

1. Questions

Read the following information carefully and answer the questions given below.

“A@B(20)” means A is 10m north of B.

“A#B(16)” means A is 8m east of B.

“A%B(24)” means A is 12m south of B.

“A&B(12)” means A is 6m west of B.

“A\$B(18)” means A is 9m north-east of B.

“A*B(10)” means A is 5m south-west of B.

Conditions:

A#B(20), B@C(48), C&D(10), D%F(48), F\$E(26), E&G(20)

What is the position of D with respect to E as per the final arrangement?

- a. South-east
- b. North-east
- c. South
- d. East
- e. None of these

2. Questions

What is the position of E with respect to A according to the final arrangement?

- a. North-west
- b. South-west
- c. North-east
- d. South-east
- e. None of these

@QuizByMickey

3. Questions

If B moves 10m towards the west and then 12m towards the south, then what is the position of B with respect to G, after the rearrangement?

- a. North-east
- b. South-west
- c. North
- d. West

e. None of these

4. Questions

Study the following information carefully and answer the below questions

A % B means A is north of B

A # B means A is south of B

A @ B means A is west of B

A & B means A is east of B

A %&B means A is north-east of B

A %@ B means A is north-west of B

A #& B means A is south-east of B

A #@ B means A is south-west of B

A*B means A is 5m from B

A?B means A is 6m from B

A!B means A is 7m from B

A^B means A is 13m from B

Point U is to the north of Point X, which is 7m to the east of Point Y, which is 5m to the south of Point Z

I). P* @X

II). Q? %Z

III). R? %Q

IV). S! #T

V). U? @T

VI). U^% &P

What is the direction of Q with respect to X according to the final arrangement?

- a. East
- b. North-West
- c. North-East
- d. South
- e. South-West

5. Questions

What is the shortest distance between U and R based on the final arrangement?

- a. $\sqrt{70}$ m
- b. $\sqrt{62}$ m
- c. $\sqrt{69}$ m
- d. $\sqrt{74}$ m
- e. None of these

6. Questions

Study the following information carefully and answer the given questions.

The family consists of thirteen members - A, D, G, H, K, M, N, O, P, R, S, T, V, who belong to four generations. They live on thirteen different floors of a building. The bottom most floor is numbered as 1 and the top most floor is numbered as 13. All the given information is not necessarily in the same order. No single parent has a child.

The person who lives on the exact middle floor is the spouse of N, who lives on an even-numbered floor above the eighth floor. The one who lives on the topmost floor is the brother of R, who lives immediately above S. K lives immediately below his wife. P is the mother of two daughters. Neither N nor R is married to P. The number of persons living above N is **one less than** the number of persons living below M, who is the only sister of T. More than seven persons live between S and A, who do not live on the bottommost floor. R is the father-in-law of D and lives above M. N, who is the grandfather of V, is the only son of S. Neither D nor K has siblings. G lives immediately above M and is the only sister of O. T is the daughter of K, who is the brother-in-law of N. O lives immediately below T and is married to A. The gender of V and O is the same. A is the wife of T's cousin. Neither O nor K lives on the bottommost floor. T lives below P but above V. Not more than three persons live between K and M.

Who among the following persons lives immediately below the wife of O?

- a. T
- b. D's daughter
- c. M
- d. A's son
- e. P

7. Questions

How many persons live between the floors of R and K?

- a. As many persons live between V and T
- b. As many persons live between M and P
- c. As many persons live between S and N
- d. As many persons live between K and G
- e. As many persons live between O and N

@QuizByMickey

8. Questions

What is the relation between N and T based on the final arrangement?

- a. Uncle–Niece
- b. Father–Son
- c. Father–Daughter
- d. Brother–Sister
- e. Cannot be determined

9. Questions

Which of the following combinations is/are TRUE with respect to the final arrangement?

- a. Floor 10 – P
- b. Floor 5 – D
- c. Floor 6 – M
- d. Floor 2 – V
- e. Floor 8 – K

10. Questions

Who among the following persons lives on the bottommost floor?

- a. The one who is the daughter of R
- b. The one who lives two floors below T
- c. The one who is the grandson of N
- d. The one who lives immediately below O
- e. The one who is the son of N

11. Questions

Study the following information carefully and answer the given questions.

3 P \$ M 8 R # K T 5 B @ L 2 N ^ A 7 C % 9 D & Q 1 S *

Step I: If the symbols are immediately preceded by a consonant and immediately followed by a number, then arrange all those symbols immediately after 'N' in the same order (left to right).

Step II: If the letters are immediately preceded by a number, then arrange those letters immediately after '5' as per the English alphabetical order.

Step III: If the numbers are immediately preceded by a letter and immediately followed by a symbol, then arrange those numbers immediately after 'K' in ascending order.

Note: Step II applied after finishing Step I, similarly Step III applied after finishing Step II.

Step III is the final arrangement and answer the following questions based on the final arrangement.

How many numbers are there in the final arrangement, which are immediately followed by a letter?

- a. One
- b. Two
- c. Three
- d. More than three
- e. None

12. Questions

If all the letters, which are immediately followed by a number, are removed from the final arrangement, then which of the following elements is the eighth from the left end?

- a. 5
- b. @
- c. K
- d. B
- e. None of these

13. Questions

Which of the following elements is the fifteenth from the right end in the final arrangement?

- a. R
- b. 5
- c. @
- d. D
- e. None of these

14. Questions

@QuizByMickey

Study the following information carefully and answer the given questions.

5 B @ K 3 P # 8 L Q ^ 2 R \$ T 9 M &

Step I: If a symbol is immediately preceded by a letter and immediately followed by a number, then arrange those symbols immediately after 'Q' in the same order (left to right).

Step II: If the letters are immediately preceded by a number and immediately followed by a letter, then arrange those letters immediately before '5' as per the English alphabetical order.

Note: Step II applied after finishing Step I, Step II is the final arrangement and answers the

following questions based on the final arrangement.

How many numbers are there in the final arrangement, which are immediately preceded by a symbol and immediately followed by a letter?

- a. One
- b. Two
- c. Three
- d. None
- e. More than three

15. Questions

If all the letters, which are immediately followed by a symbol, are dropped from the final arrangement, then which of the following elements is the tenth from the left end?

- a. L
- b. 8
- c. ^
- d. R
- e. None of these

16. Questions

Study the following information carefully and answer the given questions.

A@B means All A are B, $A < B$

A#B means Some A are B, $A \leq B$

A%B means No A are B, $A = B$

A\$B means Some A are not B, $A > B$

A&B means All B are A, $A \geq B$

Statements:

T#U, U@V, V\$W

Conclusions:

i). No U is W, $T \leq U$

ii). Some T can be W, $T < V$

- a. Both I and II follows
- b. Either I or II follows
- c. Only II follows

@QuizByMickey

d. Neither I nor II follows

e. Only I follows

17. Questions

Statements:

R#S, S\$T, T@U

Conclusions:

i). Some R are not U, $R \leq S$

ii). Some U are S, $T > S$

a. Either I or II follows

b. Only I follows

c. Only II follows

d. Neither I nor II follows

e. Both I and II follows

18. Questions

Statements:

X@Y, Y\$Z, Z#A

Conclusions:

i). Some X can be A, $X < Y$

ii). All Y are not A, $Y > Z$

a. Only I follows

b. Neither I nor II follows

c. Either I or II follows

d. Both I and II follows

e. Only II follows

@QuizByMickey

19. Questions

Statements:

P#Q, Q\$R, R&S

Conclusions:

i). Some S can be P, $R < Q$

ii). All Q can not be R, $Q > S$

- a. Either I or II follows
- b. Neither I nor II follows
- c. Only II follows
- d. Only I follows
- e. Both I and II follows

20. Questions

Statements:

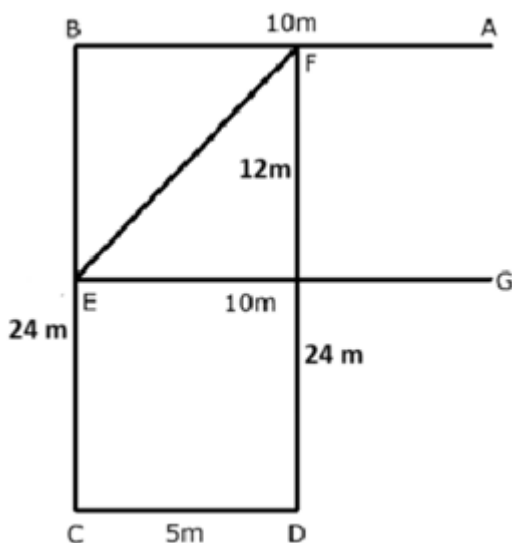

A&B, B% C, C@D

Conclusions:

- i). All C are A, $B < C$
- ii). Some A can be D, $A \geq C$
- a. Only I follows
- b. Only II follows
- c. Both I and II follows
- d. Either I or II follows
- e. Neither I nor II follows

Explanations:

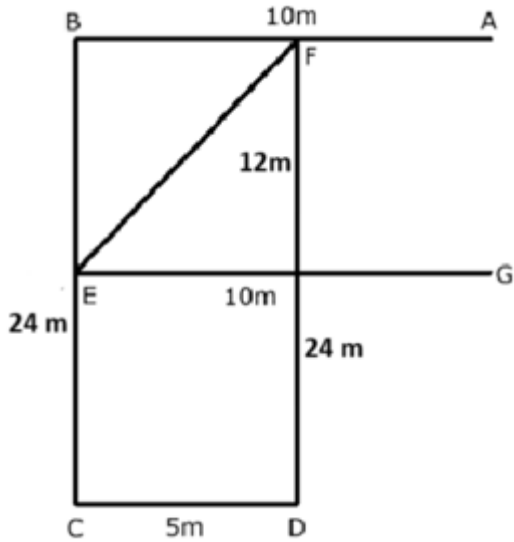

1. Questions

@QuizByMickey

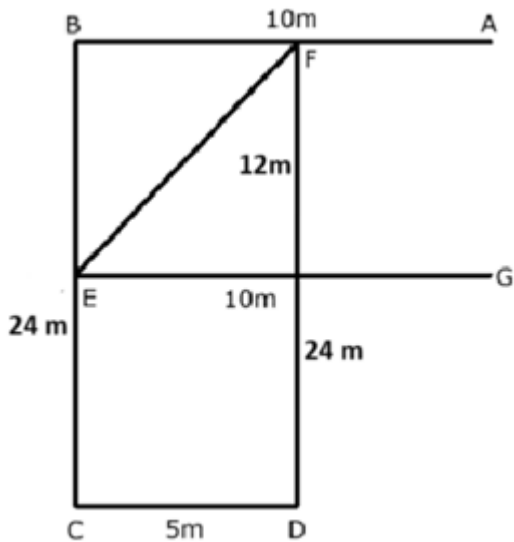

Answer: A

2. Questions

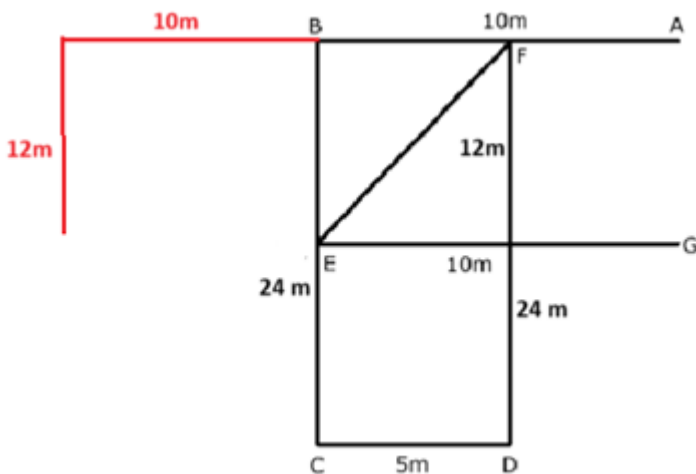

Answer: B

3. Questions

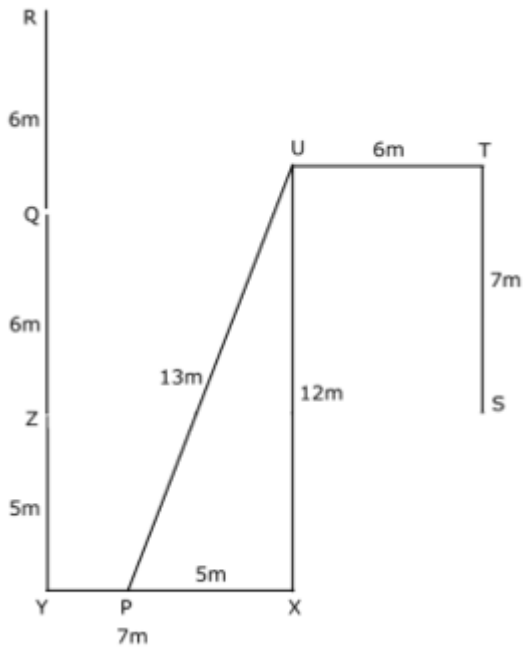

Answer: D

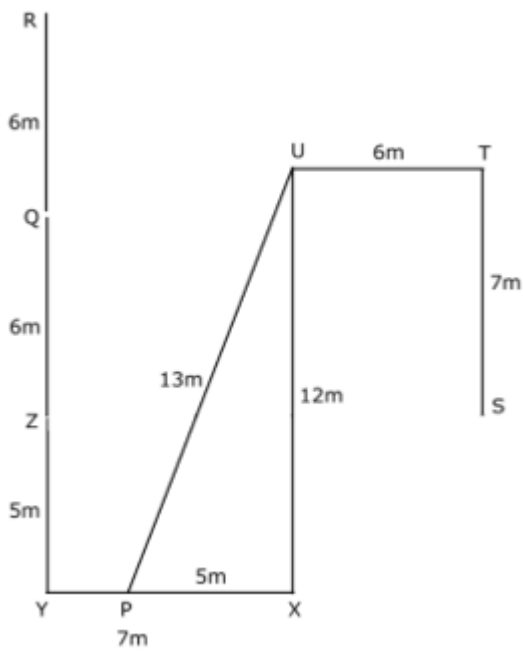

@QuizByMickey

4. Questions

Answer: B

5. Questions

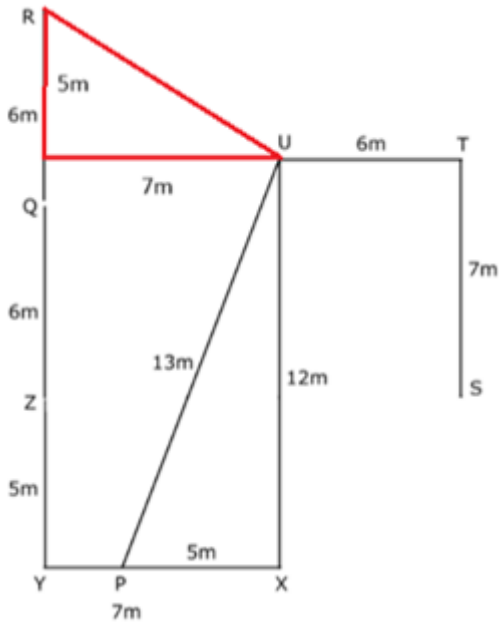

Answer: D

@QuizByMickey

Shortest distance between U and R

$$UR = \sqrt{5^2 + 7^2}$$

$$UR = \sqrt{74}$$

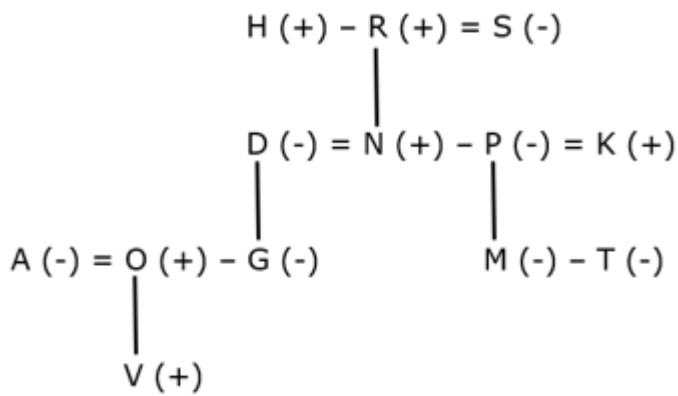

6. Questions

Final arrangement:

Floors	Persons
13	H
12	R
11	S
10	N
9	P
8	K
7	D
6	G
5	M
4	T
3	O
2	A
1	V

@QuizByMickey

We have,

- The person who lives on the exact middle floor is the spouse of N.
- N lives on an even-numbered floor above the eighth floor.
- P is the mother of two daughters.
- Neither N nor R is married to P.
- The number of persons living above N is **one less than** the number of persons living below M, who is the only sister of T.

From the above conditions, there are two possibilities.

@QuizByMickey

Floors	Case-1	Case-2
	Persons	Persons
13		
12		N
11		
10	N	
9		
8		
7		
6		
5	M	
4		
3		M
2		
1		

1) $\text{---} = \text{N}$

2) $\text{P (-)} = (+)$ $\text{---} = \text{Married}$
 $\downarrow$ $(+) \text{ Male}$
 $(-) \text{ Female}$
 $(-) \text{ --- } (-)$ $\text{---} = \text{Siblings}$

3) $\text{M (-)} \text{---} \text{T}$

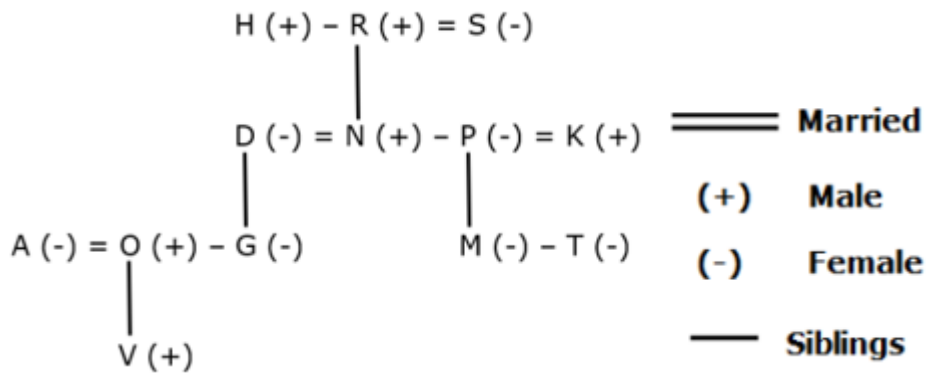

Again, we have,

@QuizByMickey

- The one who lives on the topmost floor is the brother of R, who lives immediately above S.
- K lives immediately below his wife.
- More than seven persons live between S and A, who do not live on the bottommost floor.
- R is the father-in-law of D and lives above M.
- N, who is the grandfather of V, is the only son of S.
- Neither D nor K has siblings.
- G lives immediately above M and is the only sister of O.
- T is the daughter of K, who is the brother-in-law of N.
- O lives immediately below T and is married to A.
- The gender of V and O is the same.
- A is the wife of T's cousin.

3		A	M
2	A		A
1			

@QuizByMickey

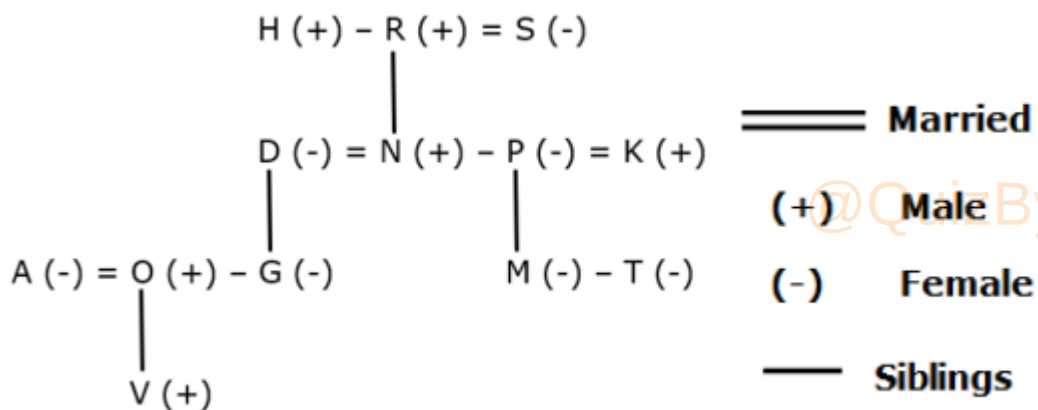

Again, we have,

- Neither O nor K lives on the bottommost floor.
- T lives below P but above V.
- Not more than three persons live between K and M.

From the above conditions, case-1a gets eliminated because neither O nor K lives on the bottommost floor, which is not satisfied. Also case-2 gets eliminated because not more than three persons live between K and M, which is not satisfied.

Hence, case-2 shows the final arrangement.

11. Questions

Final arrangement:

3 \$ M # K 1 2 8 T 5 B C D N P R S @ L % ^ A 7 9 & Q *

Given Series: 3 P \$ M 8 R # K T 5 B @ L 2 N ^ A 7 C % 9 D & Q 1 S *

Step I: If the symbols are immediately preceded by a consonant and immediately followed by a number, then arrange all those symbols immediately after 'N' in the same order (left to right).

3 P \$ M 8 R # K T 5 B @ L 2 N % ^ A 7 C 9 D & Q 1 S *

Step II: If the letters are immediately preceded by a number, then arrange those letters immediately after '5' as per the English alphabetical order.

3 \$ M 8 # K T 5 B C D N P R S @ L 2 % ^ A 7 9 & Q 1 *

Step III: If the numbers are immediately preceded by a letter and immediately followed by a symbol, then arrange those numbers immediately after 'K' in ascending order.

3 \$ M # K 1 2 8 T 5 B C D N P R S @ L % ^ A 7 9 & Q *

Answer: B

3 \$ M # K 1 2 8 T 5 B C D N P R S @ L % ^ A 7 9 & Q *

Only **TWO** numbers are there in the final arrangement, which are immediately followed by a letter.

12. Questions

Final arrangement:

3 \$ M # K 1 2 8 T 5 B C D N P R S @ L % ^ A 7 9 & Q *

Given Series: 3 P \$ M 8 R # K T 5 B @ L 2 N ^ A 7 C % 9 D & Q 1 S *

Step I: If the symbols are immediately preceded by a consonant and immediately followed by a number, then arrange all those symbols immediately after 'N' in the same order (left to right).

3 P \$ M 8 R # K T 5 B @ L 2 N % ^ A 7 C 9 D & Q 1 S *

Step II: If the letters are immediately preceded by a number, then arrange those letters immediately after '5' as per the English alphabetical order.

3 \$ M 8 # K T 5 B C D N P R S @ L 2 % ^ A 7 9 & Q 1 *

Step III: If the numbers are immediately preceded by a letter and immediately followed by a symbol, then arrange those numbers immediately after 'K' in ascending order.

3 \$ M # K 1 2 8 T 5 B C D N P R S @ L % ^ A 7 9 & Q *

Answer: A

3 \$ M # K 1 2 8 T 5 B C D N P R S @ L % ^ A 7 9 & Q *

All the letters, which are immediately followed by a number, are removed from the final arrangement.

3 \$ M # 1 2 8 5 B C D N P R S @ L % ^ 7 9 & Q *

After rearrangement, 5 is the eighth element from the left end.

13. Questions

@QuizByMickey

Final arrangement:

3 \$ M # K 1 2 8 T 5 B C D N P R S @ L % ^ A 7 9 & Q *

Given Series: 3 P \$ M 8 R # K T 5 B @ L 2 N ^ A 7 C % 9 D & Q 1 S *

Step I: If the symbols are immediately preceded by a consonant and immediately followed by a number, then arrange all those symbols immediately after 'N' in the same order (left to right).

3 P \$ M 8 R # K T 5 B @ L 2 N % ^ A 7 C 9 D & Q 1 S *

Step II: If the letters are immediately preceded by a number, then arrange those letters immediately after '5' as per the English alphabetical order.

3 \$ M 8 # K T 5 B C D N P R S @ L 2 % ^ A 7 9 & Q 1 *

Step III: If the numbers are immediately preceded by a letter and immediately followed by a symbol, then arrange those numbers immediately after 'K' in ascending order.

3 \$ M # K 1 2 8 T 5 B C D N P R S @ L % ^ A 7 9 & Q *

Answer: D

3 \$ M # K 1 2 8 T 5 B C D N P R S @ L % ^ A 7 9 & Q *

D is the fifteenth element from the right end in the final arrangement.

14. Questions

Final arrangement:

L 5 B @ K 3 P 8 Q # ^ 2 R \$ T 9 M &

5 B @ K 3 P # 8 L Q ^ 2 R \$ T 9 M &

Step I: If a symbol is immediately preceded by a letter and immediately followed by a number, then arrange those symbols immediately after 'Q' in the same order (left to right).

5 B @ K 3 P 8 L Q # ^ 2 R \$ T 9 M &

Step II: If the letters are immediately preceded by a number and followed by a letter, then arrange those letters immediately before '5' as per the English alphabetical order.

L 5 B @ K 3 P 8 Q # ^ 2 R \$ T 9 M &

Answer: A

L 5 B @ K 3 P 8 Q # ^ 2 R \$ T 9 M &

Only one number is there in the final arrangement, which is immediately preceded by a symbol and immediately followed by a letter.

15. Questions

Final arrangement:

L 5 B @ K 3 P 8 Q # ^ 2 R \$ T 9 M &

5 B @ K 3 P # 8 L Q ^ 2 R \$ T 9 M &

@QuizByMickey

Step I: If a symbol is immediately preceded by a letter and immediately followed by a number, then arrange those symbols immediately after 'Q' in the same order (left to right).

5 B @ K 3 P 8 L Q # ^ 2 R \$ T 9 M &

Step II: If the letters are immediately preceded by a number and followed by a letter, then arrange those letters immediately before '5' as per the English alphabetical order.

L 5 B @ K 3 P 8 Q # ^ 2 R \$ T 9 M &

Answer: E

L 5 B @ K 3 P 8 Q # ^ 2 R \$ T 9 M &

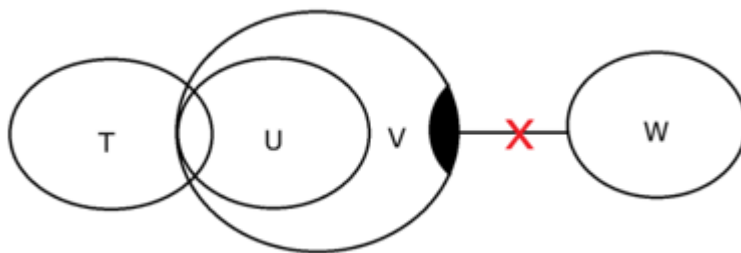

All the letters, which are immediately followed by a symbol, are dropped from the final arrangement,

L 5 @ K 3 P 8 # ^ 2 \$ T 9 &

2 is the tenth element from the left end.

16. Questions

Answer: C

$T \leq U < V > W$

i). No U is W - Here, there is no direct relation between U and W. So all the definite conclusions between them are not true. Hence the conclusion doesn't follow.

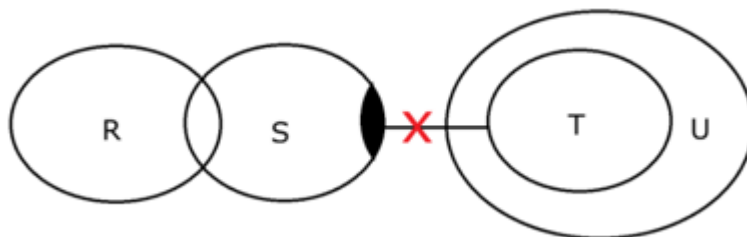

$T \leq U$ - True

ii). Some T can be W - Here, there is no direct relation between T and W. So, all the possible conclusions between them are true. Hence, the conclusion follows.

$T < V$ ($T \leq U < V$) - True

17. Questions

Answer: D

$R \leq S > T < U$

i). Some R are not U - Here, there is no direct relation between R and U. So all the definite conclusions

@QuizByMickey

between them are not true. Hence the conclusion doesn't follow.

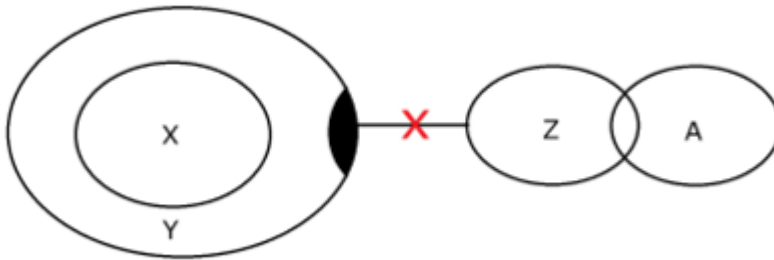

$R \leq S$ - True

ii). **Some U are S** - Here, there is no direct relation between U and S. So all the definite conclusions between them are not true. Hence the conclusion doesn't follow.

$T > S$ - False

18. Questions

Answer: A

$X < Y > Z \leq A$

i). **Some X can be A** - Here, there is no direct relation between X and A. So, all the possible conclusions between them are true. Hence, the conclusion follows.

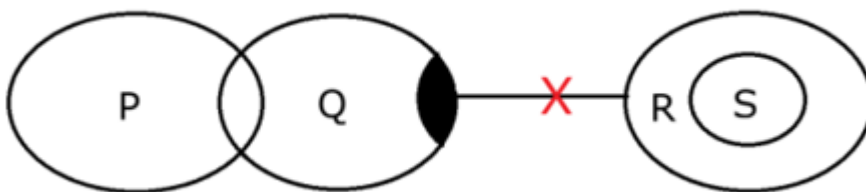

$X < Y$ - True

ii). **All Y are not A** - Here, there is no direct relation between Y and A. So all the definite conclusions between them are not true. Hence the conclusion doesn't follow.

$Y > Z$ - True

19. Questions

Answer: E

$P \leq Q > R \geq S$

i). **Some S can be P** - Here, there is no direct relation between C and P. So, all the possible conclusions between them are true. Hence, the conclusion follows.

$R < Q$ - True

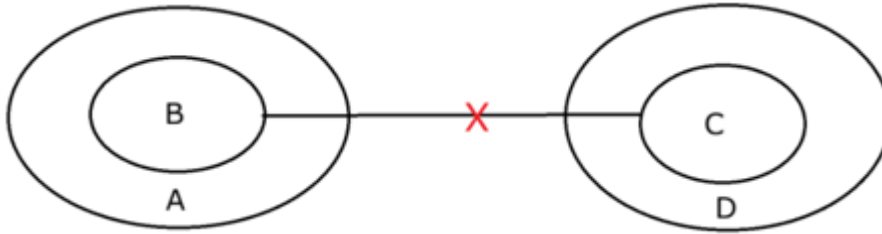

ii). **All Q can not be S** - Here, there is no direct relation between Q and S. But, Q, which is not R, cannot be associated with S. Hence the conclusion follows.

$Q > S$ - True

20. Questions

Answer: B

@QuizByMickey

$A \geq B = C < D$

i). All C are A - Here, there is no direct relation between C and A. So all the definite conclusions between them are not true. Hence the conclusion doesn't follow.

B < C - False

ii). Some A can be D - Here, there is no direct relation between A and D. So, all the possible conclusions between them are true. Hence, the conclusion follows.

$A \geq C$ - True
