

1. Questions

Study the following information carefully and answer the given below.

In a certain code language,

“Manager Funds \$\$\$\$ Report Strategy” - “## 73 81 58 44”

“&&&& Policy Growth Issued Shares” - “34 @@ 42 29 66”

“Projects &&&& Innovation Shares Vision”- “55 19 66 @@ ^^”

“General Report \$\$\$\$???? Meeting”- “ 58 24 ## 91 11”

If “Manager Funds Capital Report strategy” is coded as “73 44 81 58 68” and “General Report issued ?????” is coded as “42 24 58 91” then what does “58 11” represent in the given code language?

- a. Capital Report
- b. Strategy General
- c. Meeting Funds
- d. Report Meeting
- e. None of the above

2. Questions

If “Preference Policy Growth” is coded as “66 42 34” and “Capital Report Shares” is coded as “58 68 97” then which words may be represented as “&&&& and \$\$\$\$”?

- a. Preference and Shares
- b. Capital and Preference
- c. Report and Capital
- d. Issued and Report
- e. Growth and Capital

3. Questions

If “Reports manager” is coded as “68 44” and “Shares issued” is coded as “42 97”, then what code can replace the symbols “@@ and ##” in the given code language?

- a. 42 and 44
- b. 73 and 66
- c. 68 and 97
- d. 29 and 42
- e. 97 and 81

@QuizByMickey

4. Questions

If “funds strategy” is coded as “81 44” then what is the code for “Manager”?

- a. 73
- b. 66
- c. 58
- d. 29
- e. Cannot be determined

5. Questions

If “Manager growth innovation” is coded as “44 29 25” and “Fund project policy ” is coded as “73 19 42”, then what is the code for “Vision strategy Report”?

- a. 68 58 81
- b. 58 81 19
- c. 55 58 81
- d. 68 55 81
- e. Cannot be determined

6. Questions

Study the following information carefully and answer the given questions.

If all the digits are added within the number, then which of the following row formed a prime number as a final resultant, when we add the highest and the lowest number among the resultant in each row thus formed?

- I). 6584, 9854, 6275
- II). 6492, 8288, 7798
- III). 3678, 9467, 2612

- a. Only I
- b. Only II
- c. Only III
- d. Only I and III
- e. Only II and III

@QuizByMickey

7. Questions

If the consonants of the following words are arranged first followed by the vowels as per the alphabetical order from left to right and then the consonants are changed to the previous letter and

vowels are changed to the next letter as per the alphabetical series, and the third letter from the left end of each word is taken to form a meaningful word, then how many meaningful words can be formed ?

I). FOREST

II). GALAXY

III). ROCKET

- a. One
- b. Two
- c. Three
- d. More than three
- e. None

8. Questions

If in the given words, vowels are replaced by the second preceding letter and consonants are replaced by the second succeeding letter, then how many such pairs of letters are there in total in all three words such that each pair has as many letters between them as there are in the English alphabetical series (both forward and backward)?

Note: Consider the immediate preceding letter of A as Z.

I). BRIGHT

II). JUMPER

III). CANDLE

- a. Six
- b. Seven
- c. Five
- d. Four
- e. None of these

9. Questions

In how many of the following numbers is the sum of the second, third and fourth digits not exactly divisible by the first digits?

I). 4654

II). 8745

III). 9673

IV). 3786

@QuizByMickey

V). 7569

- a. One
- b. Two
- c. Three
- d. More than three
- e. None

10. Questions

In the table given below, the first column shows the words and the second column shows pairs of letters in each word such that each pair has as many letters between them as there are in the English alphabetical series (both forward and backward). Match each word with the correct pairs of letters?

Words	Pairs of letters
I). Alchemy	a). Four
II). Celestial	b). Two
III). Phantom	c). Three

- a. I.a, II.b, III.c
- b. I.b, II.a, III.c
- c. I.c, II.b, III.a
- d. I.c, II.a, III.b
- e. I.b, II.c, III.a

11. Questions

Study the following information carefully and answer the below questions.

Ten persons are sitting in two parallel rows containing five persons each in such a way that there is an equal distance between adjacent persons. In row 1: A, B, C, D and E are seated and all of them are facing south. In row 2: P, Q, R, S and T are seated and all of them are facing north. Each person in row 1 faces another person in row 2. They belong to the same family with three generations and only three married couples.

C's grandmother sits third to the left of C, who sits opposite to his father. As many persons sit to the left of T as to the right of A. Only one person sits between C's father and T. The one who sits opposite to A sits to the immediate right of A's sister. B is the only daughter of T, who is the maternal grandfather of C. S is the only son of Q and sits at one of the extreme ends but not adjacent to Q. Q sits second to the right of A's sister, who is the daughter of Q. The number of persons sitting between S and T is one less than the number of persons sitting between D and D's daughter-in-law. D and E are not immediate neighbours.

Only two persons sit between R, who is B's brother and B's sister-in-law. P sits opposite to her father, who sits adjacent to P's nephew.

How is E related to the one who sits to the immediate left of P?

- a. Grandmother
- b. Mother-in-law
- c. Mother
- d. Aunt
- e. Can't be determined

12. Questions

Which among the following pairs of persons are sitting opposite to each other?

I). CS

II). EQ

III). RA

IV). DP

- a. Only I and II
- b. Only II and III
- c. Only III and IV
- d. Only I, II and IV
- e. All I, II, III and IV

13. Questions

Who among the following person sits second to the right of the one who sits opposite to B's brother?

- a. The one who sits exactly between A's father and R's mother
- b. The one who sits at the extreme left end of Row 1
- c. The one who sits to the immediate right of B
- d. The one who sits third to the left of D's grandson
- e. The one who sits opposite to S's mother

@QuizByMickey

14. Questions

If B interchanges her position with her father and if A interchanges her position with her brother, then who among the following person sits to the immediate right of T and A respectively?

- a. R's father and A's nephew

- b. S's brother-in-law and B's mother-in-law
- c. R's mother and A's sister
- d. P's nephew and E's son
- e. T's daughter and D's daughter

15. Questions

Which of the following statements is/ are not true with respect to the final arrangement?

- I). R's nephew and R sits at the extreme ends
 - II). S's father-in-law sits in the middle of Row 2
 - III). Only one person sits to the right of C's paternal grandmother
- a. Only I
 - b. Only II and III
 - c. Only III
 - d. Only I and II
 - e. None of the given statements are false

16. Questions

Study the following information carefully and answer the given questions.

Fourteen persons are living on a seven storey building where the lowermost floor is numbered one, the one above that is numbered two and so on.

Note-I: Each floor has two flats viz., Flat 1 and Flat 2, where Flat 1 is to the west of Flat 2.

Note-II: Flat 2 of floor 2 is immediately above Flat 2 of floor 1. Similarly, Flat 1 of floor 3 is immediately above Flat 1 of floor 2 and so on.

Note-III: Area of each flat on each floor is equal.

Note-IV: Only two persons live on each floor and only one person lives in each flat.

L lives on an odd numbered floor. As many persons lives below L as above B but in different flats. E lives to the east of L. C lives on an odd numbered floor in an even numbered flat. There are three floors between M and B, where both live in different flats. K lives immediately above the floor on which M lives but in different flats. The number of floors below K is **one more** than the number of floors below C. I live two floors above J in the same flat. J lives in a flat which is northwest of G. D lives on the same floor with H. As many floors between G and C as between G and N, who live to the north of G. A lives two floors above F. A lives to the southwest of B, who lives to the southeast of D.

If all the persons go to their respective flats using the lift, then who among the following persons use the lift that goes to floor number 3?

- a. K and G

- b. I and F
- c. E and L
- d. J and B
- e. D and H

17. Questions

Which of the following statements is/are true regarding B?

- I).** No one lives to the west of B
- II).** B lives on the same floor with J
- III).** B lives in Flat 2 on floor 5

- a. Only I
- b. Only II
- c. Only III
- d. Only II and III
- e. Only I and III

18. Questions

If we interchange the person living in Flat 1 with persons living in Flat 2 on the same floor then which of the combinations is false regarding the new arrangement?

- a. H - Flat 1 Floor 6
- b. L - Flat 2 Floor 3
- c. K - Flat 1 Floor 2
- d. N - Flat 1 Floor 7
- e. J - Flat 1 Floor 5

19. Questions

If we arrange all the persons in Flat 1 and Flat 2 as per English alphabetical order in their respective flats from top to bottom, then how many persons will remain unchanged in their positions?

- a. One
- b. Two
- c. Three
- d. More than three
- e. None

20. Questions

Four of the following five are alike in a certain way based on the final arrangement and thus form a group. Which one of the following does not belong to the group?

- a. H
- b. N
- c. J
- d. C
- e. L

Explanations:

1. Questions

Word	Code
\$\$\$\$/Report	58/##
Manager/Funds/Strategy	44/81/73
Shares/&&&&	@@/66
Policy/Growth/Issued	34/42/29
Project/Innovation/Vision	19/^^/55
General/????/Meeting	11/91/24

Answer: D

2. Questions

@QuizByMickey

Word	Code
\$\$\$\$/Report	58/##
Manager/Funds/Strategy	44/81/73
Shares/&&&&	@@/66
Policy/Growth/Issued	34/42/29
Project/Innovation/Vision	19/^^/55
General/????/Meeting	11/91/24

Answer: B

3. Questions

Word	Code
\$\$\$\$/Report	58/##
Manager/Funds/Strategy	44/81/73
Shares/&&&&	@@/66
Policy/Growth/Issued	34/42/29
Project/Innovation/Vision	19/^^/55
General/????/Meeting	11/91/24

Answer: C

4. Questions

@QuizByMickey

Word	Code
\$\$\$\$/Report	58/##
Manager/Funds/Strategy	44/81/73
Shares/&&&&	@@/66
Policy/Growth/Issued	34/42/29
Project/Innovation/Vision	19/^^/55
General/????/Meeting	11/91/24

Answer: A

5. Questions

Word	Code
\$\$\$\$/Report	58/##
Manager/Funds/Strategy	44/81/73
Shares/&&&&	@@/66
Policy/Growth/Issued	34/42/29
Project/Innovation/Vision	19/^^/55
General/????/Meeting	11/91/24

Answer: E

6. Questions

Answer: C

@QuizByMickey

I). 6584,9854,6275 $\rightarrow 23+26+20 \rightarrow (26+20=46)$ (46 is not a prime number)

II). 6492,8288, 7798 $\rightarrow 21+26+31 \rightarrow (31+21=52)$ (52 is not a prime number)

III). 3678,9467, 2612 $\rightarrow 24+26+11 \rightarrow (26+11=37)$ (37 is a prime number)

Hence option c is the answer.

7. Questions

Answer: E

I). FOREST $\rightarrow F R S T E O \rightarrow E Q R S F P \rightarrow R$

II). GALAXY → G L X Y A A → F K W X B B → W

III). ROCKET → C K R T E O → B J Q S F P → Q

There is no such meaningful word that can be formed from the letters R, W and Q.

8. Questions

Answer: E

I). BRIGHT becomes DTGIJV. It has only one pair (IJ).

II). JUMPER becomes LSORCT. It has only one pair (RT).

III). CANDLE becomes EYFNC. It has only one pair (NP).

Total three pairs are obtained.

9. Questions

Answer: C

I). 4654 → $(6+5+4=15/4 \rightarrow \text{Not divisible})$

II). 8745 → $(7+4+5=16/8=2 \rightarrow \text{Divisible})$

III). 9673 → $(6+7+3=16/9 \rightarrow \text{Not divisible})$

IV). 3786 → $(7+8+6=21/3=7 \rightarrow \text{Divisible})$

V). 7569 → $(5+6+9=20/7 \rightarrow \text{Not divisible})$

There are three numbers which are not fully divisible by the first digit.

10. Questions

Answer: D

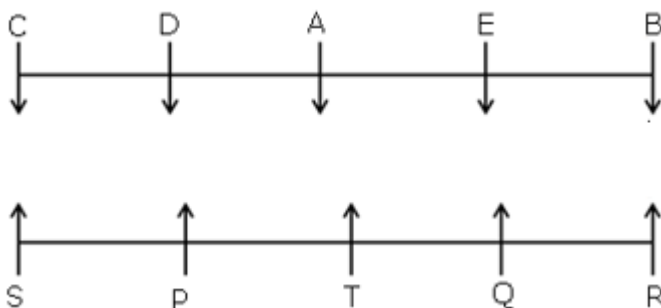

I). Alchemy → Three pairs of letter

II). Celestial → Four pairs of letter

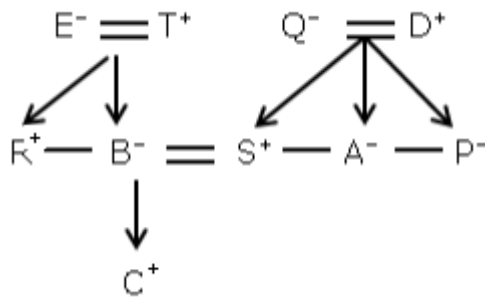

III). Phantom → Two pairs of letter

11. Questions

Final arrangement:

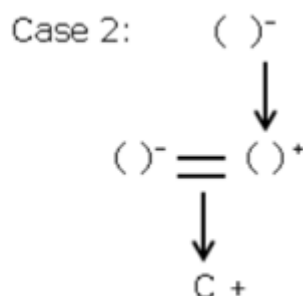

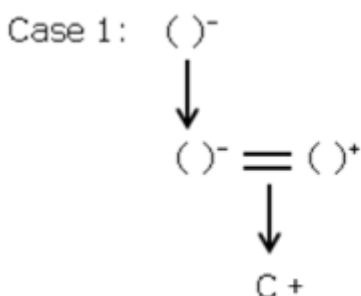

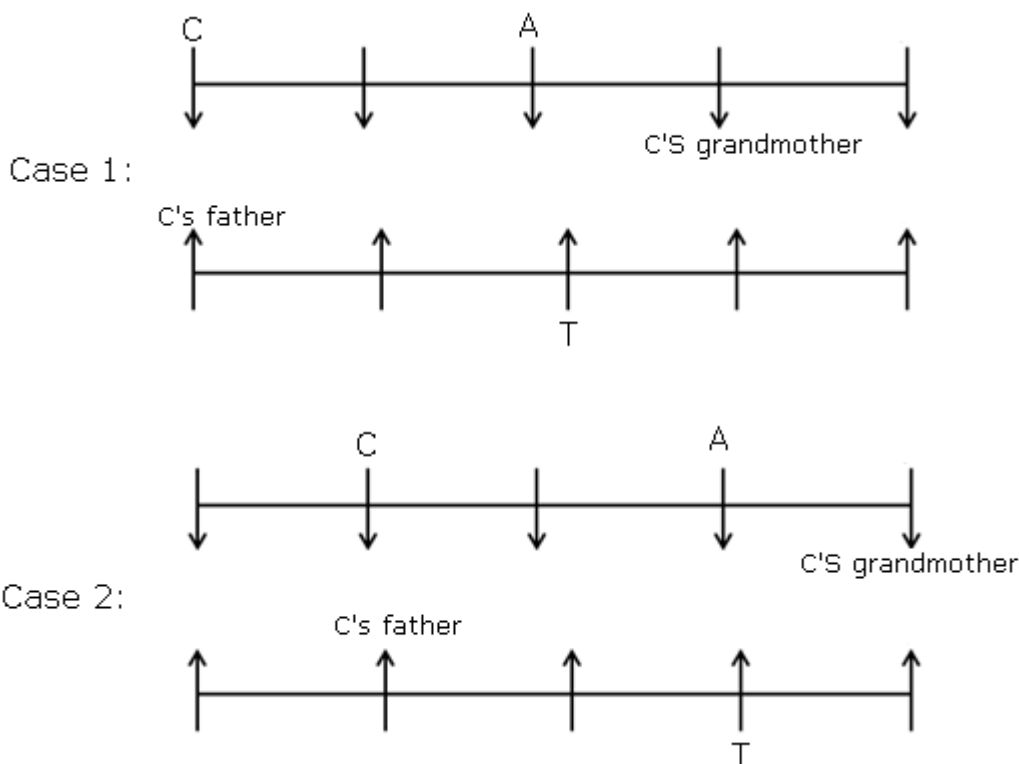

@QuizByMickey

We have,

- C's grandmother sits third to the left of C, who sits opposite to his father.
- As many persons sit to the left of T as to the right of A.
- Only one person sits between C's father and T.

From the above conditions, there are two possibilities.

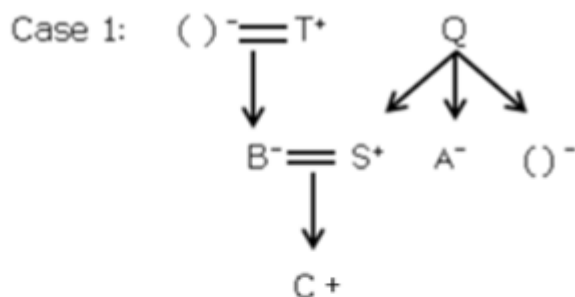

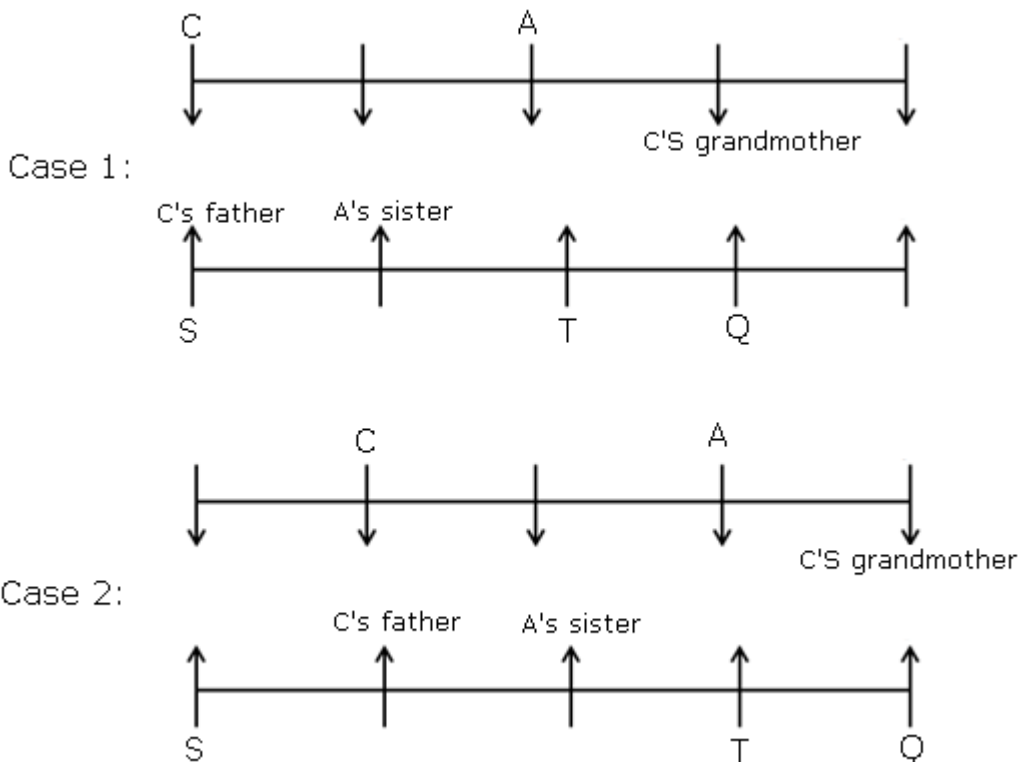

@QuizByMickey

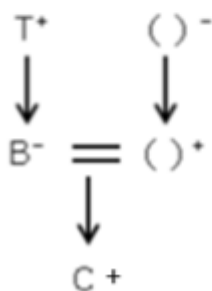

Again we have,

- The one who sits opposite to A sits to the immediate right of A's sister.
- B is the only daughter of T, who is the maternal grandfather of C.
- S is the only son of Q and sits at one of the extreme ends but not adjacent to Q.

- Q sits second to the right of A's sister, who is the daughter of Q.

Case 2:

Case 2a:

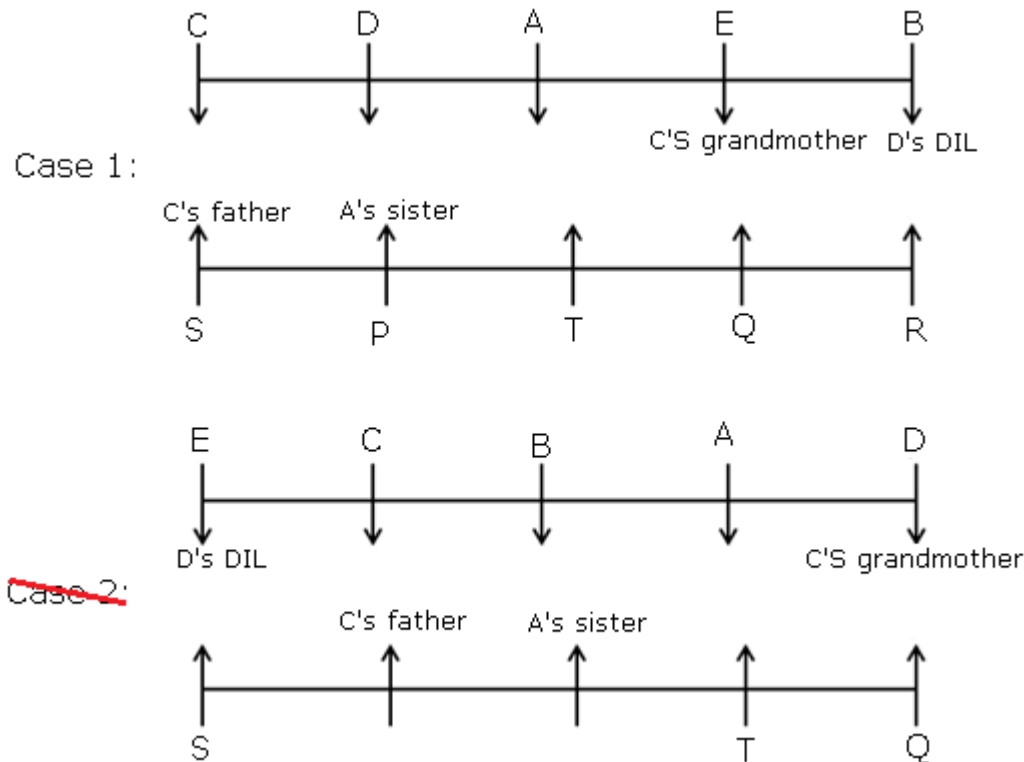

Again we have,

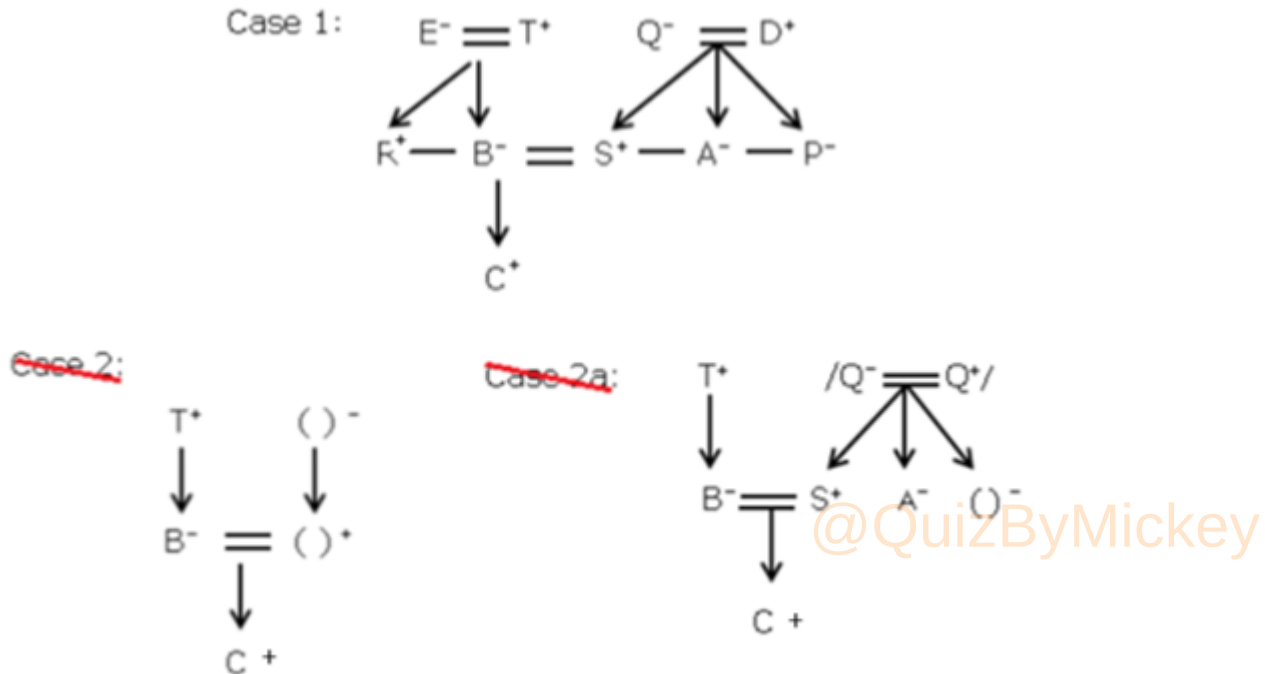

- The number of persons sitting between S and T is one less than the number of persons sitting between D and D's daughter-in-law.
- D and E are not immediate neighbours.
- Only two persons sit between R, who is B's brother and B's sister-in-law.
- P sits opposite to her father, who sits adjacent to P's nephew.

From the above conditions case-2 gets cancelled because Only two persons sit between R, who is B's

brother and B's sister-in-law, which is not satisfied. Hence, case-1 shows the final arrangement.

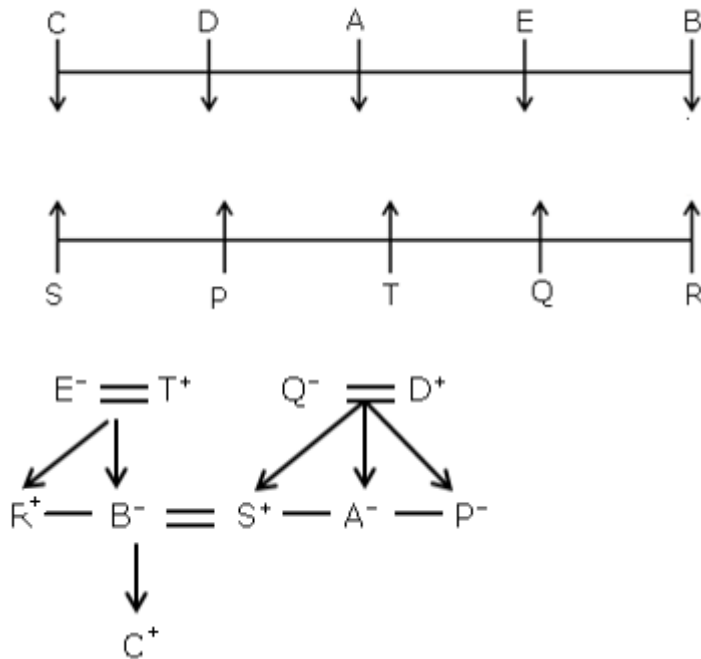

For Blood relation, since in case-2 and case 2a the final arrangement is not formed. Hence, case-1 shows the final arrangement.

Answer: B

12. Questions

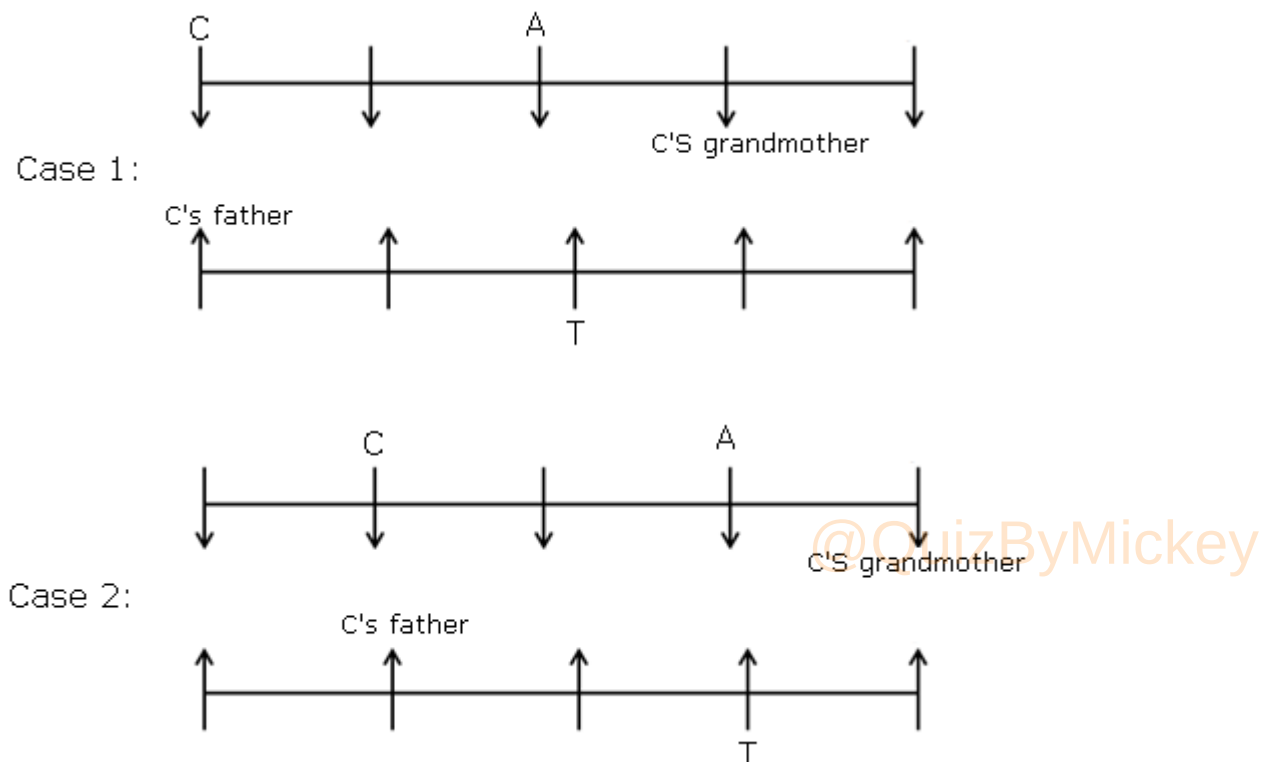

Final arrangement:

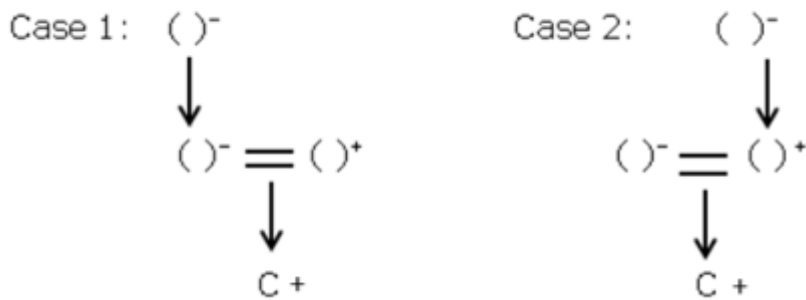

We have,

- C's grandmother sits third to the left of C, who sits opposite to his father.
- As many persons sit to the left of T as to the right of A.
- Only one person sits between C's father and T.

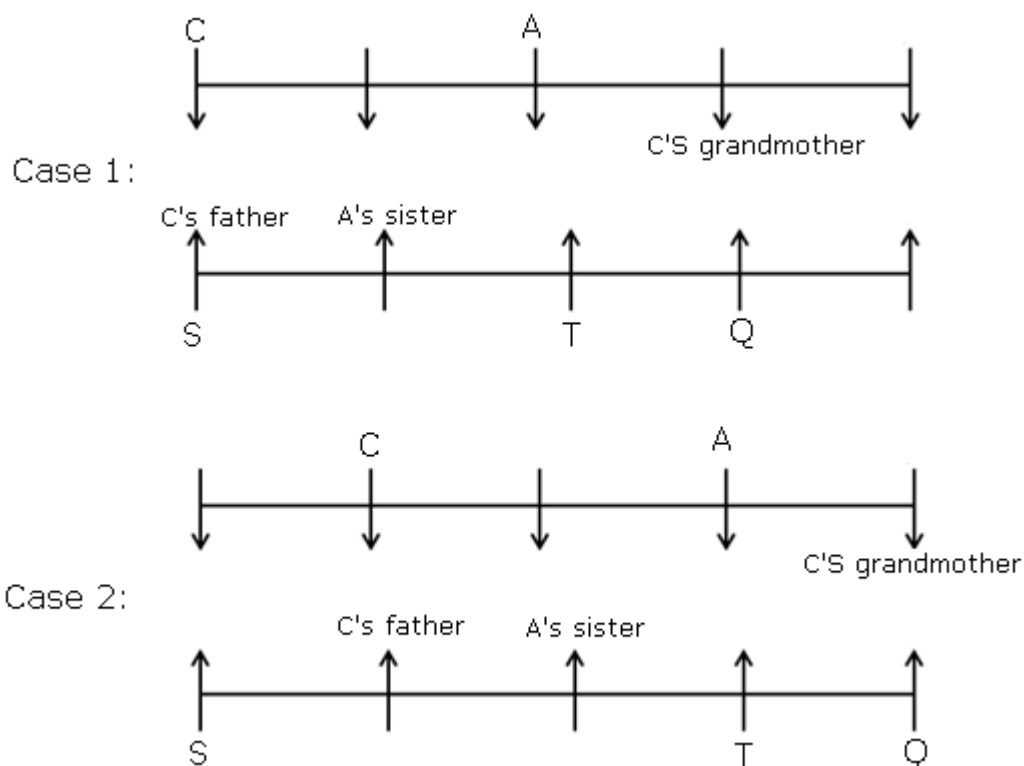

From the above conditions, there are two possibilities.

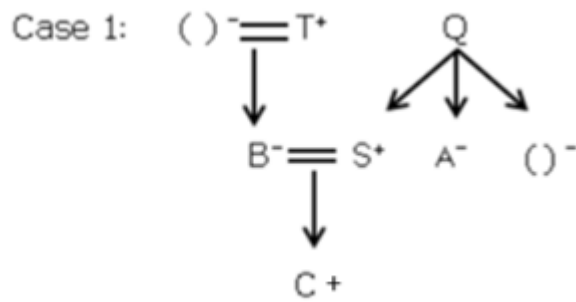

Again we have,

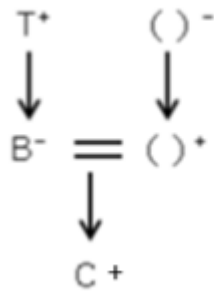

- The one who sits opposite to A sits to the immediate right of A's sister.
- B is the only daughter of T, who is the maternal grandfather of C.
- S is the only son of Q and sits at one of the extreme ends but not adjacent to Q.
- Q sits second to the right of A's sister, who is the daughter of Q.

@QuizByMickey

Case 2:

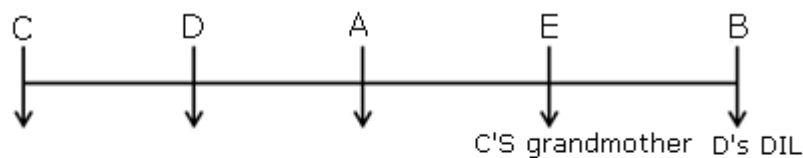

Case 2a:

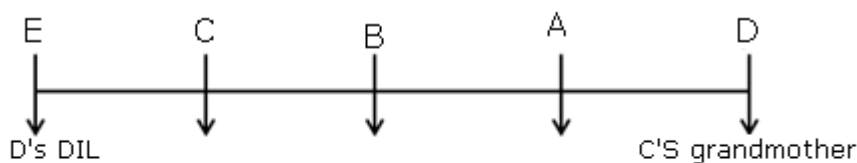

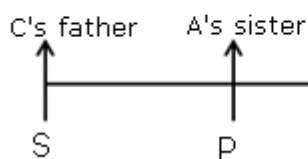

Again we have,

- The number of persons sitting between S and T is one less than the number of persons sitting between D and D's daughter-in-law.
- D and E are not immediate neighbours.
- Only two persons sit between R, who is B's brother and B's sister-in-law.
- P sits opposite to her father, who sits adjacent to P's nephew.

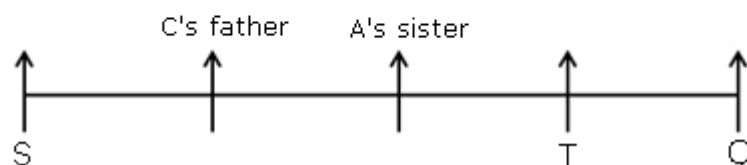

From the above conditions case-2 gets cancelled because Only two persons sit between R, who is B's brother and B's sister-in-law, which is not satisfied. Hence, case-1 shows the final arrangement.

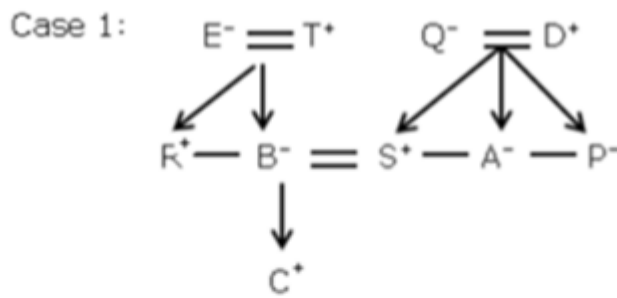

Case 1:

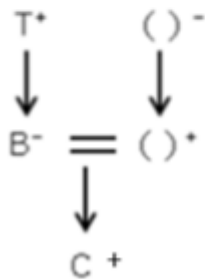

~~Case 2:~~

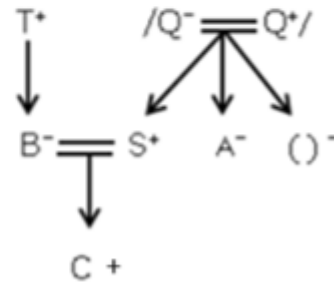

For Blood relation, since in case-2 and case 2a the final arrangement is not formed. Hence, case-1 shows the final arrangement.

~~Case 2:~~

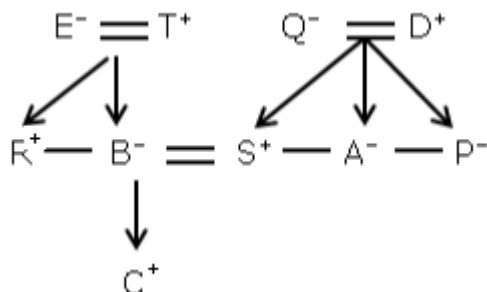

~~Case 2a:~~

Answer: D

@QuizByMickey

Answer: E

16. Questions

Final arrangement:

Floors	Flat 1	Flat 2
7	I	N
6	D	H
5	J	B
4	A	G
3	L	E
2	F	K
1	M	C

We have,

- L lives on an odd numbered floor.
- As many persons lives below L as above B but in different flats.
- E lives to the east of L.

From the above conditions there are four possibilities.

Floors	Case 1		Case 2		Case 3		Case 4	
	Flat 1	Flat 2	Flat 1	Flat 2	Flat 1	Flat 2	Flat 1	Flat 2
7	L	E						B
6								
5			L	E		B		
4								
3				B	L	E		
2								
1		B					L	E

Again we have,

- C lives on an odd numbered floor in an even numbered flat.
- There are three floors between M and B, where both live in different flats.
- K lives immediately above the floor on which M lives but in different flats.

- The number of floors below K is one more than the floors below C.

From the above conditions Case 2 gets eliminated because K lives immediately above the floor on which M lives is not satisfied.

Floors	Case 1		Case 2		Case 3		Case 4	
	Flat 1	Flat 2	Flat 1	Flat 2	Flat 1	Flat 2	Flat 1	Flat 2
7	L	E	M					B
6		K						
5	M	C	L	E		B		
4								K
3				B	L	E	M	C
2						K		
1		B			M	C	L	E

Again we have,

- I live two floors above J in the same flat.
- J lives in a flat which is northwest of G.
- D lives on the same floor with H.
- As many floors between G and C as between G and N, who live to the north of G.
- A lives two floors above F.
- A lives to the southwest of B, who lives to the southeast of D.

From the above conditions there is one more Case 4a. But Case 1, Case 4a and Case 4 get eliminated because as many floors between G and C is the same as between G and N are not satisfied. Hence Case 3 is the final arrangement.

@QuizByMickey

Floors	Case 1		Case 3		Case 4		Case 4a	
	Flat 1	Flat 2	Flat 1	Flat 2	Flat 1	Flat 2	Flat 1	Flat 2

- C lives on an odd numbered floor in an even numbered flat.
- There are three floors between M and B, where both live in different flats.
- K lives immediately above the floor on which M lives but in different flats.

- The number of floors below K is one more than the floors below C.

From the above conditions Case 2 gets eliminated because K lives immediately above the floor on which M lives is not satisfied.

Floors	Case 1		Case 2		Case 3		Case 4	
	Flat 1	Flat 2	Flat 1	Flat 2	Flat 1	Flat 2	Flat 1	Flat 2
7	L	E	M					B
6		K						
5	M	C	L	E		B		
4								K
3				B	L	E	M	C
2						K		
1		B			M	C	L	E

Again we have,

- I live two floors above J in the same flat.
- J lives in a flat which is northwest of G.
- D lives on the same floor with H.
- As many floors between G and C as between G and N, who live to the north of G.
- A lives two floors above F.
- A lives to the southwest of B, who lives to the southeast of D.

From the above conditions there is one more Case 4a. But Case 1, Case 4a and Case 4 get eliminated because as many floors between G and C is the same as between G and N are not satisfied. Hence Case 3 is the final arrangement.

Final arrangement:

Floors	Flat 1	Flat 2
7	I	N
6	D	H
5	J	B
4	A	G
3	L	E
2	F	K
1	M	C

@QuizByMickey

We have,

- L lives on an odd numbered floor.
- As many persons lives below L as above B but in different flats.
- E lives to the east of L.

From the above conditions there are four possibilities.

Floors	Case 1		Case 2		Case 3		Case 4	
	Flat 1	Flat 2	Flat 1	Flat 2	Flat 1	Flat 2	Flat 1	Flat 2
7	L	E						B
6								
5			L	E		B		
4								
3				B	L	E		
2								
1		B					L	E

Again we have,

- C lives on an odd numbered floor in an even numbered flat.
- There are three floors between M and B, where both live in different flats.
- K lives immediately above the floor on which M lives but in different flats.
- The number of floors below K is one more than the floors below C.

From the above conditions Case 2 gets eliminated because K lives immediately above the floor on which M lives is not satisfied.

Floors	Case 1		Case 2		Case 3		Case 4	
	Flat 1	Flat 2	Flat 1	Flat 2	Flat 1	Flat 2	Flat 1	Flat 2
7	L	E	M					B
6		K						
5	M	C	L	E		B		
4								K
3				B	L	E	M	C
2						K		
1		B			M	C	L	E
