

1. Questions

Study the following information carefully and answer the given questions.

Eight persons- A, B, C, D, E, F, G and H went on a vacation on different dates either 5th or 20th of four different months viz., - March, April, May and June of the same year(2025). They like different places- Goa, Agra, Ooty, Munnar, Coorg, Jaipur, Shimla, and Kerala. Only one person went on a vacation on each date, and only two persons went on a vacation in each month.

E went on an odd numbered date of the month having an odd number of days. Only two persons went between the one who likes Shimla and E. As many persons went before the one who likes Shimla as after C. The one who likes Coorg went immediately after C. Only three persons went between the one who likes Coorg and A. The one who likes Agra went on the same date as A but not in the same month. The one who likes Jaipur went adjacent to the one who likes Munnar, who went on even numbered dates and both went in different months. The number of persons who went before the one who likes Jaipur is two more than the number of persons who went after D. The one who likes Kerala went adjacent to D. Only one person went between D and G. H likes Goa but went after the one who likes Ooty. B likes neither Shimla nor Jaipur.

How many persons went on a vacation between the one who likes Shimla and the one who went immediately after the one who likes Agra?

- a. As many persons went between G and the one who likes Kerala
- b. As many persons went between the one who likes ooty and F
- c. As many persons went between H and the one who likes Agra
- d. As many persons went after the one who likes Munnar
- e. One more than the number of persons went before D

2. Questions

If the persons went between F and C were dead in vacation, then who among the following persons were dead and how many persons did not die?

- a. H and B, three
- b. D and G, four
- c. H and D, four
- d. A and E, four
- e. Both C and D

@QuizByMickey

3. Questions

If a person who planned for a vacation on April 5 and May 20 has cancelled their vacation, then which of the following persons cancelled their vacation?

- a. The one who went three persons before the one who likes Shimla and the one who likes Agra
- b. The one who went four persons after B and the one who likes Kerala

- c. The one who likes Goa and the one who went immediately before the one who likes Coorg
- d. The one who likes Munnar and the one who likes Ooty
- e. The one who went immediately after the one who likes Shimla and the one who likes Agra

4. Questions

The number of persons went before ____ is one more than the number of persons went after ____

- a. The one who likes Coorg, D
- b. The one who likes Goa, the one who likes Kerala
- c. E, the one who likes Agra
- d. The one who likes Ooty, A
- e. The one who likes Shimla, the one who likes Jaipur

5. Questions

Which of the following statement(s) is/are true as per the given arrangement?

- a. The one who likes Ooty went immediately before the one who went to Shimla
- b. B went in the month which has an odd number of days
- c. H went on the same date as the one who likes Kerala
- d. Only statements a) and b) are true
- e. All the statements are true

6. Questions

Study the following information carefully and answer the given questions

There are four buses I, J, K, L. These buses travel from one point to another point. Also, there are four points P, Q, R and S connected through a common junction.

The direction of these points with respect to the junction is as follows:

P is in the north direction of the junction

Q is in the east direction of the junction

R is in the west direction of the junction

S is in the south direction of the junction

Note: While traveling from one point to another all the buses must pass through the junction.

The following codes are given to denote the direction of the movement of the buses.

X!Y means bus Y is at a certain point and moves straight through the junction to reach point X.

X@Y means bus Y is at a certain point and moves to the right from the junction to reach point X.

@QuizByMickey

$X\#Y$ means bus X is at a certain point and moves to the left from the junction to reach point Y.

$X\$Y$ means bus X is at a certain point and moves straight through the junction to reach point Y.

$X\%Y$ means bus X is at a certain point and moves to the right from the junction to reach point Y.

$X*Y$ means bus X is at point Y and moves to the left from the junction to reach a certain point.

X^Y means bus X is at point Y and moves straight through the junction to reach a certain point.

$X\&Y$ means bus X is at point Y and moves to the right from the junction to reach a certain point.

If $Q@I\$R!K$, then what is the direction of the final position of bus K with respect to the initial position of bus I?

- a. Northwest
- b. Southeast
- c. Northeast
- d. Southwest
- e. North

7. Questions

Which of the following options denote the initial position of J is northwest of the final position of L?

- a. $R\&L^Q@J$
- b. $Q@L\$R!J$
- c. $S!J\%Q@L$
- d. Both a) and b)
- e. Both a) and c)

8. Questions

The distance between the junction and all the given points is equal and the distance is 31m. If point A is 9m south of point R and point C is 19m east of point A, then what is the shortest distance between the junction and point C and point A is in which direction with respect to point S?

- a. 10m, Northeast
- b. 15m, Northwest
- c. 12m, South
- d. 15m, southwest
- e. 10m, Southeast

9. Questions

If 'P!J#Q@L', then the buses J and L can finally reach which of the following point(s) respectively?

- Point P and Point Q
- Only point S
- Point S and Point Q
- Only point Q
- Point R and Point P

10. Questions

S@K__P; L%R, which of the following options should come in the blank to satisfy the final position of K is northeast of the final position of L?

- %
- *
- #
- !
- \$

11. Questions

Study the following information carefully and answer the given questions.

Eight persons- P, Q, R, S, T, U, V and W are sitting around the square table in such a way that four of them sit at the corners and facing the centre while four of them sit in the middle of the sides and facing outside(opposite to the centre). They like different vegetables such as Carrot, Tomato, Spinach, Broccoli, Peas, Garlic, Corn and Okra.

The one who likes Tomato sits third to the left of U, who doesn't face the centre. Only one person sits between the one who likes Tomato and R. The one who sits opposite to R sits immediate right of the one who likes Corn. The one who likes Broccoli sits adjacent to the one who likes Corn. As many persons sit between U and the one who likes Broccoli (when counted from the left of U) as between R and S (when counted from the left of R). Q sits immediate left of the one who sits second to the left of S. Both W and the one who likes Peas sits adjacent to Q. W doesn't like Peas. P and T sit immediate right of each other. Only two persons sit between V and the one who likes Spinach. The number of persons sitting between V and R (when counted from the left of R) is one less than the number of persons sitting between P and the one who likes Okra (when counted from the right of P). The one who likes carrots doesn't sit at the corner of the table. Q doesn't like Garlic.

Who among the following person sits opposite to the one who likes Spinach?

- The one who sits to the immediate right of V
- The one who likes Okra
- The one who sits second to the left of the one who likes Peas

- d. The one who sits to the immediate left of R
- e. The one who likes Carrot

12. Questions

Which of the following persons sit between T and S, when counted from the right of S?

- I).** The one who sits third to the left of R
 - II).** The one who likes Spinach
 - III).** The one who likes Tomato
 - IV).** The one who sits immediate right of Q
- a. Only I and II
 - b. Only III
 - c. Only II and IV
 - d. Only I and III
 - e. Only I, II and IV

13. Questions

Four of the following five are alike in a certain way based on the given arrangement and thus form a group, which of the following one doesn't belong to the group?

- a. The one who likes Corn, Q
- b. The one who likes Okra, U
- c. S, The one who likes Tomato
- d. The one who likes Corn, T
- e. W, the one who likes Garlic

14. Questions

If the persons are arranged in an alphabetical order from P and similarly the vegetables are arranged in dictionary order from Broccoli, both arranged in clockwise direction. Then, who among the following person likes the same vegetable as per the final arrangement after interchanging their position?(Excluding P and Broccoli).

- a. The one who likes Carrot
- b. The one who likes Spinach
- c. The one who likes Corn
- d. The one who likes Peas
- e. The one who likes Tomato

15. Questions

The number of persons sitting between ____ and T (when counted from the left T) is one more than the number of persons sitting between ____ and P (when counted from the left of P).

- a. U, the one who likes Tomato
- b. The one who likes Garlic, S
- c. W, The one who likes Peas
- d. The one who likes Carrot, V
- e. The one who likes Spinach, S

16. Questions

Read the following information carefully and answer the given questions.

H 8 J @ A 9 # K Y % L 4 ^ N 5 3 B G & * X 1 + 2 V \$ T O

Step I: The letters which are immediately followed by a symbol are arranged in alphabetical order from left to right at the right end of the series immediately after O.

Step II: The numbers which are immediately preceded by a consonant will be arranged between ‘&’ and ‘*’ in descending order from left to right.

Step III: The symbols which are immediately preceded by the letter will be arranged such that 1st symbol will be placed at the left end, the 2nd symbol will be placed at the right end, 3rd symbol will again be placed at the left end and so on.

Step IV: If a number which is either immediately followed or immediately preceded by a letter but not both, then one is subtracted from that number.

Note: Step I is followed by Step II, Step II is followed by Step III and Step III is followed by Step IV.

Step 4 is the final step and the outcome in this step is the final series. As per the steps given above, find out the final number series and answer the following questions given below

How many such symbols are there in the series which are immediately followed by a letter and immediately preceded by a number in Step III?

- a. Three
- b. Two
- c. One
- d. Five
- e. Four

@QuizByMickey

17. Questions

What is the sum of the numbers which are between ^ and * in step II?

- a. 18

- b. 21
- c. 12
- d. 15
- e. 16

18. Questions

In step IV, if all the numbers are removed, then which of the following element is exactly between the first vowel from the left end and the third symbol from the right end?

- a. #
- b. B
- c. *
- d. N
- e. K

19. Questions

If all symbols and numbers are dropped from step I, then what is the position of G from the left end?

- a. Eighth
- b. Seventh
- c. Sixth
- d. Ninth
- e. Tenth

20. Questions

Which of the following elements is 6th to the right of the 18th element from the right end in step III?

- a. \$
- b. &
- c. *
- d. @
- e. #

@QuizByMickey

Explanations:

1. Questions

Final arrangement:

Month/Date	Persons	Places
March 5	B	Ooty
March 20	F	Shimla
April 5	H	Goa
April 20	A	Munnar
May 5	E	Jaipur
May 20	D	Agra
June 5	C	Kerala
June 20	G	Coorg

We have,

- E went on an odd numbered date of the month having an odd number of days.
- Only two persons went between the one who likes Shimla and E.
- As many persons went before the one who likes Shimla as after C

From the above conditions, there are three possibilities

@QuizByMickey

Month/Date	Case 1		Case 2		Case 3	
	Persons	Places	Persons	Places	Persons	Places
March 5	E				C	
March 20				Shimla		
April 5						
April 20		Shimla				
May 5	C		E		E	
May 20						
June 5			C			
June 20						Shimla

Again we have,

- The one who likes Coorg went immediately after C.
- Only three persons went between the one who likes Coorg and A.
- The one who likes Agra went on the same date as A but not in the same month.
- The one who likes Jaipur went adjacent to the one who likes Munnar, who went on even numbered dates and both went in different months.

@QuizByMickey

Month/Date	Case 1		Case 2		Case 3	
	Persons	Places	Persons	Places	Persons	Places
March 5	E				C	
March 20	A	Munnar		Shimla		Coorg
April 5		Jaipur				
April 20		Shimla	A	Munnar		Agra
May 5	C		E	Jaipur	E	
May 20		Coorg		Agra	A	Munnar
June 5			C			Jaipur
June 20		Agra		Coorg		Shimla

Again we have,

- The number of persons went before the one who likes Jaipur is two more than the number of persons went after D.
- The one who likes Kerala went adjacent to D.
- Only one person went between D and G.
- H likes Goa but went after the one who likes Ooty.
- B likes neither Shimla nor Jaipur.

From the above conditions case-1 gets eliminated because H likes Goa but went after the one who likes Ooty, which is not satisfied.

From the above condition, case-3 gets eliminated because B likes neither Shimla nor Jaipur, which is not satisfied.

Hence, case-2 shows the final arrangement.

@QuizByMickey

Month/Date	Case 1		Case 2		Case 3	
	Persons	Places	Persons	Places	Persons	Places
March 5	E	Ooty	B	Ooty	C	Ooty
March 20	A	Munnar	F	Shimla	G	Coorg
April 5		Jaipur	H	Goa	H	Goa
April 20		Shimla	A	Munnar	D	Agra
May 5	C		E	Jaipur	E	Kerala
May 20	G	Coorg	D	Agra	A	Munnar
June 5		Kerala	C	Kerala		Jaipur
June 20	D	Agra	G	Coorg		Shimla

Answer: D

2. Questions

Final arrangement:

Month/Date	Persons	Places
March 5	B	Ooty
March 20	F	Shimla
April 5	H	Goa
April 20	A	Munnar
May 5	E	Jaipur
May 20	D	Agra
June 5	C	Kerala
June 20	G	Coorg

@QuizByMickey

We have,

- E went on an odd numbered date of the month having an odd number of days.

- Only two persons went between the one who likes Shimla and E.
- As many persons went before the one who likes Shimla as after C

From the above conditions, there are three possibilities

Month/Date	Case 1		Case 2		Case 3	
	Persons	Places	Persons	Places	Persons	Places
March 5	E				C	
March 20				Shimla		
April 5						
April 20		Shimla				
May 5	C		E		E	
May 20						
June 5			C			
June 20						Shimla

Again we have,

- The one who likes Coorg went immediately after C.
- Only three persons went between the one who likes Coorg and A.
- The one who likes Agra went on the same date as A but not in the same month.
- The one who likes Jaipur went adjacent to the one who likes Munnar, who went on even numbered dates and both went in different months.

@QuizByMickey

Month/Date	Case 1		Case 2		Case 3	
	Persons	Places	Persons	Places	Persons	Places
March 5	E				C	
March 20	A	Munnar		Shimla		Coorg
April 5		Jaipur				
April 20		Shimla	A	Munnar		Agra
May 5	C		E	Jaipur	E	
May 20		Coorg		Agra	A	Munnar
June 5			C			Jaipur
June 20		Agra		Coorg		Shimla

Again we have,

- The number of persons went before the one who likes Jaipur is two more than the number of persons went after D.
- The one who likes Kerala went adjacent to D.
- Only one person went between D and G.
- H likes Goa but went after the one who likes Ooty.
- B likes neither Shimla nor Jaipur.

From the above conditions case-1 gets eliminated because H likes Goa but went after the one who likes Ooty, which is not satisfied.

From the above condition, case-3 gets eliminated because B likes neither Shimla nor Jaipur, which is not satisfied.

Hence, case-2 shows the final arrangement.

@QuizByMickey

Month/Date	Case 1		Case 2		Case 3	
	Persons	Places	Persons	Places	Persons	Places
March 5	E	Ooty	B	Ooty	C	Ooty
March 20	A	Munnar	F	Shimla	G	Coorg
April 5		Jaipur	H	Goa	H	Goa
April 20		Shimla	A	Munnar	D	Agra
May 5	C		E	Jaipur	E	Kerala
May 20	G	Coorg	D	Agra	A	Munnar
June 5		Kerala	C	Kerala		Jaipur
June 20	D	Agra	G	Coorg		Shimla

Answer: E

3. Questions

Final arrangement:

Month/Date	Persons	Places
March 5	B	Ooty
March 20	F	Shimla
April 5	H	Goa
April 20	A	Munnar
May 5	E	Jaipur
May 20	D	Agra
June 5	C	Kerala
June 20	G	Coorg

@QuizByMickey

We have,

- E went on an odd numbered date of the month having an odd number of days.

- Only two persons went between the one who likes Shimla and E.
- As many persons went before the one who likes Shimla as after C

From the above conditions, there are three possibilities

Month/Date	Case 1		Case 2		Case 3	
	Persons	Places	Persons	Places	Persons	Places
March 5	E				C	
March 20				Shimla		
April 5						
April 20		Shimla				
May 5	C		E		E	
May 20						
June 5			C			
June 20						Shimla

Again we have,

- The one who likes Coorg went immediately after C.
- Only three persons went between the one who likes Coorg and A.
- The one who likes Agra went on the same date as A but not in the same month.
- The one who likes Jaipur went adjacent to the one who likes Munnar, who went on even numbered dates and both went in different months.

@QuizByMickey

Month/Date	Case 1		Case 2		Case 3	
	Persons	Places	Persons	Places	Persons	Places
March 5	E				C	
March 20	A	Munnar		Shimla		Coorg
April 5		Jaipur				
April 20		Shimla	A	Munnar		Agra
May 5	C		E	Jaipur	E	
May 20		Coorg		Agra	A	Munnar
June 5			C			Jaipur
June 20		Agra		Coorg		Shimla

Again we have,

- The number of persons went before the one who likes Jaipur is two more than the number of persons went after D.
- The one who likes Kerala went adjacent to D.
- Only one person went between D and G.
- H likes Goa but went after the one who likes Ooty.
- B likes neither Shimla nor Jaipur.

From the above conditions case-1 gets eliminated because H likes Goa but went after the one who likes Ooty, which is not satisfied.

From the above condition, case-3 gets eliminated because B likes neither Shimla nor Jaipur, which is not satisfied.

Hence, case-2 shows the final arrangement.

@QuizByMickey

Month/Date	Case 1		Case 2		Case 3	
	Persons	Places	Persons	Places	Persons	Places
March 5	E	Ooty	B	Ooty	C	Ooty
March 20	A	Munnar	F	Shimla	G	Coorg
April 5		Jaipur	H	Goa	H	Goa
April 20		Shimla	A	Munnar	D	Agra
May 5	C		E	Jaipur	E	Kerala
May 20	G	Coorg	D	Agra	A	Munnar
June 5		Kerala	C	Kerala		Jaipur
June 20	D	Agra	G	Coorg		Shimla

Answer: E

4. Questions

Final arrangement:

Month/Date	Persons	Places
March 5	B	Ooty
March 20	F	Shimla
April 5	H	Goa
April 20	A	Munnar
May 5	E	Jaipur
May 20	D	Agra
June 5	C	Kerala
June 20	G	Coorg

@QuizByMickey

We have,

- E went on an odd numbered date of the month having an odd number of days.

- Only two persons went between the one who likes Shimla and E.
- As many persons went before the one who likes Shimla as after C

From the above conditions, there are three possibilities

Month/Date	Case 1		Case 2		Case 3	
	Persons	Places	Persons	Places	Persons	Places
March 5	E				C	
March 20				Shimla		
April 5						
April 20		Shimla				
May 5	C		E		E	
May 20						
June 5			C			
June 20						Shimla

Again we have,

- The one who likes Coorg went immediately after C.
- Only three persons went between the one who likes Coorg and A.
- The one who likes Agra went on the same date as A but not in the same month.
- The one who likes Jaipur went adjacent to the one who likes Munnar, who went on even numbered dates and both went in different months.

@QuizByMickey

June 5		Kerala	C	Kerala		Jaipur
June 20	D	Agra	G	Coorg		Shimla

Answer: B

5. Questions

Final arrangement:

Month/Date	Persons	Places
March 5	B	Ooty
March 20	F	Shimla
April 5	H	Goa
April 20	A	Munnar
May 5	E	Jaipur
May 20	D	Agra
June 5	C	Kerala
June 20	G	Coorg

@QuizByMickey

We have,

- E went on an odd numbered date of the month having an odd number of days.

- Only two persons went between the one who likes Shimla and E.
- As many persons went before the one who likes Shimla as after C

From the above conditions, there are three possibilities

Month/Date	Case 1		Case 2		Case 3	
	Persons	Places	Persons	Places	Persons	Places
March 5	E				C	
March 20				Shimla		
April 5						
April 20		Shimla				
May 5	C		E		E	
May 20						
June 5			C			
June 20						Shimla

Again we have,

- The one who likes Coorg went immediately after C.
- Only three persons went between the one who likes Coorg and A.
- The one who likes Agra went on the same date as A but not in the same month.
- The one who likes Jaipur went adjacent to the one who likes Munnar, who went on even numbered dates and both went in different months.

@QuizByMickey

Month/Date	Case 1		Case 2		Case 3	
	Persons	Places	Persons	Places	Persons	Places
March 5	E				C	
March 20	A	Munnar		Shimla		Coorg
April 5		Jaipur				
April 20		Shimla	A	Munnar		Agra
May 5	C		E	Jaipur	E	
May 20		Coorg		Agra	A	Munnar
June 5			C			Jaipur
June 20		Agra		Coorg		Shimla

Again we have,

- The number of persons went before the one who likes Jaipur is two more than the number of persons went after D.
- The one who likes Kerala went adjacent to D.
- Only one person went between D and G.
- H likes Goa but went after the one who likes Ooty.
- B likes neither Shimla nor Jaipur.

From the above conditions case-1 gets eliminated because H likes Goa but went after the one who likes Ooty, which is not satisfied.

From the above condition, case-3 gets eliminated because B likes neither Shimla nor Jaipur, which is not satisfied.

Hence, case-2 shows the final arrangement.

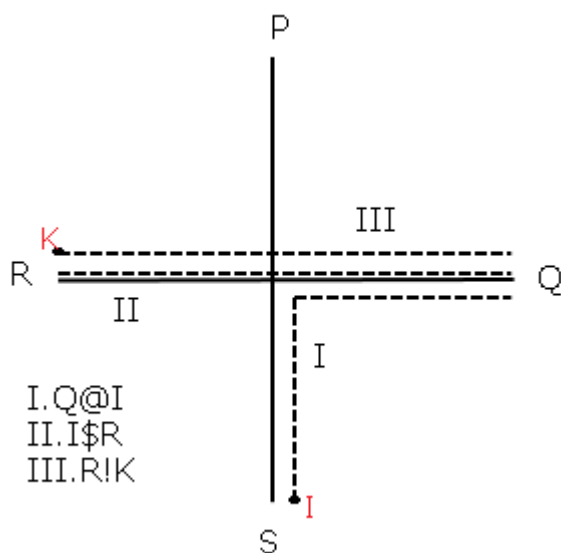

@QuizByMickey

Month/Date	Case 1		Case 2		Case 3	
	Persons	Places	Persons	Places	Persons	Places
March 5	E	Ooty	B	Ooty	C	Ooty
March 20	A	Munnar	F	Shimla	G	Coorg
April 5		Jaipur	H	Goa	H	Goa
April 20		Shimla	A	Munnar	D	Agra
May 5	C		E	Jaipur	E	Kerala
May 20	G	Coorg	D	Agra	A	Munnar
June 5		Kerala	C	Kerala		Jaipur
June 20	D	Agra	G	Coorg		Shimla

Answer: E

6. Questions

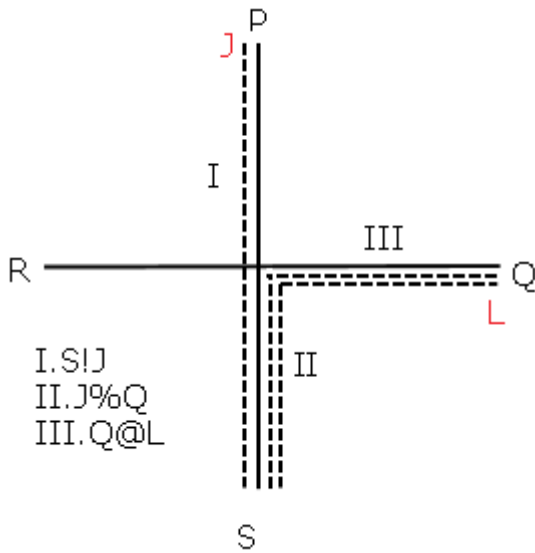

Answer: A

@QuizByMickey

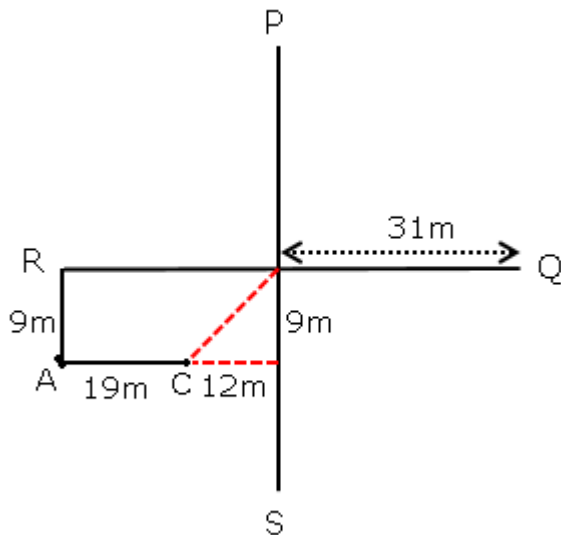

7. Questions

Answer: C

8. Questions

Answer: B

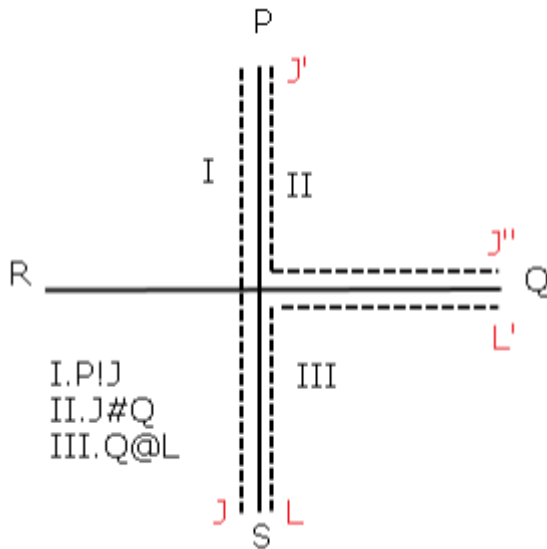

The shortest distance between junction and point C = $\sqrt{(12)^2 + (9)^2} = 15\text{m}$

Point A is **Northwest** of point S

9. Questions

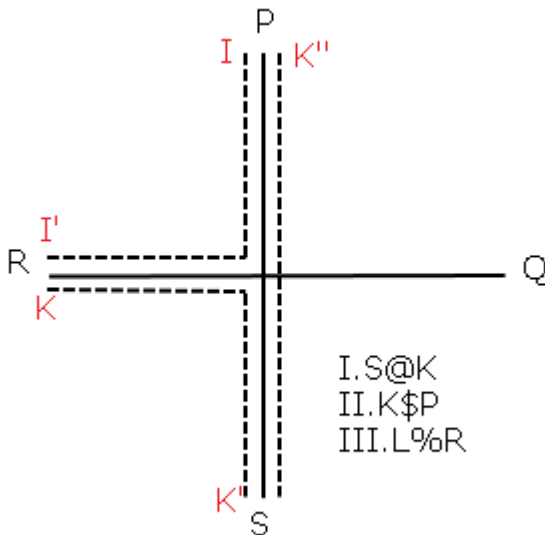

Answer: D

@QuizByMickey

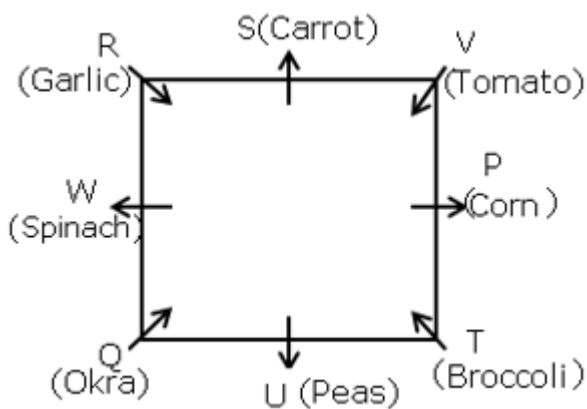

10. Questions

Answer: E

11. Questions

Final arrangement:

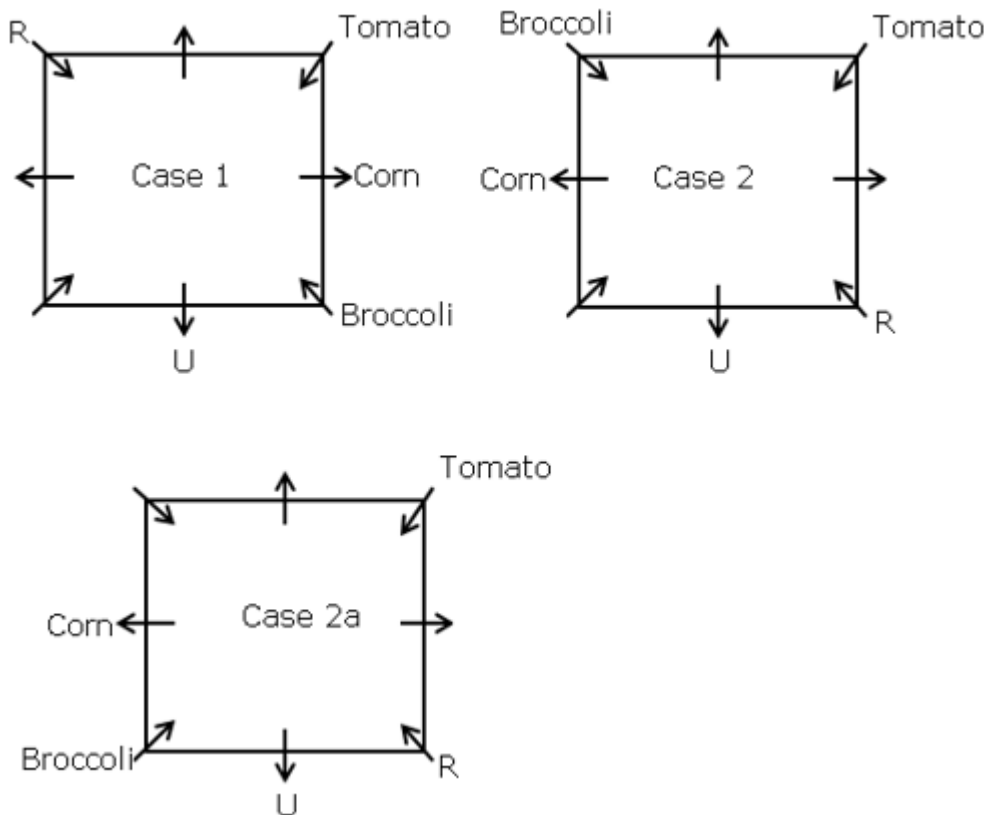

@QuizByMickey

We have,

- The one who likes Tomato sits third to the left of U, who doesn't the face centre.

- Only one person sits between the one who likes Tomato and R.
- The one who sits opposite to R sits immediate right of the one who likes Corn.
- The one who likes Broccoli sits adjacent to the one who likes Corn.

From the above conditions, there are three possibilities.

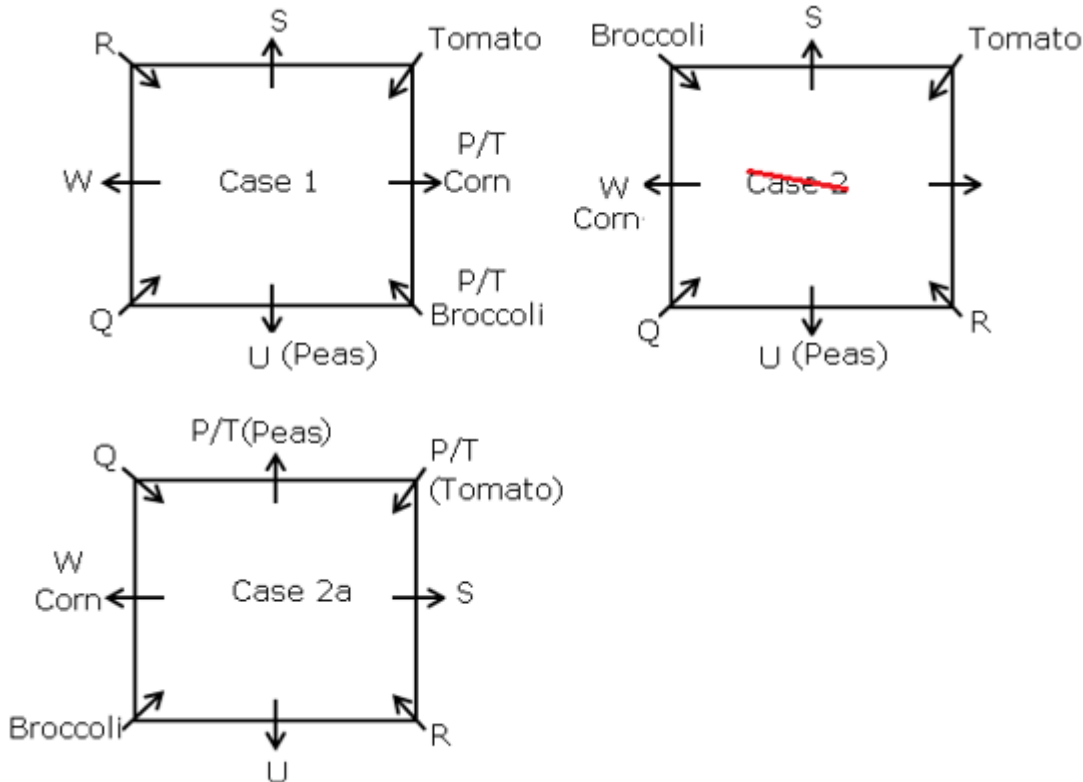

Again we have,

- As many persons sit between U and the one who likes Broccoli (when counted from the left of U) as between R and S (when counted from the left of R).
- Q sits immediate left of the one who sits second to the left of S.
- Both W and the one who likes Peas sits adjacent to Q.
- W doesn't like Peas.
- P and T sit immediate right of each other.

From the above condition case-2 gets eliminated because P and T sit to the immediate right of each other, which is not satisfied.

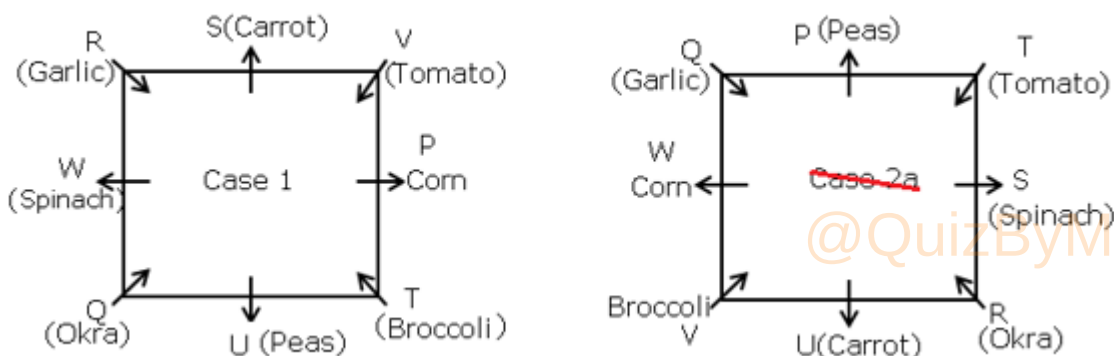

@QuizByMickey

Again we have,

- Only two persons sit between V and the one who likes Spinach.
- The number of persons sitting between V and R (when counted from the left of R) is one less than the number of persons sitting between P and the one who likes Okra (when counted from the right of P).
- The one who likes carrots doesn't sit at the corner of the table.
- Q doesn't like Garlic.

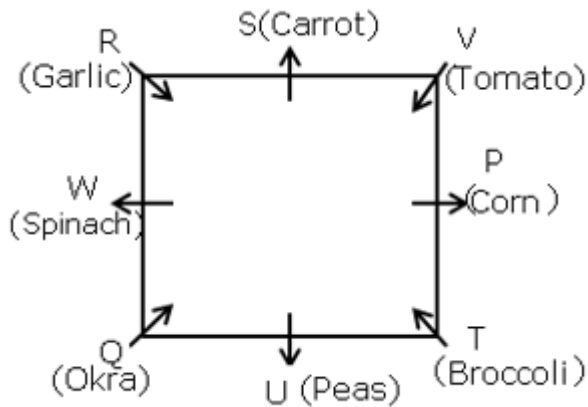

From the above conditions case-2a gets eliminated because Q doesn't like Garlic, which is not satisfied. Hence, case-1 shows the final arrangement.

Answer: C

12. Questions

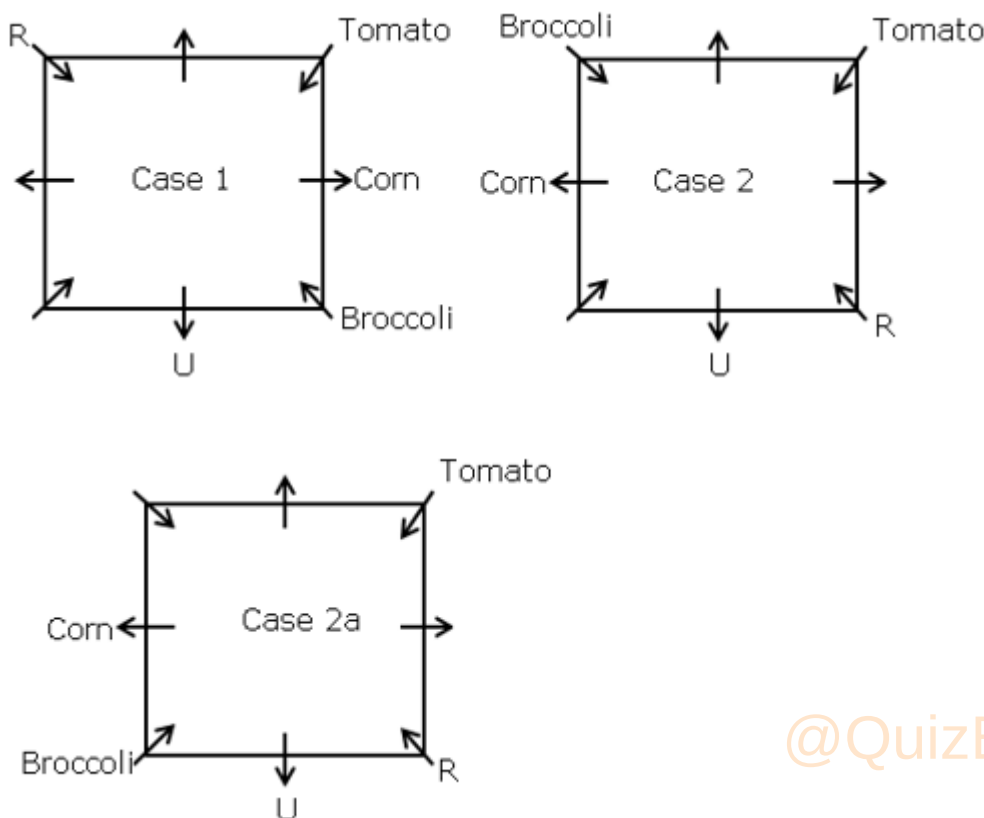

Final arrangement:

We have,

- The one who likes Tomato sits third to the left of U, who doesn't the face centre.
- Only one person sits between the one who likes Tomato and R.
- The one who sits opposite to R sits immediate right of the one who likes Corn.
- The one who likes Broccoli sits adjacent to the one who likes Corn.

From the above conditions, there are three possibilities.

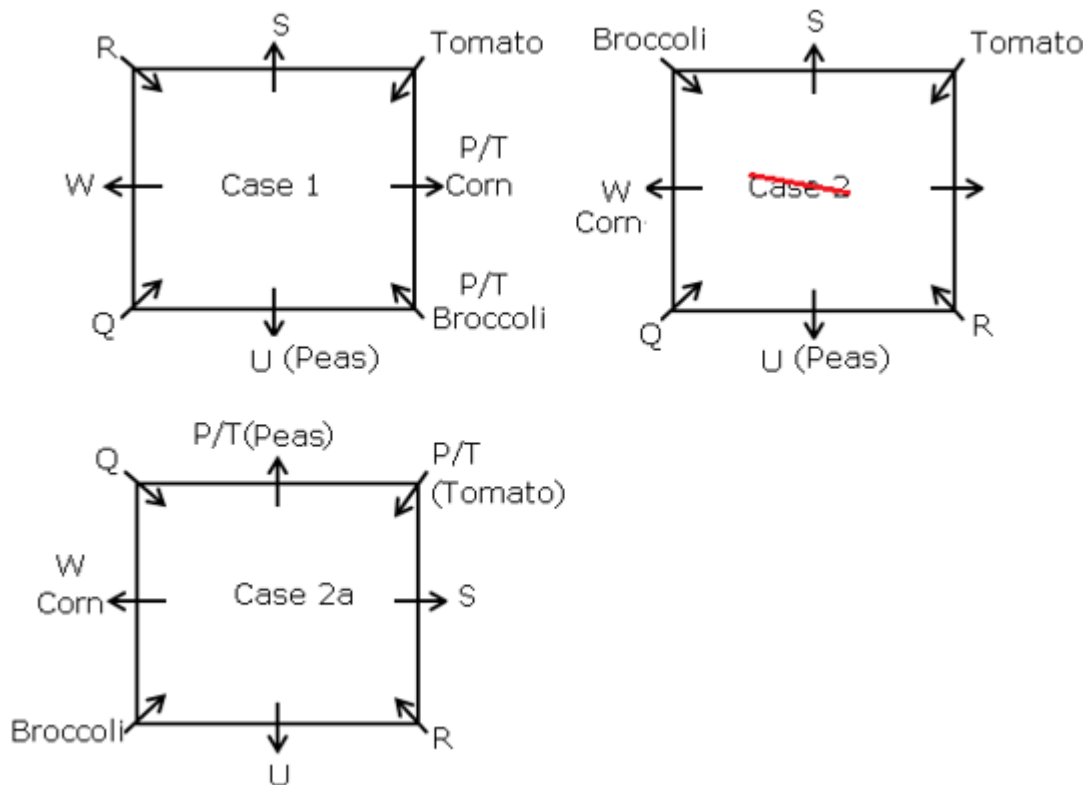

@QuizByMickey

Again we have,

- As many persons sit between U and the one who likes Broccoli (when counted from the left of U) as between R and S (when counted from the left of R).
- Q sits immediate left of the one who sits second to the left of S.
- Both W and the one who likes Peas sits adjacent to Q.
- W doesn't like Peas.
- P and T sit immediate right of each other.

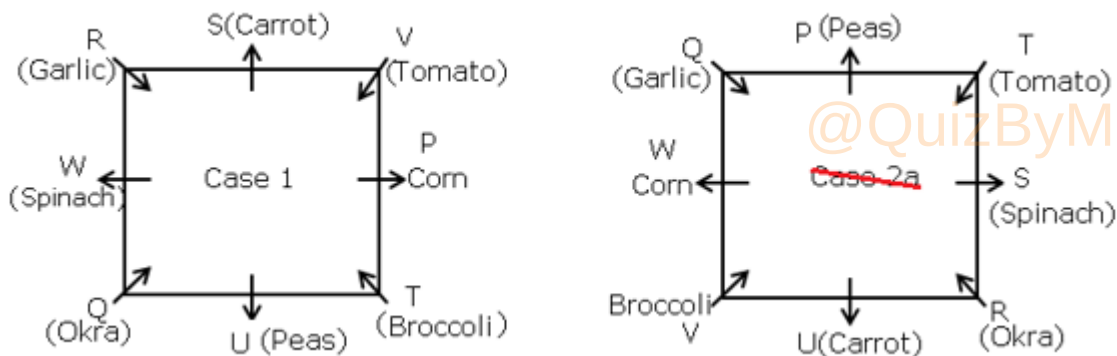

From the above condition case-2 gets eliminated because P and T sit to the immediate right of each other, which is not satisfied.

Again we have,

- Only two persons sit between V and the one who likes Spinach.
- The number of persons sitting between V and R (when counted from the left of R) is one less than the number of persons sitting between P and the one who likes Okra (when counted from the right of P).
- The one who likes carrots doesn't sit at the corner of the table.
- Q doesn't like Garlic.

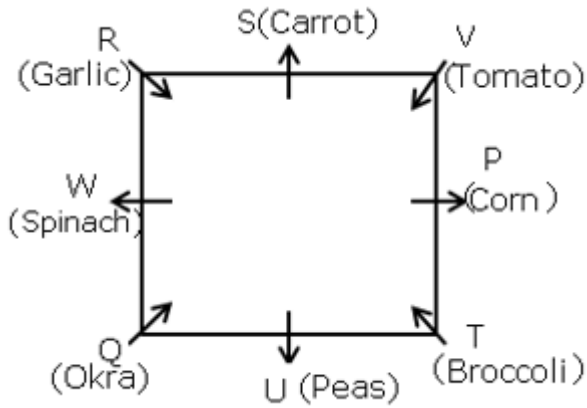

From the above conditions case-2a gets eliminated because Q doesn't like Garlic, which is not satisfied. Hence, case-1 shows the final arrangement.

Answer: D

13. Questions

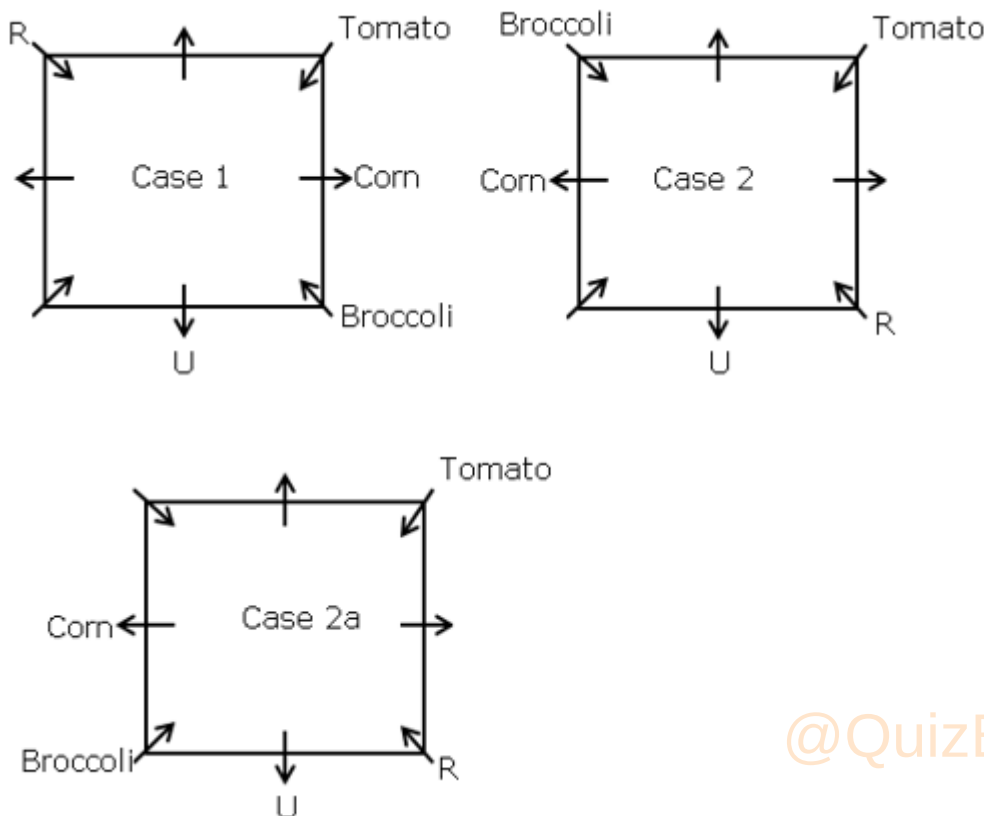

Final arrangement:

We have,

- The one who likes Tomato sits third to the left of U, who doesn't the face centre.
- Only one person sits between the one who likes Tomato and R.
- The one who sits opposite to R sits immediate right of the one who likes Corn.
- The one who likes Broccoli sits adjacent to the one who likes Corn.

From the above conditions, there are three possibilities.

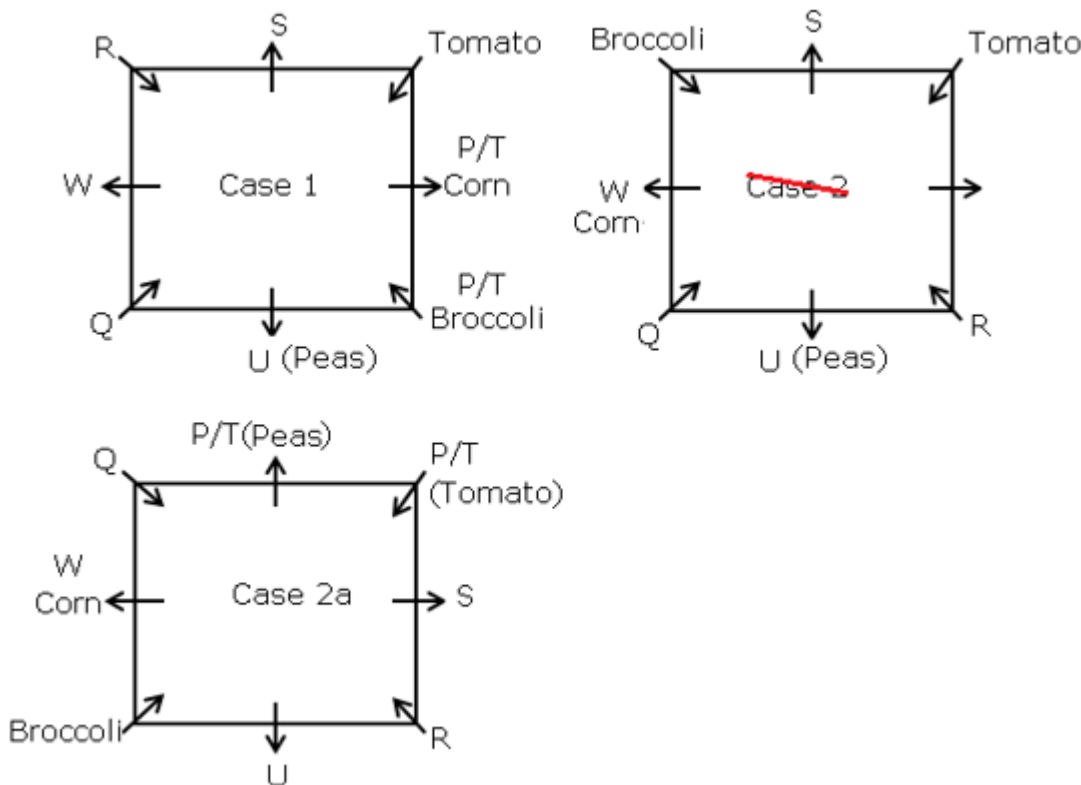

@QuizByMickey

Again we have,

- As many persons sit between U and the one who likes Broccoli (when counted from the left of U) as between R and S (when counted from the left of R).
- Q sits immediate left of the one who sits second to the left of S.
- Both W and the one who likes Peas sits adjacent to Q.
- W doesn't like Peas.
- P and T sit immediate right of each other.

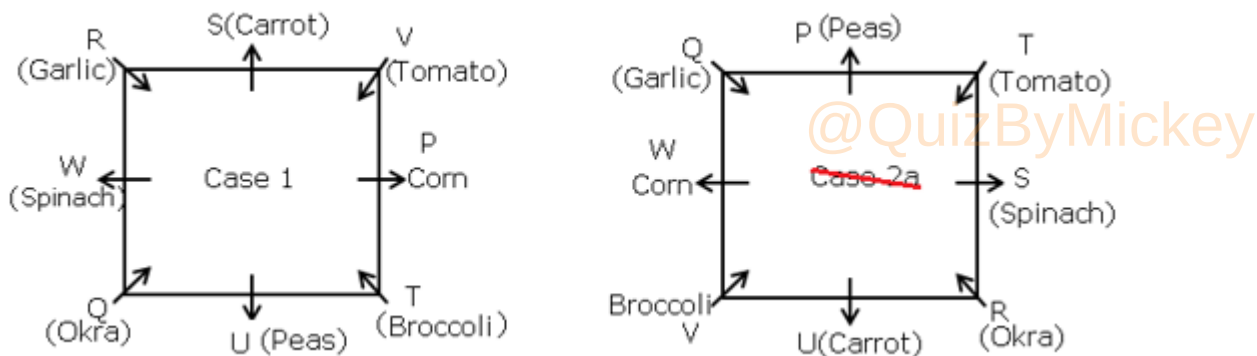

From the above condition case-2 gets eliminated because P and T sit to the immediate right of each other, which is not satisfied.

Again we have,

- Only two persons sit between V and the one who likes Spinach.
- The number of persons sitting between V and R (when counted from the left of R) is one less than the number of persons sitting between P and the one who likes Okra (when counted from the right of P).
- The one who likes carrots doesn't sit at the corner of the table.
- Q doesn't like Garlic.

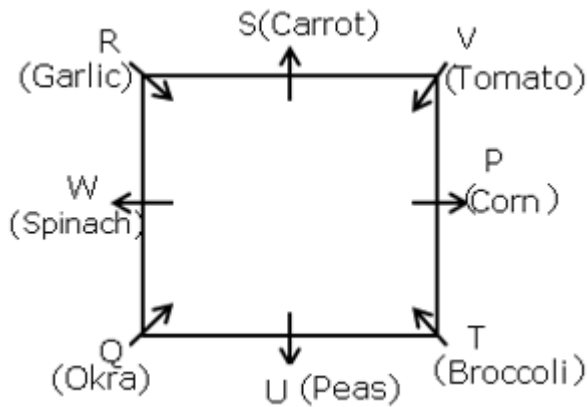

From the above conditions case-2a gets eliminated because Q doesn't like Garlic, which is not satisfied. Hence, case-1 shows the final arrangement.

Answer: A (Except option (a), in all other options the second person sits to the immediate right of the first person)

14. Questions

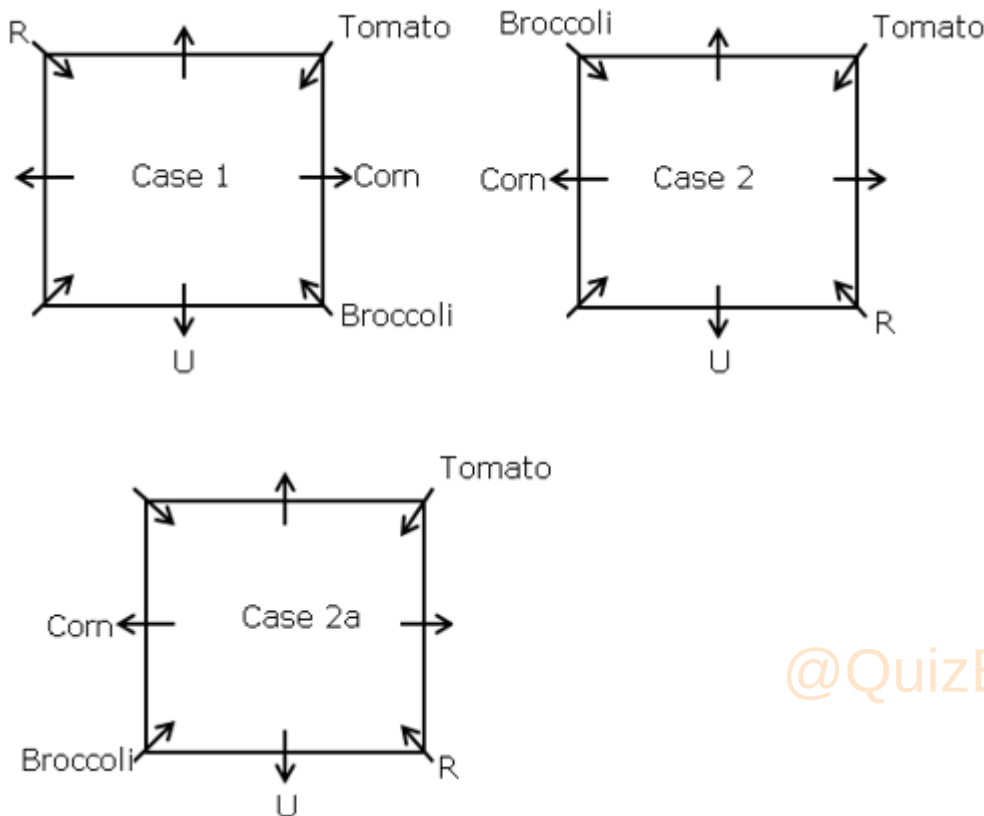

Final arrangement:

We have,

- The one who likes Tomato sits third to the left of U, who doesn't face centre.
- Only one person sits between the one who likes Tomato and R.
- The one who sits opposite to R sits immediate right of the one who likes Corn.
- The one who likes Broccoli sits adjacent to the one who likes Corn.

From the above conditions, there are three possibilities.

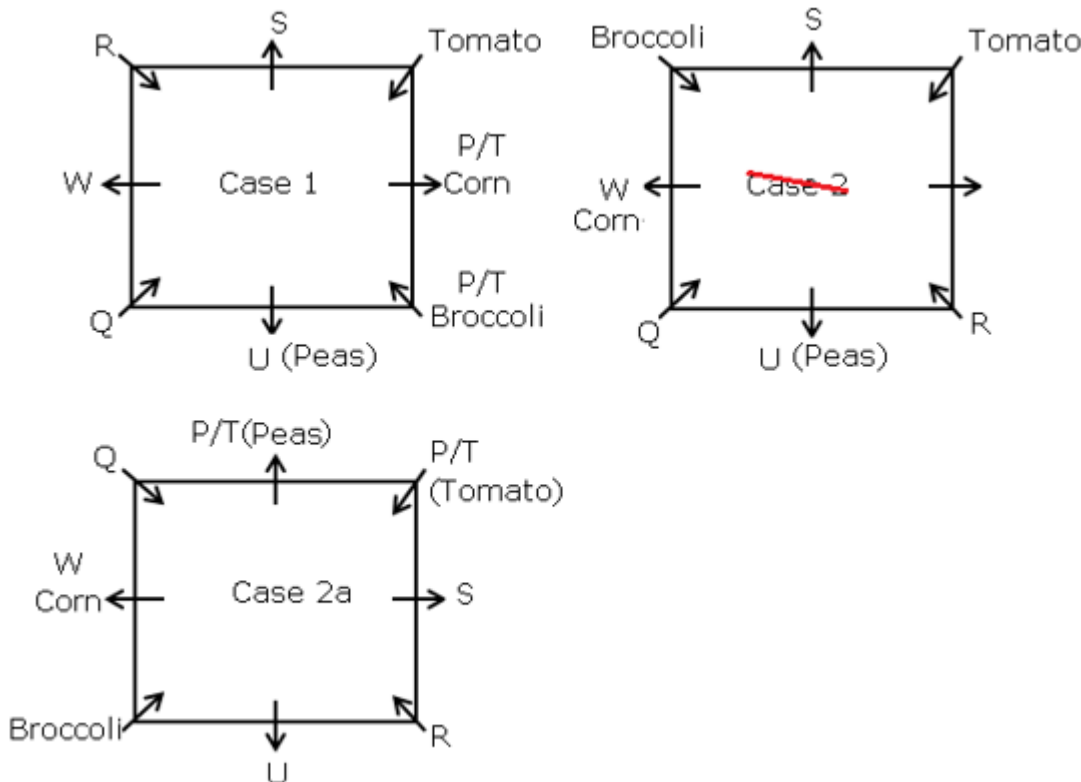

@QuizByMickey

Again we have,

- As many persons sit between U and the one who likes Broccoli (when counted from the left of U) as between R and S (when counted from the left of R).
- Q sits immediate left of the one who sits second to the left of S.
- Both W and the one who likes Peas sits adjacent to Q.
- W doesn't like Peas.

- P and T sit immediate right of each other.

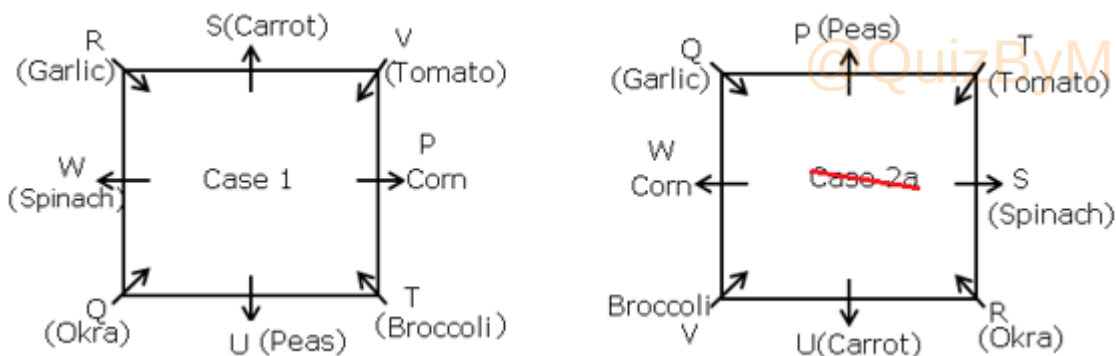

From the above condition case-2 gets eliminated because P and T sit to the immediate right of each other, which is not satisfied.

Again we have,

- Only two persons sit between V and the one who likes Spinach.
- The number of persons sitting between V and R (when counted from the left of R) is one less than the number of persons sitting between P and the one who likes Okra (when counted from the right of P).
- The one who likes carrots doesn't sit at the corner of the table.
- Q doesn't like Garlic.

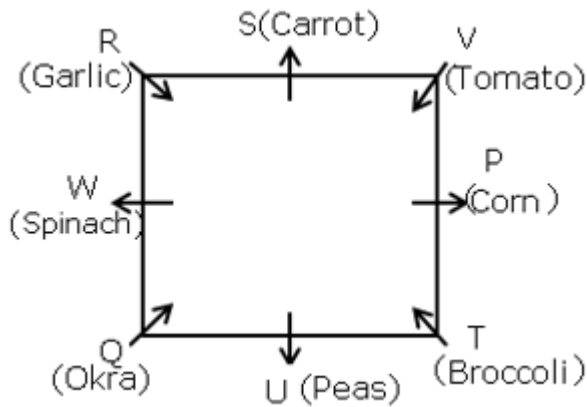

From the above conditions case-2a gets eliminated because Q doesn't like Garlic, which is not satisfied. Hence, case-1 shows the final arrangement.

Answer: B

15. Questions

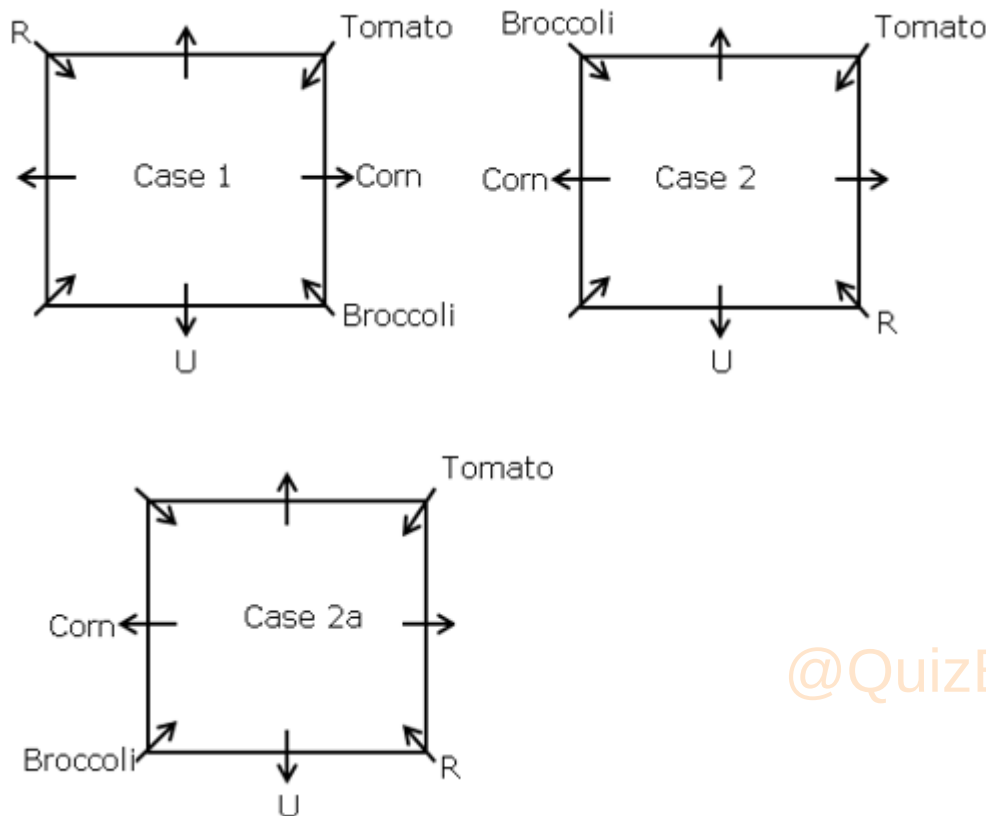

Final arrangement:

We have,

- The one who likes Tomato sits third to the left of U, who doesn't face centre.
- Only one person sits between the one who likes Tomato and R.
- The one who sits opposite to R sits immediate right of the one who likes Corn.
- The one who likes Broccoli sits adjacent to the one who likes Corn.

From the above conditions, there are three possibilities.

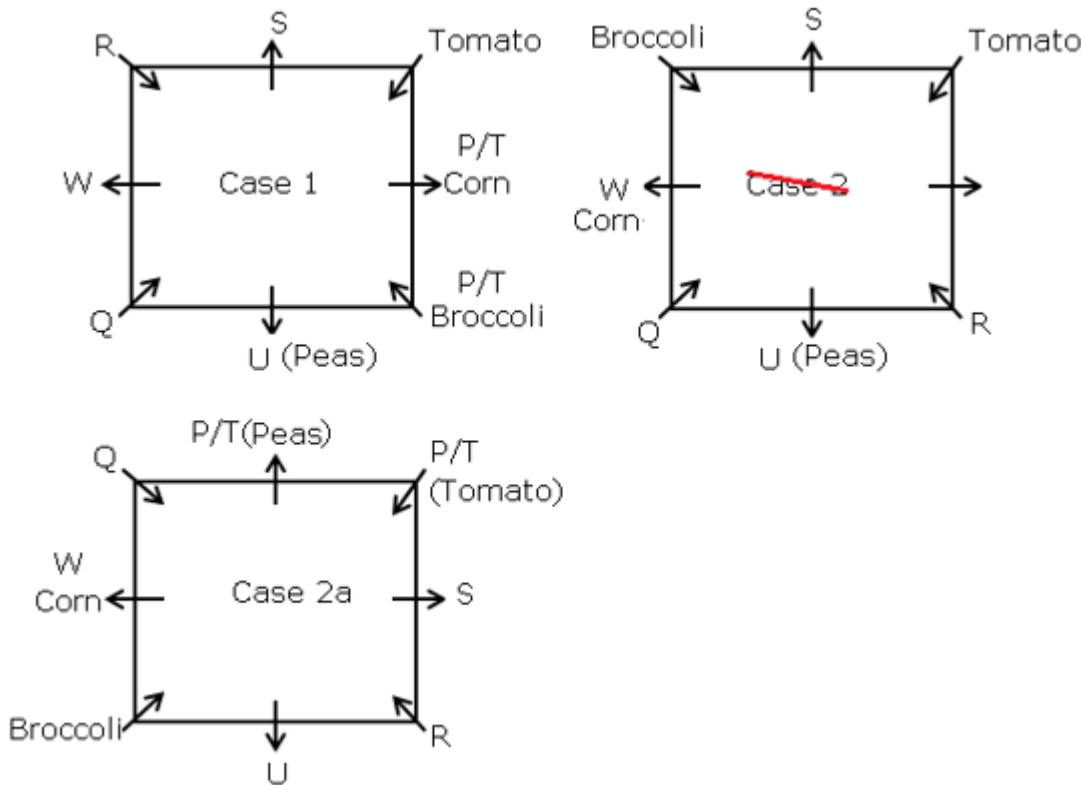

@QuizByMickey

Again we have,

- As many persons sit between U and the one who likes Broccoli (when counted from the left of U) as between R and S (when counted from the left of R).
- Q sits immediate left of the one who sits second to the left of S.
- Both W and the one who likes Peas sits adjacent to Q.
- W doesn't like Peas.

- P and T sit immediate right of each other.

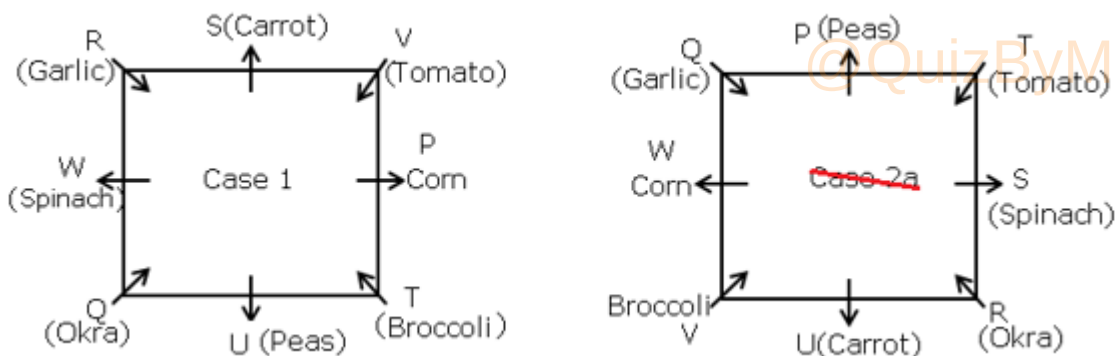

From the above condition case-2 gets eliminated because P and T sit to the immediate right of each other, which is not satisfied.

Again we have,

- Only two persons sit between V and the one who likes Spinach.
- The number of persons sitting between V and R (when counted from the left of R) is one less than the number of persons sitting between P and the one who likes Okra (when counted from the right of P).
- The one who likes carrots doesn't sit at the corner of the table.
- Q doesn't like Garlic.

From the above conditions case-2a gets eliminated because Q doesn't like Garlic, which is not satisfied. Hence, case-1 shows the final arrangement.

Answer: E

16. Questions

Step I: The letters which are immediately followed by a symbol are to be arranged in alphabetical order from left to right at the right end of the series immediately after O.

Given Series:

H 8 J @ A 9 # K Y % L 4 ^ N 5 3 B G & * X 1 + 2 V \$ T O

After applying the given condition, we get,

Step I: H 8 @ A 9 # K % L 4 ^ N 5 3 B & * X 1 + 2 \$ T O G J V Y

Step II: The numbers which are immediately preceded by a consonant will be arranged between ‘&’ and ‘*’ in descending order from left to right.

After applying the given condition, we get,

H 8 @ A 9 # K % L 4 ^ N 5 3 B & * X 1 + 2 \$ T O G J V Y

Step II: H @ A 9 # K % L ^ N 3 B & 8 5 4 1 * X + 2 \$ T O G J V Y

Step III: The symbols which are immediately preceded by the letter will be placed such that 1st symbol will be placed at the left end, the 2nd symbol will be placed at the right end, 3rd symbol will again be arranged at the left end and so on.

After applying the given condition, we get,

Step III: + ^ @ H A 9 # K L N 3 B 8 5 4 1 * X 2 \$ T O G J V Y % &

Step IV: If a number is either immediately followed or immediately preceded by a letter but not both, then one is subtracted from that number.

After applying the given condition, we get,

Step IV: + ^ @ H A 8 # K L N 3 B 7 5 4 1 * X 1 \$ T O G J V Y % &

Answer: A

Given series:

Step III: H 8 J @ A 9 # K Y % L 4 ^ N 5 3 B G & * X 1 + 2 V \$ T O

Required series: Number-Symbol-Letter

Step III: + ^ @ H A 9 # K L N 3 B 8 5 4 1 * X 2 \$ T O G J V Y % &

17. Questions

@QuizByMickey

Step I: The letters which are immediately followed by a symbol are to be arranged in alphabetical order from left to right at the right end of the series immediately after O.

Given Series:

H 8 J @ A 9 # K Y % L 4 ^ N 5 3 B G & * X 1 + 2 V \$ T O

After applying the given condition, we get,

Step I: H 8 @ A 9 # K % L 4 ^ N 5 3 B & * X 1 + 2 \$ T O G J V Y

Step II: The numbers which are immediately preceded by a consonant will be arranged between ‘&’ and ‘*’

in descending order from left to right.

After applying the given condition, we get,

H 8 @ A 9 # K % L 4 ^ N 5 3 B & * X 1 + 2 \$ T O G J V Y

Step II: H @ A 9 # K % L ^ N 3 B & **8 5 4 1** * X + 2 \$ T O G J V Y

Step III: The symbols which are immediately preceded by the letter will be placed such that 1st symbol will be placed at the left end, the 2nd symbol will be placed at the right end, 3rd symbol will again be arranged at the left end and so on.

After applying the given condition, we get,

Step III: + ^ @ H A 9 # K L N 3 B 8 5 4 1 * X 2 \$ T O G J V Y % &

Step IV: If a number is either immediately followed or immediately preceded by a letter but not both, then one is subtracted from that number.

After applying the given condition, we get,

Step IV: + ^ @ H A **8** # K L N 3 B **7** 5 4 1 * X **1** \$ T O G J V Y % &

Answer: B

Step II: H @ A 9 # K % L ^ N 3 B & **8 5 4 1** * X + 2 \$ T O G J V Y

Sum= 3+8+5+4+1=21

18. Questions

Step I: The letters which are immediately followed by a symbol are to be arranged in alphabetical order from left to right at the right end of the series immediately after O.

Given Series:

H 8 J @ A 9 # K Y % L 4 ^ N 5 3 B G & * X 1 + 2 V \$ T O

After applying the given condition, we get,

Step I: H 8 @ A 9 # K % L 4 ^ N 5 3 B & * X 1 + 2 \$ T O G J V Y

Step II: The numbers which are immediately preceded by a consonant will be arranged between '&' and '*' in descending order from left to right.

After applying the given condition, we get,

H 8 @ A 9 # K % L 4 ^ N 5 3 B & * X 1 + 2 \$ T O G J V Y

Step II: H @ A 9 # K % L ^ N 3 B & **8 5 4 1** * X + 2 \$ T O G J V Y

Step III: The symbols which are immediately preceded by the letter will be placed such that 1st symbol will be placed at the left end, the 2nd symbol will be placed at the right end, 3rd symbol will again be arranged at the left end and so on.

After applying the given condition, we get,

Step III: + ^ @ H A 9 # K L N 3 B 8 5 4 1 * X 2 \$ T O G J V Y % &

@QuizByMickey

Step IV: If a number is either immediately followed or immediately preceded by a letter but not both, then one is subtracted from that number.

After applying the given condition, we get,

Step IV: + ^ @ H A 8 # K L N 3 B 7 5 4 1 * X 1 \$ T O G J V Y % &

Answer: D

Step IV: + ^ @ H A 8 # K L N 3 B 7 5 4 1 * X 1 \$ T O G J V Y % &

After removing the numbers

+ ^ @ H A # K L N B * X \$ T O G J V Y % &

The element which is exactly between the first vowel from the left end (A) and the third symbol from the right end (\$) is N

19. Questions

Step I: The letters which are immediately followed by a symbol are to be arranged in alphabetical order from left to right at the right end of the series immediately after O.

Given Series:

H 8 J @ A 9 # K Y % L 4 ^ N 5 3 B G & * X 1 + 2 V \$ T O

After applying the given condition, we get,

Step I: H 8 @ A 9 # K % L 4 ^ N 5 3 B & * X 1 + 2 \$ T O G J V Y

Step II: The numbers which are immediately preceded by a consonant will be arranged between '&' and '*' in descending order from left to right.

After applying the given condition, we get,

H 8 @ A 9 # K % L 4 ^ N 5 3 B & * X 1 + 2 \$ T O G J V Y

Step II: H @ A 9 # K % L ^ N 3 B & 8 5 4 1 * X + 2 \$ T O G J V Y

Step III: The symbols which are immediately preceded by the letter will be placed such that 1st symbol will be placed at the left end, the 2nd symbol will be placed at the right end, 3rd symbol will again be arranged at the left end and so on.

After applying the given condition, we get,

Step III: + ^ @ H A 9 # K L N 3 B 8 5 4 1 * X 2 \$ T O G J V Y % &

Step IV: If a number is either immediately followed or immediately preceded by a letter but not both, then one is subtracted from that number.

After applying the given condition, we get,

Step IV: + ^ @ H A 8 # K L N 3 B 7 5 4 1 * X 1 \$ T O G J V Y % &

Answer: E

Step I: H 8 @ A 9 # K % L 4 ^ N 5 3 B & * X 1 + 2 \$ T O G J V Y

@QuizByMickey

After dropping all the symbols and numbers

H A K L N B X T O G J V Y

20. Questions

Step I: The letters which are immediately followed by a symbol are to be arranged in alphabetical order from left to right at the right end of the series immediately after O.

Given Series:

H 8 J @ A 9 # K Y % L 4 ^ N 5 3 B G & * X 1 + 2 V \$ T O

After applying the given condition, we get,

Step I: H 8 @ A 9 # K % L 4 ^ N 5 3 B & * X 1 + 2 \$ T O G J V Y

Step II: The numbers which are immediately preceded by a consonant will be arranged between ‘&’ and ‘*’ in descending order from left to right.

After applying the given condition, we get,

H 8 @ A 9 # K % L 4 ^ N 5 3 B & * X 1 + 2 \$ T O G J V Y

Step II: H @ A 9 # K % L ^ N 3 B & 8 5 4 1 * X + 2 \$ T O G J V Y

Step III: The symbols which are immediately preceded by the letter will be placed such that 1st symbol will be placed at the left end, the 2nd symbol will be placed at the right end, 3rd symbol will again be arranged at the left end and so on.

After applying the given condition, we get,

Step III: + ^ @ H A 9 # K L N 3 B 8 5 4 1 * X 2 \$ T O G J V Y % &

Step IV: If a number is either immediately followed or immediately preceded by a letter but not both, then one is subtracted from that number.

After applying the given condition, we get,

Step IV: + ^ @ H A 8 # K L N 3 B 7 5 4 1 * X 1 \$ T O G J V Y % &

Answer: C

Step III: + ^ @ H A 9 # K L N 3 B 8 5 4 1 * X 2 \$ T O G J V Y % &

The element which is 6th to the right of the 18th element from the right end is *
