

1. Questions

Below a passage is given with five filled blanks labelled (A-E), which may or may not be appropriate. Below the passage, five options are given for each blank. Choose the word that fits each blank appropriately in the context of the passage, and mark the corresponding answer.

[A] _____ (**Consistency**) Prime Minister of the U.K. Keir Starmer recently announced a policy to ban social media for children under-16. This was part of an arc of initiatives and announcements in Australia, Indonesia, Malaysia, France, and Canada to [B] _____ (**curb**) children's access to social media. This has [C] _____ (**debarred**) debates in India, especially at the State level, along the same lines.

The various [D] _____ (**proposals**) against a social media ban are not uniformly convincing. There is the argument that bans limit an "important source of information and learning" for children. However, the extent to which social media is used by children for learning is [E] _____ (**conjecturally**) arguable. It is also normatively questionable whether such platforms are an apt space for learning in the first place.

21. Questions

In the following question, a passage has been given and followed by several questions. You are required to answer the questions based on the information provided in the passage.

The Union government has moved to block WhatsApp's username feature, for which the Meta-owned messaging platform is currently taking reservations. In a notice to the social media platform, the Ministry of Electronics and Information Technology (MeitY) wrote that hiding phone numbers and only showing usernames "may **materially** increase the incidence of online fraud, phishing, digital arrest scams and impersonation attacks, by enabling bad actors to solicit and message victims". The notice has drawn comparisons to Telegram, which was banned for the week leading up to the NEET re-test on June 21. Telegram and WhatsApp's other widely used competitor, Signal, has featured a username feature that hides phone numbers for years.

The username feature on WhatsApp is not yet **rolled out**. Meta said in a statement that it would slowly roll out in the coming months. The feature essentially allows people to share just a username and an optional PIN with new contacts, with whom they may be hesitant to share their phone number. When receiving a message from a user who hides her phone number, Meta says, WhatsApp will display her country of origin, and tell users if they are already in the message receiver's phonebook. Meta said in its notice that the feature could "facilitate impersonation and identity spoofing, including impersonation of individuals, public authorities, financial institutions, and government agencies, by permitting the adoption of usernames closely resembling those of genuine persons or institutions". A WhatsApp spokesperson said that it had already "reserved" usernames of **prominent** personalities to prevent their use by scammers.

Telegram's username feature works by allowing anyone to select a username and allowing anyone who has the username to message someone with just this information. "If you are not comfortable with this, we advise against setting a username on Telegram," the messaging company says on its website. Just like WhatsApp, using a Telegram username does not expose users' phone numbers unless they have enabled exposing it in the app's settings.

Telegram has fleshed out its username settings over time. For instance, the app maintains a rolling auction for short and memorable usernames on the blockchain site Fragment. It also allows users to claim inactive usernames if a user already has the same username on two large social media platforms. Telegram's username feature was not a prominent part of the blocking it underwent last month. The reason was mainly that some Telegram "channels" (which are easier to run there than on WhatsApp) were able to slip in a finished exam's question paper PDF as though it were a message sent days prior. This, the government argued, could create panic that a leak had taken place. In both the Telegram and WhatsApp cases, the government has shown an increased willingness to veto architectural choices by the platform as part of regulating cyberspace. WhatsApp has been directed to delay the username feature until "consultations" between Meta and the government are done to the latter's "satisfaction"

The word "materially", as used in the first paragraph, is closest in meaning to _____.

- a. Temporarily
- b. Artificially
- c. Significantly
- d. Casually
- e. Both C and D

One of the defining characteristics of the government's digital approach has been the creation of Digital Public Infrastructure (DPI).

12. Questions

Answer: E

The district hospital has been treating infectious diseases since the new isolation ward became operational.

13. Questions

Answer: C

@RankZen Banker

"Correspondent" is incorrect here. It should be "correspondence."

Corrected sentence:

Scientific literature is full of intense debates regarding a clear and uniform correspondence between children's usage of social media and harmful experiences.

14. Questions

Answer: B

The sentence uses "vulnerability" where the adjective form "vulnerable" is needed

Corrected sentence:

India's freight runs largely on diesel, leaving the economy vulnerable to global oil-price shocks and exchange-rate volatility.

15. Questions**Answer: C**

After modals (could, would, should), use the base form of the verb. Thus, it should be "become."

Corrected sentence:

Many a researcher has warned that antibiotic resistance could become a serious global challenge.

16. Questions**Answer: B**

1-3, 'identity and groups' need to be interchanged to make the sentence contextually and grammatically correct.

20. Questions

@RankZen Banker

Answer: C

Both 1-4 and 2-3, 'management and climate', 'cities and measures' need to be interchanged to make the sentence contextually and grammatically correct.

The corrected sentence is:

India needs stronger **climate** adaptation **measures** through heat-resilient **cities**, worker protection and better water **management**.

21. Questions

Answer: C

In the phrase "may materially increase the incidence...", materially means to a significant or substantial extent. "Significantly" best matches the contextual meaning.

- **Option A:** "Temporarily" refers to duration.
- **Option B:** "Artificially" means unnaturally or by human intervention.
- **Option D:** "Casually" means informally or carelessly.

22. Questions

Answer: A

The passage objectively explains the government's concerns, compares WhatsApp with Telegram, and discusses policy implications without emotional language.

- **Option B:** There is no emotional reflection or nostalgia.
- **Option C:** The passage contains neither humour nor satire.
- **Option D:** The author neither celebrates the feature nor expresses optimism about it.

23. Questions

Answer: A

The passage states that MeitY fears hiding phone numbers behind usernames may increase phishing, impersonation, digital arrest scams, and online fraud.

- **Option B:** The passage never discusses ending encryption or links the issue to encrypted messaging.
- **Option C:** No technical incompatibility with telecom regulations is mentioned anywhere.
- **Option D:** The passage contains no reference to Aadhaar-based identification.

24. Questions

Answer: D

The final paragraph explicitly mentions that the government has shown an increased willingness to veto architectural choices made by digital platforms.

- **Option A:** The rollout has only been delayed pending consultations.
- **Option B:** No such agreement among messaging platforms is mentioned.
- **Option C:** Telegram has had the feature for years, much earlier than WhatsApp.
- **Option E:** The passage compares different platforms, showing differences rather than identical settings.

@RankZen Banker

25. Questions

Answer: B

Here, roll out means to introduce or launch a product or feature for public use.

- **Option A:** The passage discusses introducing the feature, not withdrawing it.
- **Option C:** No secret modification of the feature is mentioned.
- **Option D:** The feature has been delayed, but "rolled out" itself does not mean suspended.

26. Questions

Answer: A

The concluding paragraph states that the government has shown an "increased willingness to veto architectural choices" of platforms.

- **Option B:** No such acceptance by messaging platforms is mentioned.
- **Option C:** The passage never claims Telegram is the principal cause of cybercrime.
- **Option D:** Meta has only delayed the rollout; it has not abandoned the feature.
- **Option E:** The passage discusses one specific feature rather than a blanket prohibition on anonymity.

27. Questions

Answer: E

In the passage, prominent personalities refers to famous or widely recognised individuals. "Obscure" means little known or not widely recognised, making it the opposite.

- **Option A:** "Recognised" also conveys public familiarity.
- **Option B:** "Influential" is closely associated with prominence.
- **Option D:** "Well-known" is nearly synonymous with prominent.

28. Questions

Answer: A

Statement I: Telegram usernames can be used without exposing phone numbers unless users change the settings.

Statement II: WhatsApp proposes displaying the sender's country of origin when the phone number is hidden.

Statement III: Telegram's temporary blocking was linked mainly to concerns over exam-paper circulation through channels, not its username feature.

29. Questions

Answer: D

The passage explains how Telegram's username feature works but does not provide any statistical data regarding how many users actually enable or use it.

- **Option A:** The passage explicitly describes Telegram's username system.
- **Option B:** The passage mentions that Meta has reserved usernames of prominent personalities.

30. Questions

Answer: E

India **has made remarkable progress in** transforming its energy landscape over the past decade.

31. Questions

Answer: D

The correct comparative preposition after "prefer" for contrasting two activities is "to."

- **Corrected sentence:**

The child **prefers reading adventure stories to** watching television.

32. Questions

Answer: B

Subject-verb agreement requires the verb to agree with the true subject.
