

1. Questions

Read the following information carefully and answer the questions given below.

Eight family members, M, N, O, P, Q, R, S, T were born on two different dates, either 12 or 25 of four different months - April, July, September, December. No single parent has a child.

R was born on an odd-numbered date and is the mother-in-law of Q. P is the grandson of O, who was born first among all other family members. More than three persons were born between R and the one who is the daughter of M. Neither R nor Q is married to O. M is the father of Q and was born two months before his son. S was born immediately after M but not on an even-numbered date. Only two persons were born between S and N, who is the sister-in-law of T. T was born after P and both of them were born on odd-numbered dates. Q is the only sibling of N and is the father of P.

Who among the following person was born exactly between T and Q's son based on the final arrangement?

- a. R
- b. The one who was born immediately before P
- c. M
- d. The one who is daughter of O
- e. S

2. Questions

P was born in which of the following month and date?

- a. December 25
- b. September 25
- c. July 12
- d. April 25
- e. December 12

3. Questions

Which of the following statement(s) is TRUE with respect to the final arrangement?

- a. More than three persons were born before M
- b. Q was born three persons after O
- c. P was born before R
- d. S was born on an even-numbered date
- e. Only one person was born between Q and N

4. Questions

Who among the following person is P's paternal grandfather as per the final arrangement?

- a. The one who is the spouse of O
- b. N
- c. The one who is the father of T
- d. Q
- e. None of the above

5. Questions

Which of the following combinations is CORRECT with respect to the final arrangement?

- a. P — April 25; Q — September 12
- b. M — July 25; Q — September 12
- c. R — April 25; T — December 25
- d. S — July 12; P — September 25
- e. N — April 12; S — July 12

6. Questions

Study the following information carefully and answer the given questions.

12 persons – A, B, C, D, E, F, G, H, I, J, K, L – are seated in two parallel rows, Row-1 consists of A, B, C, D, E, F and Row-2 consists of G, H, I, J, K, L, each containing 6 persons facing each other. Row-1 faces south and Row-2 faces north. The persons sit in row 1 face the persons sit in row 2 and vice versa. Each person likes a different fruit: Apple, Banana, Mango, Orange, Grapes, Guava, Papaya, Kiwi, Pear, Litchi, Watermelon and Strawberry.

C sits second to the right of the one who faces H. Only two persons sit between H and the one who likes Apple. A sits at an extreme end, but opposite to the one who likes Apple. Only three persons sit between A and the one who faces the one who likes Pear. E sits second to the right of the one who likes Banana. As many persons sit to the right of the one who likes Banana as to the right of the one who likes Guava. Neither J nor K likes Pear or Apple. L sits third to the left of the one who sits opposite to the one who likes Orange. The one who likes Orange does not sit at any extreme end. B is an immediate neighbor of F, who likes Papaya. Only two persons sit between K and the one who facing the one who likes Strawberry. C does not like Strawberry. I sit third to the left of G. The one who likes Grapes sits to the left of the one who likes kiwi and to the right of the one who likes Watermelon. The one who likes Watermelon is an immediate neighbor of the one who faces the one who likes Mango.

Who among the following person sits to the immediate left of the one who is facing the one who likes Papaya?

- a. The one who likes grapes
- b. I
- c. The one who likes watermelon

- d. L
- e. The one who likes pear

7. Questions

Which of the following pairs is correctly matched with respect to the final arrangement?

- a. C – Orange
- b. L – Apple
- c. J – Guava
- d. K – Grapes
- e. B – Pear

8. Questions

How many persons sit between A and D with respect to the final arrangement?

- a. None
- b. One
- c. Two
- d. Three
- e. More than three

9. Questions

If we interchange the positions of I and H, then who among the following person sits second to the right of the one facing I?

- a. The one who likes Mango
- b. D
- c. The one who likes Papaya
- d. A
- e. No one

@QuizByMickey

10. Questions

Which of the following fruit is liked by the person sitting to the immediate right of D as per the final arrangement?

- a. Kiwi
- b. Pear
- c. Grapes

- d. Strawberry
- e. None of these

11. Questions

Study the following information carefully and answer the below questions.

1728 4836 6594 3045 8916

If the sum of the first and third digits from the left end of each number is taken, then which of the following numbers gets the third-highest value?

- a. 4836
- b. 6594
- c. 3045
- d. 1728
- e. Both 4836 and 3045

12. Questions

Which of the following numbers is exactly divisible by 18?

- a. 8916
- b. 1728
- c. 4836
- d. 3045
- e. 6594

13. Questions

If 1 is added to each odd digit and 1 is subtracted from each even digit (if the result is 10, only 1 is taken and 0 remains unchanged), and then all the newly formed digits in each numbers are arranged in ascending order, which number will be third to the right of the number which is second from the left end?

- a. 1278
- b. 1356
- c. 3457
- d. 1257
- e. 0346

@QuizByMickey

14. Questions

If the sum of the digits of each number is arranged in descending order from left to right, then

which of the following number will be second from the right end?

- a. 18
- b. 24
- c. 21
- d. 12
- e. None of these

15. Questions

If all the numbers are arranged in ascending order from left to right and then the digits in each number are arranged in decreasing order. Which of the following number will be the second lowest number?

- a. 8721
- b. 9861
- c. 8643
- d. 5430
- e. 9654

16. Questions

A number and word rearrangement machine rearrange step by step following a certain rule. Study the following information carefully and answer the following questions.

Input: Arcon160 Bre1107 Cint306 Dermo190 Elsha290 Fovik390 Gursor940 Helin590

Step I: nocra7 lerb8 (a) omred10 ahsle11 kivof12 (b) nileh14

Step II: pqetc14 ngtd16 vpke18 (c) cjung22 mkxqh24 tqutwi26 pkngj28

Step III: cjung22 mkxqh24 (d) pkngj28 pqetc14 qotgf20 (e) vpke18

Step III is the final output.

Which of the following options correctly replaces (a) in Step I?

- a. icnt9
- b. tnic9
- c. ntic9
- d. ctin9
- e. tcin9

17. Questions

Which of the following options correctly replaces (b) in Step I?

- a. rusrog13
- b. rugros13
- c. sugror13
- d. rosgur13
- e. rosrug13

18. Questions

Which of the following options correctly replaces (c) in Step II?

- a. qotgf20
- b. gfqot20
- c. qtgof20
- d. gtqof20
- e. qfgot20

19. Questions

Which of the following options correctly replaces (d) in Step III?

- a. gntd16
- b. ntdg16
- c. gtnd16
- d. ngtd16
- e. ntgd16

20. Questions

Which of the following options correctly replaces (e) in Step III?

- a. tutqwi26
- b. twitqu26
- c. tqutwi26
- d. tuqwit26
- e. qtwiut26

@QuizByMickey

Explanations:**1. Questions**

Final Arrangement:

Months	Dates	Persons
April	12	O
	25	R
July	12	M
	25	S
September	12	Q
	25	P
December	12	N
	25	T

$$S (+) = R (-) \quad M (+) = O (-)$$

$$\begin{array}{c}
 | \qquad | \\
 T (-) = Q (+) - N (-) \\
 | \\
 P (+)
 \end{array}$$

We have,

- R was born on an odd-numbered date and is the mother-in-law of Q.
- P is the grandson of O, who was born first among all other family members.

From the above condition, there are four possibilities.

@QuizByMickey

Months	Dates	Case-1	Case-2	Case-3	Case-4
		Persons	Persons	Persons	Persons
April	12	O	O	O	O
	25	R			
July	12				
	25		R		
September	12				
	25			R	
December	12				
	25				R

1) R (-) = ()

|

() = Q ()

2) O ()

|

()

|

P (+)

Again, we have,

- More than three persons were born between R and the one who is the daughter of M.
- Neither R nor Q is married to O.
- M is the father of Q and was born two months before his son.
- S was born immediately after M but not on an even-numbered date.
- Only two persons were born between S and N, who is the sister-in-law of T.
- T was born after P and both of them were born on odd-numbered dates.
- Q is the only sibling of N and is the father of P.
- More than three persons were born between R and the one who is the daughter of M.

From the above condition, case 2, case 3 and case 4 get eliminated because more than three persons were born between R and the one who is the daughter of M, which is not satisfied.

Hence, case-1 shows the final arrangement.

Months	Dates	Case-1	Case-2	Case-3	Case-4
		Persons	Persons	Persons	Persons
April	12	O	O	O	O
	25	R		P	P
July	12	M		M	M
	25	S	R	S	S
September	12	Q		Q	Q
	25	P		R	T
December	12	N		N	N
	25	T		T	R

S (+) = R (-) M (+) = O (-)

$\begin{array}{|c|} \hline \\ \hline \end{array}$
 $\begin{array}{|c|} \hline \\ \hline \end{array}$

T (-) = Q (+) - N (-)

$\begin{array}{|c|} \hline \\ \hline \end{array}$

P (+)

Answer: D

2. Questions

Final Arrangement:

@QuizByMickey

Months	Dates	Persons
April	12	O
	25	R
July	12	M
	25	S
September	12	Q
	25	P
December	12	N
	25	T

S (+) = R (-) M (+) = O (-)

$$\begin{array}{c} | \quad | \\ | \quad | \\ T (-) = Q (+) - N (-) \\ | \\ P (+) \end{array}$$

We have,

- R was born on an odd-numbered date and is the mother-in-law of Q.
- P is the grandson of O, who was born first among all other family members.

From the above condition, there are four possibilities.

@QuizByMickey

Months	Dates	Case-1	Case-2	Case-3	Case-4
		Persons	Persons	Persons	Persons
April	12	O	O	O	O
	25	R			
July	12				
	25		R		
September	12				
	25			R	
December	12				
	25				R

1) R (-) = ()

|

() = Q ()

2) O ()

|

()

|

P (+)

Again, we have,

- More than three persons were born between R and the one who is the daughter of M.
- Neither R nor Q is married to O.
- M is the father of Q and was born two months before his son.
- S was born immediately after M but not on an even-numbered date.
- Only two persons were born between S and N, who is the sister-in-law of T.
- T was born after P and both of them were born on odd-numbered dates.
- Q is the only sibling of N and is the father of P.
- More than three persons were born between R and the one who is the daughter of M.

From the above condition, case 2, case 3 and case 4 get eliminated because more than three persons were born between R and the one who is the daughter of M, which is not satisfied.

Hence, case-1 shows the final arrangement.

Months	Dates	Case-1	Case-2	Case-3	Case-4
		Persons	Persons	Persons	Persons
April	12	O	O	O	O
	25	R		P	P
July	12	M		M	M
	25	S	R	S	S
September	12	Q		Q	Q
	25	P		R	T
December	12	N		N	N
	25	T		T	R

S (+) = R (-) M (+) = O (-)

$\begin{array}{|c|} \hline | \\ \hline \end{array}$
 $\begin{array}{|c|} \hline | \\ \hline \end{array}$

T (-) = Q (+) - N (-)

$\begin{array}{|c|} \hline | \\ \hline \end{array}$

P (+)

Answer: B

3. Questions

Final Arrangement:

@QuizByMickey

Months	Dates	Persons
April	12	O
	25	R
July	12	M
	25	S
September	12	Q
	25	P
December	12	N
	25	T

S (+) = R (-) M (+) = O (-)

$$\begin{array}{c} | \qquad | \\ | \qquad | \\ T (-) = Q (+) - N (-) \\ | \\ P (+) \end{array}$$

We have,

- R was born on an odd-numbered date and is the mother-in-law of Q.
- P is the grandson of O, who was born first among all other family members.

From the above condition, there are four possibilities.

@QuizByMickey

Months	Dates	Case-1	Case-2	Case-3	Case-4
		Persons	Persons	Persons	Persons
April	12	O	O	O	O
	25	R			
July	12				
	25		R		
September	12				
	25			R	
December	12				
	25				R

1) R (-) = ()

|

() = Q ()

2) O ()

|

()

|

P (+)

Again, we have,

- More than three persons were born between R and the one who is the daughter of M.
- Neither R nor Q is married to O.
- M is the father of Q and was born two months before his son.
- S was born immediately after M but not on an even-numbered date.
- Only two persons were born between S and N, who is the sister-in-law of T.
- T was born after P and both of them were born on odd-numbered dates.
- Q is the only sibling of N and is the father of P.
- More than three persons were born between R and the one who is the daughter of M.

From the above condition, case 2, case 3 and case 4 get eliminated because more than three persons were born between R and the one who is the daughter of M, which is not satisfied.

Hence, case-1 shows the final arrangement.

Months	Dates	Case-1	Case-2	Case-3	Case-4
		Persons	Persons	Persons	Persons
April	12	O	O	O	O
	25	R		P	P
July	12	M		M	M
	25	S	R	S	S
September	12	Q		Q	Q
	25	P		R	T
December	12	N		N	N
	25	T		T	R

S (+) = R (-) M (+) = O (-)

$\begin{array}{|c|} \hline | \\ \hline \end{array}$
 $\begin{array}{|c|} \hline | \\ \hline \end{array}$

T (-) = Q (+) - N (-)

$\begin{array}{|c|} \hline | \\ \hline \end{array}$

P (+)

Answer: E

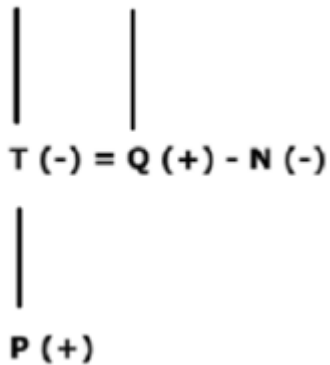

4. Questions

Final Arrangement:

@QuizByMickey

Months	Dates	Persons
April	12	O
	25	R
July	12	M
	25	S
September	12	Q
	25	P
December	12	N
	25	T

S (+) = R (-) M (+) = O (-)

We have,

- R was born on an odd-numbered date and is the mother-in-law of Q.
- P is the grandson of O, who was born first among all other family members.

From the above condition, there are four possibilities.

Months	Dates	Case-1	Case-2	Case-3	Case-4
		Persons	Persons	Persons	Persons
April	12	O	O	O	O
	25	R			
July	12				
	25		R		
September	12				
	25			R	
December	12				
	25				R

1) R (-) = ()

|

() = Q ()

2) O ()

|

()

|

P (+)

Again, we have,

- More than three persons were born between R and the one who is the daughter of M.
- Neither R nor Q is married to O.
- M is the father of Q and was born two months before his son.
- S was born immediately after M but not on an even-numbered date.
- Only two persons were born between S and N, who is the sister-in-law of T.
- T was born after P and both of them were born on odd-numbered dates.
- Q is the only sibling of N and is the father of P.
- More than three persons were born between R and the one who is the daughter of M.

From the above condition, case 2, case 3 and case 4 get eliminated because more than three persons were born between R and the one who is the daughter of M, which is not satisfied.

Hence, case-1 shows the final arrangement.

Months	Dates	Case-1	Case-2	Case-3	Case-4
		Persons	Persons	Persons	Persons
April	12	O	O	O	O
	25	R		P	P
July	12	M		M	M
	25	S	R	S	S
September	12	Q		Q	Q
	25	P		R	T
December	12	N		N	N
	25	T		T	R

S (+) = R (-) M (+) = O (-)

$\begin{array}{|c|} \hline \text{S (+)} \\ \hline \end{array}$
 $\begin{array}{|c|} \hline \text{M (+)} \\ \hline \end{array}$

T (-) = Q (+) - N (-)

$\begin{array}{|c|} \hline \text{T (-)} \\ \hline \end{array}$
 $\begin{array}{|c|} \hline \text{P (+)} \\ \hline \end{array}$

Answer: A

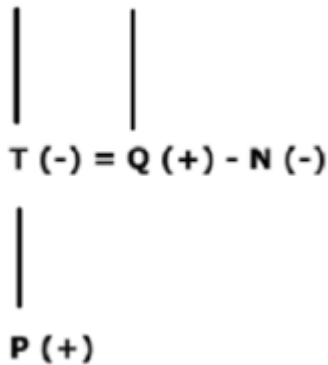

5. Questions

Final Arrangement:

@QuizByMickey

Months	Dates	Persons
April	12	O
	25	R
July	12	M
	25	S
September	12	Q
	25	P
December	12	N
	25	T

S (+) = R (-) M (+) = O (-)

We have,

- R was born on an odd-numbered date and is the mother-in-law of Q.
- P is the grandson of O, who was born first among all other family members.

From the above condition, there are four possibilities.

Months	Dates	Case-1	Case-2	Case-3	Case-4
		Persons	Persons	Persons	Persons
April	12	O	O	O	O
	25	R			
July	12				
	25		R		
September	12				
	25			R	
December	12				
	25				R

1) R (-) = ()

|

() = Q ()

2) O ()

|

()

|

P (+)

Again, we have,

- More than three persons were born between R and the one who is the daughter of M.
- Neither R nor Q is married to O.
- M is the father of Q and was born two months before his son.
- S was born immediately after M but not on an even-numbered date.
- Only two persons were born between S and N, who is the sister-in-law of T.
- T was born after P and both of them were born on odd-numbered dates.
- Q is the only sibling of N and is the father of P.
- More than three persons were born between R and the one who is the daughter of M.

From the above condition, case 2, case 3 and case 4 get eliminated because more than three persons were born between R and the one who is the daughter of M, which is not satisfied.

Hence, case-1 shows the final arrangement.

Months	Dates	Case-1	Case-2	Case-3	Case-4
		Persons	Persons	Persons	Persons
April	12	O	O	O	O
	25	R		P	P
July	12	M		M	M
	25	S	R	S	S
September	12	Q		Q	Q
	25	P		R	T
December	12	N		N	N
	25	T		T	R

S (+) = R (-) M (+) = O (-)

$\begin{array}{|c|} \hline \\ \hline \end{array}$
 $\begin{array}{|c|} \hline \\ \hline \end{array}$

T (-) = Q (+) - N (-)

$\begin{array}{|c|} \hline \\ \hline \end{array}$

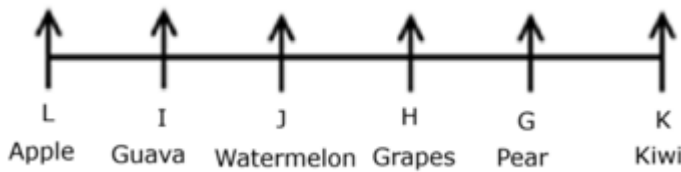

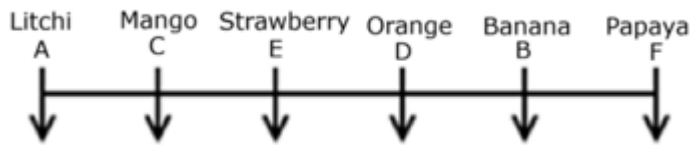

P (+)

Answer: C

6. Questions

Final arrangement:

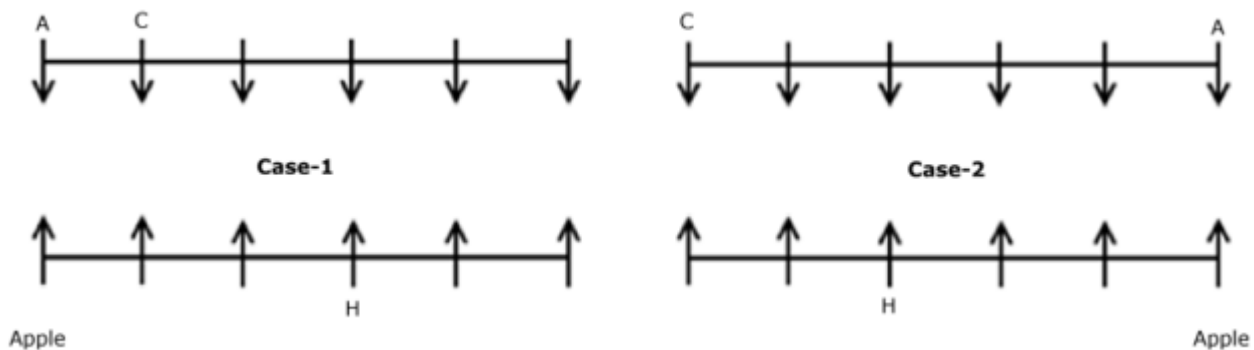

@QuizByMickey

We have,

- C sits second to the right of the one who faces H.
- Only two persons sit between H and the one who likes Apple.
- A sits at an extreme end, but opposite to the one who likes Apple.

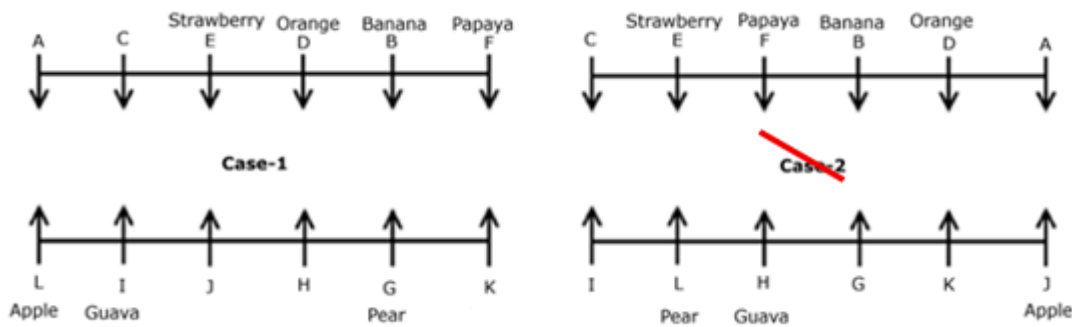

From the above conditions, there are two possibilities.

Again, we have,

- Only three persons sit between A and the one who faces the one who likes Pear.
- E sits second to the right of the one who likes Banana.
- As many persons sit to the right of the one who likes Banana as to the right of the one who likes Guava.
- Neither J nor K likes Pear or Apple.
- L sits third to the left of the one who sits opposite to the one who likes Orange.
- The one who likes Orange does not sit at any extreme end.
- B is an immediate neighbor of F, who likes Papaya.
- Only two persons sit between K and the one who facing the one who likes Strawberry.
- C does not like Strawberry.
- I sit third to the left of G.

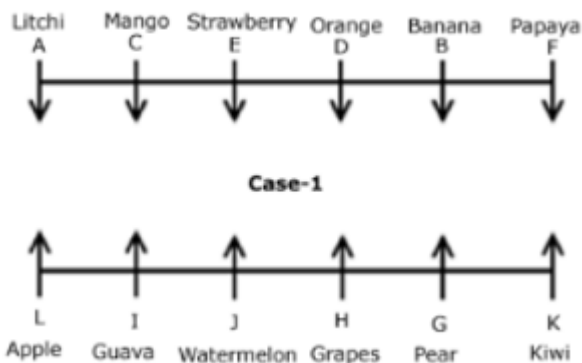

From the above conditions, case 2 gets eliminated because neither J nor K likes Pear or Apple, which is not satisfied.

Again, we have,

- The one who likes Grapes sits to the left of the one who likes kiwi and to the right of the one who likes Watermelon.
- The one who likes Watermelon is an immediate neighbor of the one who faces the one who likes Mango.

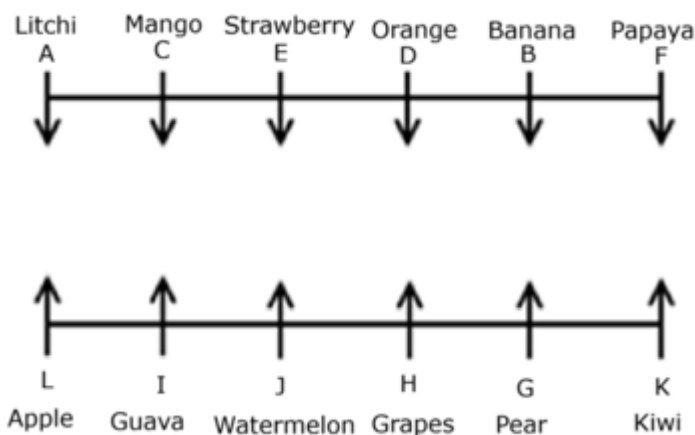

Hence, case-1 shows the final arrangement.

Answer: E

7. Questions

Final arrangement:

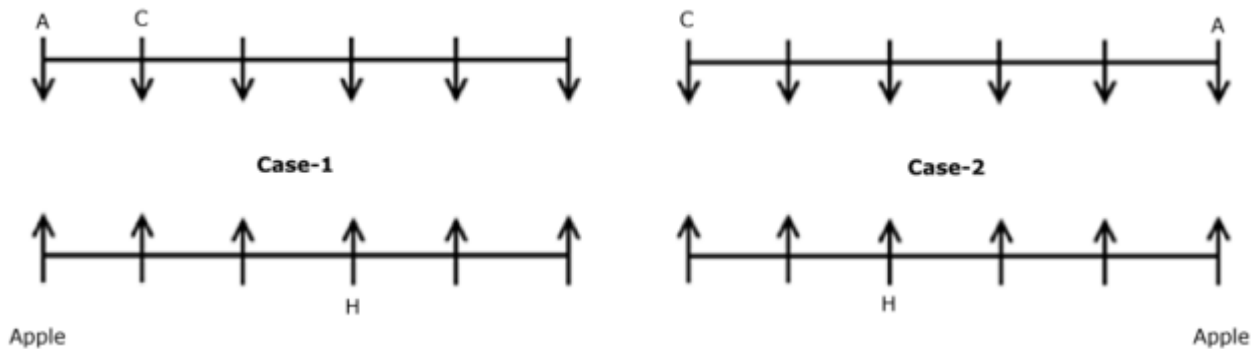

@QuizByMickey

We have,

- C sits second to the right of the one who faces H.
- Only two persons sit between H and the one who likes Apple.

- A sits at an extreme end, but opposite to the one who likes Apple.

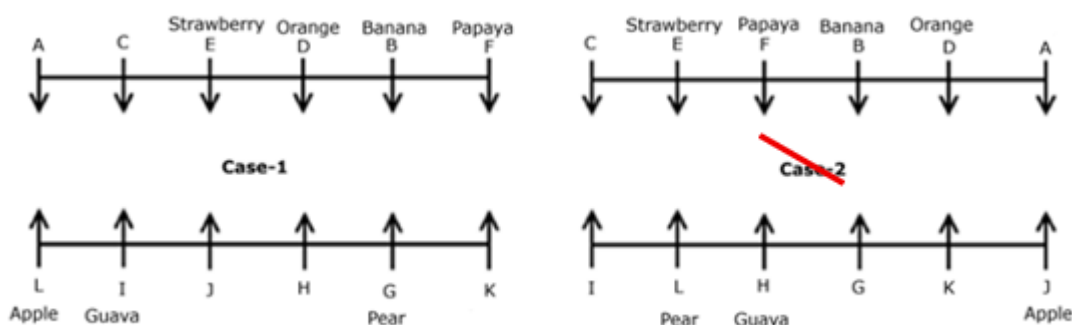

From the above conditions, there are two possibilities.

Again, we have,

- Only three persons sit between A and the one who faces the one who likes Pear.
- E sits second to the right of the one who likes Banana.
- As many persons sit to the right of the one who likes Banana as to the right of the one who likes Guava.
- Neither J nor K likes Pear or Apple.
- L sits third to the left of the one who sits opposite to the one who likes Orange.
- The one who likes Orange does not sit at any extreme end.
- B is an immediate neighbor of F, who likes Papaya.
- Only two persons sit between K and the one who facing the one who likes Strawberry.
- C does not like Strawberry.
- I sits third to the left of G.

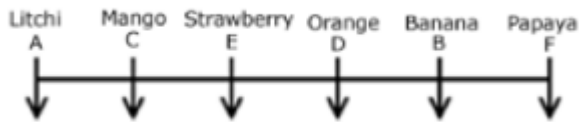

From the above conditions, case 2 gets eliminated because neither J nor K likes Pear or Apple, which is not satisfied.

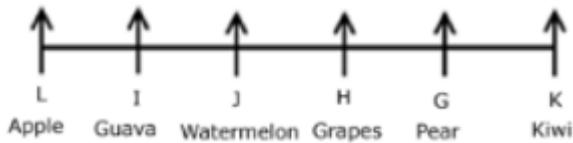

Again, we have,

- The one who likes Grapes sits to the left of the one who likes kiwi and to the right of the one who likes Watermelon.
- The one who likes Watermelon is an immediate neighbor of the one who faces the one who likes Mango.

Hence, case-1 shows the final arrangement.

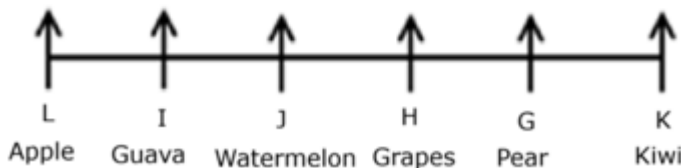

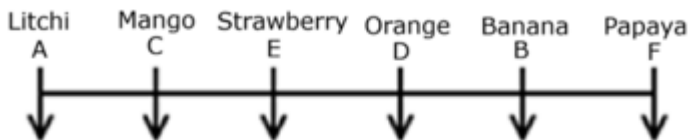

Case-1

Answer: B

8. Questions

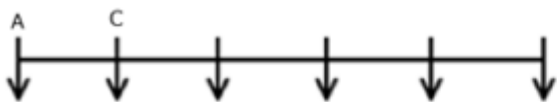

Final arrangement:

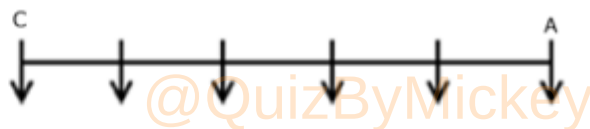

We have,

- C sits second to the right of the one who faces H.
- Only two persons sit between H and the one who likes Apple.
- A sits at an extreme end, but opposite to the one who likes Apple.

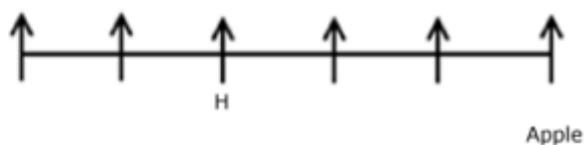

From the above conditions, there are two possibilities.

Case-1

Case-2

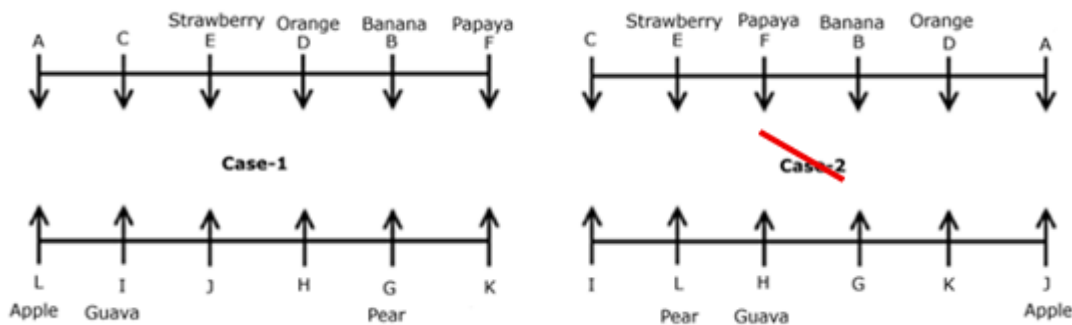

Again, we have,

- Only three persons sit between A and the one who faces the one who likes Pear.
- E sits second to the right of the one who likes Banana.

- As many persons sit to the right of the one who likes Banana as to the right of the one who likes Guava.
- Neither J nor K likes Pear or Apple.
- L sits third to the left of the one who sits opposite to the one who likes Orange.
- The one who likes Orange does not sit at any extreme end.
- B is an immediate neighbor of F, who likes Papaya.
- Only two persons sit between K and the one who facing the one who likes Strawberry.
- C does not like Strawberry.
- I sit third to the left of G.

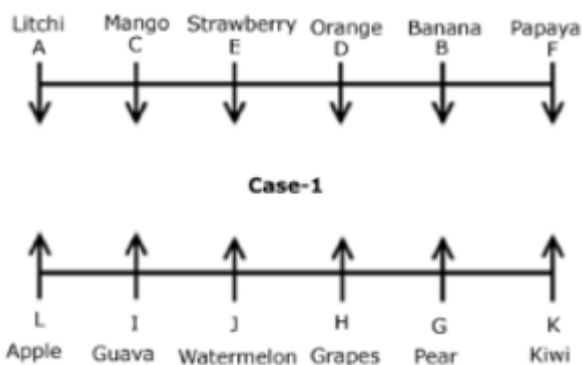

From the above conditions, case 2 gets eliminated because neither J nor K likes Pear or Apple, which is not satisfied.

Again, we have,

- The one who likes Grapes sits to the left of the one who likes kiwi and to the right of the one who likes Watermelon.
- The one who likes Watermelon is an immediate neighbor of the one who faces the one who likes Mango.

Hence, case-1 shows the final arrangement.

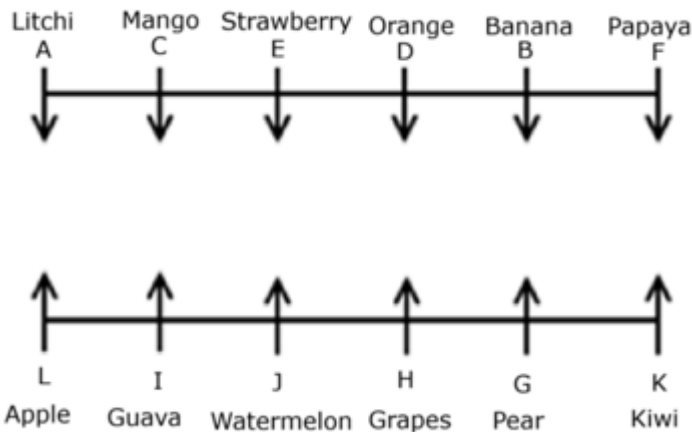

@QuizByMickey

Answer: C

9. Questions

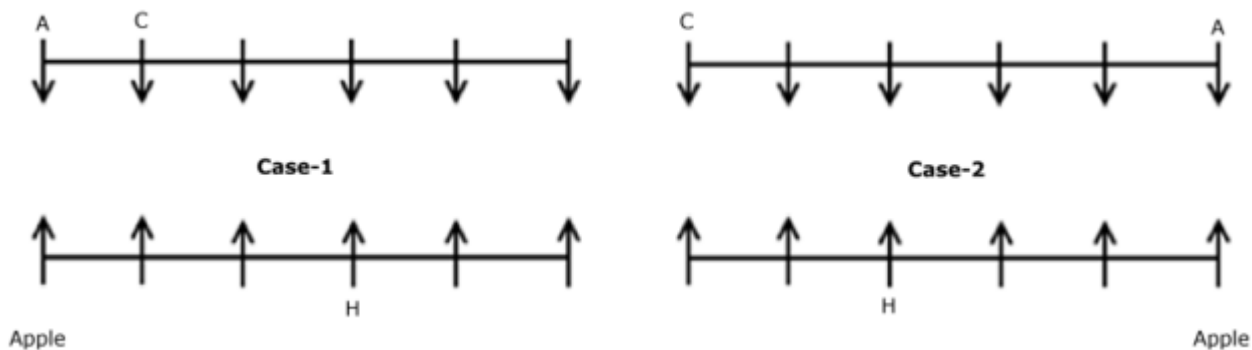

Final arrangement:

We have,

- C sits second to the right of the one who faces H.
- Only two persons sit between H and the one who likes Apple.
- A sits at an extreme end, but opposite to the one who likes Apple.

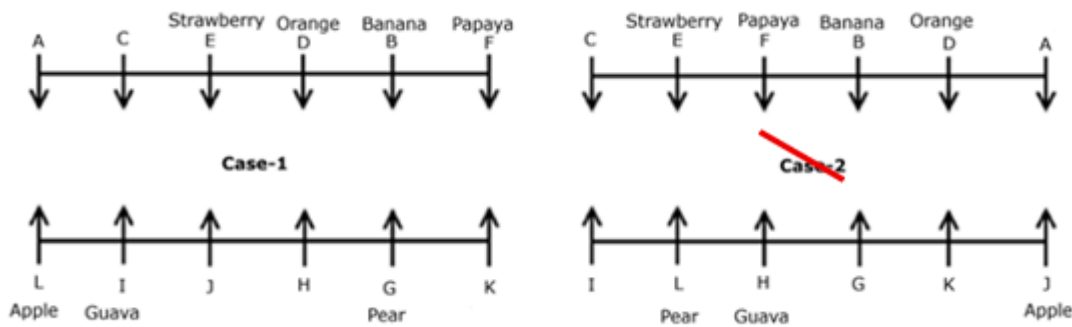

From the above conditions, there are two possibilities.

Again, we have,

- Only three persons sit between A and the one who faces the one who likes Pear.
- E sits second to the right of the one who likes Banana.
- As many persons sit to the right of the one who likes Banana as to the right of the one who likes Guava.
- Neither J nor K likes Pear or Apple.
- L sits third to the left of the one who sits opposite to the one who likes Orange.
- The one who likes Orange does not sit at any extreme end.
- B is an immediate neighbor of F, who likes Papaya.
- Only two persons sit between K and the one who facing the one who likes Strawberry.
- C does not like Strawberry.
- I sit third to the left of G.

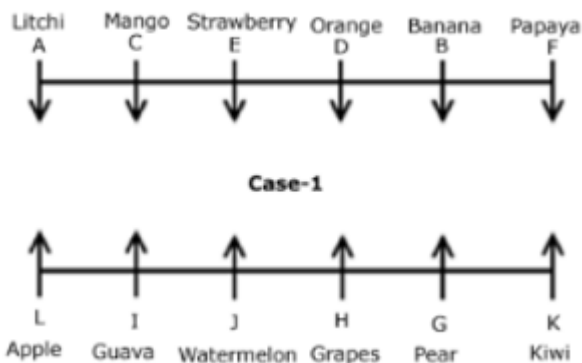

From the above conditions, case 2 gets eliminated because neither J nor K likes Pear or Apple, which is not satisfied.

Again, we have,

- The one who likes Grapes sits to the left of the one who likes kiwi and to the right of the one who likes Watermelon.
- The one who likes Watermelon is an immediate neighbor of the one who faces the one who likes Mango.

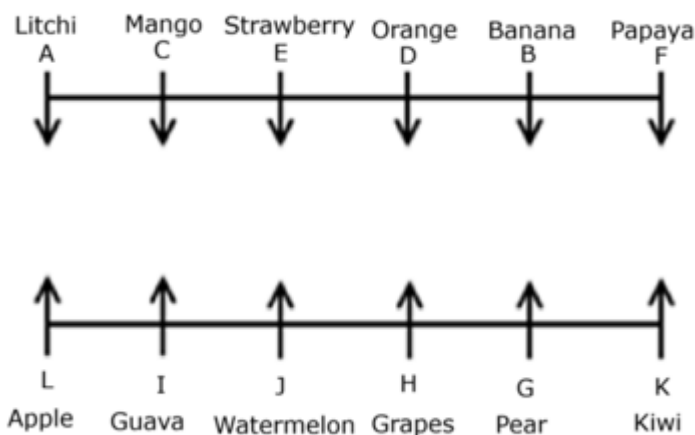

Hence, case-1 shows the final arrangement.

Answer: A

10. Questions

Final arrangement:

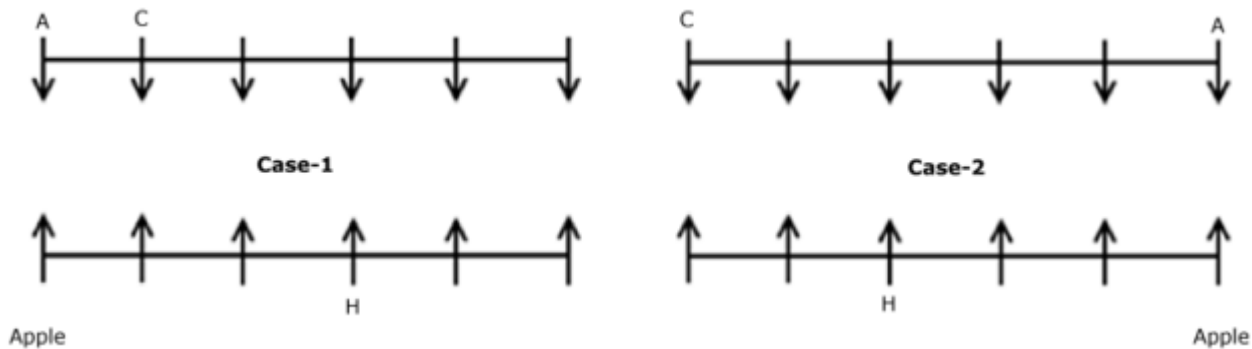

@QuizByMickey

We have,

- C sits second to the right of the one who faces H.
- Only two persons sit between H and the one who likes Apple.

- A sits at an extreme end, but opposite to the one who likes Apple.

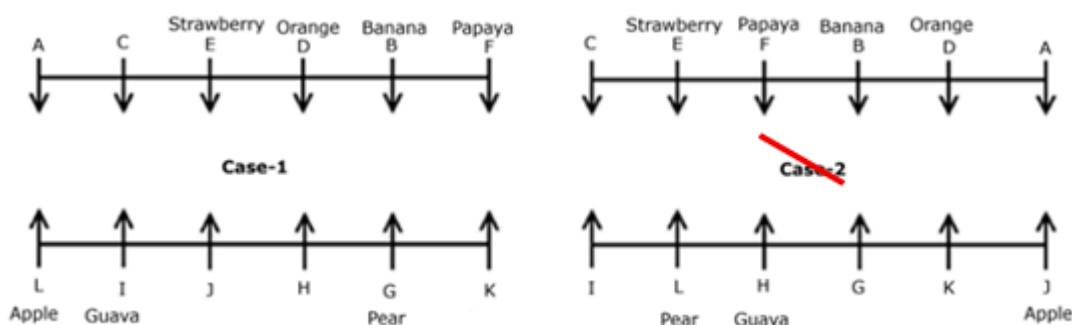

From the above conditions, there are two possibilities.

Again, we have,

- Only three persons sit between A and the one who faces the one who likes Pear.
- E sits second to the right of the one who likes Banana.
- As many persons sit to the right of the one who likes Banana as to the right of the one who likes Guava.
- Neither J nor K likes Pear or Apple.
- L sits third to the left of the one who sits opposite to the one who likes Orange.
- The one who likes Orange does not sit at any extreme end.
- B is an immediate neighbor of F, who likes Papaya.
- Only two persons sit between K and the one who facing the one who likes Strawberry.
- C does not like Strawberry.
- I sits third to the left of G.

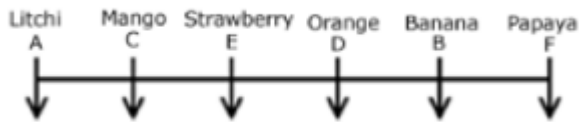

From the above conditions, case 2 gets eliminated because neither J nor K likes Pear or Apple, which is not satisfied.

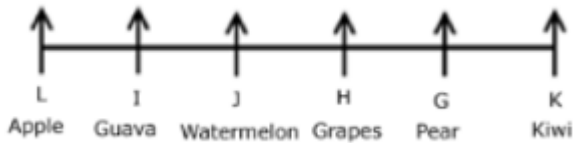

Again, we have,

- The one who likes Grapes sits to the left of the one who likes kiwi and to the right of the one who likes Watermelon.
- The one who likes Watermelon is an immediate neighbor of the one who faces the one who likes Mango.

Hence, case-1 shows the final arrangement.

Case-1

Answer: D

11. Questions

Answer: E

The sum of the first and third digits of each number is

1728 **4836** 6594 **3045** 8916

$$1+2 = 3$$

$$4+3 = 7$$

$$6+9 = 15$$

$$3+4 = 7$$

$$8+1 = 9$$

Both numbers 4836 and 3045 get the third-highest value

12. Questions

Answer: B

1728 4836 6594 3045 8916

Only 1728 is divisible by 18

13. Questions

Answer: D

1728 4836 6594 3045 8916

If 1 is added to each odd digit and 1 is subtracted from each even digit

2817 3745 5613 4036 7125

The digits in each numbers are arranged in ascending order

1278 3457 1356 0346 **1257**

1257 will be third to the right of the number, which is second from the left end.

14. Questions

@QuizByMickey

Answer: A

1728 4836 6594 3045 8916

The sum of the digits of each number is arranged in descending order

18 21 24 12 24

24 24 21 **18** 12

18 will be second from the right end

15. Questions

Answer: C

1728 4836 6594 3045 8916

The numbers are arranged in ascending order from the given series

1728 3045 4836 6594 8916

Then digit in each number is arranged in decreasing order

8721 5430 **8643** 9654 9861

8643 will be the second lowest number
