e. None of these

21. Questions

Study the following statements and then decide which of the given conclusions logically follows from the given statements disregarding the commonly known facts.

Statements

Only a few stars are bottles

Some bottles are not cap

All juice is star

Conclusions

I). Some bottles being juice is a possibility

II). All stars can be cap

- a. Both conclusions I and II follow
- b. Either conclusion I or II follows
- c. Only conclusion II follows
- d. Neither conclusion I nor II follows
- e. Only conclusion I follows

22. Questions

Statements:

Only a few secrets are safe

All safe are friends

No friends are enemy

Conclusions:

I). Some secrets can be friends

II). No secrets are enemy

- a. Either conclusion I or II follows
- b. Only conclusion II follows
- c. Neither conclusion I nor II follows
- d. Only conclusion I follows
- e. Both conclusions I and II follow

@RankZen Banker

23. Questions

Statements:

Only a few credits are cash

Only a few cash are money

All money is valuable.

Conclusions:

I). Some credits being valuable is a possibility

II). Some cash are not money

- a. Either conclusion I or II follows
- b. Only conclusion II follows
- c. Neither conclusion I nor II follows
- d. Only conclusion I follows
- e. Both conclusions I and II follow

24. Questions

Statements:

Only a few curds are milk

Some milk are paneer

All paneer are proteins

Conclusions:

I). All milk being proteins is a possibility

II). Some curds are paneer

- a. Both conclusions I and II follow
- b. Only conclusion I follows
- c. Either conclusion I or II follows
- d. Neither conclusion I nor II follows
- e. Only conclusion II follows

@RankZen Banker

25. Questions

Statements:

Only a few clips are bands

Some bands are bangles

Some bangles are ring

Conclusions:

I). No bands are ring

II). Some ring is band

- a. Both conclusions I and II follow
- b. Neither conclusion I nor II follows
- c. Only conclusion II follows
- d. Either conclusion I or II follows
- e. Only conclusion I follows

26. Questions

Read the following information carefully and answer the questions given below.

I U * 3 H & F 6 2 A P 5 X 9 E = 8 Y 4 N % G 7 > W 0 ? L J H

How many such letters which come before M in the English alphabetical series are there in the series each of which is immediately followed by a symbol?

- a. One
- b. Three
- c. No one
- d. Two
- e. More than three

27. Questions

Which of the following words can be formed by using some of the letters to the right of the number '4' in the given series?

- a. EYE
- b. WHO
- c. HOW
- d. FAX
- e. None

@RankZen Banker

28. Questions

What is the sum of all the numbers which are immediately followed by a vowel in the given series?

- a. 7
- b. 9

- c. 11
- d. 5
- e. 12

29. Questions

How many such symbols are there in the given series which are immediately preceded by a vowel and immediately followed by a number?

- a. More than three
- b. Two
- c. None
- d. One
- e. Three

30. Questions

The number of letters to the right of ____ is equal to the number of letters to the left of '=' in the given series.

- a. X
- b. Y
- c. P
- d. N
- e. I

31. Questions

Study the following information carefully and answer the given questions.

The person started walking towards north from Point E for 8m to reach point R then turns to the right and walks for 11m to reach point L. Then he turns to the right and walks for 15m to reach point F where he turns to the left and walks for 12m to reach Point P where he turns to the right and walks for 6m to reach Point Q.

What is the direction of R with respect to Q?

- a. South-west
- b. North-east
- c. North-west
- d. South-east
- e. South

32. Questions

If the person walked towards north from point P to reach point T, which is 12m east to point L. Then, what is the shortest distance from point Q to point T?

- a. 15m
- b. 11m
- c. 18m
- d. 21m
- e. 12m

33. Questions

Study the following information carefully and answer the given questions.

A woman starts walking from point T towards east for 6m to reach point N. Then she turns to her right and walks for 8m to reach point Q. Then she walks for 5m to reach point S after taking a left turn. At point S, she takes a right turn and walks for 4m to reach point M. Then she walks for 9m towards the east and to reach point L where she turns to her left and walks for 10m to reach point G.

If point X is 2m south of point N, then what is the shortest distance between G and X?

- a. 16m
- b. 15m
- c. 14m
- d. 13m
- e. 17m

34. Questions

In which direction is point N with respect to point S?

- a. East
- b. North-West
- c. North-East
- d. South
- e. South-west

@RankZen Banker

35. Questions

What is the shortest distance between point M and point G?

- a. $\sqrt{177}$ m
- b. $\sqrt{185}$ m

- c. $\sqrt{189m}$
- d. $\sqrt{181m}$
- e. $\sqrt{192m}$

36. Questions

Study the following information carefully and answer the given questions.

In a certain code language,

“Invention made across global” is coded as “st jo td xq”

“Global trade slow market” is coded as “xq wb jk mo”

“Stock made trade profit” is coded as “bd st jk mn”

“Market across debt growth” is coded as “mo jo vy zd”

(Note: All the given codes are two letter codes only)

Which of the following may be the code for the phrase “Profit Slow” in the given code language?

- a. bd jk
- b. xq wb
- c. wb bd
- d. st mo
- e. jk xq

37. Questions

What is the phrase for the code “td jk” in the given code language?

- a. Global made
- b. Trade Across
- c. Stock global
- d. Invention Trade
- e. Slow made

@RankZen Banker

38. Questions

If “Debt GDP” is coded as “vy bc”, then what is the code for the phrase “Growth GDP Market” in the given code language?

- a. bb jo vy
- b. jo bb wb
- c. xq vy zd

d. mo jk bc

e. zd bc mo

39. Questions

What is the code for the word “Made” in the given code language?

a. mo

b. st

c. td

d. xq

e. jk

40. Questions

What is the word for the code “bd” in the given code language?

a. Either b or c

b. Stock

c. Profit

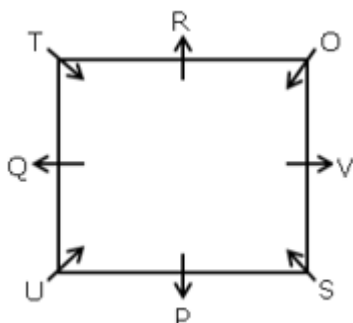

d. made

e. Either c or d

Explanations:

1. Questions

Final arrangement:

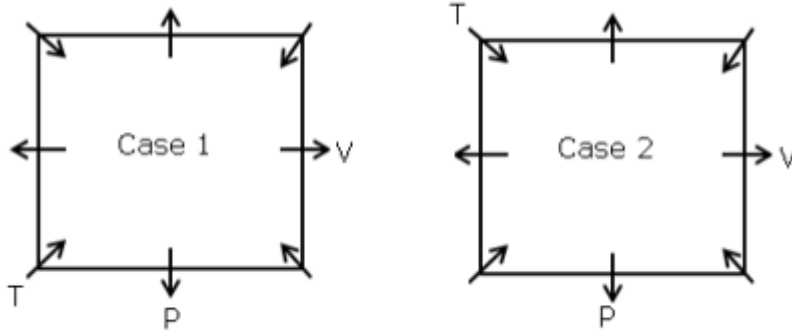

@RankZen Banker

We have,

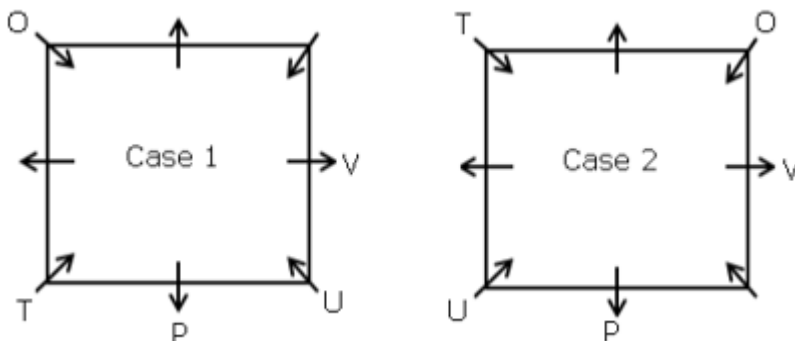

- V sits second to the left of P, who sits at the middle of the sides.
- Only two persons sit between V and T.

From the above conditions there are two possibilities

Again, we have,

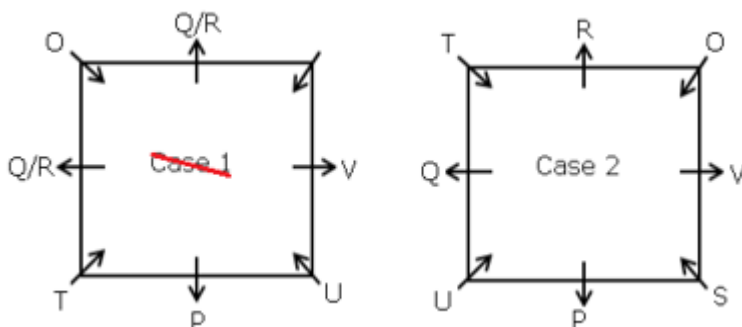

- As many persons sit between T and P as between V and U, when counted from the left of both P and V.
- O sits opposite to U.

Again, we have,

- Only one person sits between Q and R.
- S sits third to the left of Q.

From the above conditions case-1 gets eliminated because S sits third to the left of Q, which is not satisfied. Hence, case-2 shows the final arrangement.

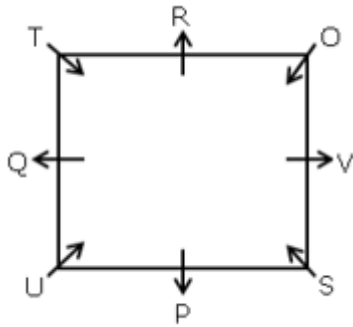

@RankZen Banker

Answer: B

2. Questions

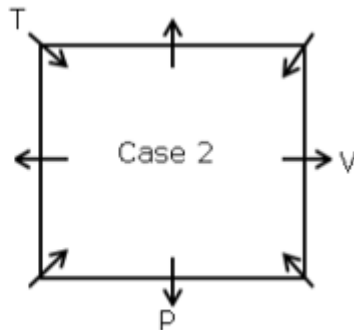

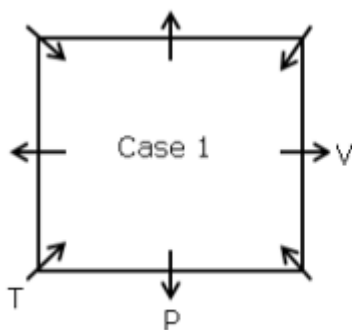

Final arrangement:

We have,

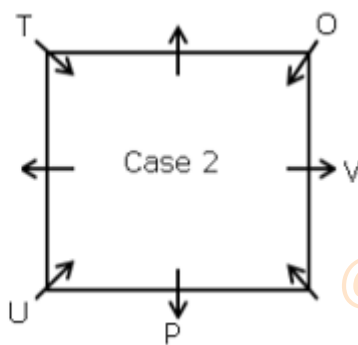

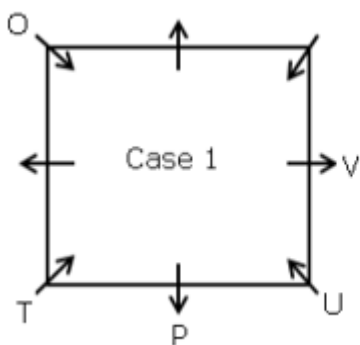

- V sits second to the left of P, who sits at the middle of the sides.
- Only two persons sit between V and T.

From the above conditions there are two possibilities

Again, we have,

- As many persons sit between T and P as between V and U, when counted from the left of both P and V.
- O sits opposite to U.

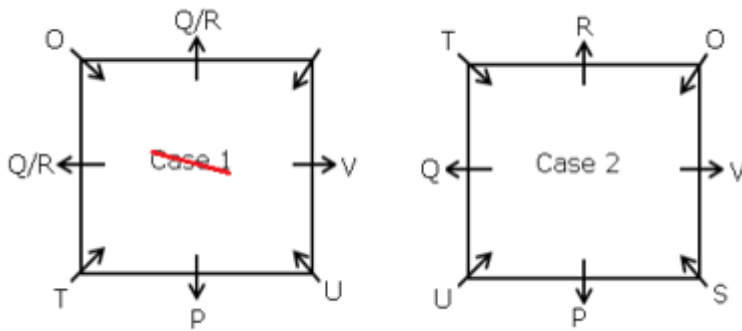

@RankZen Banker

Again, we have,

- Only one person sits between Q and R.
- S sits third to the left of Q.

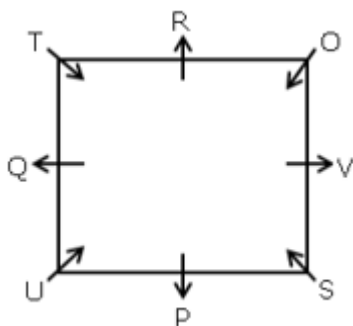

From the above conditions case-1 gets eliminated because S sits third to the left of Q, which is not satisfied. Hence, case-2 shows the final arrangement.

Answer: C

3. Questions

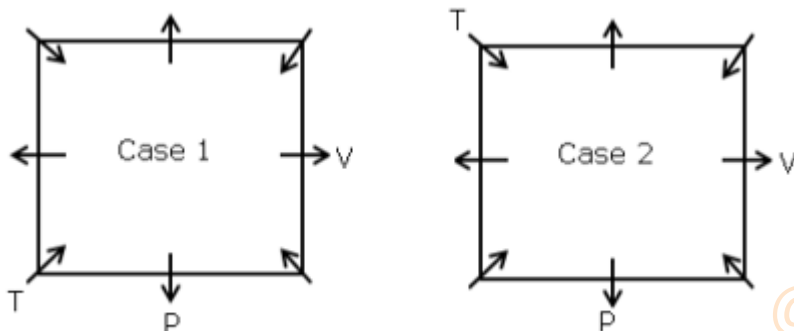

Final arrangement:

We have,

- V sits second to the left of P, who sits at the middle of the sides.
- Only two persons sit between V and T.

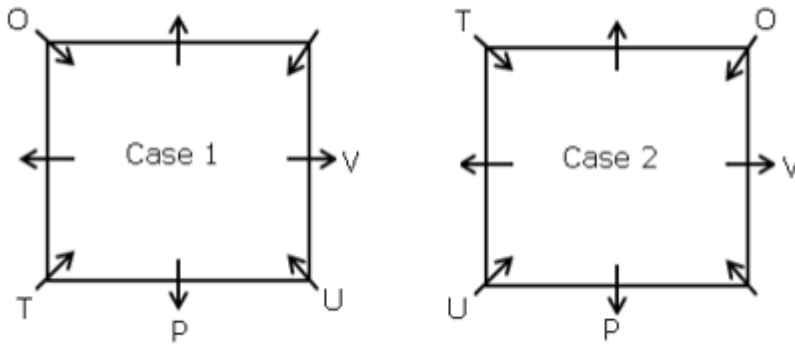

From the above conditions there are two possibilities

@RankZen Banker

Again, we have,

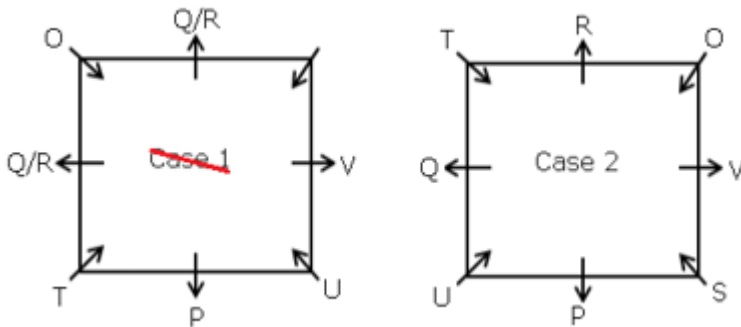

- As many persons sit between T and P as between V and U, when counted from the left of both P and V.
- O sits opposite to U.

Again, we have,

- Only one person sits between Q and R.
- S sits third to the left of Q.

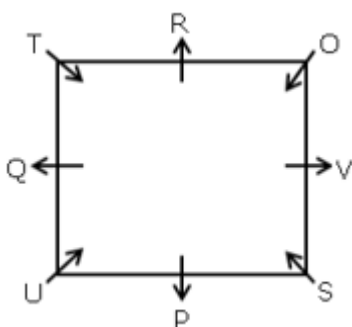

From the above conditions case-1 gets eliminated because S sits third to the left of Q, which is not satisfied. Hence, case-2 shows the final arrangement.

Answer: C

4. Questions

Final arrangement:

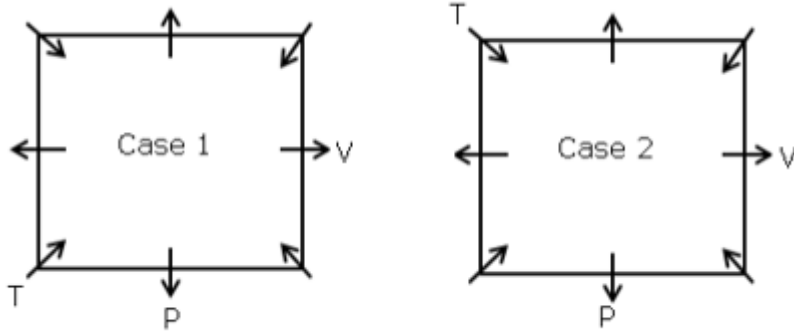

@RankZen Banker

We have,

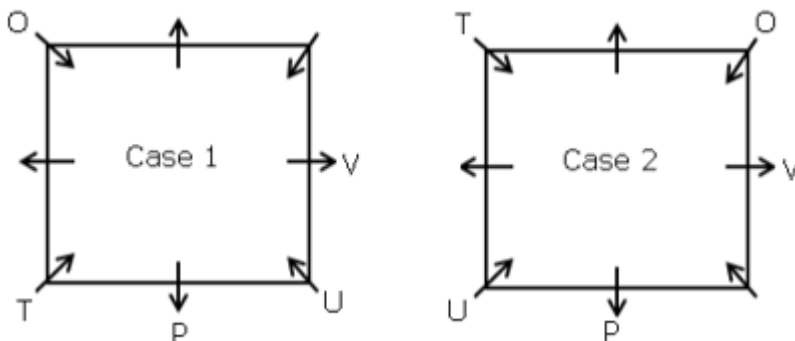

- V sits second to the left of P, who sits at the middle of the sides.
- Only two persons sit between V and T.

From the above conditions there are two possibilities

Again, we have,

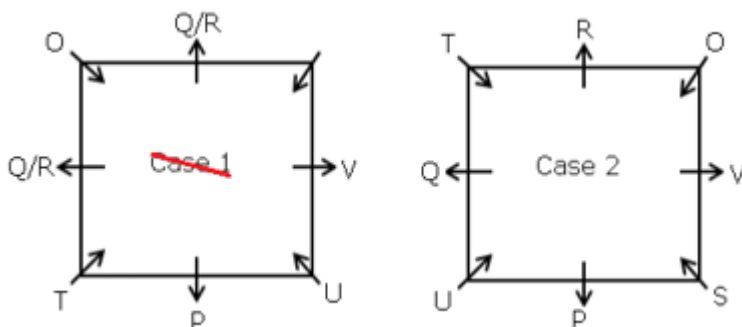

- As many persons sit between T and P as between V and U, when counted from the left of both P and V.
- O sits opposite to U.

Again, we have,

- Only one person sits between Q and R.
- S sits third to the left of Q.

From the above conditions case-1 gets eliminated because S sits third to the left of Q, which is not satisfied. Hence, case-2 shows the final arrangement.

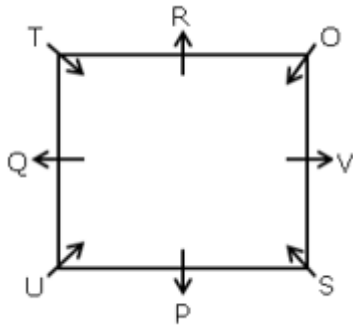

@RankZen Banker

Answer: A

5. Questions

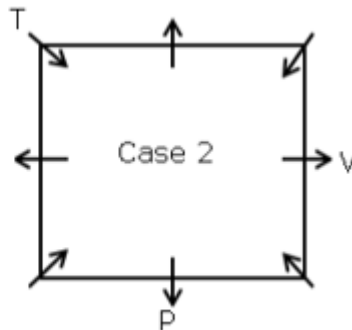

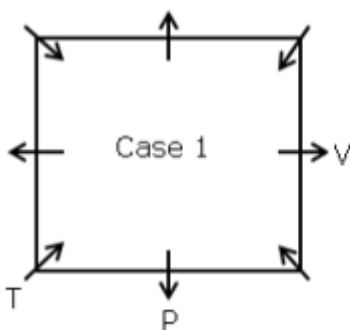

Final arrangement:

We have,

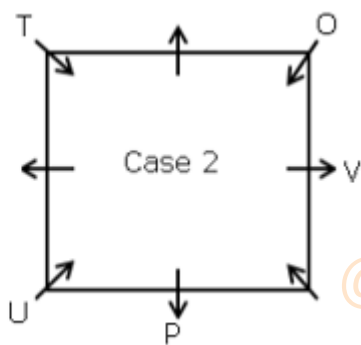

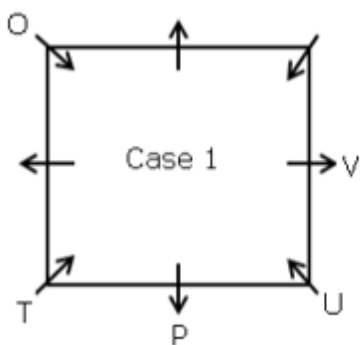

- V sits second to the left of P, who sits at the middle of the sides.
- Only two persons sit between V and T.

From the above conditions there are two possibilities

Again, we have,

- As many persons sit between T and P as between V and U, when counted from the left of both P and V.
- O sits opposite to U.

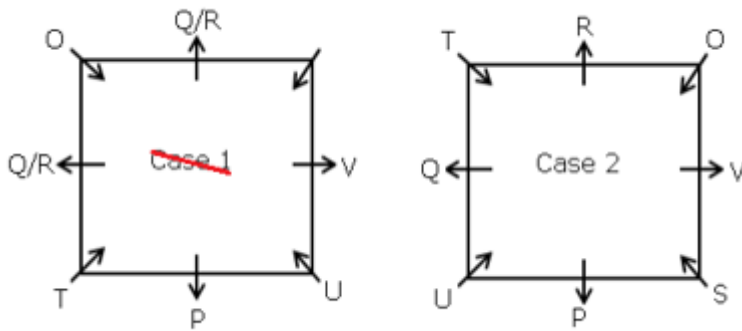

@RankZen Banker

Again, we have,

- Only one person sits between Q and R.
- S sits third to the left of Q.

From the above conditions case-1 gets eliminated because S sits third to the left of Q, which is not satisfied. Hence, case-2 shows the final arrangement.

Answer: D (The second person sits immediate left of the first person except option D)

6. Questions

Final arrangement:

Designations	Persons
Chairman	C
Vice chairman	F
Principal	A
Vice principal	E
HOD	G
Professor	B
Assistant professor	H
Lecturer	D

We have,

@RankZen Banker

- A prime number of persons are senior to E who is not designated at the juniormost designation.
- Only three persons are designated between E and D.
- The number of persons junior to D is **one less than** the number of persons senior to F.

From the above conditions, there are two possibilities

Designations	Case 1	Case 2
	Persons	Persons
Chairman		
Vice chairman	F	D
Principal		
Vice principal	E	
HOD		
Professor		E
Assistant professor		
Lecturer	D	F

Again, we have,

- H is four people junior to A.
- B is an immediate senior of H.

Designations	Case 1	Case 2
	Persons	Persons
Chairman		A
Vice chairman	F	D
Principal	A	
Vice principal	E	B
HOD		H
Professor	B	E
Assistant professor	H	
Lecturer	D	F

Again, we have,

@RankZen Banker

- G is junior to C but senior to D.

From the above conditions case-2 gets eliminated because G is junior to C but senior to D, which is not satisfied. Hence, case-1 shows the final arrangement.

Designations	Case 1	Case 2
	Persons	Persons
Chairman	C	A
Vice chairman	F	D
Principal	A	
Vice principal	E	B
HOD	G	H
Professor	B	E
Assistant professor	H	
Lecturer	D	F

Answer: A

7. Questions

Final arrangement:

@RankZen Banker

Designations	Persons
Chairman	C
Vice chairman	F
Principal	A
Vice principal	E
HOD	G
Professor	B
Assistant professor	H
Lecturer	D

We have,

- A prime number of persons are senior to E who is not designated at the juniormost designation.
- Only three persons are designated between E and D.
- The number of persons junior to D is **one less than** the number of persons senior to F.

From the above conditions, there are two possibilities

@RankZen Banker

Designations	Case 1	Case 2
	Persons	Persons
Chairman		
Vice chairman	F	D
Principal		
Vice principal	E	
HOD		
Professor		E
Assistant professor		
Lecturer	D	F

Again, we have,

Answer: A

11. Questions

Final arrangement:

@RankZen Banker

Floors	Persons
9	X
8	T
7	U
6	Q
5	W
4	P
3	S
2	V
1	R

We have,

- An even number of persons lives below the U, who does not live on the topmost floor.
- P lives three floors below U.
- Only four persons live between P and X.

From the above conditions there are two possibilities

@RankZen Banker

Floors	Case-1	Case-2
	Persons	Persons
9		X
8		
7	X	U
6		
5	U	
4		P
3		
2	P	
1		

Again, we have,

- As many persons live above X as below R.
- Q lives immediately above W.

@RankZen Banker

Floors	Case-1	Case-2
	Persons	Persons
9	Q	X
8	W	
7	X	U
6		Q/

8	W	T
7	X	U
6	S	Q
5	U	W
4		P
3	R	S
2	P	V
1		R

Answer: D

13. Questions

Final arrangement:

@RankZen Banker

Floors	Persons
9	X
8	T
7	U
6	Q
5	W
4	P
3	S
2	V
1	R

We have,

- An even number of persons lives below the U, who does not live on the topmost floor.
- P lives three floors below U.
- Only four persons live between P and X.

From the above conditions there are two possibilities

@RankZen Banker

Floors	Case-1	Case-2
	Persons	Persons
9		X
8		
7	X	U
6		
5	U	
4		P
3		
2	P	
1		

Again, we have,

- As many persons live above X as below R.
- Q lives immediately above W.

@RankZen Banker

Floors	Case-1	Case-2
	Persons	Persons
9	Q	X
8	W	
7	X	U
6		Q/
5	U	W/
4		P
3	R	Q/
2	P	W/
1		R

Again, we have,

- Only one person lives between W and S.
- V lives below T but above R.

From the above conditions case-1 gets eliminated because V lives below T but above R, which is not satisfied. Hence, case-2 shows the final arrangement.

@RankZen Banker

Floors	Case-1	Case-2
	Persons	Persons
9	Q	X
8	W	T
7	X	U
6	S	Q
5	U	W
4		P
3	R	S
2	P	V
1		R

Answer: A

14. Questions

Final arrangement:

@RankZen Banker

Floors	Persons
9	X
8	T
7	U
6	Q
5	W
4	P
3	S
2	V
1	R

We have,

- An even number of persons lives below the U, who does not live on the topmost floor.
- P lives three floors below U.
- Only four persons live between P and X.

From the above conditions there are two possibilities

@RankZen Banker

Floors	Case-1	Case-2
	Persons	Persons
9		X
8		
7	X	U
6		
5	U	
4		P
3		
2	P	
1		

Again, we have,

- As many persons live above X as below R.
- Q lives immediately above W.

@RankZen Banker

Floors	Case-1	Case-2
	Persons	Persons
9	Q	X
8	W	
7	X	U
6		Q/
5	U	W/
4		P
3	R	Q/
2	P	W/
1		R

Again, we have,

- Only one person lives between W and S.
- V lives below T but above R.

From the above conditions case-1 gets eliminated because V lives below T but above R, which is not satisfied. Hence, case-2 shows the final arrangement.

@RankZen Banker

Floors	Case-1	Case-2
	Persons	Persons
9	Q	X
8	W	T
7	X	U
6	S	Q
5	U	W
4		P
3	R	S
2	P	V
1		R

Answer: E

15. Questions

Final arrangement:

@RankZen Banker

Floors	Persons
9	X
8	T
7	U
6	Q
5	W
4	P
3	S
2	V
1	R

We have,

- An even number of persons lives below the U, who does not live on the topmost floor.
- P lives three floors below U.
- Only four persons live between P and X.

From the above conditions there are two possibilities

@RankZen Banker

Floors	Case-1	Case-2
	Persons	Persons
9		X
8		
7	X	U
6		
5	U	
4		P
3		
2	P	
1		

Again, we have,

- As many persons live above X as below R.
- Q lives immediately above W.

@RankZen Banker

Floors	Case-1	Case-2
	Persons	Persons
9	Q	X
8	W	
7	X	U
6		Q/
5	U	W/
4		P
3	R	Q/
2	P	W/
1		R

Again, we have,

- Only one person lives between W and S.
- V lives below T but above R.

From the above conditions case-1 gets eliminated because V lives below T but above R, which is not satisfied. Hence, case-2 shows the final arrangement.

@RankZen Banker

Floors	Case-1	Case-2
	Persons	Persons
9	Q	X
8	W	T
7	X	U
6	S	Q
5	U	W
4		P
3	R	S
2	P	V
1		R

Answer: C

16. Questions

Final arrangement:

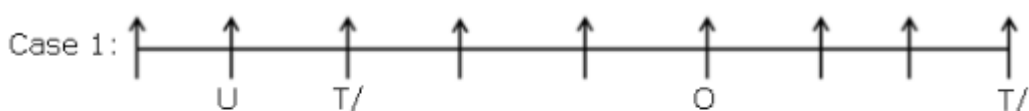

We have,

- U sits fourth to the left of O, neither of them sits at the extreme end of the row.
- U does not sit third from the left end.
- Only two persons sit between O and T.

@RankZen Banker

From the above conditions, there are two possibilities

Again, we have,

- The number of persons sitting to the right of T is **two less than** the number of persons sitting to the left of N.
- N sits second to the left of V.

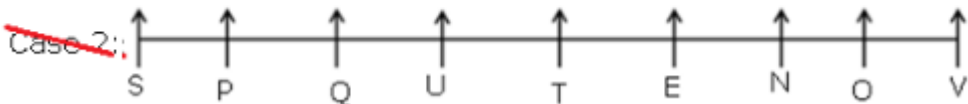

Again, we have,

- P sits to the immediate right of S.
- Only three persons sit between P and R.
- R doesn't sit adjacent to T.

From the above conditions, case 2 gets eliminated because R doesn't sit adjacent to T, which is not satisfied.

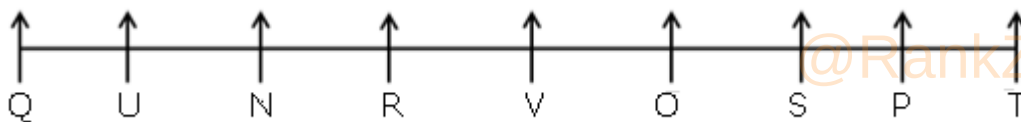

Hence, case 1 shows the final arrangement.

Answer: B

17. Questions

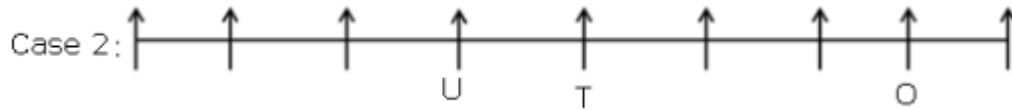

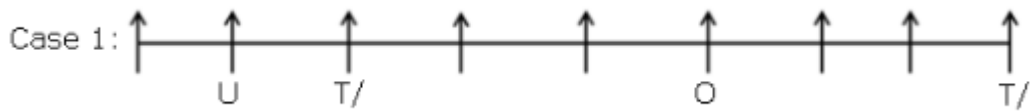

Final arrangement:

We have,

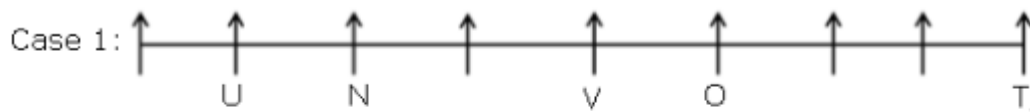

- U sits fourth to the left of O, neither of them sits at the extreme end of the row.
- U does not sit third from the left end.
- Only two persons sit between O and T.

From the above conditions, there are two possibilities

Again, we have,

- The number of persons sitting to the right of T is **two less than** the number of persons sitting to the left of N.
- N sits second to the left of V.

Again, we have,

- P sits to the immediate right of S.
- Only three persons sit between P and R.
- R doesn't sit adjacent to T.

From the above conditions, case 2 gets eliminated because R doesn't sit adjacent to T, which is not satisfied.

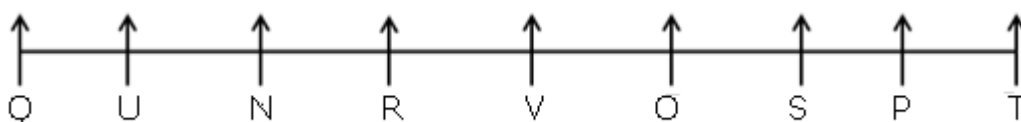

Hence, case 1 shows the final arrangement.

Answer: D

18. Questions

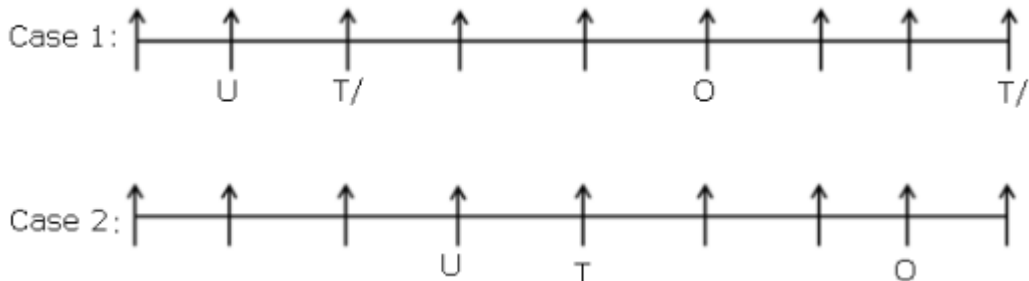

Final arrangement:

We have,

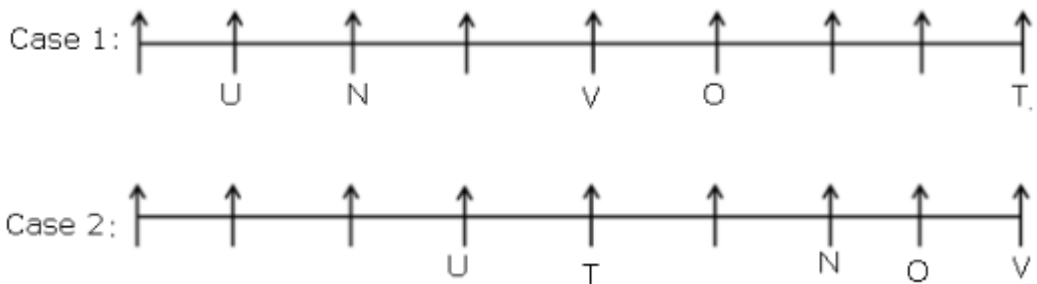

- U sits fourth to the left of O, neither of them sits at the extreme end of the row.
- U does not sit third from the left end.
- Only two persons sit between O and T.

From the above conditions, there are two possibilities

Again, we have,

- The number of persons sitting to the right of T is **two less than** the number of persons sitting to the left of N.
- N sits second to the left of V.

Again, we have,

- P sits to the immediate right of S.
- Only three persons sit between P and R.
- R doesn't sit adjacent to T.

From the above conditions, case 2 gets eliminated because R doesn't sit adjacent to T, which is not satisfied.

Hence, case 1 shows the final arrangement.

@RankZen Banker

Answer: B (Only the position of U remains unchanged)

19. Questions

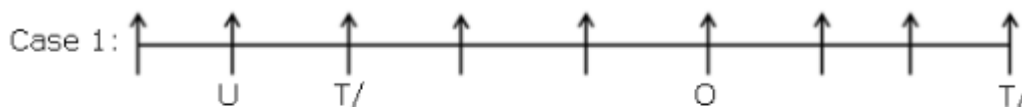

Final arrangement:

We have,

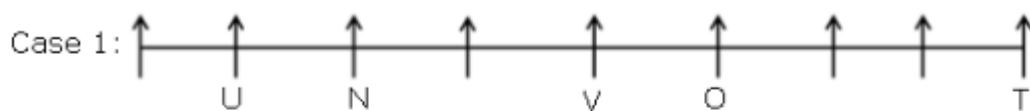

- U sits fourth to the left of O, neither of them sits at the extreme end of the row.
- U does not sit third from the left end.
- Only two persons sit between O and T.

From the above conditions, there are two possibilities

Again, we have,

- The number of persons sitting to the right of T is **two less than** the number of persons sitting to the left of N.
- N sits second to the left of V.

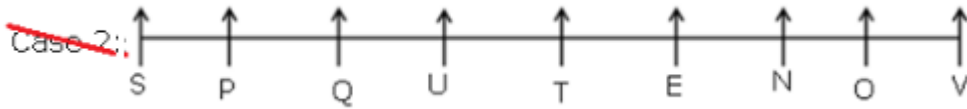

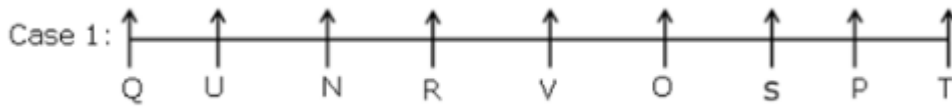

Again, we have,

- P sits to the immediate right of S.
- Only three persons sit between P and R.
- R doesn't sit adjacent to T.

@RankZen Banker

From the above conditions, case 2 gets eliminated because R doesn't sit adjacent to T, which is not satisfied.

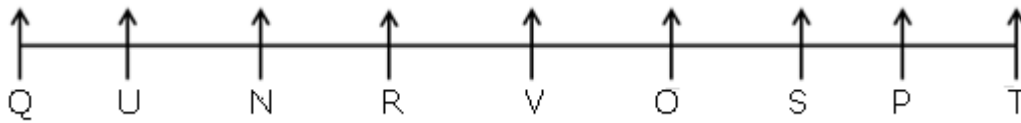

Hence, case 1 shows the final arrangement.

Answer: E

20. Questions

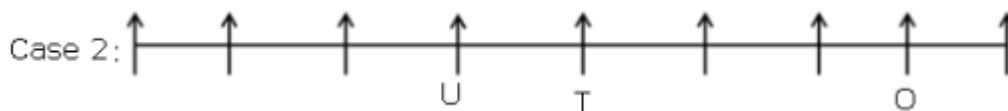

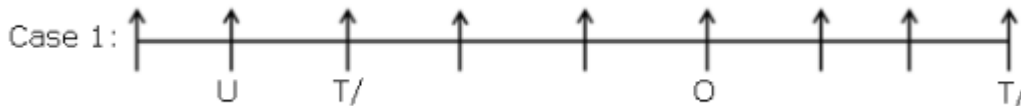

Final arrangement:

We have,

- U sits fourth to the left of O, neither of them sits at the extreme end of the row.
- U does not sit third from the left end.
- Only two persons sit between O and T.

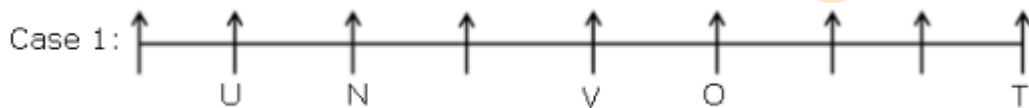

From the above conditions, there are two possibilities

Again, we have,

- The number of persons sitting to the right of T is **two less than** the number of persons sitting to the left of N.
- N sits second to the left of V.

@RankZen Banker

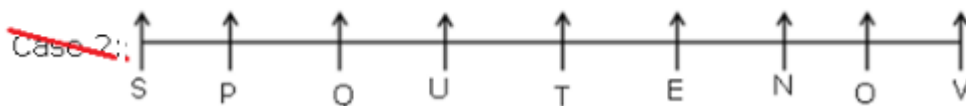

Again, we have,

- P sits to the immediate right of S.

- Only three persons sit between P and R.
- R doesn't sit adjacent to T.

From the above conditions, case 2 gets eliminated because R doesn't sit adjacent to T, which is not satisfied.

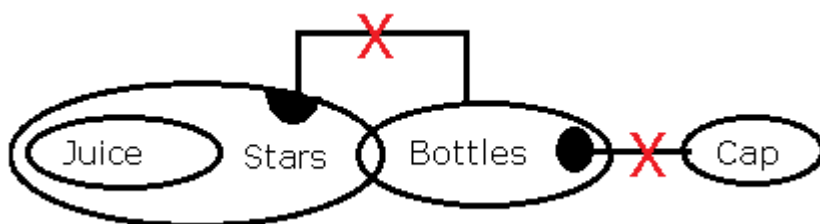

Hence, case 1 shows the final arrangement.

Answer: D

21. Questions

Answer: A

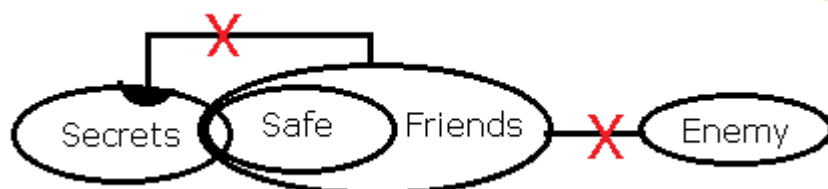

I). Some bottles being juice is a possibility - Here, there is no direct relation between bottles and juice. Therefore, Juice can be placed within the common part of Stars and Bottles. Hence, some Bottles being Juice is a possibility. Therefore, the conclusion follows.

II). All stars can be cap - Here, some Bottles are not Caps. This restriction applies only to those Bottles that are not Caps. It does not prevent all Stars from being Caps because the Stars that are Bottles need not be the same Bottles that are not Caps. Here, there is no direct relation between stars and cap. Hence, the conclusion follows.

22. Questions

Answer: C

@RankZen Banker

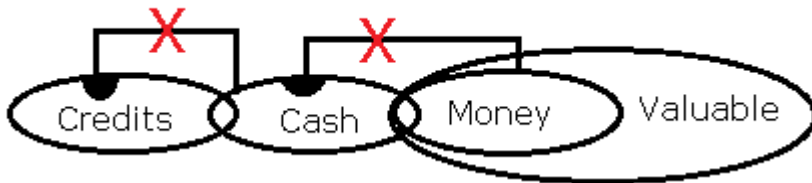

I). Some secrets can be friends- Here, some secrets will be friends is the definite conclusion. So, some secrets can be friends is not a possible conclusion. Hence, the conclusion doesn't follow.

II). No secrets are enemy- Here, there is no direct relation between secrets and enemy. Since no Friends are Enemies, only those Secrets which are Safe are definitely not Enemies. Nothing is said about the

remaining Secrets. They may or may not be Enemies. So, all the definite conclusions between them are not true. Hence, the conclusion doesn't follow.

23. Questions

Answer: E

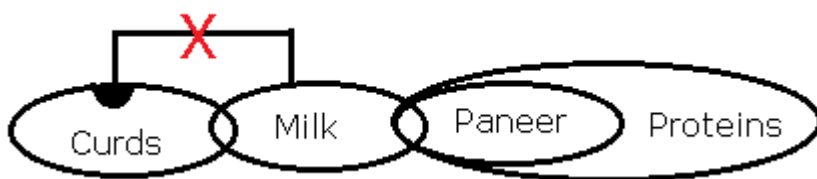

I). Some credits being valuable is a possibility - Here, there is no direct relation between credits and valuables. So, all the possible conclusions between them are true. Hence, the conclusion follows.

II). Some cash is not money - Here, only a few cash is money is the given statement. So, some cash is not money is the definite conclusion. Hence, the conclusion follows.

24. Questions

Answer: B

I). All milk being proteins is a possibility - Here, there is no statement that any milk must be outside proteins. So, all milk can be placed inside proteins without violating any given statements. Hence, the conclusion follows.

II). Some curds are paneer - Here, there is no direct relation between curds and paneer. So, all the definite conclusions between them are not true. Hence, the conclusion doesn't follow.

25. Questions

Answer: D

@RankZen Banker

I). No bands are rings - Here, there is no direct relation between bands and rings. So, all the definite conclusions between them are not true. Hence, the conclusion doesn't follow.

II). Some rings are band - Here, there is no direct relation between bands and rings. So, all the definite conclusions between them are not true. Hence, the conclusion doesn't follow.

By combining the conclusion I and conclusion II, either conclusion I or II follows.

26. Questions**Answer: D**

Given series

I U * 3 H & F 6 2 A P 5 X 9 E = 8 Y 4 N % G 7 > W 0 ? L J H

The letters which come before M in the English alphabetical series which are immediately succeeded by a symbol

I U * 3 H & F 6 2 A P 5 X 9 E = 8 Y 4 N % G 7 > W 0 ? L J H

27. Questions**Answer: E**

Given series

I U * 3 H & F 6 2 A P 5 X 9 E = 8 Y 4 N % G 7 > W 0 ? L J H

The letters to the right of the number '4' are N, G, W, L, J, H

No words can be formed.

28. Questions**Answer: C**

Given series

I U * 3 H & F 6 2 A P 5 X 9 E = 8 Y 4 N % G 7 > W 0 ? L J H

The numbers which are immediately followed by a vowel = 2 and 9

I U * 3 H & F 6 2 A P 5 X 9 E = 8 Y 4 N % G 7 > W 0 ? L J H

Sum = 9+2=11

29. Questions**Answer: B**

Given series

I U * 3 H & F 6 2 A P 5 X 9 E = 8 Y 4 N % G 7 > W 0 ? L J H

Symbols are there which are immediately preceded by a vowel and immediately followed by a number

I U * 3 H & F 6 2 A P 5 X 9 E = 8 Y 4 N % G 7 > W 0 ? L J H

30. Questions**Answer: A**

Given series

I U * 3 H & F 6 2 A P 5 X 9 E = 8 Y 4 N % G 7 > W 0 ? L J H

The number of letters to the element '=' has its left is 8

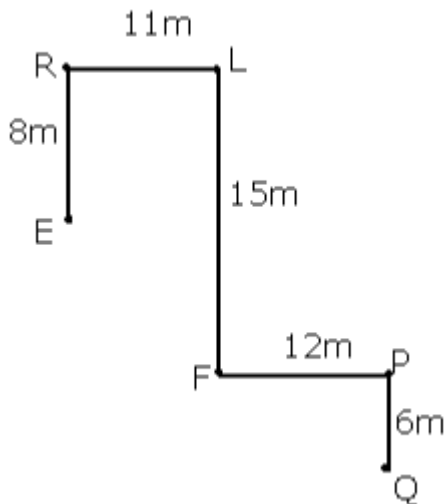

I U * 3 H & F 6 2 A P 5 X 9 E = 8 Y 4 N % G 7 > W 0 ? L J H

The letter X has as many letters to their right as element '=' has its left

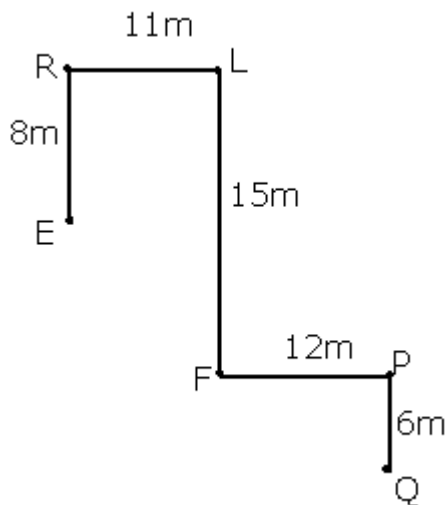

I U * 3 H & F 6 2 A P 5 X 9 E = 8 Y 4 N % G 7 > W 0 ? L J H

31. Questions

Final arrangement:

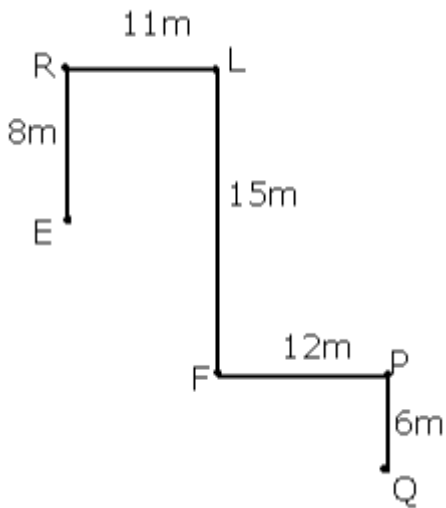

Answer: C

32. Questions

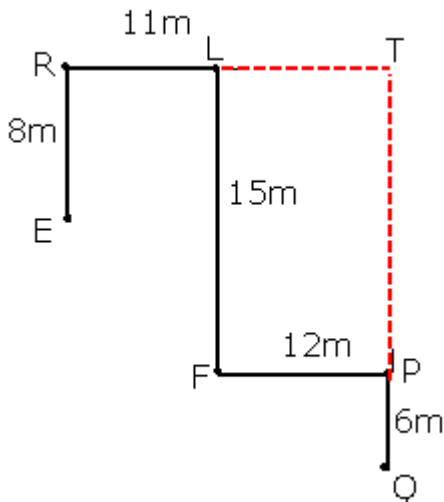

Final arrangement:

@RankZen Banker

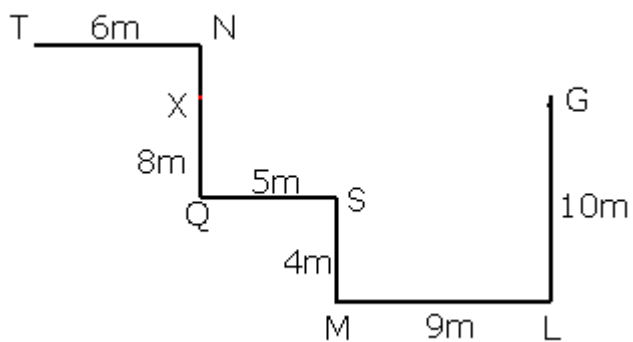

Answer: D

The total distance from T to Q = $15 + 6 = 21\text{m}$.

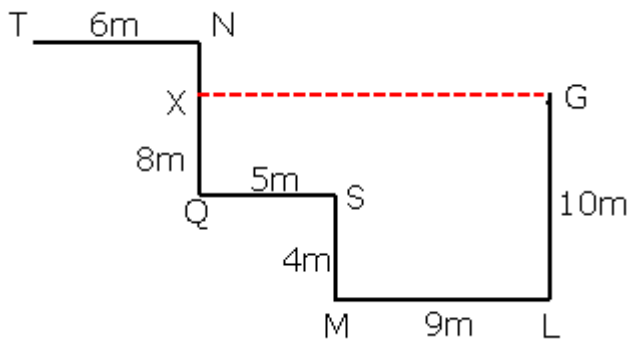

33. Questions

Final arrangement:

@RankZen Banker

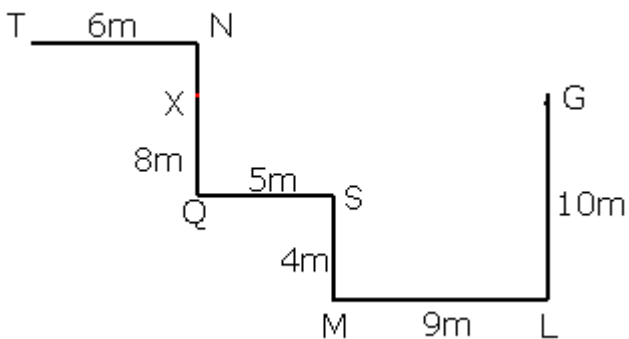

Answer: C

The distance between point G and point X = $QS + ML = 5m + 9m = 14m$.

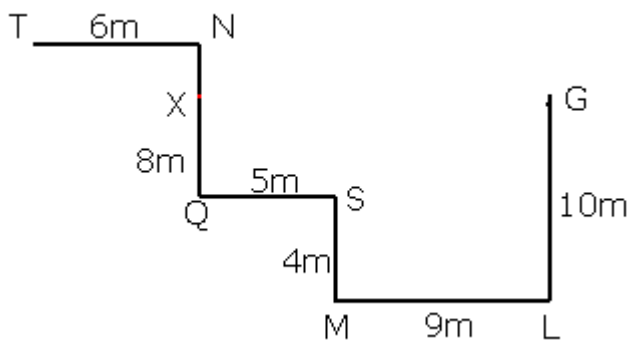

34. Questions

Final arrangement:

Answer: B

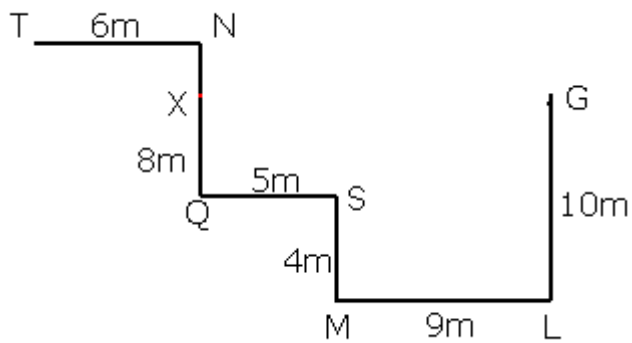

Point N is northwest to Point S.

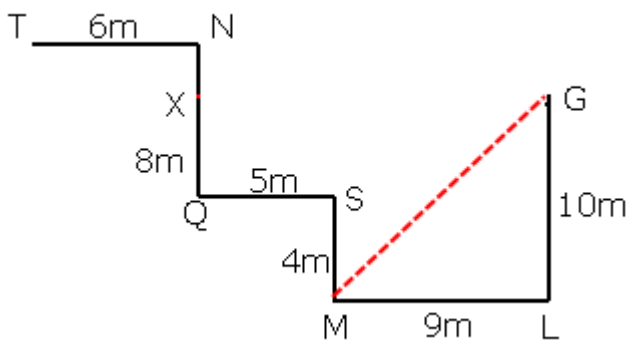

@RankZen Banker

35. Questions

Final arrangement:

Answer: D

The shortest distance between point M and point G = $\sqrt{9^2 + 10^2} = \sqrt{181}\text{m}$
