

1. Questions

Study the following information carefully and answer the given questions.

Ten persons viz., J, K, L, M, N, O, P, Q, R and S are living in the five storey building, where the lowermost floor is numbered as one and the floor immediately above it is numbered as two and so on.

Note-I: Each floor has two types of flats viz., Flat-A and Flat-B, where Flat A is to the west of flat B.

Note-II: Flat B of floor 2 is immediately above Flat B of floor 1 and immediately below Flat B of floor 3 and so on. Similarly, Flat A of floor 2 is immediately above Flat A of floor 1 and immediately below Flat A of floor 3 and so on.

Note-III: The area of each flat is the same.

Note-IV: Only two persons live on each floor and only one person lives in each flat.

O lives three floors above L in the same flat. P lives to the east of L. Only one floor is between P and J. S live immediately above J but in different flats. M lives two floors above R. No one lives to the west of M. Q lives on the same floor as N, but in the same flat as O.

Who among the following persons lives in Flat-A on an even-numbered floor?

- a. L
- b. O
- c. Q
- d. Both option b and C
- e. Both a and c

2. Questions

If L is related to J and P is related to R in a certain way, then which of the following person is related to S?

- a. Q
- b. K
- c. O
- d. M
- e. N

3. Questions

_____ lives on the same floor as K.

- a. N
- b. M
- c. S

d. O

e. J

4. Questions

Four of the following five are alike in a certain way and thus form a group as per the final arrangement. Which of the following does not belong to that group?

a. J

b. S

c. K

d. P

e. N

5. Questions

Which of the following statements is/are TRUE based on the final arrangement?

I). M lives immediately below J.

II). O lives on the topmost floor.

III). R lives in Flat-B.

a. Only I

b. Only II

c. Only III

d. Only I and III

e. All I, II and III

6. Questions

Read the following information carefully and answer the given questions.

Six persons - A, B, C, D, E and F are working in the organization at different designations such as Director, Deputy General Manager, General Manager, Senior Manager, Manager and Assistant Manager. The hierarchy of the designations is given in decreasing order such as Director is the seniormost designation and Assistant Manager is the juniormost designation. They work at different companies- Delta, Nova, Cosmos, Falcon, Alpha and Bravo.

E is senior to the one who is designated as Senior Manager. Only two persons are designated between E and the one who works at Falcon, who is an immediate senior of B. A prime number of persons are designated between B and the one who works at Cosmos. Neither D nor the one who works at Cosmos is designated as Director or General Manager. D is two persons senior to the one who works at Delta. F is an immediate junior of the one who works at Nova. As many persons are senior to the one who works at Nova as junior to A. C is senior to the one who works at Bravo. B does not work at Bravo.

Who among the following persons is designated as the General Manager?

- a. B
- b. The one who works at Alpha
- c. The one who works at Bravo
- d. C
- e. Cannot be determined

7. Questions

Which among the following company does the Deputy General Manager work at?

- a. Alpha
- b. Cosmos
- c. Nova
- d. Bravo
- e. Delta

8. Questions

How many persons are designated between the person working at Falcon and the person working at Delta?

- a. None
- b. One
- c. Two
- d. Three
- e. Four

9. Questions

Which of the following persons is immediate senior to the person who works at Nova?

- a. B
- b. C
- c. The one who works at Falcon
- d. The one who works at Cosmos
- e. A

10. Questions

Which of the following designations is held by the person who works at Alpha?

- a. Senior Manager
- b. Deputy General Manager
- c. General Manager
- d. Director
- e. Manager

11. Questions

Study the following information carefully and answer the given questions.

Eight persons are sitting around the circular table. Some of them facing inside and some of them facing outside the table. Not more than two persons facing the same direction sit adjacent to each other. The number of persons facing outside is more than the number of persons facing inside.

Q sits second to the right of T, both facing in the same direction. Only two persons sit between T and P, when counted in the clockwise direction from T. P sits to the immediate right of S, who faces inside. R sits opposite the one who sits second to the right of V. Neither R nor V is an immediate neighbor of S or U. U and P face in the same direction.

Who among the following persons sits third to the right of Q?

- a. P
- b. R
- c. T
- d. The one who sits second to the right of W
- e. The one who sits to the immediate left of S

12. Questions

If all the persons are arranged alphabetically in anticlockwise direction starting from P, which among the following persons remain at the same position?

- a. Q
- b. R
- c. Both Q and R
- d. V
- e. W

13. Questions

How many persons are sitting between T and V, when counted to the left of T?

- a. None
- b. Two

- c. Three
- d. Four
- e. Five

14. Questions

Four of the following five are alike in a certain way and thus form a group as per the final arrangement. Which of the following does not belong to that group?

- a. W
- b. Q
- c. P
- d. S
- e. T

15. Questions

Which of the following pairs represents persons facing the same direction?

- a. S and T
- b. P and W
- c. Q and V
- d. R and Q
- e. S and P

16. Questions

Read the following information carefully and answer the given questions.

Eight persons - A, B, C, D, E, F, G and H attend the interview on two different dates either 8th or 21st of four different months viz., January, April, July and October of the same year. Only one person attends the interview on each date and only two persons attend the interview in each month.

E attends three persons after B, who do not attend in a month with an odd number of days. The number of persons attending before E is **one less than** the number of persons attending after H. G attends immediately after C. Neither G nor C attends in a month which has an even number of days. D attended before A but after F. At least one person attends before F.

Who among the following persons attends the interview on 21st October?

- a. G
- b. E
- c. The one who attends two persons after D
- d. A

- e. The one who attends immediately before F

17. Questions

On which month and date does G attend the interview?

- a. 8th January
- b. 21st July
- c. 8th April
- d. 21st April
- e. 8th July

18. Questions

How many persons attend the interview between C and H?

- a. One
- b. Two
- c. Three
- d. Four
- e. Five

19. Questions

Which of the following statements is/are TRUE based on the final arrangement?

I). B attends on the 21st of a month.

II). E attends on 21st July.

III). D attends immediately before F.

- a. Only I
- b. Only II
- c. Only I and II
- d. Only II and III
- e. All I, II and III

20. Questions

Who among the following persons attends the interview immediately after D?

- a. H
- b. C

- c. The one who attend immediately before E
- d. A
- e. The one who attend two persons before G

21. Questions

Study the following statements and then decide which of the given conclusions logically follows from the given statements disregarding the commonly known facts.

Statements

Only a few Crystals are Pebbles.

All Pebbles are Marbles.

No Marble is Quartz.

Some Quartz are Stones.

Conclusions:

I). Some Crystals are Marbles is a possibility

II). Some pebbles are stones

III). All quartz being crystals is a possibility

- a. Only Conclusion I follows
- b. Only Conclusion III follows
- c. Only Conclusions II and III follow
- d. Only Conclusions I and III follow
- e. All the conclusions follow

22. Questions

Statements

All Rivers are Canals.

Some Canals are Bridges.

No Bridge is a Tunnel.

Only Tunnel is Road.

Conclusions:

I). No roads are rivers

II). All tunnels can never be canals

III). Some Roads being Canals is a possibility

- a. Only Conclusion I follows

- b. Only Conclusion III follows
- c. Only Conclusions II and III follow
- d. Only Conclusions I and II follow
- e. All the conclusions follow

23. Questions

Statements

All Magnets are Metals.

No Metals are Rods.

Only a few Rods are Pipes.

Some Pipes are Elements.

Conclusions:

I). Some Magnets are not Rods

II). No rod is an element

III). All Metals can never be elements

- a. Only Conclusion I follows
- b. Only Conclusion III follows
- c. Only Conclusions II and III follow
- d. Only Conclusions I and III follow
- e. All the conclusions follow

24. Questions

Statements

Only Helmets are Shields.

No Helmets are Swords.

Some Swords are Armour.

All Armours are Chains.

Conclusions:

I). No Shield is Armour

II). Some Shields are not Chains

III). All swords can never be helmets

- a. Only Conclusion I follows

- b. Only Conclusion III follows
- c. Only Conclusions II and III follow
- d. Only Conclusions I and III follow
- e. All the conclusions follow

25. Questions

Statements

Some Petals are Leaves.

Only a few Leaves are Branches.

No Branch is Root.

All Roots are Seeds.

Conclusions:

I). Some Petals are roots

II). No roots are petals

III). Some Seeds are not leaves

- a. Only Conclusion I follows
- b. Only Conclusion III follows
- c. Either conclusion I or II follows
- d. Only Conclusions I and III follow
- e. All the conclusions follow

26. Questions

In the given questions, the relationship between different elements is shown in the statements followed by some conclusions. Find the conclusion which is definitely true.

Statements:

$P > A = T \leq M < R; K \geq T > H = L > X; X > Q > N = B \geq C$

Conclusions:

I). $A > B$

II). $Q < K$

- a. Only conclusion I is true
- b. Only conclusion II is true
- c. Either Conclusion I or II is true
- d. Neither Conclusion I nor II is true

e. Both conclusions I and II are true

27. Questions

Statements:

$F \leq W > J = C \geq A$; $Y < A = M > D \leq K$; $R \geq D \geq P = L > T$

Conclusions:

I). $J > K$

II). $P \leq K$

- a. Only conclusion I is true
- b. Only conclusion II is true
- c. Either Conclusion I or II is true
- d. Neither Conclusion I nor II is true
- e. Both conclusions I and II are true

28. Questions

Statements:

$N > V \geq H > B$; $H > Q = X > S$; $C \geq S > M = R > J$

Conclusions:

I). $V \geq X$

II). $C < Q$

- a. Only conclusion I is true
- b. Only conclusion II is true
- c. Either Conclusion I or II is true
- d. Neither Conclusion I nor II is true
- e. Both conclusions I and II are true

29. Questions

Statements:

$D > U \leq P = F < L$; $G < K = T > Y \geq R$; $X \geq U > A = K \leq M$

Conclusions:

I). $F > K$

II). $A \geq R$

- a. Only conclusion I is true

- b. Only conclusion II is true
- c. Either Conclusion I or II is true
- d. Both conclusions I and II are true
- e. Neither Conclusion I nor II is true

30. Questions

Statements:

$C \geq N = J < Q > H$; $W < M = P \geq A$; $E \leq M < J = R \geq S$

Conclusions:

I). $A \leq Q$

II). $C \geq R$

- a. Only conclusion I is true
- b. Either Conclusion I or II is true
- c. Only conclusion II is true
- d. Neither Conclusion I nor II is true
- e. Both conclusions I and II are true

31. Questions

Study the following information carefully and answer the given questions.

A is the mother of two children - P and Q. M is the mother-in-law of Q, who is married to F's only daughter. D is the grandfather of G and is married to H. P is the father of G, who is the cousin of C. C is the granddaughter of N. G's mother does not have any siblings. G is of the same gender as P.

How is N related to Q?

- a. Grandfather
- b. Nephew
- c. Father
- d. Father-in-law
- e. None of these

32. Questions

If X is married to P, then how is X related to C?

- a. Aunt
- b. Mother

- c. Sister
- d. Sister-in-law
- e. Mother-in-law

33. Questions

If Z is married to Q, then how is Z related to A?

- a. Daughter
- b. Mother
- c. Sister
- d. Sister-in-law
- e. Daughter-in-law

34. Questions

Study the following information carefully and answer the given questions.

B is the sister-in-law of K, who is the only son of F. A is the grandmother of G, who is the only sibling of I. A is married but not to F. I is the brother-in-law of J, who is married to P's only daughter. D is the mother-in-law of P. F is the paternal grandfather of I, who is not married.

How is K related to J?

- a. Father
- b. Father-in-law
- c. Brother
- d. Brother-in-law
- e. None of these

35. Questions

If Z is married to A, then how is Z related to B?

- a. Brother-in-law
- b. Father-in-law
- c. Brother
- d. Father
- e. None of these

36. Questions

Study the following information carefully and answer the given questions.

In the word "PAINTER", from the left end, the first, second, fifth and seventh letters are used to form a four-letter meaningful word (using the letters only once), then what would be the fourth letter from the right end of that four-letter meaningful word? If no meaningful word is formed, mark the answer as %. If more than one meaningful word is formed, mark the answer as *.

- a. P
- b. %
- c. T
- d. *
- e. A

37. Questions

In the given number "4819735268", from the left end, the position of the first and tenth digits are interchanged. Similarly, the positions of the second and ninth digits are interchanged, the third and eighth digits are interchanged, and so on till the end. Then, which of the following digits will be third to the left of the digit which is fourth from the right end of the new arrangement?

- a. 9
- b. 8
- c. 1
- d. 5
- e. 2

38. Questions

If 'PLANT' is written as 'MIXKQ' and 'FLOWER' is written as 'CILTBO' in a certain way, then how is 'GARDEN' written in the same way?

- a. KBAOXD
- b. ODXABK
- c. XODKAB
- d. ABKDXO
- e. DXOABK

39. Questions

How many such pairs of letters are there in the word "ELEPHANT", each of which has as many letters between them as there are in the English alphabets (both forward and backward directions)?

- a. None
- b. One

- c. Two
- d. Three
- e. More than three

40. Questions

If in the number "6842975318", the digits at the odd positions (from the left end) are dropped and the remaining digits are arranged in ascending order from the left end, then which of the following numbers will be third from the left end?

- a. 2
- b. 3
- c. 7
- d. 8
- e. None of these

Explanations:

1. Questions

Final arrangement:

Floors	Flat-A	Flat-B
5	M	K
4	O	S
3	J	R
2	Q	N
1	L	P

We have,

- O lives three floors above L in the same flat.
- P lives to the east of L.

From the above conditions, there are two possibilities.

Floors	Case-1		Case-2	
	Flat-A	Flat-B	Flat-A	Flat-B
5	O			
4			O	
3				
2	L	P		
1			L	P

Again, we have,

- Only one floor is between P and J.
- S live immediately above J but in different flats.
- M lives two floors above R.
- **No one lives to the west of M.**

Floors	Case-1		Case-2	
	Flat-A	Flat-B	Flat-A	Flat-B
5	O	S	M	
4	J		O	S
3	M		J	R
2	L	P		
1	R/	R/	L	P

Again, we have,

- Q lives on the same floor as N, but in the same flat as O.

From the above conditions, case-1 gets eliminated because Q lives on the same floor as N, but in the same flat as O, which is not satisfied.

Hence, case-2 shows the final arrangement.

Floors	Case-1		Case-2	
	Flat-A	Flat-B	Flat-A	Flat-B
5	O	S	M	K
4	J		O	S
3	M		J	R
2	L	P	Q	N
1	R/	R/	L	P

Answer: D

2. Questions

Final arrangement:

Floors	Flat-A	Flat-B
5	M	K
4	O	S
3	J	R
2	Q	N
1	L	P

We have,

- O lives three floors above L in the same flat.
- P lives to the east of L.

From the above conditions, there are two possibilities.

Floors	Case-1		Case-2	
	Flat-A	Flat-B	Flat-A	Flat-B
5	O			
4			O	
3				
2	L	P		
1			L	P

Again, we have,

- Only one floor is between P and J.
- S live immediately above J but in different flats.
- M lives two floors above R.
- **No one lives to the west of M.**

Floors	Case-1		Case-2	
	Flat-A	Flat-B	Flat-A	Flat-B
5	O	S	M	
4	J		O	S
3	M		J	R
2	L	P		
1	R/	R/	L	P

Again, we have,

- Q lives on the same floor as N, but in the same flat as O.

From the above conditions, case-1 gets eliminated because Q lives on the same floor as N, but in the same flat as O, which is not satisfied.

Hence, case-2 shows the final arrangement.

Floors	Case-1		Case-2	
	Flat-A	Flat-B	Flat-A	Flat-B
5	O	S	M	K
4	J		O	S
3	M		J	R
2	L	P	Q	N
1	R/	R/	L	P

Answer: E (The Second person lives two floors above the first person in the same flat)

3. Questions

Final arrangement:

Floors	Flat-A	Flat-B
5	M	K
4	O	S
3	J	R
2	Q	N
1	L	P

We have,

- O lives three floors above L in the same flat.
- P lives to the east of L.

From the above conditions, there are two possibilities.

Floors	Case-1		Case-2	
	Flat-A	Flat-B	Flat-A	Flat-B
5	O			
4			O	
3				
2	L	P		
1			L	P

Again, we have,

- Only one floor is between P and J.
- S live immediately above J but in different flats.
- M lives two floors above R.
- **No one lives to the west of M.**

Floors	Case-1		Case-2	
	Flat-A	Flat-B	Flat-A	Flat-B
5	O	S	M	
4	J		O	S
3	M		J	R
2	L	P		
1	R/	R/	L	P

Again, we have,

- Q lives on the same floor as N, but in the same flat as O.

From the above conditions, case-1 gets eliminated because Q lives on the same floor as N, but in the same flat as O, which is not satisfied.

Hence, case-2 shows the final arrangement.

Floors	Case-1		Case-2	
	Flat-A	Flat-B	Flat-A	Flat-B
5	O	S	M	K
4	J		O	S
3	M		J	R
2	L	P	Q	N
1	R/	R/	L	P

Answer: B

4. Questions

Final arrangement:

Floors	Flat-A	Flat-B
5	M	K
4	O	S
3	J	R
2	Q	N
1	L	P

We have,

- O lives three floors above L in the same flat.
- P lives to the east of L.

From the above conditions, there are two possibilities.

Floors	Case-1		Case-2	
	Flat-A	Flat-B	Flat-A	Flat-B
5	O			
4			O	
3				
2	L	P		
1			L	P

Again, we have,

- Only one floor is between P and J.
- S live immediately above J but in different flats.
- M lives two floors above R.
- **No one lives to the west of M.**

Floors	Case-1		Case-2	
	Flat-A	Flat-B	Flat-A	Flat-B
5	O	S	M	
4	J		O	S
3	M		J	R
2	L	P		
1	R/	R/	L	P

Again, we have,

- Q lives on the same floor as N, but in the same flat as O.

From the above conditions, case-1 gets eliminated because Q lives on the same floor as N, but in the same flat as O, which is not satisfied.

Hence, case-2 shows the final arrangement.

Floors	Case-1		Case-2	
	Flat-A	Flat-B	Flat-A	Flat-B
5	O	S	M	K
4	J		O	S
3	M		J	R
2	L	P	Q	N
1	R/	R/	L	P

Answer: A (Except a, all persons lives in flat-B)

5. Questions

Final arrangement:

Floors	Flat-A	Flat-B
5	M	K
4	O	S
3	J	R
2	Q	N
1	L	P

We have,

- O lives three floors above L in the same flat.
- P lives to the east of L.

From the above conditions, there are two possibilities.

Floors	Case-1		Case-2	
	Flat-A	Flat-B	Flat-A	Flat-B
5	O			
4			O	
3				
2	L	P		
1			L	P

Again, we have,

- Only one floor is between P and J.
- S live immediately above J but in different flats.
- M lives two floors above R.
- **No one lives to the west of M.**

Floors	Case-1		Case-2	
	Flat-A	Flat-B	Flat-A	Flat-B
5	O	S	M	
4	J		O	S
3	M		J	R
2	L	P		
1	R/	R/	L	P

Again, we have,

- Q lives on the same floor as N, but in the same flat as O.

From the above conditions, case-1 gets eliminated because Q lives on the same floor as N, but in the same flat as O, which is not satisfied.

Hence, case-2 shows the final arrangement.

Floors	Case-1	Case-2		
	Flat-A	Flat-B	Flat-A	Flat-B
5	O	S	M	K
4	J		O	S
3	M		J	R
2	L	P	Q	N
1	R/	R/	L	P

Answer: C

6. Questions

Final Arrangement:

Designations	Persons	Projects
Director	C	Alpha
Deputy General Manager	E	Cosmos
General Manager	A	Bravo
Senior Manager	D	Nova
Manager	F	Falcon
Assistant Manager	B	Delta

We have,

- E is senior to the one who is designated as Senior Manager.
- Only two persons are designated between E and the one who works at Falcon, who is an immediate senior of B.

From the above conditions, there are two possibilities.

Designations	Case-1		Case-2	
	Persons	Projects	Persons	Projects
Director	E			
Deputy General Manager			E	
General Manager				
Senior Manager		Falcon		
Manager	B			Falcon
Assistant Manager			B	

Again, we have,

- A prime number of persons are designated between B and the one who works at
- Neither D nor the one who works at Cosmos is designated as Director or General Manager.
- D is two persons senior to the one who works at Delta.
- F is an immediate junior to the one who works at Nova

From the above conditions case-1 splits into case-1a

Designations	Case-1		Case-2		Case-1a	
	Person	Project	Person	Project	Person	Project
Director	E				E	Nova
Deputy General Manager		Cosmos	E	Cosmos	F	Cosmos
General Manager						
Senior Manager	D	Falcon	D	Nova	D	Falcon
Manager	B	Nova	F	Falcon	B	
Assistant Manager	F	Delta	B	Delta		Delta

Again, we have,

- As many persons are senior to the one who works at Nova as junior to A.
- C is senior to the one who works at Bravo.
- B does not work at Bravo.

From the above conditions, case-1 gets eliminated because C is senior to the one who works at Bravo, which is not satisfied.

From the above conditions case-1a gets eliminated because B does not work at Bravo, which is not satisfied.

Hence, case-2 shows the final arrangement.

Designations	Case-1		Case-2		Case-1a	
	Person	Project	Person	Project	Person	Project
Director	E		C	Alpha	E	Nova
Deputy General Manager	A	Cosmos	E	Cosmos	F	Cosmos
General Manager			A	Bravo	C	
Senior Manager	D	Falcon	D	Nova	D	Falcon
Manager	B	Nova	F	Falcon	B	Bravo
Assistant Manager	F	Delta	B	Delta	A	Delta

Answer: C

7. Questions

Final Arrangement:

Designations	Persons	Projects
Director	C	Alpha
Deputy General Manager	E	Cosmos
General Manager	A	Bravo
Senior Manager	D	Nova
Manager	F	Falcon
Assistant Manager	B	Delta

We have,

- E is senior to the one who is designated as Senior Manager.

- Only two persons are designated between E and the one who works at Falcon, who is an immediate senior of B.

From the above conditions, there are two possibilities.

Designations	Case-1		Case-2	
	Persons	Projects	Persons	Projects
Director	E			
Deputy General Manager			E	
General Manager				
Senior Manager		Falcon		
Manager	B			Falcon
Assistant Manager			B	

Again, we have,

- A prime number of persons are designated between B and the one who works at
- Neither D nor the one who works at Cosmos is designated as Director or General Manager.
- D is two persons senior to the one who works at Delta.
- F is an immediate junior to the one who works at Nova

From the above conditions case-1 splits into case-1a

Designations	Case-1		Case-2		Case-1a	
	Person	Project	Person	Project	Person	Project
Director	E				E	Nova
Deputy General Manager		Cosmos	E	Cosmos	F	Cosmos
General Manager						
Senior Manager	D	Falcon	D	Nova	D	Falcon
Manager	B	Nova	F	Falcon	B	
Assistant Manager	F	Delta	B	Delta		Delta

Again, we have,

- As many persons are senior to the one who works at Nova as junior to A.
- C is senior to the one who works at Bravo.
- B does not work at Bravo.

From the above conditions, case-1 gets eliminated because C is senior to the one who works at Bravo, which is not satisfied.

From the above conditions case-1a gets eliminated because B does not work at Bravo, which is not satisfied.

Hence, case-2 shows the final arrangement.

Designations	Case-1		Case-2		Case-1a	
	Person	Project	Person	Project	Person	Project
Director	E		C	Alpha	E	Nova
Deputy General Manager	A	Cosmos	E	Cosmos	F	Cosmos
General Manager			A	Bravo	C	
Senior Manager	D	Falcon	D	Nova	D	Falcon
Manager	B	Nova	F	Falcon	B	Bravo
Assistant Manager	F	Delta	B	Delta	A	Delta

Answer: B

8. Questions

Final Arrangement:

Designations	Persons	Projects
Director	C	Alpha
Deputy General Manager	E	Cosmos
General Manager	A	Bravo
Senior Manager	D	Nova
Manager	F	Falcon
Assistant Manager	B	Delta

We have,

- E is senior to the one who is designated as Senior Manager.
- Only two persons are designated between E and the one who works at Falcon, who is an immediate senior of B.

From the above conditions, there are two possibilities.

Designations	Case-1		Case-2	
	Persons	Projects	Persons	Projects
Director	E			
Deputy General Manager			E	
General Manager				
Senior Manager		Falcon		
Manager	B			Falcon
Assistant Manager			B	

Again, we have,

- A prime number of persons are designated between B and the one who works at
- Neither D nor the one who works at Cosmos is designated as Director or General Manager.
- D is two persons senior to the one who works at Delta.
- F is an immediate junior to the one who works at Nova

From the above conditions case-1 splits into case-1a

Designations	Case-1		Case-2		Case-1a	
	Person	Project	Person	Project	Person	Project
Director	E				E	Nova
Deputy General Manager		Cosmos	E	Cosmos	F	Cosmos
General Manager						
Senior Manager	D	Falcon	D	Nova	D	Falcon
Manager	B	Nova	F	Falcon	B	
Assistant Manager	F	Delta	B	Delta		Delta

Again, we have,

- As many persons are senior to the one who works at Nova as junior to A.
- C is senior to the one who works at Bravo.
- B does not work at Bravo.

From the above conditions, case-1 gets eliminated because C is senior to the one who works at Bravo, which is not satisfied.

From the above conditions case-1a gets eliminated because B does not work at Bravo, which is not satisfied.

Hence, case-2 shows the final arrangement.

Designations	Case-1		Case-2		Case-1a	
	Person	Project	Person	Project	Person	Project
Director	E		C	Alpha	E	Nova
Deputy General Manager	A	Cosmos	E	Cosmos	F	Cosmos
General Manager			A	Bravo	C	
Senior Manager	D	Falcon	D	Nova	D	Falcon
Manager	B	Nova	F	Falcon	B	Bravo
Assistant Manager	F	Delta	B	Delta	A	Delta

Answer: A

9. Questions

Final Arrangement:

Designations	Persons	Projects
Director	C	Alpha
Deputy General Manager	E	Cosmos
General Manager	A	Bravo
Senior Manager	D	Nova
Manager	F	Falcon
Assistant Manager	B	Delta

We have,

- E is senior to the one who is designated as Senior Manager.
- Only two persons are designated between E and the one who works at Falcon, who is an immediate senior of B.

From the above conditions, there are two possibilities.

Designations	Case-1		Case-2	
	Persons	Projects	Persons	Projects
Director	E			
Deputy General Manager			E	
General Manager				
Senior Manager		Falcon		
Manager	B			Falcon
Assistant Manager			B	

Again, we have,

- A prime number of persons are designated between B and the one who works at

- Neither D nor the one who works at Cosmos is designated as Director or General Manager.
- D is two persons senior to the one who works at Delta.
- F is an immediate junior to the one who works at Nova

From the above conditions case-1 splits into case-1a

Designations	Case-1		Case-2		Case-1a	
	Person	Project	Person	Project	Person	Project
Director	E				E	Nova
Deputy General Manager		Cosmos	E	Cosmos	F	Cosmos
General Manager						
Senior Manager	D	Falcon	D	Nova	D	Falcon
Manager	B	Nova	F	Falcon	B	
Assistant Manager	F	Delta	B	Delta		Delta

Again, we have,

- As many persons are senior to the one who works at Nova as junior to A.
- C is senior to the one who works at Bravo.
- B does not work at Bravo.

From the above conditions, case-1 gets eliminated because C is senior to the one who works at Bravo, which is not satisfied.

From the above conditions case-1a gets eliminated because B does not work at Bravo, which is not satisfied.

Hence, case-2 shows the final arrangement.

Designations	Case-1		Case-2		Case-1a	
	Person	Project	Person	Project	Person	Project
Director	E		C	Alpha	E	Nova
Deputy General Manager	A	Cosmos	E	Cosmos	F	Cosmos
General Manager			A	Bravo	C	
Senior Manager	D	Falcon	D	Nova	D	Falcon
Manager	B	Nova	F	Falcon	B	Bravo
Assistant Manager	F	Delta	B	Delta	A	Delta

Answer: E

10. Questions

Final Arrangement:

Designations	Persons	Projects
Director	C	Alpha
Deputy General Manager	E	Cosmos
General Manager	A	Bravo
Senior Manager	D	Nova
Manager	F	Falcon
Assistant Manager	B	Delta

We have,

- E is senior to the one who is designated as Senior Manager.
- Only two persons are designated between E and the one who works at Falcon, who is an immediate senior of B.

From the above conditions, there are two possibilities.

Designations	Case-1		Case-2	
	Persons	Projects	Persons	Projects
Director	E			
Deputy General Manager			E	
General Manager				
Senior Manager		Falcon		
Manager	B			Falcon
Assistant Manager			B	

Again, we have,

- A prime number of persons are designated between B and the one who works at
- Neither D nor the one who works at Cosmos is designated as Director or General Manager.
- D is two persons senior to the one who works at Delta.
- F is an immediate junior to the one who works at Nova

From the above conditions case-1 splits into case-1a

Designations	Case-1		Case-2		Case-1a	
	Person	Project	Person	Project	Person	Project
Director	E				E	Nova
Deputy General Manager		Cosmos	E	Cosmos	F	Cosmos
General Manager						
Senior Manager	D	Falcon	D	Nova	D	Falcon
Manager	B	Nova	F	Falcon	B	
Assistant Manager	F	Delta	B	Delta		Delta

Again, we have,

- As many persons are senior to the one who works at Nova as junior to A.
- C is senior to the one who works at Bravo.
- B does not work at Bravo.

From the above conditions, case-1 gets eliminated because C is senior to the one who works at Bravo, which is not satisfied.

From the above conditions case-1a gets eliminated because B does not work at Bravo, which is not satisfied.

Hence, case-2 shows the final arrangement.

Designations	Case-1		Case-2		Case-1a	
	Person	Project	Person	Project	Person	Project
Director	E		C	Alpha	E	Nova
Deputy General Manager	A	Cosmos	E	Cosmos	F	Cosmos
General Manager			A	Bravo	C	
Senior Manager	D	Falcon	D	Nova	D	Falcon
Manager	B	Nova	F	Falcon	B	Bravo
Assistant Manager	F	Delta	B	Delta	A	Delta

Answer: D

11. Questions

Final arrangement:

We have,

- Q sits second to the right of T, both facing in the same direction.
- Only two persons sit between T and P, when counted in the clockwise direction from T.

From the above conditions, there are two possibilities.

Again, we have,

- P sits to the immediate right of S, who faces inside.
- R sits opposite the one who sits second to the right of V.
- Neither R nor V is an immediate neighbor of S or U.

Again, we have,

- U and P face in the same direction.

From the above conditions, case-2 gets eliminated because the number of persons facing outside is more than the number of persons facing inside, which is not satisfied.

Hence, case-1 shows the final arrangement.

Answer: E

12. Questions

Final arrangement:

We have,

- Q sits second to the right of T, both facing in the same direction.
- Only two persons sit between T and P, when counted in the clockwise direction from T.

From the above conditions, there are two possibilities.

Again, we have,

- P sits to the immediate right of S, who faces inside.
- R sits opposite the one who sits second to the right of V.
- Neither R nor V is an immediate neighbor of S or U.

Again, we have,

- U and P face in the same direction.

From the above conditions, case-2 gets eliminated because the number of persons facing outside is more than the number of persons facing inside, which is not satisfied.

Hence, case-1 shows the final arrangement.

Answer: C

13. Questions

Final arrangement:

We have,

- Q sits second to the right of T, both facing in the same direction.
- Only two persons sit between T and P, when counted in the clockwise direction from T.

From the above conditions, there are two possibilities.

Again, we have,

- P sits to the immediate right of S, who faces inside.
- R sits opposite the one who sits second to the right of V.
- Neither R nor V is an immediate neighbor of S or U.

Again, we have,

- U and P face in the same direction.

From the above conditions, case-2 gets eliminated because the number of persons facing outside is more than the number of persons facing inside, which is not satisfied.

Hence, case-1 shows the final arrangement.

Answer: A

14. Questions

Final arrangement:

We have,

- Q sits second to the right of T, both facing in the same direction.
- Only two persons sit between T and P, when counted in the clockwise direction from T.

From the above conditions, there are two possibilities.

Again, we have,

- P sits to the immediate right of S, who faces inside.
- R sits opposite the one who sits second to the right of V.
- Neither R nor V is an immediate neighbor of S or U.

Again, we have,

- U and P face in the same direction.

From the above conditions, case-2 gets eliminated because the number of persons facing outside is more than the number of persons facing inside, which is not satisfied.

Hence, case-1 shows the final arrangement.

Answer: D (Except d, all persons are facing outside the table)

15. Questions

Final arrangement:

We have,

- Q sits second to the right of T, both facing in the same direction.
- Only two persons sit between T and P, when counted in the clockwise direction from T.

From the above conditions, there are two possibilities.

Again, we have,

- P sits to the immediate right of S, who faces inside.
- R sits opposite the one who sits second to the right of V.
- Neither R nor V is an immediate neighbor of S or U.

Again, we have,

- U and P face in the same direction.

From the above conditions, case-2 gets eliminated because the number of persons facing outside is more than the number of persons facing inside, which is not satisfied.

Hence, case-1 shows the final arrangement.

Answer: B

16. Questions

Final Arrangement:

Months	Dates	Persons
January	8	H
	21	F
April	8	D
	21	B
July	8	C
	21	G
October	8	E
	21	A

We have,

- E attends three persons after B, who do not attend in a month with an odd number of days.
- The number of persons attending before E is **one less than** the number of persons attending after H.

From the above conditions, there are two possibilities

Months	Dates	Case-1	Case-2
		Persons	Persons
January	8		H
	21	H	
April	8	B	
	21		B
July	8		
	21	E	
October	8		E
	21		

Again, we have,

- G attends immediately after C.
- Neither G nor C attends in a month which has an even number of days.

Months	Dates	Case-1	Case-2
		Persons	Persons
January	8		H
	21	H	
April	8	B	
	21		B
July	8		C
	21	E	G
October	8	C	E
	21	G	

Again, we have,

- D attended before A but after F.
- At least one person attends before F.

From the above conditions, case-1 gets eliminated because At least one person attends before F, which is not satisfied.

Hence, case-2 shows the final arrangement.

Months	Dates	Case-1	Case-2
		Persons	Persons
January	8	F	H
	21	H	F
April	8	B	D
	21	D	B
July	8	A	C
	21	E	G
October	8	C	E
	21	G	A

Answer: D

17. Questions

Final Arrangement:

Months	Dates	Persons
January	8	H
	21	F
April	8	D
	21	B
July	8	C
	21	G
October	8	E
	21	A

We have,

- E attends three persons after B, who do not attend in a month with an odd number of days.
- The number of persons attending before E is **one less than** the number of persons attending after H.

From the above conditions, there are two possibilities

Months	Dates	Case-1	Case-2
		Persons	Persons
January	8		H
	21	H	
April	8	B	
	21		B
July	8		
	21	E	
October	8		E
	21		

Again, we have,

- G attends immediately after C.
- Neither G nor C attends in a month which has an even number of days.

Months	Dates	Case-1	Case-2
		Persons	Persons
January	8		H
	21	H	
April	8	B	
	21		B
July	8		C
	21	E	G
October	8	C	E
	21	G	

Again, we have,

- D attended before A but after F.
- At least one person attends before F.

From the above conditions, case-1 gets eliminated because At least one person attends before F, which is not satisfied.

Hence, case-2 shows the final arrangement.

Months	Dates	Case-1	Case-2
		Persons	Persons
January	8	F	H
	21	H	F
April	8	B	D
	21	D	B
July	8	A	C
	21	E	G
October	8	C	E
	21	G	A

Answer: B

18. Questions

Final Arrangement:

Months	Dates	Persons
January	8	H
	21	F
April	8	D
	21	B
July	8	C
	21	G
October	8	E
	21	A

We have,

- E attends three persons after B, who do not attend in a month with an odd number of days.
- The number of persons attending before E is **one less than** the number of persons attending after H.

From the above conditions, there are two possibilities

Months	Dates	Case-1	Case-2
		Persons	Persons
January	8		H
	21	H	
April	8	B	
	21		B
July	8		
	21	E	
October	8		E
	21		

Again, we have,

- G attends immediately after C.
- Neither G nor C attends in a month which has an even number of days.

Months	Dates	Case-1	Case-2
		Persons	Persons
January	8		H
	21	H	
April	8	B	
	21		B

	21	E	G
October	8	C	E
	21	G	A

Answer: E

21. Questions

Answer: B

I). Some Crystals are Marbles is a possibility - Here, only a few crystals are pebbles and all pebbles are marbles. So, some crystals are marbles is a definite conclusion not a possible conclusion. Hence, the conclusion does not follow.

II). Some pebbles are stones - Here, there is no direct relation between pebbles and stones. So, all the definite conclusions between them are not true. Hence, the conclusion does not follow.

III). All quartz being crystals is a possibility - Here, there is no direct relation between quartz and crystals. So, all the possible conclusions between them are true. Hence, the conclusion follows.

22. Questions

Answer: D

I). No roads are rivers - Here, roads are only associated with tunnels. So, no roads are rivers is a definite conclusion. We can say a definite conclusion in such cases. Hence, the conclusion follows.

II). All tunnels can never be canals - Here, roads are only associated with tunnels. So, all tunnels can never be canals is a definite conclusion. We can say a definite conclusion in such cases. Hence, the conclusion follows.

III). Some Roads being Canals is a possibility - Here, roads are only associated with tunnels. So, some Roads being Canals is a possibility is a definite conclusion. We can not say a definite conclusion in such cases. Hence, the conclusion does not follow.

23. Questions

Answer: A

I). Some Magnets are not Rods - Here, no metals are rods. All magnets which are associated with metals are definitely not connected with rods. Hence, the conclusion follows.

II). No rod is an element - Here, only a few rods are pipes and some pipes are elements. So, some of the rods which are pipes will be elements. Hence, the conclusion does not follow.

III). All Metals can never be elements - Here, no direct relation between metals and elements. So, all the definite conclusions between them are not true. Hence, the conclusion does not follow.

24. Questions

Answer: E

I). No Shield is Armour - Here, shield is only associated with helmet. So, no Shield is armour is a definite conclusion. We can say a definite conclusion in such cases. Hence, the conclusion follows.

II). Some Shields are not Chains - Here, helmet is only associated with shield. So, some shields are not chains is a definite conclusion. We can say a definite conclusion in such cases. Hence, the conclusion follows.

III). All swords can never be helmets - Here, no helmets are swords. So, all swords can never be helmets is a definite conclusion. We can say a definite conclusion in such cases. Hence, the conclusion follows.

25. Questions

Answer: C

I). Some Petals are roots - Here, no direct relation between petals and roots. So, all the definite conclusions between them are not true. Hence, the conclusion does not follow.

II). No roots are petals - Here, no direct relation between roots and petals. So, all the definite conclusions between them are not true. Hence, the conclusion does not follow.

But, by combining both conclusions I and II, we can say either conclusion I or conclusion II follows.

III). Some Seeds are not leaves - Here, no direct relation between seeds and leaves. So, all the definite conclusions between them are not true. Hence, the conclusion does not follow.

26. Questions

Answer: E

$P > A = T \leq M < R; K \geq T > H = L > X; X > Q > N = B \geq C$

Conclusions:

I). $A > B$ ($A = T > H = L > X > Q > N = B$) ☐ True

II). $Q < K$ ($Q < X < L = H < T \leq K$) ☐ True

27. Questions**Answer: B** $F \leq W > J = C \geq A; Y < A = M > D \leq K; R \geq D \geq P = L > T$ **Conclusions:****I). $J > K$ ($J = C \geq A = M > D \leq K$)** ❌ False**II). $P \leq K$ ($K \geq D \geq P$)** ✅ True**28. Questions****Answer: A** $N > V \geq H > B; H > Q = X > S; C \geq S > M = R > J$ **Conclusions:****I). $V \geq X$ ($V \geq H > Q = X$)** ✅ True**II). $C < Q$ ($C \geq S < X = Q$)** ❌ False**29. Questions****Answer: D** $D > U \leq P = F < L; G < K = T > Y \geq R; X \geq U > A = K \leq M$ **Conclusions:****I). $F > K$ ($F = P \geq U > A = K$)** ✅ True**II). $A \geq R$ ($A = K = T > Y \geq R$)** ✅ True**30. Questions****Answer: C** $C \geq N = J < Q > H; W < M = P \geq A; E \leq M < J = R \geq S$ **Conclusions:****I). $A \leq Q$ ($A \leq P = M < J < Q$)** ❌ False**II). $C \geq R$ ($C \geq N = J = R$)** ✅ True**31. Questions****Final arrangement:**

Answer: C

32. Questions

Final arrangement:

Answer: A

33. Questions

Final arrangement:

Answer: E

34. Questions

Final arrangement:

Answer: B

35. Questions

Final arrangement:

Answer: D

36. Questions

Answer: D

Given word: PAINTER

First, second, fifth and seventh letters are - P,A,T,R

Two meaningful word can be formed "TRAP", PART

37. Questions

Answer: D

We have,

4819735268

After interchanging, we get

8625379184

Seventh digit from right end is 5

38. Questions

Answer: E

Third preceding alphabet of every letter

GARDEN

DXOABK

39. Questions

Answer: B

ELEPHANT

Only one pair is formed - P-T.

40. Questions

Answer: C

We have,

6842975318

After dropping odd positioned digits, we get

82738

23788

The third digit from the left end is 7 after arranging in ascending order.
