

1. Questions

Study the following information carefully and answer the questions given below.

Certain number of persons are sitting in a row facing north direction and they belong to different armed forces. Only three persons sit between Q and K who belongs to CRPF. J sits three places away from K. Four persons sit between J and the one who belongs to ITBP. F belongs to BSF and sits second to the right of the one who belongs to ITBP and second to the left of E who doesn't sit at the end of the row. The one who belongs to NAVY sits fourth from one of the ends of the row and sits adjacent to the one who belongs to BSF. L sits four places away from the one who belongs to NAVY.

Six persons sit between L and the one who belongs to ARMY. The one who belongs to RPF sits third to the right of the one who belongs to ARMY. Three persons sit between the one who belongs to RPF and P who sits immediate left of the one who belongs to SSB, who sits at one of the extreme ends. The number of persons sitting to the left of the one who belongs to SSB is multiple of eleven.

Who among the following person sits fourth to the left of the one who sits second to the right of J?

- a. The one who sits immediate left of F
- b. Q
- c. The one who belongs to NAVY
- d. K
- e. None of these

2. Questions

How many persons are sitting in the row?

- a. Thirty-Three
- b. Twenty-Three
- c. Twenty
- d. Twenty-Two
- e. Twenty-One

3. Questions

@QuizByMickey

Which of the following statement(s) is/are true with respect to the final arrangement?

- a. K sits fourth to the right of the one who belongs to NAVY
- b. F sits immediate right of J
- c. P sits immediate right of the one who belongs to Army
- d. E sits third to the left of L
- e. Both C and D

4. Questions

How many persons sit between the one who belongs to ITBP and the one who sits third to the left of Q?

- a. As many persons sit to the right of the one who belongs to ARMY
- b. Eleven
- c. Six
- d. As many persons sit between L and the one who belongs to RPF
- e. Ten

5. Questions

If F is related to the one who belongs to NAVY, in the same way L is related to the one who belongs to CRPF, then who among the following person is related to the one who belongs to SSB?

- a. Q
- b. The one who belongs to ARMY
- c. J
- d. The one who belongs to RPF
- e. P

6. Questions

Study the following information carefully and answer the questions given below.

Nine persons viz. M, N, O, P, Q, R, S, T and U joined in different banks viz Citi, CSB, DCB, HDFC, ICICI, IDFC FIRST, PNB, RBL and YES in different years from 2014 to 2022. All the information is not necessarily in the same order.

The one who joined in DCB joined in an even numbered year but not in the leap year. Only three persons joined between the one who joined in DCB and U, who joined immediately after the one who joined in HDFC. More than three persons joined between the one who joined in HDFC and Q, who doesn't join the first. The number of persons joined before Q is one more than the number of persons joined after P. The one who joined in ICICI joined in an odd numbered year where neither P nor Q joined in ICICI. S joined two years before the one who joined in ICICI but neither joined in HDFC nor in CSB. The number of persons joined between S and the one who joined in DCB is the same as the number of persons joined between Q and N. The number of persons joined after N is one less than the number of persons joined before the one who joined in RBL. The one who joined in CSB joined four years before R, who joined immediately after M. O joined two years before the one who joined in PNB whereas T joined three years after the one who joined in Citi but doesn't join in YES.

Who among the following person joined in IDFC FIRST bank?

- a. The one who joined in 2015
- b. R

- c. The one who joined in 2020
- d. M
- e. None of these

7. Questions

In which of the following bank does N join?

- a. YES bank
- b. CSB bank
- c. DCB bank
- d. ICICI bank
- e. None of these

8. Questions

How many persons joined between Q and the one who joined in RBL?

- a. Four
- b. Three
- c. More than five
- d. Five
- e. None of these

9. Questions

Four of the following five are alike in a certain way as per the given arrangement and hence form a group. Which of the following one doesn't belong to that group?

- a. T
- b. The one who joined in YES bank
- c. M
- d. The one who joined in Citi bank
- e. P

@QuizByMickey

10. Questions

Which of the following statement(s) is/are true with respect to the final arrangement?

- I). Only three persons joined between S and the one who joined in RBL bank.
- II). Either the one who joined in PNB or P joined in an even numbered year.
- III). Neither O nor the one who joined in DCB joined at the first.

IV). Both M and the one who joined in ICICI joined in the adjacent years.

- a. Both I and IV
- b. Both II and IV
- c. Both I and III
- d. Both II and III
- e. None of these

11. Questions

Study the following information carefully and answer the given questions.

4792 6387 5921 3986 7164

In how many numbers, the sum of the second, third and fourth digits are not exactly divisible by the first digit?

- a. One
- b. Three
- c. Four
- d. Five
- e. Two

12. Questions

If the sum of the two smallest digits are subtracted from the sum of the two largest digits within the number, then the resultant of which among the following number is not an even number?

- a. 6387
- b. 5921
- c. 7164
- d. 4792
- e. 3986

@QuizByMickey

13. Questions

If the prime digits of all the numbers are arranged continuously in increasing order followed by the remaining digits which are arranged continuously in decreasing order, then what will be the product of the seventh digit from the right end and ninth digit from the left end in the series thus formed?

- a. 42
- b. 72

- c. 56
- d. 36
- e. 54

14. Questions

If the digits of an odd number are arranged in ascending order and the digits of an even number are arranged in descending order within the number, then the sum of the last two digits from the left end of which among the following number is multiple of 7?

- a. 6387
- b. 3986
- c. 7164
- d. 5921
- e. 4792

15. Questions

Complete the following blank () as per the given series?

931977628647564_8931

- a. 2
- b. 9
- c. 6
- d. 7
- e. 3

16. Questions

Study the following information carefully and answer the given questions

Ten persons - A, B, C, D, E, F, G, H, I and J are sitting around a Pentagonal shaped table in such a way that five persons sit in the middle of the sides facing away from the centre and five persons sit at the corners of the table facing towards the centre. The perimeter of this pentagonal table is 225m. The distance between adjacent persons is equal.

Note: The perimeter of the Pentagon = $5 \times \text{side length of the pentagon}$

H sits 90m away from G. H sits 67.5m away from B, who is not an immediate neighbour of G. I sits 45m to the left of B. I and D are immediate neighbours. E sits 22.5m away from the one who sits opposite to D. The distance between B and G is 22.5m more than the distance between D and F, when measured from the left of both B and D. The distance between E and H, when measured from the right of E is twice the distance between F and A, when measured from the left of F. J sits 90m away from A. C does not face the centre of the table.

Who among the following person sits 112.5m to the left of J?

- a. The one who sits 45m to the right of C
- b. I
- c. The one who sits to the immediate right of B
- d. G
- e. The one who sits 67.5m to the left of E

17. Questions

Four of the following five are alike in a certain way based on the given arrangement and thus form a group. Which one of the following does not belong to the group?

- a. F
- b. E
- c. D
- d. H
- e. J

18. Questions

Who among the following person sits exactly between H and E, when counted to the left of E?

- a. A
- b. The one who sits opposite to C
- c. V
- d. The one who sits 67.5m to the left of J
- e. I

19. Questions

Which among the following statement(s) is/are true as per the given arrangement?

- I). I and G are immediate neighbours
 - II). D sits third to the left of I
 - III). C sits second to the right of A
 - IV). B sits opposite to G
- a. Only I and II
 - b. Only II and IV
 - c. Only I and IV

@QuizByMickey

- d. Only I and III
- e. Only III and IV

20. Questions

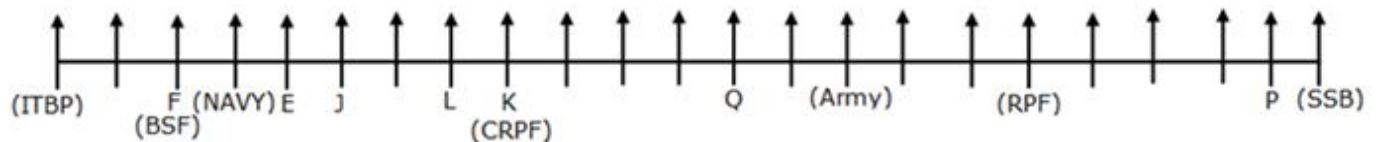

Who among the following person sits 90m away from F?

- I). E
- II). H
- III). G
- a. Only I
- b. Only II
- c. Only I and III
- d. Only I and II
- e. All I, II and III

Explanations:

1. Questions

Final arrangement

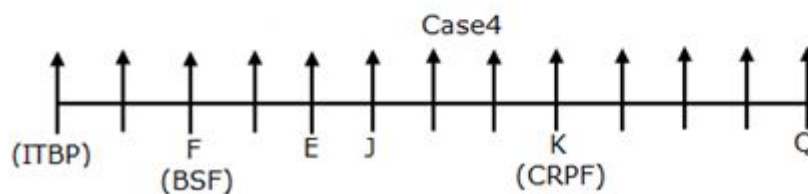

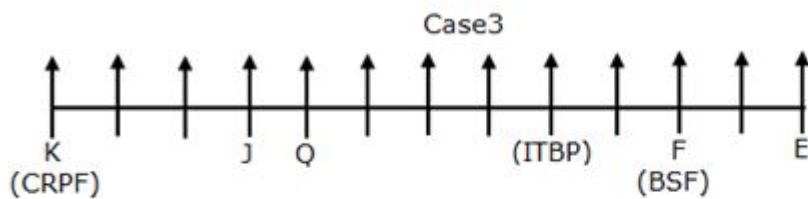

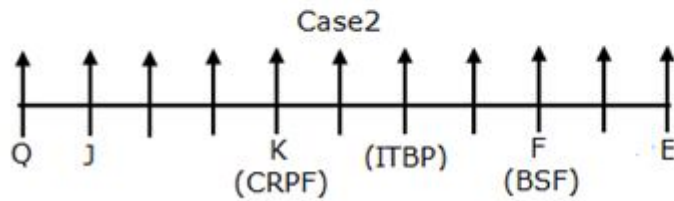

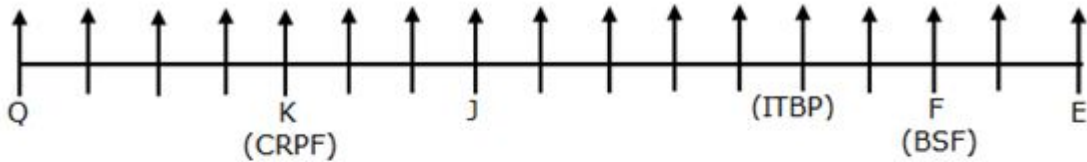

We have,

- Only three persons sit between Q and K
- K belongs to CRPF
- J sits three places away from K
- Four persons sit between J and the one who belongs to ITBP
- F belongs to BSF
- F sits second to the right of the one who belongs to ITBP
- F sits second to the left of E

From this condition, there are four possibilities,

@QuizByMickey

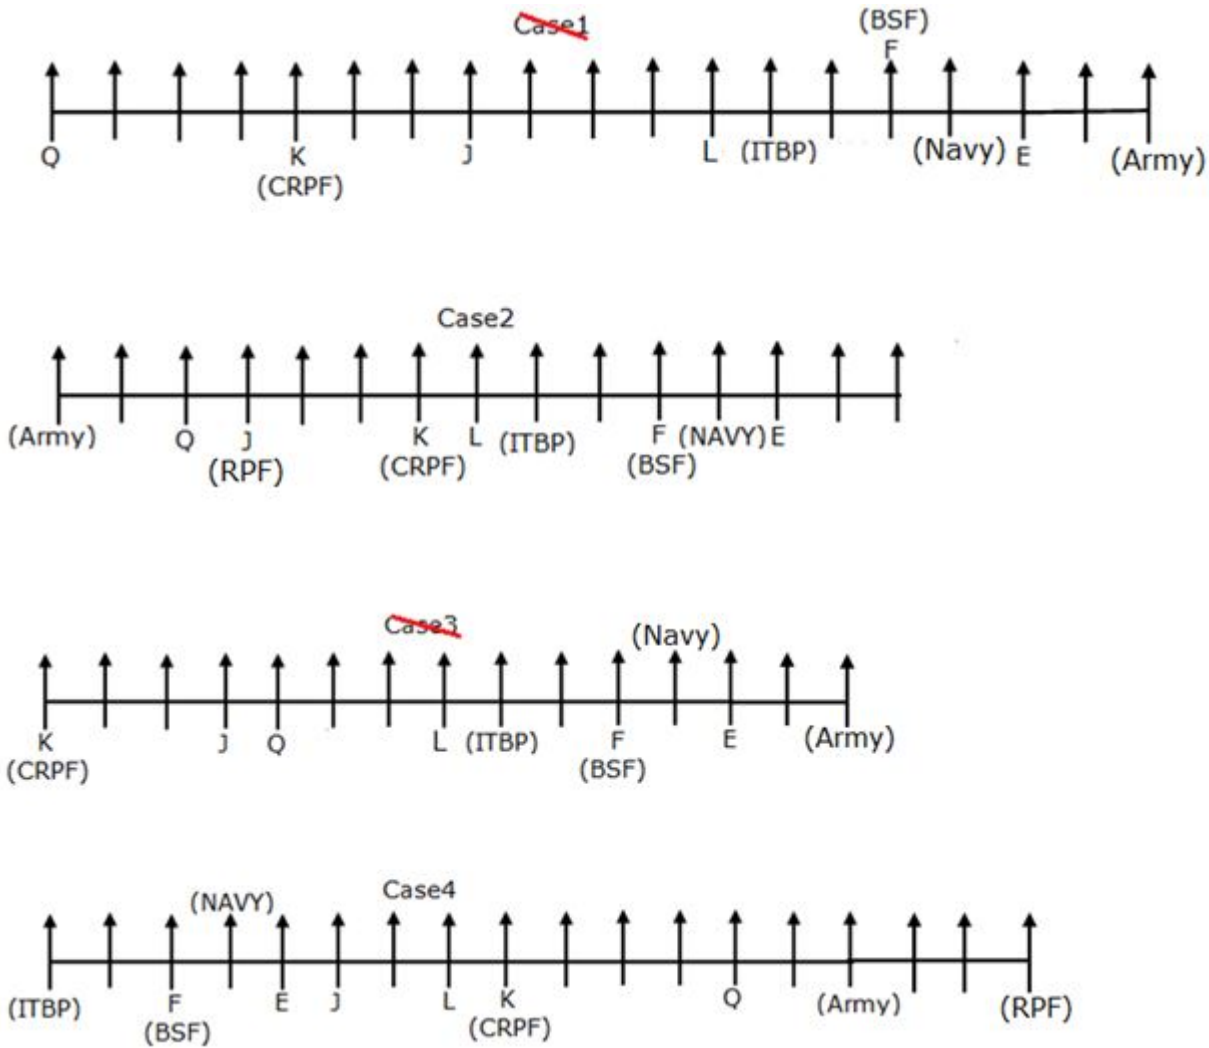

Again we have,

- E doesn't sit at the end of the row
- The one who belongs to NAVY sits fourth from one of the ends of the row
- The one who belongs to NAVY sits adjacent to the one who belongs to BSF
- L sits four places away from the one who belongs to NAVY
- Six persons sit between L and the one who belongs to ARMY
- The one who belongs to RPF sits third to the right of the one who belongs to ARMY

From this condition, Case1 and Case3 gets eliminated.

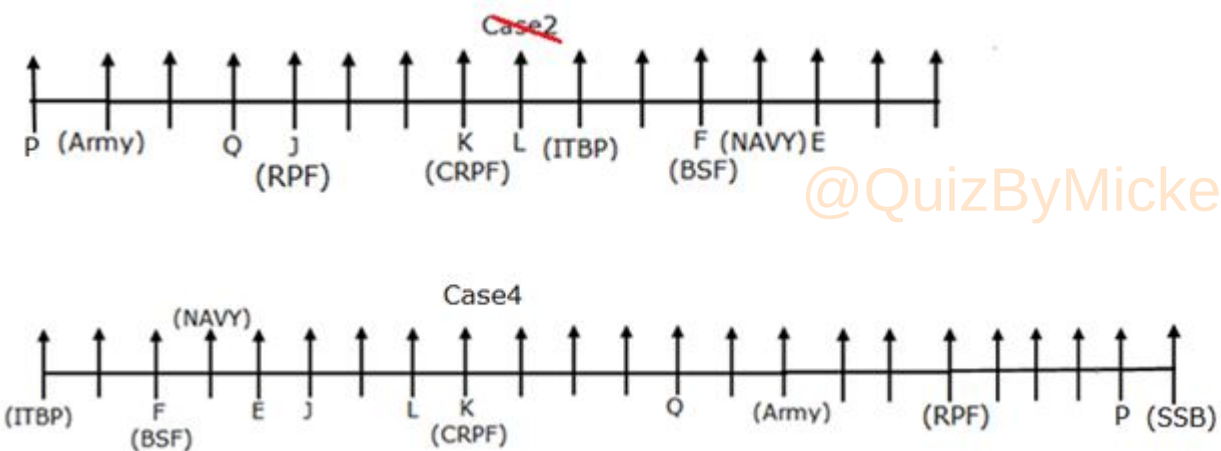

@QuizByMickey

Again we have,

- Three persons sit between the one who belongs of RPF and P
- P sits immediate left of the one who belongs to SSB, who sits at one of the extreme ends.
- The number of persons sitting to the left of the one who belongs to SSB is multiple of eleven.

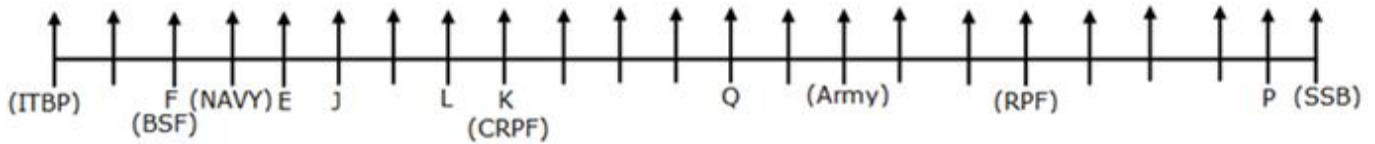

From this condition, Case2 gets eliminated. Case4 shows the final arrangement.

Answer: C

2. Questions

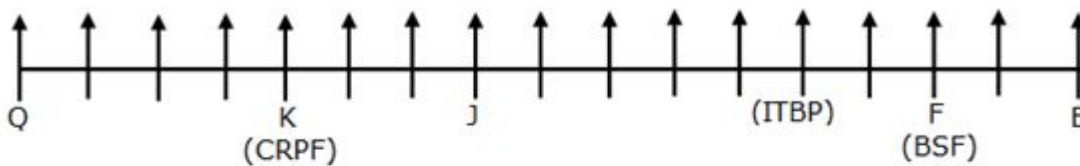

Final arrangement

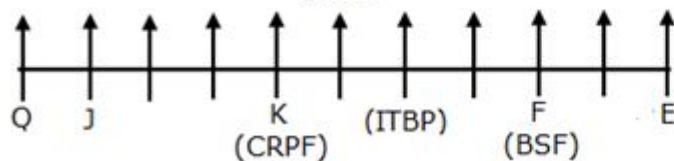

We have,

- Only three persons sit between Q and K
- K belongs to CRPF
- J sits three places away from K
- Four persons sit between J and the one who belongs to ITBP
- F belongs to BSF
- F sits second to the right of the one who belongs to ITBP
- F sits second to the left of E

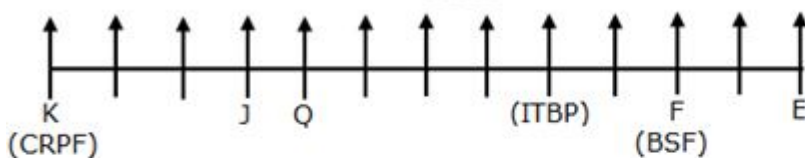

From this condition, there are four possibilities,

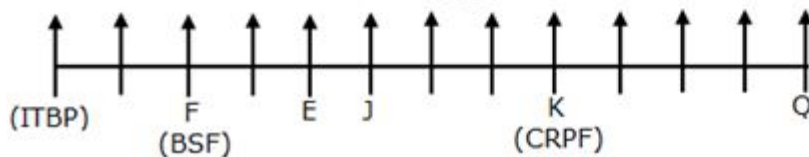

Case2

Case3

Case4

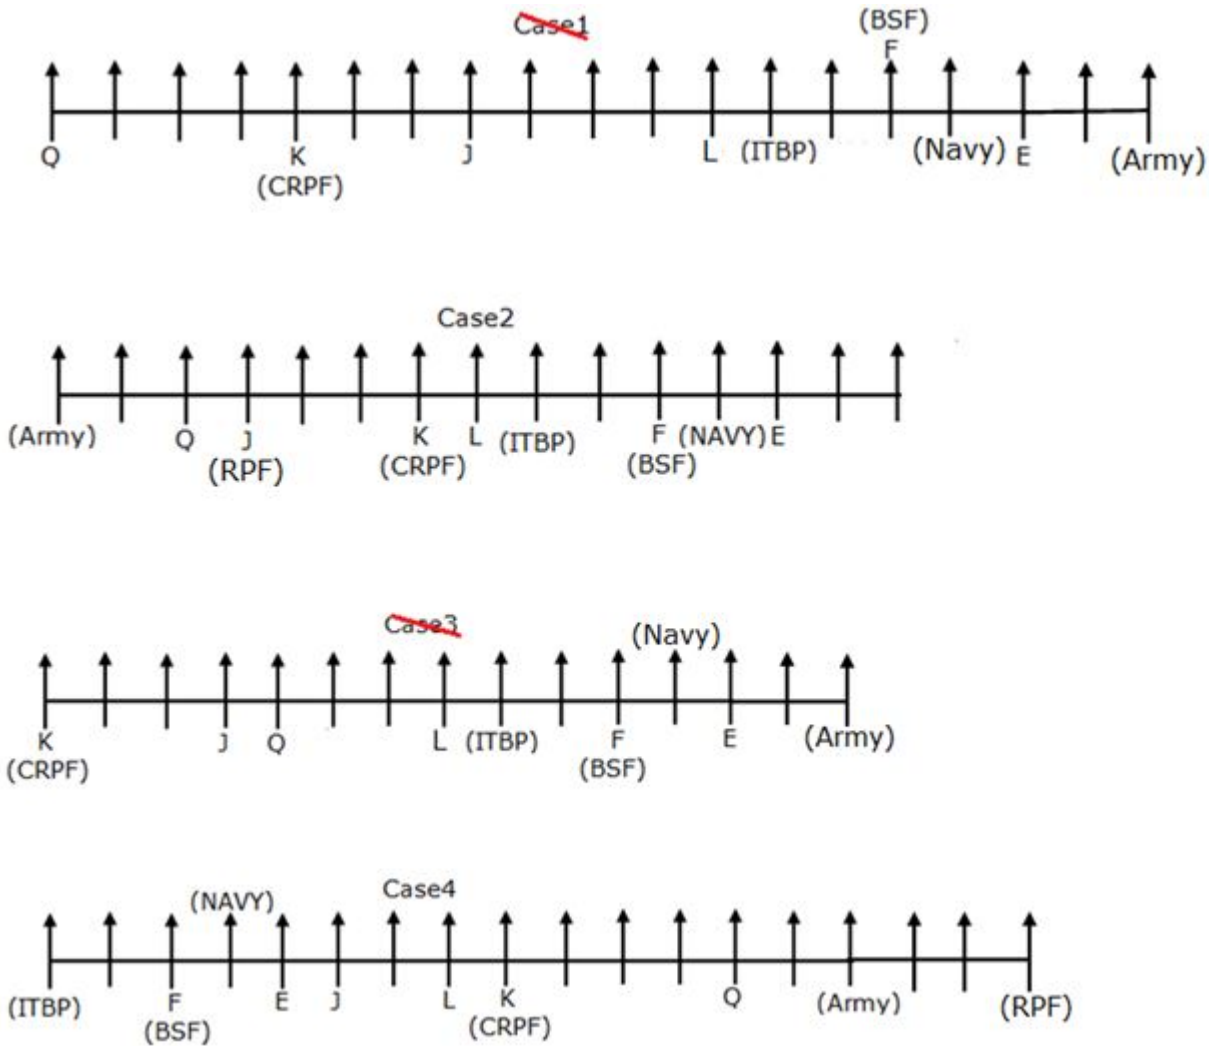

@QuizByMickey

Again we have,

- E doesn't sit at the end of the row
- The one who belongs to NAVY sits fourth from one of the ends of the row
- The one who belongs to NAVY sits adjacent to the one who belongs to BSF
- L sits four places away from the one who belongs to NAVY
- Six persons sit between L and the one who belongs to ARMY
- The one who belongs to RPF sits third to the right of the one who belongs to ARMY

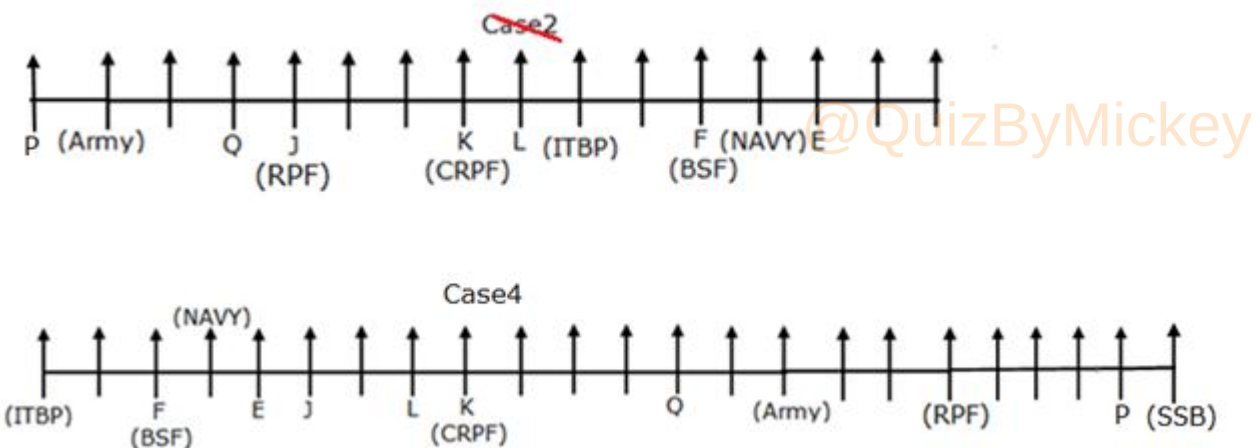

From this condition, Case1 and Case3 gets eliminated.

Again we have,

- Three persons sit between the one who belongs of RPF and P
- P sits immediate left of the one who belongs to SSB, who sits at one of the extreme ends.
- The number of persons sitting to the left of the one who belongs to SSB is multiple of eleven.

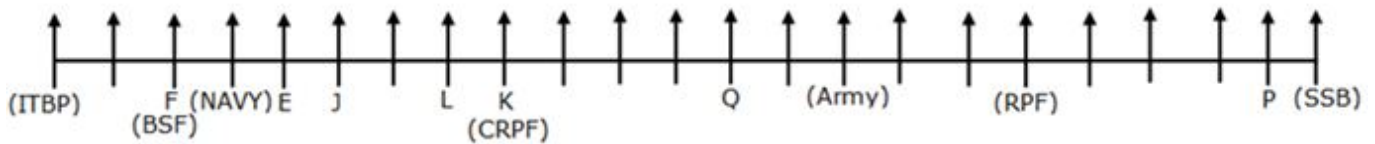

From this condition, Case2 gets eliminated. Case4 shows the final arrangement.

Answer: B

3. Questions

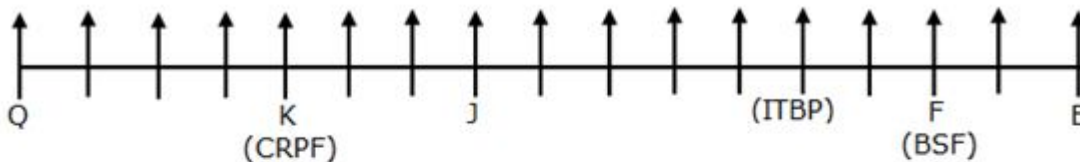

Final arrangement

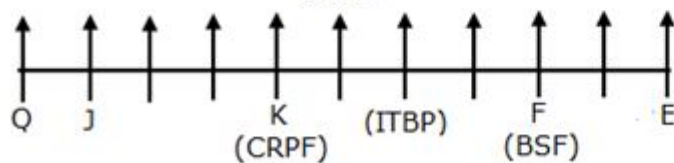

We have,

- Only three persons sit between Q and K
- K belongs to CRPF
- J sits three places away from K
- Four persons sit between J and the one who belongs to ITBP
- F belongs to BSF
- F sits second to the right of the one who belongs to ITBP
- F sits second to the left of E

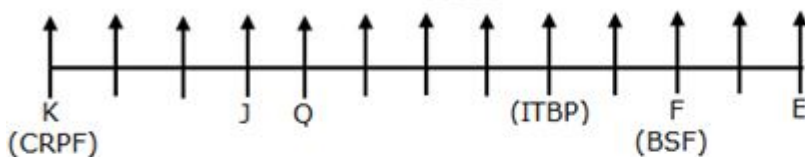

From this condition, there are four possibilities,

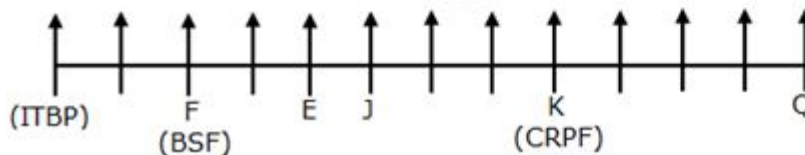

Case2

Case3

Case4

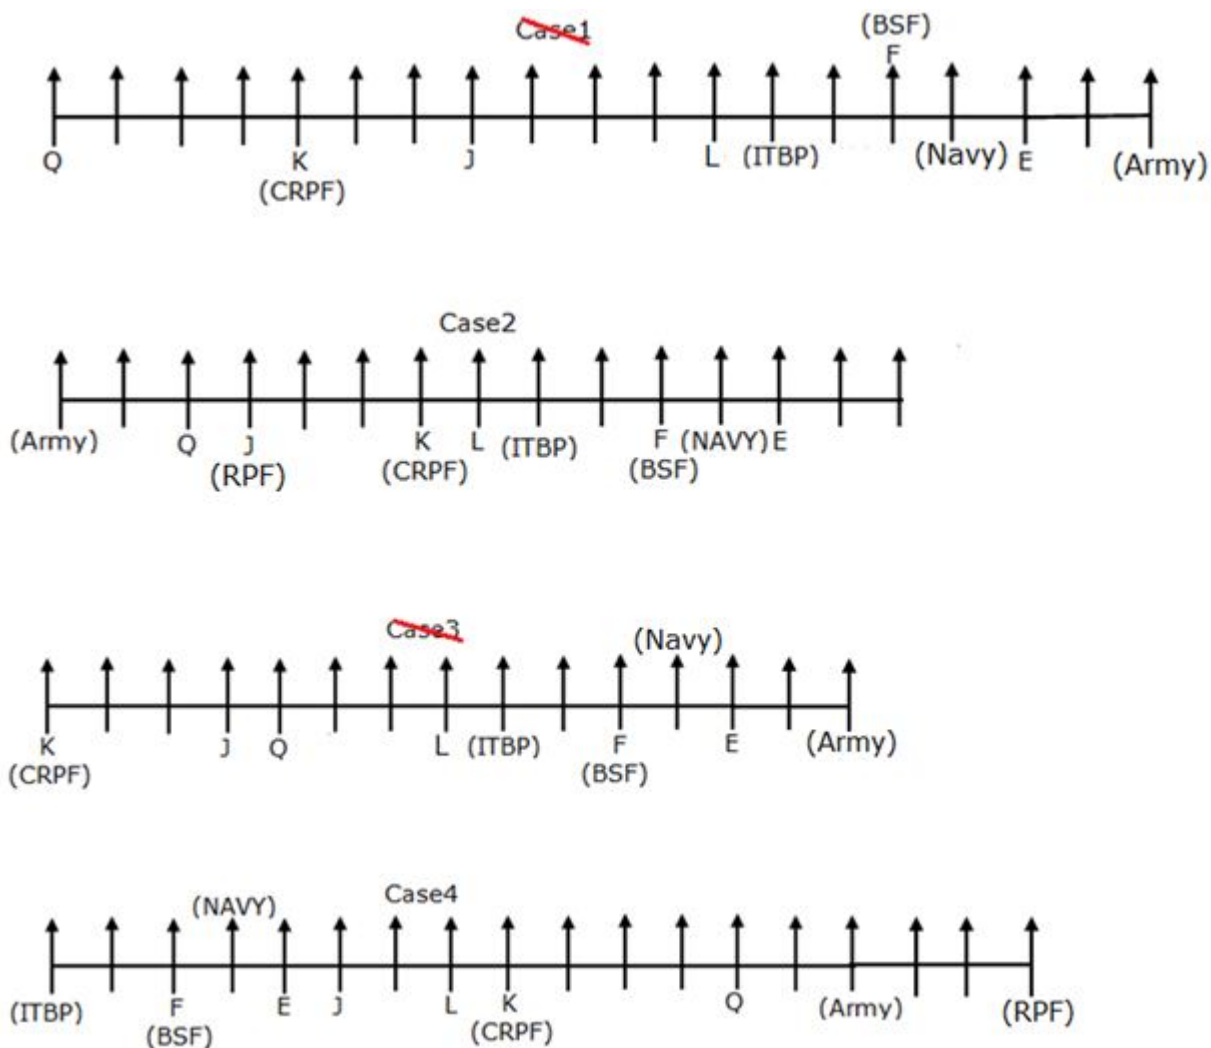

@QuizByMickey

Again we have,

- E doesn't sit at the end of the row
- The one who belongs to NAVY sits fourth from one of the ends of the row
- The one who belongs to NAVY sits adjacent to the one who belongs to BSF
- L sits four places away from the one who belongs to NAVY
- Six persons sit between L and the one who belongs to ARMY

- The one who belongs to RPF sits third to the right of the one who belongs to ARMY

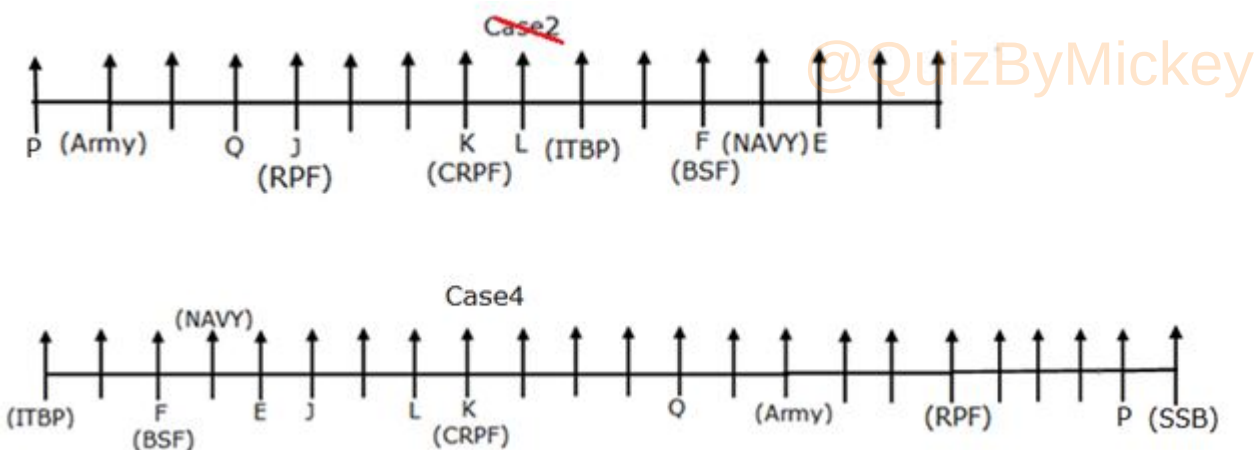

From this condition, Case1 and Case3 gets eliminated.

Again we have,

- Three persons sit between the one who belongs of RPF and P
- P sits immediate left of the one who belongs to SSB, who sits at one of the extreme ends.
- The number of persons sitting to the left of the one who belongs to SSB is multiple of eleven.

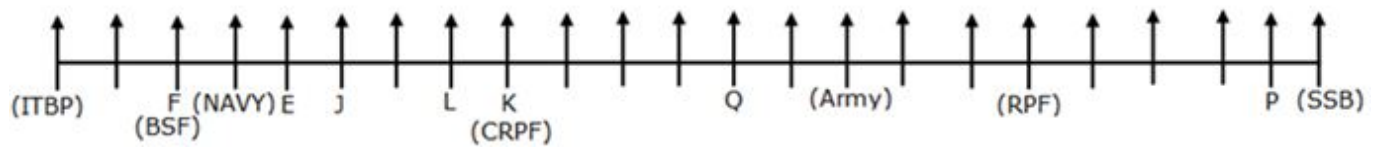

From this condition, Case2 gets eliminated. Case4 shows the final arrangement.

Answer: D

4. Questions

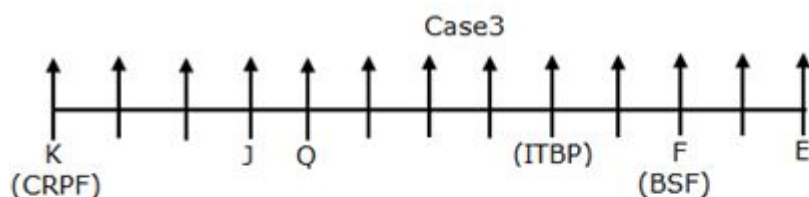

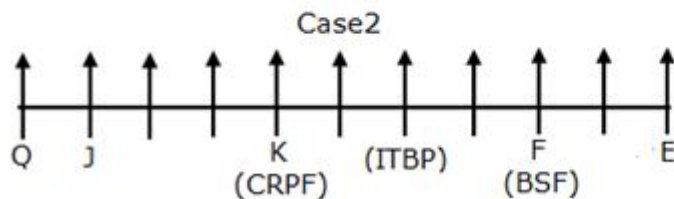

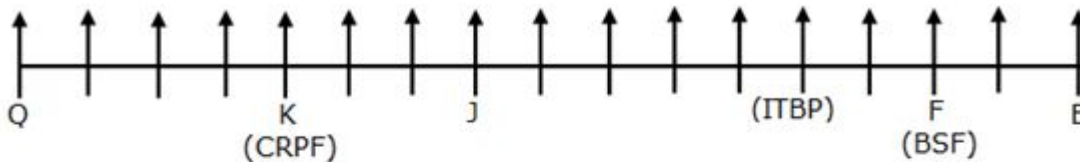

Final arrangement

We have,

- Only three persons sit between Q and K
- K belongs to CRPF
- J sits three places away from K
- Four persons sit between J and the one who belongs to ITBP
- F belongs to BSF
- F sits second to the right of the one who belongs to ITBP
- F sits second to the left of E

From this condition, there are four possibilities,

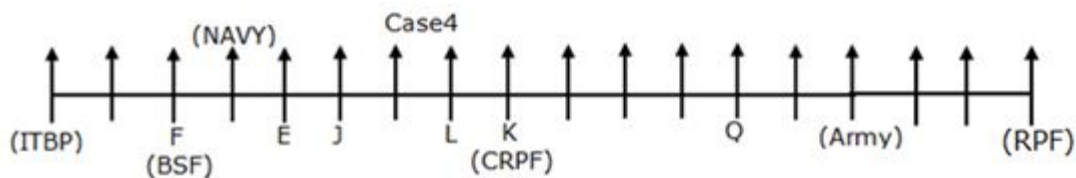

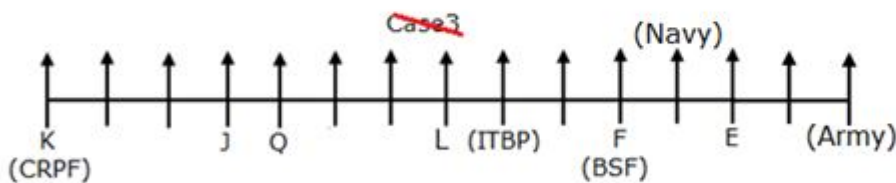

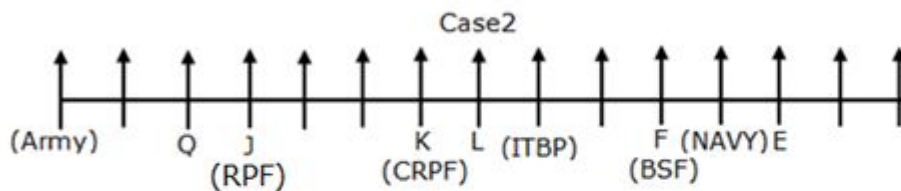

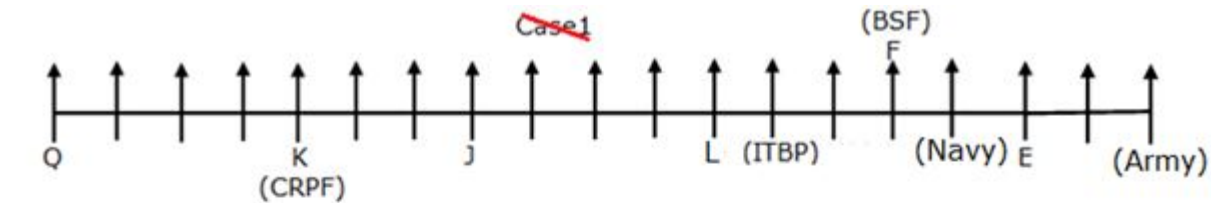

@QuizByMickey

Again we have,

- E doesn't sit at the end of the row
- The one who belongs to NAVY sits fourth from one of the ends of the row
- The one who belongs to NAVY sits adjacent to the one who belongs to BSF
- L sits four places away from the one who belongs to NAVY

- Six persons sit between L and the one who belongs to ARMY
- The one who belongs to RPF sits third to the right of the one who belongs to ARMY

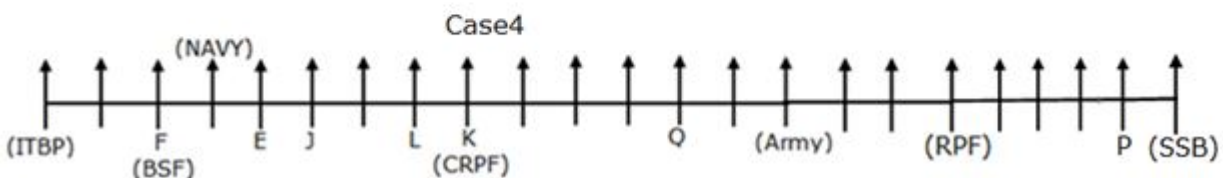

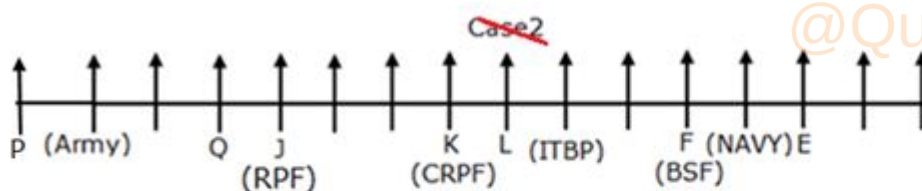

From this condition, Case1 and Case3 gets eliminated.

Again we have,

- Three persons sit between the one who belongs of RPF and P
- P sits immediate left of the one who belongs to SSB, who sits at one of the extreme ends.
- The number of persons sitting to the left of the one who belongs to SSB is multiple of eleven.

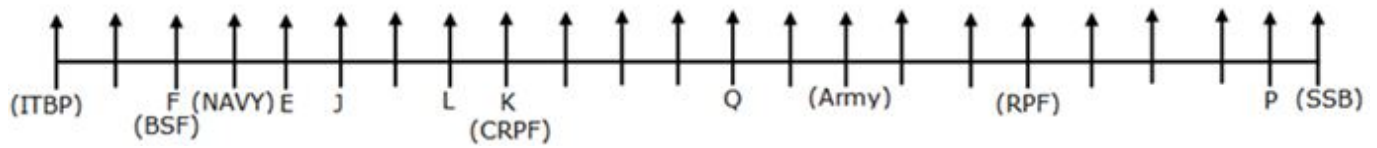

From this condition, Case2 gets eliminated. Case4 shows the final arrangement.

Answer: A

5. Questions

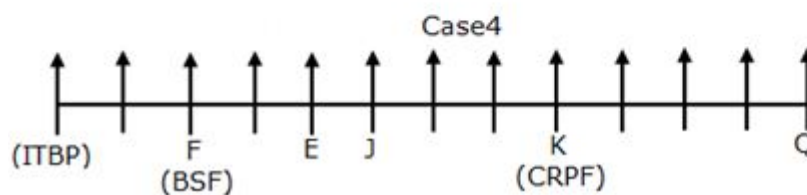

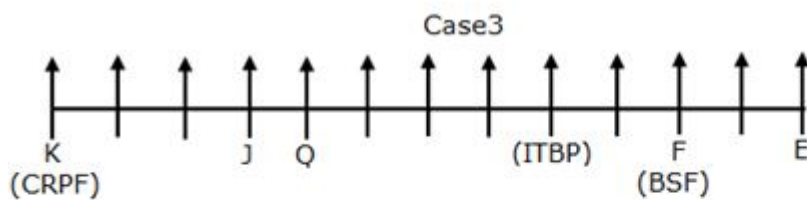

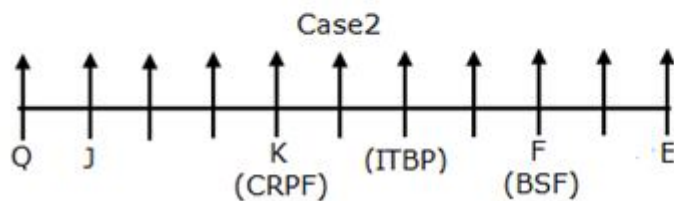

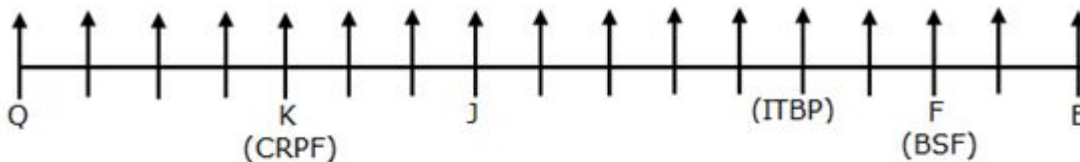

Final arrangement

We have,

- Only three persons sit between Q and K
- K belongs to CRPF
- J sits three places away from K
- Four persons sit between J and the one who belongs to ITBP
- F belongs to BSF
- F sits second to the right of the one who belongs to ITBP
- F sits second to the left of E

From this condition, there are four possibilities,

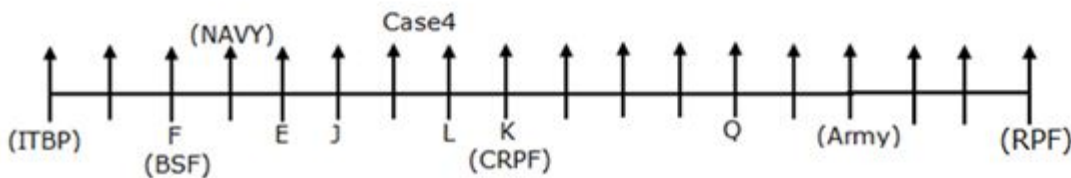

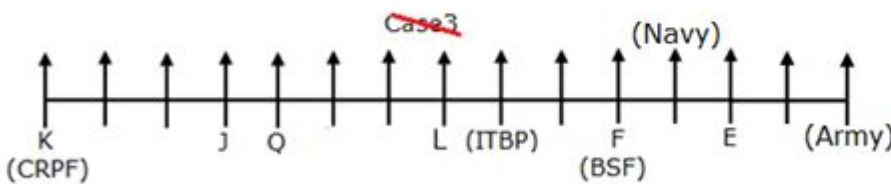

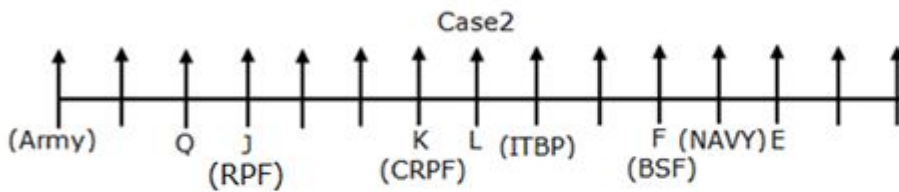

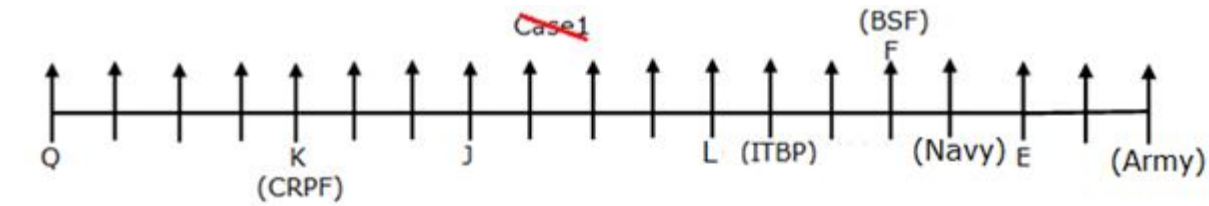

@QuizByMickey

Again we have,

- E doesn't sit at the end of the row
- The one who belongs to NAVY sits fourth from one of the ends of the row

- The one who belongs to NAVY sits adjacent to the one who belongs to BSF
- L sits four places away from the one who belongs to NAVY
- Six persons sit between L and the one who belongs to ARMY
- The one who belongs to RPF sits third to the right of the one who belongs to ARMY

From this condition, Case1 and Case3 gets eliminated.

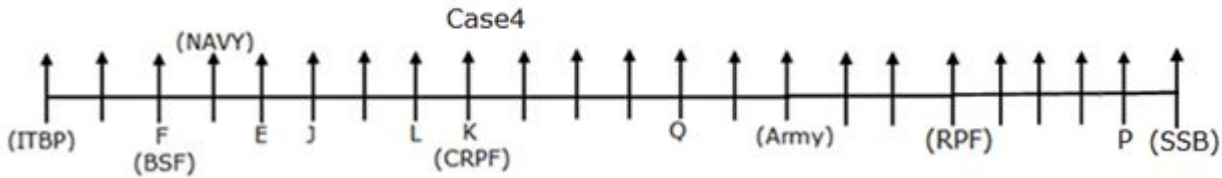

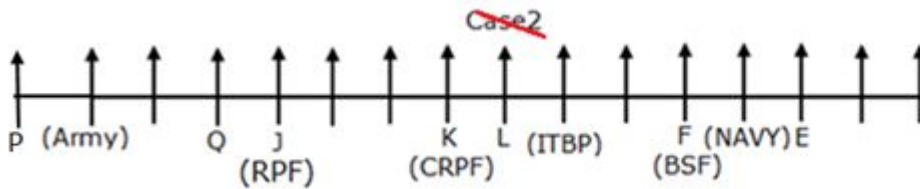

Again we have,

- Three persons sit between the one who belongs of RPF and P
- P sits immediate left of the one who belongs to SSB, who sits at one of the extreme ends.
- The number of persons sitting to the left of the one who belongs to SSB is multiple of eleven.

From this condition, Case2 gets eliminated. Case4 shows the final arrangement.

@QuizByMickey

Answer: E

6. Questions

Year	Person	Banks
2014	O	YES
2015	N	CSB
2016	Q	PNB
2017	S	Citi
2018	M	DCB
2019	R	ICICI
2020	T	IDFC FIRST
2021	P	HDFC
2022	U	RBL

- The one who joined in DCB joined in an even numbered year but not in the leap year.
- Only three persons joined between the one who joined in DCB and U, who joined immediately after the one who joined in HDFC.
- More than three persons joined between the one who joined in HDFC and Q, who doesn't join the first.
- The number of persons joined before Q is one more than the number of persons joined after P.

@QuizByMickey

	Case 1		Case 2		Case 3	
Year	Person	Banks	Person	Banks	Person	Banks
2014		DCB				
2015	P				P	
2016			Q			
2017		HDFC				HDFC
2018	U			DCB	U	
2019						
2020						
2021			P	HDFC		
2022	Q		U		Q	DCB

- The one who joined in ICICI joined in an odd numbered year where neither P nor Q joined in ICICI.
- S joined two years before the one who joined in ICICI but neither joined in HDFC nor in CSB.
- The number of persons joined between S and the one who joined in DCB is the same as the number of persons joined between Q and N.
- The number of persons joined after N is one less than the number of persons joined before the one who joined in RBL.

Hence, case 3 gets eliminated.

	Case 1		Case 2		Case 2a		Case 3	
Year	Person	Banks	Person	Banks	Person	Banks	Person	Banks
2014		DCB						
2015	P		S		N		P	
2016			Q		Q			
2017	N	HDFC		ICICI	S			HDFC
2018	U			DCB		DCB	U	
2019	S		N			ICICI	S	
2020		RBL						
2021		ICICI	P	HDFC	P	HDFC		ICICI
2022	Q		U		U	RBL	Q	DCB

- The one who joined in CSB joined four years before R, who joined immediately after M.
- O joined two years before the one who joined in PNB whereas T joined three years after the one who joined in Citi but doesn't join in YES.

Hence, cases 1 gets eliminated.

	Case 1		Case 2a	
Year	Person	Banks	Person	Banks
2014		DCB	O	YES
2015	P		N	CSB
2016		CSB	Q	PNB
2017	N	HDFC	S	Citi
2018	U	RBL	M	DCB
2019	S		R	ICICI
2020	R		T	IDFC FIRST
2021		ICICI	P	HDFC
2022	Q		U	RBL

Answer: C

7. Questions

Year	Person	Banks
2014	O	YES
2015	N	CSB
2016	Q	PNB
2017	S	Citi
2018	M	DCB
2019	R	ICICI
2020	T	IDFC FIRST
2021	P	HDFC
2022	U	RBL

- The one who joined in DCB joined in an even numbered year but not in the leap year.
- Only three persons joined between the one who joined in DCB and U, who joined immediately after the one who joined in HDFC.
- More than three persons joined between the one who joined in HDFC and Q, who doesn't join the first.
- The number of persons joined before Q is one more than the number of persons joined after P.

	Case 1		Case 2		Case 3	
Year	Person	Banks	Person	Banks	Person	Banks
2014		DCB				
2015	P				P	
2016			Q			
2017		HDFC				HDFC
2018	U			DCB	U	
2019						
2020						
2021			P	HDFC		
2022	Q		U		Q	DCB

- The one who joined in ICICI joined in an odd numbered year where neither P nor Q joined in ICICI.
- S joined two years before the one who joined in ICICI but neither joined in HDFC nor in CSB.
- The number of persons joined between S and the one who joined in DCB is the same as the number of persons joined between Q and N.
- The number of persons joined after N is one less than the number of persons joined before the one who joined in RBL.

Hence, case 3 gets eliminated.

2021	P	HDFC
2022	U	RBL

- The one who joined in DCB joined in an even numbered year but not in the leap year.
- Only three persons joined between the one who joined in DCB and U, who joined immediately after the one who joined in HDFC.
- More than three persons joined between the one who joined in HDFC and Q, who doesn't join the first.
- The number of persons joined before Q is one more than the number of persons joined after P.

	Case 1		Case 2		Case 3	
Year	Person	Banks	Person	Banks	Person	Banks
2014		DCB				
2015	P				P	
2016			Q			
2017		HDFC				HDFC
2018	U			DCB	U	
2019						
2020						
2021			P	HDFC		
2022	Q		U		Q	DCB

- The one who joined in ICICI joined in an odd numbered year where neither P nor Q joined in ICICI.
- S joined two years before the one who joined in ICICI but neither joined in HDFC nor in CSB.
- The number of persons joined between S and the one who joined in DCB is the same as the number of persons joined between Q and N.
- The number of persons joined after N is one less than the number of persons joined before the one who joined in RBL.

Hence, case 3 gets eliminated.

	Case 1		Case 2		Case 2a		Case 3	
Year	Person	Banks	Person	Banks	Person	Banks	Person	Banks
2014		DCB						
2015	P		S		N		P	
2016			Q		Q			
2017	N	HDFC		ICICI	S			HDFC
2018	U			DCB		DCB	U	
2019	S		N			ICICI	S	
2020		RBL						
2021		ICICI	P	HDFC	P	HDFC		ICICI
2022	Q		U		U	RBL	Q	DCB

- The one who joined in CSB joined four years before R, who joined immediately after M.
- O joined two years before the one who joined in PNB whereas T joined three years after the one who joined in Citi but doesn't join in YES.

Hence, cases 1 gets eliminated.

	Case 1		Case 2a	
Year	Person	Banks	Person	Banks
2014		DCB	O	YES
2015	P		N	CSB
2016		CSB	Q	PNB
2017	N	HDFC	S	Citi
2018	U	RBL	M	DCB
2019	S		R	ICICI
2020	R		T	IDFC FIRST
2021		ICICI	P	HDFC
2022	Q		U	RBL

Answer: B

11. Questions

Answer: C

Given series

4792 6387 5921 3986 7164

4792 6387 5921 3986 7164

7+9+2=18 is not divisible by 4

3+8+7=18 is divisible by 6

9+2+1=12 is not divisible by 5

9+8+6=23 is not divisible by 3

1+6+4=11 is not divisible by 7

12. Questions

Answer: B

Given series

4792 6387 5921 3986 7164

4792 6387 **5921** 3986 7164

16-6=10

15-9=6

14-3=11

17-9=8

13-5=8

@QuizByMickey

13. Questions

Answer: E

Given series

4792 6387 5921 3986 7164

22335777999886664411

9*6=54

14. Questions

Answer: D

Given series

4792 6387 **5921** 3986 7164

9742 3678 **1259** 9863 7641

9742=4+2=6

3678=7+8=15

1259=5+9=14

9863=6+3=9

7641=4+1=5

15. Questions

Answer: A

Given series

4792 6387 5921 3986 7164

93197762864756428931

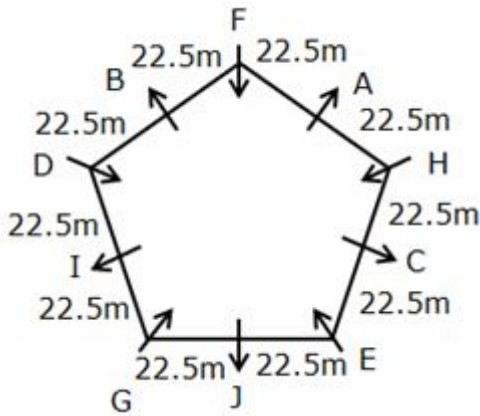

The 1st, 6th, 11th and 16th are the digits in descending order of the first number as it is even.

Same as 2nd, 7th, 12th and 17th are the digits in ascending order of the second number as it is odd and so on with the three remaining numbers in the series.

16. Questions

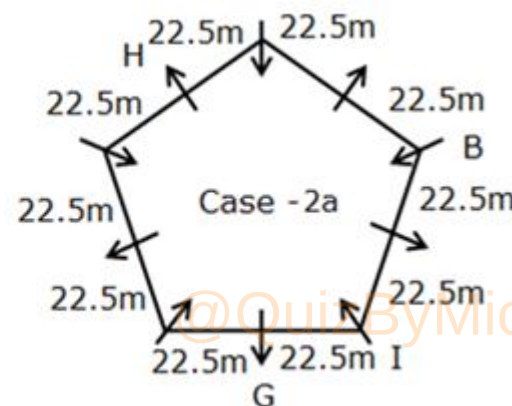

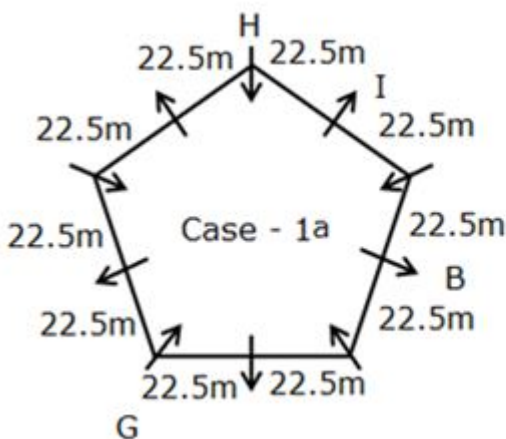

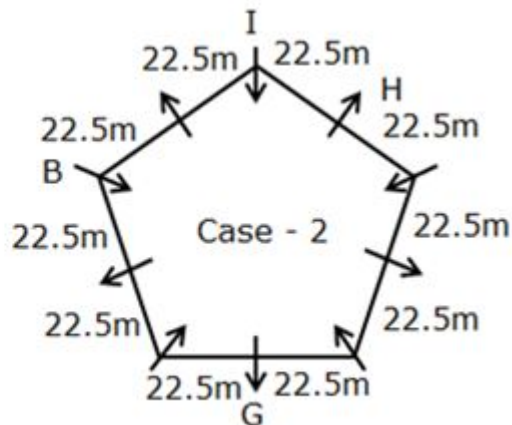

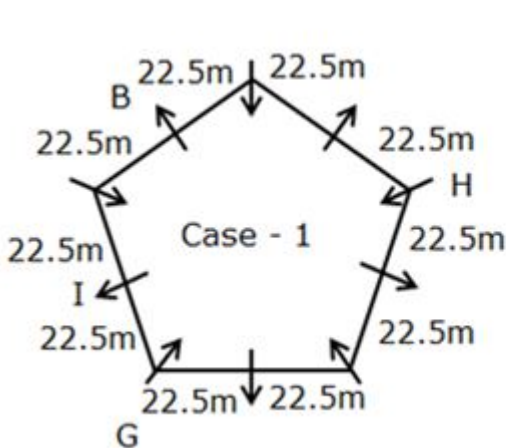

Final arrangement:

We have,

- H sits 90m away from G.
- H sits 67.5m away from B, who is not an immediate neighbour of G.
- I sits 45m to the left of B

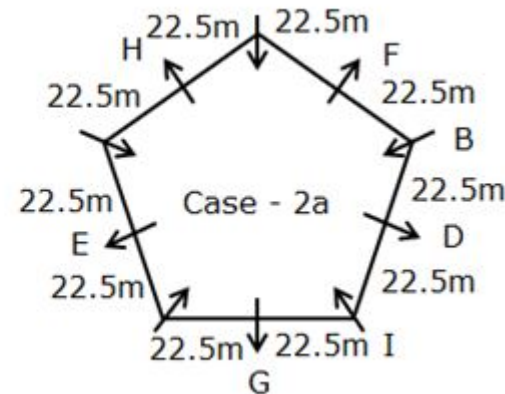

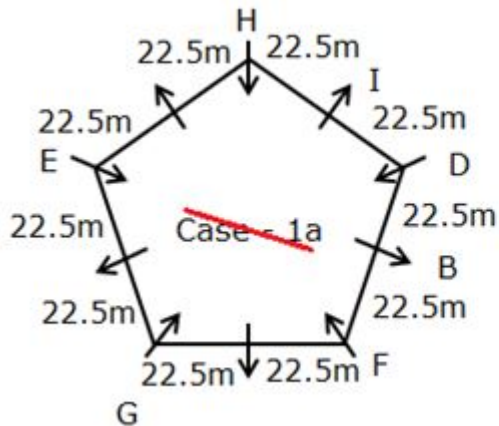

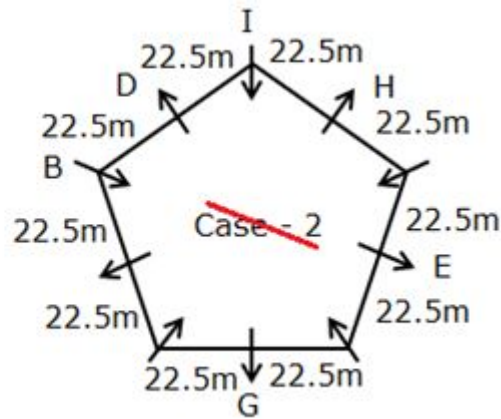

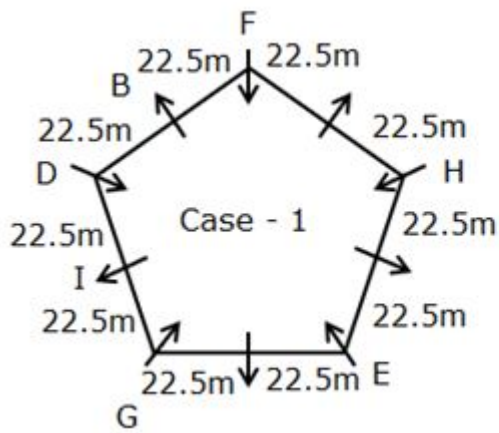

From the above conditions, there are four possibilities

Again we have,

- I and D are immediate neighbours.
- E sits 22.5m away from the one who sits opposite to D.
- The distance between B and G is 22.5m more than the distance between D and F, when measured from the left of both B and D.

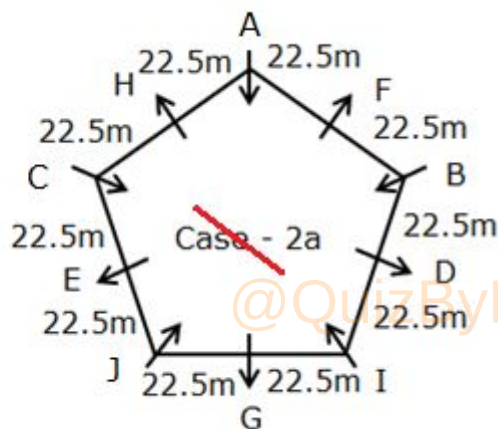

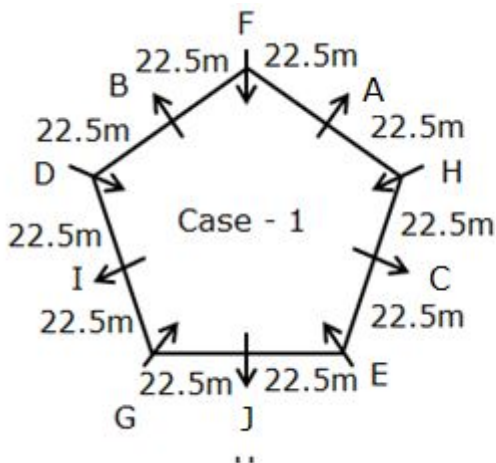

We cannot place F in cases 2 and 1a. Hence cases 2 and 1a are eliminated.

Again we have,

- The distance between E and H, when measured from the right of E is twice the distance between F and A, when measured from the left of F.
- J sits 90m away from A.
- C does not face the centre of the table.

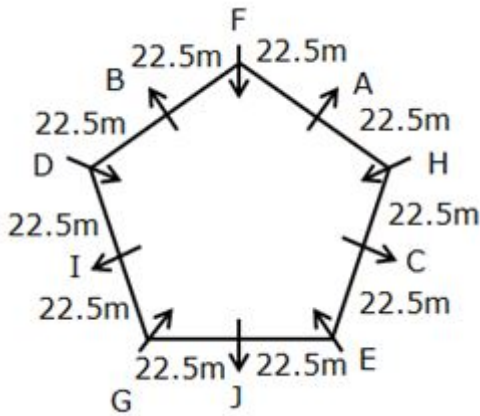

C faces the centre of the table in case 2a. Hence it is eliminated. Thus, case 1 gives the final arrangement.

Answer: C

17. Questions

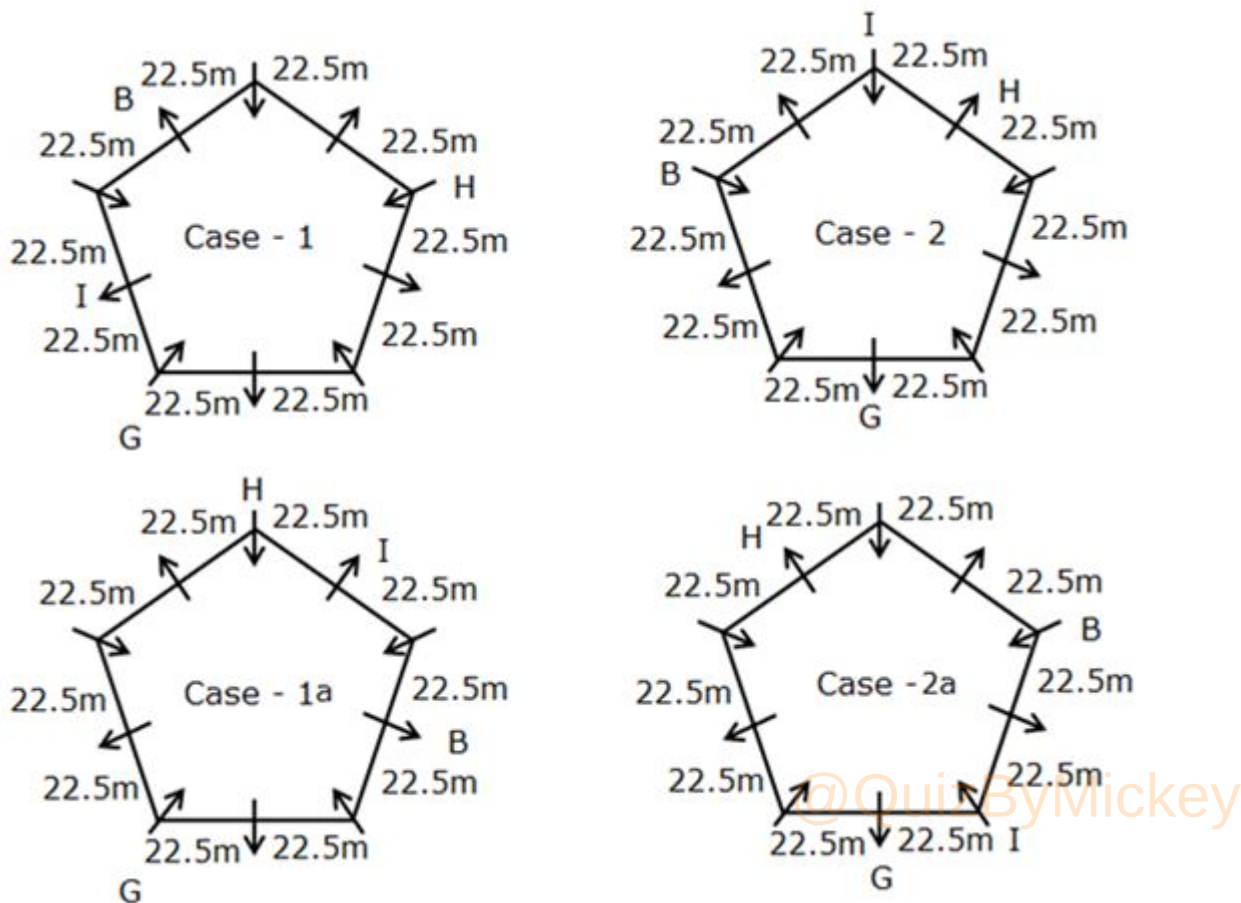

Final arrangement:

We have,

- H sits 90m away from G.
- H sits 67.5m away from B, who is not an immediate neighbour of G.
- I sits 45m to the left of B

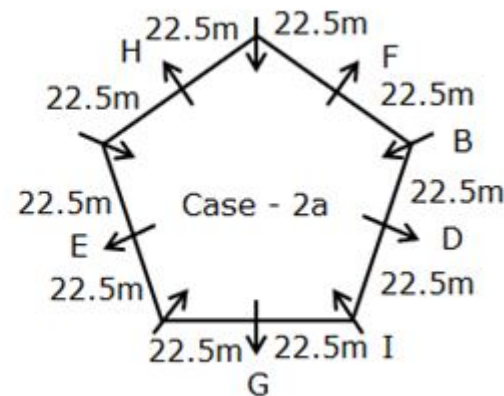

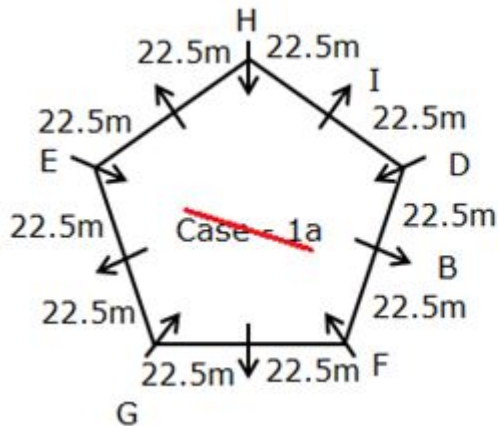

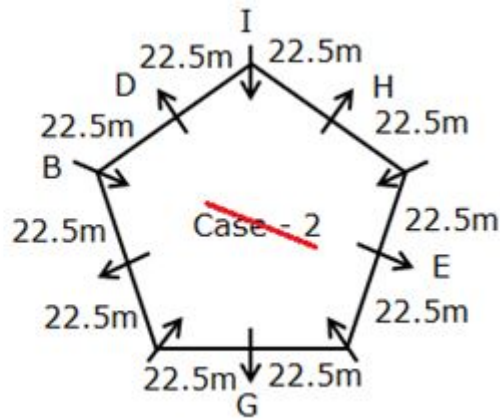

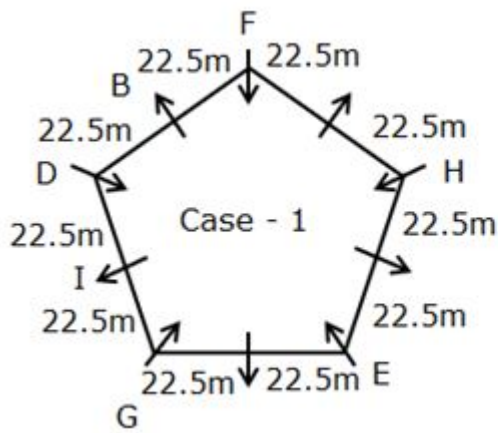

From the above conditions, there are four possibilities

Again we have,

- I and D are immediate neighbours.
- E sits 22.5m away from the one who sits opposite to D.
- The distance between B and G is 22.5m more than the distance between D and F, when measured from the left of both B and D.

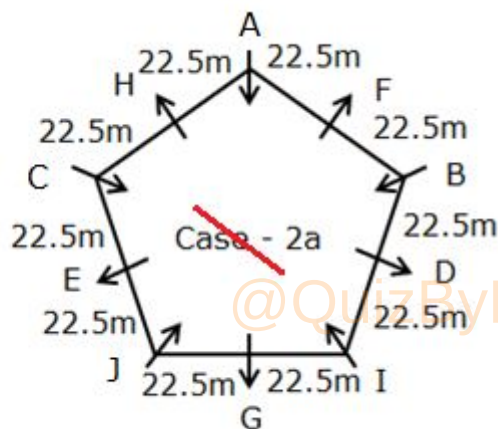

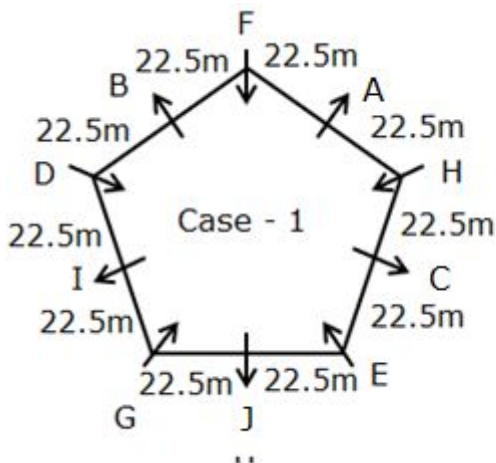

We cannot place F in cases 2 and 1a. Hence cases 2 and 1a are eliminated.

Again we have,

- The distance between E and H, when measured from the right of E is twice the distance between F and A, when measured from the left of F.
- J sits 90m away from A.
- C does not face the centre of the table.

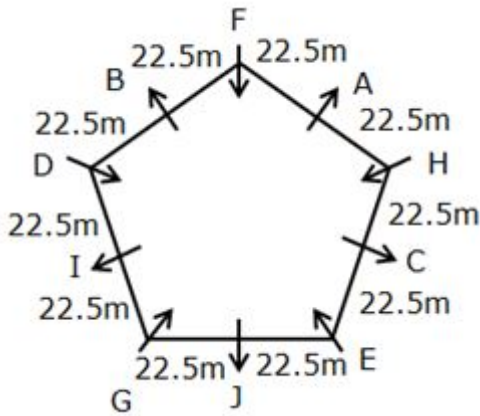

C faces the centre of the table in case 2a. Hence it is eliminated. Thus, case 1 gives the final arrangement.

Answer: E (All the persons are facing the centre of the table except option e)

18. Questions

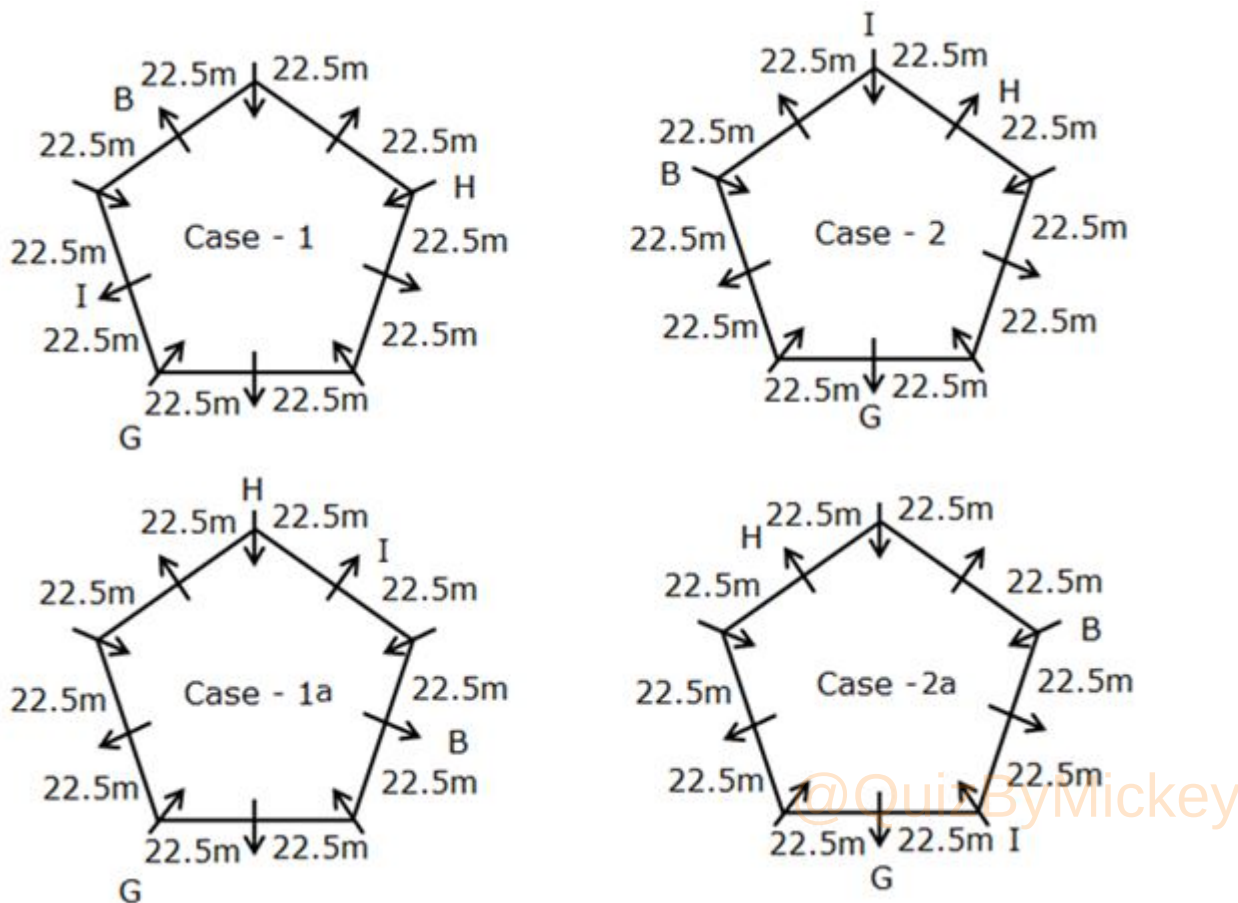

Final arrangement:

We have,

- H sits 90m away from G.
- H sits 67.5m away from B, who is not an immediate neighbour of G.
- I sits 45m to the left of B

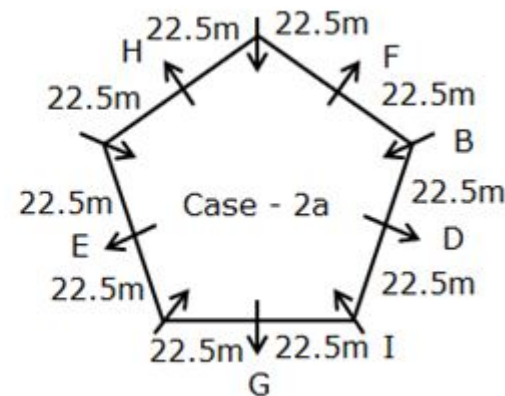

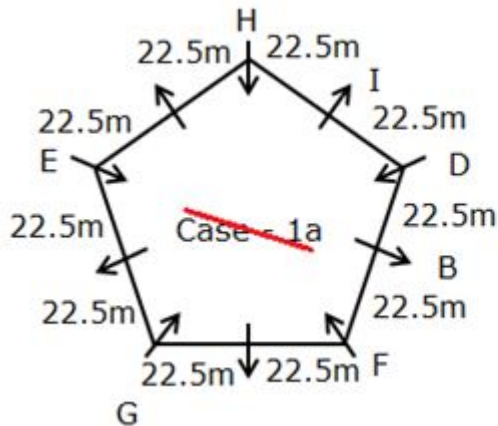

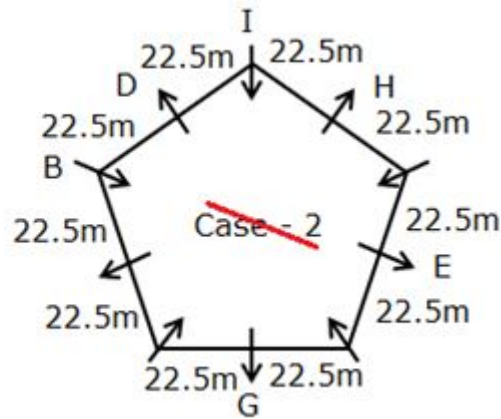

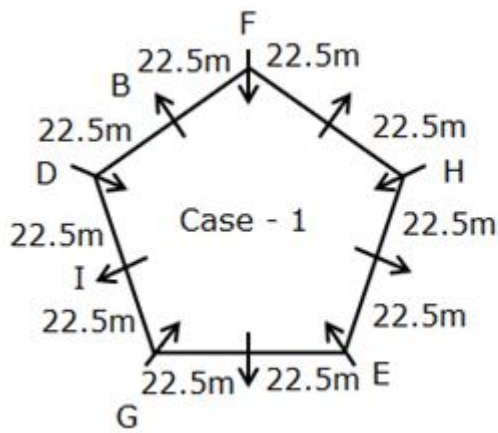

From the above conditions, there are four possibilities

Again we have,

- I and D are immediate neighbours.
- E sits 22.5m away from the one who sits opposite to D.
- The distance between B and G is 22.5m more than the distance between D and F, when measured from the left of both B and D.

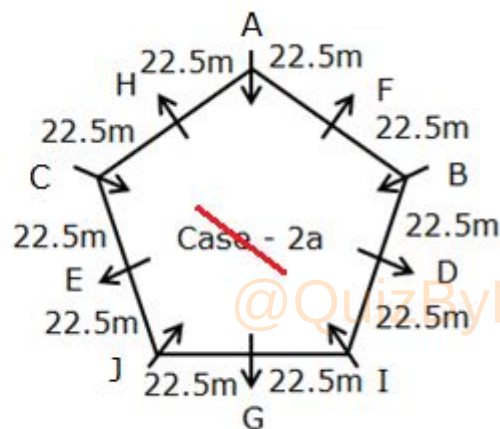

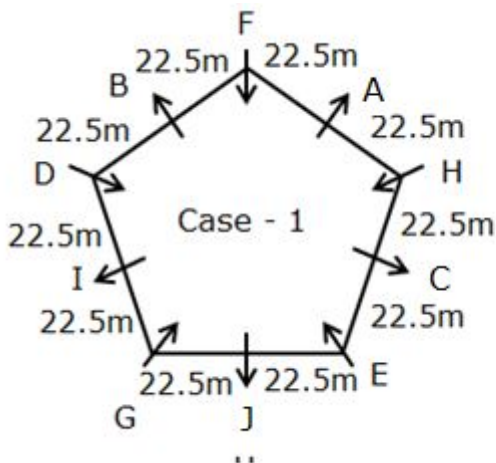

We cannot place F in cases 2 and 1a. Hence cases 2 and 1a are eliminated.

Again we have,

- The distance between E and H, when measured from the right of E is twice the distance between F and A, when measured from the left of F.
- J sits 90m away from A.
- C does not face the centre of the table.

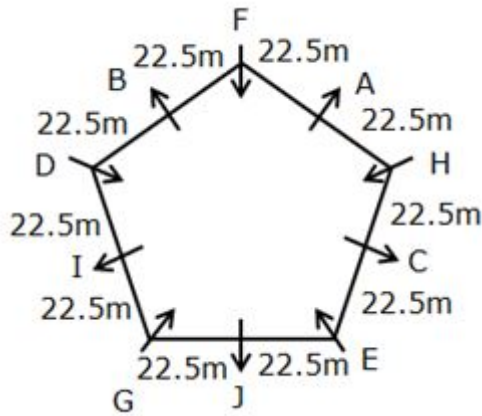

C faces the centre of the table in case 2a. Hence it is eliminated. Thus, case 1 gives the final arrangement.

Answer: B

19. Questions

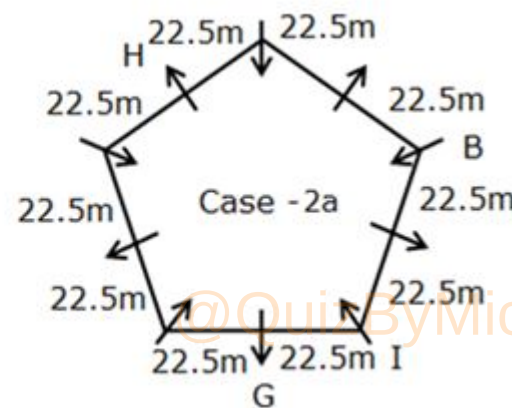

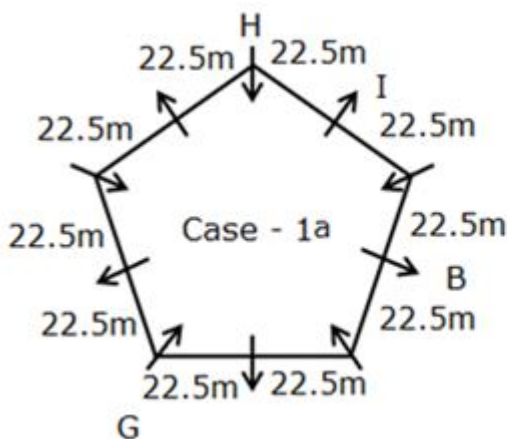

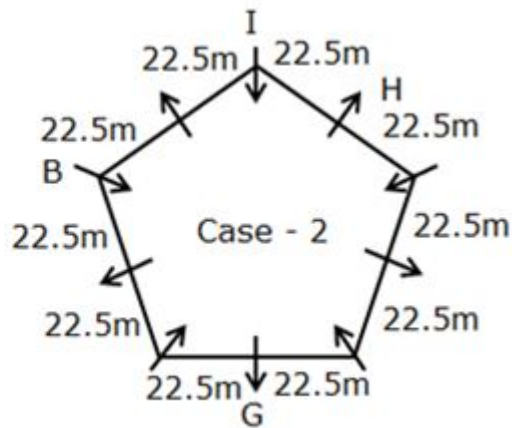

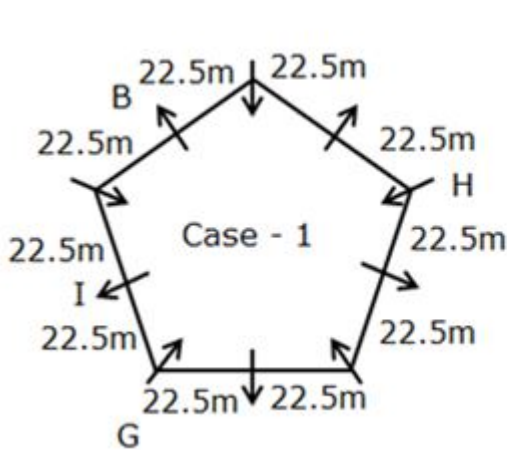

Final arrangement:

We have,

- H sits 90m away from G.
- H sits 67.5m away from B, who is not an immediate neighbour of G.
- I sits 45m to the left of B

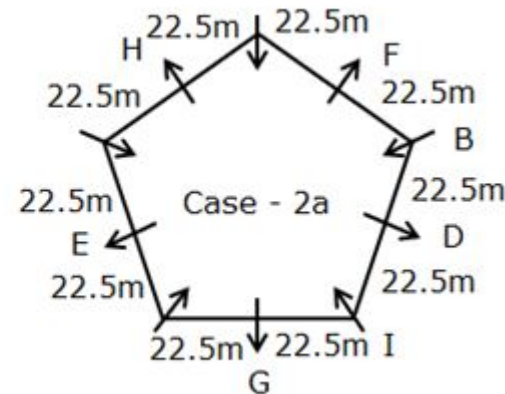

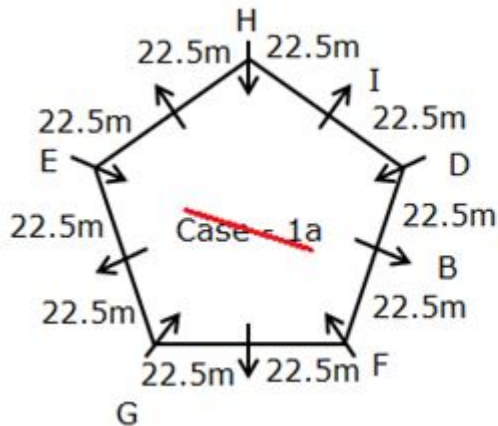

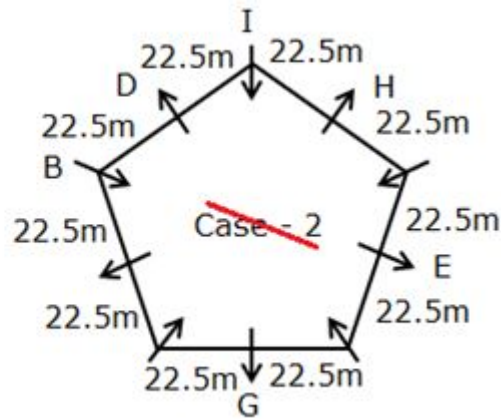

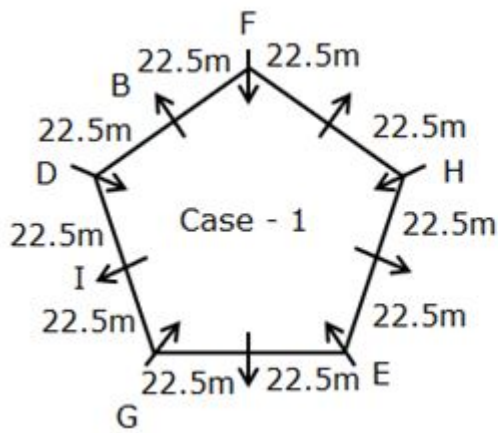

From the above conditions, there are four possibilities

Again we have,

- I and D are immediate neighbours.
- E sits 22.5m away from the one who sits opposite to D.
- The distance between B and G is 22.5m more than the distance between D and F, when measured from the left of both B and D.

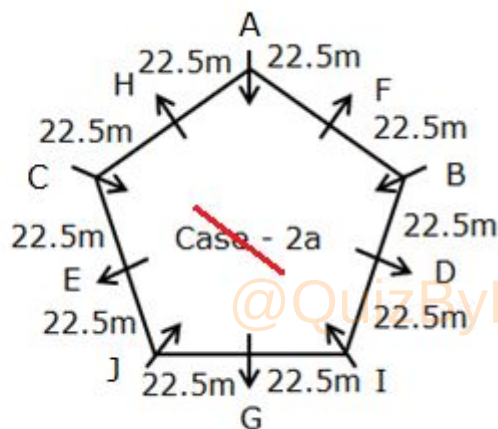

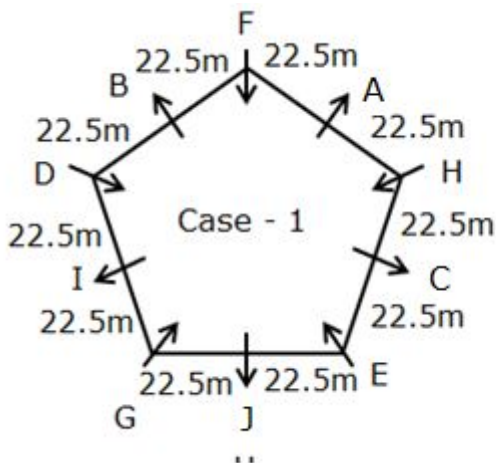

We cannot place F in cases 2 and 1a. Hence cases 2 and 1a are eliminated.

Again we have,

- The distance between E and H, when measured from the right of E is twice the distance between F and A, when measured from the left of F.
- J sits 90m away from A.
- C does not face the centre of the table.

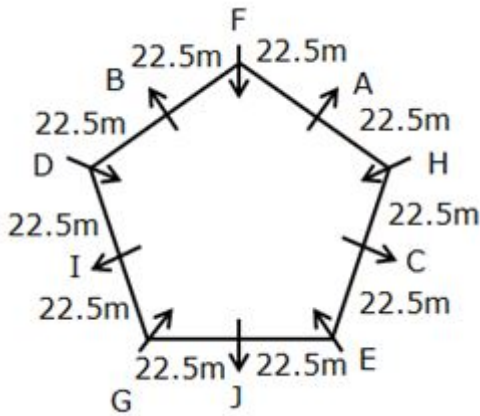

C faces the centre of the table in case 2a. Hence it is eliminated. Thus, case 1 gives the final arrangement.

Answer: D

20. Questions

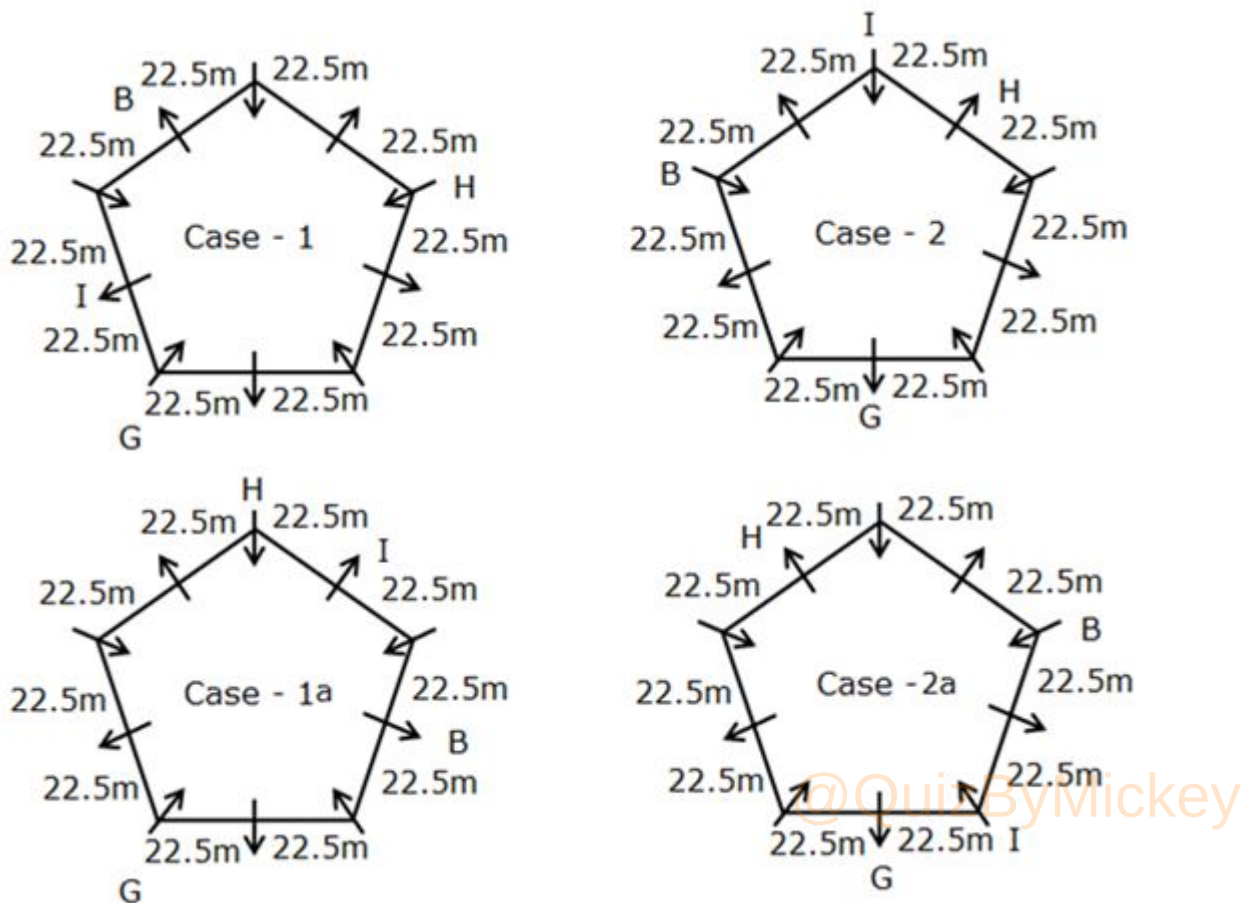

Final arrangement:

We have,

- H sits 90m away from G.
- H sits 67.5m away from B, who is not an immediate neighbour of G.
- I sits 45m to the left of B

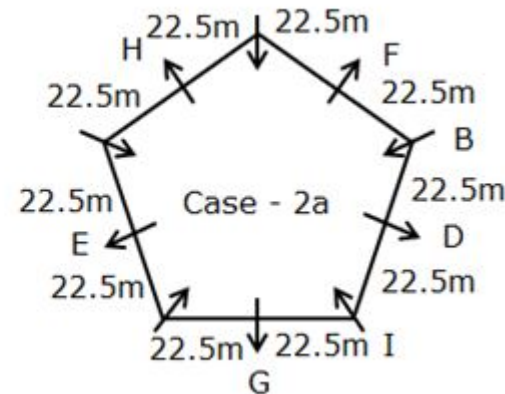

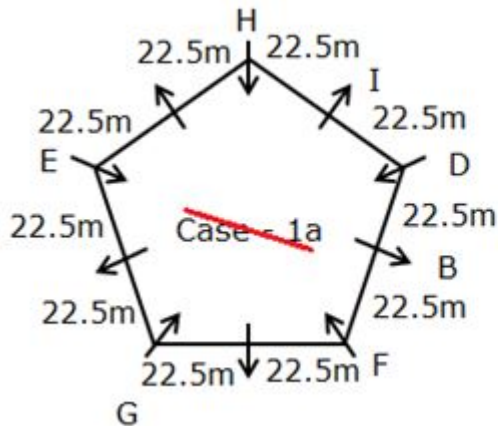

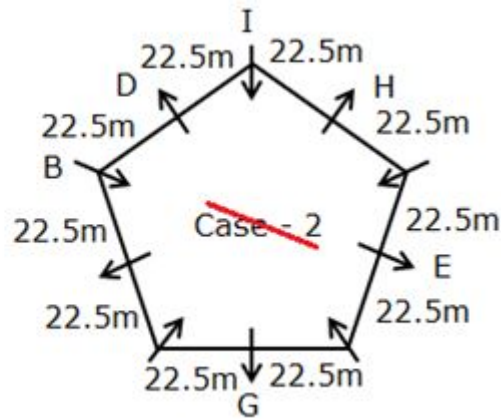

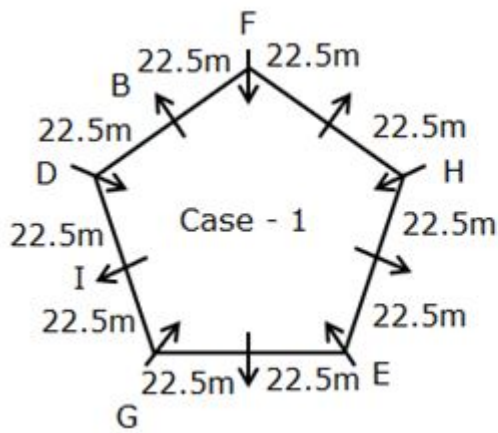

From the above conditions, there are four possibilities

Again we have,

- I and D are immediate neighbours.
- E sits 22.5m away from the one who sits opposite to D.
- The distance between B and G is 22.5m more than the distance between D and F, when measured from the left of both B and D.

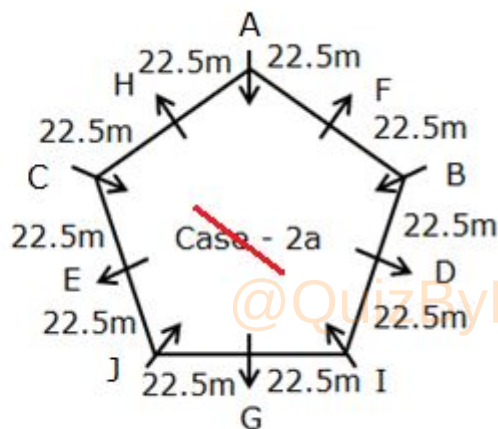

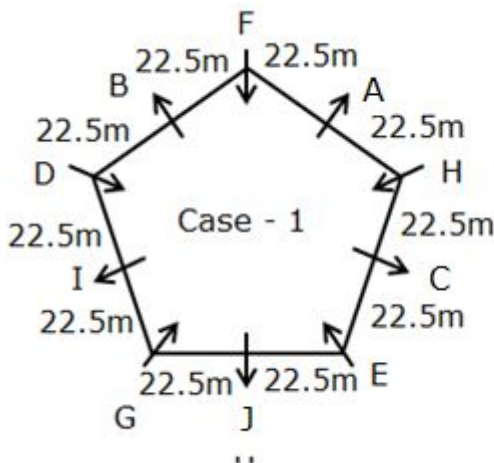

We cannot place F in cases 2 and 1a. Hence cases 2 and 1a are eliminated.

Again we have,

- The distance between E and H, when measured from the right of E is twice the distance between F and A, when measured from the left of F.
- J sits 90m away from A.
- C does not face the centre of the table.

C faces the centre of the table in case 2a. Hence it is eliminated. Thus, case 1 gives the final arrangement.

Answer: C
