

1. Questions

Study the following information carefully and answer the given questions.

A word, symbol and number arrangement machine when given an input line of words and numbers rearranges them following a particular in each step. The following is an illustration of an input and its rearrangement.

Input: Special adopt download hour global royal challenge fertilizers government educated

Step 1: Special royal hour government global fertilizers educated download challenge adopt

Step 2: Specia& roya# hou@ governmen? globaΩ fertilizer\$ educate% downloa% challeng! adop#

Step 3: Spc15& ry16# h36@ gvrnmn25? glb16Ω frtlzr28\$ dct32% dwnl31% chlIng6! dp16#

Step 4: Cps15& ry16# h36@ gmnrv25? bgl16Ω flrtz28\$ cdt32% dlw31% cghlln6! dp16#

Step 5: Cps5& ry6# h18@ gmnrv10? bgl6Ω flrtz16\$ cdt6% dlw3% cghlln6! dp6#

And Step V is the last step of the above input. As per the rules followed in the above steps, find out the appropriate steps for the given input.

Input: Repair dangerous drama stop sustainable journalize pending landscape holidays photography

What is the sum of the numbers in Step 3 of the given input?

- 220
- 218
- 223
- 230
- 198

2. Questions

Which of the following is the final step of the given input?

- blnsst6\$ st5@ pr5Ω ghhpprt3\$ dnnp5& cdlnps2! jlnrz10? dhly10% dmr1# dgrn4!
- blnsst6\$ st5@ pr5Ω ghphprt3\$ dnnp4& cdlnps2! jlnrz10? dhly10% dmr1# dgrn4!
- blnsst6\$ st5@ pr5Ω ghhpprt3\$ dnnp4& cdlnps2! jlnrz10? dhly10% dmr1# dgrn4!
- blnsst6\$ st5@ pr5Ω ghhpprt3\$ dnnp4& cdlnps2! jlnrz24? dhly10% dmr1# dgrn8!
- blnsst6\$ st5@ rp5Ω ghhpprt3\$ dnnp4& cdpnl2! jlnrz10? dlyy10% dmr1# dgrn4!

3. Questions

Which of the following element is third to the right of the second element from the left end in step 4 in the given input?

- a. dgnr42!
- b. blnsst32\$
- c. cdlnps2!
- d. cdt32%
- e. dnnp14&

4. Questions

In which of the following step, the elements “rp15Ω phtgrph31\$ pndn14& lndscp2!” comes in the same order in the given input?

- a. Step 3
- b. Step 4
- c. Step 5
- d. Both a and b
- e. Both b and c

5. Questions

What is the position of “repaio ” with respect to “landscap!” in step 2 in the given input?

- a. Fifth to the left
- b. Third to the left
- c. Third to the right
- d. Second to the left
- e. Fourth to the right

6. Questions

Study the following information carefully and answer the given questions.

Eight persons are sitting in the two parallel rows and face exactly towards each other. In row 1, U, V, W and X are sitting and facing south. In row 2, G, H, I, and J are sitting and facing north. They all had a dream and saw a different lucky sign in their dream viz., Dragon, Elephant, Evil eye, Keys, Pigs, Hamsa, Bamboo and No.7.

I faces V, who sits second to the left of the one who saw Pig. I didn't see Bamboo. As many persons sit to the right of V as to the left of the one who saw Keys. Only one person sits between the one who saw Keys and the one who faces G. W neither saw Dragon and Pig nor faces H. The one who saw No.7 sits immediate right of H. W sits adjacent to the one who faces the one who saw No.7. The number of persons sitting to the right of W is **one more than** the number of persons sitting between the one who saw Bamboo and the one who faces X. J neither faces U nor saw Elephant and Hamsa. U sits adjacent to the one who saw Evil eye. The one who saw Hamsa doesn't sit at the end.

Who among the following person doesn't sit at the end of the rows?

- a. X
- b. W
- c. J
- d. The one who saw No.7
- e. G

7. Questions

Four of the following five are alike in a certain way based on the given arrangement and thus form a group. Which one of the following does not belong to the group?

- a. W – The one who saw no.7
- b. U – The one who saw Dragon
- c. V – The one who saw Hamsa
- d. H – The one who saw Evil eye
- e. I – The one who saw Keys

8. Questions

Who among the following person sits second to the left of the one who faces the one who saw Hamsa?

- a. The one who saw Elephant
- b. V
- c. J
- d. X
- e. The one who saw Bamboo

9. Questions

Who among the following person faces the one who saw No.7?

- a. The one who saw Pig
- b. U
- c. The one who saw Evil eye
- d. W
- e. None of the above

10. Questions

Who among the following person neither sits opposite to H nor is an immediate neighbour of H?

- a. J
- b. I
- c. W
- d. U
- e. Both (b) and (c)

11. Questions

In each of the following questions, two rows of numbers are given. The resultant number in each row is to be worked separately based on the following rules and the questions below the rows and numbers are to be answered. The operations of numbers progress from left to right.

Rules:

- I). If an odd number is followed by an odd number(non prime number), then the highest number is divided by the lowest number and the remainder is added to the lowest number.
- II). If a prime number is followed by an even number, then the multiple of the tenth digit of the prime number with the unit digit of the even number.
- III). If an even number is followed by an odd number, then add all the digits of that both even number and odd number.
- IV). If a perfect cube number is followed by a perfect square number, then the highest number is subtracted from the lowest number.
- V). If an odd number is followed by a prime number, then square the odd number and multiply the prime number with 2 and then add both the numbers.
- VI). If an even number is followed by an even number, then the difference between the second number's third succeeding prime number (As per the numerical series) and the first number's second preceding prime number (as per the numerical series) is taken.

Note: If more than one condition is followed then consider the condition which comes at first.

What is the value of Row Z, where Row Z is the resultant of row 1, row 2 and row 3 respectively?

Row 1- 92 17 38

Row 2- 27 64 46

Row 3- 18 39 51

- a. 11
- b. 35
- c. 22
- d. 12

@QuizByMickey

e. 15

12. Questions

Which of the following statement(s) is/are TRUE with respect to the final resultant of X, Y and Z?

X = 13 29 77

Y = 16 32 53

Z = 8 49 81

I). The value of Z is multiple of the value of Y

II). The L.C.M of Y and Z is 1063

III). The sum of the value of X and Y is a prime number

IV). The difference between the value of X and Z is a multiple of the value of Y

- a. Only II and IV
- b. Only I, II and III
- c. Only II, III and IV
- d. Only I and III
- e. Only III

13. Questions

Find the value of Z, where Z is the sum of the resultant of Row 1, Row 2 and Row 3?

Row 1: 36 34 83

Row 2: 25 11 21

Row 3: 17 24 48

- a. 112
- b. 115
- c. 120
- d. 147
- e. 113

@QuizByMickey

14. Questions

Find the value of $(X+Y)/Z$, where Z is the sum of the resultant of the Row 1 and Row 2, where Y is the resultant of the first row and X is the resultant of the third row?

Row 1: X 58 66

Row 2: 47 32 Y

Row 3: 10 36 87

- a. 28/33
- b. 59/66
- c. 27/33
- d. 15/22
- e. 17/13

15. Questions

What are the values of G and X, where G is 15 more than the product of the resultants of Row 1 and Row 3, and X is twice the resultant of Row 2?

Row 1: 5 13 45**Row 2: 125 36 15****Row 3: 74 35 35**

- a. 1317, 39
- b. 1800, 58
- c. 429, 37
- d. 324, 30
- e. 1431, 29

16. Questions

Statement: Biologist – The recent reports claiming that the Blue-Spotted Salamander still exists are incorrect. The destruction of its wetland habitat due to urban expansion led to the species' gradual disappearance. Despite ongoing research, no verifiable evidence, such as eggs, shed skin, or live specimens, has been found. Although there have been occasional unverified sightings, the Blue-Spotted Salamander is now extinct.

Which one of the following is the conclusion on which the biologist's statement depends?

- a. Urban expansion directly caused the extinction of the Blue-Spotted Salamander
- b. Every researcher in the salamander's habitat has searched extensively for proof of its existence
- c. The Blue-Spotted Salamander did not migrate to another wetland and adapt to new environmental conditions
- d. People who reported sightings of the salamander are unreliable sources of information
- e. None of the above

17. Questions

Statement: Ornithologist – The suggestion that the Golden-Crested Falcon is still alive is baseless.

Logging and habitat destruction have wiped out its nesting grounds, leading to its disappearance. Extensive surveys have failed to uncover nests, feathers, or confirmed sightings. Although a few birdwatchers claim to have spotted it, no solid evidence supports its continued existence.

Which one of the following is the conclusion on which the ornithologist's statement depends?

- a. Habitat destruction was the sole reason for the extinction of the Golden-Crested Falcon
- b. Every expert researching the falcon has carefully searched for evidence
- c. The Golden-Crested Falcon did not relocate to an undiscovered area where it could survive
- d. Birdwatchers who reported sightings of the falcon were mistaken
- e. None of the above

18. Questions

Raindrops act as natural prisms that bend (refract), disperse, and reflect sunlight to form a rainbow. When light enters a raindrop, it slows down and separates into different colors due to dispersion. The light reflects inside the droplet and refracts again as it exits, producing a spectrum of colors in a specific order—red, orange, yellow, green, blue, indigo, and violet (ROYGBIV). This process occurs when the sun is behind the observer and rain is present in front. The visibility and brightness of a rainbow depend on the size and density of raindrops.

Which of the following does NOT support the statement?

- a. A rainbow can be seen at any time, even in the absence of sunlight and rain
- b. The order of colors in a rainbow is determined by the bending of different wavelengths of light
- c. A rainbow is visible when light is refracted, dispersed, and reflected inside raindrops
- d. The intensity of a rainbow depends on the presence of sufficient water droplets in the atmosphere
- e. None of these

19. Questions

A: Regular exercise is crucial for maintaining physical and mental health. It helps in weight management and improves overall fitness levels. Engaging in exercise strengthens muscles and bones, reducing the risk of injuries. Physical activity boosts cardiovascular health and improves blood circulation. Exercise releases endorphins, which help reduce stress and anxiety. It enhances sleep quality and increases energy levels throughout the day. Regular movement promotes longevity and a better quality of life.

R: Exercise plays a vital role in keeping the body and mind healthy. Cardio workouts, such as running and cycling, improve heart health and lung capacity. Strength training helps in muscle building, metabolism regulation, and joint protection. Regular exercise reduces the risk of lifestyle diseases such as diabetes, hypertension, and obesity. It enhances brain function, improving memory, concentration, and cognitive abilities. Exercise also aids in digestion and improves gut health by promoting proper metabolism. Thus, a physically active lifestyle ensures better well-being and long-term health benefits.

Which of the following is correct?

- a. Both A and R are true, and R is the correct explanation of A
- b. Both A and R are true, but R is not the correct explanation of A
- c. A is true, but R is false
- d. A is false, but R is true
- e. Both A and R are false

20. Questions

Social media platforms have revolutionized communication by enabling instant sharing of information, global connectivity, and business growth. However, they have also contributed to misinformation, cyberbullying, privacy breaches, and mental health issues. Governments and organizations face challenges in regulating harmful content without restricting freedom of speech. While some advocate for stricter regulations to curb these issues, others argue that excessive control may lead to censorship and suppression of free expression.

Which of the following arguments are strong?

- I).** Yes, social media should be strictly regulated to prevent the spread of misinformation, hate speech, and cybercrimes that can harm individuals and society.
- II).** Yes, unchecked social media usage negatively impacts mental health, especially among teenagers, making stringent controls necessary.
- III).** No, imposing strict regulations on social media could limit freedom of speech and hinder open discussions on important social and political issues.
- IV).** No, instead of strict regulations, efforts should be focused on digital literacy programs and AI-based moderation tools to ensure responsible social media use.

Options:

- a. If only arguments I and II are strong
- b. If only arguments III and IV are strong
- c. If either arguments I and II or arguments III and IV are strong
- d. If both arguments I, II, III, and IV are strong
- e. If neither of the arguments is strong

@QuizByMickey

Explanations:

1. Questions

Step 1: All the words are arranged in dictionary order from right to left end.

Step 2: The last letter of each word is replaced by a symbol based on the total number of letters in the word i.e., @ for 4 letter words, # for 5 letter words, Ω for 6 letter words, & for 7 letter words, % for 8 letter words, ! for 9 letter words, ? for 10 letter words and \$ for 11 letter words.

Step 3: Then, the place values of all the vowels(as per the English alphabetical order) are added and placed immediately before the symbol.

Step 4: All the consonants are arranged in an alphabetical order within the word from left to right end.

Step 5: The product of the digits within the word is taken and all the consonants and the symbols remain constant.

Input: Repair dangerous drama stop sustainable journalize pending landscape holidays photography

Answer: B

6. Questions

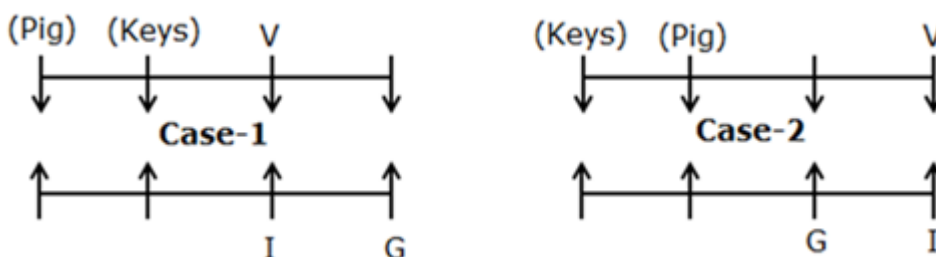

Final arrangement:

We have,

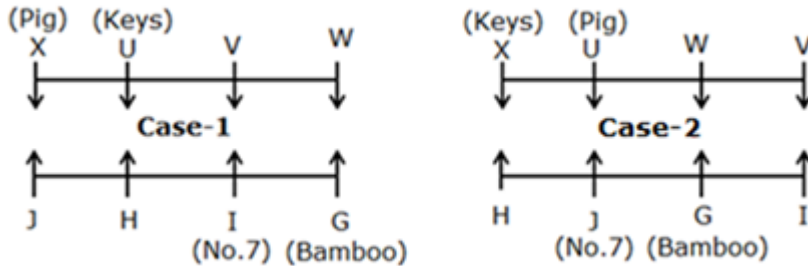

- I faces V, who sits second to the left of the one who saw Pig.
- As many persons sit to the right of V as to the left of the one who saw Keys.
- Only one person sits between the one who saw Keys and the one who faces G.

From the above conditions, there are two possibilities

Again, we have

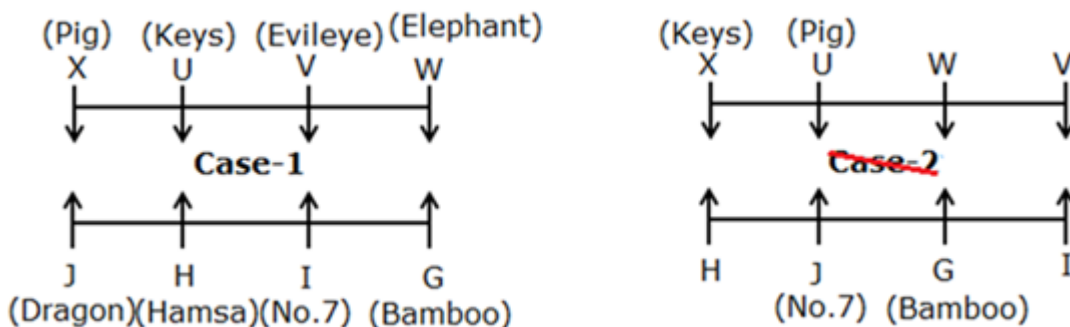

- W neither saw Dragon and Pig nor faces H.
- The one who saw No 7 sits immediate right of H.
- W sits adjacent to the one who faces the one who saw No 7.
- The number of persons sitting to the right of W is **one more than** the number of persons sitting between the one who saw Bamboo and the one who faces X.
- I didn't see Bamboo.

Again, we have

- J neither faces U nor saw Elephant and Hamsa.
- U sits adjacent to the one who saw Evil eye.
- The one who saw Hamsa doesn't sit at the end.

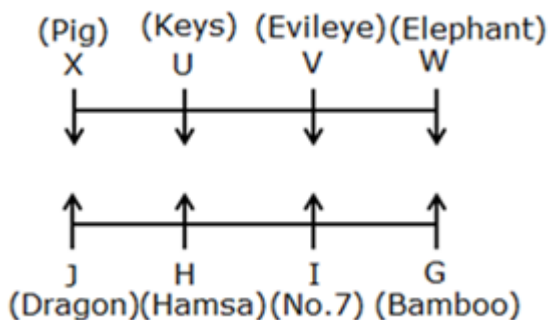

After applying these above conditions, case 2 gets eliminated because J doesn't faces U, which is not satisfied. Hence, case 1 shows the final arrangement.

Answer: D

7. Questions

Final arrangement:

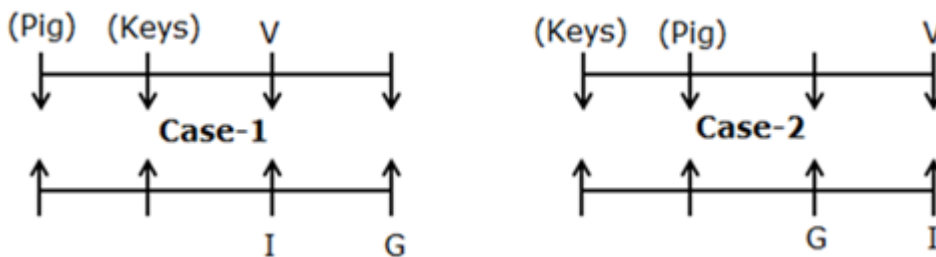

@QuizByMickey

We have,

- I faces V, who sits second to the left of the one who saw Pig.
- As many persons sit to the right of V as to the left of the one who saw Keys.

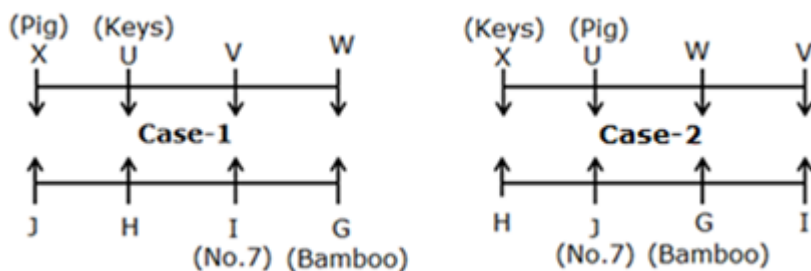

- Only one person sits between the one who saw Keys and the one who faces G.

From the above conditions, there are two possibilities

Again, we have

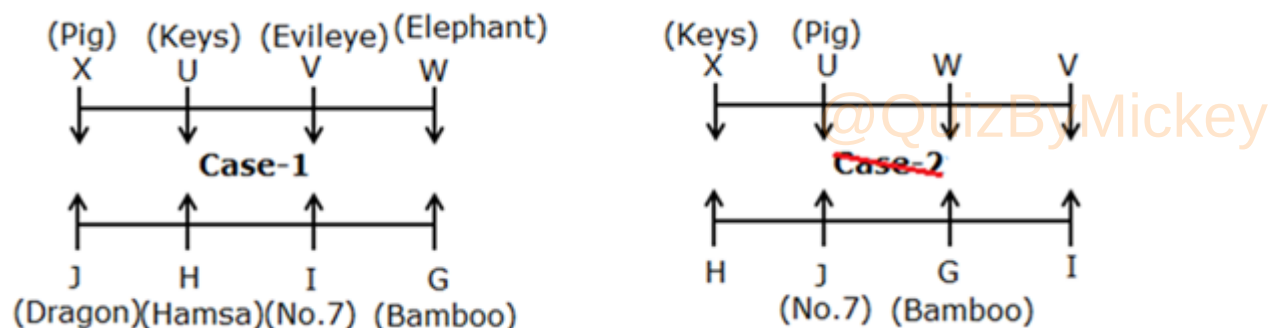

- W neither saw Dragon and Pig nor faces H.
- The one who saw No 7 sits immediate right of H.
- W sits adjacent to the one who faces the one who saw No 7.
- The number of persons sitting to the right of W is **one more than** the number of persons sitting between the one who saw Bamboo and the one who faces X.
- I didn't see Bamboo.

Again, we have

- J neither faces U nor saw Elephant and Hamsa.
- U sits adjacent to the one who saw Evil eye.
- The one who saw Hamsa doesn't sit at the end.

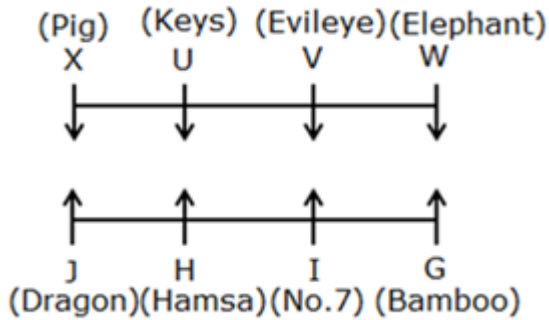

After applying these above conditions, case 2 gets eliminated because J doesn't faces U, which is not satisfied. Hence, case 1 shows the final arrangement.

Answer: E (the first person sits immediate left of the one who sits opposite to the second person except option e)

8. Questions

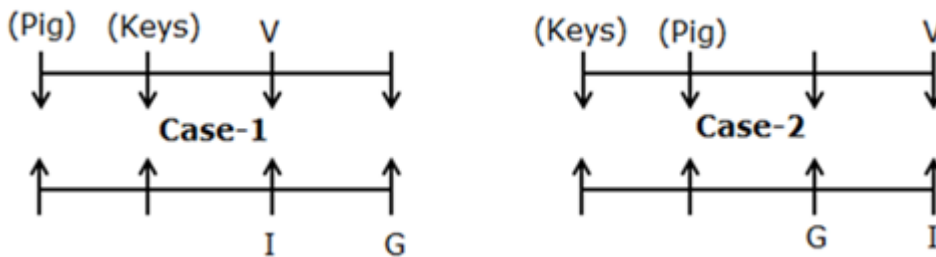

Final arrangement:

We have,

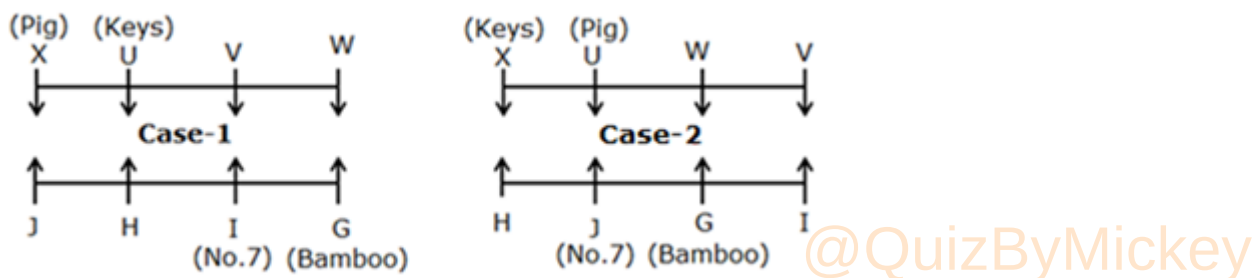

- I faces V, who sits second to the left of the one who saw Pig.
- As many persons sit to the right of V as to the left of the one who saw Keys.
- Only one person sits between the one who saw Keys and the one who faces G.

From the above conditions, there are two possibilities

Again, we have

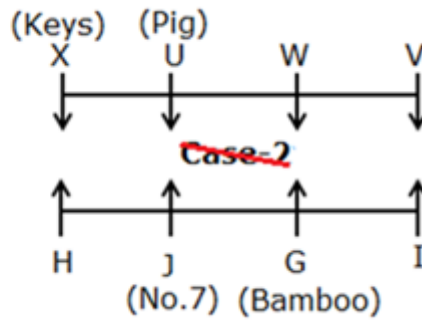

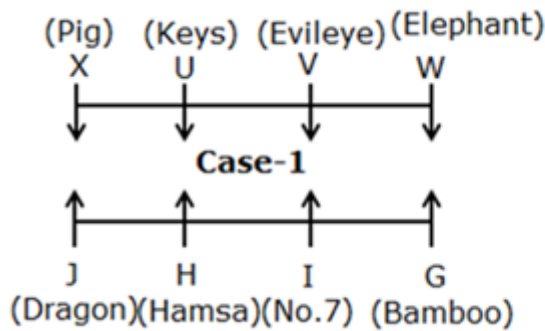

- W neither saw Dragon and Pig nor faces H.
- The one who saw No 7 sits immediate right of H.
- W sits adjacent to the one who faces the one who saw No 7.
- The number of persons sitting to the right of W is **one more than** the number of persons sitting between the one who saw Bamboo and the one who faces X.
- I didn't see Bamboo.

Again, we have

- J neither faces U nor saw Elephant and Hamsa.
- U sits adjacent to the one who saw Evil eye.
- The one who saw Hamsa doesn't sit at the end.

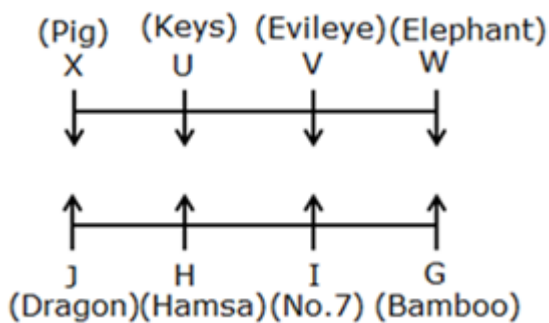

After applying these above conditions, case 2 gets eliminated because J doesn't faces U, which is not satisfied. Hence, case 1 shows the final arrangement.

Answer: A

9. Questions

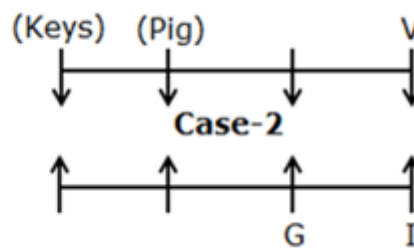

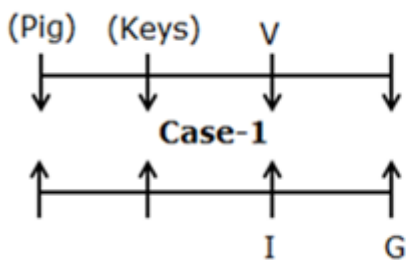

Final arrangement:

We have,

- I faces V, who sits second to the left of the one who saw Pig.
- As many persons sit to the right of V as to the left of the one who saw Keys.
- Only one person sits between the one who saw Keys and the one who faces G.

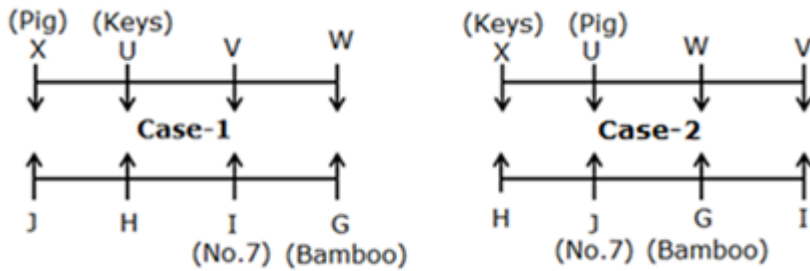

From the above conditions, there are two possibilities

Again, we have

@QuizByMickey

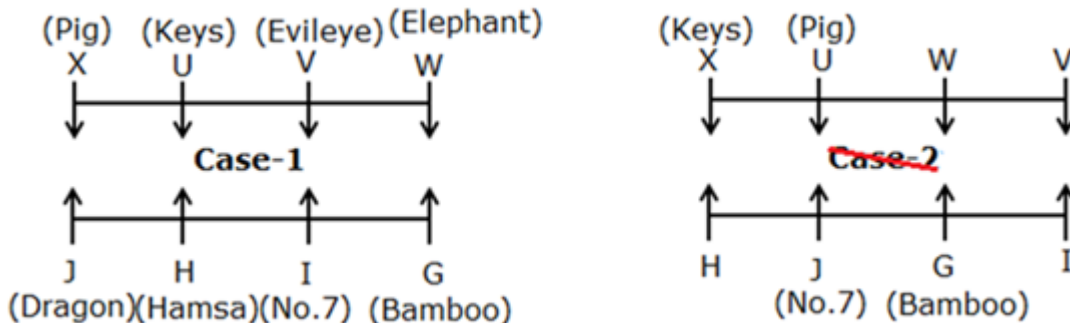

- W neither saw Dragon and Pig nor faces H.
- The one who saw No 7 sits immediate right of H.
- W sits adjacent to the one who faces the one who saw No 7.
- The number of persons sitting to the right of W is **one more than** the number of persons sitting between the one who saw Bamboo and the one who faces X.
- I didn't see Bamboo.

Again, we have

- J neither faces U nor saw Elephant and Hamsa.
- U sits adjacent to the one who saw Evil eye.
- The one who saw Hamsa doesn't sit at the end.

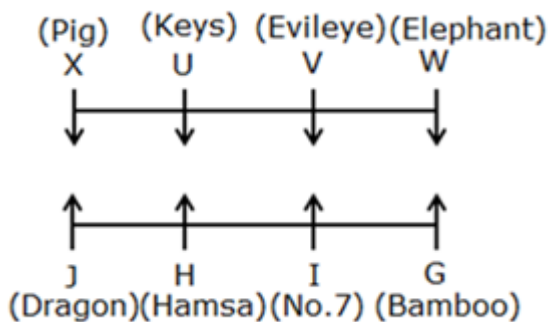

After applying these above conditions, case 2 gets eliminated because J doesn't faces U, which is not satisfied. Hence, case 1 shows the final arrangement.

Answer: C

10. Questions

Final arrangement:

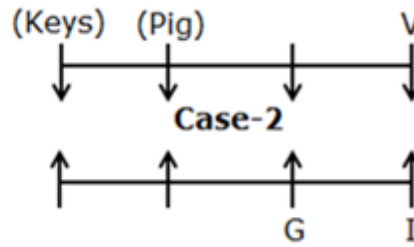

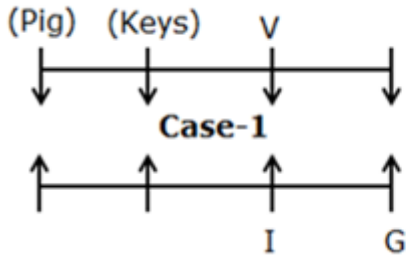

@QuizByMickey

We have,

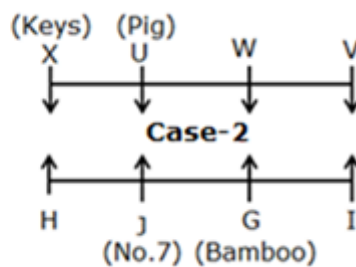

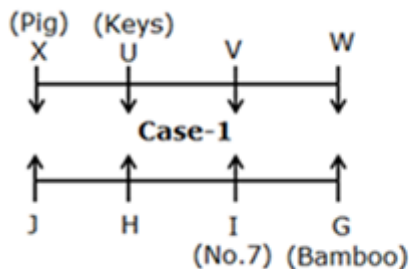

- I faces V, who sits second to the left of the one who saw Pig.
- As many persons sit to the right of V as to the left of the one who saw Keys.
- Only one person sits between the one who saw Keys and the one who faces G.

From the above conditions, there are two possibilities

Again, we have

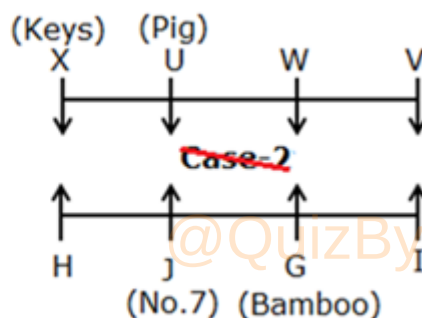

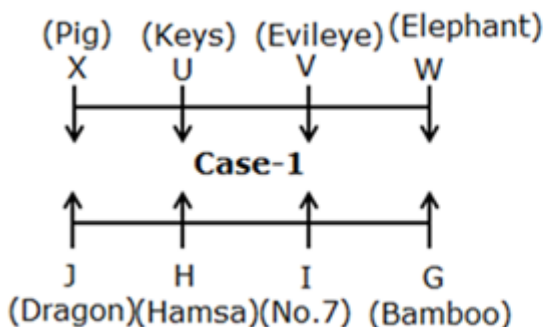

- W neither saw Dragon and Pig nor faces H.
- The one who saw No 7 sits immediate right of H.
- W sits adjacent to the one who faces the one who saw No 7.

- I didn't see Bamboo.

Again, we have

- J neither faces U nor saw Elephant and Hamsa.
- U sits adjacent to the one who saw Evil eye.
- The one who saw Hamsa doesn't sit at the end.

After applying these above conditions, case 2 gets eliminated because J doesn't faces U, which is not satisfied. Hence, case 1 shows the final arrangement.

Answer: C

11. Questions

Answer: C

Row 1: 92 17 38

Row 2: 27 64 46

Row 3: 18 39 51

Row 1:

From condition III: $92\ 17\ (9+2+1+7) = 19$

From condition II: $19\ 38\ (1*8) = 8$

Row 2:

From condition IV: $27\ 64\ (64-27) = 37$

From condition II: $37\ 46\ (3*6) = 18$

Row 3:

From condition III: $18\ 39\ (1+8+3+9) = 21$

From condition I: $21\ 51\ (\text{Remainder } 9 \rightarrow (21+9) = 30$

Row Z: 8 18 30

From condition VI: $8\ 18\ (29-5) = 24$

From condition VI: $24\ 30\ (41-19) = 22$

12. Questions

Answer: D

X = 13 29 77

Y = 16 32 53

Z = 8 49 81

X:

From condition V: $13\ 29\ (13^2+29*2) = 227$

From condition I: $227\ 77\ (\text{Remainder is } 73 \rightarrow 77+73) = 150$

Y:

From condition VI: $16\ 32\ (43-11) = 32$

From condition III: $32\ 53\ (3+2+5+3) = 13$

Z:

From condition III: $8\ 49\ (8+4+9) = 21$

From condition I: $21\ 81\ (\text{Remainder is } 18 \rightarrow 18+21) = 39$

13. Questions

Answer: E

Row 1: 36 34 83

Row 2: 25 11 21

@QuizByMickey

Row 3: 17 24 48

Row 1:

From condition VI: $36\ 34\ (43-29) = 14$

From condition III: $14\ 83\ (1+4+8+3) = 16$

Row 2:

From condition V: $25\ 11\ (625+22) = 647$

From condition I: $647\ 21\ (\text{Remainder is } 17 \rightarrow 17+21) = 38$

Row 3:

From condition II: $17\ 24\ (1*4) = 4$

From condition VI: $4\ 48\ (61-2) = 59$

Row 1+Row 2+ Row 3 = $16+38+59 = 113$

14. Questions

Answer: A

Row 1: X 58 66

Row 2: 47 32 Y

Row 3: 10 36 87

Row 3:

From condition VI: $10\ 36\ (43-5) = 38$

From condition III: $38\ 87\ (3+8+8+7) = 26$

X=26

Row 1:

From condition VI: $26\ 58\ (67-19) = 48$

From condition VI: $48\ 66\ (73-43) = 30$

Y=30

Row 2:

From condition II: $47\ 32\ (4*2) = 8$

From condition I: $8\ 30\ (41-5) = 36$

$Z = \text{Row 1} + \text{Row 2} = 30 + 36 = 66$

$X = 26$

$Y = 30 \rightarrow 56/66 = 28/33$

15. Questions

@QuizByMickey

Answer: B

Row 1: 5 13 45

Row 2: 125 36 15

Row 3: 74 35 35

Row 1:

From condition V: $5 \ 13 \ (25+26) = 51$

From condition I: $51 \ 45 \ (\text{Remainder is } 6 \rightarrow 45+6) = 51$

Row 2:

From condition IV: $125 \ 36 \ (125-36) = 89$

From condition I: $89 \ 15 \ (\text{Remainder is } 14 \rightarrow 14+15) = 29$

Row 3:

From condition III: $74 \ 35 \ (7+4+3+5) = 19$

From condition I: $19 \ 35 \ (\text{Remainder } 16 \rightarrow 19+16) = 35$

$G = 15 + (51 \times 35) = 1800$

$X = 2 \times 29 = 58$

16. Questions

Answer: C

If the salamander had migrated to another habitat, the claim of its extinction would be false. The argument assumes that it did not move and adapt elsewhere.

17. Questions

Answer: C

The ornithologist's argument concludes the falcon is extinct based on the lack of evidence of its existence in its known habitat. This reasoning is only valid if there is no other logical explanation for the lack of evidence. A primary alternative explanation would be that the falcon moved to a different, undiscovered area. Therefore, to conclude that the falcon is gone, the ornithologist must assume that relocation to a new, unknown habitat did not occur.

@QuizByMickey

18. Questions

Answer: A

A rainbow requires both sunlight and water droplets to form. Since option C suggests that a rainbow can appear without these essential conditions, it contradicts the given statement, making it the correct answer. Options C, B, and D correctly explain aspects of rainbow formation.

19. Questions

Answer: A

Both A and R are true, and R is the correct explanation of A.

20. Questions

Answer: D

Arguments **I and II** are strong because social media can spread misinformation, promote cyberbullying, and negatively impact mental health, justifying the need for regulation.

Arguments **III and IV** are also strong because excessive control could violate freedom of speech, and alternative solutions like digital literacy and AI moderation could be more effective than outright restrictions.

Thus, all four arguments hold validity, making option **D** the correct answer.
