

1. Questions

Study the following information carefully and answer the given questions.

Eight persons - A, B, C, D, E, F, G and H were born in different years - 1988, 1990, 1993, 1994, 1997, 1999, 2004, and 2005. The ages of the persons are calculated with respect to the year 2026.

A is two years older than D. The number of persons older than D is **the same as** younger than H. C is four years younger than B. The age difference between C and E is a multiple of 3. At least three years are between G and F, whose age is not a perfect cube.

C was born in which of the following year?

- a. 2005
- b. 1999
- c. 1997
- d. 1994
- e. 1988

2. Questions

What is the difference between the ages of F and D?

- a. 6 years
- b. 15 years
- c. 4 years
- d. 1 years
- e. None of these

@RankZenBanker

3. Questions

Who among the following person was immediate younger to A?

- a. The one who was born in 1993
- b. B
- c. H
- d. E
- e. The one whose age is 36

4. Questions

Who among the following person's age is a multiple of 11?

- a. H

- b. D
- c. E
- d. F
- e. G

5. Questions

Which of the following statement(s) is/are TRUE with respect to the final arrangement?

- a. D is the eldest person
- b. B was born immediately before C
- c. Only two persons were born between G and D
- d. E's age is 32
- e. Age of F is a prime number

6. Questions

Study the following information carefully and answer the given questions.

A certain number of persons are sitting in a linear row such that all of them are facing towards the north.

Only four persons sit between P and V. V sits second to the left of M. As many persons sit between M and P as between I and Q, who sits to the left of I. I sits second to the left of V. N, who sits at the extreme end, sits three places away from Q and N sits immediate to the left of J. The one who sits fourth to the right of the one who sits immediate to the right of V, sits at the end. L sits to the immediate right of P.

How many persons are sitting in the row with respect to the final arrangement?

- a. 20
- b. 22
- c. 19
- d. 18
- e. 14

7. Questions

What is the position of M from the extreme right end?

- a. Fourth
- b. Fifth
- c. Sixth
- d. Eighth
- e. None of these

8. Questions

What is the position of Q with respect to N as per the final arrangement?

- a. Fourth to the right
- b. Second to the right
- c. Fifth to the right
- d. Immediate to the right
- e. Third to the right

9. Questions

How many persons are sitting between J and L?

- a. Eight
- b. Nine
- c. Six
- d. Ten
- e. Two

10. Questions

@RankZenBanker

If M is related to V and J is related to Q in a certain way. Then, who among the following person is related to L?

- a. P
- b. I
- c. V
- d. Q
- e. J

11. Questions

Study the following information carefully and answer the given questions.

Ten persons, viz., L, M, N, O, P, Q, R, S, T and U are sitting on a pentagon-shaped table and facing the center of the table. Five persons sit at the corners while five persons sit in the middle of the sides.

P sits second to the left of O. Only one person sits between P and S, who sits to the immediate right of L. Two persons sit between L and R. T sits third to the left of R, who doesn't sit adjacent to M. As many persons sit between M and U as between U and N, who is not adjacent to S. Q does not sit at the corner.

Who among the following person sits to the immediate right of T?

- a. P

- b. N
- c. U
- d. Q
- e. O

12. Questions

How many persons sit between S and Q, when counted from the right of Q?

- a. Four
- b. Two
- c. Six
- d. One
- e. Three

13. Questions

If all the persons are made to sit in alphabetical order from L in an anticlockwise direction, then who among the following person remains unchanged in their position (excluding L)?

- a. Two
- b. Four
- c. Three
- d. Five
- e. One

@RankZenBanker

14. Questions

Four of the following five are alike in a certain way based on the final arrangement and thus form a group. Which one of the following does not belong to the group?

- a. RS
- b. UN
- c. OM
- d. SQ
- e. PL

15. Questions

Who among the following person sits third to the left of M?

- a. L

- b. Q
- c. U
- d. O
- e. R

16. Questions

Study the following information carefully and answer the given questions.

Nine persons viz., P, Q, R, S, T, U, V, W and X are living in the three storey building, where the lowermost floor is numbered as one and the floor immediately above it is numbered as two and so on.

Note-I: Each floor has three types of flats viz., Flat-1, Flat-2 and Flat-3, where Flat 1 is to the west of flat 2 and flat 2 is to the west of flat 3.

Note-II: Flat 2 of floor 2 is immediately above Flat 2 of floor 1 and immediately below Flat 2 of floor 3 and so on. Similarly, Flat 1 of floor 2 is immediately above Flat 1 of floor 1 and immediately below Flat 1 of floor 3 and so on.

Note-III: The area of each flat is same.

Note-IV: Only two persons live on each floor and only one person lives in each flat.

Only one floor is between T and S, who lives in an even numbered flat. R lives to the immediate west of T and doesn't live on the topmost floor. Q lives two floors above R. Only one floor is between X and V, both live in same type of flat. U lives immediately below X but not in the same type of flat. P lives to the west of U. W does not live in the odd numbered flat

Who among the following person lives in the same type of flat with P?

I). R

II). V

III). S

- a. Both I and III
- b. Only III
- c. Both II and III
- d. Only II
- e. All I, II and III

17. Questions

Who among the following person lives immediately above T in the same type of flat?

- a. The person who lives immediate west of Q
- b. P

- c. The person who lives immediate northeast of R
- d. X
- e. V

18. Questions

In which of the following floor and flat does Q live?

- a. Floor 3, flat 2
- b. Floor 3, flat 3
- c. Floor 2, flat 1
- d. Floor 1, flat 3
- e. Floor 1, flat 1

19. Questions

Four of the following five are alike in a certain way based on the given arrangement and thus form a group. Which one of the following does not belong to the group?

- a. T
- b. R
- c. S
- d. Q
- e. P

@RankZenBanker

20. Questions

If P is related to R and S is related to U in a certain way, then who among the following person is related to W?

- a. Q
- b. V
- c. X
- d. R
- e. U

21. Questions

Study the following information carefully and answer the given questions.

In a certain code language

“Lion Tiger Cheetah Fox” is coded as ‘nl hc rt of’

“Hyena Fox Jaguar Lion” is coded as ‘za of hc eg’

“Rhyno Bear Tiger Zebra” is coded as ‘hr er nl ah’

“Zebra Jaguar Lion Giraffe” is coded as ‘rj za ah hc’

(NOTE: All the given codes are two-letters codes only)

What is the code for the word ‘Tiger’ in the given coded language?

- a. er
- b. hr
- c. hc
- d. nl
- e. rt

22. Questions

Which of the following word is coded as “rj” in the given coded language?

- a. Lion
- b. Giraffe
- c. Bear
- d. Cheetah
- e. Fox

@RankZenBanker

23. Questions

What is the code for the phrase “Jaguar Hyena” in the given code language?

- a. eg za
- b. za rt
- c. eg nl
- d. Either a or b
- e. Either b or c

24. Questions

What is the code for the phrase ‘Fox Bear’ in the given coded language?

- a. er of
- b. of hr
- c. eg rj
- d. er hr

e. Cannot be determined

25. Questions

If the phrase 'Rhyno Cheetah' is coded as 'er rt' then what may be the code for the phrase 'Bear Lion' in the given coded language?

- a. hr nl
- b. rt hr
- c. hr hc
- d. ah rt
- e. eg of

26. Questions

In the given questions, the relationship between different elements is shown in the statements followed by two conclusions. Find the conclusion which is definitely true.

Statement:

$$A = E \leq I < O; V \geq Q \leq R = J; J < N > P > O$$

Conclusion:

I: $N \geq Q$

II: $A < P$

- a. Only conclusion II is true
- b. Either conclusion I or II is true
- c. Both conclusions I and II are true
- d. Only conclusion I is true
- e. Neither conclusion I nor II is true

@RankZenBanker

27. Questions

Statement:

$$I = Q \leq K \geq P; L < T < Q \geq Z; V > Z = B \leq C$$

Conclusion:

I: $I > V$

II: $B \leq K$

- a. Only conclusion II is true
- b. Either conclusion I or II is true

- c. Both conclusions I and II are true
- d. Only conclusion I is true
- e. Neither conclusion I nor II is true

28. Questions

Statement:

$J < S > T = I; I \geq M = P > U; Y = S \leq R \leq Q$

Conclusion:

I: $U < Y$

II: $T \geq P$

- a. Only conclusion II is true
- b. Either conclusion I or II is true
- c. Both conclusions I and II are true
- d. Only conclusion I is true
- e. Neither conclusion I nor II is true

29. Questions

@RankZenBanker

Statement:

$B = Q > Y < T; L = V = J < Y; A > V \geq P < I$

Conclusion

I: $P < J$

II: $J \leq P$

- a. Only conclusion II is true
- b. Either conclusion I or II is true
- c. Both conclusions I and II are true
- d. Only conclusion I is true
- e. Neither conclusion I nor II is true

30. Questions

Statement:

$A < K > C \leq I; W \leq L \geq Y = K; V = P \leq W = N$

Conclusion:

I: $Y > I$

II: N < L

- a. Only conclusion II is true
- b. Either conclusion I or II is true
- c. Both conclusions I and II are true
- d. Only conclusion I is true
- e. Neither conclusion I nor II is true

31. Questions

Study the following information carefully and answer the given questions.

D has only two children. B is the only son-in-law of D. N is the brother-in-law of B, who does not have siblings. Y is the nephew of N. A is the only cousin of Y. A is the grandson of G, who has only one daughter-in-law. C is the sister-in-law of M, who has two children of opposite gender. The gender of I and G is the same and I is the sibling of Y. M is the one of the children of G, whose child has not more than one sibling. N's wife does not have any siblings.

Which of the following statement(s) is/are true with respect to the given arrangement?

- a. D is the grandfather of I
- b. D is the mother of Y
- c. A is the daughter of C
- d. N has two children
- e. A is the niece of M

@RankZenBanker

32. Questions

What is the relationship between M and N?

- a. Father, Son
- b. Brother-in-law, sister-in-law
- c. Brother, Sister
- d. Grandfather, grandson
- e. Cannot be determined

33. Questions

If A is married to W, then how is W related to N?

- a. Son-in-law
- b. Daughter
- c. Sister

- d. Brother
- e. Daughter-in-law

34. Questions

Study the following information carefully and answer the questions given below:

L is the only son of O, who is the daughter of P. P is not the father-in-law of K, whose spouse has only one sibling. P is the parent of G. K is the brother-in-law of G, who is unmarried. G is the maternal aunt of H, who is the only daughter of K. R is the spouse of P and has only two daughters.

If G is married to F, then how is F related to O based on the given information?

- a. Paternal Uncle
- b. Brother-in-law
- c. Father
- d. Maternal Uncle
- e. Cannot be determined

35. Questions

How many male members are there in the family?

- a. Three
- b. Seven
- c. Six
- d. Five
- e. None of these

@RankZenBanker

36. Questions

Study the following information carefully and answer the given questions.

P T \$ V = I Q J M ? Z A > N G U # B < E * K S D) O + R

If all the letters which come before L in the alphabetical series are dropped from the given series, then which of the following element is seventeenth from the left end?

- a. O
- b. +
- c.)
- d. *
- e. S

37. Questions

How many such consonants are there in the given series each of which is immediately preceded by a symbol and immediately followed by a vowel?

- a. Three
- b. One
- c. Five
- d. Four
- e. Two

38. Questions

Which of the following element is tenth to the left of the fourth element from the right end in the given series?

- a. N
- b. U
- c. #
- d. G
- e. B

@RankZenBanker

39. Questions

If all the symbols in the given series are dropped, then what is the position of the second vowel from the left end?

- a. Tenth
- b. Eleventh
- c. Eighth
- d. Seventh
- e. Ninth

40. Questions

If the last fifteen elements in the above series are written in reverse order, then which of the following element is fifteenth to the right of the eighth element from the left end?

- a. <
- b. N
- c. U
- d. B

e. S

Explanations:

1. Questions

Final Arrangement:

Years	Age	Persons
1988	38	A
1990	36	D
1993	33	B
1994	32	E
1997	29	C
1999	27	G
2004	22	H
2005	21	F

@RankZenBanker

We have,

- A is two years older than D.
- The number of persons older than D **is the same as** younger than H.

From the above conditions, there are two possibilities:

Years	Age	Persons	
		Case 1	Case 2
1988	38	A	
1990	36	D	
1993	33		H
1994	32		
1997	29		A
1999	27		D
2004	22	H	
2005	21		

Again we have,

- C is four years younger than B.
- The age difference between C and E is a multiple of 3.

@RankZenBanker

Years	Age	Persons	
		Case 1	Case 2
1988	38	A	E
1990	36	D	B
1993	33	B	H
1994	32	E	C
1997	29	C	A
1999	27		D
2004	22	H	
2005	21		

Again we have,

- At least three years are between G and F, whose age is not a perfect cube.

From the above condition Case-2 gets eliminated because at least three years are between G and F, whose age is not a perfect cube, which is not satisfied.

Hence, Case-1 shows the final arrangement.

Years	Age	Persons	
		Case 1	Case 2
1988	38	A	E
1990	36	D	B
1993	33	B	H
1994	32	E	C
1997	29	C	A
1999	27	G	D
2004	22	H	G/F
2005	21	F	F/G

@RankZenBanker

Answer: C

2. Questions

Final Arrangement:

Years	Age	Persons
1988	38	A
1990	36	D
1993	33	B
1994	32	E
1997	29	C
1999	27	G
2004	22	H
2005	21	F

We have,

- A is two years older than D.
- The number of persons older than D **is the same as** younger than H.

From the above conditions, there are two possibilities:

@RankZenBanker

Years	Age	Persons	
		Case 1	Case 2
1988	38	A	
1990	36	D	
1993	33		H
1994	32		
1997	29		A
1999	27		D
2004	22	H	
2005	21		

Again we have,

- C is four years younger than B.
- The age difference between C and E is a multiple of 3.

Years	Age	Persons	
		Case 1	Case 2
1988	38	A	E
1990	36	D	B
1993	33	B	H
1994	32	E	C
1997	29	C	A
1999	27		D
2004	22	H	
2005	21		

Again we have,

@RankZenBanker

- At least three years are between G and F, whose age is not a perfect cube.

From the above condition Case-2 gets eliminated because at least three years are between G and F, whose age is not a perfect cube, which is not satisfied.

Hence, Case-1 shows the final arrangement.

Years	Age	Persons	
		Case 1	Case 2
1988	38	A	E
1990	36	D	B
1993	33	B	H
1994	32	E	C
1997	29	C	A
1999	27	G	D
2004	22	H	G/F
2005	21	F	F/G

Answer: B

3. Questions

@RankZenBanker

Final Arrangement:

Years	Age	Persons
1988	38	A
1990	36	D
1993	33	B
1994	32	E
1997	29	C
1999	27	G
2004	22	H
2005	21	F

We have,

- A is two years older than D.

- The number of persons older than D **is the same as** younger than H.

From the above conditions, there are two possibilities:

Years	Age	Persons	
		Case 1	Case 2
1988	38	A	
1990	36	D	
1993	33		H
1994	32		
1997	29		A
1999	27		D
2004	22	H	
2005	21		

@RankZenBanker

Again we have,

- C is four years younger than B.
- The age difference between C and E is a multiple of 3.

Years	Age	Persons	
		Case 1	Case 2
1988	38	A	E
1990	36	D	B
1993	33	B	H
1994	32	E	C
1997	29	C	A
1999	27		D
2004	22	H	
2005	21		

Again we have,

- At least three years are between G and F, whose age is not a perfect cube.

From the above condition Case-2 gets eliminated because at least three years are between G and F, whose age is not a perfect cube, which is not satisfied.

Hence, Case-1 shows the final arrangement.

Years	Age	Persons	
		Case 1	Case 2
1988	38	A	E
1990	36	D	B
1993	33	B	H
1994	32	E	C
1997	29	C	A
1999	27	G	D
2004	22	H	G/F
2005	21	F	F/G

Answer: E

1990	36	D	B
1993	33	B	H
1994	32	E	C
1997	29	C	A
1999	27	G	D
2004	22	H	G/F
2005	21	F	F/G

Answer: D

6. Questions

@RankZenBanker

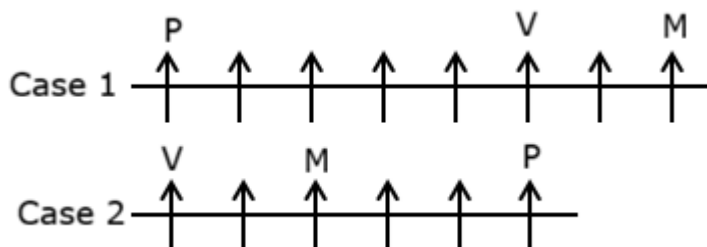

Final Arrangement:

We have,

- Only four persons sit between P and V.
- V sits second to the left of M.

From the above conditions, there are two possibilities:

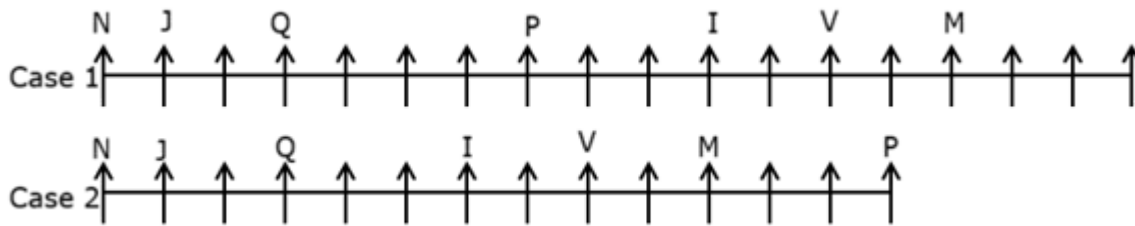

Again we have,

- As many persons sit between M and P as between I and Q, who sits to the left of I.
- I sits second to the left of V.
- N, who sits at the extreme end, sits three places away from Q and sits immediate to the left of

J.

- The one who sits fourth to the right of the one who sits immediate to the right of V, sits at the end.

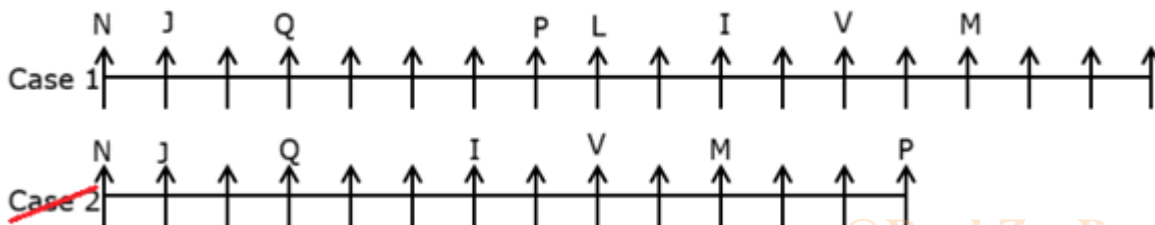

Again we have,

- L sits to the immediate right of P.

From the above conditions Case-2 gets eliminated because L sits to the immediate right of P, which is not satisfied.

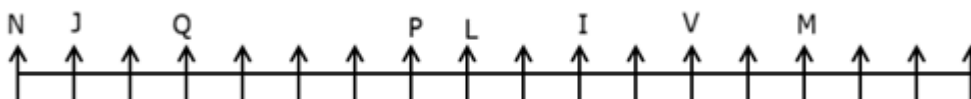

Hence, Case-1 shows the final arrangement.

Answer: D

7. Questions

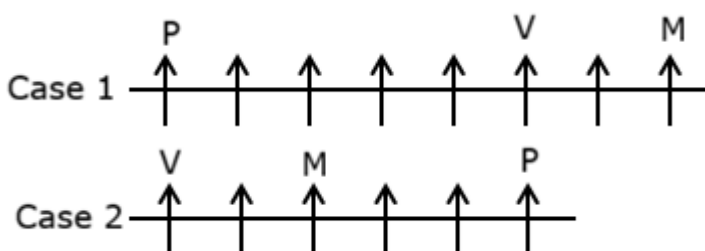

Final Arrangement:

We have,

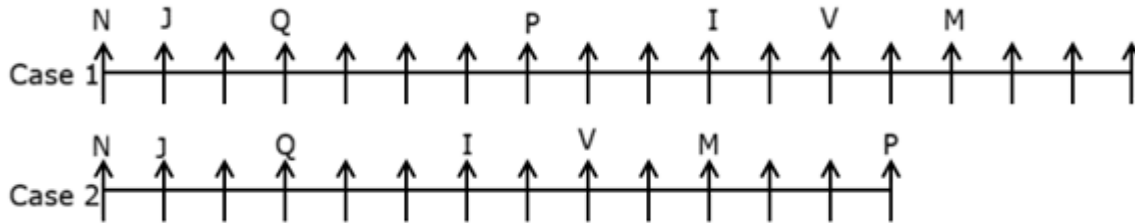

- Only four persons sit between P and V.
- V sits second to the left of M.

From the above conditions, there are two possibilities:

Again we have,

- As many persons sit between M and P as between I and Q, who sits to the left of I.
- I sits second to the left of V.
- N, who sits at the extreme end, sits three places away from Q and sits immediate to the left of J.
- The one who sits fourth to the right of the one who sits immediate to the right of V, sits at the end.

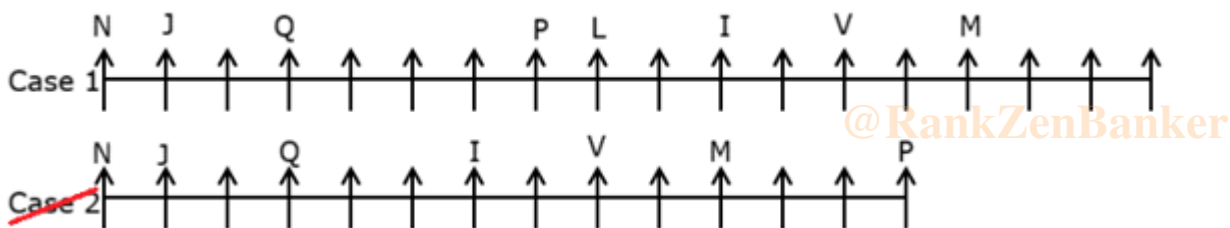

Again we have,

- L sits to the immediate right of P.

From the above conditions Case-2 gets eliminated because L sits to the immediate right of P, which is not satisfied.

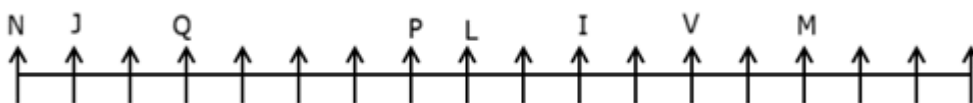

Hence, Case-1 shows the final arrangement.

Answer: A

8. Questions

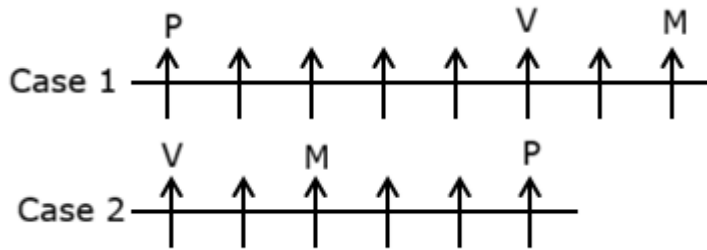

Final Arrangement:

We have,

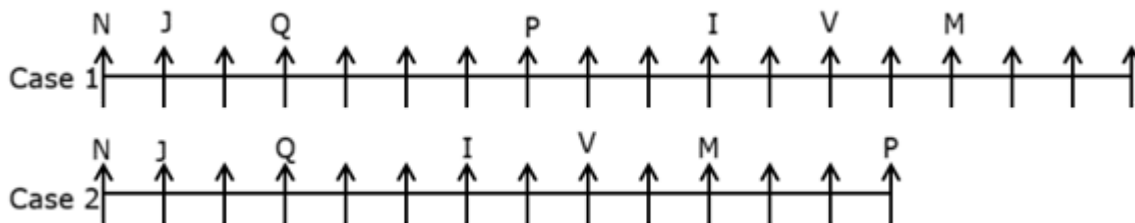

- Only four persons sit between P and V.
- V sits second to the left of M.

From the above conditions, there are two possibilities:

Again we have,

- As many persons sit between M and P as between I and Q, who sits to the left of I.
- I sits second to the left of V.
- N, who sits at the extreme end, sits three places away from Q and sits immediate to the left of J.
- The one who sits fourth to the right of the one who sits immediate to the right of V, sits at the end.

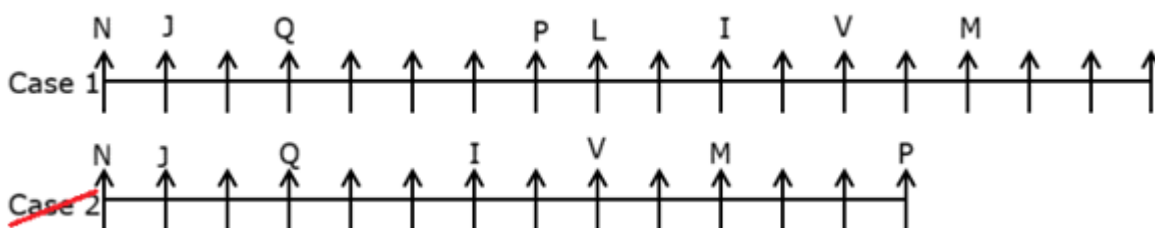

Again we have,

- L sits to the immediate right of P.

@RankZenBanker

From the above conditions Case-2 gets eliminated because L sits to the immediate right of P, which is not satisfied.

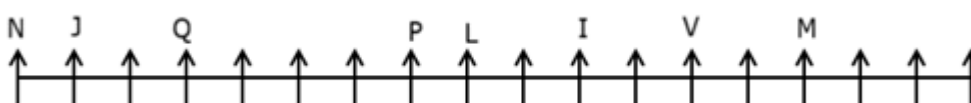

Hence, Case-1 shows the final arrangement.

Answer: E

9. Questions

Final Arrangement:

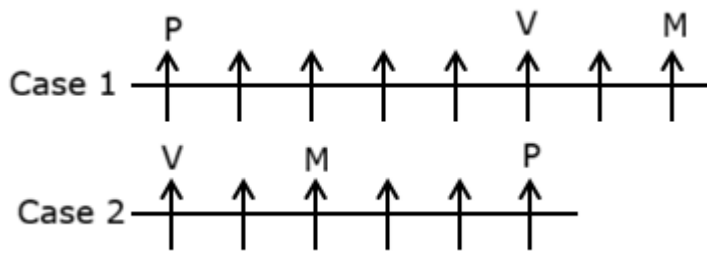

We have,

- Only four persons sit between P and V.

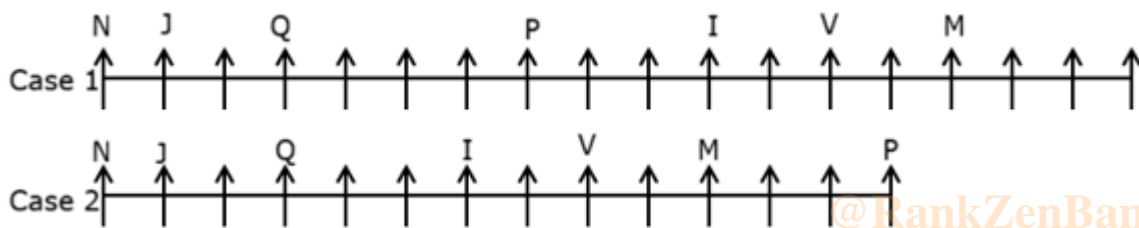

- V sits second to the left of M.

From the above conditions, there are two possibilities:

Again we have,

- As many persons sit between M and P as between I and Q, who sits to the left of I.
- I sits second to the left of V.
- N, who sits at the extreme end, sits three places away from Q and sits immediate to the left of J.
- The one who sits fourth to the right of the one who sits immediate to the right of V, sits at the end.

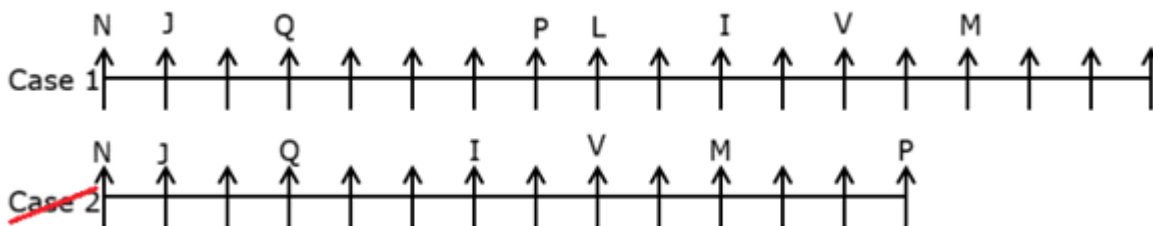

Again we have,

- L sits to the immediate right of P.

From the above conditions Case-2 gets eliminated because L sits to the immediate right of P, which is not satisfied.

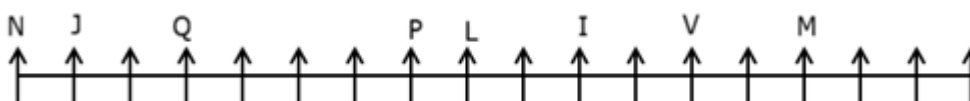

Hence, Case-1 shows the final arrangement.

Answer: C

10. Questions

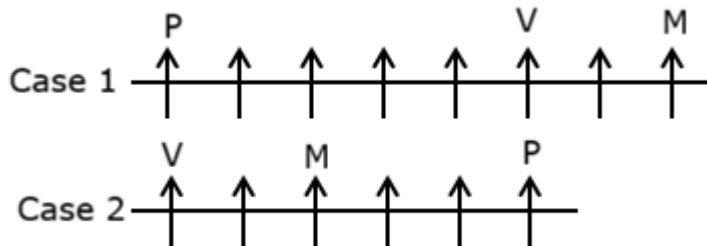

Final Arrangement:

We have,

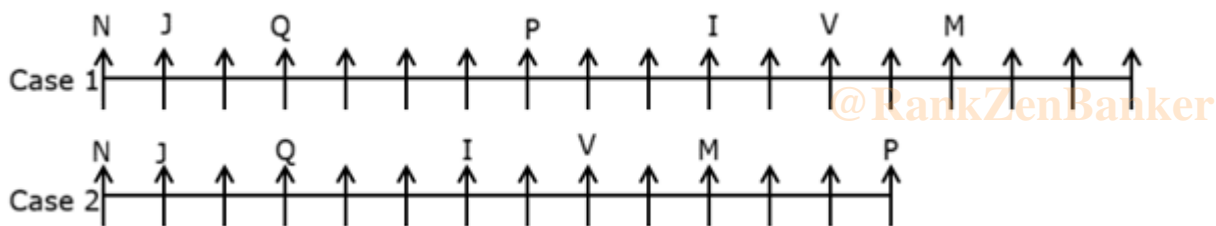

- Only four persons sit between P and V.
- V sits second to the left of M.

From the above conditions, there are two possibilities:

Again we have,

- As many persons sit between M and P as between I and Q, who sits to the left of I.
- I sits second to the left of V.
- N, who sits at the extreme end, sits three places away from Q and sits immediate to the left of J.
- The one who sits fourth to the right of the one who sits immediate to the right of V, sits at the end.

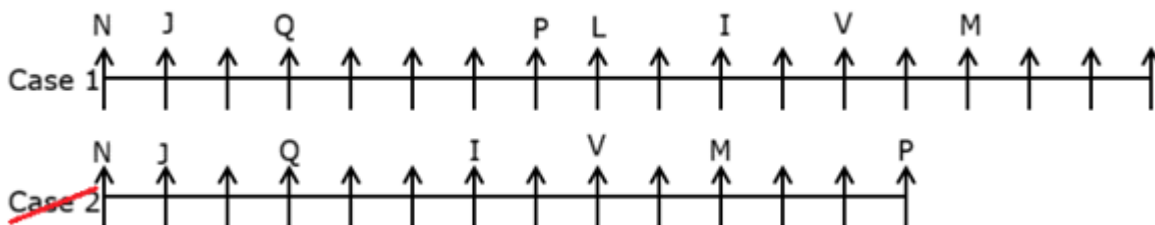

Again we have,

- L sits to the immediate right of P.

From the above conditions Case-2 gets eliminated because L sits to the immediate right of P, which is not satisfied.

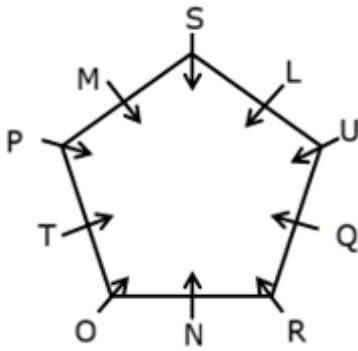

Hence, Case-1 shows the final arrangement.

Answer: B (Only one person sits between both of them)

11. Questions

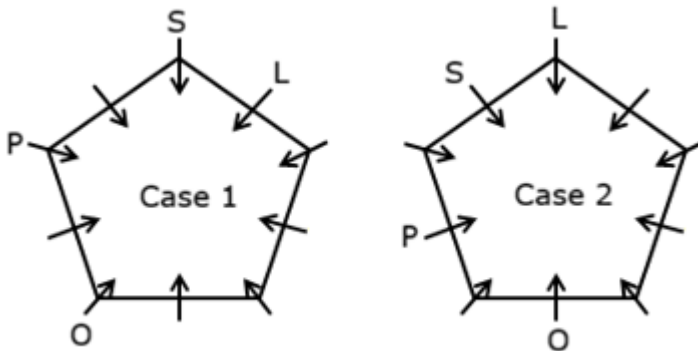

Final Arrangement:

We have,

- P sits second to the left of O.
- Only one person sits between P and S, who sits to the immediate right of L.

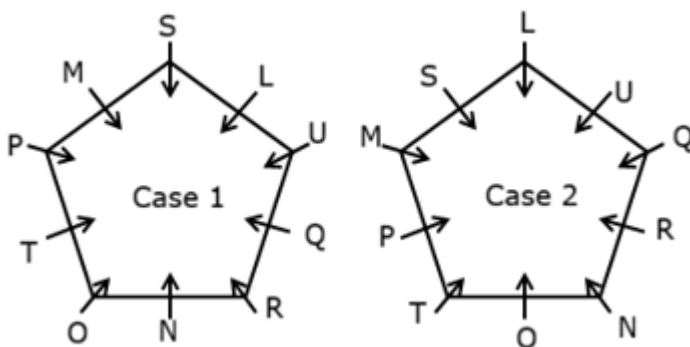

From the above conditions, there are two possibilities:

@RankZenBanker

Again we have,

- Two persons sit between L and R.
- T sits third to the left of R, who doesn't sit adjacent to M.
- As many persons sit between M and U as between U and N, who is not adjacent to S.

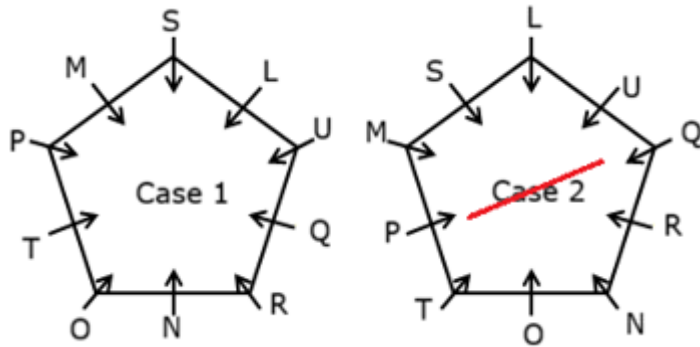

Again we have,

- Q does not sit at the corner.

From the above conditions Case-2 gets eliminated because Q does not sit at the corner, which is not satisfied.

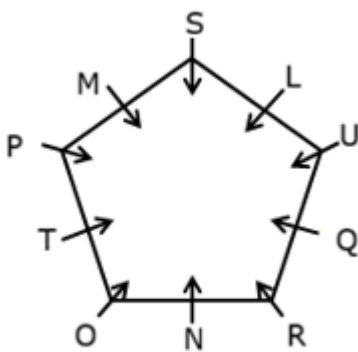

Hence, Case-1 shows the final arrangement.

Answer: E

12. Questions

Final Arrangement:

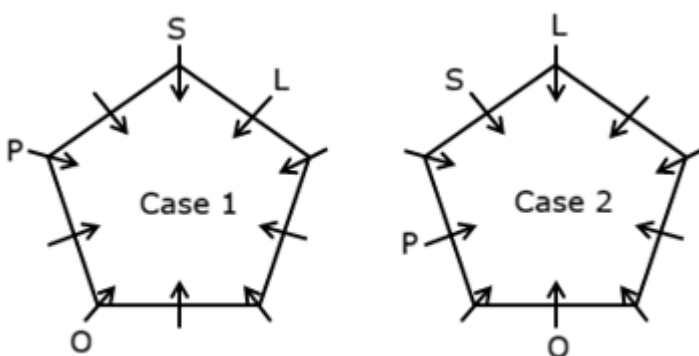

@RankZenBanker

We have,

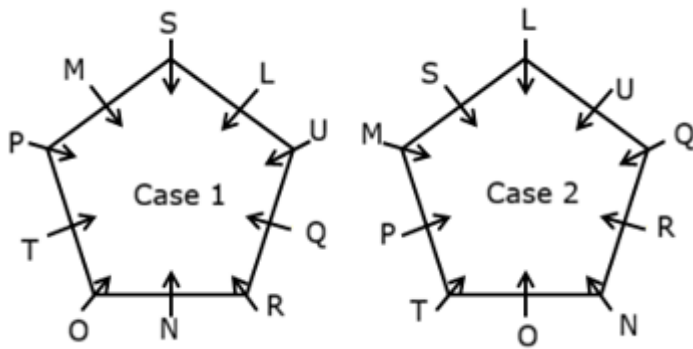

- P sits second to the left of O.
- Only one person sits between P and S, who sits to the immediate right of L.

From the above conditions, there are two possibilities:

Again we have,

- Two persons sit between L and R.
- T sits third to the left of R, who doesn't sit adjacent to M.
- As many persons sit between M and U as between U and N, who is not adjacent to S.

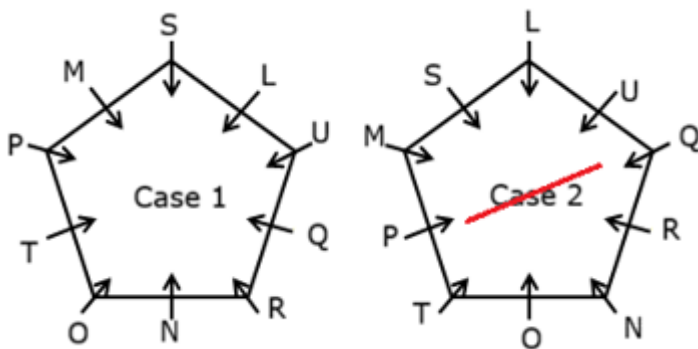

Again we have,

- Q does not sit at the corner.

From the above conditions Case-2 gets eliminated because Q does not sit at the corner, which is not satisfied.

Hence, Case-1 shows the final arrangement.

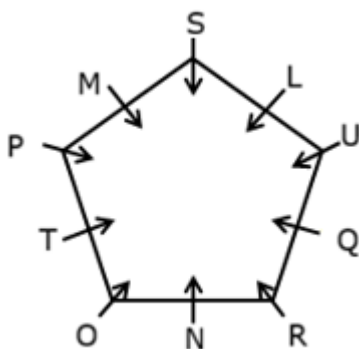

@RankZenBanker

Answer: B

13. Questions

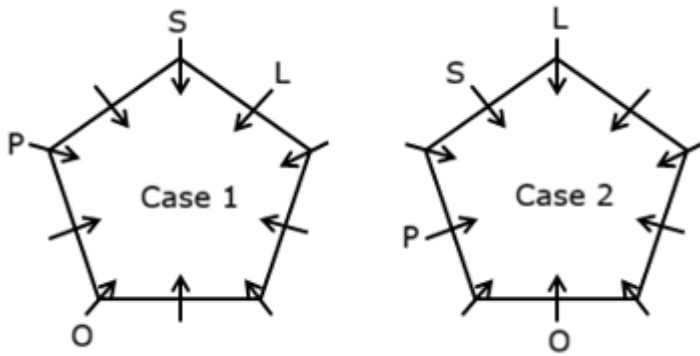

Final Arrangement:

We have,

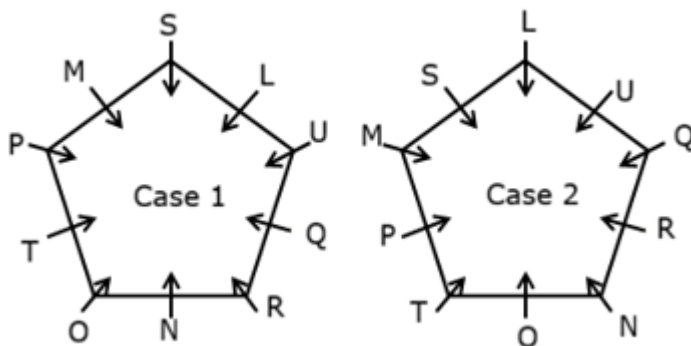

- P sits second to the left of O.
- Only one person sits between P and S, who sits to the immediate right of L.

From the above conditions, there are two possibilities:

Again we have,

- Two persons sit between L and R.
- T sits third to the left of R, who doesn't sit adjacent to M.
- As many persons sit between M and U as between U and N, who is not adjacent to S.

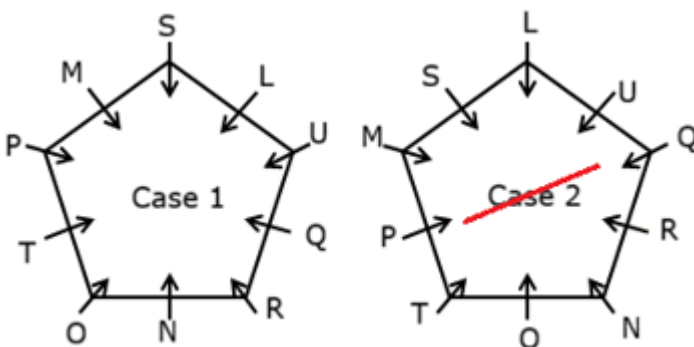

@RankZenBanker

Again we have,

- Q does not sit at the corner.

From the above conditions Case-2 gets eliminated because Q does not sit at the corner, which is not satisfied.

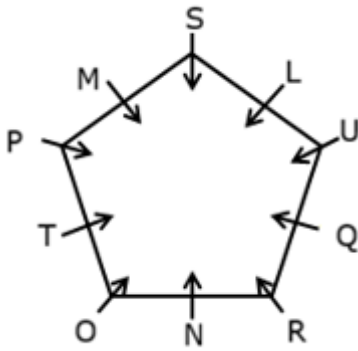

Hence, Case-1 shows the final arrangement.

Answer: E (U remain unchanged)

14. Questions

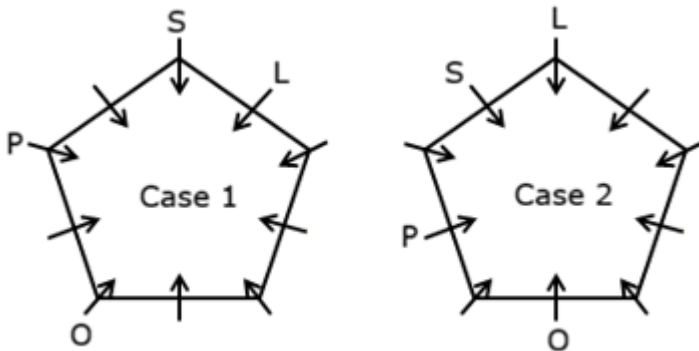

Final Arrangement:

We have,

- P sits second to the left of O.
- Only one person sits between P and S, who sits to the immediate right of L.

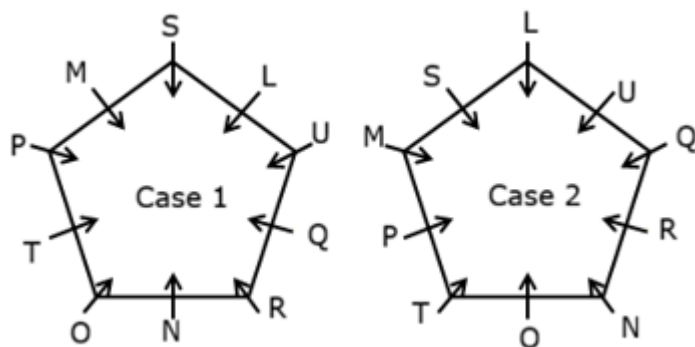

From the above conditions, there are two possibilities:

@RankZenBanker

Again we have,

- Two persons sit between L and R.
- T sits third to the left of R, who doesn't sit adjacent to M.
- As many persons sit between M and U as between U and N, who is not adjacent to S.

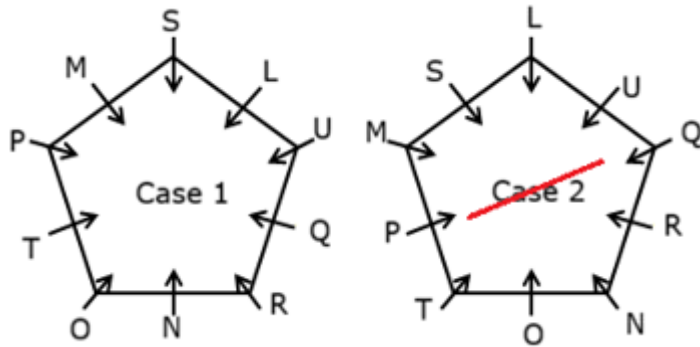

Again we have,

- Q does not sit at the corner.

From the above conditions Case-2 gets eliminated because Q does not sit at the corner, which is not satisfied.

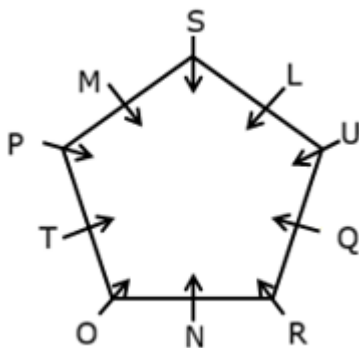

Hence, Case-1 shows the final arrangement.

Answer: A (In all other options, the first person sit third to the right of the second person, except option A)

15. Questions

Final Arrangement:

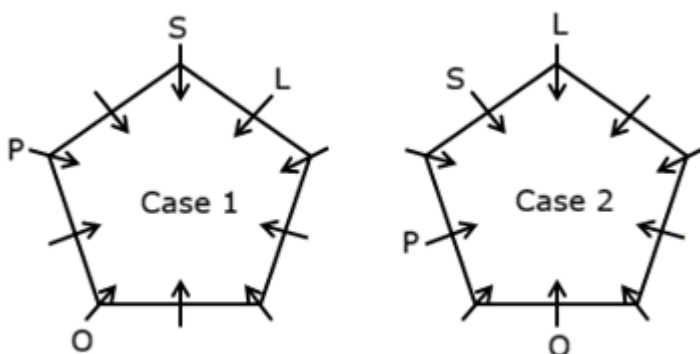

@RankZenBanker

We have,

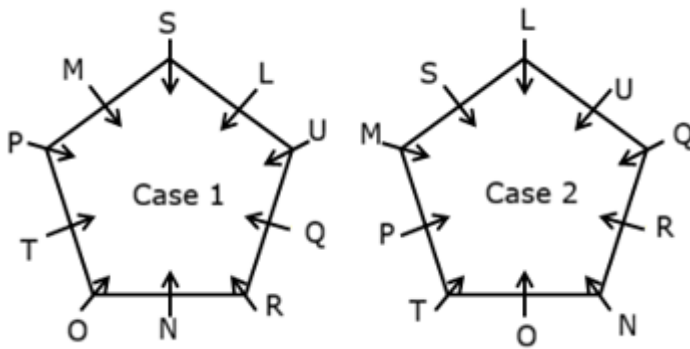

- P sits second to the left of O.
- Only one person sits between P and S, who sits to the immediate right of L.

From the above conditions, there are two possibilities:

Again we have,

- Two persons sit between L and R.
- T sits third to the left of R, who doesn't sit adjacent to M.
- As many persons sit between M and U as between U and N, who is not adjacent to S.

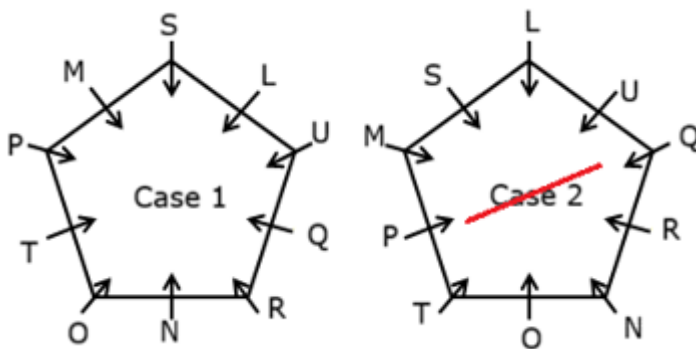

Again we have,

- Q does not sit at the corner.

From the above conditions Case-2 gets eliminated because Q does not sit at the corner, which is not satisfied.

Hence, Case-1 shows the final arrangement.

@RankZenBanker

Answer: C

16. Questions

Final arrangement:

Floors	Flat 1	Flat 2	Flat 3
3	X	S	Q
2	P	W	U
1	V	R	T

We have,

- Only one floor is between T and S, who lives in an even numbered flat.
- R lives to the immediate west of T and doesn't live on the topmost floor.

After applying the above conditions, there are two possibilities.

Floors	Case 1			Case 2		
	Flat 1	Flat 2	Flat 3	Flat 1	Flat 2	Flat 3
3		S			S	
2						
1	R	T			R	T

Again, we have

- Q lives two floors above R.
- Only one floor is between X and V, both live in same type of flat.

Floors	Case 1			Case 2		
	Flat 1	Flat 2	Flat 3	Flat 1	Flat 2	Flat 3
3	Q	S	X/V	X/V	S	Q
2						
1	R	T	X/V	X/V	R	T

Again, we have

- U lives immediately below X but not in the same type of flat.
- P lives to the west of U.
- W does not live in the odd numbered flat.

@RankZenBanker

After applying above conditions, case1 gets eliminated because W does not live in the odd numbered flat, hence case 2 shows the final arrangement.

Floors	Case 1			Case 2		
	Flat 1	Flat 2	Flat 3	Flat 1	Flat 2	Flat 3
3	Q	S	X	X	S	Q
2	P	U	W	P	W	U
1	R	T	V	V	R	T

Answer: D

17. Questions

Final arrangement:

Floors	Flat 1	Flat 2	Flat 3
3	X	S	Q
2	P	W	U
1	V	R	T

We have,

- Only one floor is between T and S, who lives in an even numbered flat.
- R lives to the immediate west of T and doesn't live on the topmost floor.

After applying the above conditions, there are two possibilities.

Floors	Case 1			Case 2		
	Flat 1	Flat 2	Flat 3	Flat 1	Flat 2	Flat 3
3		S			S	
2						
1	R	T			R	T

Again, we have

- Q lives two floors above R.
- Only one floor is between X and V, both live in same type of flat.

Floors	Case 1			Case 2		
	Flat 1	Flat 2	Flat 3	Flat 1	Flat 2	Flat 3
3	Q	S	X/V	X/V	S	Q
2						
1	R	T	X/V	X/V	R	T

Again, we have

@RankZenBanker

- U lives immediately below X but not in the same type of flat.
- P lives to the west of U.
- W does not live in the odd numbered flat.

After applying above conditions, case1 gets eliminated because W does not live in the odd numbered flat, hence case 2 shows the final arrangement.

Floors	Case 1			Case 2		
	Flat 1	Flat 2	Flat 3	Flat 1	Flat 2	Flat 3
3	Q	S	X	X	S	Q
2	P	U	W	P	W	U
1	R	T	V	V	R	T

Answer: C

18. Questions

Final arrangement:

Floors	Flat 1	Flat 2	Flat 3
3	X	S	Q
2	P	W	U
1	V	R	T

We have,

- Only one floor is between T and S, who lives in an even numbered flat.
- R lives to the immediate west of T and doesn't live on the topmost floor.

After applying the above conditions, there are two possibilities.

Floors	Case 1			Case 2		
	Flat 1	Flat 2	Flat 3	Flat 1	Flat 2	Flat 3
3		S			S	
2						
1	R	T			R	T

Again, we have

- Q lives two floors above R.
- Only one floor is between X and V, both live in same type of flat.

Floors	Case 1			Case 2		
	Flat 1	Flat 2	Flat 3	Flat 1	Flat 2	Flat 3
3	Q	S	X/V	X/V	S	Q
2						
1	R	T	X/V	X/V	R	T

@RankZenBanker

Again, we have

- U lives immediately below X but not in the same type of flat.
- P lives to the west of U.
- W does not live in the odd numbered flat.

After applying above conditions, case1 gets eliminated because W does not live in the odd numbered flat, hence case 2 shows the final arrangement.

Floors	Case 1			Case 2		
	Flat 1	Flat 2	Flat 3	Flat 1	Flat 2	Flat 3
3	Q	S	X	X	S	Q
2	P	U	W	P	W	U
1	R	T	V	V	R	T

Answer: B

19. Questions

Final arrangement:

Floors	Flat 1	Flat 2	Flat 3
3	X	S	Q
2	P	W	U
1	V	R	T

We have,

- Only one floor is between T and S, who lives in an even numbered flat.
- R lives to the immediate west of T and doesn't live on the topmost floor.

After applying the above conditions, there are two possibilities.

Floors	Case 1			Case 2		
	Flat 1	Flat 2	Flat 3	Flat 1	Flat 2	Flat 3
3		S			S	
2						
1	R	T			R	T

Again, we have

@RankZenBanker

- Q lives two floors above R.
- Only one floor is between X and V, both live in same type of flat.

Floors	Case 1			Case 2		
	Flat 1	Flat 2	Flat 3	Flat 1	Flat 2	Flat 3
3	Q	S	X/V	X/V	S	Q
2						
1	R	T	X/V	X/V	R	T

Again, we have

- U lives immediately below X but not in the same type of flat.
- P lives to the west of U.
- W does not live in the odd numbered flat.

After applying above conditions, case1 gets eliminated because W does not live in the odd numbered flat, hence case 2 shows the final arrangement.

Floors	Case 1			Case 2		
	Flat 1	Flat 2	Flat 3	Flat 1	Flat 2	Flat 3
3	Q	S	X	X	S	Q
2	P	U	W	P	W	U
1	R	T	V	V	R	T

Answer: E (All are living odd numbered floors except option e)

20. Questions

Final arrangement:

Floors	Flat 1	Flat 2	Flat 3
3	X	S	Q
2	P	W	U
1	V	R	T

We have,

- Only one floor is between T and S, who lives in an even numbered flat.
- R lives to the immediate west of T and doesn't live on the topmost floor.

After applying the above conditions, there are two possibilities.

@RankZenBanker

Floors	Case 1			Case 2		
	Flat 1	Flat 2	Flat 3	Flat 1	Flat 2	Flat 3
3		S			S	
2						
1	R	T			R	T

Again, we have

- Q lives two floors above R.
- Only one floor is between X and V, both live in same type of flat.

Floors	Case 1			Case 2		
	Flat 1	Flat 2	Flat 3	Flat 1	Flat 2	Flat 3
3	Q	S	X/V	X/V	S	Q
2						
1	R	T	X/V	X/V	R	T

Again, we have

- U lives immediately below X but not in the same type of flat.
- P lives to the west of U.
- W does not live in the odd numbered flat.

After applying above conditions, case1 gets eliminated because W does not live in the odd numbered flat, hence case 2 shows the final arrangement.

Floors	Case 1			Case 2		
	Flat 1	Flat 2	Flat 3	Flat 1	Flat 2	Flat 3
3	Q	S	X	X	S	Q
2	P	U	W	P	W	U
1	R	T	V	V	R	T

Answer: C

Answer: C

26. Questions

@RankZenBanker

Answer: A

Given Series: $A = E \leq I < O; V \geq Q \leq R = J; J < N > P > O$

Conclusion I: $N \geq Q (N > J = R \geq Q) \rightarrow \text{False}$

Conclusion II: $A < P (A = E \leq I < O < P) \rightarrow \text{True}$

27. Questions

Answer: A

Given Series: $I = Q \leq K \geq P; L < T < Q \geq Z; V > Z = B \leq C$

Conclusion I: $I > V (I = Q \geq Z < V) \rightarrow \text{False}$

Conclusion II: $B \leq K (B = Z \leq Q \leq K) \rightarrow \text{True}$

28. Questions

Answer: C

Given Series: $J < S > T = I; I \geq M = P > U; Y = S \leq R \leq Q$

Conclusion I: $U < Y (U < P = M \leq I = T < S = Y) \rightarrow \text{True}$

Conclusion II: $T \geq P (T = I \geq M = P) \rightarrow \text{True}$

29. Questions

Answer: E

Given Series: $B = Q > Y < T$; $L = V = J < Y$; $A > V \geq P < I$

Conclusion I: $P < J$ ($P \leq V = J$) $\rightarrow$ False

Conclusion II: $J \leq P$ ($J = V \geq P$) $\rightarrow$ False

30. Questions

Answer: E

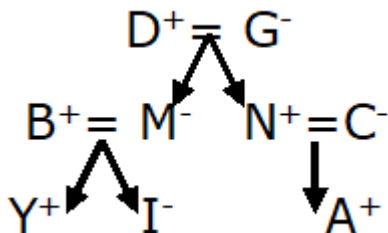

Given Series: $A < K > C \leq I$; $W \leq L \geq Y = K$; $V = P \leq W = N$

Conclusion I: $Y > I$ ($Y = K > C \leq I$) $\rightarrow$ False

Conclusion II: $N < L$ ($N = W \leq L$) $\rightarrow$ False

31. Questions

Final Arrangement:

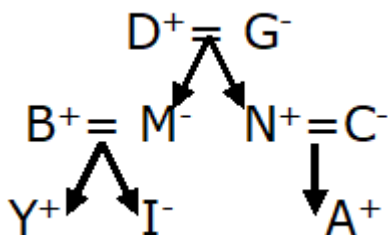

@RankZenBanker

Answer: A

32. Questions

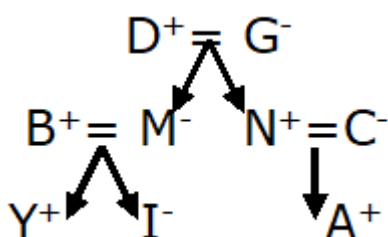

Final Arrangement:

Answer: C

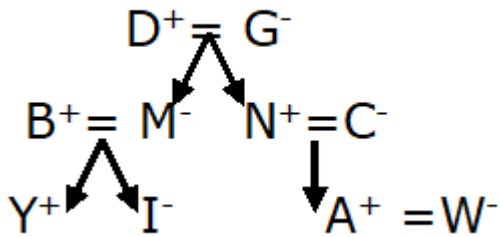

33. Questions

Final Arrangement:

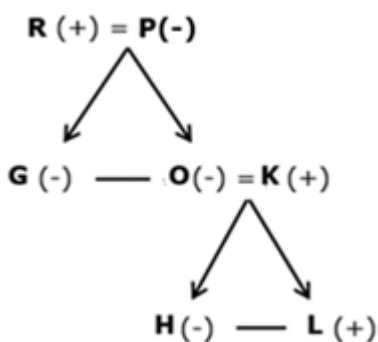

Answer: E

If A is married to W,

W is the daughter-in-law of N.

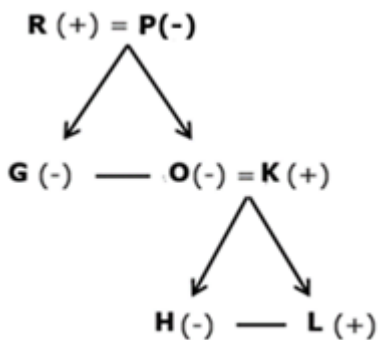

34. Questions

Answer: B

@RankZenBanker

35. Questions

Answer: A

36. Questions

Answer: C

Given Series: P T \$ V = I Q J M ? Z A > N G U # B < E * K S D) O + R

Required Series: P T \$ V = Q M ? Z > N U # < * S) O + R

The element which is seventeenth from the left end is “?”.

37. Questions

Answer: B

Given Series: P T \$ V = I Q J M ? Z A > N G U # B < E * K S D) O + R

Required Series: Symbols - Consonants - Vowels

P T \$ V = I Q J M ? Z A > N G U # B < E * K S D) O + R

38. Questions

Answer: D

Given Series: P T \$ V = I Q J M ? Z A > N G U # B < E * K S D) O + R

Required Series: P T \$ V = I Q J M ? Z A > N G U # B < E * K S D) O + R

The element which is tenth to the left of the fourth element from the right end “G”.

39. Questions

Answer: E

Given Series: P T \$ V = I Q J M ? Z A > N G U # B < E * K S D) O + R

All the symbols are dropped from the given series,

Required Series: P T V I Q J M Z A N G U B E K S D O R

The position of second vowels from the left end is “A-9th”

40. Questions

@RankZenBanker

Answer: A

Given Series: P T \$ V = I Q J M ? Z A > N G U # B < E * K S D) O + R

Last 15 element written in reserve order,

Required Series: P T \$ V = I Q J M ? Z A > R + O) D S K * E < B # U G N

The element which is fifteenth to the right of the eighth element from the left end “<”.
