

1. Questions

Study the following information carefully and answer the questions given below:

Eight persons—A, B, C, D, E, F, G, and H—are working in three different departments: IT, Admin, and Operations, at different posts—Executive and Senior Executive. Each person has a different number of chocolates. The number of chocolates with executives is an odd number, while with senior executives it is an even number. At least two persons but not more than three persons are working in each department.

D has 120 chocolates. F has 63 chocolates, which is 14 more than the chocolates with A. Neither A nor F is working in a different department. Both C and D are working in the same department but not with F. E works with only B, who has 36 chocolates less than H. G neither works with F nor works in the Admin department. H does not work in the Operation and the Admin department. The number of chocolates with G is twice that of A. The sum of the number of chocolates with C and G is 229, and the sum of the number of chocolates with A and E is 190. The number of chocolates with H is 5 less than that with C.

Which of the following statement(s) is/are definitely TRUE with respect to the Executive post?

- a. The total number of chocolates with Executives is less than that of Senior Executives
- b. The one who is the Executive in the IT department has the least chocolates among all
- c. The average number of chocolates of Executives is more than 90
- d. C does not have the maximum number of chocolates among the Executives
- e. All are true

2. Questions

Who among the following person works in the same department as the one who has 98 chocolates, but does not work in the same post?

- a. C
- b. D
- c. H
- d. Both D and C
- e. F

@QuizByMickey

3. Questions

Which of the following combination is definitely incorrect?

- a. A – IT – Executive – 49
- b. B – Admin – Senior Executive – 90
- c. E – Admin – Senior Executive – 141
- d. G – Operations – Senior Executive – 98
- e. F – IT – Executive – 63

4. Questions

If the person who has the maximum number of chocolates in the Admin department is replaced by the person who has the minimum number of chocolates in the IT department, then what will be the total number of chocolates in the Admin department?

- a. 111
- b. 139
- c. 151
- d. 112
- e. 109

5. Questions

Which of the following statement(s) is/are definitely TRUE based on the given arrangement?

- a. The total number of chocolates in the Operations department is 349
- b. The number of chocolates with H is more than that of E
- c. An even number of persons are not working as Senior executives
- d. The sum of the number of chocolates with A and B is 138
- e. C is the only Executive in the Admin department

6. Questions

Study the following information carefully and answer the questions given below:

Twelve persons—Ritesh, Tanika, Pinky, Maya, Parineetha, Vidhika, Mridula, Sangeetha, Kalpi, Badarika, Kadambari and Dakshata go to the interview in different months from January to December of the same year.

Note: If the person's name starts with a letter which comes in the first half of the alphabetical series, then he/she goes to the interview in the first half of the year; else, he/she goes to the interview in the second half of the year.

The persons whose name have an even number of letters like different colours and the persons whose name have an odd number of letters like different flowers.

Kadambari goes to the interview two months before Dakshata. Two persons go between Parineetha and Dakshata. The one who likes Red goes immediately after Dakshata. Mridula goes two months before Tanika. Three persons go between Tanika and the one who likes Iris. The one who likes Tulip goes immediately before the one who likes Iris. Ritesh goes before the one who likes Tulip. The one who likes Black goes three persons before Ritesh. The one who likes Hibiscus goes immediately before Ritesh. The one who likes Rose goes immediately before Kalpi. Not more than three persons go between Vidhika and Maya, who goes after the one who likes Jasmine. The one who likes White goes after the one who likes Lotus. Sangeetha goes immediately after the one who likes Blue. The one who likes Pink goes before the one who likes Yellow.

How many persons go to the interview between Badarika and the one who likes White colour?

- a. Seven
- b. Five
- c. Eight
- d. Six
- e. Nine

7. Questions

Four of the following five are alike in a certain way based on the given arrangement and thus form a group. Which one of the following does not belong to the group?

- a. Kalpi
- b. Parineetha
- c. Vidhika
- d. Badarika
- e. Pinky

8. Questions

Who among the following person likes Lotus?

- a. Kadambari
- b. Mridula
- c. Vidhika
- d. Sangeetha
- e. Pinky

9. Questions

Which among the following combination is correct?

- a. Pinky- October
- b. Vidhika-Tulip
- c. Maya- Pink
- d. Dakshata- Red
- e. Parineetha- Black

@QuizByMickey

10. Questions

Which of the following statement(s) is/are definitely TRUE as per the final arrangement?

I). The one who likes Jasmine goes before Maya.

II). Mridula goes in the month of April.

III). The one who likes Rose goes immediately before Kalpi.

- a. Only I and II
- b. Only I and III
- c. Only II and III
- d. Only III
- e. All I, II and III

11. Questions

Study the following information carefully and answer the given questions:

Ten boxes are placed on three different stacks, viz., stack 1, stack 2 and stack 3. Stack 2 is in the west of stack 3 and east of stack 1. Each stack has five different shelves where the bottommost shelf is numbered as one and immediately above it is numbered as two and so on till the topmost shelf is numbered as five. Five boxes are vacant. One shelf in each stack must be vacant. The adjacent shelves in each stack are not vacant.

M is placed three shelves above E, both are placed in the same numbered stack but not in stack 3. T is neither placed above E nor below E. D's shelf number is twice that of T but they are not placed in the same numbered stack. Both A and D are placed on the same shelf but A is placed east of the Vacant shelf. Two shelves are between A and P, which does not placed on shelf 1. The number of stacks to the west of P is same as the number of shelves to the south of R. H is placed immediately west of R, which is placed immediately above the vacant shelf. B is placed above C but not placed in an even-numbered stack.

Which among the following box is placed in stack 3 on shelf 4?

- a. The box which is placed just below Box R
- b. The box which is placed just east of Box M
- c. Box D
- d. The box which is placed just below Box B
- e. No one

@QuizByMickey

12. Questions

Which among the following boxes do not place on the same shelves?

- a. Box B- BoxM
- b. Box E- Box T
- c. Box H - Box R
- d. Box D - Box A

e. Box M- Box C

13. Questions

Four of the following five are alike in a certain way based on the given arrangement and thus form a group. Which one of the following does not belong to the group?

- a. Box M
- b. Box C
- c. Box D
- d. Box A
- e. Box B

14. Questions

Box H is placed in which stack on which shelf?

- a. Stack 2, Shelf 2
- b. Stack 1, Shelf 2
- c. Stack 2, Shelf 3
- d. Stack 1, Shelf 3
- e. None of these

15. Questions

The number of shelves between box B and box R is two less than the number of shelves between ____ and ____?

- a. Box C- Box M
- b. Box P- Box C
- c. Box D- Box T
- d. Box T-Box P
- e. Box H- Box T

@QuizByMickey

16. Questions

Study the following information carefully and answer the questions given below:

In a certain code language:

"Experience enlightens the journey" is coded as "C*4 S?9 L?6 M*15"

"Loyalty strengthen mutual trust" is coded as "L?21 G*6 (1) I?20"

"Obstacles build inner strength" is coded as "F?13 (2) G*21 M?6"

"Contentment gives inner (3)" is coded as "L?15 M?6 Z*20 R?6"

What is the code for the words filled in blank 1 and 2, respectively?

- a. E?2, X*6
- b. E*2, X?6
- c. F?2, Y*6
- d. F*2, Y?6
- e. F?1, Y*5

17. Questions

Which among the following word is suitable for blank 3?

- a. Harmony
- b. Tranquillity
- c. Peace
- d. Relaxation
- e. Calmness

18. Questions

What is the code for the phrase "Success Knock Twice" in a given coded language?

- a. F*12 M*4 D?4
- b. F?20 M?4 D?4
- c. M?4 F*13 U?12
- d. O?21 F?4 D?4
- e. Can't be determined

19. Questions

What is the phrase for the code "Z*16 Z*19" in a given coded language?

- a. Create Things
- b. People Watch
- c. Factor Part
- d. Matter For
- e. Being Human

20. Questions

What is the code for the phrase "Circular Seating" in a given coded language?

- a. G?3 U*12
- b. U*6 U?10
- c. F*2 T?15
- d. U?15 T?2
- e. R*2 V?15

Explanations:

1. Questions

Final Arrangement:

Person	Department	Post	Chocolates
A	IT	Executive	49
B	Admin	Senior Executive	90
C	Operations	Executive	131
D	Operations	Senior Executive	120
E	Admin	Executive	141
F	IT	Executive	63
G	Operations	Senior Executive	98
H	IT	Senior Executive	126

We have,

- D has 120 chocolates.
- F has 63 chocolates, which is 14 more than the chocolates with A.
- Neither A nor F is working in a different department.

(x denotes both are from the same department)

@QuizByMickey

Person	Department	Post	Chocolates
A	x	Executive	49
B			
C			
D		Senior Executive	120
E			
F	x	Executive	63
G			
H			

Again, we have

- Both C and D are working in the same department but not with F.
- E works with only B, who has 36 chocolates less than H.

(x, y, and Z denote persons who are from the same department.)

Person	Department	Post	Chocolates
A	x	Executive	49
B	z		H-36
C	y		
D	y	Senior Executive	120
E	z		
F	x	Executive	63
G			
H			B+36

Again, we have

- G neither works with F nor works in the Admin department.
- H does not work in the operation and the Admin department.
- The number of chocolates with G is twice that of A.
- The sum of chocolates with C and G is 229, and the sum of the number of chocolates with A and E is 190.

(x, y, and Z denote persons who are from the same department.)

Persons	Department	Post	Chocolates
A	x	Executive	49
B	z		H-36
C	y	Executive	131
D	y	Senior Executive	120
E	z	Executive	141
F	x	Executive	63
G		Senior Executive	98
H	IT		B+36

Again, we have,

G must not work with F, so he must work with CD. So H must work with AF.

- H does not work in the operation and the Admin department. G does not work in the Admin department.

H must work in the IT department. G must work in the operations department.

	Persons	Department
x	AFH	IT
y	CDG	Operation
z	BE	Admin

Again, we have

- The number of chocolates with H is 5 less than that with C.

Person	Department	Post	Chocolates
A	IT	Executive	49
B	Admin	Senior Executive	90
C	Operations	Executive	131
D	Operations	Senior Executive	120
E	Admin	Executive	141
F	IT	Executive	63
G	Operations	Senior Executive	98
H	IT	Senior Executive	126

@QuizByMickey

Answer: E

2. Questions

Final Arrangement:

Person	Department	Post	Chocolates
A	IT	Executive	49
B	Admin	Senior Executive	90
C	Operations	Executive	131
D	Operations	Senior Executive	120
E	Admin	Executive	141
F	IT	Executive	63
G	Operations	Senior Executive	98
H	IT	Senior Executive	126

We have,

- D has 120 chocolates.
- F has 63 chocolates, which is 14 more than the chocolates with A.
- Neither A nor F is working in a different department.

(x denotes both are from the same department)

Person	Department	Post	Chocolates
A	x	Executive	49
B			
C			
D		Senior Executive	120
E			
F	x	Executive	63
G			
H			

Again, we have

- Both C and D are working in the same department but not with F.
- E works with only B, who has 36 chocolates less than H.

(x, y, and Z denote persons who are from the same department.)

Person	Department	Post	Chocolates
A	x	Executive	49
B	z		H-36
C	y		
D	y	Senior Executive	120
E	z		
F	x	Executive	63
G			
H			B+36

Again, we have

- G neither works with F nor works in the Admin department.
- H does not work in the operation and the Admin department.
- The number of chocolates with G is twice that of A.
- The sum of chocolates with C and G is 229, and the sum of the number of chocolates with A and E is 190.

(x, y, and Z denote persons who are from the same department.)

Persons	Department	Post	Chocolates
A	x	Executive	49
B	z		H-36
C	y	Executive	131
D	y	Senior Executive	120
E	z	Executive	141
F	x	Executive	63
G		Senior Executive	98
H	IT		B+36

Again, we have,

G must not work with F, so he must work with CD. So H must work with AF.

- H does not work in the operation and the Admin department. G does not work in the Admin department.

H must work in the IT department. G must work in the operations department.

	Persons	Department
x	AFH	IT
y	CDG	Operation
z	BE	Admin

Again, we have

- The number of chocolates with H is 5 less than that with C.

Person	Department	Post	Chocolates
A	IT	Executive	49
B	Admin	Senior Executive	90
C	Operations	Executive	131
D	Operations	Senior Executive	120
E	Admin	Executive	141
F	IT	Executive	63
G	Operations	Senior Executive	98
H	IT	Senior Executive	126

Answer: A

3. Questions

Final Arrangement:

Person	Department	Post	Chocolates
A	IT	Executive	49
B	Admin	Senior Executive	90

@QuizByMickey

Answer: A

6. Questions

Final arrangement:

Months	Case 1	
	Boxes	Colours/Flowers
January	Badarika	Pink
February	Kadambari	Rose
March	Kalpi	Jasmine
April	Dakshata	Yellow
May	Maya	Red
June	Mridula	Lotus
July	Parineetha	Black
August	Tanika	White
September	Vidhika	Hibiscus
October	Ritesh	Blue
November	Sangeetha	Tulip
December	Pinky	Iris

We have,

- Kadambari goes to the interview two months before Dakshata.
- Two persons go between Parineetha and Dakshata.
- The one who likes Red goes immediately after Dakshata.

From the above conditions, there are three possibilities

Months	Case 1		Case 2		Case 3	
	Persons	Colours/ Flower	Persons	Colours/ Flowers	Persons	Colours/ Flower
January						
February	Kadambari					
March			Kadambari			
April	Dakshata				Kadambari	
May		Red	Dakshata			
June				Red	Dakshata	
July	Parineetha					Red
August			Parineetha			
September					Parineetha	
October						
November						
December						

Again, we have

- Mridula goes two months before Tanika.
- Three persons go between Tanika and the one who likes Iris.
- The one who likes Tulip goes immediately before the one who likes Iris.

From the above conditions, Case 2 gets eliminated because Mridula goes two months before Tanika, which is not satisfied.

Months	Case 1		Case 2		Case 3	
	Persons	Colours/ Flowers	Persons	Colours/ Flowers	Persons	Colours/ Flowers
January						
February	Kadambari					Tulip/
March			Kadambari			Iris/
April	Dakshata				Kadambari	
May		Red	Dakshata		Mridula	
June	Mridula			Red	Dakshata	
July	Parineetha				Tanika	Red
August	Tanika		Parineetha			
September					Parineetha	
October						Tulip/
November		Tulip				Iris/
December		Iris				

Again, we have

- Ritesh goes before the one who likes Tulip.
- The one who likes Black goes three persons before Ritesh.
- The one who likes Hibiscus goes immediately before Ritesh.
- The one who likes Rose goes immediately before Kalpi.
- Not more than three persons go between Vidhika and Maya, who goes after the one who likes Jasmine.

From the above conditions, Case 3 gets eliminated because Mridula can't like the color as per the given note.

@QuizByMickey

Months	Case 1		Case 3	
	Persons	Colours/ Flowers	Persons	Colours/ Flowers
January	Badarika			
February	Kadambari	Rose		
March	Kalpi	Jasmine		
April	Dakshata		Kadambari	
May	Maya	Red	Mridula	Black
June	Mridula		Dakshata	
July	Parineetha	Black	Tanika	Red
August	Tanika		Ritesh	
September	Vidhika	Hibiscus	Parineetha	
October	Ritesh			Tulip
November		Tulip		Iris
December		Iris		

Again, we have

- The one who likes White goes after the one who likes Lotus.
- Sangeetha goes just after the one who likes Blue.
- The one who likes Pink goes before the one who likes Yellow.

We have the following arrangement from the above conditions.

Pinky is left only; thus, the final arrangement is:

Months	Case 1	
	Boxes	Colours/Flowers
January	Badarika	Pink
February	Kadambari	Rose
March	Kalpi	Jasmine
April	Dakshata	Yellow
May	Maya	Red
June	Mridula	Lotus
July	Parineetha	Black
August	Tanika	White
September	Vidhika	Hibiscus
October	Ritesh	Blue
November	Sangeetha	Tulip
December	Pinky	Iris

@QuizByMickey

Answer: D

7. Questions

Final arrangement:

Months	Case 1	
	Boxes	Colours/Flowers
January	Badarika	Pink
February	Kadambari	Rose
March	Kalpi	Jasmine
April	Dakshata	Yellow
May	Maya	Red
June	Mridula	Lotus
July	Parineetha	Black
August	Tanika	White
September	Vidhika	Hibiscus
October	Ritesh	Blue
November	Sangeetha	Tulip
December	Pinky	Iris

We have,

- Kadambari goes to the interview two months before Dakshata.
- Two persons go between Parineetha and Dakshata.
- The one who likes Red goes immediately after Dakshata.

From the above conditions, there are three possibilities

Months	Case 1		Case 2		Case 3	
	Persons	Colours/ Flower	Persons	Colours/ Flowers	Persons	Colours/ Flower
January						
February	Kadambari					
March			Kadambari			
April	Dakshata				Kadambari	
May		Red	Dakshata			
June				Red	Dakshata	
July	Parineetha					Red
August			Parineetha			
September					Parineetha	
October						
November						
December						

Again, we have

- Mridula goes two months before Tanika.
- Three persons go between Tanika and the one who likes Iris.
- The one who likes Tulip goes immediately before the one who likes Iris.

From the above conditions, Case 2 gets eliminated because Mridula goes two months before Tanika, which is not satisfied.

Months	Case 1		Case 2		Case 3	
	Persons	Colours/ Flowers	Persons	Colours/ Flowers	Persons	Colours/ Flowers
January						
February	Kadambari					Tulip/
March			Kadambari			Iris/
April	Dakshata				Kadambari	
May		Red	Dakshata		Mridula	
June	Mridula			Red	Dakshata	
July	Parineetha				Tanika	Red
August	Tanika		Parineetha			
September					Parineetha	
October						Tulip/
November		Tulip				Iris/
December		Iris				

Again, we have

- Ritesh goes before the one who likes Tulip.
- The one who likes Black goes three persons before Ritesh.
- The one who likes Hibiscus goes immediately before Ritesh.
- The one who likes Rose goes immediately before Kalpi.
- Not more than three persons go between Vidhika and Maya, who goes after the one who likes Jasmine.

From the above conditions, Case 3 gets eliminated because Mridula can't like the color as per the given note.

@QuizByMickey

Months	Case 1		Case 3	
	Persons	Colours/ Flowers	Persons	Colours/ Flowers
January	Badarika			
February	Kadambari	Rose		
March	Kalpi	Jasmine		
April	Dakshata		Kadambari	
May	Maya	Red	Mridula	Black
June	Mridula		Dakshata	
July	Parineetha	Black	Tanika	Red
August	Tanika		Ritesh	
September	Vidhika	Hibiscus	Parineetha	
October	Ritesh			Tulip
November		Tulip		Iris
December		Iris		

Again, we have

- The one who likes White goes after the one who likes Lotus.
- Sangeetha goes just after the one who likes Blue.
- The one who likes Pink goes before the one who likes Yellow.

We have the following arrangement from the above conditions.

Pinky is left only; thus, the final arrangement is:

Months	Case 1	
	Boxes	Colours/Flowers
January	Badarika	Pink
February	Kadambari	Rose
March	Kalpi	Jasmine
April	Dakshata	Yellow
May	Maya	Red
June	Mridula	Lotus
July	Parineetha	Black
August	Tanika	White
September	Vidhika	Hibiscus
October	Ritesh	Blue
November	Sangeetha	Tulip
December	Pinky	Iris

@QuizByMickey

Answer: C (Except option c, all the persons go to the interview in the month having an odd number of days.)

8. Questions

Final arrangement:

Months	Case 1	
	Boxes	Colours/Flowers
January	Badarika	Pink
February	Kadambari	Rose
March	Kalpi	Jasmine
April	Dakshata	Yellow
May	Maya	Red
June	Mridula	Lotus
July	Parineetha	Black
August	Tanika	White
September	Vidhika	Hibiscus
October	Ritesh	Blue
November	Sangeetha	Tulip
December	Pinky	Iris

We have,

- Kadambari goes to the interview two months before Dakshata.
- Two persons go between Parineetha and Dakshata.
- The one who likes Red goes immediately after Dakshata.

From the above conditions, there are three possibilities

Months	Case 1		Case 2		Case 3	
	Persons	Colours/ Flower	Persons	Colours/ Flowers	Persons	Colours/ Flower
January						
February	Kadambari					
March			Kadambari			
April	Dakshata				Kadambari	
May		Red	Dakshata			
June				Red	Dakshata	
July	Parineetha					Red
August			Parineetha			
September					Parineetha	
October						
November						
December						

Again, we have

- Mridula goes two months before Tanika.
- Three persons go between Tanika and the one who likes Iris.
- The one who likes Tulip goes immediately before the one who likes Iris.

From the above conditions, Case 2 gets eliminated because Mridula goes two months before Tanika, which is not satisfied.

Months	Case 1		Case 2		Case 3	
	Persons	Colours/ Flowers	Persons	Colours/ Flowers	Persons	Colours/ Flowers
January						
February	Kadambari					Tulip/
March			Kadambari			Iris/
April	Dakshata				Kadambari	
May		Red	Dakshata		Mridula	
June	Mridula			Red	Dakshata	
July	Parineetha				Tanika	Red
August	Tanika		Parineetha			
September					Parineetha	
October						Tulip/
November		Tulip				Iris/
December		Iris				

Again, we have

- Ritesh goes before the one who likes Tulip.
- The one who likes Black goes three persons before Ritesh.
- The one who likes Hibiscus goes immediately before Ritesh.
- The one who likes Rose goes immediately before Kalpi.
- Not more than three persons go between Vidhika and Maya, who goes after the one who likes Jasmine.

From the above conditions, Case 3 gets eliminated because Mridula can't like the color as per the given note.

@QuizByMickey

Months	Case 1		Case 3	
	Persons	Colours/ Flowers	Persons	Colours/ Flowers
January	Badarika			
February	Kadambari	Rose		
March	Kalpi	Jasmine		
April	Dakshata		Kadambari	
May	Maya	Red	Mridula	Black
June	Mridula		Dakshata	
July	Parineetha	Black	Tanika	Red
August	Tanika		Ritesh	
September	Vidhika	Hibiscus	Parineetha	
October	Ritesh			Tulip
November		Tulip		Iris
December		Iris		

Again, we have

- The one who likes White goes after the one who likes Lotus.
- Sangeetha goes just after the one who likes Blue.
- The one who likes Pink goes before the one who likes Yellow.

We have the following arrangement from the above conditions.

Pinky is left only; thus, the final arrangement is:

November	Sangeetha	Tulip
December	Pinky	Iris

@QuizByMickey

Answer: E

10. Questions

Final arrangement:

Months	Case 1	
	Boxes	Colours/Flowers
January	Badarika	Pink
February	Kadambari	Rose
March	Kalpi	Jasmine
April	Dakshata	Yellow
May	Maya	Red
June	Mridula	Lotus
July	Parineetha	Black
August	Tanika	White
September	Vidhika	Hibiscus
October	Ritesh	Blue
November	Sangeetha	Tulip
December	Pinky	Iris

We have,

- Kadambari goes to the interview two months before Dakshata.
- Two persons go between Parineetha and Dakshata.
- The one who likes Red goes immediately after Dakshata.

From the above conditions, there are three possibilities

Months	Case 1		Case 2		Case 3	
	Persons	Colours/ Flower	Persons	Colours/ Flowers	Persons	Colours/ Flower
January						
February	Kadambari					
March			Kadambari			
April	Dakshata				Kadambari	
May		Red	Dakshata			
June				Red	Dakshata	
July	Parineetha					Red
August			Parineetha			
September					Parineetha	
October						
November						
December						

Again, we have

- Mridula goes two months before Tanika.
- Three persons go between Tanika and the one who likes Iris.
- The one who likes Tulip goes immediately before the one who likes Iris.

From the above conditions, Case 2 gets eliminated because Mridula goes two months before Tanika, which is not satisfied.

Months	Case 1		Case 2		Case 3	
	Persons	Colours/ Flowers	Persons	Colours/ Flowers	Persons	Colours/ Flowers
January						
February	Kadambari					Tulip/
March			Kadambari			Iris/
April	Dakshata				Kadambari	
May		Red	Dakshata		Mridula	
June	Mridula			Red	Dakshata	
July	Parineetha				Tanika	Red
August	Tanika		Parineetha			
September					Parineetha	
October						Tulip/
November		Tulip				Iris/
December		Iris				

Again, we have

- Ritesh goes before the one who likes T
- The one who likes Black goes three persons before Ritesh.
- The one who likes Hibiscus goes immediately before Ritesh.
- The one who likes Rose goes immediately before Kalpi.
- Not more than three persons go between Vidhika and Maya, who goes after the one who likes Jasmine.

From the above conditions, Case 3 gets eliminated because Mridula can't like the color as per the given note.

@QuizByMickey

Months	Case 1		Case 3	
	Persons	Colours/ Flowers	Persons	Colours/ Flowers
January	Badarika			
February	Kadambari	Rose		
March	Kalpi	Jasmine		
April	Dakshata		Kadambari	
May	Maya	Red	Mridula	Black
June	Mridula		Dakshata	
July	Parineetha	Black	Tanika	Red
August	Tanika		Ritesh	
September	Vidhika	Hibiscus	Parineetha	
October	Ritesh			Tulip
November		Tulip		Iris
December		Iris		

Again, we have

- The one who likes White goes after the one who likes Lotus.
- Sangeetha goes just after the one who likes Blue.
- The one who likes Pink goes before the one who likes Y

We have the following arrangement from the above conditions.

Pinky is left only; thus, the final arrangement is:

Months	Case 1	
	Boxes	Colours/Flowers
January	Badarika	Pink
February	Kadambari	Rose
March	Kalpi	Jasmine
April	Dakshata	Yellow
May	Maya	Red
June	Mridula	Lotus
July	Parineetha	Black
August	Tanika	White
September	Vidhika	Hibiscus
October	Ritesh	Blue
November	Sangeetha	Tulip
December	Pinky	Iris

@QuizByMickey

Answer: B

11. Questions

Final arrangement:

Shelf	Stack 1	Stack 2	Stack 3
5	B	Vacant	P
4	Vacant	M	C
3	H	R	Vacant
2	D	Vacant	A
1	Vacant	E	T

We have,

- M is placed three shelves above E, both are placed in the same numbered stack, but not in stack 3.
- T is neither placed above E nor below E.
- D's shelf number is twice that of T, but they are not placed in the same numbered stack.

From the above conditions, there are four possible cases.

Shelf	Stack 1	Stack 2	Stack 3	Stack 1	Stack 2	Stack 3
	Case 1			Case 2		
5	M					
4	D/	D/	D/	M		
3						
2	E	T/	T/	D/	D/	D/
1				E	T/	T/

Shelf	Stack 1	Stack 2	Stack 3	Stack 1	Stack 2	Stack 3
	Case 3			Case 4		
5		M				
4	D/	D/	D/		M	
3						
2	T/	E	T/	D/	D/	D/
1				T/	E	T/

Again, we have

- Both A and D are placed on the same shelf, but A is placed east of the Vacant shelf.
- Two shelves are between A and P, which does not placed on shelf 1.
- The number of stacks to the west of P is the same as the number of shelves to the south of R.
- H is placed immediately west of R, which is placed immediately above the vacant shelf.

From the above conditions, Case 1 and Case 3 get eliminated because two shelves are between A and P, which does not placed on shelf 1, which is not satisfied.

@QuizByMickey

Shelf	Stack 1	Stack 2	Stack 3	Stack 1	Stack 2	Stack 3
	Case 1			Case 2		
5	M					P
4	D/	D/	D/	M		
3				H	R	Vacant
2	E	T/	T/	D	Vacant	A
1				E	T	Vacant

Shelf	Stack 1	Stack 2	Stack 3	Stack 1	Stack 2	Stack 3
	Case 3			Case 4		
5		M				P
4	D/	D/	D/		M	
3				H	R	Vacant
2	T/	E	T/	D	Vacant	A
1				Vacant	E	T

Again, we have

- Box B is placed above C but not placed in an even-numbered stack.

From the above condition, Case 2 gets eliminated because Box B is placed above C but not placed in an even-numbered stack, which is not satisfied.

Shelf	Stack 1	Stack 2	Stack 3	Stack 1	Stack 2	Stack 3
	Case 2			Case 4		
5	Vacant		P	B	Vacant	P
4	M	Vacant		Vacant	M	C
3	H	R	Vacant	H	R	Vacant
2	D	Vacant	A	D	Vacant	A
1	E	T	Vacant	Vacant	E	T

Now, the final arrangement is

@QuizByMickey

Case 4			
Shelf	Stack 1	Stack 2	Stack 3
5	B	Vacant	P
4	Vacant	M	C
3	H	R	Vacant
2	D	Vacant	A
1	Vacant	E	T

Answer: B

12. Questions

Final arrangement:

Shelf	Stack 1	Stack 2	Stack 3
5	B	Vacant	P
4	Vacant	M	C
3	H	R	Vacant
2	D	Vacant	A
1	Vacant	E	T

We have,

- M is placed three shelves above E, both are placed in the same numbered stack, but not in stack 3.
- T is neither placed above E nor below E.
- D's shelf number is twice that of T, but they are not placed in the same numbered stack.

From the above conditions, there are four possible cases.

Shelf	Stack 1	Stack 2	Stack 3	Stack 1	Stack 2	Stack 3
	Case 1			Case 2		
5	M					
4	D/	D/	D/	M		
3						
2	E	T/	T/	D/	D/	D/
1				E	T/	T/

Shelf	Stack 1	Stack 2	Stack 3	Stack 1	Stack 2	Stack 3
	Case 3			Case 4		
5		M				
4	D/	D/	D/		M	
3						
2	T/	E	T/	D/	D/	D/
1				T/	E	T/

Again, we have

- Both A and D are placed on the same shelf, but A is placed east of the Vacant shelf.
- Two shelves are between A and P, which does not placed on shelf 1.
- The number of stacks to the west of P is the same as the number of shelves to the south of R.
- H is placed immediately west of R, which is placed immediately above the vacant shelf.

From the above conditions, Case 1 and Case 3 get eliminated because two shelves are between A and P, which does not placed on shelf 1, which is not satisfied.

Shelf	Stack 1	Stack 2	Stack 3	Stack 1	Stack 2	Stack 3
	Case 1			Case 2		
5	M					P
4	D/	D/	D/	M		
3				H	R	Vacant
2	E	T/	T/	D	Vacant	A
1				E	T	Vacant

Shelf	Stack 1	Stack 2	Stack 3	Stack 1	Stack 2	Stack 3
	Case 3			Case 4		
5		M				P
4	D/	D/	D/		M	
3				H	R	Vacant
2	T/	E	T/	D	Vacant	A
1				Vacant	E	T

Again, we have

- Box B is placed above C but not placed in an even-numbered stack.

From the above condition, Case 2 gets eliminated because Box B is placed above C but not placed in an even-numbered stack, which is not satisfied.

Shelf	Stack 1	Stack 2	Stack 3	Stack 1	Stack 2	Stack 3
	Case 2			Case 4		
5	Vacant		P	B	Vacant	P
4	M	Vacant		Vacant	M	C
3	H	R	Vacant	H	R	Vacant
2	D	Vacant	A	D	Vacant	A
1	E	T	Vacant	Vacant	E	T

Now, the final arrangement is

Case 4			
Shelf	Stack 1	Stack 2	Stack 3
5	B	Vacant	P
4	Vacant	M	C
3	H	R	Vacant
2	D	Vacant	A
1	Vacant	E	T

Answer: A

13. Questions

Final arrangement:

Shelf	Stack 1	Stack 2	Stack 3
5	B	Vacant	P
4	Vacant	M	C
3	H	R	Vacant
2	D	Vacant	A
1	Vacant	E	T

We have,

- M is placed three shelves above E, both are placed in the same numbered stack, but not in stack 3.
- T is neither placed above E nor below E.
- D's shelf number is twice that of T, but they are not placed in the same numbered stack.

From the above conditions, there are four possible cases.

Shelf	Stack 1	Stack 2	Stack 3	Stack 1	Stack 2	Stack 3
	Case 1			Case 2		
5	M					
4	D/	D/	D/	M		
3						
2	E	T/	T/	D/	D/	D/
1				E	T/	T/

@QuizByMickey

Shelf	Stack 1	Stack 2	Stack 3	Stack 1	Stack 2	Stack 3
	Case 3			Case 4		
5		M				
4	D/	D/	D/		M	
3						
2	T/	E	T/	D/	D/	D/
1				T/	E	T/

Again, we have

- Both A and D are placed on the same shelf, but A is placed east of the Vacant shelf.
- Two shelves are between A and P, which does not placed on shelf 1.
- The number of stacks to the west of P is the same as the number of shelves to the south of R.
- H is placed immediately west of R, which is placed immediately above the vacant shelf.

From the above conditions, Case 1 and Case 3 get eliminated because two shelves are between A and P, which does not placed on shelf 1, which is not satisfied.

Shelf	Stack 1	Stack 2	Stack 3	Stack 1	Stack 2	Stack 3
	Case 1			Case 2		
5	M					P
4	D/	D/	D/	M		
3				H	R	Vacant
2	E	T/	T/	D	Vacant	A
1				E	T	Vacant

Shelf	Stack 1	Stack 2	Stack 3	Stack 1	Stack 2	Stack 3
	Case 3			Case 4		
5		M				P
4	D/	D/	D/		M	
3				H	R	Vacant
2	T/	E	T/	D	Vacant	A
1				Vacant	E	T

Again, we have

- Box B is placed above C but not placed in an even-numbered stack.

From the above condition, Case 2 gets eliminated because Box B is placed above C but not placed in an even-numbered stack, which is not satisfied.

Shelf	Stack 1	Stack 2	Stack 3	Stack 1	Stack 2	Stack 3
	Case 2			Case 4		
5	Vacant		P	B	Vacant	P
4	M	Vacant		Vacant	M	C
3	H	R	Vacant	H	R	Vacant

1	E	T	Vacant	Vacant	E	T

Now, the final arrangement is

Case 4			
Shelf	Stack 1	Stack 2	Stack 3
5	B	Vacant	P
4	Vacant	M	C
3	H	R	Vacant
2	D	Vacant	A
1	Vacant	E	T

Answer: E (All the boxes places in an even numbered shelf except option e)

14. Questions

Final arrangement:

Shelf	Stack 1	Stack 2	Stack 3
5	B	Vacant	P
4	Vacant	M	C
3	H	R	Vacant
2	D	Vacant	A
1	Vacant	E	T

We have,

- M is placed three shelves above E, both are placed in the same numbered stack, but not in stack 3.
- T is neither placed above E nor below E.
- D's shelf number is twice that of T, but they are not placed in the same numbered stack.

From the above conditions, there are four possible cases.

@QuizByMickey

Shelf	Stack 1	Stack 2	Stack 3	Stack 1	Stack 2	Stack 3
	Case 1			Case 2		
5	M					
4	D/	D/	D/	M		
3						
2	E	T/	T/	D/	D/	D/
1				E	T/	T/

Shelf	Stack 1	Stack 2	Stack 3	Stack 1	Stack 2	Stack 3
	Case 3			Case 4		
5		M				
4	D/	D/	D/		M	
3						
2	T/	E	T/	D/	D/	D/
1				T/	E	T/

Again, we have

- Both A and D are placed on the same shelf, but A is placed east of the Vacant shelf.
- Two shelves are between A and P, which does not placed on shelf 1.
- The number of stacks to the west of P is the same as the number of shelves to the south of R.
- H is placed immediately west of R, which is placed immediately above the vacant shelf.

From the above conditions, Case 1 and Case 3 get eliminated because two shelves are between A and P, which does not placed on shelf 1, which is not satisfied.

Shelf	Stack 1	Stack 2	Stack 3	Stack 1	Stack 2	Stack 3

5	M					
4	D/	D/	D/	M		
3						
2	E	T/	T/	D/	D/	D/
1				E	T/	T/

Shelf	Stack 1	Stack 2	Stack 3	Stack 1	Stack 2	Stack 3
	Case 3			Case 4		
5		M				
4	D/	D/	D/		M	
3						
2	T/	E	T/	D/	D/	D/
1				T/	E	T/

Again, we have

- Both A and D are placed on the same shelf, but A is placed east of the Vacant shelf.
- Two shelves are between A and P, which does not placed on shelf 1.
- The number of stacks to the west of P is the same as the number of shelves to the south of R.
- H is placed immediately west of R, which is placed immediately above the vacant shelf.

From the above conditions, Case 1 and Case 3 get eliminated because two shelves are between A and P, which does not placed on shelf 1, which is not satisfied.

@QuizByMickey

Shelf	Stack 1	Stack 2	Stack 3	Stack 1	Stack 2	Stack 3
	Case 1			Case 2		
5	M					P
4	D/	D/	D/	M		
3				H	R	Vacant
2	E	T/	T/	D	Vacant	A
1				E	T	Vacant

Shelf	Stack 1	Stack 2	Stack 3	Stack 1	Stack 2	Stack 3
	Case 3			Case 4		
5		M				P
4	D/	D/	D/		M	
3				H	R	Vacant
2	T/	E	T/	D	Vacant	A
1				Vacant	E	T

Again, we have

- Box B is placed above C but not placed in an even-numbered stack.

From the above condition, Case 2 gets eliminated because Box B is placed above C but not placed in an even-numbered stack, which is not satisfied.

Shelf	Stack 1	Stack 2	Stack 3	Stack 1	Stack 2	Stack 3
	Case 2			Case 4		
5	Vacant		P	B	Vacant	P
4	M	Vacant		Vacant	M	C
3	H	R	Vacant	H	R	Vacant
2	D	Vacant	A	D	Vacant	A
1	E	T	Vacant	Vacant	E	T

Now, the final arrangement is

@QuizByMickey

Case 4			
Shelf	Stack 1	Stack 2	Stack 3
5	B	Vacant	P
4	Vacant	M	C
3	H	R	Vacant
2	D	Vacant	A
1	Vacant	E	T

Answer: D

16. Questions

Letter: The opposite letter of the second letter from the left end (according to the English alphabetical series).

Number: The place value of the immediate succeeding letter of the Second letter from the right end (according to the English alphabetical series).

Symbol: If the total number of letters in the word is even, it is coded with “*”

If the total number of letters in the word is odd, it is coded with “?”

Answer: D

17. Questions

Letter: The opposite letter of the second letter from the left end (according to the English alphabetical series).

Number: The place value of the immediate succeeding letter of the Second letter from the right end (according to the English alphabetical series).

Symbol: If the total number of letters in the word is even, it is coded with “*”

If the total number of letters in the word is odd, it is coded with “?”

Answer: E

18. Questions

Letter: The opposite letter of the second letter from the left end (according to the English alphabetical series).

Number: The place value of the immediate succeeding letter of the Second letter from the right end (according to the English alphabetical series).

Symbol: If the total number of letters in the word is even, it is coded with “*”

If the total number of letters in the word is odd, it is coded with “?”

Answer: B

19. Questions

Letter: The opposite letter of the second letter from the left end (according to the English alphabetical series).

Number: The place value of the immediate succeeding letter of the Second letter from the right end (according to the English alphabetical series).

Symbol: If the total number of letters in the word is even, it is coded with “*”

If the total number of letters in the word is odd, it is coded with “?”

Answer: C
