

1. Questions

Study the following information carefully and answer the given questions.

Ten persons – J, K, L, M, N, O, P, Q, R and S are attending the meeting on two different dates either 4th or 15th of five different months viz., April, May, June, July and August of the same year. Only one person attends the meeting on each date and only two persons attend the meeting in each month.

L attends on an odd numbered date but not in the month having an even number of days. Only two persons attend between M and L. M doesn't attend after L. Only three persons attend between J and S. J neither attends after S nor attends in the same month as L. The number of persons attending between M and O is **one more than** the number of persons attending between J and Q. O doesn't attend on an even numbered date. J attends on an even numbered date. As many persons attend between K and O as after R. Only one month is between P and N. P doesn't attend before N and does not attend in the month having an odd number of days.

Who among the following persons attend the meeting after M?

I). The one who attends on 15th July

II). The one who attends on 15th May

III). The one who attends on 4th August

- a. Only II
- b. Only III
- c. Only I and III
- d. Only II and II
- e. All I, II and III

2. Questions

How many persons attend the meeting between Q and the one who attends two persons before S?

- a. Two
- b. Three
- c. One
- d. Four
- e. No one

@QuizByMickey

3. Questions

Four of the following five are alike in a certain way based on the given arrangement and thus form a group. Which one of the following persons does not belong to the group?

- a. Q
- b. S
- c. M
- d. O
- e. N

4. Questions

If J is related to the one who attends on 15th August and K is related to the one who attends on 15th June in a certain way, then who among the following person is related to the one who attends on 15th July?

- a. The one who attends on 4th May
- b. The one who attends on 4th April
- c. The one who attends on 15th May
- d. The one who attends on 4th April
- e. The one who attends on 15th June

5. Questions

Which of the following combination(s) is / are FALSE with respect to the final arrangement?

- a. J – 4TH July
- b. O- 15TH May
- c. S – 4TH August
- d. P – 15th June
- e. K – 4th April

@QuizByMickey

6. Questions

Study the following information carefully and answer the questions given below:

Nine letters are arranged in a linear row in order to form a meaningful word. All the letters are facing towards the south. No letter is repeated more than once.

Only two letters are placed between E and A. S is placed fourth to the left of E. The number of letters placed to the left of A is the **same as** the number of letters placed to the right of U. U doesn't place to the right of E. Only three letters are placed between N and O. O is not placed adjacent to A. N is not placed to the left of O. As many letters are placed to the left of R as to the right of G. G is placed to the right of R.

Which of the following letters are placed to the left of R?

I). U

II). S

III). A

- a. Only II
- b. Only III
- c. Only I and II
- d. Only II and III
- e. All I, II and III

7. Questions

How many letters are there between the letter which is third from the right end and S?

- a. One
- b. Two
- c. Three
- d. Four
- e. More than four

8. Questions

If all the letters are arranged in an alphabetical order from the right end, then how many letters remain unchanged in their position?

- a. None
- b. One
- c. Two
- d. Three
- e. Four

@QuizByMickey

9. Questions

Which of the following statement(s) is/ are TRUE with respect to the final arrangement?

- a. G is placed to the immediate left of E
- b. S is placed at the right end of the row
- c. U is placed fourth to the right of G
- d. Only four letters are placed between A and O

e. N is placed to the immediate left of G

10. Questions

The number of letters placed between D and E is two more than the number of letters placed between __ and __?

- a. EU
- b. AG
- c. RS
- d. AE
- e. NO

11. Questions

Study the following information carefully and answer the given questions.

Some persons are working in an organization at different designations viz., Chairman, Director, Managing Director(MD), Branch Manager (BM), and Manager. The designations are given in descending order such as the Chairman is the senior-most designation whereas Manager is the junior-most designation.

Note I: The number of persons who work as Branch Manager is 4, which is one less than the number of persons who work as Manager but one more than the number of persons who work as Managing Director. The number of persons who work as Director is one more than the number of persons who work as Chairman and one less than the number of persons who work as Manager.

Note II: If A works with B then, both A and B are working in the same designation.

P works immediately senior to H. As many persons work between C and J as senior to L, who is not working with P. K works with F, who is two designations junior to H. As many persons senior to J as junior to F. C is not junior to the Branch Manager. N works with E. E is senior to O and junior to T. The number of persons senior to O is **two more than** the number of persons junior to B. O neither works as the Branch Manager nor with F. I works with R, who is junior to D. As many persons work with M as work with Q, who doesn't work with C. Even number of persons work with D. S works with M but not with R. G is one of the person in an organisation.

Who among the following persons work with S?

I). B

II). N

III). C

- a. Only I and II
- b. Only II and III
- c. Only III
- d. Only I and III

@QuizByMickey

- e. All I, II, III

12. Questions

If F is related to H and C is related to Q, then who among the following person is related to L?

- a. G
- b. N
- c. O
- d. K
- e. Both A and D

13. Questions

Which of the following statement(s) is/ are TRUE with respect to the final arrangement?

- a. R and S work as Manager
- b. E and Q work as Director
- c. H and C work as Branch Manager
- d. Q and J work as Chairman
- e. K and O work as Managing Director

14. Questions

The number of persons working between J and I is ____ the number of persons working between P and G.

- a. Two more than
- b. Four more than
- c. Three more than
- d. Two less than
- e. One less than

@QuizByMickey

15. Questions

If X works with O then which of the following designation at X works?

- a. Branch Manager
- b. Manager
- c. Chairman
- d. Managing director
- e. Director

16. Questions

Study the following information carefully and answer the questions given below:

Six persons- L, M, N, O, P and Q have participated in six different Olympic games- Archery, Badminton, Boxing, Hockey, Running and Shooting. They get six different ranks from 1 to 6 (where 1 is the highest rank and 6 is the lowest rank).

Note I: There is no person in the same rank in different games.

Note II: Q in hockey got a higher rank than O in Running. L in Archery got a higher rank than N in badminton. In boxing, M got the second highest rank and lower rank than Q. O didn't get the lowest rank in boxing.

In hockey P got either the highest or lowest rank and got two ranks either higher or lower than N in badminton. In Archery, L got three ranks higher than O in Running, who did not get the lowest rank. M in shooting and Q in boxing got the same ranks. The difference between the ranks of P in Archery and M in boxing is equal to the difference between the ranks of Q in badminton and L in Running. L doesn't get 1st rank in running. O in shooting got two ranks lower than N in hockey. Q in Running got three ranks higher than P in Archery. P got 5th rank in Archery. M in badminton got a lower rank than Q in hockey and immediately lower ranks than N in hockey.

Who among the following persons got the third highest ranks in different sports?

I). L in Running

II). P in Shooting

III). N in Archery

- a. Only I and II
- b. Only II and III
- c. Only I and III
- d. Only I
- e. All I, II, III

17. Questions

Who among the following person get the second rank?

@QuizByMickey

- a. M in Badminton
- b. N in Shooting
- c. O in Running
- d. L in Shooting
- e. N in Archery

18. Questions

Which of the following statement(s) is/ are TRUE with respect to the final arrangement?

- a. M in Shooting got immediately lower rank than P in Boxing
- b. Q in Badminton got three ranks lower than L in Boxing
- c. O in Archery got immediately lower rank than M in Running
- d. N in Boxing got two ranks lower than P in shooting
- e. L in Archery got three ranks lower than O in Running

19. Questions

If M in Badminton is related to P in shooting and O in Running is related to N in Badminton in the same way, then who among the following person is related to Q in Hockey?

- a. O in Badminton
- b. L in Shooting
- c. P in Archery
- d. Q in Running
- e. N in Hockey

20. Questions

Four of the following five are alike in a certain way based on the given arrangement and thus form a group. Which one of the following does not belong to the group?

- a. Q in Running
- b. P in Boxing
- c. N in Shooting
- d. L in Boxing
- e. O in Running

Explanations:

@QuizByMickey

1. Questions

Final arrangement:

Month with Date	Persons
April 4 th	K
April 15 th	N
May 4 th	Q
May 15 th	O
June 4 th	J
June 15 th	P
July 4 th	M
July 15 th	R
August 4 th	S
August 15 th	L

We have,

- L attends on an odd numbered date but not in the month having an even number of days.
- Only two persons attend between M and L.
- M doesn't attend after L.

From the above conditions there are three possibilities.

Month with Date	Case-1	Case-2	Case-3
	Persons	Persons	Persons
April 4 th	M		
April 15 th			
May 4 th			
May 15 th	L		
June 4 th		M	
June 15 th			
July 4 th			M
July 15 th		L	
August 4 th			
August 15 th			L

@QuizByMickey

Again we have,

- Only three persons attend between J and S.
- J neither attends after S nor attends in the same month as L.
- The number of persons attending between M and O is **one more than** the number of persons attending between J and Q.

- O doesn't attend on an even numbered date.
- J attends on an even numbered date.

From the above conditions there are five possibilities.

Case-3 split into case-3a and case -3b.

From the above conditions case-1 gets eliminated because the number of persons attending between M and O is **one more than** the number of persons attending between J and Q. O doesn't attend on an even numbered date, which is not satisfied.

Month with Date	Case-1	Case-2	Case-3	Case-3a	Case-3b
	Persons	Persons	Persons	Persons	Persons
April 4 th	M	Q	Q		J
April 15 th		O	O		
May 4 th		J		Q	Q
May 15 th	L			O	O
June 4 th	J	M	J	J	S
June 15 th					
July 4 th		S	M	M	M
July 15 th		L			
August 4 th	S		S	S	
August 15 th			L	L	L

Again we have,

- As many persons attend between K and O as after R.
- Only one month is between P and N.
- P doesn't attend before N and does not attend in the month having an odd number of days.

From the above conditions case-3 and case-3b get eliminated because As many persons attend between K and O as after R, which is not satisfied.

From the above conditions case-2 gets eliminated because P attends in the month having an odd number of days, which is not satisfied.

Hence case-3a shows the final arrangement

Month with Date	Case-2	Case-3	Case-3a	Case-3b
	Persons	Persons	Persons	Persons
April 4 th	Q	Q	K	J
April 15 th	O	O	N	N
May 4 th	J		Q	Q
May 15 th	R/K		O	O
June 4 th	M	J	J	S
June 15 th	N		P	P
July 4 th	S	M	M	M
July 15 th	L		R	
August 4 th	K/R	S	S	
August 15 th	P	L	L	L

Answer: C

2. Questions

Final arrangement:

Month with Date	Persons
April 4 th	K
April 15 th	N
May 4 th	Q
May 15 th	O
June 4 th	J
June 15 th	P
July 4 th	M
July 15 th	R
August 4 th	S
August 15 th	L

@QuizByMickey

We have,

- L attends on an odd numbered date but not in the month having an even number of days.
- Only two persons attend between M and L.
- M doesn't attend after L.

From the above conditions there are three possibilities.

Month with Date	Case-1	Case-2	Case-3
	Persons	Persons	Persons
April 4 th	M		
April 15 th			
May 4 th			
May 15 th	L		
June 4 th		M	
June 15 th			
July 4 th			M
July 15 th		L	
August 4 th			
August 15 th			L

Again we have,

- Only three persons attend between J and S.
- J neither attends after S nor attends in the same month as L.
- The number of persons attending between M and O is **one more than** the number of persons attending between J and Q.
- O doesn't attend on an even numbered date.
- J attends on an even numbered date.

From the above conditions there are five possibilities.

Case-3 split into case-3a and case -3b.

From the above conditions case-1 gets eliminated because the number of persons attending between M and O is **one more than** the number of persons attending between J and Q. O doesn't attend on an even numbered date, which is not satisfied.

@QuizByMickey

Month with Date	Case-1	Case-2	Case-3	Case-3a	Case-3b
	Persons	Persons	Persons	Persons	Persons
April 4 th	M	Q	Q		J
April 15 th		O	O		
May 4 th		J		Q	Q
May 15 th	L			O	O
June 4 th	J	M	J	J	S
June 15 th					
July 4 th		S	M	M	M
July 15 th		L			
August 4 th	S		S	S	
August 15 th			L	L	L

Again we have,

- As many persons attend between K and O as after R.
- Only one month is between P and N.
- P doesn't attend before N and does not attend in the month having an odd number of days.

From the above conditions case-3 and case-3b get eliminated because As many persons attend between K and O as after R, which is not satisfied.

From the above conditions case-2 gets eliminated because P attends in the month having an odd number of days, which is not satisfied.

Hence case-3a shows the final arrangement

@QuizByMickey

Month with Date	Case-2	Case-3	Case-3a	Case-3b
	Persons	Persons	Persons	Persons
April 4 th	Q	Q	K	J
April 15 th	O	O	N	N
May 4 th	J		Q	Q
May 15 th	R/K		O	O
June 4 th	M	J	J	S
June 15 th	N		P	P
July 4 th	S	M	M	M
July 15 th	L		R	
August 4 th	K/R	S	S	
August 15 th	P	L	L	L

Answer: B

3. Questions

Final arrangement:

Month with Date	Persons
April 4 th	K
April 15 th	N
May 4 th	Q
May 15 th	O
June 4 th	J
June 15 th	P
July 4 th	M
July 15 th	R
August 4 th	S
August 15 th	L

@QuizByMickey

We have,

- L attends on an odd numbered date but not in the month having an even number of days.
- Only two persons attend between M and L.
- M doesn't attend after L.

From the above conditions there are three possibilities.

Month with Date	Case-1	Case-2	Case-3
	Persons	Persons	Persons
April 4 th	M		
April 15 th			
May 4 th			
May 15 th	L		
June 4 th		M	
June 15 th			
July 4 th			M
July 15 th		L	
August 4 th			
August 15 th			L

Again we have,

- Only three persons attend between J and S.
- J neither attends after S nor attends in the same month as L.
- The number of persons attending between M and O is **one more than** the number of persons attending between J and Q.
- O doesn't attend on an even numbered date.
- J attends on an even numbered date.

From the above conditions there are five possibilities.

Case-3 split into case-3a and case -3b.

From the above conditions case-1 gets eliminated because the number of persons attending between M and O is **one more than** the number of persons attending between J and Q. O doesn't attend on an even numbered date, which is not satisfied.

@QuizByMickey

Month with Date	Case-1	Case-2	Case-3	Case-3a	Case-3b
	Persons	Persons	Persons	Persons	Persons
April 4 th	M	Q	Q		J
April 15 th		O	O		
May 4 th		J		Q	Q
May 15 th	L			O	O
June 4 th	J	M	J	J	S
June 15 th					
July 4 th		S	M	M	M
July 15 th		L			
August 4 th	S		S	S	
August 15 th			L	L	L

Again we have,

- As many persons attend between K and O as after R.
- Only one month is between P and N.
- P doesn't attend before N and does not attend in the month having an odd number of days.

From the above conditions case-3 and case-3b get eliminated because As many persons attend between K and O as after R, which is not satisfied.

From the above conditions case-2 gets eliminated because P attends in the month having an odd number of days, which is not satisfied.

Hence case-3a shows the final arrangement

@QuizByMickey

Month with Date	Case-2	Case-3	Case-3a	Case-3b
	Persons	Persons	Persons	Persons
April 4 th	Q	Q	K	J
April 15 th	O	O	N	N
May 4 th	J		Q	Q

June 15 th	N		P	P
July 4 th	S	M	M	M
July 15 th	L		R	
August 4 th	K/R	S	S	
August 15 th	P	L	L	L

Answer: A

6. Questions

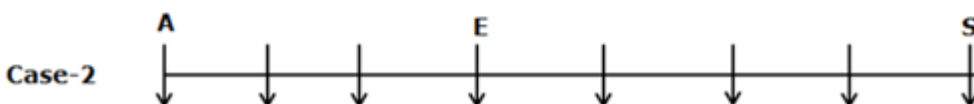

Final arrangement:

We have,

- Only two letters are there between E and A.
- S is placed fourth to the left of E.

Above these conditions there are two possibilities.

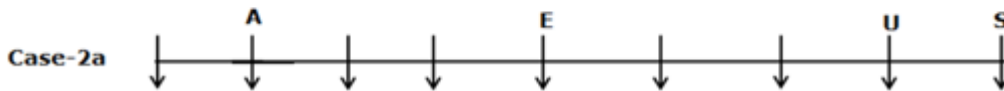

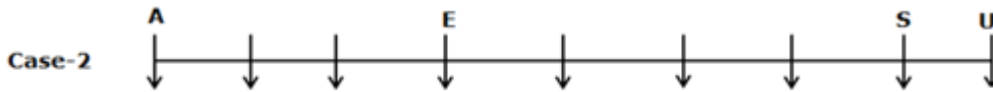

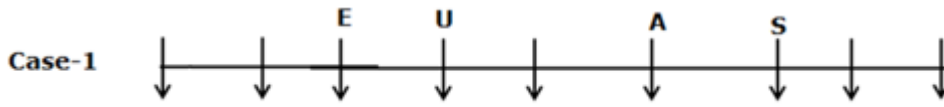

@QuizByMickey

Again we have,

- The number of letters placed to the left of A is the **same as** the number of letters placed to the right of U.
- U doesn't place to the right of E.

Above these conditions there are four possibilities.

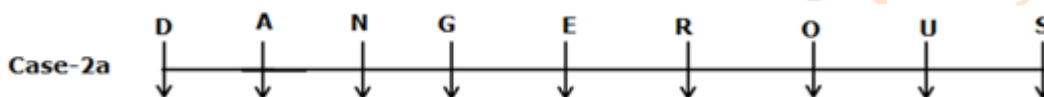

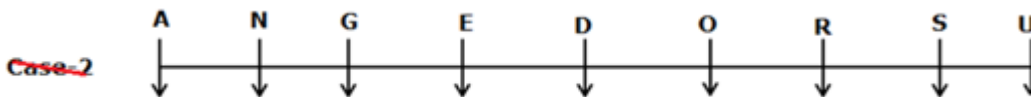

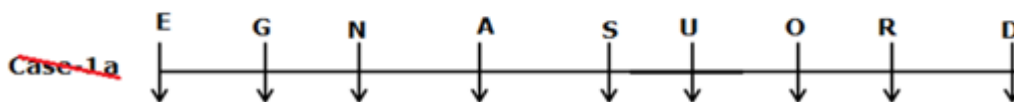

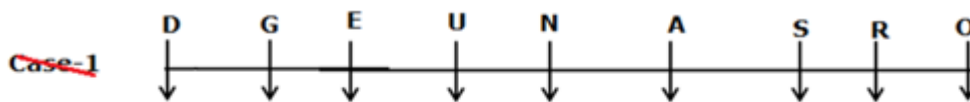

Again we have,

- Only three letters are placed between N and O.
- O is not placed adjacent to A.
- N is not placed to the left of O.
- As many letters are placed to the left of R as to the right of G.
- G is placed to the right of R.

From the above conditions case-1, case-1a and case-2 get eliminated because these words are not meaningful words.

Hence case-2a shows the final arrangement

@QuizByMickey

Answer: C

7. Questions

Final arrangement:

We have,

- Only two letters are there between E and A.
- S is placed fourth to the left of E.

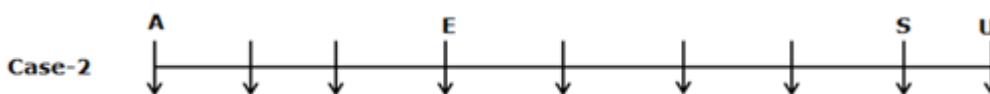

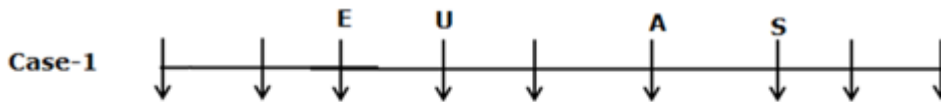

Above these conditions there are two possibilities.

Again we have,

- The number of letters placed to the left of A is the **same as** the number of letters placed to the right of U.
- U doesn't place to the right of E.

Above these conditions there are four possibilities.

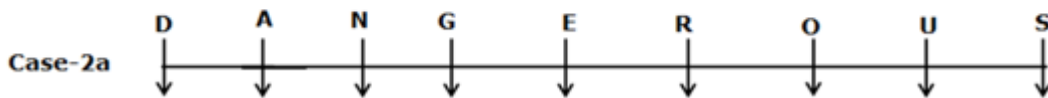

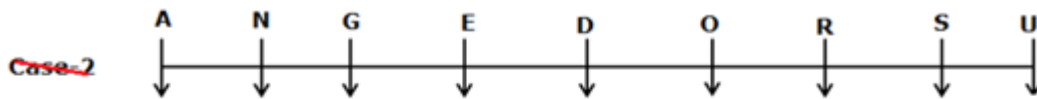

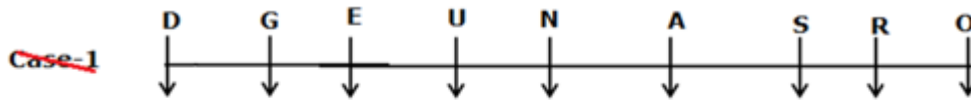

Again we have,

- Only three letters are placed between N and O.
- O is not placed adjacent to A.
- N is not placed to the left of O.
- As many letters are placed to the left of R as to the right of G.
- G is placed to the right of R.

From the above conditions case-1, case-1a and case-2 get eliminated because these words are not meaningful words.

Hence case-2a shows the final arrangement

Answer: E

8. Questions

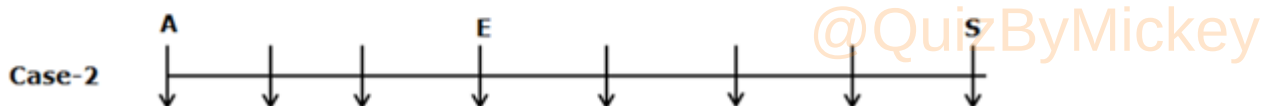

Final arrangement:

We have,

- Only two letters are there between E and A.
- S is placed fourth to the left of E.

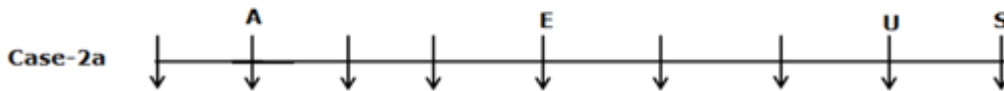

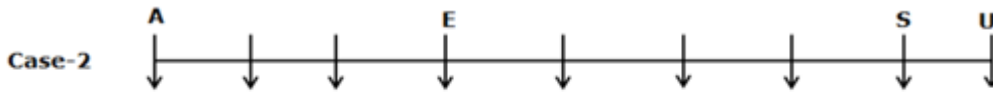

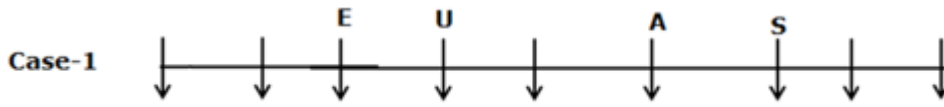

Above these conditions there are two possibilities.

Again we have,

- The number of letters placed to the left of A is the **same as** the number of letters placed to the right of U.
- U doesn't place to the right of E.

Above these conditions there are four possibilities.

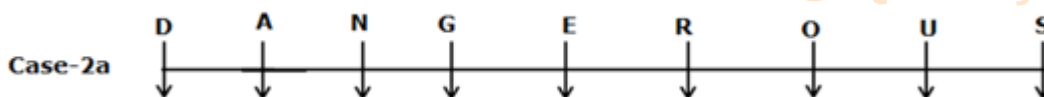

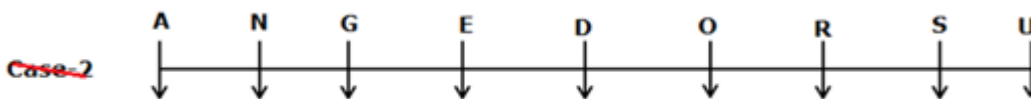

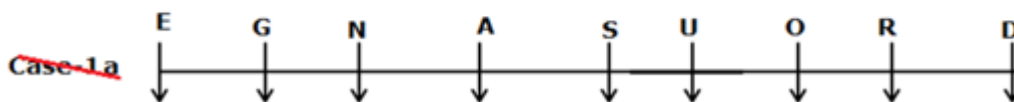

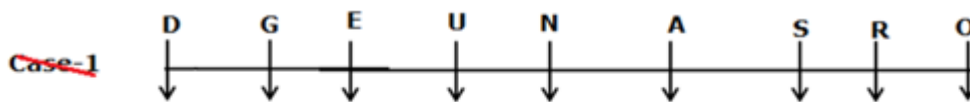

Again we have,

- Only three letters are placed between N and O.
- O is not placed adjacent to A.
- N is not placed to the left of O.
- As many letters are placed to the left of R as to the right of G.
- G is placed to the right of R.

From the above conditions case-1, case-1a and case-2 get eliminated because these words are not meaningful words.

Hence case-2a shows the final arrangement

@QuizByMickey

Answer: B

9. Questions

Final arrangement:

We have,

- Only two letters are there between E and A.
- S is placed fourth to the left of E.

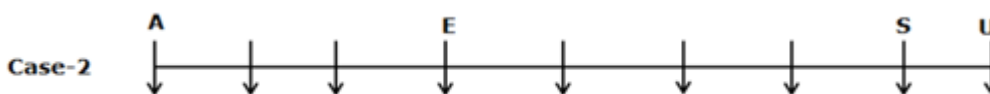

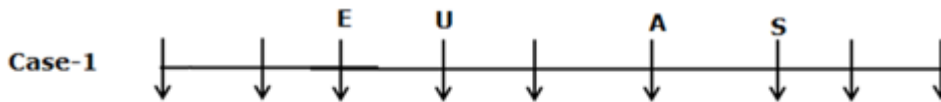

Above these conditions there are two possibilities.

Again we have,

- The number of letters placed to the left of A is the **same as** the number of letters placed to the right of U.
- U doesn't place to the right of E.

Above these conditions there are four possibilities.

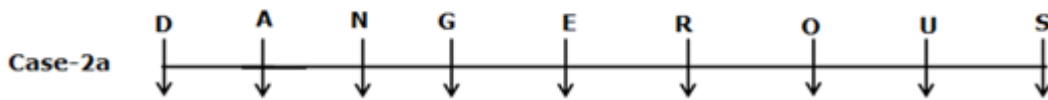

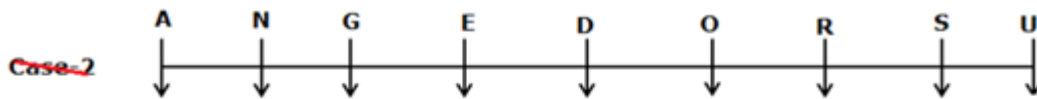

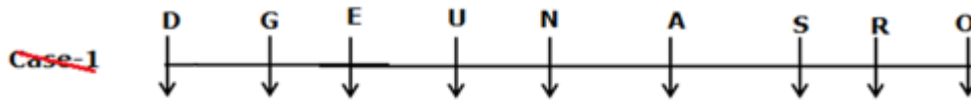

Again we have,

- Only three letters are placed between N and O.
- O is not placed adjacent to A.
- N is not placed to the left of O.
- As many letters are placed to the left of R as to the right of G.
- G is placed to the right of R.

From the above conditions case-1, case-1a and case-2 get eliminated because these words are not meaningful words.

Hence case-2a shows the final arrangement

Answer: D

10. Questions

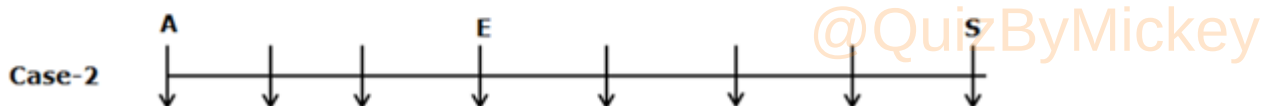

Final arrangement:

We have,

- Only two letters are there between E and A.
- S is placed fourth to the left of E.

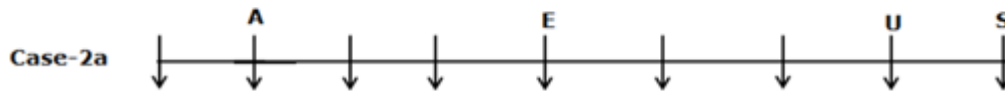

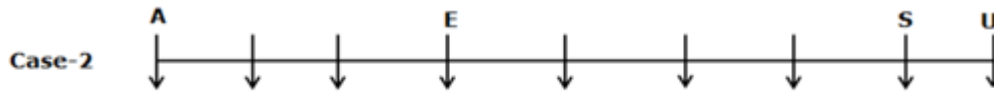

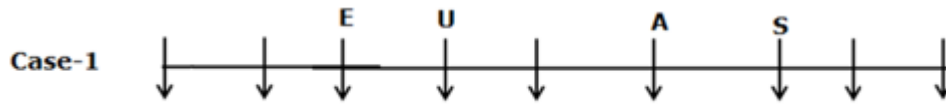

Above these conditions there are two possibilities.

Again we have,

- The number of letters placed to the left of A is the **same as** the number of letters placed to the right of U.
- U doesn't place to the right of E.

Above these conditions there are four possibilities.

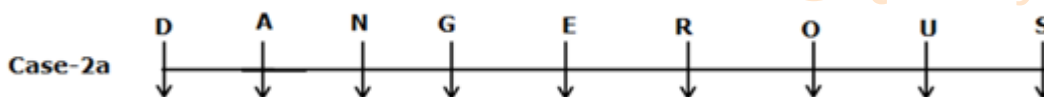

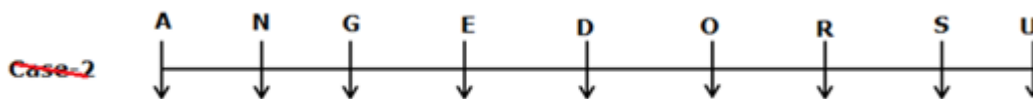

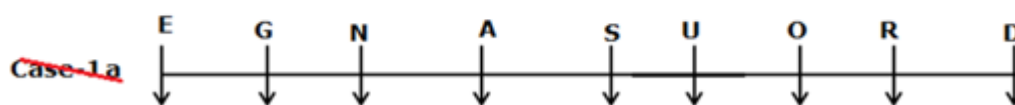

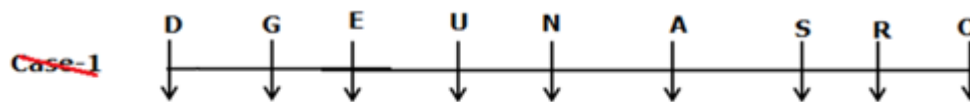

Again we have,

- Only three letters are placed between N and O.
- O is not placed adjacent to A.
- N is not placed to the left of O.
- As many letters are placed to the left of R as to the right of G.
- G is placed to the right of R.

From the above conditions case-1, case-1a and case-2 get eliminated because these words are not meaningful words.

Hence case-2a shows the final arrangement

@QuizByMickey

Answer: B

11. Questions

Final arrangement:

Designations	Persons
Chairman(3)	J, T, D
Director(4)	P, N, E, Q
Managing(3) Director	H, L, O
Branch Manager(4)	C, M, B, S
Manager(5)	K, F, G, I, R

We have,

- P works immediately senior to H.
- As many persons work between C and J as senior to L, who is not working with P.
- K works with F, who is two designations junior to H.
- As many persons senior to J as junior to F.
- C is not junior to the Branch Manager.

From the above conditions there are three possibilities.

	Case-1	Case -2	Case -2a
Designations	Persons	Persons	Persons
Chairman(3)	P	J, L	J
Director(4)	H, J, L	P, C	P
Managing Director(3)		H	H, L
Branch Manager(4)	K, F, C		C
Manager (5)		K, F	K, F

Again we have,

- N works with E.
- E is senior to O and junior to T.
- The number of persons senior to O is **two more than** the number of persons junior to B.
- O neither works as the Branch Manager nor with F.

@QuizByMickey

	Case-1	Case -2	Case -2a
Designations	Persons	Persons	Persons
Chairman(3)	P, T	J, L, T	J, T
Director(4)	H, J, L, B	P, C, N, E	P, N, E
Managing(3) Director	N, E	H, O	H, L, O
Branch Manager(4)	K, F, C	B	C, B
Manager(5)	O	K, F,	K, F,

Again we have,

- I works with R, who is junior to D.
- As many persons work with M as work with Q, who doesn't work with C.
- Even number of persons work with D.
- S works with M but not with R.
- G is one of the person in an organisation.

From the above conditions case-1 gets eliminated because S works with M but not with R, which is not satisfied.

And case-2 gets eliminated because As many persons work with M as work with Q, who doesn't work with C, which is not satisfied.

Hence case-2a shows the final arrangement

	Case-1	Case -2	Case -2a
Designations	Persons	Persons	Persons
Chairman(3)	P, D, M/Q	J, L, T	J, T, D
Director(4)	H, J, L, B	P, C, N, E	P, N, E, Q
Managing(3) Director	N, E, M/Q	H, O	H, L, O
Branch Manager(4)	K, F, C, D	B	C, M, B, S
Manager(5)	O, I, R, , S	K, F	K, F, G, I, R

Answer: D

@QuizByMickey

12. Questions

Final arrangement:

Designations	Persons
Chairman(3)	J, T, D
Director(4)	P, N, E, Q
Managing(3) Director	H, L, O
Branch Manager(4)	C, M, B, S
Manager(5)	K, F, G, I, R

We have,

- P works immediately senior to H.
- As many persons work between C and J as senior to L, who is not working with P.
- K works with F, who is two designations junior to H.
- As many persons senior to J as junior to F.
- C is not junior to the Branch Manager.

From the above conditions there are three possibilities.

	Case-1	Case -2	Case -2a
Designations	Persons	Persons	Persons
Chairman(3)	P	J, L	J
Director(4)	H, J, L	P, C	P
Managing Director(3)		H	H, L
Branch Manager(4)	K, F, C		C
Manager (5)		K, F	K, F

Again we have,

- N works with E.
- E is senior to O and junior to T.
- The number of persons senior to O is **two more than** the number of persons junior to B.
- O neither works as the Branch Manager nor with F.

@QuizByMickey

	Case-1	Case -2	Case -2a
Designations	Persons	Persons	Persons
Chairman(3)	P, T	J, L, T	J, T
Director(4)	H, J, L, B	P, C, N, E	P, N, E
Managing(3) Director	N, E	H, O	H, L, O
Branch Manager(4)	K, F, C	B	C, B
Manager(5)	O	K, F,	K, F,

Again we have,

- I works with R, who is junior to D.
- As many persons work with M as work with Q, who doesn't work with C.
- Even number of persons work with D.
- S works with M but not with R.
- G is one of the person in an organisation.

From the above conditions case-1 gets eliminated because S works with M but not with R, which is not satisfied.

And case-2 gets eliminated because As many persons work with M as work with Q, who doesn't work with C, which is not satisfied.

Hence case-2a shows the final arrangement

	Case-1	Case -2	Case -2a
Designations	Persons	Persons	Persons
Chairman(3)	P, D, M/Q	J, L, T	J, T, D
Director(4)	H, J, L, B	P, C, N, E	P, N, E, Q

Branch Manager(4)	K, F, C, D	B	C, M, B, S
Manager(5)	O, I, R, , S	K, F	K, F, G, I, R

Answer: E

@QuizByMickey

13. Questions

Final arrangement:

Designations	Persons
Chairman(3)	J, T, D
Director(4)	P, N, E, Q
Managing(3) Director	H, L, O
Branch Manager(4)	C, M, B, S
Manager(5)	K, F, G, I, R

We have,

- P works immediately senior to H.
- As many persons work between C and J as senior to L, who is not working with P.
- K works with F, who is two designations junior to H.
- As many persons senior to J as junior to F.
- C is not junior to the Branch Manager.

From the above conditions there are three possibilities.

	Case-1	Case -2	Case -2a
Designations	Persons	Persons	Persons
Chairman(3)	P	J, L	J
Director(4)	H, J, L	P, C	P
Managing Director(3)		H	H, L
Branch Manager(4)	K, F, C		C
Manager (5)		K, F	K, F

Again we have,

- N works with E.
- E is senior to O and junior to T.
- The number of persons senior to O is **two more than** the number of persons junior to B.
- O neither works as the Branch Manager nor with F.

@QuizByMickey

	Case-1	Case -2	Case -2a
Designations	Persons	Persons	Persons
Chairman(3)	P, T	J, L, T	J, T
Director(4)	H, J, L, B	P, C, N, E	P, N, E
Managing(3) Director	N, E	H, O	H, L, O
Branch Manager(4)	K, F, C	B	C, B
Manager(5)	O	K, F,	K, F,

Again we have,

- I works with R, who is junior to D.
- As many persons work with M as work with Q, who doesn't work with C.
- Even number of persons work with D.
- S works with M but not with R.
- G is one of the person in an organisation.

From the above conditions case-1 gets eliminated because S works with M but not with R, which is not satisfied.

And case-2 gets eliminated because As many persons work with M as work with Q, who doesn't work with C, which is not satisfied.

Hence case-2a shows the final arrangement

	Case-1	Case -2	Case -2a
Designations	Persons	Persons	Persons
Chairman(3)	P, D, M/Q	J, L, T	J, T, D
Director(4)	H, J, L, B	P, C, N, E	P, N, E, Q
Managing(3) Director	N, E, M/Q	H, O	H, L, O
Branch Manager(4)	K, F, C, D	B	C, M, B, S
Manager(5)	O, I, R, , S	K, F	K, F, G, I, R

Answer: B

@QuizByMickey

14. Questions

Final arrangement:

Designations	Persons
Chairman(3)	J, T, D
Director(4)	P, N, E, Q
Managing(3) Director	H, L, O
Branch Manager(4)	C, M, B, S
Manager(5)	K, F, G, I, R

We have,

- P works immediately senior to H.
- As many persons work between C and J as senior to L, who is not working with P.
- K works with F, who is two designations junior to H.
- As many persons senior to J as junior to F.
- C is not junior to the Branch Manager.

From the above conditions there are three possibilities.

	Case-1	Case -2	Case -2a
Designations	Persons	Persons	Persons
Chairman(3)	P	J, L	J
Director(4)	H, J, L	P, C	P
Managing Director(3)		H	H, L
Branch Manager(4)	K, F, C		C
Manager (5)		K, F	K, F

Again we have,

- N works with E.
- E is senior to O and junior to T.
- The number of persons senior to O is **two more than** the number of persons junior to B.
- O neither works as the Branch Manager nor with F.

@QuizByMickey

	Case-1	Case -2	Case -2a
Designations	Persons	Persons	Persons
Chairman(3)	P, T	J, L, T	J, T
Director(4)	H, J, L, B	P, C, N, E	P, N, E
Managing(3) Director	N, E	H, O	H, L, O
Branch Manager(4)	K, F, C	B	C, B
Manager(5)	O	K, F,	K, F,

Again we have,

- I works with R, who is junior to D.
- As many persons work with M as work with Q, who doesn't work with C.
- Even number of persons work with D.
- S works with M but not with R.
- G is one of the person in an organisation.

From the above conditions case-1 gets eliminated because S works with M but not with R, which is not satisfied.

And case-2 gets eliminated because As many persons work with M as work with Q, who doesn't work with C, which is not satisfied.

Hence case-2a shows the final arrangement

	Case-1	Case -2	Case -2a
Designations	Persons	Persons	Persons
Chairman(3)	P, D, M/Q	J, L, T	J, T, D
Director(4)	H, J, L, B	P, C, N, E	P, N, E, Q
Managing(3) Director	N, E, M/Q	H, O	H, L, O
Branch Manager(4)	K, F, C, D	B	C, M, B, S
Manager(5)	O, I, R, , S	K, F	K, F, G, I, R

Answer: B

@QuizByMickey

15. Questions

Final arrangement:

Designations	Persons
Chairman(3)	J, T, D
Director(4)	P, N, E, Q
Managing(3) Director	H, L, O
Branch Manager(4)	C, M, B, S
Manager(5)	K, F, G, I, R

We have,

- P works immediately senior to H.
- As many persons work between C and J as senior to L, who is not working with P.
- K works with F, who is two designations junior to H.
- As many persons senior to J as junior to F.
- C is not junior to the Branch Manager.

From the above conditions there are three possibilities.

	Case-1	Case -2	Case -2a
Designations	Persons	Persons	Persons
Chairman(3)	P	J, L	J
Director(4)	H, J, L	P, C	P
Managing Director(3)		H	H, L
Branch Manager(4)	K, F, C		C
Manager (5)		K, F	K, F

Again we have,

- N works with E.
- E is senior to O and junior to T.
- The number of persons senior to O is **two more than** the number of persons junior to B.
- O neither works as the Branch Manager nor with F.

@QuizByMickey

	Case-1	Case -2	Case -2a
Designations	Persons	Persons	Persons
Chairman(3)	P, T	J, L, T	J, T
Director(4)	H, J, L, B	P, C, N, E	P, N, E
Managing(3) Director	N, E	H, O	H, L, O
Branch Manager(4)	K, F, C	B	C, B
Manager(5)	O	K, F,	K, F,

Again we have,

- I works with R, who is junior to D.
- As many persons work with M as work with Q, who doesn't work with C.
- Even number of persons work with D.
- S works with M but not with R.
- G is one of the person in an organisation.

From the above conditions case-1 gets eliminated because S works with M but not with R, which is not satisfied.

And case-2 gets eliminated because As many persons work with M as work with Q, who doesn't work with C, which is not satisfied.

Hence case-2a shows the final arrangement

	Case-1	Case -2	Case -2a
Designations	Persons	Persons	Persons
Chairman(3)	P, D, M/Q	J, L, T	J, T, D
Director(4)	H, J, L, B	P, C, N, E	P, N, E, Q
Managing(3) Director	N, E, M/Q	H, O	H, L, O
Branch Manager(4)	K, F, C, D	B	C, M, B, S
Manager(5)	O, I, R, , S	K, F	K, F, G, I, R

Answer: D

@QuizByMickey

16. Questions

Final arrangement:

Persons	Archery	Badminton	Boxing	Hockey	Running	Shooting
L	2	1	6	5	3	4
M	3	5	2	6	4	1
N	6	3	5	4	1	2
O	1	4	3	2	5	6
P	5	2	4	1	6	3
Q	4	6	1	3	2	5

We have,

- In hockey P got either the highest or lowest rank and got two ranks either higher or lower than N in badminton.
- In Archery, L got three ranks higher than O in Running, who did not get the lowest ranks .
- M in shooting and Q in boxing got the same rank.

From the above conditions there are four possibilities.

Case- 1

Persons	Archery	Badminton	Boxing	Hockey	Running	Shooting
L	1					
M			2			1
N		3				
O			3, 5		4	
P				1		
Q			1			

Case-1a

Persons	Archery	Badminton	Boxing	Hockey	Running	Shooting
L	2					
M			2			1
N		3				
O			3, 4		5	
P				1		
Q			1			

Case- 2

Persons	Archery	Badminton	Boxing	Hockey	Running	Shooting
L	1					
M			2			1
N		4				
O			3,5		4	
P				6		
Q			1			

Case-2a

Persons	Archery	Badminton	Boxing	Hockey	Running	Shooting
L	2					
M			2			1
N		4				
O			3,4		5	
P				6		
Q			1			

@QuizByMickey

Again we have,

- The difference between the ranks of P in Archery and M in boxing is equal to the difference between the ranks of Q in badminton and L in Running.
- L doesn't get 1st rank in running.
- O in shooting got two ranks lower than N in hockey.
- Q in Running got three ranks higher than P in Archery.
- P got 5th rank in Archery.
- M in badminton got a lower rank than Q in hockey and immediately lower rank than N in hockey.

From the above conditions case-2 and case-2a get eliminated because M in badminton got a lower rank than Q in hockey and immediately lower rank than N in hockey, which is not satisfied.

Case- 1

Persons	Archery	Badminton	Boxing	Hockey	Running	Shooting
L	1				3	4
M		5	2			1
N		3		4		
O			3, 5		4	6
P	5			1		
Q		6	1	3	2	

Case-1a

Persons	Archery	Badminton	Boxing	Hockey	Running	Shooting
L	2				3	4
M		5	2			1
N		3		4		
O			3, 4		5	6
P	5			1		
Q		6	1	3	2	

~~Case- 2~~

Persons	Archery	Badminton	Boxing	Hockey	Running	Shooting
L	1				3	
M		3	2			1
N		4		2		
O			3,5		4	4
P	5			6		
Q		6	1		2	

~~Case-2a~~

Persons	Archery	Badminton	Boxing	Hockey	Running	Shooting
L	2				3	
M		3	2			1
N		4		2		
O			3,4		5	4
P	5			6		
Q		6	1		2	

Here,

There is no person in the same rank in different games.

So we can fix it.

From the above conditions case-1 gets eliminated because there is no person in the same rank in different games, which is not satisfied.

Hence case-1a shows the final arrangement

~~Case-1~~

Persons	Archery	Badminton	Boxing	Hockey	Running	Shooting
L	1				3	4
M			2			1
N		3		4	5	2
O			3, 5		4	6
P	5			1		3
Q	4	6	1	3	2	5

Case-1a

Persons	Archery	Badminton	Boxing	Hockey	Running	Shooting
L	2	1	6	5	3	4
M	3	5	2	6	4	1
N	6	3	5	4	1	2
O	1	4	3	2	5	6
P	5	2	4	1	6	3
Q	4	6	1	3	2	5

Answer: A

17. Questions

Final arrangement:

@QuizByMickey

Persons	Archery	Badminton	Boxing	Hockey	Running	Shooting
L	2	1	6	5	3	4
M	3	5	2	6	4	1
N	6	3	5	4	1	2
O	1	4	3	2	5	6
P	5	2	4	1	6	3
Q	4	6	1	3	2	5

We have,

- In hockey P got either the highest or lowest rank and got two ranks either higher or lower than N in badminton.
- In Archery, L got three ranks higher than O in Running, who did not get the lowest ranks .
- M in shooting and Q in boxing got the same rank.

From the above conditions there are four possibilities.

Case- 1

Persons	Archery	Badminton	Boxing	Hockey	Running	Shooting
L	1

M			2			1
N		3				
O			3, 4		5	
P				1		
Q			1			

Case- 2

Persons	Archery	Badminton	Boxing	Hockey	Running	Shooting
L	1					
M			2			1
N		4				
O			3,5		4	
P				6		
Q			1			

Case-2a

Persons	Archery	Badminton	Boxing	Hockey	Running	Shooting
L	2					
M			2			1
N		4				
O			3,4		5	
P				6		
Q			1			

@QuizByMickey

Again we have,

- The difference between the ranks of P in Archery and M in boxing is equal to the difference between the ranks of Q in badminton and L in Running.
- L doesn't get 1st rank in running.
- O in shooting got two ranks lower than N in hockey.
- Q in Running got three ranks higher than P in Archery.
- P got 5th rank in Archery.
- M in badminton got a lower rank than Q in hockey and immediately lower rank than N in hockey.

From the above conditions case-2 and case-2a get eliminated because M in badminton got a lower rank than Q in hockey and immediately lower rank than N in hockey, which is not satisfied.

Case- 1

Persons	Archery	Badminton	Boxing	Hockey	Running	Shooting
L	1				3	4
M		5	2			1
N		3		4		
O			3, 5		4	6
P	5			1		
Q		6	1	3	2	

Case-1a

Persons	Archery	Badminton	Boxing	Hockey	Running	Shooting
L	2				3	4
M		5	2			1
N		3		4		
O			3, 4		5	6
P	5			1		
Q		6	1	3	2	

~~Case- 2~~

Persons	Archery	Badminton	Boxing	Hockey	Running	Shooting
L	1				3	
M		3	2			1
N		4		2		
O			3,5		4	4
P	5			6		
Q		6	1		2	

~~Case-2a~~

Persons	Archery	Badminton	Boxing	Hockey	Running	Shooting
L	2				3	
M		3	2			1
N		4		2		
O			3,4		5	4
P	5			6		
Q		6	1		2	

Here,

There is no person in the same rank in different games.

So we can fix it.

From the above conditions case-1 gets eliminated because there is no person in the same rank in different games, which is not satisfied.

Hence case-1a shows the final arrangement

~~Case-1~~

Persons	Archery	Badminton	Boxing	Hockey	Running	Shooting
L	1				3	4
M			2			1
N		3		4	5	2
O			3, 5		4	6
P	5			1		3
Q	4	6	1	3	2	5

Case-1a

Persons	Archery	Badminton	Boxing	Hockey	Running	Shooting
L	2	1	6	5	3	4
M	3	5	2	6	4	1
N	6	3	5	4	1	2
O	1	4	3	2	5	6
P	5	2	4	1	6	3
Q	4	6	1	3	2	5

Answer: B

18. Questions

Final arrangement:

@QuizByMickey

Persons	Archery	Badminton	Boxing	Hockey	Running	Shooting
L	2	1	6	5	3	4
M	3	5	2	6	4	1
N	6	3	5	4	1	2
O	1	4	3	2	5	6
P	5	2	4	1	6	3
Q	4	6	1	3	2	5

We have,

- In hockey P got either the highest or lowest rank and got two ranks either higher or lower than N in badminton.
- In Archery, L got three ranks higher than O in Running, who did not get the lowest ranks .
- M in shooting and Q in boxing got the same rank.

From the above conditions there are four possibilities.

Case- 1

Persons	Archery	Badminton	Boxing	Hockey	Running	Shooting
L	1					
M			2			1
N		3				
O			3, 5		4	
P				1		
Q			1			

Case-1a

Persons	Archery	Badminton	Boxing	Hockey	Running	Shooting
L	2					
M			2			1
N		3				
O			3, 4		5	
P				1		
Q			1			

Case- 2

Persons	Archery	Badminton	Boxing	Hockey	Running	Shooting
L	1					
M			2			1
N		4				
O			3,5		4	
P				6		
Q			1			

Case-2a

Persons	Archery	Badminton	Boxing	Hockey	Running	Shooting
L	2					
M			2			1
N		4				
O			3,4		5	
P				6		
Q			1			

@QuizByMickey

Again we have,

- The difference between the ranks of P in Archery and M in boxing is equal to the difference between the ranks of Q in badminton and L in Running.
- L doesn't get 1st rank in running.
- O in shooting got two ranks lower than N in hockey.
- Q in Running got three ranks higher than P in Archery.
- P got 5th rank in Archery.
- M in badminton got a lower rank than Q in hockey and immediately lower rank than N in hockey.

From the above conditions case-2 and case-2a get eliminated because M in badminton got a lower rank than Q in hockey and immediately lower rank than N in hockey, which is not satisfied.

Case- 1

Persons	Archery	Badminton	Boxing	Hockey	Running	Shooting
L	1				3	4
M		5	2			1
N		3		4		
O			3, 5		4	6
P	5			1		
Q		6	1	3	2	

Case-1a

Persons	Archery	Badminton	Boxing	Hockey	Running	Shooting
L	2				3	4
M		5	2			1
N		3		4		
O			3, 4		5	6
P	5			1		
Q		6	1	3	2	

~~Case- 2~~

Persons	Archery	Badminton	Boxing	Hockey	Running	Shooting
L	1				3	
M		3	2			1
N		4		2		
O			3,5		4	4
P	5			6		
Q		6	1		2	

~~Case-2a~~

Persons	Archery	Badminton	Boxing	Hockey	Running	Shooting
L	2				3	
M		3	2			1
N		4		2		
O			3,4		5	4
P	5			6		
Q		6	1		2	

Here,

There is no person in the same rank in different games.

So we can fix it.

From the above conditions case-1 gets eliminated because there is no person in the same rank in different games, which is not satisfied.

Hence case-1a shows the final arrangement

~~Case-1~~

Persons	Archery	Badminton	Boxing	Hockey	Running	Shooting
L	1				3	4
M			2			1
N		3		4	5	2
O			3, 5		4	6
P	5			1		3
Q	4	6	1	3	2	5

Case-1a

Persons	Archery	Badminton	Boxing	Hockey	Running	Shooting
L	2	1	6	5	3	4
M	3	5	2	6	4	1
N	6	3	5	4	1	2
O	1	4	3	2	5	6
P	5	2	4	1	6	3
Q	4	6	1	3	2	5

Answer: D

19. Questions

Final arrangement:

@QuizByMickey

Persons	Archery	Badminton	Boxing	Hockey	Running	Shooting
L	2	1	6	5	3	4
M	3	5	2	6	4	1
N	6	3	5	4	1	2
O	1	4	3	2	5	6
P	5	2	4	1	6	3
Q	4	6	1	3	2	5

We have,

- In hockey P got either the highest or lowest rank and got two ranks either higher or lower than N in badminton.
- In Archery, L got three ranks higher than O in Running, who did not get the lowest ranks .
- M in shooting and Q in boxing got the same rank.

From the above conditions there are four possibilities.

Case- 1

Persons	Archery	Badminton	Boxing	Hockey	Running	Shooting
L	1					
M			2			1
N		3				
O			3, 5		4	
P				1		
Q			1			

Case-1a

Persons	Archery	Badminton	Boxing	Hockey	Running	Shooting
L	2					
M			2			1
N		3				
O			3, 4		5	
P				1		
Q			1			

Case- 2

Persons	Archery	Badminton	Boxing	Hockey	Running	Shooting
L	1					
M			2			1
N		4				
O			3,5		4	
P				6		
Q			1			

Case-2a

Persons	Archery	Badminton	Boxing	Hockey	Running	Shooting
L	2					
M			2			1
N		4				
O			3,4		5	
P				6		
Q			1			

@QuizByMickey

Again we have,

- The difference between the ranks of P in Archery and M in boxing is equal to the difference between the ranks of Q in badminton and L in Running.
- L doesn't get 1st rank in running.
- O in shooting got two ranks lower than N in hockey.
- Q in Running got three ranks higher than P in Archery.
- P got 5th rank in Archery.
- M in badminton got a lower rank than Q in hockey and immediately lower rank than N in hockey.

From the above conditions case-2 and case-2a get eliminated because M in badminton got a lower rank than Q in hockey and immediately lower rank than N in hockey, which is not satisfied.

Case- 1

Persons	Archery	Badminton	Boxing	Hockey	Running	Shooting
L	1				3	4
M		5	2			1
N		3		4		
O			3, 5		4	6
P	5			1		
Q		6	1	3	2	

Case-1a

Persons	Archery	Badminton	Boxing	Hockey	Running	Shooting
L	2				3	4
M		5	2			1
N		3		4		
O			3, 4		5	6
P	5			1		
Q		6	1	3	2	

~~Case- 2~~

Persons	Archery	Badminton	Boxing	Hockey	Running	Shooting
L	1				3	
M		3	2			1
N		4		2		
O			3,5		4	4
P	5			6		
Q		6	1		2	

~~Case-2a~~

Persons	Archery	Badminton	Boxing	Hockey	Running	Shooting
L	2				3	
M		3	2			1
N		4		2		
O			3,4		5	4
P	5			6		
Q		6	1		2	

Here,

There is no person in the same rank in different games.

So we can fix it.

From the above conditions case-1 gets eliminated because there is no person in the same rank in different games, which is not satisfied.

Hence case-1a shows the final arrangement

~~Case-1~~

Persons	Archery	Badminton	Boxing	Hockey	Running	Shooting
L	1				3	4
M			2			1
N		3		4	5	2
O			3, 5		4	6
P	5			1		3
Q	4	6	1	3	2	5

Case-1a

Persons	Archery	Badminton	Boxing	Hockey	Running	Shooting
L	2	1	6	5	3	4
M	3	5	2	6	4	1
N	6	3	5	4	1	2
O	1	4	3	2	5	6
P	5	2	4	1	6	3
Q	4	6	1	3	2	5

Answer: C

20. Questions

Final arrangement:

@QuizByMickey

Persons	Archery	Badminton	Boxing	Hockey	Running	Shooting
L	2	1	6	5	3	4
M	3	5	2	6	4	1
N	6	3	5	4	1	2
O	1	4	3	2	5	6
P	5	2	4	1	6	3
Q	4	6	1	3	2	5

We have,

- In hockey P got either the highest or lowest rank and got two ranks either higher or lower than N in badminton.
- In Archery, L got three ranks higher than O in Running, who did not get the lowest ranks .
- M in shooting and Q in boxing got the same rank.

From the above conditions there are four possibilities.

Case- 1

Persons	Archery	Badminton	Boxing	Hockey	Running	Shooting
L	1					
M			2			1
N		3				
O			3, 5		4	
P				1		
Q			1			

Case-1a

Persons	Archery	Badminton	Boxing	Hockey	Running	Shooting
L	2					
M			2			1
N		3				
O			3, 4		5	
P				1		
Q			1			

Case- 2

Persons	Archery	Badminton	Boxing	Hockey	Running	Shooting
L	1					
M			2			1
N		4				
O			3,5		4	
P				6		
Q			1			

Case-2a

Persons	Archery	Badminton	Boxing	Hockey	Running	Shooting
L	2					
M			2			1
N		4				
O			3,4		5	
P				6		
Q			1			

@QuizByMickey

Again we have,

- The difference between the ranks of P in Archery and M in boxing is equal to the difference between the ranks of Q in badminton and L in Running.
- L doesn't get 1st rank in running.
- O in shooting got two ranks lower than N in hockey.
- Q in Running got three ranks higher than P in Archery.
- P got 5th rank in Archery.
- M in badminton got a lower rank than Q in hockey and immediately lower rank than N in hockey.

From the above conditions case-2 and case-2a get eliminated because M in badminton got a lower rank than Q in hockey and immediately lower rank than N in hockey, which is not satisfied.

Case- 1

Persons	Archery	Badminton	Boxing	Hockey	Running	Shooting
L	1				3	4
M		5	2			1
N		3		4		
O			3, 5		4	6
P	5			1		
Q		6	1	3	2	

Case-1a

Persons	Archery	Badminton	Boxing	Hockey	Running	Shooting
L	2				3	4
M		5	2			1
N		3		4		
O			3, 4		5	6
P	5			1		
Q		6	1	3	2	

~~Case- 2~~

Persons	Archery	Badminton	Boxing	Hockey	Running	Shooting
L	1				3	
M		3	2			1
N		4		2		
O			3,5		4	4
P	5			6		
Q		6	1		2	

~~Case-2a~~

Persons	Archery	Badminton	Boxing	Hockey	Running	Shooting
L	2				3	
M		3	2			1
N		4		2		
O			3,4		5	4
P	5			6		
Q		6	1		2	

Here,

There is no person in the same rank in different games.

So we can fix it.

From the above conditions case-1 gets eliminated because there is no person in the same rank in different games, which is not satisfied.

Hence case-1a shows the final arrangement

~~Case-1~~

Persons	Archery	Badminton	Boxing	Hockey	Running	Shooting
L	1				3	4
M			2			1
N		3		4	5	2
O			3, 5		4	6
P	5			1		3
Q	4	6	1	3	2	5

Case-1a

Persons	Archery	Badminton	Boxing	Hockey	Running	Shooting
L	2	1	6	5	3	4
M	3	5	2	6	4	1
N	6	3	5	4	1	2
O	1	4	3	2	5	6
P	5	2	4	1	6	3
Q	4	6	1	3	2	5

Answer: E (All the persons got an even numbered rank except option e)
