

1. Questions

Study the following information carefully and answer the below questions.

Nine Persons - Amrita, Rashmi, Sia, Riya, Mehak, Maya, Nita, Meenal and Shalu were born on three different dates (19, 24, 25) of three different months, viz., April, May and June of the same year. A person whose name has an even number of letters was born on an odd-numbered date, and a person whose name has an odd number of letters was born on an even-numbered date. All the person like different colors namely, Red, Blue, Yellow, Green, Black, Grey, White, Pink and Brown.

Only three persons were born between Sia and the one who likes Green. The one who likes Red was born immediately after the one who likes Green. Only one person was born between the one who likes Red and Amrita. The one who likes Blue was born immediately before Shalu. Amrita was not born immediately after Shalu. Amrita and Meenal were born in the same month. Maya was born before Nita, who was born before the one who likes Blue. Rashmi doesn't like Blue. The number of persons born after the one who likes Brown is **two more than** the number of persons born after Riya. The one who was born in a month having an even number of days does not like White. Amrita likes Black. The one who likes Grey was born in June on an even numbered date. The one who likes Pink wasn't born on the square numbered date.

Who among the following person was born immediately after the one who likes Blue?

- a. Amrita
- b. The one who likes White
- c. Maya
- d. The one who likes Yellow
- e. None of these

2. Questions

Which of the following pair of persons were born in the same month as per the final arrangement?

- a. Amrita and Nita
- b. Mehak and Maya
- c. Maya and Riya
- d. Riya and Meenal
- e. Amrita and Mehak

@QuizByMickey

3. Questions

Which of the following colours is liked by the one who was born immediately after Maya?

- a. Black
- b. Red
- c. Blue

d. Brown

e. White

4. Questions

Which of the following statement(s) is/are TRUE with respect to the final arrangement?

I). Riya was born after Meenal.

II). Nita likes Red

III). Shalu was born after Maya.

a. Only I and II

b. Only II and III

c. Only III

d. Only II

e. Only I

5. Questions

Who among the following person was born exactly between Amrita and Maya?

a. Shalu

b. Meenal

c. Sia

d. Nita

e. The one who was born on 24th June

6. Questions

Study the following information carefully and answer the below questions.

Eight persons - A, B, C, D, E, F, G and H arrived at the company at different timings for an interview.

X ! Y means X arrived before Y.

X @ Y means Y arrived after X.

Y # 2 means at least two persons arrived before Y.

2 # Y means at least two persons arrived after Y.

X \$ Y (3) means at most three persons have arrived between X and Y.

H # 3, H @ G, 1 # G, H \$ B (2), D ! C, C \$ F (3), F @ E, H ! B

H did not arrive immediately before both B and G. As many persons arrived after G as before A. At least one person arrived before D. E arrived neither immediately before nor immediately after G.

@QuizByMickey

How many persons arrived after H as per the final arrangement?

- a. One
- b. Two
- c. Four
- d. Three
- e. Cannot be determined

7. Questions

Who among the following person is the second person to arrive at the company as per the final arrangement?

- a. D
- b. A
- c. E
- d. F
- e. None of these

8. Questions

Who among the following persons arrived two persons after F based on the final arrangement?

- a. G
- b. The one who arrives two persons after G
- c. D
- d. The one who arrives immediately before E
- e. A

9. Questions

Which of the following statement(s) is/are FALSE with respect to the final arrangement?

I). Only one person arrived between H and G.

II). The one who arrived immediately before A is the third person to arrive at the company.

III). Only two persons arrived after G.

- a. Only I and II
- b. Only II
- c. Only III
- d. Only II and III

e. Only I

10. Questions

Who among the following person is the third last person to arrive at the company?

- a. The one who arrived immediately before E
- b. C
- c. The one who arrived one person after D
- d. G
- e. Cannot be determined

11. Questions

Study the following information carefully and answer the below questions.

Nine persons - M, N, O, P, Q, R, S, T and U work in a corporate company. They do work from home and go to the office once in two weeks, i.e., Monday to Friday. One of the days is an off day apart from Saturday and Sunday, when no one goes to the office.

Note: If person A goes to the office two days before person B or immediately before person B, then we don't consider the off days between them.

M goes to the office on Friday. The number of persons going before M is **one more than** the number of persons going after N. O goes to the office immediately before M, but doesn't go before the off day. Only three persons go between P and O, who doesn't go as the last person. P goes to the office two days before Q. Only one day between R and S, where S doesn't go before R. At most four persons go to the office after R. No one goes to the office immediately after T. Neither Wednesday nor Tuesday is an off day.

T goes to the office ____ days after U according to the final arrangement.

- a. One
- b. Two
- c. Three
- d. Four
- e. Five

@QuizByMickey

12. Questions

Which of the following days is the off day apart from the week offs as per the final arrangement?

- a. Friday
- b. Monday
- c. Wednesday
- d. Tuesday

e. Thursday

13. Questions

Which of the following statement(s) is/are TRUE with respect to the final arrangement?

- I). U goes to the office on Monday.
II). The one who goes immediately after R goes to the office on Monday.
III). P goes to the office immediately after the off day.
- a. Only I
b. Only I and II
c. Only II
d. Only I and III
e. All of the above

14. Questions

Four of the following five are alike in a certain way based on the given arrangement and thus form a group. Which of the following does not belong to that group?

- a. UT
b. RQ
c. OM
d. QS
e. UN

15. Questions

___ goes to the office three days before ___.

- a. US
b. PR
c. QM
d. OS
e. NT

@QuizByMickey

16. Questions

Study the following information carefully and answer the below questions.

The code of a word is determined by following the given conditions:

- 1). All the consonants, except F, J, K, V and Y are coded as 1 - 8 as per the English alphabetical series, i.e.,

B - 1, C - 2, D - 3, G - 4, H - 5, L - 6, M - 7, N - 8, P - 1, Q - 2, R - 3, S - 4, T - 5, W - 6, X - 7 and Z - 8.
Remaining consonants, i.e., F, J, K, V and Y are coded as their immediate succeeding letter.

2). Vowels A, E, I, O and U are coded as @, #, %, & and \$ respectively.

Note: The first, second, third and so on letters of a word are taken from the left end.

Perform the below operations on the letters of each word besides the above conditions:

I). If the first and the last letters of the word are consonants, then both letters are coded as 'β'.

II). If the first letter is a vowel and the last letter is a consonant, then both letters are coded as '≠'.

III). If a consonant is immediately preceded as well as immediately followed by a vowel, then the consonant is coded as '≤'.

IV). If a digit in the code is immediately preceded by a letter, then the digit is coded as '+ '.

The operations are to be performed in order, i.e., from I to IV.

What is the code for the word 'AFTERNOON' as per the given conditions?

- a. ≠G#+38&&≠
- b. ≠G+538&&≠
- c. ≠G+138&&≠
- d. ≠G+#38&&≠
- e. ≠G+438&&≠

17. Questions

What is the code for the word 'ARCHERY' as per the given conditions?

- a. @32553@
- b. ≠325#3≠
- c. ≠325#3Z
- d. @325#3≠
- e. None of the above

@QuizByMickey

18. Questions

What is the code for the word 'VICTORY' as per the given conditions?

- a. @32553@
- b. β325#3β
- c. ≠325#3Z
- d. β325#3Z
- e. β%25&3β

19. Questions

What is the code for the word 'SOVIET' as per the given conditions?

- a. $\beta \& W \% \# \beta$
- b. $\beta \& \leq \# \% \beta$
- c. $\beta \& \leq \% \# \beta$
- d. $4 \& \leq \% \# 5$
- e. None of the above

20. Questions

What is the code for the word 'VARIABLE' as per the given conditions?

- a. $W @ \leq \% @ 16 \#$
- b. $\neq W @ 3 \% @ 16$
- c. $\beta @ \leq \% @ 16 \beta$
- d. $W @ 3 \% @ 16 @$
- e. None of the above

Explanations:

1. Questions**Final Arrangement:**

@QuizByMickey

Months	Date	Persons - Colors
April	19	Maya-Pink
	24	Sia-Brown
	25	Nita-Yellow
May	19	Riya-Blue
	24	Shalu-White
	25	Rashmi-Green
June	19	Meenal-Red
	24	Mehak-Grey
	25	Amrita-Black

- Only three persons were born between Sia and the one who likes Green.
- The one who likes Red was born immediately after the one who likes Green.
- Only one person was born between the one who likes Red and Amrita.

From the above conditions, we have three possibilities.

@QuizByMickey

		Case-1	Case-2	Case-3
Months	Date	Persons - Colors	Persons - Colors	Persons - Colors
April	19			Green
	24	Sia		Red
	25		Amrita/	
May	19		Green	Amrita
	24		Red	Sia
	25	Green		
June	19	Red	Amrita/	
	24		Sia	
	25	Amrita		

Again, we have:

- The one who likes Blue was born immediately before Shalu.
- Amrita was not born immediately after Shalu.
- Amrita and Meenal were born in the same month.
- Maya was born before Nita, who was born before the one who likes Blue.

From the above conditions, case-2 gets eliminated because Maya was born before Nita, who was born before the one who likes Blue, which is not satisfied.

@QuizByMickey

		Case-1	Case-2	Case-3
Months	Date	Persons - Colors	Persons - Colors	Persons - Colors
April	19	Maya	Blue	Maya-Green
	24	Sia	Shalu	Mehak-Red
	25	Nita		Nita
May	19	Blue	Green	Amrita
	24	Shalu	Red	Sia
	25	Green		Meenal
June	19	Meenal-Red	Amrita	Blue
	24	Mehak	Sia	Shalu
	25	Amrita	Meenal	

Again, we have,

- Rashmi doesn't like Blue.
- The number of persons born after the one who likes Brown is **two more than** the number of persons born after Riya.
- The one who was born in a month having an even number of days does not like White.
- Amrita likes Black.

@QuizByMickey

		Case-1	Case-3
Months	Date	Persons - Colors	Persons - Colors
April	19	Maya	Maya-Green
	24	Sia-Brown	Mehak-Red
	25	Nita	Nita
May	19	Riya-Blue	Amrita-Black
	24	Shalu-White	Sia-Brown
	25	Rashmi-Green	Meenal-White
June	19	Meenal-Red	Riya-Blue
	24	Mehak	Shalu
	25	Amrita-Black	Rashmi

Again, we have,

- The one who likes Grey was born in June on an even-numbered date.
- The one who likes Pink wasn't born on the square numbered date.

From the above conditions, case-3 gets eliminated because the one who likes Pink wasn't born on the square numbered date, which is not satisfied.

Hence, case-1 shows the final arrangement.

@QuizByMickey

		Case-1	Case-3
Months	Date	Persons - Colors	Persons - Colors
April	19	Maya-Pink	Maya-Green
	24	Sia-Brown	Mehak-Red
	25	Nita-Yellow	Nita
May	19	Riya-Blue	Amrita-Black
	24	Shalu-White	Sia-Brown
	25	Rashmi-Green	Meenal-White
June	19	Meenal-Red	Riya-Blue
	24	Mehak-Grey	Shalu-Grey
	25	Amrita-Black	Rashmi

Answer: B

2. Questions

Final Arrangement:

@QuizByMickey

Months	Date	Persons - Colors
April	19	Maya-Pink
	24	Sia-Brown
	25	Nita-Yellow
May	19	Riya-Blue
	24	Shalu-White
	25	Rashmi-Green
June	19	Meenal-Red
	24	Mehak-Grey
	25	Amrita-Black

- Only three persons were born between Sia and the one who likes Green.
- The one who likes Red was born immediately after the one who likes Green.
- Only one person was born between the one who likes Red and Amrita.

From the above conditions, we have three possibilities.

@QuizByMickey

		Case-1	Case-2	Case-3
Months	Date	Persons - Colors	Persons - Colors	Persons - Colors
April	19			Green
	24	Sia		Red
	25		Amrita/	
May	19		Green	Amrita
	24		Red	Sia
	25	Green		
June	19	Red	Amrita/	
	24		Sia	
	25	Amrita		

Again, we have:

- The one who likes Blue was born immediately before Shalu.
- Amrita was not born immediately after Shalu.
- Amrita and Meenal were born in the same month.
- Maya was born before Nita, who was born before the one who likes Blue.

From the above conditions, case-2 gets eliminated because Maya was born before Nita, who was born before the one who likes Blue, which is not satisfied.

@QuizByMickey

		Case-1	Case-2	Case-3
Months	Date	Persons - Colors	Persons - Colors	Persons - Colors
April	19	Maya	Blue	Maya-Green
	24	Sia	Shalu	Mehak-Red
	25	Nita		Nita
May	19	Blue	Green	Amrita
	24	Shalu	Red	Sia
	25	Green		Meenal
June	19	Meenal-Red	Amrita	Blue
	24	Mehak	Sia	Shalu
	25	Amrita	Meenal	

Again, we have,

- Rashmi doesn't like Blue.
- The number of persons born after the one who likes Brown is **two more than** the number of persons born after Riya.
- The one who was born in a month having an even number of days does not like White.
- Amrita likes Black.

@QuizByMickey

		Case-1	Case-3
Months	Date	Persons - Colors	Persons - Colors
April	19	Maya	Maya-Green
	24	Sia-Brown	Mehak-Red
	25	Nita	Nita
May	19	Riya-Blue	Amrita-Black
	24	Shalu-White	Sia-Brown
	25	Rashmi-Green	Meenal-White
June	19	Meenal-Red	Riya-Blue
	24	Mehak	Shalu
	25	Amrita-Black	Rashmi

Again, we have,

- The one who likes Grey was born in June on an even-numbered date.
- The one who likes Pink wasn't born on the square numbered date.

From the above conditions, case-3 gets eliminated because the one who likes Pink wasn't born on the square numbered date, which is not satisfied.

Hence, case-1 shows the final arrangement.

F > D > A > H > C > G > B > E

Answer: B

10. Questions

Final Arrangement:

F > D > A > H > C > G > B > E

Answer: D

11. Questions

Final Arrangement:

Days	Persons
Monday	U
Tuesday	N
Wednesday	T
Thursday	Off Day
Friday	P
Monday	R
Tuesday	Q
Wednesday	S
Thursday	O
Friday	M

We have,

- M goes to the office on Friday.
- The number of persons going before M is **one more than** the number of persons going after N.
- O goes to the office immediately before M, but doesn't go before the off day.

From the above conditions, we have three possibilities.

@QuizByMickey

	Case-1	Case-2	Case-3
Days	Persons	Persons	Persons
Monday	/Off Day		/Off Day
Tuesday	/Off Day	N	/Off Day
Wednesday	/Off Day		N
Thursday	O		
Friday	M		
Monday			
Tuesday			
Wednesday	N		
Thursday		O	O
Friday		M	M

Again, we have,

- Only three persons go between P and O, who doesn't go as the last person.
- P goes to the office two days before Q.

From the above conditions, case-1 gets eliminated because only three persons go between P and O, who doesn't go as the last person, which is not satisfied.

And, here case-2 splits into case-2a.

@QuizByMickey

	Case-1	Case-2	Case-2A	Case-3
Days	Persons	Persons	Persons	Persons
Monday	/Off Day			/Off Day
Tuesday	/Off Day	N	N	/Off Day
Wednesday	/Off Day	/Off Day		N
Thursday	O	/Off Day	P	
Friday	M	P		P
Monday			Q	
Tuesday		Q	/Off Day	Q
Wednesday	N		/Off Day	
Thursday		O	O	O
Friday		M	M	M

Again, we have,

- Only one day between R and S, where S doesn't go before R.
- At most four persons go to the office after R.
- No one goes to the office immediately after T.
- Neither Wednesday nor Tuesday is an off day.

From the above conditions, case-2A and case-3 get eliminated because neither Wednesday nor Tuesday is an off day, which is not satisfied.

Hence, case-2 shows the final arrangement.

@QuizByMickey

	Case-2	Case-2A	Case-3
Days	Persons	Persons	Persons
Monday	U		T
Tuesday	N	N	/Off Day
Wednesday	T		N
Thursday	Off Day	P	U
Friday	P	R	P
Monday	R	Q	R
Tuesday	Q	S	Q
Wednesday	S	Off Day	S
Thursday	O	O	O
Friday	M	M	M

Answer: B

12. Questions

Final Arrangement:

@QuizByMickey

Days	Persons
Monday	U
Tuesday	N
Wednesday	T
Thursday	Off Day
Friday	P
Monday	R
Tuesday	Q
Wednesday	S
Thursday	O
Friday	M

We have,

- M goes to the office on Friday.
- The number of persons going before M is **one more than** the number of persons going after N.
- O goes to the office immediately before M, but doesn't go before the off day.

From the above conditions, we have three possibilities.

@QuizByMickey

	Case-1	Case-2	Case-3
Days	Persons	Persons	Persons
Monday	/Off Day		/Off Day
Tuesday	/Off Day	N	/Off Day
Wednesday	/Off Day		N
Thursday	O		
Friday	M		
Monday			
Tuesday			
Wednesday	N		
Thursday		O	O
Friday		M	M

Again, we have,

- Only three persons go between P and O, who doesn't go as the last person.
- P goes to the office two days before Q.

From the above conditions, case-1 gets eliminated because only three persons go between P and O, who doesn't go as the last person, which is not satisfied.

And, here case-2 splits into case-2a.

@QuizByMickey

	Case-1	Case-2	Case-2A	Case-3
Days	Persons	Persons	Persons	Persons
Monday	/Off Day			/Off Day
Tuesday	/Off Day	N	N	/Off Day
Wednesday	/Off Day	/Off Day		N
Thursday	O	/Off Day	P	
Friday	M	P		P
Monday			Q	
Tuesday		Q	/Off Day	Q
Wednesday	N		/Off Day	
Thursday		O	O	O
Friday		M	M	M

Again, we have,

- Only one day between R and S, where S doesn't go before R.
- At most four persons go to the office after R.
- No one goes to the office immediately after T.
- Neither Wednesday nor Tuesday is an off day.

From the above conditions, case-2A and case-3 get eliminated because neither Wednesday nor Tuesday is an off day, which is not satisfied.

Hence, case-2 shows the final arrangement.

@QuizByMickey

	Case-2	Case-2A	Case-3
Days	Persons	Persons	Persons
Monday	U		T
Tuesday	N	N	/Off Day
Wednesday	T		N
Thursday	Off Day	P	U
Friday	P	R	P
Monday	R	Q	R
Tuesday	Q	S	Q
Wednesday	S	Off Day	S
Thursday	O	O	O
Friday	M	M	M

Answer: E

13. Questions

Final Arrangement:

@QuizByMickey

Days	Persons
Monday	U
Tuesday	N
Wednesday	T
Thursday	Off Day
Friday	P
Monday	R
Tuesday	Q
Wednesday	S
Thursday	O
Friday	M

We have,

- M goes to the office on Friday.
- The number of persons going before M is **one more than** the number of persons going after N.
- O goes to the office immediately before M, but doesn't go before the off day.

From the above conditions, we have three possibilities.

@QuizByMickey

	Case-1	Case-2	Case-3
Days	Persons	Persons	Persons

Wednesday	S	Off Day	S
Thursday	O	O	O
Friday	M	M	M

Answer: D

14. Questions

Final Arrangement:

@QuizByMickey

Days	Persons
Monday	U
Tuesday	N
Wednesday	T
Thursday	Off Day
Friday	P
Monday	R
Tuesday	Q
Wednesday	S
Thursday	O
Friday	M

We have,

- M goes to the office on Friday.
- The number of persons going before M is **one more than** the number of persons going after N.
- O goes to the office immediately before M, but doesn't go before the off day.

From the above conditions, we have three possibilities.

@QuizByMickey

	Case-1	Case-2	Case-3
Days	Persons	Persons	Persons
Monday	/Off Day		/Off Day
Tuesday	/Off Day	N	/Off Day
Wednesday	/Off Day		N
Thursday	O		
Friday	M		
Monday			
Tuesday			
Wednesday	N		
Thursday		O	O
Friday		M	M

Again, we have,

- Only three persons go between P and O, who doesn't go as the last person.
- P goes to the office two days before Q.

From the above conditions, case-1 gets eliminated because only three persons go between P and O, who doesn't go as the last person, which is not satisfied.

And, here case-2 splits into case-2a.

@QuizByMickey

	Case-1	Case-2	Case-2A	Case-3
Days	Persons	Persons	Persons	Persons
Monday	/Off Day			/Off Day
Tuesday	/Off Day	N	N	/Off Day
Wednesday	/Off Day	/Off Day		N
Thursday	O	/Off Day	P	
Friday	M	P		P
Monday			Q	
Tuesday		Q	/Off Day	Q
Wednesday	N		/Off Day	
Thursday		O	O	O
Friday		M	M	M

Again, we have,

- Only one day between R and S, where S doesn't go before R.
- At most four persons go to the office after R.
- No one goes to the office immediately after T.
- Neither Wednesday nor Tuesday is an off day.

From the above conditions, case-2A and case-3 get eliminated because neither Wednesday nor Tuesday is an off day, which is not satisfied.

Hence, case-2 shows the final arrangement.

@QuizByMickey

	Case-2	Case-2A	Case-3
Days	Persons	Persons	Persons
Monday	U		T
Tuesday	N	N	/Off Day
Wednesday	T		N
Thursday	Off Day	P	U
Friday	P	R	P
Monday	R	Q	R
Tuesday	Q	S	Q
Wednesday	S	Off Day	S
Thursday	O	O	O
Friday	M	M	M

Answer: A (All other pairs of persons go to the office on adjacent days, except option A)

15. Questions

Final Arrangement:

@QuizByMickey

Days	Persons
Monday	U
Tuesday	N
Wednesday	T
Thursday	Off Day
Friday	P
Monday	R
Tuesday	Q
Wednesday	S
Thursday	O
Friday	M

We have,

- M goes to the office on Friday.
- The number of persons going before M is **one more than** the number of persons going after N.
- O goes to the office immediately before M, but doesn't go before the off day.

From the above conditions, we have three possibilities.

@QuizByMickey

	Case-1	Case-2	Case-3
Days	Persons	Persons	Persons
Monday	/Off Day		/Off Day
Tuesday	/Off Day	N	/Off Day
Wednesday	/Off Day		N
Thursday	O		
Friday	M		
Monday			
Tuesday			
Wednesday	N		
Thursday		O	O
Friday		M	M

Again, we have,

- Only three persons go between P and O, who doesn't go as the last person.
- P goes to the office two days before Q.

From the above conditions, case-1 gets eliminated because only three persons go between P and O, who doesn't go as the last person, which is not satisfied.

And, here case-2 splits into case-2a.

@QuizByMickey

	Case-1	Case-2	Case-2A	Case-3
Days	Persons	Persons	Persons	Persons
Monday	/Off Day			/Off Day
Tuesday	/Off Day	N	N	/Off Day
Wednesday	/Off Day	/Off Day		N
Thursday	O	/Off Day	P	
Friday	M	P		P
Monday			Q	
Tuesday		Q	/Off Day	Q
Wednesday	N		/Off Day	
Thursday		O	O	O
Friday		M	M	M

Again, we have,

- Only one day between R and S, where S doesn't go before R.
- At most four persons go to the office after R.
- No one goes to the office immediately after T.
- Neither Wednesday nor Tuesday is an off day.

From the above conditions, case-2A and case-3 get eliminated because neither Wednesday nor Tuesday is an off day, which is not satisfied.

Hence, case-2 shows the final arrangement.

@QuizByMickey
