

1. Questions

Study the following information carefully and answer the given questions

Eight persons viz., A, D, P, L, K, M, N and B - belong to a family of three-generation and are sitting around a square table in such a way that four of them are sitting at the corners and facing the centre while four of them are sitting in the middle of the sides and facing outside (**opposite to the centre**).

Note: Not more than two persons of the same gender sit adjacent to each other.

Only three persons sit between N's sister-in-law and D's grandson. Neither D nor N's father has siblings. N is the paternal aunt of A. K's wife sits third to the right of P's child. Only two persons sit between the one who is the brother-in-law of P and the one who is the only son of D. The number of persons sitting between B's mother-in-law and the one who is niece of B's husband (when counted from the left of B's mother-in-law) is **three more than** the number of persons sitting between L's son's niece and D's son-in-law (when counted from the left of D's son-in-law). Neither B's husband nor K sits adjacent to P's spouse. L is the grandfather of the one who sits to the immediate left of K. P's brother-in-law's child is not facing towards the centre.

Who among the following persons sits opposite to the one who is the niece of D's son?

- a. K's brother-in-law
- b. P's child
- c. N's father
- d. A's cousin
- e. M's mother

2. Questions

Which of the following statement(s) is/are TRUE?

I). Both D and M are immediate neighbours of each other

II). P sits third to the right of the one who sits opposite to M

III). Both K and D are of the same gender

- a. Only II
- b. Only I and III
- c. Only II and III
- d. Only I and II
- e. All I, II and III

@QuizByMickey

3. Questions

Who among the following person sits at the corner of the table?

- a. P's father

- b. L's spouse
- c. K's spouse
- d. N's child
- e. D's son-in-law

4. Questions

Four of the following five are alike in a certain way based on the given arrangement and thus form a group. Which one of the following does not belong to the group?

- a. The one who sits second to the right of L
- b. M
- c. The one who is spouse of P
- d. D
- e. The one who is father of A

5. Questions

How many persons sit between the one who is the son of L and the one who sits to the immediate left of D?

- a. Two
- b. Five
- c. Four
- d. Either a) or c)
- e. Three

6. Questions

Study the following information carefully and answer the given questions

A# B means B is the sister of A

A%B means B is the spouse of A

A@B means B is the brother-in-law or sister-in-law of A

A&B means A is the father of B

A\$B means B is the grandson of A

A*B means A is the brother of B

If D%P&H#C; D\$K%O; H%B@C. If 'C' has no child then how is 'K' related to B's spouse?

- a. Nephew

@QuizByMickey

- b. Son
- c. Father
- d. Mother
- e. Cannot be determined

7. Questions

If $W\#X$; $T\%U\&W$; $F\%E\&U*V$, then how is R related T, If $X\%R$?

- a. Brother-in-law
- b. Grand daughter
- c. Daughter -in- law
- d. Son-in-law
- e. Sister-in-law

8. Questions

If $L\%K\&Y@X\%Z\&I$; $Z\#Y$, then how is Z's child related to L's spouse?

- a. Grandfather
- b. Granddaughter
- c. Grandmother
- d. Grandson
- e. Cannot be determined

9. Questions

Study the following information carefully and answer the given questions

$P\$Q$ means Q is the father of P

$P!Q$ means P is the mother of Q

$P*Q$ means Q is the brother of P

$P\#Q$ means P is the sister of Q

$P@Q$ means Q is the spouse of P

If $A@C\$M*K$; $C!P\#Z$; $C*D$; $L@M$, then how is Z related to D?

- a. Father
- b. Niece
- c. Nephew
- d. Uncle

@QuizByMickey

e. Either b) or c)

10. Questions

If $E@D\#F\$N@C$; $R@M!N$, then how is B related to J, If $N*B$ and $J\#M$?

- a. Father
- b. Uncle
- c. Son
- d. Nephew
- e. Brother

11. Questions

Study the following information carefully and answer the given questions.

Six boxes viz., H, I, J, K, L and M are kept one above another in a stack. It is assumed that no other boxes are kept in the stack other than the given boxes. Each box has different types of vegetables viz., Peas, Leek, Spud, Taro, Corn and Kale.

L and I are kept adjacent to each other. Two boxes are kept between L and the box which has Spud, which is not kept below I. The box which has Corn is kept just above the box which has Spud. As many boxes are kept above the box which has Corn as below the box which has Leek. The number of boxes kept above M is two less than the number of boxes kept below J, where both aren't kept adjacent to each other. H is kept immediately above the box which has Taro. Only one box is kept between H and the box which has Kale. M and K didn't have both Taro and Kale.

Four of the following five are alike in a certain way based on the given arrangement and thus form a group. Which one of the following does not belong to the group?

- a. Box M- Box K
- b. Box J- Box L
- c. Box K- Box H
- d. Box H- Box J
- e. Box L- Box H

@QuizByMickey

12. Questions

Which of the following box has Peas?

- a. Box K
- b. The box which is kept three boxes above Box J
- c. Box I
- d. Box H

e. Box L

13. Questions

Which of the following box is kept three boxes above the box which has Kale?

- a. Box M
- b. The box which has Spud
- c. Box J
- d. Box L
- e. The box which has Leek

14. Questions

Which of the following combinations is/are false as per the final arrangement?

- I). Box J - Taro
 - II). Box L - Leek
 - III). Box K - Spud
- a. Only II
 - b. Only I and III
 - c. Only II and III
 - d. Only III
 - e. All I, II and III

15. Questions

Which box has Corn and which box is kept two boxes above Box I?

- a. Box K, Box H
- b. Box L, Box M
- c. Box M, Box J
- d. Box H, the box which has Taro
- e. Both c) and d)

@QuizByMickey

16. Questions

Study the following information carefully and answer the given questions.

An office has two different teams - Team A and Team B and the office time is from 9.00 am to 6.00 pm. They have different types of works in their office viz., File verification (FV), Outdoor visit, Financial Duties, PPT presentation and Conduct Meetings. Each work hour is either 1 or 2 hours. They also have

three breaks of 1 hour between 10.00 am to 11.00 am for Tea break, 1.00 pm to 2.00 pm for Lunch break and 4.00 pm to 5.00 pm for Snacks break.

Note: Both Team A and Team B follow the same break time.

Team B's PPT presentation was held 240 mins before Team A's Financial duties. The number of hours before Team B's Outdoor visit is the same as the number of hours after Team A's File verification. The time schedule of Team A's Financial duties and Team B's Outdoor visit is same. The number of works done between Team B's Conduct meeting and their Lunch break is two less than the number of works done between Team A's Snack time and Lunch break. Team A takes a Lunch break before their both Outdoor visits and Conduct Meeting. There was a gap of more than 180 minutes between the Team A's Conduct meeting and their Lunch break. Team A's PPT presentation held before at least two breaks. The time gap between Team B's Financial duties and their PPT presentation is not more than 3 hours.

Which of the following work was done by Team A and Team B from 9.00 - 10.00 am respectively?

- a. File verification
- b. PPT presentation
- c. Conduct Meeting
- d. Financial duties
- e. Both b and d

17. Questions

Which of the following work was done by Team B for more than one hour?

- a. File verification
- b. Conduct Meeting
- c. Financial duties
- d. PPT presentation
- e. Both b and c

18. Questions

Which of the following work was done by Team B at last?

@QuizByMickey

- a. File verification
- b. Financial duties
- c. Conduct Meeting
- d. PPT presentation
- e. None of these

19. Questions

Four of the following five are alike in a certain way based on the given arrangement and thus form a group. Which one of the following does not belong to the group?

- Team A's PPT
- Team B's File verification
- Team B's Outdoor Visits
- Team A's Financial Duties
- Team A's Conduct Meeting

20. Questions

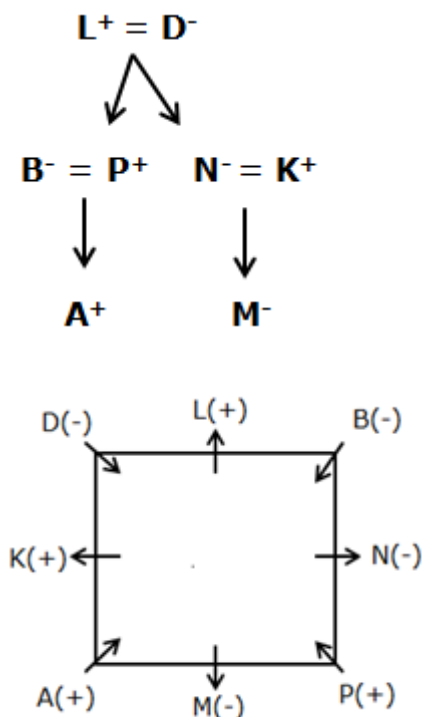

Which of the following time Outdoor Visits were held in Team A?

- 2.00 - 4.00 pm
- 5.00 - 6.00 pm
- 2.00 - 3.00 pm
- 12.00 - 1.00 pm
- None of these

Explanations:

1. Questions

Final Arrangement:

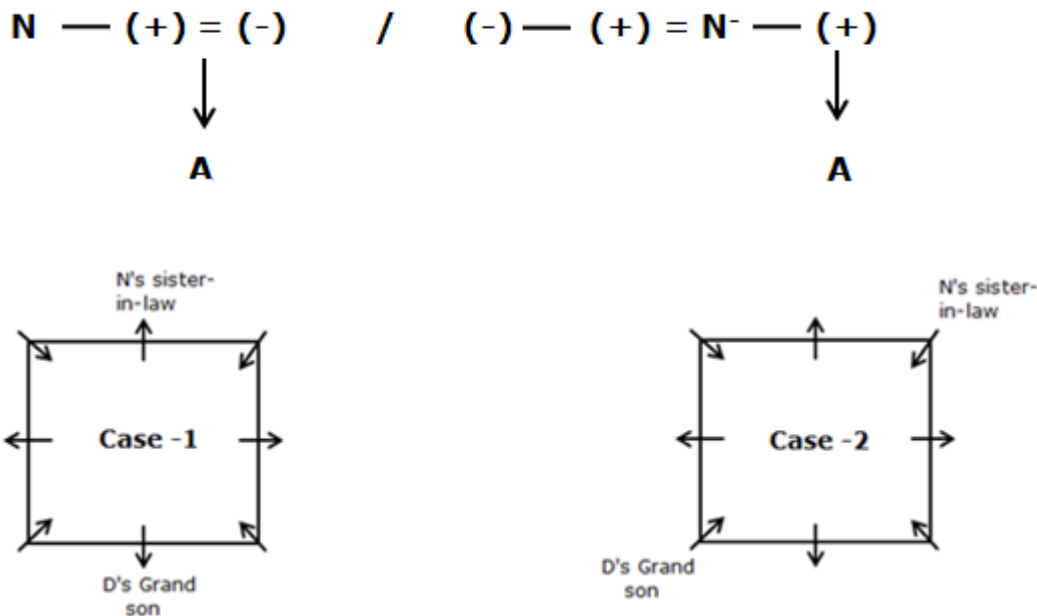

@QuizByMickey

We have,

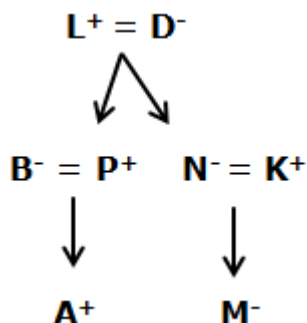

- Only three persons sit between N's sister-in-law and D's grandson.
- Neither D nor N's father has siblings.
- N is the paternal aunt of A.

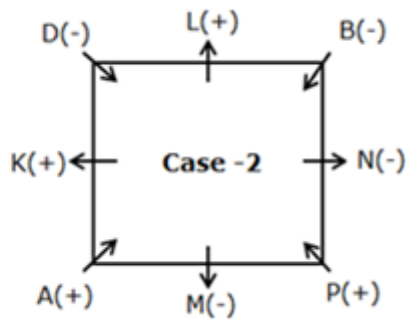

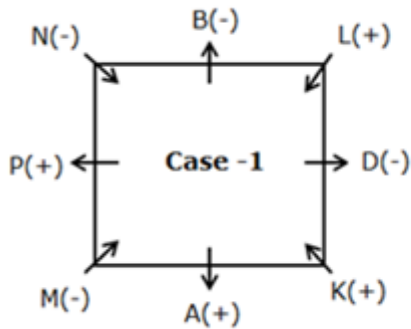

From the above conditions, there are two possibilities

Again, we have

- K's wife sits third to the right of P's child.
- Only two persons sit between the one who is the brother-in-law of P and the one who is the only son of D.
- The number of persons sitting between B's mother-in-law and the one who is niece of B's husband (when counted from the left of B's Mother-in-law) is **three more than** the number of persons sitting between L's son's niece and D's son-in-law (when counted from the left of D's son-in-law).
- Neither B's husband nor K sits adjacent to P's spouse.
- L is the grandfather of the one who sits to the immediate left of K.

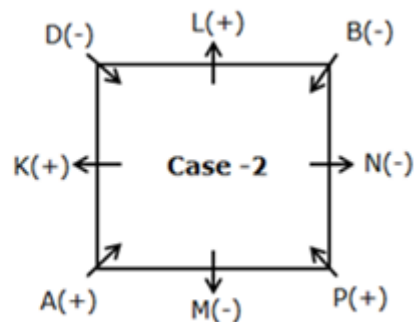

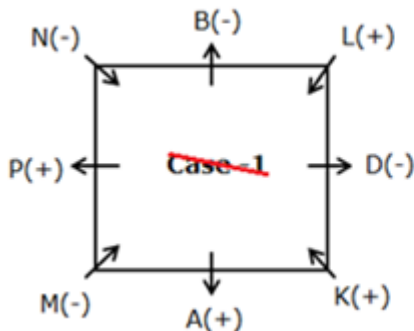

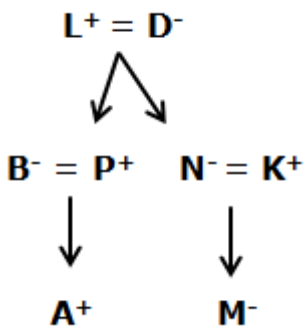

Again, we have

- P's brother-in-law's child is not facing towards the centre.

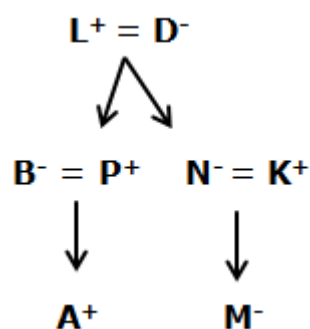

After applying this statement Case 1 gets eliminated because P's brother-in-law's child (M) is not facing towards the centre, which is not satisfied. Hence, Case 2 shows the final arrangement.

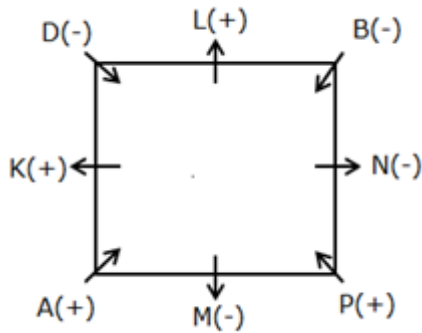

Answer: C

2. Questions

Final Arrangement:

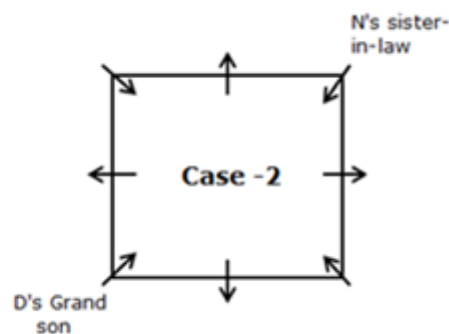

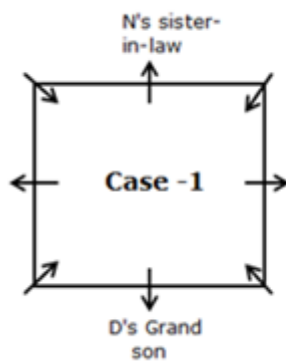

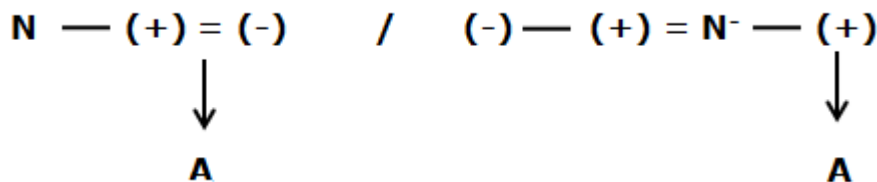

@QuizByMickey

We have,

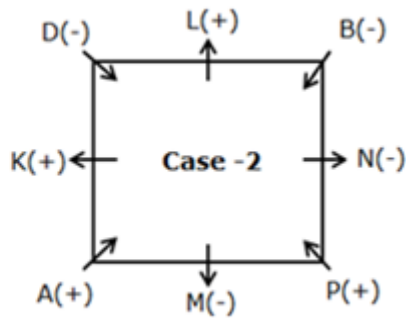

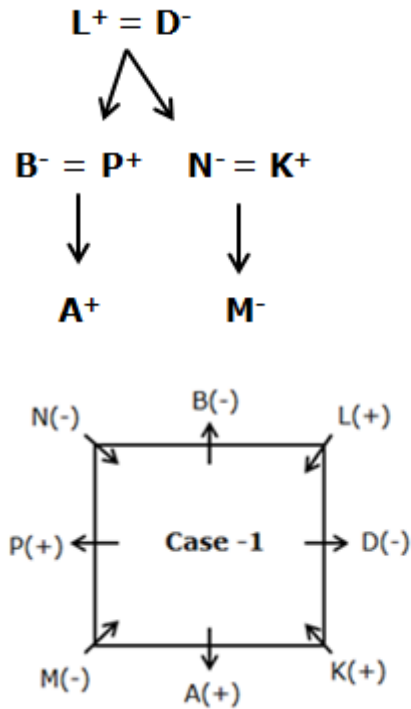

- Only three persons sit between N's sister-in-law and D's grandson.
- Neither D nor N's father has siblings.
- N is the paternal aunt of A.

From the above conditions, there are two possibilities

Again, we have

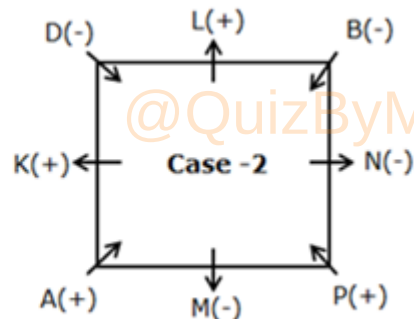

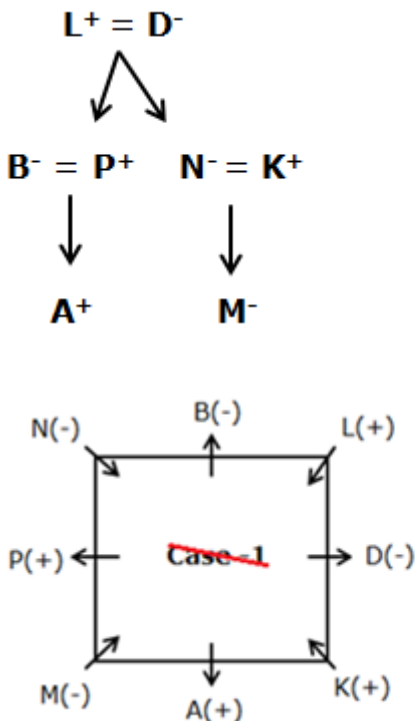

- K's wife sits third to the right of P's child.
- Only two persons sit between the one who is the brother-in-law of P and the one who is the only son of D.
- The number of persons sitting between B's mother-in-law and the one who is niece of B's husband (when counted from the left of B's Mother-in-law) is **three more than** the number of persons sitting between L's son's niece and D's son-in-law (when counted from the left of D's son-in-law).
- Neither B's husband nor K sits adjacent to P's spouse.
- L is the grandfather of the one who sits to the immediate left of K.

Again, we have

- P's brother-in-law's child is not facing towards the centre.

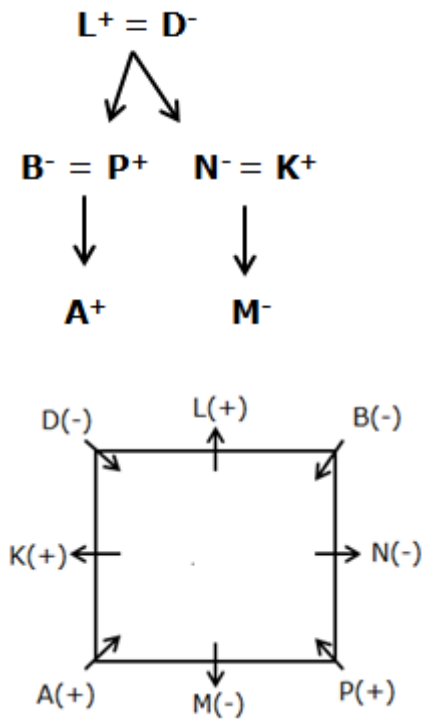

After applying this statement Case 1 gets eliminated because P's brother-in-law's child (M) is not facing towards the centre, which is not satisfied. Hence, Case 2 shows the final arrangement.

Answer: A

3. Questions

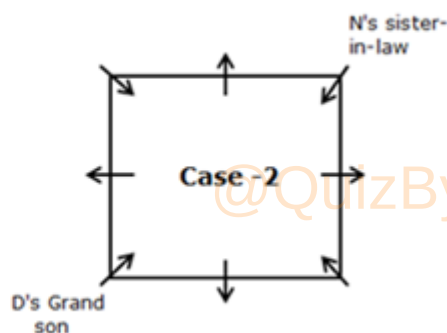

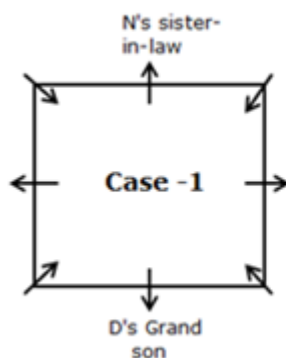

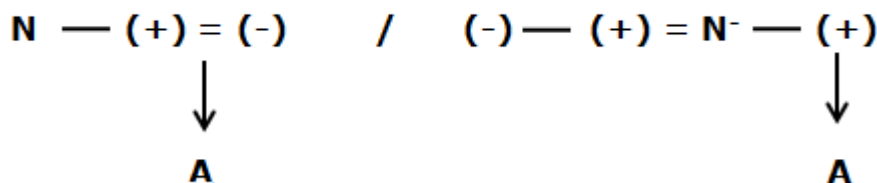

Final Arrangement:

We have,

- Only three persons sit between N's sister-in-law and D's grandson.
- Neither D nor N's father has siblings.
- N is the paternal aunt of A.

From the above conditions, there are two possibilities

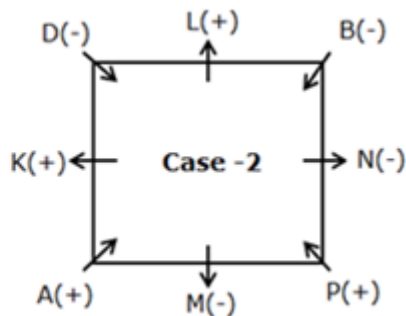

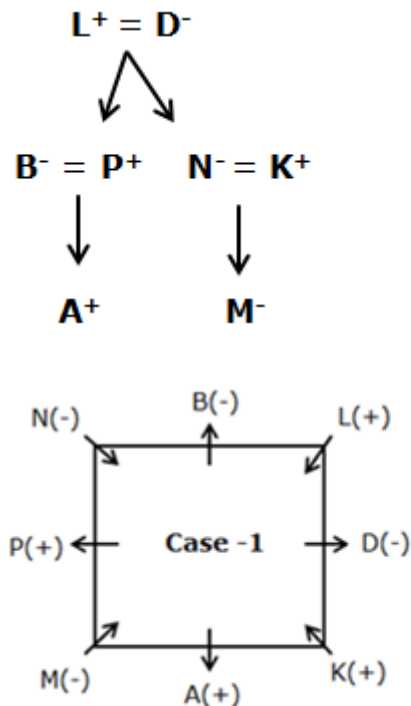

Again, we have

- K's wife sits third to the right of P's child.
- Only two persons sit between the one who is the brother-in-law of P and the one who is the only son of D.
- The number of persons sitting between B's mother-in-law and the one who is niece of B's husband (when counted from the left of B's Mother-in-law) is **three more than** the number of

persons sitting between L's son's niece and D's son-in-law (when counted from the left of D's son-in-law).

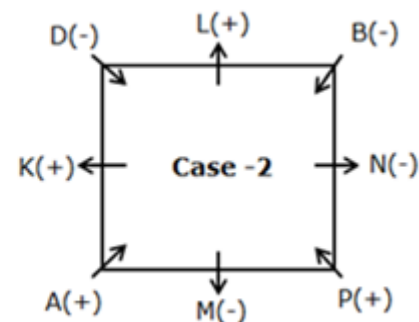

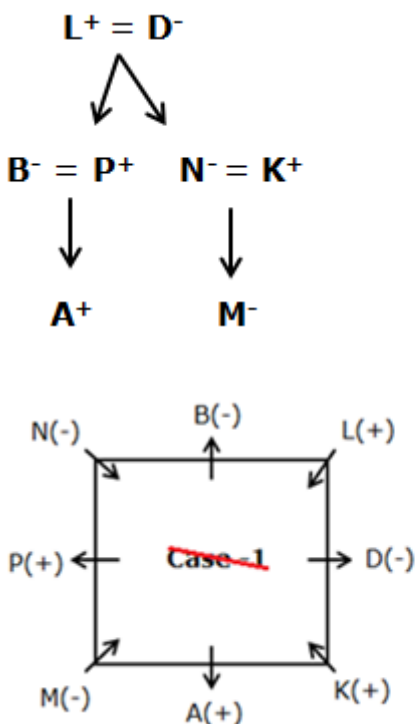

- Neither B's husband nor K sits adjacent to P's spouse.
- L is the grandfather of the one who sits to the immediate left of K.

Again, we have

- P's brother-in-law's child is not facing towards the centre.

After applying this statement Case 1 gets eliminated because P's brother-in-law's child (M) is not facing towards the centre, which is not satisfied. Hence, Case 2 shows the final arrangement.

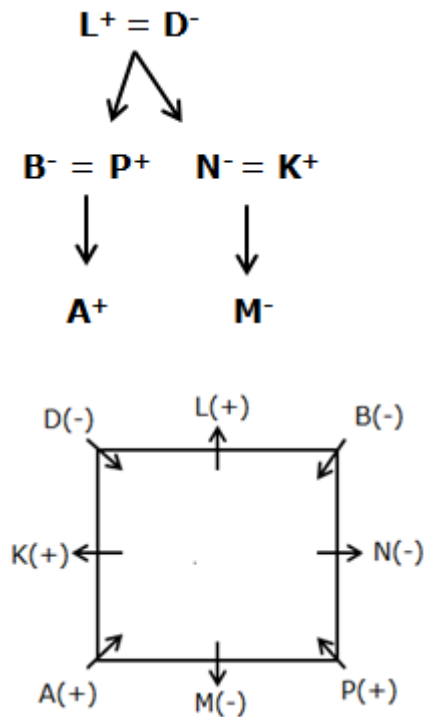

@QuizByMickey

Answer: B

4. Questions

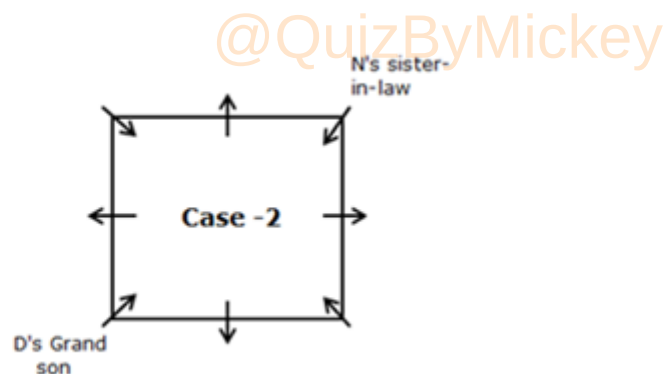

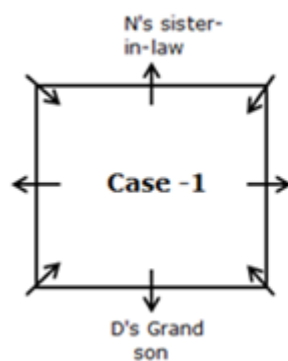

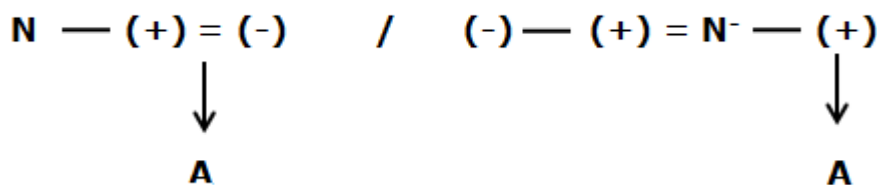

Final Arrangement:

We have,

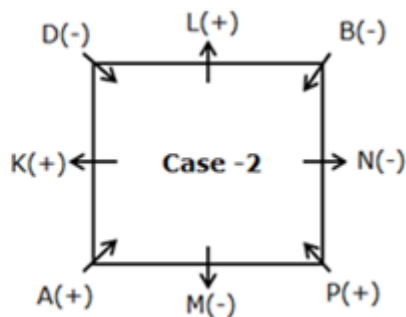

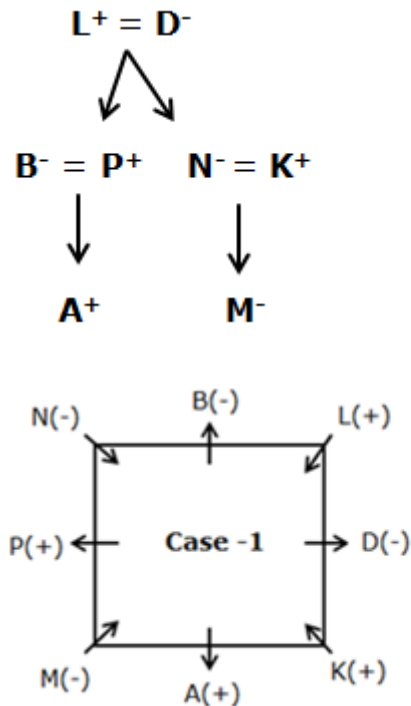

- Only three persons sit between N's sister-in-law and D's grandson.
- Neither D nor N's father has siblings.
- N is the paternal aunt of A.

From the above conditions, there are two possibilities

Again, we have

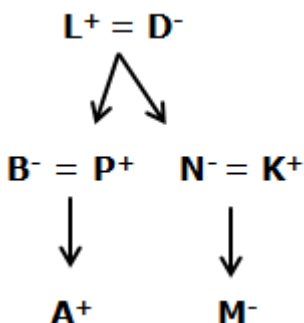

- K's wife sits third to the right of P's child.
- Only two persons sit between the one who is the brother-in-law of P and the one who is the only son of D.
- The number of persons sitting between B's mother-in-law and the one who is niece of B's husband (when counted from the left of B's Mother-in-law) is **three more than** the number of persons sitting between L's son's niece and D's son-in-law (when counted from the left of D's son-in-law).
- Neither B's husband nor K sits adjacent to P's spouse.
- L is the grandfather of the one who sits to the immediate left of K.

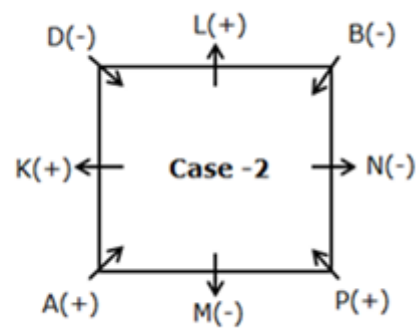

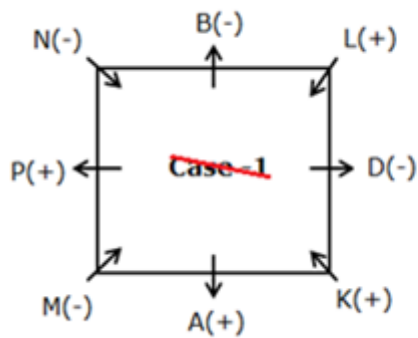

Again, we have

- P's brother-in-law's child is not facing towards the centre.

After applying this statement Case 1 gets eliminated because P's brother-in-law's child (M) is not facing towards the centre, which is not satisfied. Hence, Case 2 shows the final arrangement.

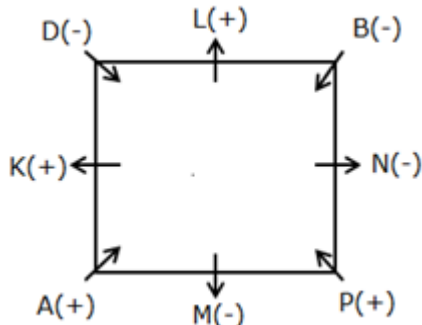

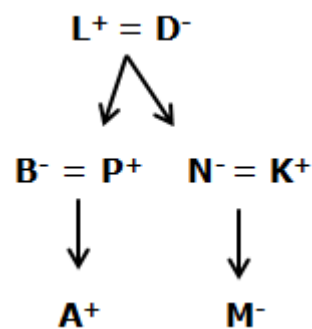

@QuizByMickey

Answer: E (All the persons are female except option E)

5. Questions

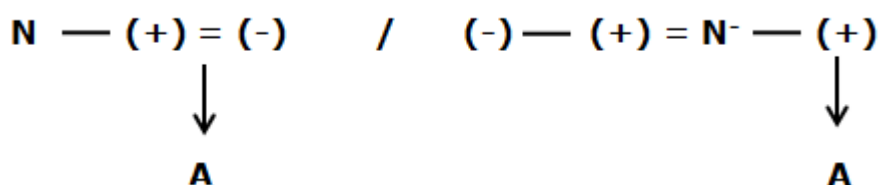

Final Arrangement:

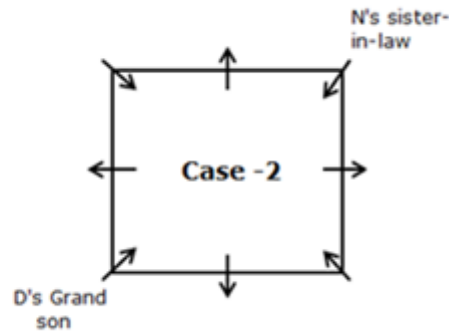

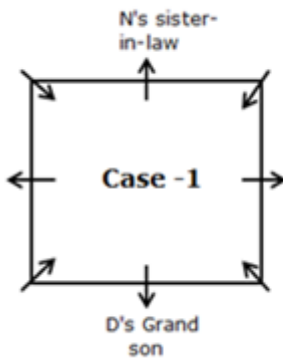

We have,

- Only three persons sit between N's sister-in-law and D's grandson.
 - Neither D nor N's father has siblings.
 - N is the paternal aunt of A.
- @Quiz

From the above conditions, there are two possibilities

Again, we have

- K's wife sits third to the right of P's child.
- Only two persons sit between the one who is the brother-in-law of P and the one who is the only son of D.
- The number of persons sitting between B's mother-in-law and the one who is niece of B's husband (when counted from the left of B's Mother-in-law) is **three more than** the number of persons sitting between L's son's niece and D's son-in-law (when counted from the left of D's son-in-law).
- Neither B's husband nor K sits adjacent to P's spouse.
- L is the grandfather of the one who sits to the immediate left of K.

$$L^+ = D^-$$

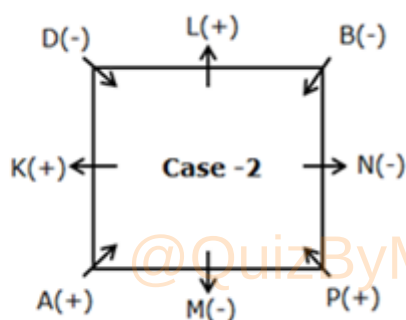

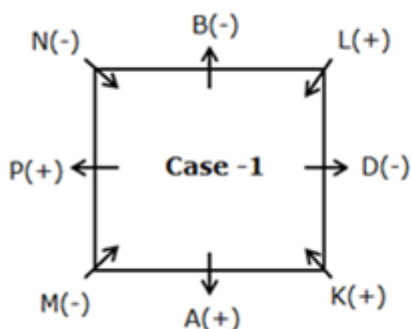

$$B^- = P^+ \quad N^- = K^+$$

$$A^+$$

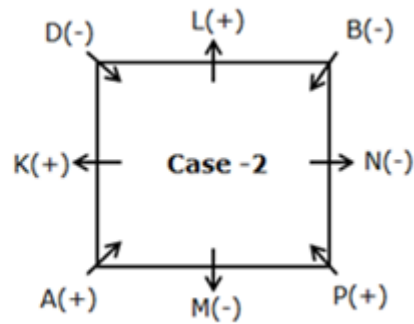

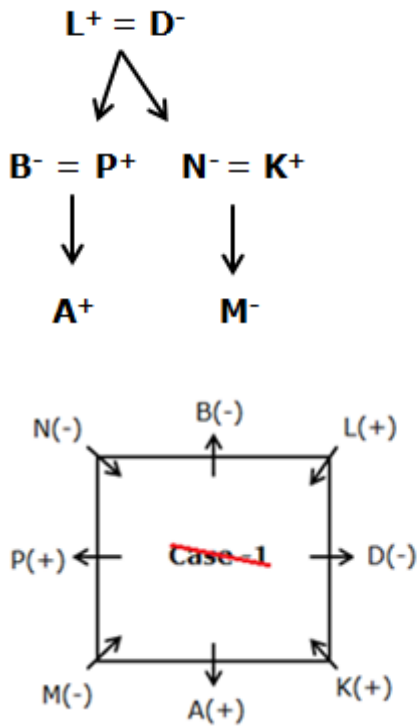

$$M^-$$

Again, we have

- P's brother-in-law's child is not facing towards the centre.

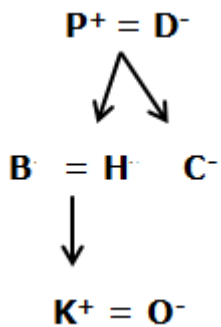

After applying this statement Case 1 gets eliminated because P's brother-in-law's child (M) is not facing towards the centre, which is not satisfied. Hence, Case 2 shows the final arrangement.

Answer: D

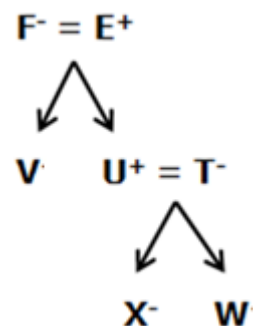

6. Questions

Answer: B

7. Questions

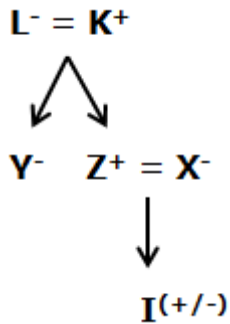

Answer: D

8. Questions

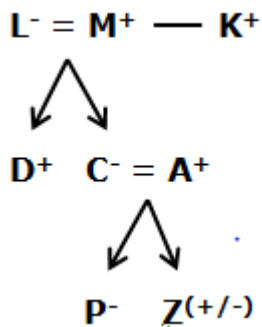

Answer: E

@QuizByMickey

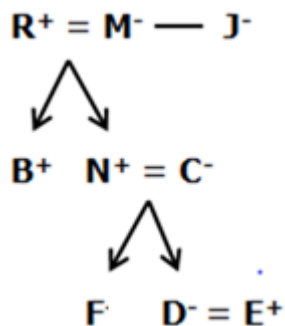

9. Questions

Answer: E

10. Questions

Answer: D

11. Questions

Final arrangement:

Boxes and Vegetables
M (Corn)
K (Spud)
H (Peas)
J (Taro)
L (Kale)
I (Leek)

@QuizByMickey

We have,

- L and I are kept adjacent to each other.
- Two boxes are kept between L and the box which has Spud, which is not kept below I.
- The box which has Corn is kept just above the box which has Spud.

From the above conditions, there are two possibilities

Case-1	Case-2
Boxes and Vegetables	Boxes and Vegetables
(Corn)	(Corn)
(Spud)	(Spud)
	I
L	L
I	

Again, we have

- As many boxes are kept above the box which has Corn as below the box which has Leek.
- The number of boxes kept above M is two less than the number of boxes kept below J, where both aren't kept adjacent to each other.

Case-1	Case-2
Boxes and Vegetables	Boxes and Vegetables
(Corn) M/J	M/J
(Spud)	(Corn)
	(Spud)
M/J	M/J
L	I (Leek)
I (Leek)	L

Again, we have

@QuizByMickey

- H is kept immediately above the box which has Taro.
- Only one box is kept between H and the box which has Kale.
- M and K didn't have both Taro and Kale.

After applying the above conditions, case 2 gets eliminated because M and K didn't have both Taro and Kale, which is not satisfied. Thus, case 1 shows the final arrangement.

Case-1	Case-2
Boxes and Vegetables	Boxes and Vegetables
M (Corn)	M/J (Kale)
K (Spud)	K (Corn)
H (Peas)	H (Spud)
J (Taro)	M/J (Taro)
L (Kale)	I (Leek)
I (Leek)	L (Peas)

Answer: E (All the first box is kept adjacent to the second box, except option e)

12. Questions

Final arrangement:

Boxes and Vegetables
M (Corn)
K (Spud)
H (Peas)
J (Taro)
L (Kale)
I (Leek)

We have,

- L and I are kept adjacent to each other.
- Two boxes are kept between L and the box which has Spud, which is not kept below I.
- The box which has Corn is kept just above the box which has Spud.

From the above conditions, there are two possibilities

@QuizByMickey

Case-1	Case-2
Boxes and Vegetables	Boxes and Vegetables
(Corn)	(Corn)
(Spud)	(Spud)
	I
L	L
I	

Again, we have

- As many boxes are kept above the box which has Corn as below the box which has Leek.
- The number of boxes kept above M is two less than the number of boxes kept below J, where both aren't kept adjacent to each other.

Case-1	Case-2
Boxes and Vegetables	Boxes and Vegetables
(Corn) M/J	M/J
(Spud)	(Corn)
	(Spud)
M/J	M/J
L	I (Leek)
I (Leek)	L

Again, we have

- H is kept immediately above the box which has Taro.
- Only one box is kept between H and the box which has Kale.
- M and K didn't have both Taro and Kale.

After applying the above conditions, case 2 gets eliminated because M and K didn't have both Taro and Kale, which is not satisfied. Thus, case 1 shows the final arrangement.

Case-1	Case-2
Boxes and Vegetables	Boxes and Vegetables
M (Corn)	M/J (Kale)

L (Kale)	I (Leek)
I (Leek)	L (Peas)

@QuizByMickey

Answer: C

16. Questions

Final arrangement:

Duty	Team A	Team B
PPT Presentation	9.00-10.00 am	11.00 am -1.00 pm
Financial Duties	3.00 - 4.00 pm	9.00 - 10.00 am
File Verification	11.00 am - 1.00 pm	5.00 - 6.00 pm
Conduct Meeting	5.00 - 6.00 pm	2.00 - 3.00 pm
Outdoor Visit	2.00 - 3.00 pm	3.00 - 4.00 pm

We have,

- Team B's PPT presentation was held 240 mins before Team A's Financial duties.

From the above conditions, there are two possibilities

Timing	Case-1		Case-2	
	Team A	Team B	Team A	Team B
9.00-10.00 am				
10.00- 11.00 am	Tea	Tea	Tea	Tea
11.00am-12.00pm		PPT (1hr)		PPT (2hrs)
12.00-1.00 pm				
1.00-2.00 pm	Lunch	Lunch	Lunch	Lunch
2.00-3.00 pm				
3.00-4.00 pm	FD		FD	
4-00 -5.00 pm	Snacks	Snacks	Snacks	Snacks
5.00-6.00 pm				

Again, we have

- The number of hours before Team B's Outdoor visit is the same as the number of hours after Team A's File verification.
- The time schedule of Team A's Financial duties and Team B's Outdoor visit is same.
- The number of works done between Team B's Conduct meeting and their Lunch break is two less than the number of works done between Team A's Snack time and Lunch break.

Timing	Case-1		Case-2	
	Team A	Team B	Team A	Team B
9.00-10.00 am				
10.00- 11.00 am	Tea	Tea	Tea	Tea
11.00am-12.00pm	FV	PPT	FV	PPT (2hrs)
12.00-1.00 pm		Meeting/		
1.00-2.00 pm	Lunch	Lunch	Lunch	Lunch
2.00-3.00 pm		Meeting/		Meeting
3.00-4.00 pm	FD	OV	FD	OV
4-00 -5.00 pm	Snacks	Snacks	Snacks	Snacks
5.00-6.00 pm				

Again, we have

- Team A takes a Lunch break before their both Outdoor visits and Conduct Meeting.
- There was a gap of more than 180 minutes between the Team A's Conduct meeting and their Lunch break.
- Team A's PPT presentation held before at least two breaks.
- The time gap between Team B's Financial duties and their PPT presentation is not more than 3 hours.

After applying the above conditions, case 1 gets eliminated because we have one free hour (when Team B's Conduct meeting is scheduled on 12.00-1.00PM, then 2.00-3.00pm in Team B is free hour or if Team B's Conduct Meeting is scheduled on 2-3.00pm, then In case-1 we already take PPT for team B's is 1hr, so we get 12-1.00pm is free hour, this case is also not possible). Thus, case 2 shows the final arrangement.

@QuizByMickey

Timing	Case-1		Case-2	
	Team A	Team B	Team A	Team B
9.00-10.00 am	PPT	FD	PPT	FD
10.00- 11.00 am	Tea	Tea	Tea	Tea
11.00am-12.00pm	FV (2hrs)	PPT (1hr)	FV (2hrs)	PPT (2hrs)
12.00-1.00 pm		Meeting/		
1.00-2.00 pm	Lunch	Lunch	Lunch	Lunch
2.00-3.00 pm	OV	Meeting/	OV	Meeting
3.00-4.00 pm	FD	OV	FD	OV

Answer: E

17. Questions

Final arrangement:

Duty	Team A	Team B
PPT Presentation	9.00-10.00 am	11.00 am -1.00 pm
Financial Duties	3.00 - 4.00 pm	9.00 - 10.00 am
File Verification	11.00 am - 1.00 pm	5.00 - 6.00 pm
Conduct Meeting	5.00 - 6.00 pm	2.00 - 3.00 pm
Outdoor Visit	2.00 - 3.00 pm	3.00 - 4.00 pm

We have,

- Team B's PPT presentation was held 240 mins before Team A's Financial duties.

From the above conditions, there are two possibilities

Timing	Case-1		Case-2	
	Team A	Team B	Team A	Team B
9.00-10.00 am				
10.00- 11.00 am	Tea	Tea	Tea	Tea
11.00am-12.00pm		PPT (1hr)		PPT (2hrs)
12.00-1.00 pm				
1.00-2.00 pm	Lunch	Lunch	Lunch	Lunch
2.00-3.00 pm				
3.00-4.00 pm	FD		FD	
4-00 -5.00 pm	Snacks	Snacks	Snacks	Snacks
5.00-6.00 pm				

Again, we have

- The number of hours before Team B's Outdoor visit is the same as the number of hours after Team A's File verification.
- The time schedule of Team A's Financial duties and Team B's Outdoor visit is same.
- The number of works done between Team B's Conduct meeting and their Lunch break is two less than the number of works done between Team A's Snack time and Lunch break.

@QuizByMickey

Timing	Case-1		Case-2	
	Team A	Team B	Team A	Team B
9.00-10.00 am				
10.00- 11.00 am	Tea	Tea	Tea	Tea
11.00am-12.00pm	FV	PPT	FV	PPT (2hrs)
12.00-1.00 pm		Meeting/		
1.00-2.00 pm	Lunch	Lunch	Lunch	Lunch
2.00-3.00 pm		Meeting/		Meeting
3.00-4.00 pm	FD	OV	FD	OV
4.00 -5.00 pm	Snacks	Snacks	Snacks	Snacks
5.00-6.00 pm				

Again, we have

- Team A takes a Lunch break before their both Outdoor visits and Conduct Meeting.
- There was a gap of more than 180 minutes between the Team A's Conduct meeting and their Lunch break.
- Team A's PPT presentation held before at least two breaks.
- The time gap between Team B's Financial duties and their PPT presentation is not more than 3 hours.

After applying the above conditions, case 1 gets eliminated because we have one free hour (when Team B's Conduct meeting is scheduled on 12.00-1.00PM, then 2.00-3.00pm in Team B is free hour or if Team B's Conduct Meeting is scheduled on 2-3.00pm, then In case-1 we already take PPT for team B's is 1hr, so we get 12-1.00pm is free hour, this case is also not possible). Thus, case 2 shows the final arrangement.

@QuizByMickey

Timing	Case-1		Case-2	
	Team A	Team B	Team A	Team B
9.00-10.00 am	PPT	FD	PPT	FD
10.00- 11.00 am	Tea	Tea	Tea	Tea
11.00am-12.00pm	FV (2hrs)	PPT (1hr)	FV (2hrs)	PPT (2hrs)
12.00-1.00 pm		Meeting/
