

1. Questions

Study the following information carefully and answer the below questions

Eight boxes viz., A, B, I, J, Q, S, Y, and Z are kept one above another in a stack. It is assumed that no other boxes are kept in the stack other than the given boxes.

A is kept three boxes above Z. Only four boxes are kept between Z and B. J is kept two boxes above I, which is kept immediately above Q. As many boxes are kept between Z and J as between I and S. Y is kept above S but below Z.

Which of the following boxes is kept second from the bottom of the Stack?

- a. Z
- b. A
- c. J
- d. Q
- e. Y

2. Questions

How many boxes are kept below the box Z?

- a. One
- b. Two
- c. Three
- d. More than three
- e. None

@RankZenBanker

3. Questions

What is the position of the box Q from the top of the stack?

- a. Third
- b. Eighth
- c. Fifth
- d. Fourth
- e. First

4. Questions

If all the boxes are arranged in English alphabetical order from top to bottom, then how many boxes will remain unchanged in their original positions?

- a. One

- b. Two
- c. Three
- d. More than three
- e. None

5. Questions

The number of boxes kept below Box S is equal to the number of boxes kept above Box ____.

- a. B
- b. J
- c. Z
- d. A
- e. I

6. Questions

Study the following information carefully and answer the below questions

Eight persons– A, B, C, D, E, F, G, and H are working in different designations i.e. General Manager (GM), Deputy General Manager (DGM), Assistant General Manager (AGM), Manager, Assistant Manager(AM), Section Officer (SO), Cashier and Clerk in a company. The hierarchy of the designations is given in decreasing order such that GM is the senior-most designation and Clerk is the junior-most designation.

D is immediately senior to G, who is designated two persons senior to B. D is not junior to DGM. As many persons senior to B as junior to A. Only one person is designated between E and C, who is junior to E. The number of persons senior to F is **one more than** the number of persons junior to H. F is not designated as junior to SO.

Who among the following person is designated as AGM?

- a. G
- b. F
- c. B
- d. A
- e. C

7. Questions

Four of the following five are alike in a certain way and thus form a group as per the given arrangement. Which of the following does not belong to the group?

- a. G- DGM

- b. C-Cashier
- c. E- AM
- d. B- AGM
- e. H- SO

8. Questions

How many persons are designated as junior to F based on the final arrangement?

- a. One
- b. Two
- c. Three
- d. More than three
- e. None

9. Questions

If D is related to F, E is related to C in a certain way, then who among the following persons is related to A?

- a. F
- b. C
- c. H
- d. G
- e. None of these

@RankZenBanker

10. Questions

At which of the following designation does C work?

- a. Cashier
- b. General Manager
- c. Clerk
- d. Manager
- e. None of these

11. Questions

Study the following information carefully and answer the below questions

Ten persons are sitting in two parallel rows containing five persons each in such a way that there is an equal distance between adjacent persons. In row 1: A, B, C, D and E are seated and all of them are facing north.

In row 2: P, Q, R, S and T are seated and all of them are facing south. Each person in row 1 faces another person in row 2.

B sits at one of the extreme ends. Only two persons sit between the one who faces P and B. Q sits second to the right of T, who does not sit at any extreme ends. As many persons sit to the left of T as to the right of D. Only one person sits between D and E. The number of persons sitting to the left of A is **one less than** the number of persons sitting to the right of S, who does not face B.

If the persons are arranged in alphabetical order from left to right in both the rows, then how many persons remain in the same position?

- a. One
- b. Two
- c. Three
- d. More than three
- e. None

12. Questions

Four of the following five are alike in a certain way and thus form a group as per the given arrangement. Which of the following does not belong to the group?

- a. Q
- b. S
- c. D
- d. B
- e. E

@RankZenBanker

13. Questions

How many persons sit between Q and the person who is facing A?

- a. One
- b. Two
- c. Three
- d. None
- e. None of these

14. Questions

If P is related to Q and B is related to A in a certain way, then who among the following is related to R?

- a. C

- b. Q
- c. T
- d. S
- e. None of these

15. Questions

Which of the following statements is/are true based on the final arrangement?

- a. P faces A
- b. E sits second to the right of D
- c. S sits diagonally opposite to B
- d. As many persons sits to the left of R as to the right of C
- e. All the given statements are true

16. Questions

Study the following information carefully and answer the below question

How many such pairs of letters are in the word “CALENDAR” each of which has as many letters between them as there are in the English alphabetical series (both forward and backward)?

- a. One
- b. Two
- c. Three
- d. More than three
- e. None

17. Questions

If a meaningful word can be formed by using second, fourth, ninth, and eleventh letters from the left end of the word “UNBELIEVABLE” (Each letter used only once), then which is the third letter from the left of the meaningful word? If no such word can be formed, then give ‘X’ as the answer. If more than one word can be formed, then give ‘Y’ as the answer.

- a. A
- b. N
- c. L
- d. X
- e. Y

18. Questions

Study the following information carefully and answer the below questions.

In a certain code language,

“IOB SBI UBI CBI” is written as ‘az hs gt cx’

“BOB BOM IOB UBI” is written as ‘cx kp ir gt’

“PNB SBI IND BOB” is written as ‘nm az kp jq’

“UBI CAN RBI SBI” is written as ‘az gt lo fu’

(Note: All the given codes are two letters code only)

Which of the following is the code for the word “IOB” as per the given coded language?

- a. az
- b. gt
- c. cx
- d. hs
- e. ir

19. Questions

Which of the following is the code for the phrase “UBI CAN” as per the given coded language?

@RankZenBanker

- a. gt hs
- b. lo gt
- c. fu gt
- d. az fu
- e. cannot be determined

20. Questions

What is the possible code for ‘UBI SBI PNB’ in the given code language?

- a. gt az nm
- b. az jq gt
- c. az gt lo
- d. either a or b
- e. either b or c

21. Questions

What does the code “ir” represent in the given coded language?

- a. BOM

- b. BOB
- c. IOB
- d. Either a or b
- e. None of these

22. Questions

Study the following information carefully and answer the below questions

I 0 G T 1 Q 4 P C W 9 A 2 Z 6 7 L 5 X 3 B Y K 8 H E U

How many such numbers are there in the given series each of which is immediately preceded by a vowel and immediately followed by a consonant?

- a. One
- b. Two
- c. Three
- d. More than three
- e. None

23. Questions

Four of the following five are alike in a certain way based on the given series and thus form a group. Which one of the following does not belong to the group?

- a. 0TQ
- b. PWA
- c. 26L
- d. XBK
- e. 8EU

24. Questions

What is the product of the fourth number from the left end and eighth number from the right end in the given series?

- a. 36
- b. 81
- c. 30
- d. 27
- e. 72

25. Questions

If all the vowels and the odd numbers (0 is not an odd number) are dropped from the given series, then which of the following elements is tenth from the left end?

- a. 2
- b. 6
- c. Z
- d. W
- e. L

26. Questions

Which of the following elements is seventh to the right of the fourth number from the left end in the given series?

- a. L
- b. X
- c. 3
- d. 5
- e. B

@RankZenBanker

27. Questions

Study the following information carefully and answer the below question

Six people – L, M, N, O, P, and Q went to the movie on seven different days of the same week starting from Monday to Saturday. Only one person went to the movie each day. Only two persons went between L and O, neither of them went after Thursday. As many persons went before O as after N. P went immediately before M but after Q.

Who among the following went to the movie on Saturday?

- a. P
- b. N
- c. O
- d. M
- e. None of these

28. Questions

Study the following information carefully and answer the below questions

Eight persons - P, Q, R, S, T, U, V, and W are sitting on a rectangular table such that all of them are facing towards the centre. Three persons sit on each of the longer sides of the table while one person sits on each

of the shorter sides of the table.

W sits second to the left of Q, who sits on the longer side of the table. S sits opposite to Q and sits immediately to the right of P. As many persons sit between W and P as between U and V, when counted from right of both W and U. V sits second to the right of T. R doesn't sit opposite to P.

How many persons sit between U and V when counted from the right of V?

- a. One
- b. Two
- c. Three
- d. More than three
- e. None of these

29. Questions

In which of the following options does the first person sit second to the right of the second person?

- a. PQ
- b. TS
- c. WU
- d. PR
- e. QT

@RankZenBanker

30. Questions

As many persons sit between R and P as between T and ____ when counted from the right of P and T respectively.

- a. W
- b. V
- c. S
- d. U
- e. P

31. Questions

Four of the following five are alike in a certain way based on the final arrangement and thus form a group. Which one of the following does not belong to the group?

- a. P
- b. U
- c. S

d. W

e. Q

32. Questions

Which of the following statements is/are false based on the final arrangement?

- a. R and S are immediate neighbours
- b. U and S sit on the same side of the table
- c. T sits fourth to the left of P
- d. R faces V
- e. P sits immediate right of S

33. Questions

Study the following statements and then decide which of the given conclusions logically follows from the given statements disregarding the commonly known facts.

Statements

Some Days are Month

No Month is Year

Only a few Years is Week

@RankZenBanker

Conclusions

I). Some Days are not Week

II). Some Days are Week

- a. Only conclusion I follows
- b. Either conclusion I or II follows
- c. Both conclusions I and II follow
- d. Neither conclusion I nor II follows
- e. Only conclusion II follows

34. Questions

Statements

Only a few Shirts are Pants

Only Pant is Shorts

All Shirts are Trousers

Conclusions

I). All Pants cannot be Shirts

II). Some Pants are Trousers

- a. Neither conclusion I nor II follows
- b. Only conclusion II follows
- c. Either conclusion I or II follows
- d. Only conclusion I follows
- e. Both conclusions I and II follow

35. Questions

Statements

No bat is ball

No football is cricket

All cricket is bat

Conclusions

I). All football can be bat

II). Some cricket can be ball

- a. Only conclusion II follows
- b. Neither conclusion I nor II follows
- c. Either conclusion I or II follows
- d. Only conclusion I follows
- e. Both conclusions I and II follow

@RankZenBanker

Explanations:

1. Questions

Final arrangement

Boxes
B
J
A
I
Q
Z
Y
S

We have,

- A is kept three boxes above Z.
- Only four boxes are kept between Z and B.

From the above conditions, there are three possibilities

Case 1	Case 2	Case 3
Boxes	Boxes	Boxes
B		
		B
A	B	
		A
	A	
Z		
		Z
	Z	

@RankZenBanker

Again we have,

- J is kept two boxes above I, which is kept immediately above Q.
- As many boxes are kept between Z and J as between I and S.

Case 1	Case 2	Case 3
Boxes	Boxes	Boxes
B		S
J	S	B
A	B	J
I	J	A
Q	A	I
Z	I	Q
	Q	Z
S	Z	

Again we have,

- Y is kept above S but below Z.

From the above conditions case 2 and case 3 **get eliminated** because Y is kept above S but below Z, which is not satisfied.

Hence, Case-1 shows the final arrangement.

@RankZenBanker

Case 1	Case 2	Case 3
Boxes	Boxes	Boxes
B		S
J	S	B
A	B	J
I	J	A
Q	A	I
Z	I	Q
Y	Q	Z
S	Z	

Answer: E

2. Questions

Final arrangement

Boxes
B
J
A
I
Q
Z
Y
S

We have,

- A is kept three boxes above Z.
- Only four boxes are kept between Z and B.

From the above conditions, there are three possibilities

Case 1	Case 2	Case 3
Boxes	Boxes	Boxes
B		
		B
A	B	
		A
	A	
Z		
		Z
	Z	

@RankZenBanker

Again we have,

- J is kept two boxes above I, which is kept immediately above Q.
- As many boxes are kept between Z and J as between I and S.

Case 1	Case 2	Case 3
Boxes	Boxes	Boxes
B		S
J	S	B
A	B	J
I	J	A
Q	A	I
Z	I	Q
	Q	Z
S	Z	

Again we have,

- Y is kept above S but below Z.

From the above conditions case 2 and case 3 **get eliminated** because Y is kept above S but below Z, which is not satisfied.

Hence, Case-1 shows the final arrangement.

@RankZenBanker

Case 1	Case 2	Case 3
Boxes	Boxes	Boxes
B		S
J	S	B
A	B	J
I	J	A
Q	A	I
Z	I	Q
Y	Q	Z
S	Z	

Answer: B

3. Questions

Final arrangement

Boxes
B
J
A
I
Q
Z
Y
S

We have,

- A is kept three boxes above Z.
- Only four boxes are kept between Z and B.

From the above conditions, there are three possibilities

Case 1	Case 2	Case 3
Boxes	Boxes	Boxes
B		
		B
A	B	
		A
	A	
Z		
		Z
	Z	

@RankZenBanker

Again we have,

- J is kept two boxes above I, which is kept immediately above Q.
- As many boxes are kept between Z and J as between I and S.

Case 1	Case 2	Case 3
Boxes	Boxes	Boxes
B		S
J	S	B
A	B	J
I	J	A
Q	A	I
Z	I	Q
	Q	Z
S	Z	

Again we have,

- Y is kept above S but below Z.

From the above conditions case 2 and case 3 **get eliminated** because Y is kept above S but below Z, which is not satisfied.

Hence, Case-1 shows the final arrangement.

@RankZenBanker

Case 1	Case 2	Case 3
Boxes	Boxes	Boxes
B		S
J	S	B
A	B	J
I	J	A
Q	A	I
Z	I	Q
Y	Q	Z
S	Z	

Answer: C

4. Questions

Final arrangement

Boxes
B
J
A
I
Q
Z
Y
S

We have,

- A is kept three boxes above Z.
- Only four boxes are kept between Z and B.

From the above conditions, there are three possibilities

Case 1	Case 2	Case 3
Boxes	Boxes	Boxes
B		
		B
A	B	
		A
	A	
Z		
		Z
	Z	

@RankZenBanker

Again we have,

- J is kept two boxes above I, which is kept immediately above Q.
- As many boxes are kept between Z and J as between I and S.

Case 1	Case 2	Case 3
Boxes	Boxes	Boxes
B		S
J	S	B
A	B	J
I	J	A
Q	A	I
Z	I	Q
	Q	Z
S	Z	

Again we have,

- Y is kept above S but below Z.

From the above conditions case 2 and case 3 **get eliminated** because Y is kept above S but below Z, which is not satisfied.

Hence, Case-1 shows the final arrangement.

@RankZenBanker

Case 1	Case 2	Case 3
Boxes	Boxes	Boxes
B		S
J	S	B
A	B	J
I	J	A
Q	A	I
Z	I	Q
Y	Q	Z
S	Z	

Answer: B (Q and Y remain unchanged)

5. Questions

Final arrangement

Boxes
B
J
A
I
Q
Z
Y
S

We have,

- A is kept three boxes above Z.
- Only four boxes are kept between Z and B.

From the above conditions, there are three possibilities

Case 1	Case 2	Case 3
Boxes	Boxes	Boxes
B		
		B
A	B	
		A
	A	
Z		
		Z
	Z	

@RankZenBanker

Again we have,

- J is kept two boxes above I, which is kept immediately above Q.
- As many boxes are kept between Z and J as between I and S.

Case 1	Case 2	Case 3
Boxes	Boxes	Boxes
B		S
J	S	B
A	B	J
I	J	A
Q	A	I
Z	I	Q
	Q	Z
S	Z	

Again we have,

- Y is kept above S but below Z.

From the above conditions case 2 and case 3 **get eliminated** because Y is kept above S but below Z, which is not satisfied.

Hence, Case-1 shows the final arrangement.

@RankZenBanker

Case 1	Case 2	Case 3
Boxes	Boxes	Boxes
B		S
J	S	B
A	B	J
I	J	A
Q	A	I
Z	I	Q
Y	Q	Z
S	Z	

Answer: A

6. Questions

Final arrangement

Designations	Persons
GM	D
DGM	G
AGM	F
Manager	B
AM	A
SO	E
Cashier	H
Clerk	C

We have,

- D is immediately senior to G, who is designated two persons senior to B.
- D is not junior to DGM.

From the above conditions, there are two possibilities

Designations	Case 1	Case 2
	Persons	Persons
GM		D
DGM	D	G
AGM	G	
Manager		B
AM	B	
SO		
Cashier		
Clerk		

@RankZenBanker

Again we have,

- As many persons senior to B as junior to A.
- Only one person is designated between E and C, who is junior to E.

Designations	Case 1	Case 2
	Persons	Persons
GM		D
DGM	D	G
AGM	G	
Manager	A	B
AM	B	A
SO	E	E
Cashier		
Clerk	C	C

Again we have,

- The number of persons senior to F is **one more than** the number of persons junior to H.
- F is not designated as junior to SO.

From the above conditions Case-1 gets eliminated because The number of persons senior to F is **one more than** the number of persons junior to H, which is not satisfied.

@RankZenBanker

Hence, Case-2 shows the final arrangement.

Designations	Case 1	Case 2
	Persons	Persons
GM		D
DGM	D	G
AGM	G	F
Manager	A	B
AM	B	A
SO	E	E
Cashier		H
Clerk	C	C

Answer: B

7. Questions

Final arrangement

Designations	Persons
GM	D
DGM	G
AGM	F
Manager	B
AM	A
SO	E
Cashier	H
Clerk	C

We have,

- D is immediately senior to G, who is designated two persons senior to B.
- D is not junior to DGM.

From the above conditions, there are two possibilities

Designations	Case 1	Case 2
	Persons	Persons
GM		D
DGM	D	G
AGM	G	
Manager		B
AM	B	
SO		
Cashier		
Clerk		

@RankZenBanker

Again we have,

- As many persons senior to B as junior to A.
- Only one person is designated between E and C, who is junior to E.

Designations	Case 1	Case 2
	Persons	Persons
GM		D
DGM	D	G
AGM	G	
Manager	A	B
AM	B	A
SO	E	E
Cashier		
Clerk	C	C

Again we have,

- The number of persons senior to F is **one more than** the number of persons junior to H.
- F is not designated as junior to SO.

From the above conditions Case-1 gets eliminated because The number of persons senior to F is **one more than** the number of persons junior to H, which is not satisfied.

@RankZenBanker

Hence, Case-2 shows the final arrangement.

Designations	Case 1	Case 2
	Persons	Persons
GM		D
DGM	D	G
AGM	G	F
Manager	A	B
AM	B	A
SO	E	E
Cashier		H
Clerk	C	C

Answer: A (In all other options, person is related to immediate senior designation except option A)

8. Questions

Final arrangement

Designations	Persons
GM	D
DGM	G
AGM	F
Manager	B
AM	A
SO	E
Cashier	H
Clerk	C

We have,

- D is immediately senior to G, who is designated two persons senior to B.
- D is not junior to DGM.

From the above conditions, there are two possibilities

Designations	Case 1	Case 2
	Persons	Persons
GM		D
DGM	D	G
AGM	G	
Manager		B
AM	B	
SO		
Cashier		
Clerk		

@RankZenBanker

Again we have,

- As many persons senior to B as junior to A.
- Only one person is designated between E and C, who is junior to E.

Designations	Case 1	Case 2
	Persons	Persons
GM		D
DGM	D	G
AGM	G	
Manager	A	B
AM	B	A
SO	E	E
Cashier		
Clerk	C	C

Again we have,

- The number of persons senior to F is **one more than** the number of persons junior to H.
- F is not designated as junior to SO.

From the above conditions Case-1 gets eliminated because The number of persons senior to F is **one more than** the number of persons junior to H, which is not satisfied.

@RankZenBanker

Hence, Case-2 shows the final arrangement.

Designations	Case 1	Case 2
	Persons	Persons
GM		D
DGM	D	G
AGM	G	F
Manager	A	B
AM	B	A
SO	E	E
Cashier		H
Clerk	C	C

Answer: D

9. Questions

Final arrangement

Designations	Persons
GM	D
DGM	G
AGM	F
Manager	B
AM	A
SO	E
Cashier	H
Clerk	C

We have,

- D is immediately senior to G, who is designated two persons senior to B.
- D is not junior to DGM.

From the above conditions, there are two possibilities

Designations	Case 1	Case 2
	Persons	Persons
GM		D
DGM	D	G
AGM	G	
Manager		B
AM	B	
SO		
Cashier		
Clerk		

@RankZenBanker

Again we have,

- As many persons senior to B as junior to A.
- Only one person is designated between E and C, who is junior to E.

Designations	Case 1	Case 2
	Persons	Persons
GM		D
DGM	D	G
AGM	G	
Manager	A	B
AM	B	A
SO	E	E
Cashier		
Clerk	C	C

Again we have,

- The number of persons senior to F is **one more than** the number of persons junior to H.
- F is not designated as junior to SO.

From the above conditions Case-1 gets eliminated because The number of persons senior to F is **one more than** the number of persons junior to H, which is not satisfied.

@RankZenBanker

Hence, Case-2 shows the final arrangement.

Designations	Case 1	Case 2
	Persons	Persons
GM		D
DGM	D	G
AGM	G	F
Manager	A	B
AM	B	A
SO	E	E
Cashier		H
Clerk	C	C

Answer: A (First person is two person senior to the second person)

10. Questions

Final arrangement

Designations	Persons
GM	D
DGM	G
AGM	F
Manager	B
AM	A
SO	E
Cashier	H
Clerk	C

We have,

- D is immediately senior to G, who is designated two persons senior to B.
- D is not junior to DGM.

From the above conditions, there are two possibilities

Designations	Case 1	Case 2
	Persons	Persons
GM		D
DGM	D	G
AGM	G	
Manager		B
AM	B	
SO		
Cashier		
Clerk		

@RankZenBanker

Again we have,

- As many persons senior to B as junior to A.
- Only one person is designated between E and C, who is junior to E.

Designations	Case 1	Case 2
	Persons	Persons
GM		D
DGM	D	G
AGM	G	
Manager	A	B
AM	B	A
SO	E	E
Cashier		
Clerk	C	C

Again we have,

- The number of persons senior to F is **one more than** the number of persons junior to H.
- F is not designated as junior to SO.

From the above conditions Case-1 gets eliminated because The number of persons senior to F is **one more than** the number of persons junior to H, which is not satisfied.

@RankZenBanker

Hence, Case-2 shows the final arrangement.

Designations	Case 1	Case 2
	Persons	Persons
GM		D
DGM	D	G
AGM	G	F
Manager	A	B
AM	B	A
SO	E	E
Cashier		H
Clerk	C	C

Answer: C

11. Questions

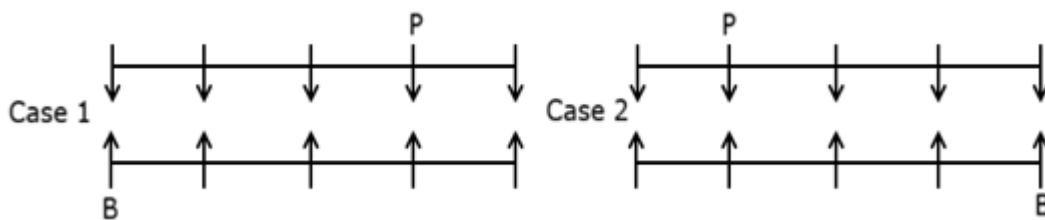

Final arrangement

We have,

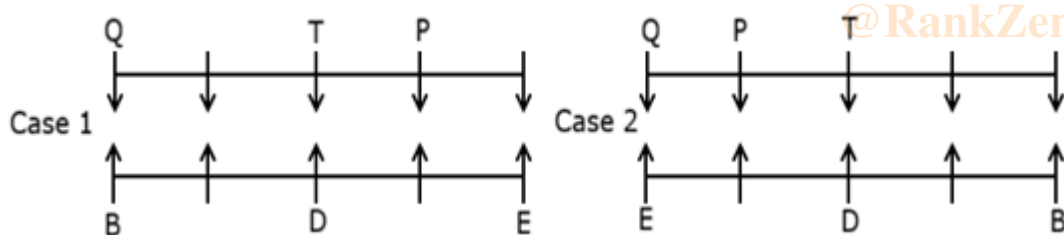

- B sits at one of the extreme ends.
- Only two persons sit between the one who faces P and B.

From the above conditions, there are two possibilities

Again we have,

- Q sits second to the right of T, who does not sit at any extreme ends.
- As many persons sit to the left of T as to the right of D.
- Only one person sits between D and E.

Again we have,

- The number of persons sitting to the left of A is **one less than** the number of persons sitting to the right of S, who does not face B.

From the above conditions case-2 **gets eliminated** because the number of persons sitting to the left of A is **one less than** the number of persons sitting to the right of S, who does not face B, which is not satisfied.

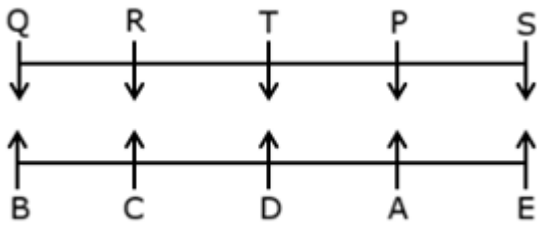

Hence, Case-1 shows the final arrangement.

Answer: A (Only E remains unchanged)

12. Questions

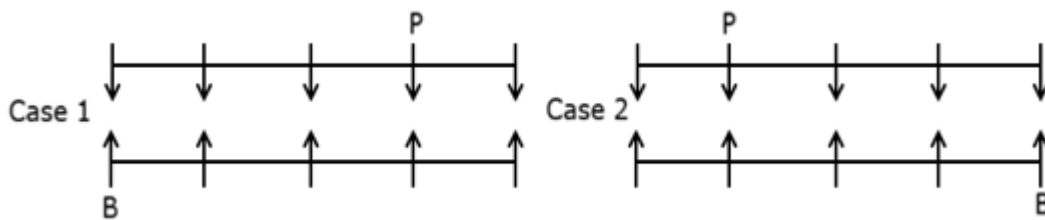

Final arrangement

We have,

- B sits at one of the extreme ends.
- Only two persons sit between the one who faces P and B.

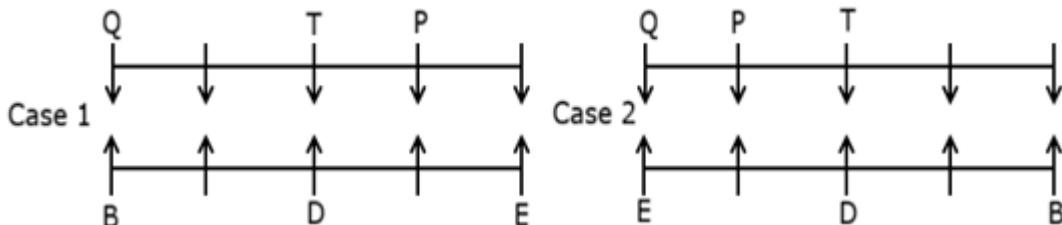

From the above conditions, there are two possibilities

Again we have,

- Q sits second to the right of T, who does not sit at any extreme ends.
- As many persons sit to the left of T as to the right of D.
- Only one person sits between D and E.

@RankZenBanker

Again we have,

- The number of persons sitting to the left of A is **one less than** the number of persons sitting to the right of S, who does not face B.

From the above conditions case-2 **gets eliminated** because the number of persons sitting to the left of A is **one less than** the number of persons sitting to the right of S, who does not face B, which is not satisfied.

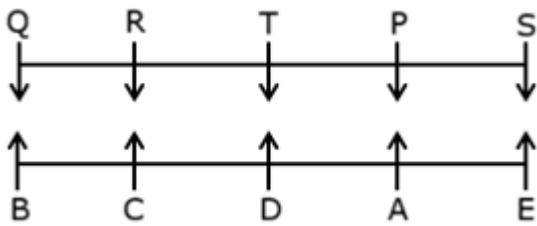

Hence, Case-1 shows the final arrangement.

Answer: C (In all other options all the persons sits at the extreme end except option C)

13. Questions

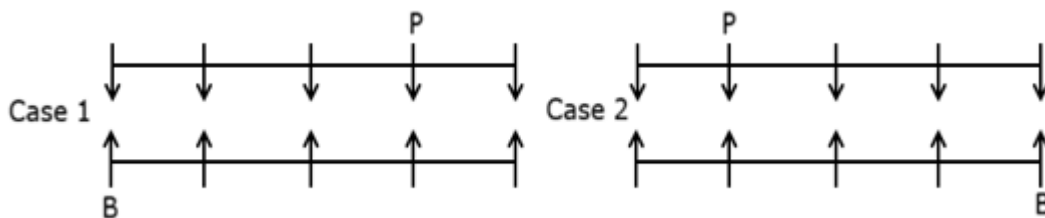

Final arrangement

We have,

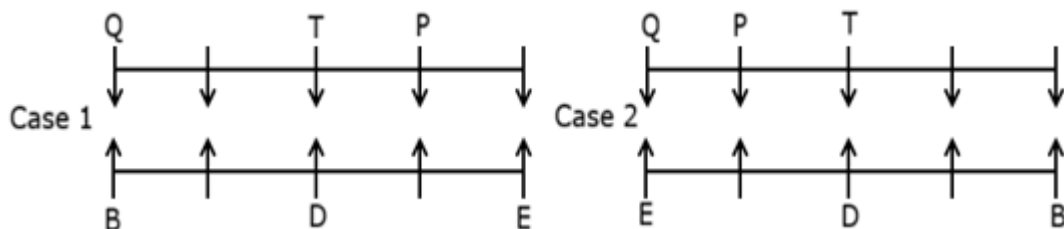

- B sits at one of the extreme ends.
- Only two persons sit between the one who faces P and B.

From the above conditions, there are two possibilities

Again we have,

- Q sits second to the right of T, who does not sit at any extreme ends.
- As many persons sit to the left of T as to the right of D.
- Only one person sits between D and E.

Again we have,

- The number of persons sitting to the left of A is **one less than** the number of persons sitting to the right of S, who does not face B.

From the above conditions case-2 **gets eliminated** because the number of persons sitting to the left of A is **one less than** the number of persons sitting to the right of S, who does not face B, which is not satisfied.

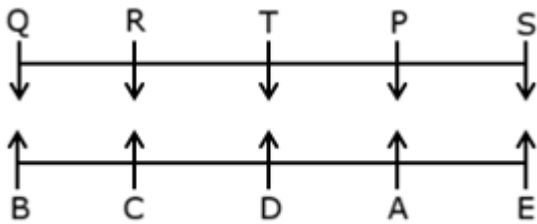

Hence, Case-1 shows the final arrangement.

Answer: B

14. Questions

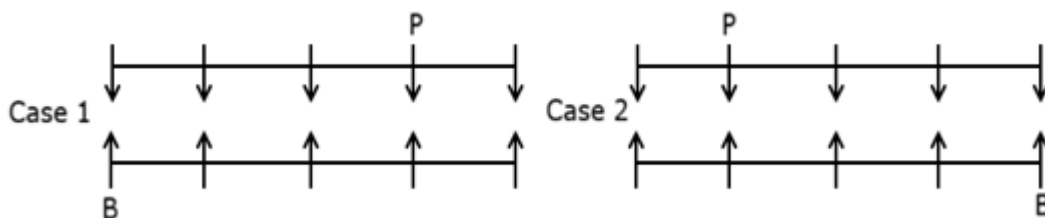

Final arrangement

We have,

- B sits at one of the extreme ends.
- Only two persons sit between the one who faces P and B.

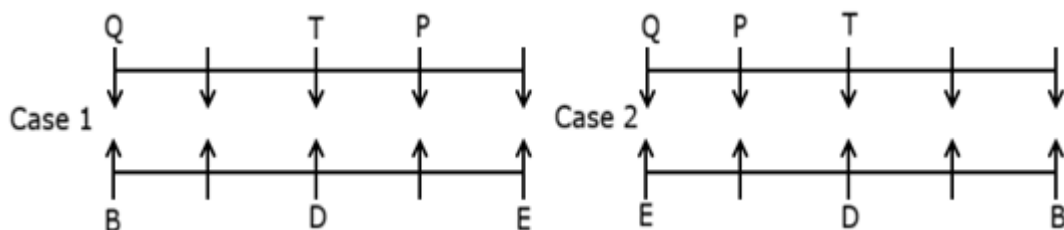

From the above conditions, there are two possibilities

Again we have,

@RankZenBanker

- Q sits second to the right of T, who does not sit at any extreme ends.
- As many persons sit to the left of T as to the right of D.
- Only one person sits between D and E.

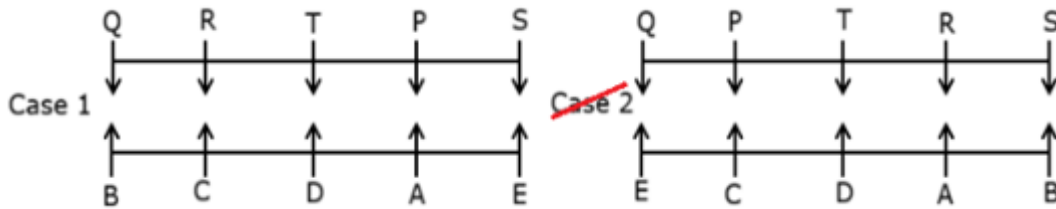

Again we have,

- The number of persons sitting to the left of A is **one less than** the number of persons sitting to the right of S, who does not face B.

From the above conditions case-2 **gets eliminated** because the number of persons sitting to the left of A is **one less than** the number of persons sitting to the right of S, who does not face B, which is not satisfied.

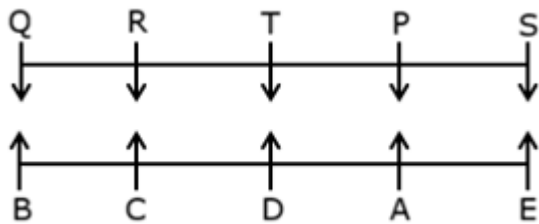

Hence, Case-1 shows the final arrangement.

Answer: D (Only two persons sit between the first person and the second person)

15. Questions

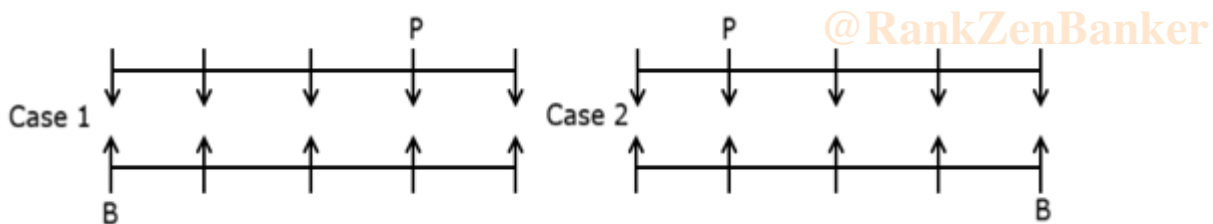

Final arrangement

We have,

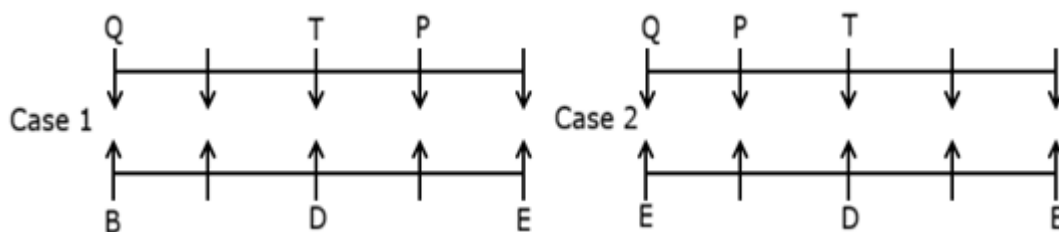

- B sits at one of the extreme ends.
- Only two persons sit between the one who faces P and B.

From the above conditions, there are two possibilities

Again we have,

- Q sits second to the right of T, who does not sit at any extreme ends.
- As many persons sit to the left of T as to the right of D.
- Only one person sits between D and E.

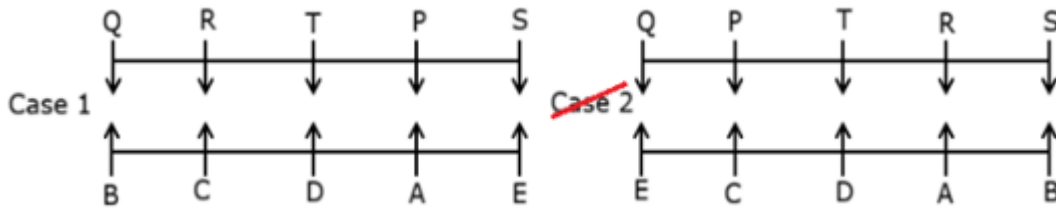

Again we have,

- The number of persons sitting to the left of A is **one less than** the number of persons sitting to the right of S, who does not face B.

From the above conditions case-2 **gets eliminated** because the number of persons sitting to the left of A is **one less than** the number of persons sitting to the right of S, who does not face B, which is not satisfied.

Hence, Case-1 shows the final arrangement.

Answer: E

16. Questions

Answer: A

C A L E N D A R

Only one pair of letters.

17. Questions

Answer: E

U N B E L I E V A B L E- LEAN (thin), LANE (narrow road), ELAN(energy)

More than one word is formed.

18. Questions

@RankZenBanker

Final Arrangement:

BOM	ir
PNB/IND	nm/jq
CAN/RBI	lo/fu

@RankZenBanker

Answer: D

21. Questions

Final Arrangement:

Words	Codes
IOB	cx
SBI	az
UBI	gt
CBI	hs
BOB	kp
BOM	ir
PNB/IND	nm/jq
CAN/RBI	lo/fu

Answer: A

22. Questions

Answer: B

Given series:

I 0 G T 1 Q 4 P C W 9 A 2 Z 6 7 L 5 X 3 B Y K 8 H E U

The numbers that are immediately preceded by a vowel and immediately followed by a consonant

I 0 G T 1 Q 4 P C W 9 A 2 Z 6 7 L 5 X 3 B Y K 8 H E U

0 and 2 are the numbers that are immediately preceded by a vowel and immediately followed by a consonant.

23. Questions

Answer: E (Except option e, all other options have one element in between each of the given elements)

Given series:

I 0 G T 1 Q 4 P C W 9 A 2 Z 6 7 L 5 X 3 B Y K 8 H E U

I 0 G T 1 Q 4 P C W 9 A 2 Z 6 7 L 5 X 3 B Y K 8 H E U

Except 8EU, all the other elements have one element in between them.

24. Questions

Answer: A

Given series:

I 0 G T 1 Q 4 P C W 9 A 2 Z 6 7 L 5 X 3 B Y K 8 H E U

The product of the fourth number from the left end and eighth number from the right end is

I 0 G T 1 Q 4 P C W 9 A 2 Z 6 7 L 5 X 3 B Y K 8 H E U

Product = $9 \times 4 = 36$.

25. Questions

Answer: C

Given series:

I 0 G T 1 Q 4 P C W 9 A 2 Z 6 7 L 5 X 3 B Y K 8 H E U

After all the vowels and the odd numbers are dropped,

0 G T Q 4 P C W 2 Z 6 L X B Y K 8 H

The tenth element from the left end is Z.

26. Questions

Answer: D

Given series:

I 0 G T 1 Q 4 P C W 9 A 2 Z 6 7 L 5 X 3 B Y K 8 H E U

The seventh element to the right of the fourth number from the left end is 5

I 0 G T 1 Q 4 P C W 9 A 2 Z 6 7 L 5 X 3 B Y K 8 H E U

27. Questions

Answer: D

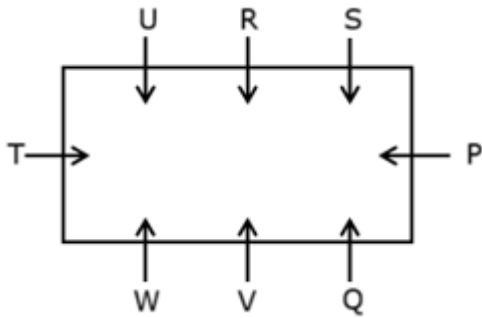

@RankZenBanker

Final Arrangement:

Days	Persons
Monday	L
Tuesday	Q
Wednesday	N
Thursday	O
Friday	P
Saturday	M

28. Questions

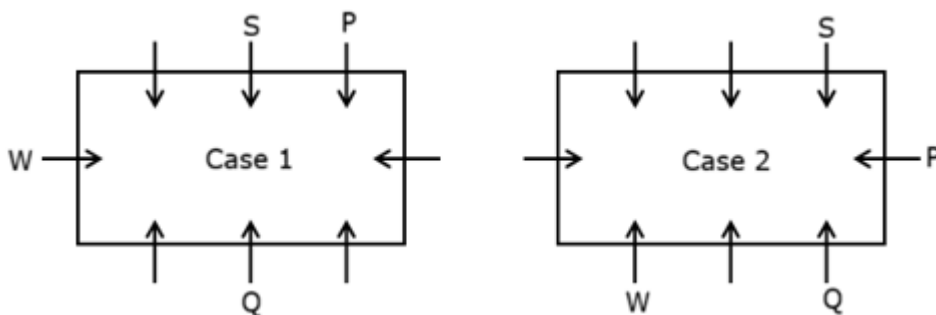

Final arrangement

We have,

- W sits second to the left of Q, who sits on the longer side of the table
- S sits opposite to Q and sits immediate right of P.

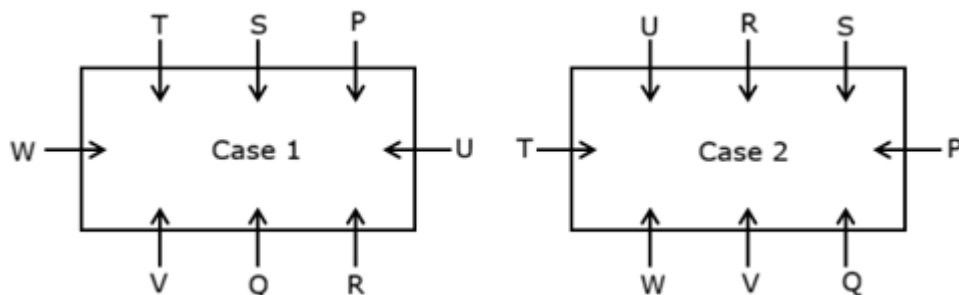

From the above conditions, there are two possibilities

Again we have,

@RankZenBanker

- As many persons sit between W and P as between U and V, when counted from right of both W and U.
- V sits second to the right of T.

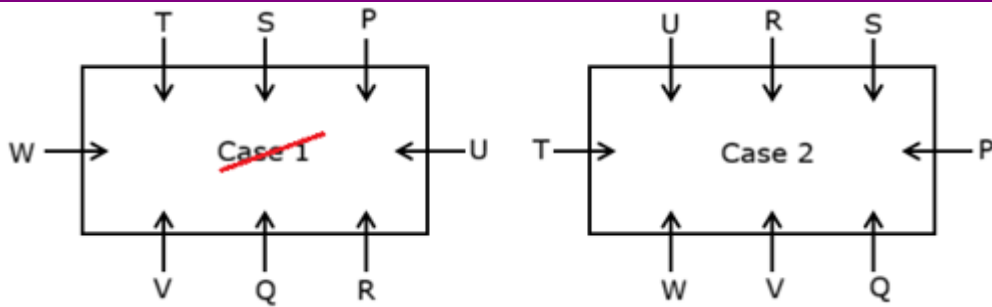

Again we have,

- R doesn't sit opposite to P.

From the above conditions Case-1 **gets eliminated** because R doesn't sit opposite to P, which is not satisfied.

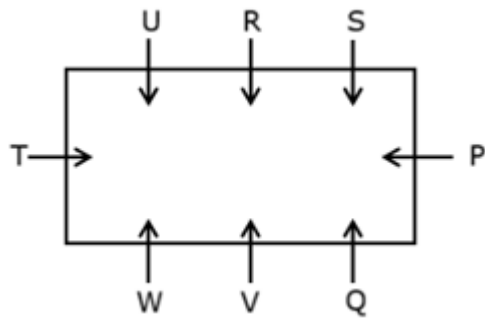

Hence, Case-2 shows the final arrangement.

Answer: D

29. Questions

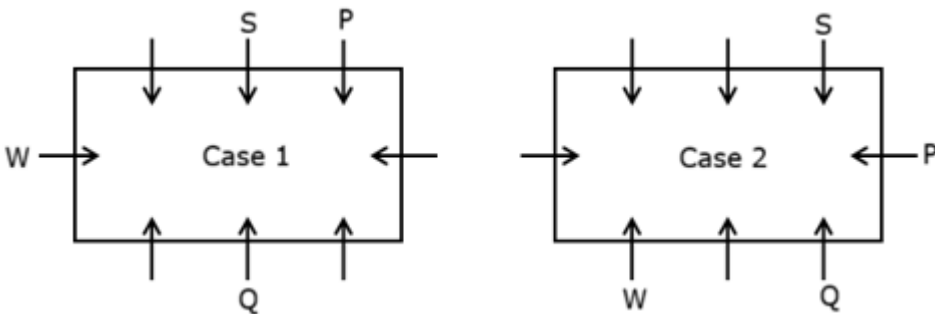

Final arrangement

We have,

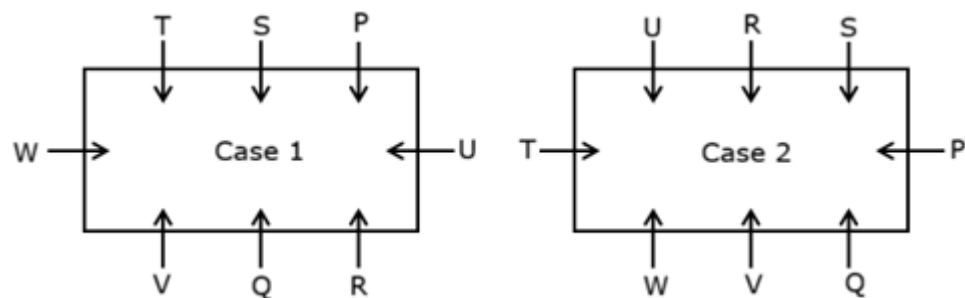

- W sits second to the left of Q, who sits on the longer side of the table
- S sits opposite to Q and sits immediate right of P.

From the above conditions, there are two possibilities

Again we have,

- As many persons sit between W and P as between U and V, when counted from right of both W and U.
- V sits second to the right of T.

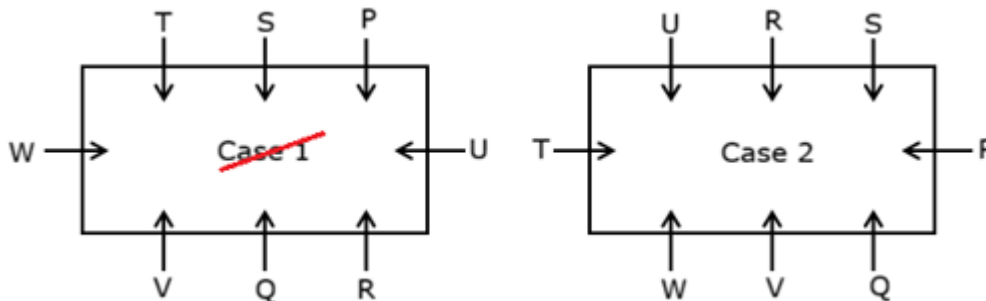

Again we have,

- R doesn't sit opposite to P.

From the above conditions Case-1 **gets eliminated** because R doesn't sit opposite to P, which is not satisfied.

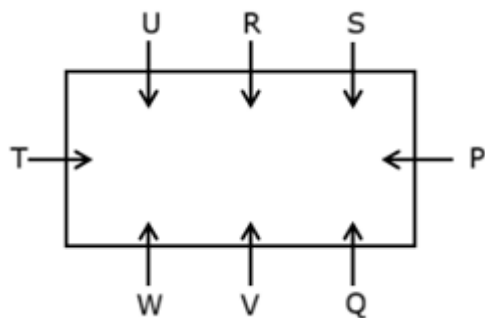

Hence, Case-2 shows the final arrangement.

Answer: C

30. Questions

Final arrangement

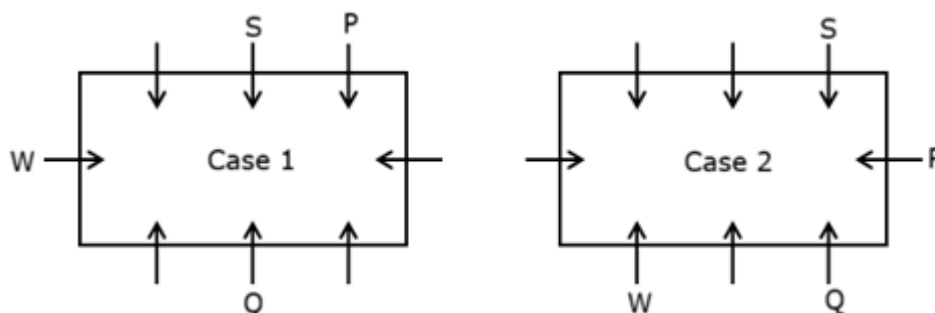

@RankZenBanker

We have,

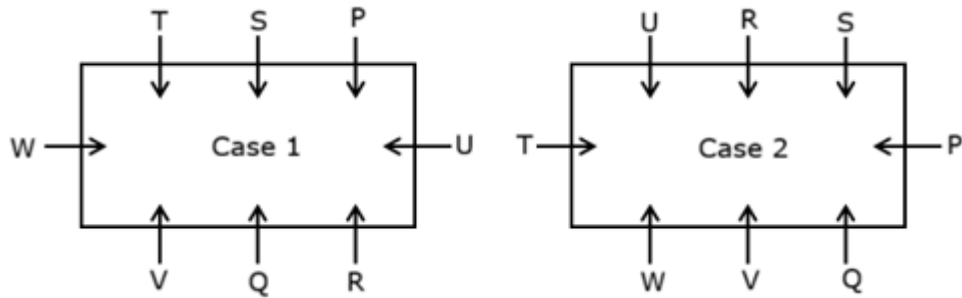

- W sits second to the left of Q, who sits on the longer side of the table
- S sits opposite to Q and sits immediate right of P.

From the above conditions, there are two possibilities

Again we have,

- As many persons sit between W and P as between U and V, when counted from right of both W and U.
- V sits second to the right of T.

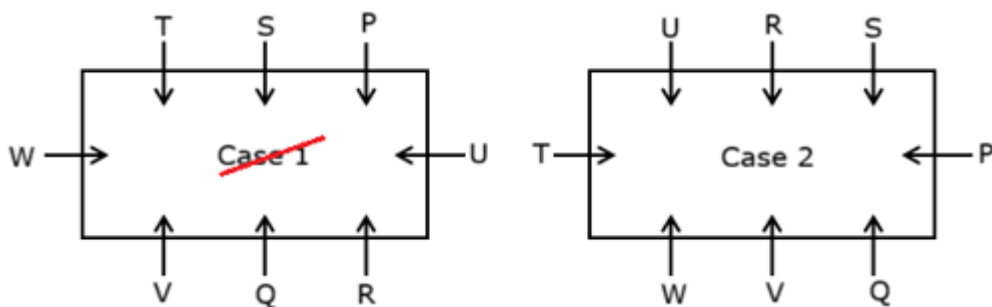

Again we have,

- R doesn't sit opposite to P.

From the above conditions Case-1 **gets eliminated** because R doesn't sit opposite to P, which is not satisfied.

Hence, Case-2 shows the final arrangement.

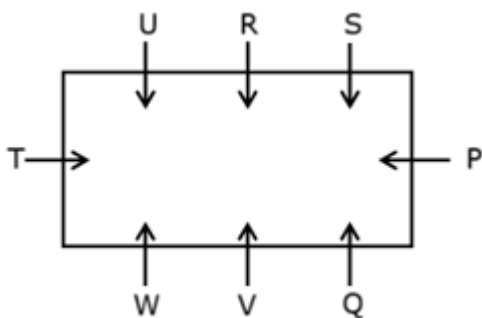

Answer: B

@RankZenBanker

31. Questions

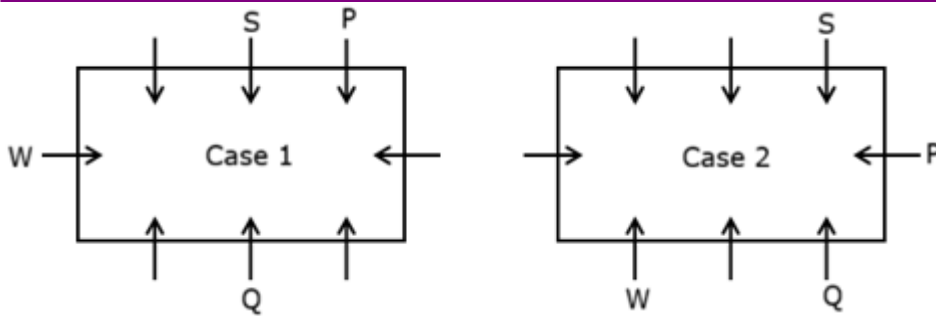

Final arrangement

We have,

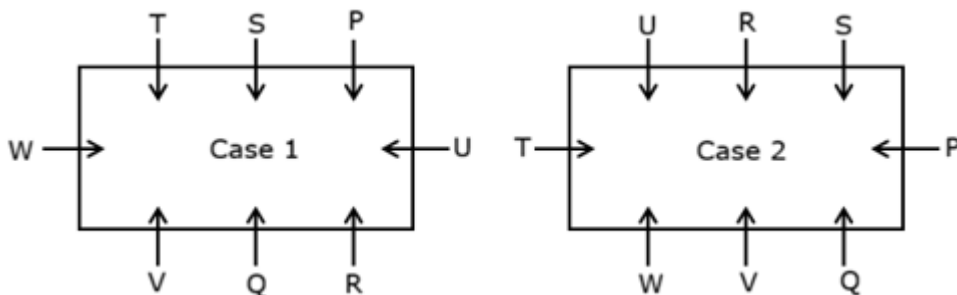

- W sits second to the left of Q, who sits on the longer side of the table
- S sits opposite to Q and sits immediate right of P.

From the above conditions, there are two possibilities

Again we have,

- As many persons sit between W and P as between U and V, when counted from right of both W and U.
- V sits second to the right of T.

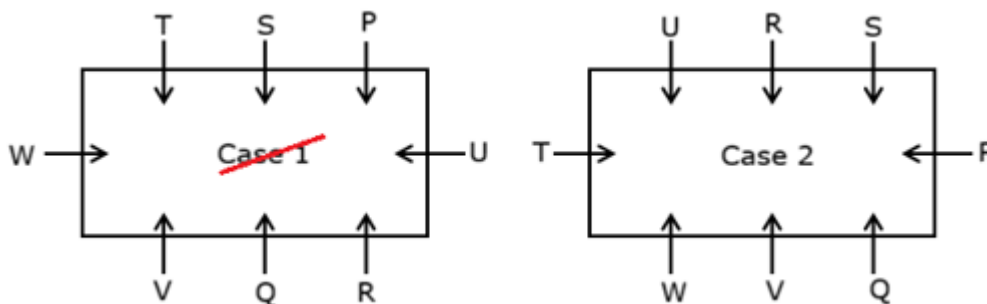

Again we have,

- R doesn't sit opposite to P.

@RankZenBanker

From the above conditions Case-1 **gets eliminated** because R doesn't sit opposite to P, which is not satisfied.

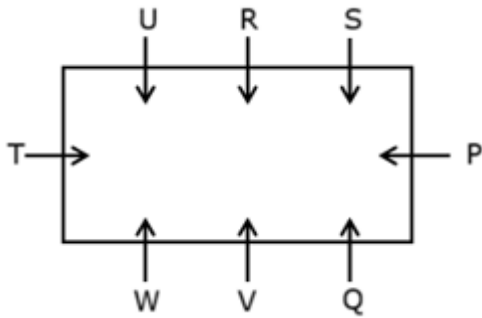

Hence, Case-2 shows the final arrangement.

Answer: A (In all other options, person sits on the longer side of the table except option A)

32. Questions

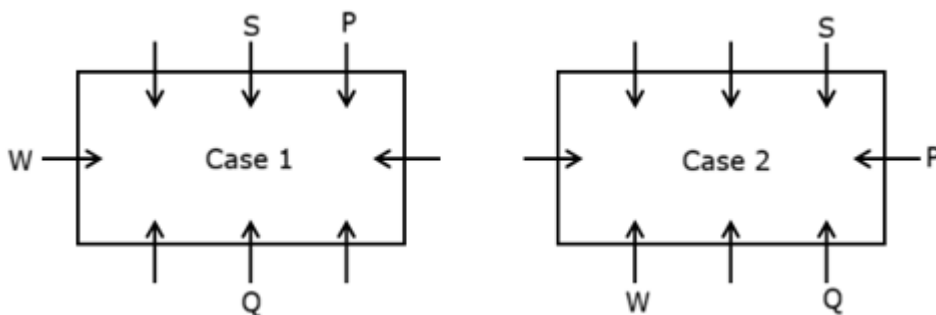

Final arrangement

We have,

- W sits second to the left of Q, who sits on the longer side of the table
- S sits opposite to Q and sits immediate right of P.

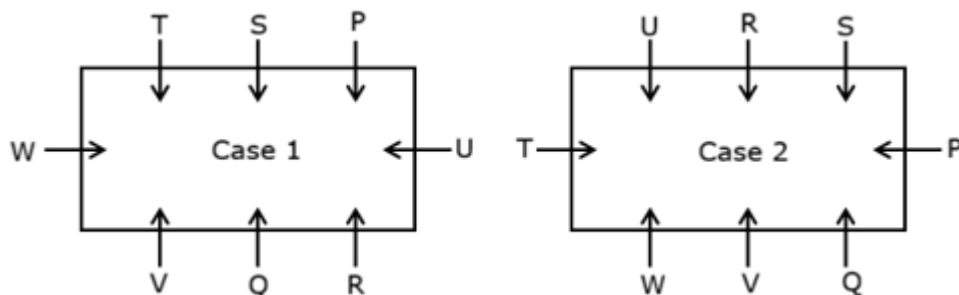

From the above conditions, there are two possibilities

Again we have,

@RankZenBanker

- As many persons sit between W and P as between U and V, when counted from right of both W and U.
- V sits second to the right of T.

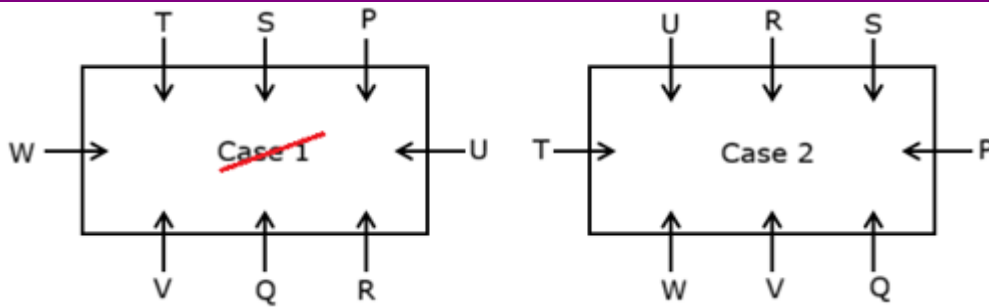

Again we have,

- R doesn't sit opposite to P.

From the above conditions Case-1 **gets eliminated** because R doesn't sit opposite to P, which is not satisfied.

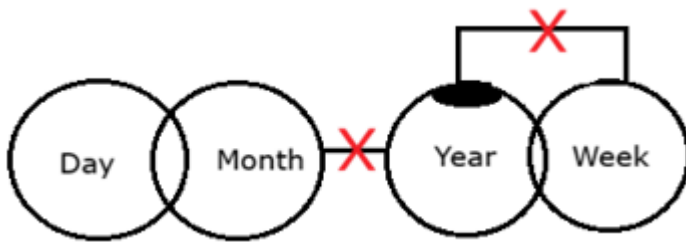

Hence, Case-2 shows the final arrangement.

Answer: E

33. Questions

Answer: D

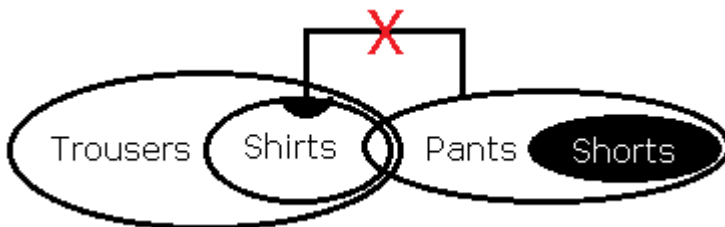

I). Some Days are not Week - Here, there is no direct relation between day and week. So, all the definite conclusions between them are not true. Hence, the conclusion does not follow.

II). Some Days are Week - Here, there is no direct relation between day and week. So, all the definite conclusions between them are not true. Hence, the conclusion does not follow.

34. Questions

Answer: E

I). All Pants cannot be Shirts - Here, shorts are only associated with pants and with other elements its relation is restricted. Hence, the conclusion follows.

II). Some pants are trousers - Here, both trousers and pants are associated with shirts. So, some pants are trousers is the definite conclusion. Hence, the conclusion follows.

35. Questions

Answer: D

I). All football can be bat - Here, there is no direct relation between Football and Bat. So, all the possible

conclusions between them are true. Hence, the conclusion follows.

II). Some cricket can be ball - Here, all cricket are bat and no bat is ball. So, all cricket cannot be ball. Hence, the conclusion does not follow.
