21. Questions

Read the following passage carefully and answer the questions that follow. Some questions may

@RankZen Banker

test your understanding of the passage, inference, vocabulary, tone, title, or statement-based comprehension. Choose the most appropriate option based on the information given in the passage.

Mango trees are among the most widely cultivated fruit trees in tropical and subtropical regions. They are valued not only for their tasty fruits but also for their economic importance. Effective mango orchard management involves scientific techniques and traditional farming practices. Farmers must carefully manage irrigation, pruning, pest control, nutrient application, and harvesting to ensure healthy growth and high-quality fruit production. Maintaining soil health is a key aspect of mango cultivation. Although chemical fertilizers can increase yields in the short term, excessive use may gradually reduce soil fertility. Therefore, agricultural experts encourage the use of organic manure and sustainable farming practices. Proper pruning improves sunlight penetration and air circulation, which helps reduce diseases and enhances fruit quality.

Climate conditions greatly influence mango production. Irregular rainfall, droughts, and extreme temperatures can adversely affect flowering and fruit development. To overcome these challenges, researchers are developing climate-resilient varieties that can **tolerate** environmental stress. In addition, technologies such as drip irrigation and moisture sensors help farmers use water and other resources more efficiently.

The mango industry contributes significantly to both local and global economies. Many countries export fresh mangoes as well as processed products such as juices, purees, dried slices, and frozen pulp. These activities create employment opportunities in farming, packaging, transportation, processing, and retail sectors. In many developing countries, mango cultivation is an important source of income for rural households.

@RankZen Banker

Global trade has enabled mango-producing nations to reach international markets. However, competition, quality standards, transportation costs, and supply chain disruptions continue to affect export performance. To remain competitive, producers must improve productivity, maintain quality, and adopt sustainable practices. Thus, mango cultivation supports agricultural development while also contributing to economic growth, employment generation, and international trade.

What is the primary purpose of the passage?

- a. To criticize modern agricultural practices
- b. To explain mango tree management and its economic importance

- The new housing program has benefited thousands of families and enabled them to live in safer conditions, to reduce the risk of homelessness and to improve their overall well-being.

3. Questions

@RankZen Banker

Answer: E

Sentence I: "should use... expressing... and avoid" is grammatically correct, with proper verb form and parallel structure.

Sentence II: "praised her for presenting her concerns" is correctly constructed.

The phrase "**in a respectful and well-organized manner throughout the letter**" clearly modifies **presenting her concerns**.

Hence, **both sentences are error-free**.

4. Questions

Answer: A

Sentence I:

- Error: Part (D) contains **who inspires**.
- Correction: The antecedent **individuals** is plural; therefore, **inspire** should be used.

Sentence II:

- **(E)** is incorrect because a modal verb (**can**) must be followed by the **base form** of the verb.
- can slowed should be can slow

Correct Sentences:

- The Padma Awards recognize individuals who have made exceptional contributions in various

fields, including arts, literature, science, and public service who inspire the nation.

- High unemployment rates can slow economic growth because reduced consumer spending negatively impacts businesses, investments, and overall market confidence.

5. Questions

Answer: B

Sentence I:

- **Part C:** "**contribute meaningful to society**" is incorrect.
- **Meaningful** is an adjective; here an adverb is needed to modify the verb **contribute**.
- Correct: "**contribute meaningfully to society**"

Sentence II:

- Error: Part (G) contains **and minimizing risks effectively**.
- Correction: For parallel structure after would, it should be **enhance speed and minimize risks effectively**.

Correct Sentences:

- Quality education empowers individuals to develop critical thinking, acquire practical skills, and contribute meaningfully to society through lifelong learning and innovation.
- The racing team analysed performance data carefully to identify weaknesses and develop strategies that would enhance speed and minimize risks effectively during future competitions.

6. Questions

@RankZen Banker

Answer: C

The sentence requires a pair that reflects positive outcomes of technological advancement.

- **a).** enhance - creating → Grammatically inconsistent (enhance + creating).

- a). Diverse – Varied → Both are synonyms of eclectic. ✓
- b). Uniform – Consistent → Opposite in meaning.
- c). Formal – Official → Unrelated.
- d). Limited – Restricted → Opposite in meaning.
- e). None of these → Incorrect.

The pair "**Diverse – Varied**" best represents the meaning of **eclectic**.

16. Questions

Answer: C

- **A + F:** □ "Rainwater harvesting systems help conserve water because they reduce dependence on groundwater sources."

- **C + D:** □ "We should repair the collection channels before the monsoon season begins."
- **Conclusion:** Only **A-F** and **C-D** form correct sentences.

17. Questions

Answer: D

A + D: Correct. ✓ "Organic manure improves soil fertility by increasing the organic content of the soil."

B + F: Correct. ✓ "Farmers were advised to rotate crops regularly to maintain soil health and productivity."

C + E: Correct. ✓ "Many students avoid junk food which contains excessive sugar and fat."

Conclusion: All three pairings are correct.

18. Questions

Answer: A

A + D: Correct. ✓ "The power supply was restored quickly after technicians repaired the damaged transformer."

B + F: Correct. ✓ "Many households depend on solar panels for generating electricity in remote areas."

C + E: Incorrect.

Conclusion: Only **A-D** and **B-F** are correct.

19. Questions

@RankZen Banker

Answer: B

A + D: Correct. ✓ "Passengers are requested to keep their tickets safely before boarding the bus."

B + E: Correct. ✓ "The conductor checked every ticket carefully because several complaints had been received."

C + F: Incorrect. "The bus reached the destination which were waiting at the counter." Illogical and grammatically incorrect.

Conclusion: Only **A-D** and **B-E** are correct.

20. Questions

Answer: B

A + D: Correct. ✓ "The principal appreciated the students for their outstanding performance in the competition."

C + F: Correct. ✓ "The school library remains open until six o'clock in the evening."

B + E: Incorrect. Several classrooms were renovated recently **when the annual examination were conducted**. ("were" should be **was** because **examination** is singular, and the sentence is contextually awkward.)

Conclusion: Only **A-D** and **C-F** are correct.

21. Questions

Answer: B

The passage mainly discusses scientific and sustainable practices used in mango cultivation while also highlighting the industry's contribution to employment, exports, rural income, and international trade. Since both orchard management and economic significance are covered extensively, option (b) best reflects the author's overall purpose and central idea.

22. Questions

Answer: D

The passage specifically mentions irrigation, pruning, pest control, nutrient management, and harvesting as essential practices in mango orchard management. These activities directly affect tree growth and fruit production. Mining activities are unrelated to agriculture and are never referred to in the passage, making option (d) the correct answer.

23. Questions

Answer: C

The author explains that excessive dependence on chemical fertilizers can gradually reduce soil fertility despite improving short-term yields. Organic manure helps maintain nutrient balance, improve soil quality, and support sustainable farming. Therefore, experts recommend integrating organic manure to ensure long-term productivity and healthier growing conditions for mango orchards.

24. Questions

Answer: B

@RankZen Banker

The passage states that excessive use of chemical fertilizers can reduce soil fertility over time, while organic manure and sustainable farming practices help maintain soil health. Healthy soil supports better crop growth and consistent yields over time. Thus, it can be inferred that sustainable farming practices improve long-term productivity.

25. Questions

Answer: D

In the passage, the word "**tolerate**" is used to describe climate-resilient mango varieties that can withstand environmental stress such as irregular rainfall, droughts, and extreme temperatures. Here, "**endure**" is the closest meaning because it refers to the ability to bear or survive difficult conditions without being seriously affected. Therefore, **option (d) Endure** is the correct answer.

26. Questions

Answer: D

The author presents facts about mango cultivation, climate challenges, technological developments, and economic contributions in a neutral and objective manner. There is no attempt to criticize, praise excessively, or entertain readers. The purpose is to provide knowledge and information, making the tone predominantly informative throughout the passage.

27. Questions

Answer: B

The passage explicitly mentions technological innovations such as drip irrigation and moisture sensors. These tools help farmers use resources efficiently and improve productivity. The remaining statements either contradict the passage or introduce information that is not mentioned, making option (b) the only correct choice.

28. Questions

Answer: C

A good title should capture the central themes of the passage. The author discusses orchard management practices, sustainable farming, climate-related challenges, and the economic role of mango cultivation in domestic and international markets. Therefore, option (c) accurately summarizes the entire passage better than any other choice.

29. Questions

Answer: B

The passage states that mango exports generate employment opportunities in farming, packaging, transportation, processing, and retail sectors. It also explains that global trade helps producers access international markets and contribute to economic growth. Therefore, option (b) best describes how mango cultivation supports the global economy and trade.

30. Questions

Answer: B

The word **eliminate** means to remove something gradually from use or existence.

Phase out means to discontinue or remove something progressively over time, which matches the context perfectly.

- **Bring up** = mention or raise a topic
- **Turn down** = reject or reduce
- **Put off** = postpone
- **Take after** = resemble someone

Therefore, **phase out** is the most suitable replacement.

31. Questions

Answer: E

The word **increased** refers to a rise in quantity or level.

Gone up means increased or risen and accurately conveys the same meaning.

- **Broken down** = stopped functioning
- **Carried on** = continued
- **Taken over** = assumed control
- **Brought about** = caused

Hence, **gone up** is the correct phrasal verb.

32. Questions

Answer: A

The word **maintain** means to preserve or continue something at the required level.

Keep up means to continue maintaining or preserving a particular standard, level, or condition, making it the best fit in the sentence.

- **Set off** = start a journey or trigger something
- **Look into** = investigate
- **Call off** = cancel
- **Give away** = donate or reveal

Therefore, **keep up** correctly replaces **maintain** without changing the meaning.
